ON THE GRIDIRON.

Foot Ball Practice Already Begun. Foot Ball Schedule. Prospects and Criticism. To Play Virginia.

Immediately on the re-opening of college, Captain Osborne posted football notices calling out candidates for the Varsity and Scrub teams. About thirty men responded, many of them old players on Carolina, and numerous new men came out. The team was extremely fortunate in again securing the services of Will Reynolds, of Princeton, who has so successfully and ably coached our boys for the past three years. Coach Reynolds has already got the men down to hard work and is very determined that a good team shall represent Carolina on the gridiron this fall. Captain Shull of last year's team will be here in a few days to assist in coaching, as will also John McKee ex-'00. It is very probable that Jayne, another great player of Princeton, will occasionally come to the Hill and lend aid in training the men.

VIRGINIA GAME.

The most interesting thing to all is the assurance that we will again tackle Virginia. It will be remembered that after our victory over them in '98 all athletic relations between the two colleges were declared off on account of misunderstandings. The teams of both colleges suffered much, for each team had worked long and hard to gain victory over the other and these two colleges were the greatest rivals. Finally athletic relations have been restored and our boys will tackle the Virginians in Norfolk on Nov. 24th, one week before Thanksgiving. Below will be found the tentative schedule of games which Manager Carr has handed us. Some changes will probably be made, but an idea can be gained as to what ground we will play on.

Coach Reynolds was asked to give his opinion of the team. He said it is too early yet to justly criticize the men. All of them have worked hard, but they are a little slow. The men in general show a tendency to fumble. The backs are slow in starting and do not get off together, but the line is quite strong and breaks through very well.

The material is quite light, but the players are very intelligent, are determined, and the prospects are bright for a good team. Those who have been out so far and the positions they are playing for are as follows:

- Council for centre.
 - Rankin and Brem—guards.
 - Foust and Bennett—tackles
 - Osborne and McIver—ends.
 - Makely and Berkeley—quarters
- The above will probably be the line-up in the game on Saturday against Guilford.
- The other applicants are:
- Orr—centre and tackle.
 - Phifer—centre and guard.

- Ebbs—guard.
- Glenn, F.—tackle
- Roberts—tackle.
- Glenn, J.—tackle.
- Stuart—guard.
- Hyams—guard.
- For ends—Gudger, Lane, Capehart, Ramsay, Graham.
- Quarters—Berkeley, Graves, Makely.
- Backs—McRae, Oldham, Carr, Nichols, Smathers, Donnelly, Graham, Watson, Simpson.

FIRST GAME.

The first game of the season will be played Saturday against Guilford College. The students may as well understand now that without their backing, both financial and moral, a victorious team is an impossibility. Let everybody turn out to the games and cheer our boys on. Remember that they represent the University and do not be too hasty to criticize. Turn out daily to the practices and cheer the good plays and let the team see that you are behind them and surely Carolina need have no fear. The chief cheerer and his assistants will be out Saturday and whether you be Freshmen or Senior learn the college yells and be ready to give them.

- The schedule is as follows.
- Sept 29 Guilford at Chapel Hill.
 - Oct. 6 A. & M. College at Chapel Hill.
 - Oct. 13 Oak Ridge at Chapel Hill.
 - Oct. 20 V. P. I. at Chapel Hill.
 - Nov. 1 University of Tennessee at Knoxville.
 - Nov. 3 Vanderbilt at Nashville.
 - Nov. 5 Sewanee at Atlanta.
 - Nov. 17 A. & M. College at Raleigh.
 - Nov. 24 University of Virginia at Norfolk.
 - Nov. 29 Georgetown at Washington City.

Back Up the Team.

The college does not seem to realize the responsibility that rests upon it. It is absolutely useless to try to do anything unless the students get together and back up the team. The good plays should be applauded; and the men ought to see that we are behind them and will give them support. Then again it is every man's duty to come out and play if he possibly can. Tuesday afternoon practice had to be stopped because there were not enough men out to form two teams. The captain and coach have done all in their power to get men out and now it is time for the students to get together and see that enough men are furnished, so that full practice games can be played.

Unless we do our part, everything might as well stop right now, because without proper support from the student body, a victorious team is an utter impossibility. If you care for your alma mater, give those who stand for her before the State and on foreign soil, your heartiest aid and encouragement.

THE UNIVERSITY

Its Grand Opening. Success of its Graduates. Changes in the Faculty. Commons. Items of Interest

The magnificent opening of the University this fall is a source of congratulation to the executive and everyone connected with the institution. It is the largest number that has ever been enrolled at this period of the year. The total number registered up to Saturday night is 461, and new students are arriving daily. This enrollment omits all duplicates, so there are now that many boys on the Hill. This speaks splendidly for our new President, Dr. Venable. It shows the grand result of his noble work during the summer. It seems to signify that under the new management the University has started forth on a new journey which will not end until it shall have the largest enrollment of any Southern college. It, perhaps, points to the day when the ideal of our beloved President will be reached, and every deserving young man in North Carolina shall have the benefits of the superior education afforded here.

The Freshman class numbers 119 men and the Sophomore class 105. This is the largest Soph class that has ever come to the University. It is hoped that it is the beginning of a new era in which most of the boys who enter will remain for graduation.

The excellent positions obtained by our lady graduates is encouraging. Miss Burke has been elected to a professorship at Peace. Miss Jones is now teaching at St. Mary's. Miss Latham has gone to the San Antonio, Tex., Free Schools. Miss Leah Jones has a very desirable position at Bixline, Mass. Miss Stockard, who graduated with A.M. last year, has recently completed and put on the market a well written "History of Alamance." This has been such a success that she has contracted to write a similar "History of Guilford." This remarkable success of its lady graduates is a great stimulus to the University and encourages it to give higher education to as many young ladies of the State as possible. Misses Moses, Bynum and Cobb have returned for further work at the University.

Dr. Alexander, Professor of Greek, has been appointed Dean of the Faculty to fill the place left vacant by the resignation of Prof. Gore. This new position is a deserved appreciation of Dr. Alexander's merits. He has been a most successful teacher and we feel sure will accomplish much in his new capacity. Prof. Gore won the esteem of the students during his administration and we hate to lose him, but the supervision of the water works and the electric light plant has thrown such a burden on his shoulders that it is impossible for him to attend to other affairs.

Prof. Wheeler, Ph. D., former assistant at Harvard, has been elected to fill the chair of associate professor of chemistry. This is the place made vacant by the promotion of Dr. Baskerville to the Professorship.

Dr. T. A. Ruffin has been chosen Instructor of Law in the place of Prof. Biggs, resigned.

In all probability, the new system of water works will be completed by the first of November. All the material is here or has been shipped. The reservoir is nearly finished and the pipes are being laid. Work is being pushed forward as rapidly as possible. The capacity will be 100,000 gallons. There will be a fresh supply of filtered water every day. This is a much needed convenience and its completion will be hailed with delight by the student body.

Mr. Phil Meade, who has been instructor at Bellevue Hospital and has taken a course at New York, has been selected as gymnasium instructor.

The Carr Building which is now occupied by the students, contains 42 large, well-lighted and well-heated rooms. It is given up entirely to dormitories.

The authorities hope to have the Alumni Building finished this winter. This will add greatly to the beauty of the campus and be of immense convenience as lecture rooms.

Mr. E. K. Graham has been added to the Faculty since last year.

A series of faculty lectures has been arranged for the ensuing year. This movement did much good last year and is gladly welcomed again.

Drs. Baskerville and Alexander are selecting a course of lectures from the most noted speakers of this and other countries, and expect to give the students a rare treat along this line.

Commons Hall is greatly improved this year. The number of boarders is larger than usual and the fare is much better. It is the duty of as many of the boys as possible to board there. It is a college institution and gives better board at lower prices than can be gotten elsewhere. It is merely a tentative affair this year and its existence depends upon the support it receives from the students. It is the only thing which keeps the price of board down and the students should aid it for the benefit of their own pocket-books, if for no other reason.

We learn with pleasure that Mr. Thomas Bost, '96, of South River, will edit the Statesville Mascot during the coming winter, while its editor, Mr. A. D. Watts is filling a seat in the lower branch of the Legislature.

Mr. Jno. W. Hinsdale, '00, has returned from a visit to Raleigh and has resumed his law studies.

The Tar Heel—Some Defects and Remedies.

With the kindest sentiments, The Tar Heel greets its readers,—students, faculty and friends of the University. As it starts on its course, it is animated by the hope that this year it may reach higher things and a farther goal. This year we should join hands to make it a student publication of which no student need ever be ashamed. A survey first of some of the defects of The Tar Heel, and, second, the suggestion of some plans of reform should be of value to this end. We shall speak with that candor which the time and subject urge.

A main trouble is this: It has become a custom here for the appointed guardians of The Tar Heel to treat it with indifference and neglect. It has been a step-child. And the whole burden has often been thrown on the chief, who cannot do the work unaided. It has been a contest among the editors to see which could be the most careless and indifferent. Small effort has been made to put attractive garments on our little Filipino. We have been content that it should be barbarous, and bare.

And while the foster-fathers have neglected the child, the other members of the household, the students of the University, have usually been engaged in bespattering it with mud and occasionally in threatening it with lyddite.

If works are a criterion, however, the real interest of the students in The Tar Heel has been slight. There is no general sentiment such as to incite its editors to do their best. Fault-finding has followed most of the issues; yet there has been little effort honestly to point out defects and propose reforms.

It is easy to find flaws. Destruction is a "pud" and the work of a day. Babies can play at it. Construction is another matter, and takes time.

The Tar Heel will be a better paper if its readers will be helpers. Sensible suggestions about its conduct will be welcomed, for they will do good. Fulminating on the campus won't. If you know anything of interest, give it to us. We need short items about campus doings. Our columns are open. Short poems and humor will be welcome. Let it not be said that the apathy of the college is the cause of the apathy of the editors.

That a college paper cannot be a success without the hearty and cordial co-operation of the students is a truism.

The Tar Heel will be a better paper if every member of its board, seeking refuge behind no excuse, will try to do his whole duty. The hours spent in such a service are not lost and should not be begrudged.

Finally, brethren, The Tar Heel asks and expects that every student take enough interest in it to try to help it. Give it less abuse and more assistance. It is the student's publication and we all share in its success or failure. Which shall we make it?

FOOTBALL PROSPECTS.

We present with pleasure in this issue an article on the present status of the live subject of foot ball at this institution. Before returning to the Hill students were discouraged over the outlook; but now it is certainly growing more encouraging. When asked his opinion, Manager Carr said he thought the prospect was good. The presence of Coach Reynolds, whom we have proved and not found lacking in any quality that goes to make up a coach, certainly makes that prospect better. The presence of a larger number of students on the side lines than last year is a good sign. Every student ought to take off a little time in the after-noon to come out and enjoy himself and help his representatives. And when a man makes a good play give him the applause he so richly deserves.

Students should not come to hasty conclusions about the team. Many a team that began the season apparently without prospects has developed great strength. We have seen that kind of thing here. The men have started to work right and whether we think we are to have a winning term or not, we should give them all the assistance we can. If we have such an esprit du corps, we will have taken a long step toward victory.

Commons Hall.

We have it on the highest authority that Commons is on probation this year. Unless it is patronized by a larger number of students than in the past or at present, the intention of the authorities is to close its doors, for it won't pay to keep them open. This would be a college calamity. The price of board here would go up like a thermometer in a simoon. We urge the students to patronize this great university institution—urge them for their own interest. Its food and service for \$8.00 are unequalled anywhere. The closing of Commons will touch the pocket-books of us all. It will place the boon of University education out of the reach of many deserving young men.

Although no boast has been made of it, it is a fact that the University has opened this year with the brightest prospects it has ever known. The registration for the year will almost certainly be the largest in the history of the institution. We congratulate the executive on the outlook. We congratulate the University that such a hand is at the wheel.

The rowdyism at the Y. M. C. A. reception deserves severe condemnation. We have nothing to say against innocent fun. But this exhibition had viciousness in it; it would not have continued after the appeal made by the President if it had not had such an element. Let us have a college spirit that will put such uncivilized practices under a ban. Youth and exuberant spirits are no excuse for rowdyism.

Col. Waddell's Ancestor.

In the course of a class room lecture on North Carolina colonial history Monday, Dr. Battle brought out an interesting fact in connection with a University graduate and on an eminent citizen who is now a candidate for Senator. He stated that Col. Alfred M. Waddell is a direct descendant of Sir John Yeoman's, the Barbados planter who made a settlement on the Cape Fear in 1677. The colony moved thence to the present site of Charleston.

Campus Chat.

Mr. Holland Thompson, an alumnus, spent Monday here with his brother, Mr. Dorman Thompson

A welcome guest at the opening of the University was Ex-President E. A. Alderman, who spent a day or two here. Dr. Alderman has been spending most of the summer at Asheville, and is in fine physical trim to begin his work at Tulane.

Somewhat tardily, yet at its first opportunity, The Tar Heel extends its heartiest congratulations and best wishes to Dr. Linscott, our popular and scholarly professor of Latin, and his accomplished bride.

Mr. J. E. Gant '99, was here Wednesday on a visit to his brother. Mr. Gant is filling a responsible position in a Burlington cotton mill.

Mr. M. L. Elliot writes from Lafayette College, Easton, Penn., for the Tar Heel. He says he wants to know about football prospects and to see "who gets my place at centre." We wish him the success he deserves in his new field.

Burton Craige, '96, who has been instructor at Horner's School, was recently elected President of the law class.

How is 461 matriculates for the first week? It means considerably over 500 this year.

Mr. Nelson, formerly door-keeper of the House of Commons, is now a member of the law class.

W. D. Pritchard, ex-'01, is now doing service for Uncle Sam in the Philippines as second lieutenant, as is Walton ex-'00.

It is a matter of "University" regret that the genial Bud Means is not on the Hill. He is doing work on one of the Concord dailies.

The University Magazine board met Saturday. The Exchange Department was abolished. No assignments were made. Mr. J. K. Hall is chief.

On the morning of the 17th., President Venable made a few timely remarks in the chapel. He said he had the names of a thousand young men who ought to have a University education.

We welcome the new Instructors: Dr. Wheeler, Mr. Osborne and Dr. Ruffin.

Many old friends were recently glad to see and greet Mr. Walter Murphy of Salisbury, an alumnus and constant friend of the University. He was here from the 15th. to the 17th. Mr. Murphy was reading clerk in the Senate in the last legislature, and his efficiency was such that he will probably be re-elected.

Messrs. John R. Carr, '99, and Julius Caldwell, '00, will take medical courses at the famous Hopkins Institution.

J. F. Post, Jr., of Wilmington, and Stonewall J. Adams, of Raleigh, were here for a few days before the opening. Mr. Adams will take law after Christmas.

Mr. Walter Brem '96, Med. '00, was here from Saturday to Monday en route to Johns Hopkins.

Mr. H. C. Cowles '00: spent several days on the Hill on his way to Johns Hopkins.

B. B. Lane Jr., who taught last year, and T. C. Bowie, who was at Yale, are back, one being a candidate for A. M. and the other for a law license.

It is a matter for congratulation that J. Wm. Jones, the friend and historian of Lee, is the recently called pastor of the Baptist church.

Dr. S. Rappart, eye-specialist of Durham N. C., will be at Pickard's Hotel Saturday, Oct. 6., and those those who would like to have their eyes examined would do well to see him.

Mr. J. H. Sneed representing Lambe and Lyon the Clothiers of Durham will be in Chapel Hill October 1st, with a full line of Gents' Furnishing goods. Goods will be displayed at N. C. Long & Bro's store. Faculty and students are cordially to call and see samples, LONG & Graham Agents.

Athletic Association.

The first regular meeting of the General Athletic Association, composed of all the students in college, was held last Saturday afternoon in Gerrard Hall and the following officers were elected:

President: A. R. Berkeley, '00, of Atlanta; Vice President: A. M. Carr, '02 of Durham; Sec. and Treas: Benj. Bell Jr., '01 of Wilmington; Postgraduate Member of the Advisory Committee: T. W. Jones, '00 of Acton; Undergraduate Member: Frank Bennett, '01 of Wadesboro; Chief Cheerer: Will Battle, of Raleigh.

The following Tar Heel Editors were elected: Whitehead Kluttz, '02; J. K. Hall, '01; Ivey Lewis, '02; B. S. Skinner, '01; B. S. Draz, '01; R. R. Williams, '02; Benj. Bell Jr. '01.

Enthusiastic Meeting of the Young Men's Christian Association.

At 4 P. M. on Sunday the initial meeting of the Young Men's Christian Association was held. The meeting was not only interesting, but stirred up much zeal among the students, and particularly the new students, who were so fortunate as to be present.

Rev. Mr. Newman, of the Senior Class, opened the meeting with prayer. Dr. Hume followed with a short reading from the Scriptures. Mr. F. M. Osborne, the President of the Association, said the object of the meeting was to influence men to identify themselves with this very important branch of the religious life of the University. He then introduced Dr. F. P. Venable, President of the University.

Dr. Hume was then introduced by Mr. Osborne.

Mr. F. M. Osborne next spoke. He gave an outline of the work to be undertaken by the Association during the ensuing session.

The meeting closed with prayer by Dr. Jones.

Music was dispensed by the chapel choir, led by Mr. P. Coob, '01.

Dr. S. Rappart, eye-specialist of Durham, N. C., will be at Pickard's Hotel Saturday, October 6th, and those wishing to have their eyes examined would do well to see him.

Watch this Space.

Meets on last Tuesday night of each month in the English Lecture room.

A. O. P.

W. F. Bryan, President.
D. P. Parker, Secretary.
K. P. Lewis, Treasurer.

UNIVERSITY FORUM.

Ed. K. Graham, President.
W. F. Bryan, Vice-President.
J. Ed. Latta, Secretary.

FRATERNITIES (Secret).

Delta Kappa Epsilon, Zeta Psi, Sigma Nu, Sigma Alpha Epsilon, Alpha Tau Omega, Sigma Chi, Phi Delta Theta, Delta, Kappa Sigma, Kappa Alpha, Pi Kappa Alpha.

SOCIETIES.

Theta Nu Epsilon (Secret).
Pi Sigma (Secret).
Order of Gingham (Junior, Secret). Banquet Thursday night of Commencement.
The Gorgon's Head.
Philanthropic (Literary, Secret). Established 1795. Meets every Saturday night in Phi Hall, New East Building.
Dialectic (Literary, Secret). Established 1795. Meets every Saturday night in the Di Hall, New West Building.

UNIVERSITY GERMAN CLUB.

H. C. Cowles, President.
M. Makely, Vice-President.
A. M. Carr, Secretary.
E. Alexander, Jr., Treasurer.
Meets at call of President. Leader selected for each german.

Y. M. C. A.

F. M. Osborne, President.
T. J. Hill, Vice-President.
J. S. Atkinson, Rec. Sec.
N. B. Spees, Cor. Sec.
C. E. Maddy, Treasurer.

MOOT COURT.

H. C. Cowan, Judge.
W. D. Bizzell, Solicitor.
W. S. Wilson, Clerk.
H. M. Candler, Sheriff.
The Moot Court will convene every Saturday night.

Church Directory.

PRESBYTERIAN CHURCH.—Rev. D. J. Currie, Services every Sunday morning and night except the first Sunday in each month. Prayer meeting every Wednesday night.
EPISCOPAL CHURCH.—Rev. H. H. Meade, D. D., Rector. Services every Sunday morning and night.
METHODIST CHURCH.—Rev. N. H. D. Wilson. Services every Sunday morning and night. Prayer meeting Wednesday night.
BAPTIST CHURCH.—Rev. Frederick Cleveland. Services every Sunday morning and night. Prayer meeting every Wednesday night.

Y. M. C. A. RECEPTION TO NEW STUDENTS.

On the night of Friday, September the 21st, the annual reception complimentary to the new students was given in Commons Hall by the Y. M. C. A. The new men were given an opportunity to meet the professors under whom they are to sit during the present session. Then refreshments were served and the "Freshmen" did full justice to the repast.

Dr. Venable was then called on and spoke in welcome to the new students.

Mr. McKie, Instructor in Expression, recited, in his usual happy style, some dialect poems. Mr. McKie's recitations are always enjoyed by his hearers, and these selections were especially well rendered.

Rev. J. W. Jones spoke of the value of the Y. M. C. A. to those absent from home and its influences for the first time.

Dr. Hume closed the function with an interesting talk on the past history of the Y. M. C. A.

The pleasure of the evening was somewhat marred by the unearthly noises made by certain students who howled around the building wherein the Freshmen were, thirsting for their gore.

Capt. Price Lectures.

Judge McRae, Dean of the Law School, has made arrangements to have well-known lawyers of the State come here and address his students. The first of these lectures was delivered on the evening of the 21st by Hon. Chas. Price of Salisbury. The lecture might have been heard with profit by the whole college. It was a practical talk to prospective lawyers and full of interest. Some sound advice was given and interesting experiences of the speaker were recalled. The occasion was the departure of the the summer law class for Raleigh to wrestle with "the court" for license.

Capt. Price emphasized the immense practical importance of a thorough knowledge of Third Blackstone and legal vernacular. He spoke at length of the jurisdiction of Federal courts, State and Federal. He defended the courts from the charge that they are foreign courts, proving it untrue. Legal comity prevents the clashing of jurisdictions. A Federal court can proceed in any given case only under the authorization of an Act of Congress.

During the lecture the bombs bursting and the general hubbub created by the Sophomores was a source of inconvenience and annoyance to both the speaker and the audience.

STUDENTS IN POLITICS.

It has often been remarked that the ambition of the Southern young man is to serve the State. The University has trained most of the men who have been eminent in North Carolina politics. A very large per cent of the members of the Legislature recently elected are University alumni. What is of immediate interest to the students is the fact that during the past summer five of their number were hon-

ored by their fellow-citizens.

In the 30th Senatorial district, Mr. W. H. Swift, '01, was the Democratic nominee and made a canvass of the district with his opponent. He made a gallant fight against odds but was defeated by the unpopularity of the constitutional amendment.

Mr. W. S. Wilson, '99, and a law student at present, was more fortunate. By hard work he carried the fusion county of Caswell by several hundred votes and will represent it as a Democrat in the lower House of the Legislature. If he is as good a legislator as he is a campaigner, he will be heard from there.

Mr. Guy V. Roberts, '02, was the Democratic nominee in the rock-ribbed Republican county of Madison. He died hard.

Mr. A. P. Spell, '03, was the Democratic candidate in Senator Butler's county of Sampson, where Populists are plentiful as huckleberries. He was not elected but he did his duty.

A. M. Carr and W. H. Webb spent Sunday in Hillsboro. Graham Andrews made his usual weekend trip to the land of his nativity.

Mr. C. O. Abernethy is manager of the University Press company this year. Mr. E. A. Abernethy is studying medicine in Richmond.

Chas. E. Johnson and A. W. Latta spent last Sunday in Raleigh.

THE TAR HEEL.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

Vol. 9,

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., October 3, 1900.

NO. 2.

GOOD BYE MY LOVER.

ATHLETIC RELATIONS SEVERED.

The University and State teams at least for a while will play no games against each other. It came about in this wise: The game of foot ball that was scheduled between the University and Guilford College for last Saturday afternoon was cancelled by our Manager, after having received telegraphic instructions from Guilford which it was impossible for this college to accept.

It will be remembered that last Spring a meeting of representatives of the various State institutions of learning was held in Raleigh and that the avowed purpose of those assembled was to form a State Athletic Association for the purification and management of athletics between the schools in North Carolina. Most of the prominent colleges joined, the University and Davidson being the only two who did not connect themselves with the new body. The University at about the same time joined the Southern Intercollegiate Athletic Association, composed of nearly all the large Universities and Colleges in the whole South. The by-laws and rules of that organization had been made and revised and they represented the best judgment of the athletic teams who had been playing under them for six or seven years.

Some of their laws were quite stringent and some we would rather not have had, but at a meeting of the General Athletic Association of this institution held last April, it was almost unanimously decided to cast our lot with our sister institutions of the South. The decision was very probably a wise one.

But to return to the State Association. At that meeting committees were appointed to draw up the rules and direct the other work. That committee met and formally agreed on a large number of very strict and unusual laws, among them being one that the members of that Association could play no team who would not abide by their laws. Guilford demanded that we be governed by the State Association rules, which we of course refused, hence the game was cancelled. Another rule was that a postgraduate could play for only one year, other students can play only four, and after June no student of Law, Medicine, or Pharmacy can play. To abide by these rules would seriously cripple the University, so much so that it would be absolutely impossible for her to attempt to compete with Georgia, Vanderbilt, Virginia etc, all of which institutions are governed by the rules of the S. I. A. A. While the rules adopted by the State institutions were very stringent, there is positively no way of enforcing them. The University in the past has stood and it stands today for pure athletics. Some-

times we admit, that we did not keep fully in the limit. It was not because of unwillingness on our part, but on account of ignorance of the existing facts. In the future our teams will be watched more closely than ever before and hereafter they will be as this year's team is, every member an amateur. Thus when this State Association was formed, immediately it became a fact that the University would have to decide between the narrow, untried rules of their body, playing only State teams, and a representative association of experience and stability, thus giving our players a chance to compete on equal terms with colleges that were our equal. Of course where the University is forced to make this choice between the schools of the State and the greater institutions outside, there is but one course for her to pursue, however much genuine regret we must feel in not meeting the schools again in friendly and pleasant contest. It is earnestly hoped that some way can be found out of the difficulty and that the other State games arranged by Manager Carr can be played.

Resolutions of Respect.

Whereas an All Wise Providence has seen fit to receive from among us our fellow class-mate, Joseph Roscoe Reynolds, be it resolved by the Junior class of the University. First, that we can but deplore the death of one who in all the relations of life was distinguished for his integrity; who was pure of heart and honest of purpose.

Second, That as a student and as a man, his habits of industry and perseverance, his upright Christian character are worthy of imitation by all.

Third, That while we would not intrude upon the sacredness of the grief of the bereaved family, yet we desire to tender to them our heart-felt sympathy, and we recommend to them the consolation that he has been transplanted to a higher and happier life.

Fourth, That a copy of these resolutions be sent to the Sampson Democrat, The Caucasian and The Tar Heel.

R. R. Williams } Committee,
D. Stern } Class
J. B. Cheshire Jr. } '02

Tom Worth, Manager.

The Advisory Committee of the Athletic Association at a meeting held recently, appointed Mr. T. C. Worth '02, manager of the baseball for 1901. The appointment is a good one and Mr. Worth is already in correspondence with some of the best teams in the country trying to get dates with them. A captain to succeed Mr. Graham Woodard who did not return to the Hill has not yet been appointed.

"The Genial Bud Means" has returned to the Hill and enters the Junior class. He is welcome.

FOOTBALL

Men Urgently Needed.

A few more men are needed out on the football field. Can you help the captain and coach get at our players not yet out?

Carolina has a splendid record behind her in athletics, often, very often, the result of a successful struggle against great odds. In spite of these odds, she has won a reputation which every North Carolinian may feel proud of.

But all that is past history. We are, most of us, too often prone to forget how directly responsible we are for how things happen right now, about us, and how much our influence in the right direction can do. We forget that we are making history.

Many of us remember the '98 football team, and glory in our memory of them and their proud record, "Champions of the South." Almost all of us know how narrowly we missed the same honorable distinction last year. But just let's not together and think a moment. De we properly realize that it lies with that little squad of scant twenty-two men that we see out every afternoon to continue that fair record? Do you think we are giving them the encouragement we owe them? Think about it. Now there are two ways in which we can do this. It does untold good for us as spectators at the practice games to applaud heartily, and make the teams feel that they are in an atmosphere of strong moral backing.

But right now they need our help in a way that calls for a little thought. They want a few more men. Why, a few afternoons ago, a man had to drop out, and the line-up had to stop right there. There was no scrub team! Now when we consider that a college we have to play late in November has a squad of fifty applicants, it does not seem exactly natural that we should expect to equal them with only about half as many men to pick from, does it? You answer quickly "We have done so!" True, so we have. But probably never before have there been so few applicants for the scrubs. Some afternoons, indeed, there are all the men out we need, but men are constantly getting hurt. We ought to have out a reserve of ten substitutes over the Varsity and scrub teams.

There is certainly material in college that can do immense good in helping the Varsity for the work before it. It is necessary for each one of us to do what he can toward making these men come out. We may thus directly start the train of cause and effect which will give Carolina a winning team this year.

Messrs. "Buck" Miller and W. G. Wharton, A. B. '00 spent a day or two with friends this week.

WITH THE SOCIETIES.

DI. SOCIETY.

The query discussed in the Di society last Saturday night was:—"Resolved, That the Powers should withdraw their troops from China." The decision was rendered in favor of the negative. Mr. Coble made the best speech.

Following is a brief outline of the argument: The affirmative declared that the mission of the troops was to release the besieged envoys, and as this has already been accomplished, they had no reason for remaining. They claimed that there was no use to try to civilize the Chinese, and that troops in China now would tend to arouse the indignation and hatred of the natives.

The negative advanced the argument that the purpose for which the armies were sent to China was to establish a stable government and to find on whose head the responsibility of the horrible massacres lay. Therefore, they should not be withdrawn until this was accomplished. They showed that the Chinese had broken every treaty formerly made with them, and could not be depended on. The moral effect of the removal of troops on the Chinamen would be so debasing that they would soon commence another uprising.

PHI SOCIETY.

The debate had an amusing as well as a literary side. The speeches of Messrs. Stokes and McDiarmid were especially interesting from the standpoint of a Puck or Judge artist. "That a young man should vote for Bryan in November" was the question debated. The committee (Messrs. Short, Ramsay, Rollins) decided in favor of the affirmative and reported Mr. McDiarmid as best debater. The society considered the proposition of the lecture committee of the Faculty favorably, that, under the auspices of the University and the societies, lectures by distinguished men would be held this winter. The meeting was interesting and profitable, and showed that life was in the old society yet.

OUR LAW SCIENTISTS.

University Law School's Fine Record. Nineteen Pass.

In the recent Supreme Court examination, the University law school sustained its fine reputation in the most signal manner. Judge McRae has good cause for pride in his boys, for they carried off the honors. The University may well feel proud of Judge McRae's instruction. He has been careful and thorough. The Supreme Court's judgment on his class is the proof of it. From here seventeen men went to face the "court" with Judge McRae's certificate that they had passed all examinations with credit in their pockets. Twenty-four was the total of University applicants. Nineteen received license to practise law.

The Parting of the Ways. The University's Choice.

We fear the University and its sister institutions in the State recently came to the parting of the ways. When they tell us that we must journey with them on certain stringent conditions of their own making, or not at all, we have to take the latter alternative and walk down our own path. Let us hope that the divorce will be temporary and a reconciliation effected by the return to reason of the party that brought about the separation.

This separation is to be regretted. The University desires a continuance of pleasant relations with all. We want to live in peace and harmony with institutions which are engaged in a common cause, the uplifting of North Carolina.

Yet the action of these institutions themselves made that separation inevitable. When they made rules for the State Athletic Association aimed at the University—which would cripple it so that it could not meet foemen worthy of its steel—and asked it to play them under those rules or not at all, they severed athletic relations with us. If the State Association for a moment thought we would prefer it to the Southern Intercollegiate Association, it thought foolishly.

There is no arrogance in the frank statement of a truth that is known to all men; and just such a truth is this: the work done here in athletics differs from that of the schools and colleges of the State Association not merely in degree, but in kind. Nothing else could be expected. We have many more students and much more interest than any of them. Therefore the University has no athletic rivalry with any of them.

On the other hand the members of the Southern Intercollegiate Athletic Association are our rivals. They put out teams whose inferiority to ours is not a matter of course. We have to work and to fight to win. Such hot contests stimulate us to do our best, keep interest keyed up, and get the college to back up the team. If we shut ourselves up in such a narrow athletic arena as the State Association offers, the stimulus of this institution's athletic life would be gone. Most likely we would sink to the plane of our competitors; and eventually the athletic spirit would die of dry rot. Israel would be undone and her glory departed

The Di and The Phi.

Last year the literary societies of the University touched the highest point they have reached in some years. Their total membership was greater than at any time since compulsory membership was abolished. The interest taken was considerable and some enthusiasm was aroused. The work done, while it left room for improvement, was of a very creditable grade. It was work which made for knowledge of parliamentary practice and power in debate; for abreastness of the times and for a broad culture.

This year these societies should still increase in numbers and interest. They should make their influence felt for more intellectual life at the University. There is too little of it. We are justly proud of the success we have achieved in athletics, in the sound body; and we mean not only to hold the proud place we have attained but to go higher. But let us not forget the sound mind. There are certain intellectual exercises which give to the mind such strength as is given to the muscles of the body by athletic exercises. And of these perhaps the chief is that contact of mind with mind, that flash of steel on steel, which is called debating. It makes a man alert and self-poised. It gives him the mastery of self, which is power over others, to stand before an audience and give fitting utterance to the thought that is in him.

Every member of the Freshman class should join one of these societies. The expense is very slight, the benefit very great. If you join and take interest in the work, you will help yourself and the society. It is true that many men go through college without ever crossing the society portals. One of the perennial wonders here is the spectacle of men who hope to be advocates and play some part in affairs, deliberately neglecting an institution which is of far more importance to them than anything taught in textbooks. They are making a capital mistake, and one day they will realize and regret it. But there is no reason why one man should imitate the folly of another. We urge the new men not to neglect the opportunity to connect themselves with these great, historic organizations which, for a century, have given the State her most eminent citizens. Let us all join hands to make these societies to-day worthy of the great traditions which cling about their past. May we be worthy inheritors and wise conservators of those memories!

On the 24th of November in the city of Norfolk we will lock horns with our ancient and natural rival, the University of Virginia. Any apathy that may have existed in regard to football should be put out of business by that thought. We want to win that game; we must win it. Here is the opportunity the college has been longing for. Let it be consistent and make the most of it. If an intense and general enthusiasm for success in this contest is aroused, it will be more than half won already. It will inspire our team and frighten our ad-

versaries. Let "Remember 6 to 2" and "victory" be the slogans of the Tar Heels as they go up to fight the good fight against old Virginia.

At the meeting of the Athletic Association on the 20th, Dr. Baskerville proposed a plan which it is to be hoped is not to be allowed to fall into desuetude. If the students will subscribe sufficient stock in the enterprise, a bathing pool will be added to the list of University institutions. There is no greater need here than some kind of facilities for taking a bath. It is sad but true that, through no fault of his own, a University student has a hard time keeping clean. The suggestion of a natorium by stock subscription, giving bathing privileges, is a good one and needs encouragement. A swimming pool will give us both pleasure and profit.

The attention of the students needs to be directed to the work in expression. The University has provided a most competent teacher. The instruction given is excellent, and of the highest practical utility. No tricks of elocution are taught, but only a natural expression of thought. There are many men here who need this course, and are neglecting it. It is an opportunity which they will probably never have again.

Carolina owes Sewanee something of a grudge and should get in shape to put this new rival out of the rivalry business this season. Great interest ought to be taken in vanquishing this college, for it is of the greatest importance to do so.

Success or Defeat?

Shall we have a football team this fall that is worth anything? Every student must certainly hope for such a result, but it is absolutely useless to try and train the men without a scrub team. For three afternoons there could be no line-up on account of lack of players. This certainly reflects very strongly on our college spirit. Prospects for a good team are now very good, if the men can only get decent practice. Every man who is physically able should get a suit from Manager Carr and go out. The captain and coach have done all they can, we students must do the rest. We have this year probably the greatest number of big games we have ever had. Now it certainly will be a calamity for us not to have a team worthy of us. It lies with the student body what shall be the result, a long line of defeat or a brilliant series of victories. Surely we will go to the rescue and make possible a successful eleven of 1900. Another thing we want to criticize is the seeming "apathy" on the part of the spectators.

It is true a very large number of the students go out every afternoon to look at the practice but rarely is a sound heard. Every good play should receive generous applause. The men can then realize that you are watching them and are interested in them and it is a great incentive to better effort. So go out and cheer the boys on. It does not hurt you and it helps them.

President Venable's Address. An Excellent Talk.

At the initial meeting of the Y. M. C. A., President Venable said in part: "The young men who have banded themselves together for Christian work among the students, need a special word of commendation. At some self-sacrifice they have formed a Young Men's Christian Association for the furtherance of the love of God among the students. This Association holds out a helping hand especially to those who, for the first time, are absent from home and its influences, and are exposed to the temptations that lie in wait for the young man. It is so easy to stray from the right path that it is necessary for a young man to associate himself with other earnest young men and by contact with them to be strengthened for the battle that awaits every Christian. The new students must not be ashamed to take action in this matter, but should stand steadfast to the brave and true Christian workers who compose the Y. M. C. A."

Another reason for joining this worthy organization is that every Christian must work for others as well as for self. More can be accomplished by union with others than by individual effort; and for this purpose the Y. M. C. A. is especially valuable on account of the unselfishness and high ideals shown by it in church and college life.

Then, too, the Y. M. C. A. does much to cultivate the proper college spirit. Every State University should be a center of light to the State in which it is located, and the Y. M. C. A. does a great deal to advance the proper religious tone in the elements that make up the University. For these, if for no other reason, every young man should ally himself with the Young Men's Christian Association.

College Men for Bryan.

The New York Times gives an interesting account of an organization of a Bryan College Men's club in the gold ballroom of the Savoy hotel recently. A large crowd was present representing most of the great institutions of the country. The University of North Carolina was represented by Mr. John Sprunt Hill, an alumnus. He was made a member of the executive committee.

A Natorium.

There is a scheme for getting a swimming pool and bath houses and committee of seven was appointed with Prof. Howell as chairman to look into the feasibility of the plan.

The committee are as follows: E. V. Howell, chairman; Allgood Holmes, '01; John Henderson, '02; Alex. Hanes, '03; Lawrence Holt, '04; John Hinsdale, Law; Willis Alston, Med.

At a meeting of the Tar Heel Board held on the 22nd, Mr. Whitehead Kluttz was elected Editor-in-Chief, Mr. B. S. Skinner was elected Business Manager and the following appointments were made:

Locals; I. F. Lewis, J. K. Hall and R. R. Williams. Exchange; B. S. Drane; and Athletic; Benj. Bell, Jr.

Campus Chat.

Mr. E. A. Abernethy spent Sunday on the Hill.

In the practice game Monday Watson dislocated his collar bone.

Mrs. H. B. Short and Miss Short are here on a visit to Mr. Henry Short.

Mr. Jack London spent a few days in Pittsboro with Mr. W. F. Smathers.

Sunday after-noon in the Chapel Prof. Collier Cobb lectured interestingly on "Bible Study."

The Freshmen played the Sophs a good game to a draw Saturday. The score was 5 to 5.

Messrs. Jim Webb, Browne and Cheshire Webb, and Paul Collins spent Monday on the Hill.

Miss Margaret Wood, of Wilmington, is here on a visit at the home of Mr. J. A. Holmes.

The students who were here last year are glad to welcome back Mr. Joe Martin, our gritty little quarter back of '99.

The October german will be held on the 12th. A goodly number of visiting maidens are expected. Metrah Makely is leader.

M. W. H. Webb '03 has been suffering from a bone felon so much that he was compelled to return home for a few days. He is improving, now.

We are sorry to see thoughtless students again beginning the practice of cutting the beautiful rectangle in front of the buildings into paths. The old adage "Haste makes waste" is peculiarly appropriate here.

It is queer how many men have dropped out of college a year or two and have returned this year. This seems to illustrate that love of alma mater which has done so much to make the University famous for over a century.

Does anyone know why Marvin Carr and J. C. Webb went to Hillsboro last Sunday. There must be a strong attraction to pull them 24 miles over a country road and back for the sake of an hour or two at Hillsboro.

Ask "Pick" how he enjoyed the Fresh election on his premises. The elusively eel-like Freshmen slipped thro' the Sophomore's fingers and elected Albert Cox captain of their football team, and Payne manager. Congratulations on your success, Freshmen.

There is talk of holding the second annual debate between this University and Vanderbilt in Raleigh next spring. The societies have appointed committees to look into the matter. The idea is an excellent one, for the debate will thus attract the attention and interest of the State.

Mr. T. C. Worth left last Monday evening for Columbia, S. C., to act as attendant at the marriage of Mr. Christopher Atkinson, his cousin. The knowing ones are whispering that Tom, is, ere long, to act as one of the principals in a like affair.

Crane is coaching Vanderbilt this fall.

Meeting of Elisha Mitchell Scientific Society.

The first meeting of the Elisha Mitchell Scientific society for the college year was held in the Chemistry lecture room last Saturday. The election of officers for the year took place. Dr. Richard H. Whitehead was elected president. Prof. Howell, Vice President; Dr. Chas. Baskerville, Recording Secretary; President Venable, permanent secretary.

The Elisha Mitchell is one of the most active societies in the University. At its monthly meetings matters of world-wide interest in the scientific world are discussed in a scholarly manner.

Exchanges.

As the colleges have just opened and gotten to work, exchanges are not at all numerous as yet.

All through the South, college enrollments have been unusually full this fall. Texas expects to lead Southern Colleges in numbers, with about eleven hundred students.

Reports of strong teams come from several colleges with whom we have games this fall. Virginia's prospects seem unusually good. They have a squad of fifty men out regularly, from which number they expect easily to be able to fill the few vacant places with good men. They have a strong new man in Walker, of Nashville, Tenn.

Sewanee is also highly pleased both with the quality and quantity of her material. She has a regular squad of thirty men who are giving Coach Suter great satisfaction.

Georgetown will be coached this fall by Dr. Alfred Bull, an old Pennsylvania centre-rush.

Tennessee is said to be looking forward to a victorious foot ball season with most of her last year's team back.

An effort is being made to get the Yale-Princeton game played on Manhattan field, New York.

Mr. J. H. Sued, traveling salesman for Lambe & Lyon of Durham will be on the hill Wednesday and Thursday an N. C. Long & Bro's store.

Dr. S. Rappart, eye-specialist of Durham N. C., will be at Pickard's Hotel Saturday, Oct. 6, and those who would like to have their eyes examined would do well to see him.

Wharton's Gallery,

The Magazine.

It is the purpose of the Board of Editors of the University Magazine to issue a number during the month of October. Just what time in the month no one of us can say, for this will depend on the action of the students. The Editors of the Magazine cannot make a success of it without the constant help of the students. Indeed, it is their understanding that were they selected to aid the student-body in its effort to bring out from time to time a decent and respectable publication;—one that will be a credit to the University.

It is the work of the editors to select material for publication, but not necessarily to create the material. The captain, manager and coach of the football team do not even play ball themselves, but they select the proper men for the different positions. And these men learn to play football just simply by playing. That is the only way that we can hope to do anything—simply by doing it.

The Magazine intends to work on this principle during the year. It is going to ask the Freshman, the Sophomore, the Junior and the Senior to feel a keen interest in the Magazine; because it is a part of the University of which he is a part. It is a member of the same family of which he is a member.

The Freshman or the Soph may not know much. He may not be intimately acquainted with the Law of Relativity, or be able to explain in a satisfactory manner the proposition that "all mental states are primarily teleological," yet he knows more than he gets credit for. There is a tendency among the upper classmen to discourage a Freshman if he shows a disposition to make himself felt in any capacity except as an athlete. If the Freshman or the Sophomore waxes vehement in debate in one of the literary societies a grimace or a moan from one of the older men will be generated for the purpose of dampening his ardor. This disposition to discourage any man who is trying to do helpful work has no sort of business around a University.

The Magazine purposes to be the mouthpiece of all who have any thing worth the space, whether they be Freshmen, Sophomores or what not. It is going to ask them to submit articles for publication. These may not always be published. They may not be worth it; but before the editor refuses any article space on account of its unfitness, he will have his own notion of its worthlessness confirmed by some one more competent to judge than he.

The under classmen are required to prepare from day to day in their class work in English just such articles, aside from their brevity, as the Magazine wants. There is no reason why the same man who writes a theme for the instructor in English that is graded 98 can't, with a little more work, prepare an article for the Magazine. Such work will be helpful to him. To see one of his own productions in print will give him some hope.

We have spoken of the under classmen at some length because we feel that they have been made

to understand that the Magazine is high above them, so high that they "cannot attain unto it." Now we hope that the older students in college understand the status of the Magazine. They know that it must have material to use. This material must come from them. Money is not what it needs. The Business Manager will look after the finances.

What it does need, and must have, is articles for publication. If you have the least literary genius about you, and can write a historical sketch, a story, or even a poem. "for the autumn days have come," write it at once. The first issue cannot make its appearance unless contributions are handed in.

Training Table at Commons.

One of the most important things connected with the football team is the announcement that a training table will be run for the players. The table will be at Commons, and digestible food that will help the players wonderfully, will be served. It is a wondrous thing to visiting teams that our boys can put up the sturdy game they do, and prove themselves such physical men, with their food, which always before the players have taken at their regular boarding houses. This table will build the men up and keep their health good. The following will have seats at it: Messrs. Means, Councill, Bennett, Foust, Roberts, Glenn F., Glenn J., McIver, Osborne, Berkely, Martin, Makely, Donnelly, Smathers, Watson, Nichols, Carr, Phifer, Oldham and Brem.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

Vol. 9,

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., October 10, 1900.

NO. 3.

CAROLINA'S VICTORY.

The First Game. Deaf and Dumb Players No Equal for Our Team.

The first game of the 1900 football season was played last Saturday afternoon against the Deaf and Dumb Institute of Morganton and resulted in an overwhelming victory by the score of 38 to 0. This was the first game played on the new Athletic Park, which has been rolled and levelled nicely and which makes a very excellent gridiron. A large number of students and townspeople were out, but not as many students as should have been. The game, of course, was not exciting, as the visitors were in no way a match for our boys, but enough could be seen to show that Carolina has a winning eleven. The playing was fast throughout all the game and the interference and defence was very good. Our greatest fault was in too much fumbling, though much could be forgiven on account of the very oppressive afternoon.

The game was called at 1:30 with the visitors defending the East goal and Carolina kicking off.

Graves made two kick-offs which were not counted because of off-side play and out of bounds. Then Graves kicks to their five yard line and the ball is advanced 15 yards before the runner was downed. Crutchfield loses 1½ yards and on next play gains 5½ yards. Visitors gain 2½ yards more and Robertson tries line for no gain. Again our boys hold them for no gain and they kick 10 yards when ball is fumbled, but Carolina obtains it. Graves goes over line for 8 yards, and Carr follows with 6 yards more. Oldham skirts end for 6 and then 3 yards and fumbles, but Osborne gets the ball with gain of 4 yards. Osborne goes 12 yards for touchdown.

Brem kicks goal.
Score—Carolina 6; D. & D. 0.

Carolina now defends west goal and D. D. kicks to their 20 yard line. Ball is caught by Osborne who makes a pretty run of 31 yards. Graves tries line but fumbles and Martin gets the ball with no gain. Graves goes through a beautiful hole in the line for 32 yards. Carr fumbles and the visitors obtain the ball on their 18 yard line. Robertson gains 4 yards and then by close formation, which they use throughout the game, they gain 4 more. Crutchfield is beautifully tackled by Bennett for a loss of 1½ yards. Ramsay gains 1 yard. Ramsay kicks 23 yards to Graves who advances 9 yards. Carr goes around end for 3 yards. Oldham goes over guard, through beautiful opening for 25 yards and touchdown.

Brem misses goal.
Score—Carolina 11; D. & D. 0

Visitors again kick to Carolina's 18 yard line and Graves L. gains 22 yards and loses ball on our 40 yard line. D. D. tries line for 14

yards gain and Robertson fails to gain around end. They try line play again with no better success and the ball goes over on downs. It is Carolina's ball. Oldham makes 8 yards around end and Carr follows with 9 more. Graves hits centre for two yards and Osborne makes a magnificent run of 53 yards for a touchdown, beautifully cross-stepping and going around left end.

Brem kicks goal.
Score—Carolina 17; D. & D. 0.

Again, the visitors kick off, this time to Carolina's 10 yard line to Oldham who runs 29 yards and then skirts the end for 2 yards more. Graves goes over guard for a gain of 2½. Rankin off-side gives the visitors 10 yards, but Carolina's ball, third down and 9½ yards to gain. Graves kicks 26 yards, ball goes out of bounds and is brought in on their 38 yard line.

Robertson loses 2 yards and Crutchfield 1½ more. Ramsay kicks, but the ball is nicely blocked by Council, but the visitors obtain it. They fumble with a loss of 4 yards, and Council gets the ball on their 28 yard line when time is called.

First half 20 minutes.
Score—Carolina 17; D. & D. S. 0.

At the beginning of second half several changes were made in our line-up. Phifer goes in as left guard in Rankin's place. Glenn J. B. succeeds Carr at left-half; Glenn F. goes in tackle for Bennett; and Graves' place is taken at full by Smathers.

SECOND HALF.

Carolina defends east goal and receives the kick. Ball is kicked to our 18 yard line and Graves L. runs for 14 yards. Glenn J. B. loses 5 yards and Osborne in a pretty run around end gains 14 yards. Oldham advances 2 and Glenn J. B. follows with 11 yards. Osborne skirts end for 24, Glenn J. gains 3, Oldham 5, Glenn J. 8, Oldham 4 and Glenn J. goes remaining 5 yards for touchdown.

Time 3½ minutes.
Brem misses goal.
Score—Carolina 22; D. & D. S. 0.

The visitors kick to Carolina's 30 yard line and Phifer advances only three yards. Glenn F. advances 14 and Glenn J. B. 10 yards. Glenn F. gains 11 and Oldham gets 3 more. Glenn J. advances 2½ and Oldham 9 yards, Glenn J. gains 13 and Oldham goes 6 for a touchdown.

Time 4 minutes.
Brem misses goal.
Score—Carolina 27; D. & D. S. 0.

Donnelly goes in a right half in place of Oldham and Means succeeds Brem at left-guard.

The Deaf and Dumb boys kick to Carolina's 25 yard line to Osborne who runs 14 yards and then out of bounds. Gudger takes Osborne's place at end and Roberts goes in at tackle for Foust. Means off-side gives the visitors 10 yards. Carolina's ball, first down, fifteen yards to gain. Glenn F. gains 7 yards

and Donnelly kicks, but several visitors are off side and ball is brought back and Carolina given 10 yards and the ball. Glenn F. skirts end for 30 yards and is beautifully tackled by Robertson. Donnelly hits line for 7 yards and fumbles but Gudger gets ball for no loss. Donnelly gains 3½ and Glenn goes 2½ for a touchdown.

Time 4½ minutes.
Donnelly kicks goal.
Score—Carolina 33; D. & D. S. 0.

Makely succeeds Graves L. at quarter.

Visitors kick to our 23 yard line to Roberts who advances 5 yards. Glenn J. fumbles and loses 3 yards. Glenn J. again fumbles and McIver obtains ball with loss of 4 yards. Smathers kicks 23 yards to visitors who fumble and Means gets the ball. Donnelly skirts end for 8 yards and goes out of bounds. Glenn J. behind beautiful interference runs 55 yards for a touchdown.

Time 2¼ minutes.
Donnelly fails to kick goal.
Score—Carolina 38; D. & D. S. 0.

The visitors kick to our 40 yard line; ball hits Council and bounces back and they obtain it. Crutchfield gains 2 yards. They try the line for no gain. Time up with ball on Carolina's 35 yard line in visitor's possession.

The result of the first game is very gratifying. It shows that our boys can play well, and though the weather made the game slow at times, yet on the whole it was a fast game and some really nice playing was done.

From now on our players will have to work harder than before and correct in earnest any faults and weaknesses they may have.

What may be classed as the features of the game are Osbornes's, Glenn's and Oldham's long runs and the beautiful interference afforded them at times and for the visitors the playing of Rosson and Robertson.

The management has arranged a schedule of big games and to do anything at all against them a very formidable team is necessary.

Now is also the time for the student to stand up like men and do their parts. Cheer the good plays and by your presence, not only at practices, but at match games, give inspiration to the men, for all are working for the same end, the success of alma mater against any foe. Many of the new students did not know the yells Saturday, and this is not as it should be. Learn them immediately and then be able to join in with the others and cheer the University eleven as it should be cheered.

The line-up was as follows:

D.D.	Carolina.
Rosson (Capt.)	Council
Watkins	R.G. Brem & Means
Carroll	L.G. Rankin & Phifer
Clayton	R.T. Bennett & Glenn F.
Meacham	L.T. Foust & Roberts
Chambers	R.E. Osborne & Gudger
Mebane	L.E. McIver
Hosstaeter	Q. Graves & Makely

Crutchfield R.H.B. Oldham & Donnelly.

Robertson L.H.B. Carr & Glenn J.
Ramsay F.B. Graves & Smathers.

Umpire—A. R. Berkely.
Referee—Dr. Baskerville.
Linesmen—Glenn & Gudger.
Time Keeper—Lamar Rankin.

Σ.A.E. Dance

One of those delightful breaks in the monotony of college life in a small village occurred Friday night, in the shape of an informal dance given by the Σ.A.E. Fraternity to their young lady friends. To say that Chapel Hill "had gathered there her Beauty, and her Chivalry, and bright the lamps shone o'er fair women and brave men," would be to quote a trite expression of the joys of an occasion like this, so we will only say that when the magic hour of twelve approached, and when Utley's hand was grasping the throttle controlling the electric lights, there was no participant but who wished the evening were to be spent again in gliding through the dainty measures of the waltz or the two step.

Freshman Games.

Although it will be impossible for the University team to meet any of the State teams on the gridiron this fall, it is very gratifying to know that athletic relations will not be entirely severed between us and several of the State teams. The Freshman class eleven will play the teams from Horner and Bingham. The first game will be played in Oxford, Oct 20, and then both Horner and Bingham will come to the Hill and meet our boys. The Fresh class team will in this way represent the College in its relation to the State preparatory schools and its record will be in a sense the University's record. Captain Cocke will practise his men daily and it is probable that it will be a very strong eleven, well able to meet its opponents. Manager Payne has not yet definitely arranged all the matters, but the games will be played, and two of them here. Therefore in every way we must encourage and aid in making the team of the class of 1904 a very successful one.

Med Class Election.

At a meeting of the Second-Year Medical class last Friday night in the Physiology lecture room, the following officers were elected:

President	W. H. Everhart.
1st Vice	W. W. Craven.
2nd Vice	C. E. Patterson.
Sec'y & Treasurer	G. F. Thigpen
Poet	W. C. Linville.
Historian	R. N. Littlejohn Jr.
Surgeon	A. E. Cates
Prophet	H. H. Hartley

This class has the distinction of being the largest and best prepared that has yet attended the University. Every member speaks in highest praise of the excellent instruction of Drs. Whitehead and Mangum,

The Tar Heel.

We congratulate the University and the literary societies on their arrangement of an entertainment course embracing several of the noted lecturers of the country. If there is no slip between cup and lip, we will have a few feasts of good things here. Chapel Hill is an isolated village and the students here miss many opportunities for culture and enjoyment which those who live in cities have. When a really good attraction comes, it is a magnet that packs Gerrard Hall. Last year Gordon and O'Rell illustrated this. Such treats are so rare here that they produce general delight. The whole college should, and doubtless will, see that this year's plan is a success financially and otherwise, so that it may be continued and extended in the future. Let the speakers and entertainers who will come to us through the generosity of the University and the societies be welcomed as sweet and cooling waters are in a land of thirst.

There is kept standing in the directory column of this paper the name and officers of an organization called the University Forum. Is this an obituary notice, or is the organization not dead but snoozing? If its slumbers are not too deep, it should be aroused, made to shake off its lethargy, and fill a large place in the life of this institution. It can fill a void if it is properly conducted, in accordance with the idea that its chief promoter, Mr. Graham, had of its purpose at its inception. It should not be a debating club; both our literary societies are debating societies. It should live up to the name with which it was christened and which was changed in an evil hour. We need a current topics club in the University. This is a splendid place for a man to get rusty on the history that is making in the world in his own time. A current topics club would keep many of us abreast of the time who are accustomed to lag some stadia behind it. Unless we are badly mistaken there is general desire on the part of students who think to have such an organization here. Many of them have said as much. Suppose we give them a chance to resurrect and reform the club that "rose like a rocket and fell like a stick" under the name of The University Forum.

Dr. Venable made a flying trip to Raleigh Saturday.

Some Judgments and Propositions.

Saturday's game was the first good opportunity the college has had to size up its representatives on the gridiron as a team. Before the game was half over, things began to clear up. An estimate of the team and some sort of forecast of its probable place in Southern athletics—a prognostication which was not mere guess-work—could be made. What, then, is to be said of the way things look, athletically speaking, around this University, after the first skirmish is over?

If the judgment is a just and truthful one, it must be hopeful. We have representatives who have it in them to do this institution honor by winning great victories. We have a strong line, probably stronger than any other Southern college team can show at this writing, and it will be stronger. Behind the line we need strengthening. We do not wish to be boastful or overconfident, but we believe that with proper work on its own part and proper support from the students as a unit, the foot ball team of the University of North Carolina will come out of the season of 1900 with the title of Southern Champions—an honor which should appertain to this University as a natural right, an inalienable and perpetual possession.

We believe with reason, from the opinions of others on the teams of the other colleges and our own verdict on our own, that no Southern institution has better prospects for a bright football record than this institution has. It is a good team, made up of stalwart and gritty men. Let the college do its whole duty by it and it will be a great team, made up of victors. Now that we know we have the men, we should work unceasingly for the victory. All lend a hand, heave hard, and there is no reason why at the close of the business Virginia shouldn't resemble a "fallen tower" more than Mr. Micawber did and our other opponents look more like "shattered columns" than did the king of the poet's song.

Alderman's Welcome to Tulane.

It is with genuine pleasure that we note the warm welcome Tulane gave Dr. Alderman upon his assumption of the duties of president. The New Orleans Picayune says: The greeting accorded the president by the student body was enthusiastic. It was soul stirring. They rose to the occasion with the full vigor of strong-armed, strong-lunged young manhood, and fairly yelled and applauded their way into the new president's heart. As he stood and looked at them and listened to their greeting, one could see he fully sympathized with their feeling and was really meeting them half way in their enthusiasm. His eyes glistened and his bosom swelled with pride in the handsome and distinguished young gentlemen that were yelling themselves hoarse in his honor. When he spoke there was a slight tremor in his voice and a little moisture in his eye, but as he proceeded his eye grew calm and his voice sturdy, with a modulation at once pleasant and forceful. Dr. Alderman's address was very impressive, and reached the heart of every student present.

The handsomest thing about this

honor is that it is so richly merited. "Our Tony" is worthy of it all. The Louisianians who now do honor to the man, a high type of the Southern gentleman, will ere long testify unitedly to his genius for educational work. The Tar Heel and the Tar Heel state go out in the best of well wishes to Dr. Alderman in his work at Tulane. He is a son in whom the State that gave him birth may justly take pride.

Senior Class Election.

At a meeting of the Senior class held in Gerrard Hall on Monday, October 8th, the following officers were elected:

President	D. M. Swink
1st Vice	R. O. E. Davis
2nd Vice	C. P. Coble
Secretary	B. S. Skinner
Treasurer	A. W. Hardin
Historian	W. B. Speas

To Whom it May Concern.

Since the first issue of The Tar Heel there has been an unusually large attendance in the printing office, especially on Wednesday, the day of its publication. The fact of it is that by-standers and lookers-on have made it their headquarters. Now as the latter is true, why can not a stop be put to this loafing at once? For it is almost impossible to get out an issue when such a gathering are present. Secondly it interferes with the work of the whole force and delays publication of the paper.

Sympathy rests with those who are fond of reading the Tar Heel and the writer has no fault whatever to find with their interest involved. But the question is, how is the paper to be published without support of the student-body in a way to produce good results? The subscription fee is cheap enough, and those who care to keep up with college news can easily do so by subscribing. So in the future, boys avoid the printing office except when on business and subscribe for The Tar Heel.

Special Services.

Rev. M. Ashby Jones (the third of the four preacher sons of Dr. J. Wm. Jones), Pastor of the Lehigh St. Baptist church, Richmond, Va., is now preaching a series of sermons at the Chapel Hill Baptist church. The services are held at 10:30 A. M. and 7:30 P. M. A number of the students are attending these services, and seem to be very much interested in the preaching of this young man who, as a college bred man, is in full sympathy, and close touch with college students.

Junior Election.

The Junior class held their election in the English room on October 1st. The election was quiet and orderly. The following officers were elected:

President	D. P. Stern
-----------	-------------

1st Vice	C. E. Maddy.
2nd Vice	C. O. Abernethy
Secretary	T. A. Adams
Treasurer	R. L. Godwin
Orator	M. H. Stacy
Essayist	H
Historian	G. Stephens
Statistician	J. S. Gibson
Poet	J. H. McIver
Prophet	R. P. Conley

The Literary Societies.

DI SOCIETY

There were 39 new members initiated in the Di society last Saturday night. This is the largest number that has been brought in at one time for many years.

The query for discussion was: "Resolved; that there should be compulsory education in North Carolina." It was hotly contested on both sides. The affirmative won the decision. Mr. Justice made the best debate. Mr. Hendricks succeeded in arousing considerable laughter.

The society voted in favor of having the Vanderbilt debate in Raleigh this year. This course meets the general approval of the students.

Mr. J. R. Williams, who was a member of the society about ten years ago, was present and made an interesting talk on the ways of the society during the '80's.

PHI SOCIETY.

Saturday night was the annual occasion of initiating new men. Twenty-nine students of the Fresh class united themselves with the Society.

The debated query was, "Resolved, that N. C. should cease to be an agricultural State and bend all her efforts toward manufacturing."

The affirmative held that nature intended North Carolina for an agricultural and fitted Massachusetts and other northern states with special means, as great water power, for carrying on manufacturing. They say that if we cease our agricultural efforts, raw material will no longer be at hand.

The negative held that it is a mistake to suppose that our state is better fitted for agriculture than manufacturing. The water power of our various rivers could be utilized with telling effect, and owing to the nearness of the raw material to our doors, we could easily manufacture cheaper than the New England States.

The affirmative won the decision and Mr. Hamblin made the best debate.

Dr. J. W. Jones was elected honorary member and, being called, spoke of the importance of society work and congratulated the society upon the number of members and the spirit which they manifested.

Mr. Stark, of the Canada School faculty, spoke on the value of perseverance in the Society and its after life.

Slater will be here until Friday. Call in at Patterson's Hotel and see his goods.

New lot Whitley Exercises Striped Jerseys, etc.

N. C. Long & Bro.

Campus Chat.

Mr. Lathrop Morehead, '03, spent Sunday in Durham.

Dr. J. Wm. Jones gave an instructive lecture to the students at the Y. M. C. A. Sunday.

Dr. Thos. Hume will deliver an address before the Mount Zion District Association at Graham Wednesday of this week on "A Century of Education amongst the Baptist."

He will deliver two lectures Friday and Saturday at Hollins University, Nr., on "The Literary Study of the Bible."

Four hundred and seventy-nine students have matriculated at the University at the present date. This means that the registration will be a considerable improvement over last year's excellent record.

Mr. Addison Brenizer, '04, spent some days last week at his home in Charlotte.

Mr. Clarborne Carr was here Saturday to witness our game with the team from the Deaf and Dumb Institution of Morganton.

The old students are glad to welcome back Mr. E. W. McKay, who has returned to continue his work in the Pharmaceutical Department.

The Inter-society struggle over "Jack" Frost was won by the Di, who clinched the matter with a milk shake, three root-beers and a lemonade at the drug-store.

Mr. A. B. Andrews, Jr., of Raleigh, made us a short visit last week.

The Y. M. C. A. held their weekly meeting, for the public on Sunday at 4 o'clock.

All news or communications for this paper should be handed in to the editor-in-chief not later than Monday noon for publication the same week.

We learn with pleasure that Miss Myrtie Julian Harrington, teacher of piano and voice, is to give a series of recitals, the first being a piano recital in Gerrard Hall Oct. the 26th. Miss Harrington will be assisted in this recital by Miss Elizabeth Taylor, a soprano vocalist, and Mr. Geo. McKie, who will read.

The Tar Heel is in receipt of a wedding invitation which it acknowledges with pleasure. On the evening of Oct. 24th., Mr. Angus Dhu McLean, class of '98, will be married to Miss Annetta Everett in the Methodist church at Laurinburg. Mr. McLean is the law partner of Congressman Small in Washington, N. C. We extend congratulations and hearty good wishes.

Alumni Dolings.

Mr. W. C. Smith, Ph.B., late Instructor of English in this University, who left us on account of ill-health, is now in charge of the chair of History in the State Normal and Industrial College at Greensboro. We are likewise glad to learn that he is blessed with a bouncing eight pound girl.

Mr. Robert Gilliam Kittrell is Principal of the Academy at Windsor.

Mr. A. E. Woltz, ex-1901, is Principal of the Academy at Granite Falls. He has over 100 pupils.

Mr. Needham E. Ward, 1900, is Principal of the Graded Schools of Washington, N. C.

Mr. Allen J. Barwick, 1900, is Principle of the Graded Schools of Kinston.

Mr. Eugene Hartley, '99, and Henry London, '99, have positions in the census office at Washington, D. C.

Mr. A. H. Price '93, is a Republican nominee for elector-at-large, and is making a canvass in that capacity.

Mr. John L. Rendleman, a Law alumnus, is the McKinley candidate for elector in the 7th district. He and his opponent are making a joint canvass.

Resolutions by the Phi Society.

Whereas, God has seen fit to remove from Time to Eternity Joseph M. Sitterson and Joseph R. Reynolds, therefore be it resolved by the Philanthropic Society,

First, that is with deepest sorrow that we have received intelligence of the death of two of our members who gave such high promises of rich and useful careers.

Second, that though they have both bidden farewell to this earth forever, their kindness of heart, their manly bearing, their upright Christian character, have left an everlasting impression upon all of us.

Third, that we offer our heartfelt sympathy to the stricken families; and while weeping with them at the common altar of grief we would point them to the Giver of all good who bestoweth joy and peace and healeth the wounded and b

Fourth, that a copy of these resolutions be sent to the bereaved families, to the Tar Heel and to the University Magazine.

ANENT OTHER COLLEGES.

Points From Our Exchange Editor.

Reports of steady, hard practice come from Sewanee. They expect to have a rattling good team.

Vanderbilt also is doing good practice. The lightness of the centre and guards is the only point which mars their satisfaction with the team.

Georgia has had practically to make a new team, but the material looks promising.

The most hopeful team in the South reports say, is Texas. They will come up to Nashville to play Vanderbilt.

Virginia gave Washington and Lee a decided defeat a few days ago by a score of 29 to 0.

The Tulane Olive and Blue prints in full Dr. Alderman's address at the opening exercises of Tulane University.

Lehigh grieved Pennsylvania last week by scoring on the latter college.

Six handsome additions to Yale's college buildings are under construction. Probably, the most noted of these is the new dining hall, which is to cost over \$300,000.

An amusing clipping is taken from the Sewanee Purple. They note with admiration that "Columbia does not depend on editorials to suppress the freshness of the Freshmen." Sewanee does; according to the Purple, They receive the Freshman as a younger brother; but expect him to show his appreciation by his respectful and dignified bearing. From the fact that editorials are needed, it would seem that this humane and Christian plan does not work as well as—well, other methods.

Dr. J. Wm. White is enthusiastic over Pennsylvania's prospects; most of their last year's team are back, and the new men are showing up remarkably well.

Columbia, whose team was reported in such a critical condition when Capt. Simons resigned, is now satisfactorily organized, and the outlook is much better.

It will be of interest to readers of The Tar Heel to learn of Lafayette's satisfaction over the work of Elliott, our last year's centre. "Youssoff" is playing tackle this year.

Princeton has a number of the famous old players coaching. She is highly pleased with Dewitt, right guard, from Lawrenceville.

Yale has a strong new man in Sheldon, champion shot-putter of the world. Practice so far has shown the applicants up in a highly satisfactory way.

Cornell is now in full practice, and very well pleased with the new material. They are reported as trying many trick plays.

The Gymnasium.

On account of the injury sustained some time ago, Mr. Phil Meade, who was to be gymnasium instructor this year, will be able to do nothing more than assist in his department. Although we realize that we have lost the services of a valuable man, we are pleased to have been able to procure the services of Mr. W. R. Weekes, for three years assistant in the Yale

gymnasium. He not only comes highly recommended by the Yale authorities, but has entered on his work with interest and enthusiasm. The gymnasium will be entirely refitted and many improvements will be made. Work will begin immediately, and in a few days Mr. Weekes will commence on the physical measurement charts which have proved so successful in the past. It is a matter of regret to the faculty and students that Mr. Meade could not serve, but we put implicit confidence in his worthy successor.

James Sprunt Historical Monographs No. 2.

President Venable and Dr. Battle have selected for the subject for the James Sprunt Monograph, No. 2, a paper on the congressional career of Nathaniel Macon. It was prepared by Mr. Edwin Wood Wilson, (A. B. Guilford college and University of North Carolina; A. M. Haverford college), while he was in the history department of this institution and won the prize offered by Dr. C. A. Hill of Baltimore. To the essay of Mr. Wilson are appended twenty-three letters of Mr. Macon and one by Willie P. Mangum. They are annotated by Dr. Battle. The perusal of the principal paper, together with the letters and notes will give a vivid idea of the character and political course of one of North Carolina's most eminent and popular statesmen.

Mr. Wilson graduated at this University in 1893. He is one of our most popular alumni, is at present Instructor of English in the Harvard College Grammar School.

There were forty-seven applicants as attorneys examined by the Supreme Court. Of these thirty-three passed.

Mr. Harry H. Harding, '99 is meeting with much success as principal of the graded schools of New Berne.

RECORD for 1899:

NO. 4.

DR. VENABLE LECTURES

The University's Service to the State. Its Past Record and Present Work.

Dr. Venable's lecture in Gerrard Hall Friday night on "The University and the State" was one of the ablest and most instructive that the student of this institution have ever had the opportunity of hearing. It was filled with the history of North Carolina's greatest men and the work they have done for the State. It also bristled with sound advice for the coming generation. It was presented in a concise, clear-cut style and was elegant in its simplicity. It brought out plainly and forcibly the mighty deeds of the University's noble sons and the part they played in uplifting the best interests of their fellow-citizens. In part, Dr. Venable said:

There are two sides to this subject: one, what the State has done for the University; the other, what the University has done for the State. I shall discuss it to-night from the latter point of view only.

The University has been at the head of the State's best thoughts and movements for the last hundred years. It has moulded her greatest statesmen and scholars. It has been the force that has made for all that is highest in the State. It belongs to the people and no amount of money should be large enough to cause it to be narrowed down to any class or political party.

Its record is a glorious one. It has as its alumni a vast army of Governors, Senators, jurists, teachers, ministers and warriors. The University, as a gray-haired mother, sent a host of her sons to battle for Southern rights at the opening of the Civil war. All of the Freshman class of '59 but one, who was physically disabled, went into the service. One out of every three of the Freshman class of '60 were killed. The famous charge at Gettysburg was led by Pettigrew, one of her sons. Vance's brigade won the reputation of losing more men in a single fight than any other body of men in modern times.

She has turned out a list of men like Worth and Julian S. Carr who have been benefactors of the people. Many of her graduates have been public school teachers or teachers of public school teachers. The first president of both Wake Forest and of Davidson were University alumni. Trinity was largely upheld in her infancy by that grand old son of the University, Julian S. Carr. The first normal schools of the State were started by Alderman, Noble and others.

The State Normal College at Greensboro is at present under the supervision of McIver, another of her graduates. One of her alumni is now president of the A. & M. College at Raleigh.

Besides this, she has brought

money to the State. More than \$300,000 in scholarships, apparatus and buildings has been given the University by generous-hearted men and women and all this belongs to the State.

Its history since its re-opening in '75 is one of which its friends may justly be proud. At that time there were many obstacles and disappointments which were overcome only by the tireless efforts and unceasing vigilance of Dr. Kemp P. Battle and his noble band of supporters. Since then it has grown until it now has a faculty seven times as large as it then had. It has become the leading southern institution in scholarship, oratory and athletics. It has done as much work as any institution in the country with twice its funds.

In 25 years more than 2000 students have been matriculated and over 500 have graduated. Forty per cent of these have taught school. Among the number are twenty superintendents of graded schools and fifty professors in colleges and Universities.

In addition, it has educated a number of young men who could not have otherwise received such blessings. One-fourth of the students now in college are paying their own expenses.

Now students, a great advantage is afforded you here and all the University asks of you in return is to make all the use possible of your opportunity. Be strong and loyal to your State and your alma mater.

THE OCTOBER GERMAN. A Bright Success.

The October German of the University German club was held in Commons Hall, Friday night and Saturday. Dancing began at 10 P. M. and continued until 3 A. M. The event was one of the most successful in the social history of the University. It was largely attended, and the enjoyment of the participants was evidently great. To the spectator the scene was really beautiful. The color effects as the splendidly gowned young ladies whirled through the mazes of the dance were kaleidoscopic and lovely. Seldom has a lovelier set of young ladies visited the University than that which gave so much pleasure by its presence at the October German. The memory of their visit will remain in many minds, and in not a few hearts, in Chapel Hill for time to come.

Metra Makeley led the German with skill. Emory Alexander and O. S. Thompson were floor managers. The Raleigh band furnished the music.

Rev. T. M. N. George, rector of the Episcopal church at New Berne and a well known minister, will deliver a sermon by special invitation before the University on the evening of Sunday, Oct. 21st. Every student should go out to hear Mr. George.

A New Dormitory

A Modern Three Story Building to go up.

It can be stated on the authority of the executive that a new dormitory building is to adorn the campus. It will be three stories in height, steam-heated, and thoroughly modern and convenient. The architect is the well known Frank P. Milburn, of Charlotte. The building will be much like the design Mr. Milburn submitted for the Carr Building and which was not accepted. It will be not unlike the Carr Building, but will be by no means a counterpart of it. The building will contain forty rooms. It will be built beyond the New West, where the tennis courts now are. The cost of construction will be met out of the invested funds of the University. The news of this new upward stride of the University is so welcome that words cannot express it. We shall see the day when 1,000 students go in and out and out and find pasture here.

Dr. Battle's Literary Labors.

We ask the members of our Faculty to furnish us notes of their recent work. Our subscribers are very much interested in what the Professors and Instructors are doing.

In response to our enquiry, Dr. Battle tells us that he has prepared for the Spirit of Missions in New York a paper on the work of the venerable Society for the propagation of the Gospel in North Carolina in our colonial days, ending with 1775. He shows from the records that the usual belief that the clergy of the Church of England of that period were as a rule of bad conduct, is untrue.

Dr. Battle has furnished the Superintendent of Public Instruction, Mr. C. H. Mebane, for his forthcoming report, two papers. One gives sketches of all Presidents and Presiding Professors of this University from 1795 to this day, including Dr. Venable. The other is a continuation of "Sketches of Old Schools of the State," giving many facts not found in his paper on the same subject in the Report of the Superintendent two years ago. He has likewise written for the Journal of Education a summary of his papers on the Old Schools, calling special attention to those which had the most reputation and influence. He is still at work on the history of the University.

Many of the visiting young ladies stayed over until Monday for the S. A. E. dance given Saturday night. Among them were Miss Clark, Miss Boylan, Miss Haywood, Miss Andrews, Misses Hinsdale, of Raleigh, Miss Philips, of Tarboro, and Miss Harriet Haywood, of Raleigh.

L. S. Holt '04, spent Thursday and Friday in Greensboro attending the Piedmont Fair.

Sermon Before The University.

Rev. M. Ashby Jones Preaches.

Rev. M. Ashby Jones, son of J. Wm. Jones D. D., and pastor of Leigh St. Baptist Church, Richmond preached in Gerrard Hall Sunday night. He chose as the theme for his sermon five words from Paul's first letter to the church at Corinth.

Corinthians I, 13:12: Now I know in part.

The standing objection to Christianity is that it is a religion of faith and not of knowledge. Its opponents claim that in such momentous questions as eternal life and everlasting death knowledge, and not faith, should be the basis.

Most preachers use "I believe" quite oftener than "I know." And in all departments of study faith plays the larger part, knowledge the smaller. Man's knowledge of any one thing is very limited, but year after year his knowledge increases. Emerson represented this by drawing a circle, putting man in the centre, and letting man's knowledge of the subject be represented by the area of the circle. By each succeeding generation the circle is made larger.

Man's knowledge is only partial, yet he does not fail to make use of the small part which he does have. The work of the physician is largely a matter of faith. He gives his patient a potion, believing that it will have the desired effect. Riding on railway trains is an exercise of one's faith—the belief that the machinery is safe, the officers trustworthy, and the train will come to its destination in safety.

Christianity works upon the same business principles. It has a partial knowledge. It is an admixture of knowledge and faith. The Christian should be as able to give a reason for his religious belief—his Christianity—as any other belief which he possesses.

Faith is not superstition. It must begin with knowledge. Like the bird that springs from the granite foundations and soars into the ethereal regions, so faith must have something solid to start from.

We look upon the brook rushing and foaming down the rugged mountain side, out into green meadows and luxuriant fields, where it is finally lost to view. But we believe it rushes on and on till it reaches the great ocean. We do not absolutely know that God's Providence will continue from this moment on, but we believe it will not cease to be until it is lost in His eternal Love. We do not know, but we believe that we will be permitted to stand as one of the chorus that shall forever sing around the throne.

Faith is the daughter of knowledge. We have no patience with the man who has all knowledge and

Subscription Price, \$1.50 per Year.
Payable IN ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

Colleges and Tolerance.

It is a most unfitting thing that the only times a gentleman who is now and was in 1896 a candidate for the Presidency has been disturbed by riotous attempts to interfere with his speaking, the disturbers were college students. Excepting perhaps an ungentlemanly personal attack on the Republican Vice-presidential candidate the other day, there has been no more disgraceful, outrageous and uncalled for interference with free speech in our history than that made by Yale students while Mr. Bryan was trying to address a New Haven audience in 1896. Last week students of the University of Michigan tried to drown Mr. Bryan's words with their hubbub and some of them had to be escorted to the lock-up. This time, as in the former case, the Democratic leader asked for their release, attributing their conduct to "boyish thoughtlessness rather than malice."

If there is any class of men who should be broad and tolerant, willing to hear all sides candidly, it should be college men. Their environment is more broadening and enlightening than is that of others. The fact that he is young does not excuse narrowness and intolerance in a college man. The exhibitions referred to did not come from "thoughtlessness," but from bigotry, and its child, "malice." The college man is expected to realize that no man and no set of men have as yet succeeded in organizing any trust on truth. We are glad that no such disturbances have happened in the South. The young men who fill its colleges will never themselves refuse a courteous hearing to any advocate of any political party, much less try to prevent others from hearing him, if they are mindful of the knightly traditions of the South which expired at Appomattox. Certainly in this University we want to be broad-minded. There is no place here for the spirit that has kindled the flames of every great persecution in human history. May intolerance and her evil brood never pass our portals.

Memorial Hall.

There can be no sort of doubt about the truth of Dr. Venable's recent declaration that the use of Memorial Hall as a gymnasium is a desecration. A greater anomaly can hardly be imagined than this use of the gathering-ground of the spirits of the University's mighty dead as a place for training the muscles of the body. Nor is this all, for it is inseparable from the use of Memorial Hall as a student's gymnasium that all sorts of boyish fun should be engaged in within its walls; that the flippant word and light jest should often be heard there. Those precincts ought to be held sacred. Memorial Hall is the treasure-house of the past. Its tablets commemorate the services to the University and the State of those who made the two names great in peace and imperishably glorious in war. It is but right that the daily profanation of this temple should be regarded with something of that indignant spirit which burned in the breast of Christ when he saw his Father's house "made a house of merchandise." The plea that this profanation is necessary cannot be effectual for long. It is necessary to remove this blot. Let the friends of the University realize this and it will be removed. If not now on hand, the means will be forthcoming, and a gymnasium provided. All that is needed to effect this is a sincere purpose. We are happy in the belief that the new President has such a purpose. His promise to make this matter one of the first and chief cares of his administration cannot be too warmly commended.

A matter which should receive the earnest consideration of every friend of the University is now under advisement. It is the proposition to hold the second annual debate between Carolina and Vanderbilt in Raleigh. Both the literary societies seem to favor the removal from Chapel Hill to Raleigh. Their opinion will of course have weight, because the debaters, while they undoubtedly stand for the University, and in a sense for the State, are more immediately and peculiarly the representatives of the societies of this institution and Vanderbilt. The debaters can be drawn only from the society membership, and the societies foot the bills. While the preference of the societies of the University will therefore have weight, yet we do not think that even their members regard the question as finally settled. All will welcome more light on it. The removal of the debate is a matter of too much importance to be settled off-hand. It should be thoroughly considered and discussed before the incident is regarded as closed. So far as The Tar Heel is concerned, it is inclined to think that the University needs to let the State know that its intellectual life is active. The debates we have held here have been held in "splendid isolation." They might as well have been held in Siberia for all the consciousness the people of this State had of them. If the removal to one of our centers of population will improve this poor status, we

are heartily in favor of it. It is a question we ought all to think about it earnestly, for it nearly concerns our alma mater.

One of the brightest signs in the University's athletic life at present is the number of class football teams and the interest they manifest in the game. One afternoon last week six teams were playing on the two fields. If every class in college and all three of the professional schools put out the best teams they can, it will mean victory for this institution over any foe. It will mean that the basis is safe and steady. May the healthy interest in class teams which we note with so much gratification, know no abatement, but rather go on increasing. Let everybody whoop it up for class football.

Rowdyism at Commons.

Communicated.

The rowdyism which is being practised by some of the students at Commons is altogether at variance with the gentlemanly bearing which should characterize University students. For the past few days some of the students have been raising an unnecessary and very disagreeable disturbance by stamping their feet and turning over chairs.

Commons was established in order that the students might have a decent, respectable place where they could eat their meals in quiet and peace, and eight or ten boys have no right to try to appropriate this place to themselves if, by doing so, they disturb the authorities and the remainder of the boarders. If they must make noise, we would suggest that they collect in the new athletic field or some other place where nobody can hear them, and there rejoice to their heart's content. It is to be hoped that this unwarranted racket will soon cease, as it is a source of much trouble and inconvenience to the authorities and the rest of the boarders.

The Wood Question.

Communicated.

The writer doesn't wish to be captious, but the delay in getting wood from the Electric Light Company's yard which is connected with the University, is a just cause of complaint. It takes several days to get a load of wood. It was so last year and it has started off so this year. It is to be hoped that this will be remedied, for in cold weather it causes students not only inconvenience but sometimes real suffering. They pay a good round price for the wood and they have a right to expect that it will be delivered without a week's wait.

Piney Prospect.

Communicated.

The authorities of the University kindly placed benches for the comfort of students and others visiting this beautiful spot. We are pained to see that some scoundrel, not having the fear of God, or the penitentiary, or Judge Lynch, before his eyes, has stolen these benches. Will not some one report the theft? The planks are thick and have the

initials of students cut on them, so that they can be identified easily, and so large that they cannot easily be hid.

Campus Chat.

Prof. Collier Cobb lectured recently at Graham and before the public school at Worthville.

Mr. Percy Whitaker, '98, spent a few days on the Hill last week. He is traveling for Newman, the jeweler.

Mr. Phil Meade is able to be out again after being confined by a troublesome injury sustained in the gymnasium.

Virginia played Richmond College 51-0. Walker, their right tackle played an unusually strong game, making one thirty and one eighty-seven yard run.

Messrs. J. C. Webb, W. H. Webb and J. B. Cheshire, Jr., took a cross country walk to Hillsboro Friday afternoon, returning Sunday. Truly they are "peerless pedestrian prodigies."

Mr. John Sprunt Hill, a native of Duplin county, has been nominated for Congress by the Democrats of the twelfth New York district. Mr. Hill recently married a daughter of Mr. Geo. W. Watts of Durham. He is a University alumnus.

Dr. Marshall of the Medical Department of the University of Pennsylvania, has just received a remarkably interesting souvenir, a diploma given by the medical department to Dr. Valentine Seaman, in 1792. Among the signatures are those of the famous Dr. Benj. Rush, Dr. Caspar Wistar, and Dr. Wm. Shipper.

The James Sprunt Monograph, No. 2 is now in press. It consists of "The Congressional Career of Nathaniel Macon," by Mr. E. M. Wilson, A.B. (Guilford College and University of North Carolina) and A.M. (Haverford College). It was prepared while Mr. Wilson was in the History Department of the University of North Carolina and won the Dr. Chas. A. Hill prize. Appended to this principal paper are twenty-three letters of Mr. Macon and one of Willie P. Mangum referring to him, annotated by Dr. Kemp P. Battle.

In his recent address at Tulane University Dr. Alderman made this touching and beautiful reference to this institution, his alma mater: I do not believe there is a finer thing in the world than the love of a boy for his alma mater. I have known most of the great emotions of life, the secret of love, the agony of grief and loss, the stern joys of ambition and duty and work, and I do not know anything that sweetens my soul and touches my heart like love for the old mother, from whose breast I sucked some strength, and whose great hands led me gently into life.

The Yale College Post Office has been a great success, doing fully four times as much business as was counted on. The receipts of the station, from the sale of stamps, etc. were in excess of those in one city of thirty thousand inhabitants.

Dr. Mangum to Wed.

Invitations have been received here from Mrs. John Scott Payne, of Washington, D. C., to the marriage of her daughter, Miss

Laura Rollins Payne, to Dr. Charles Staples Mangum, of the University faculty. The wedding will take place Oct. 24th in St. Andrew's Episcopal Church, Washington, and the couple will be at home after Nov. 1st. The bride-to-be is the daughter of an army officer. The students know Dr. Mangum well and appreciate his good qualities of head and heart. The Tar Heel, in advance of the event, extends heartiest congratulations.

M. R. Farrar of the firm of W. B. Farrar's Sons of Greensboro is a student in the University Medical Department. He solicits the patronage of anything wanted in jewelry or estimate on same. Goods will be sent to Greensboro and returned free of charge. The hearty support of students is solicited. All work is guaranteed. Selection package ordered when desired. Mr. Farrar is a worthy young man and a capable jeweler and we take pleasure in introducing him and recommending him to our readers.

Elisha Mitchell Scientific Society

The Elisha Mitchell Scientific Society held its second meeting for the college year in the chemical lecture room on Tuesday night of last week. The president of the society, Dr. R. H. Whitehead, was in the chair.

The first paper of the evening was read by Prof. Gore, explaining the workings of wireless telephony; Those who have been students of Deschaul will understand what is meant by "lines of force" when used in reference to electricity. Upon this theory rests the workings of the wireless telephone. But as we understand it, wires cannot be dispensed with altogether, as in the case of wireless telegraph. Two wires are strung up parallel, and an ordinary telephone attached to each one. As is the case in the usual telephone, a current of electricity is caused to fluctuate by the action of the speaker's voice on the diaphragm, and this fluctuating current "induces" a current of equal strength on the parallel line. By virtue of this induced current, the 'phone on this wire is operated. Wireless telephony is no longer a theory, but has been used quite successfully over a distance of six or eight miles. (Concluded next week.)

All subscribers will please report to the business manager when they fail to receive a paper.

Exchanges.

The Quadricentennial of Vanderbilt University which will take place Oct. 21 to 23 inclusive, gives promise of being quite a memorable occasion. In response to the invitations about thirty colleges and Universities, ours among them, have signified their intention of having a representative at the ceremony.

At most of the big northern colleges enthusiastic Democratic and Republican political clubs are working for the student vote, canvassing and having talks by prominent men. The Yale Democrats have lately been addressed by Gov. Atgeld, and those at Pennsylvania by Col. A. K. McClure.

A meeting of the Tulane Athletic Association was held last week to discuss means of getting up some healthy interest in foot ball. Their team has been practicing now for about two weeks, very well according to Coach Summersgill, but without the strong support of the student body.

Vanderbilt gave a surprise last week by defeating Mississippi by a score of only 6 to 0. This seems to indicate that either the gold and black is not up to its usual form or that Mississippi is much stronger than ever before.

Ever since Sept. 1st the Virginia Military Institute has been getting its team in shape, and the result is one which is showing up as fast and gritty as their teams usually are.

Tulane is about to put out a new publication, The Tulane Magazine, along the same lines as their present Collegian.

During the past two weeks Sewanec seems to have been having the same difficulty in getting her Scrubs out that we had some time ago.

Tewkesbury and Kraenzlein, Pennsylvania's two famous track athletes, are back. Tewkesbury is still eligible to compete in the Intercollegiate; Kraenzlein is not, but will be a most valuable coach of hurdlers and broad-jumpers.

With the Societies.

PHI SOCIETY.

Rev. M. Ashby Jones and Dr. Wheeler were elected honorary members. Dr. Jones spoke in witty style of the art of debating and its value. He said that a new era is dawning for debate and that the devices of oratory are being superseded by clear-cut thought.

Dr. Wheeler spoke of the importance of being able to think on one's feet. He mentioned the interest now taken in debating in the college world. He also spoke of the hospitality and cordiality of the Southern people towards himself. The question discussed was whether or not we should have a reformatory in North Carolina. The negative won and Mr. Herring was declared best debater.

DI SOC. ETY.

"Resolved, that strikes are justifiable" was the subject in the Di Saturday night. The decision was in the affirmative. Mr. Klutz make the best speech. The affirmative held that, deprived of a recourse to strikes, the labourer would be reduced to slavery in in-

dustry. The negative argued that strikes are contrary to good morals, and have far-reaching effects on a country's business interests.

SERMON BEFORE THE UNIVERSITY.

(Continued from first page.)

no faith and who knows all things and is able to explain all things. We have reason to believe that Napoleon lived, and likewise the son of a carpenter, who walked among men and left an impress that time cannot efface. He that lived, died, and rose from the dead, cannot make too large a demand on my faith.

Once when that rugged fore-runner of Christianity was preaching on the banks of the Jordan and holding the multitude together by his matchless eloquence he suddenly pointed them to a young man descending the hill, and cried: "Behold the lamb of God that taketh away the sins of the world." John the Baptist then stepped out of notice and Jesus stepped in. Let us listen to his counsel. In the great life-problems let us invoke the help of Jesus. If we set about their solution earnestly, and honestly, asking His aid, we can solve them.

Now we see only the images of things, as if we were looking into a great, dim mirror, but when we come to know Him, we shall see clearly, not the images, but the real objects, face to face.

Rev. Mr. Jones preaches with ease and fluency, and his sermons always leave food for thought. His theme Sunday night was practically the same as that of Dr. G. V. Strickler in the baccalaureate sermon last June, and both of them were about as strong utterances as the student usually hears from the pulpit.

Mr. J. E. Gant, '00, is studying cotton-milling in the Lowell Textile school in the great Massachusetts will city.

FOOT BALL

A General and Individual Criticism by the Coach. Written Last Week.

The football eleven is developing wonderfully. Their practice games every afternoon are full of brilliant and snappy playing. The Varsity and Scrubs line up against each other and play sometimes as much as an hour without intermission or rest. The playing is dashy and hard and all of the men are doing good work. What the real strength of the team is, though, is an unknown quantity. On account of our inability to get games with the State colleges, we fail to get that practice, and we enter directly into the championship games without knowing how strong we really are. The scrubs alone have bucked up against the Varsity and the playing of both is exceptionally good.

Below is found the individual and general criticism of all the players. Let each man read it and try to correct his faults and then let the whole team correct the errors brought out in the general criticism. Coach Reynolds says of them:

Councill at centre is not careful in watching his opponent. He permits him to break into too many plays. His passing to the full back is irregular. He tackles fiercely and accurately and is strong on defence.

Rankin at guard fails to keep close enough to the runner. A man of his experience and strength should be of more service in advancing the ball. He opens up well. His charging is irregular and he often fails to get the charge on his opponent.

Brem at guard has same faults as Rankin, but lets his opponent through oftener than Rankin. Neither guard protects the quarter enough.

Bennett at tackle too frequently shoves runner to the ground instead of carrying him on.

Foust at tackle fails to charge fast enough and doesn't use his hands enough. His aggressive game is superior to his defensive.

Osborne at end overruns his man on kicks and tackles high.

McIver at end fails to use his hands. He picks runner out of mass, but fails to cover interference.

Gudger, end, plays fast ball, but his light weight keeps him from standing off heavy backs.

Graham, end, lacks experience. He fails to box his tackle. He is fast in following up plays.

Roberts at guard is not quick enough in getting into interference. He uses his hands and seems to be quick in sizing up his opponent's play in defensive work.

Glenn, F. at tackle does not use his hands enough and doesn't charge quick enough. All of the tackles fail to protect enough

ground. They do not get around fast enough.

Phifer, guard, is on sick list and has not played lately, but has been playing very fast and fierce ball. He breaks through well and follows the play.

Means, guard, fails to charge low and hard enough.

Orr, centre, playing on scrubs has been one of the marked features of the game. He follows plays very hard and fast. He charges quickly and hard and doesn't seem afraid to get in plays.

McRae, back, has not been able to do much on account of lateness in starting training and injured shoulder. He needs more persistent exercise and training to give him strength.

Glenn, J., back, doesn't run hard enough; too often runs high; fails to side-step opponents on the ground; and is blind to picking openings. He is a very willing worker; his interference is fine. He has done some brilliant playing, but being new to the position he has the above faults to overcome.

Oldham, back, has habit of leaving his interference and too frequently fails to support the runner from his proper place in the interference. He has partially overcome fault of running high.

Smathers, back, is one of the best tackles on the field. He sometimes fails to hit his man in interference. In the last few games he has followed the interference closely, runs hard, but sometimes fails to break quick enough.

Carr, back, starts slow. He leaves his feet too often on clear opening through line. He fails to reach his opponent in interference quick enough. He is a good line plunger, but lacks speed.

Graves, E., back, is irregular in kicking, but punts better in height and placing this year than formerly. He loses his feet frequently in going through line on clear break. He often pushes runner to the ground. He is a certain ground gainer.

Donnelly, back, is a fierce tackler. He is the mainstay to scrub's defensive work. He has remarkable endurance, but is too slow a starter to be a good ground gainer. He should fight harder after being tackled.

Webb, back, is a hard and fierce tackler. He follows ball closely but lacks experience in playing back.

Watson, back, has been unfortunate in minor injuries; hence his practice has been very irregular. He shows lots of dash, but is unable to receive proper coaching on account of great number of games missed.

Alford, tackle, must go lower and should meet plays directly instead of waiting for a tackle.

Makely, quarter, has steadied down very much in his passing. At times he is very good in interfering. He must run the team

faster and watch more carefully the opponent's line-up and positions in order to take advantage of any weaknesses.

Graves L., quarter, passes ball accurately and fast. He isn't heavy enough to do much interference. He is a very sure tackler, but should use more head-work in running a team.

Martin, quarter and end, has been sick most of the season. He has not played enough to form any opinion. He tackles as sharply and deadly as ever.

Berkely, quarter, has been laid up with shoulder. He runs hard with ball, is a hard tackler, but not sure.

Ebbs, guard, is a good tackler, follows ball well, but lack of football experience handicaps him greatly. He should be commended for his faithful work.

Stewart, guard, is another faithful scrub. He is a good tackler, but fails to charge hard and fast enough in the line. He isn't active enough in getting around.

Lane, end, has been playing a good scrub end. He tackles well, uses hands on interference, but his lightness has handicapped him.

GENERAL CRITICISM.

The team as a whole fails to continue to support the runner until it is impossible for him to be moved. They lack the "never say die" spirit in their interference. As soon as a play gets beyond a man, he is prone to loaf rather than make an unusual effort to reach the side of the runner and assist him until down is called. The entire team has the faculty of tackling high at times. In line-smashing plays, the team fails to support the runner on his feet and is given more to pushing him forward on the ground. They have habit of loafing in interference around the ends.

The line in offensive too frequently permits opponents to get charge on them and thus enable scrub line-men to force them back, break through or dive under Varsity play in Varsity territory. In the excitement of the game they permit their opponents to draw them out of their positions, thus opening up the line and giving greater opportunity for breaking through and tackling. In interference they fail to protect the runner from side and rear. On line-smashing plays they have acquired habit of over-running the play and not lending assistance at proper points.

Holes are not opened clear enough and quick enough and even after runner has passed, they permit him to get between them and the runner, thus putting them out of the play.

They fail to charge defensive. The Varsity line is overestimating itself because of its superior weight over the scrubs and for this reason, they are not charging hard or low enough, but depend on their weight

(Continued on second page.)

SOPHS VS. HORNER.

Our Boys Victorious. Good Game at Oxford.

The first class team of the University ever to leave the Hill to play a game of foot ball, was the eleven of the Sophomore Class which went over to Oxford last Saturday and defeated the Horner School team by the score of twelve to nothing. The two teams were well matched, but the Sophs had the best of it. Their line was particularly strong and the backs did did good work.

For Horner, the ends played star ball and Outlaw, Hill and Emerson played a strong game. The following is a summary of the game:

First Half.

The Sophs kick to Armstrong on Horner's 20 yard line and he advances 9 yards. Bunn follows with 2 and Armstrong gains only one when tackled by Carr. Outlaw tackled by Holt for no gain. Hill advances 2 and Pritchard advances 2 more, but ball goes to Sophs on downs. Nichols gains 4 yards and Holt goes over guard for 16 yds. Gant loses 1 yard, and Carr circles end for 17 yds. and makes a touchdown, but is called back on Holt's foul and ball is given to Horner. Armstrong advances 2 and Pritchard on delayed pass skirts right end for 38 yards. Pritchard loses 1/2 yd. and Armstrong gains 2 yds. over the line. Outlaw tries for no gain. Carolina's ball on downs. Gant goes around end for 8 yards and Ramsay follows with 7 more. Carr circles for 7 yds. and is tackled on line by Armstrong. Holt hits line for 4 yards and Nichols gains 3 1/2. Carr prettily tackled by Outlaw for loss of 6 yds. Holt hits line for 1 yd. gain and Gant fails to advance. Ball goes over to Horner on downs. Armstrong tries to circle end but loses 1 yd. Hill circles for 12 yds. gain. Outlaw bucks line for 6 yds. Armstrong follows with 2 yards and Cutlaw advances 2 1/2 more. Conno bucks for 2 1/2 and Hill gains 2. On double pass to quarter Emerson fails to gain. Pritchard advances 4 yards and Outlaw is thrown back with a loss of 1 1/2 yds. Ball goes to Sophs when time is called. Ball on Sophomore's 24 yd. line in their possession.

First half—twenty minutes.

Score—Sophs 0. Horner 0.

Second Half.

Horner kicks to Soph's 14 yd. and Holt gains 15 yds. Holt goes through the line for 3 yds. Ramsay gains 10 yds. and is nicely tackled by Armstrong. Nichols advances 16 and Holt goes over line for 11 more. Ramsay tries but fails to gain. Holt hits line for 5 yds. Nichols makes a pretty gain around right end of 10 yds. Holt bucks for 4 1/2 and is tackled by Emerson. Ramsay gains 4 yds. and Nichols 17 more around the end. Holt goes the remaining 3 yds. for a touch-

SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

It is a genuine pleasure to note the movement that has been started for a University glee club. It deserves all success, for there is a distinct void in our life here, which this club could fill. It would not only give real enjoyment to the students, faculty and townspeople, but it would unquestionably be a splendid advertisement for the University wherever it went in the State. More than that it would do more than any other one influence to excite an enthusiastic University spirit throughout the State. Let a fine glee club, such as we can send out, go into every city in the State, singing our good old songs, and new ones written for it, and the resultant good to the University will be beyond mere mathematical calculation. This is not at all a conjecture, for in years past the University had a glee club that made the pulses of man. North Carolinians beat faster with an enthusiasm unknown before for their University. The vast majority of people, it is undeniable, can be most easily and deeply touched by an appeal to their emotional nature. Let this glee club by all means go out, for its appeal will be to a high and holy sentiment.

A Serious Handicap.

It should be borne in mind by the supporters of the foot ball team of the University (and every good citizen of the State should be in that class) that the team goes up against its opponents almost an unknown quantity to its backers and even to itself. We are encouraged to believe that it is a strong team; the game we have played seems to demonstrate that. But how strong a team it is, what are its weak, what its strong points, all those matters of detail which are brought out only under the stress of an exciting contest, we do not know. The failure of the games which had been arranged with institutions in this State is undoubtedly going to handicap us in battling with the stronger teams and we might as well accept that fact.

But in spite of the fact that we will not have this practice which would have been invaluable to us,

we do not propose to sit down in idleness and concede defeat. We must and we will throw ourselves into the struggle with good heart, fearing nothing and hoping all things. If, as we fondly believe, the team has those qualities of grit and intrepidity which single out the Tar Heel, as boy or man, on foot ball field or battle-field, we can at the season's close, look back upon a record in which we may take pride, feeling that it is not unworthy of the Tar Heel University.

FOOT BALL.

Continued from first page.

to either stop or face the play. On plays directed at the line they smash blindly in and fail to locate the man with the ball, often permitting him to plunge through the hole made by their breaking through. They depend on making a tackle, rather than breaking up interference, thus forcing the backs to do the brunt of the work in breaking up the interference. They do not use their hands enough in defensive work and the coach much fears they are depending on scrub signals.

The backs on defensive fail to meet the play directly, but wait to tackle runner after he has made a gain. They are accustomed to dive under a play at the same time the line does, instead of keeping their feet and backing up the line. The backs on offensive are just beginning to run low and hard. They fail to stick to their opponents long enough in the interference and they miss too many signals. They fail to make formations properly and support each other raggedly. They travel too slow on end plays and their great fault is failing to get up speed quick enough, starting slow and not getting away the same instant with the ball.

University Sermon.

Rev. T. N. M. George, pastor of the Episcopal church in Newbern, and University preacher for October, preached in Gerrard Hall Sunday night. The basis of his discourse was found in Matthew 22: 36, 37, 38.

We have been hearing too much of the negative side of Christianity, and not enough of the positive side. The Christian religion is positive; it sets before us what to believe, to do, and struggle for. If we do all this we need not trouble ourselves about the negative commandments, the "thou shalt not."

Young men too often regard Christianity as an institution that would deprive them of many things they would do. Certainly, it does; but Christ never asks one to give up something for him unless he gives in return a better gift. "He who loses his life for my sake shall find it." Even find eternal life instead of mortal life.

The religion of Christ is positive. It struggles for all that is best, truest and noblest. It does away with nothing that is pure and beneficial.

Christ would not curtail a man's activities. He says "Do this" more often than "Do not." His condemnation came down upon the man who hid the talent—the inactive, lazy man. Slothfulness was

always condemned by our Master. We must get hold of the belief that we are to be saved to a positive life.

In the Old Testament God's people are called the priesthood. Why? Because they are to be engaged in making offerings to Him. They had a work to do. The young men in this University are here preparing for the priesthood, preparing their minds, bodies, and intellects for their Master's work. They are to go out—some of them—and be scientists. And what does that mean? A scientist is simply one who discovers the hidden truths of God. The true scientist is only the spokesman of Nature to God. He it is who makes the praise of Nature for her Maker articulate. He is the great high priest of Nature, and daily makes her offerings to God.

The above synopsis is entirely too short and imperfect to give anything like a key to the discourse. It was a practical sermon, full of splendid advice to the young man who is about to go out into life. Rev. Mr. George impressed his congregation as being a preacher of unusual force.

Campus Chat.

Marvin Carr spent Sunday in Durham.

Some mischievous Sophs, or perhaps Freshmen, stole the clapper from the college bell Sunday night, and Monday the sound was muffled.

W. B. Sorrell has just received a fine line of Sterling silver novelties suitable for Christmas presents.

The Tar Heel is in need of money. Will you kindly pay your dues now?

Parker pens are for sale cheap at No. 9 Old West.

Messrs. L. Morehead, W. W. Chisman, W. H. Smith, Jr., M. C. Staton, R. L. Payne, Jr., and B. Bell, Jr., accompanied the team of the Soph class to Horner. Mr. Bell acted as chief cheerer, with Chisman, Payne, and Staton as assistants.

The Tar Heel will be sent to all old subscribers of last year unless otherwise notified.

SATURDAY'S GAME.

Carolina vs. Blacksburg.

Next Saturday the University team will play the Virginia Polytechnic Institute on the new athletic field. The game will be called at 3:12 and admission will be 50 cts. This will be the last game that our team will play before they leave on their Southern and Western trip. Every student in college should turn out and by his presence give inspiration and encouragement to the players. The team this year is one of the strongest the University has ever had and the Virginia boys claim to have a winning eleven, so Saturday's game will in all probability be very exciting.

Everybody come out and root for Carolina.

Elisha Mitchell Scientific Society.

Continued from last week.

Dr. H. V. Wilson gave a brief account of the work done at the government laboratory during the past summer. It is expected that the government will have a commodious and well-equipped building near Beaufort before next summer. Heretofore the Fish Commission has been obliged to use a large ware-house for a laboratory, as the government owned no suitable building there.

During the summer students and professors were at Beaufort from Columbia, Johns Hopkins, Trinity, and Chapel Hill. Perhaps the most important work was done by Dr. Edmund Wilson, of Columbia, in noting the action of certain chemicals on the undifferentiated cell. Valuable work was also done by Messrs. Robt. Coker and J. W. Turrentine in obtaining the life-history of one of the barnacles—a parasite which enjoys a rather advanced state of living at one time, and then relapses into a degenerate organism.

Dr. Baskerville made some explanations in regard to the second Report of the German Commission on Atomic Weights. It seems that something of a war has been going

on in the chemical world for several years as to which shall be regarded as the standard atom in weight—hydrogen or oxygen.

For many years the hydrogen atom has been regarded as the standard—being estimated at 1 in the atomic weights. An oxygen atom was supposed to weigh sixteen times as much and was tabulated at 16. But the work and observations of our president, Dr. Venable, show clearly that "16 to 1" cannot be the ratio in weight of the oxygen atom to that of the hydrogen. Either the hydrogen atom must be tabulated at less than 1 or the oxygen atom at more than 16.

This discussion of the atomic weights is very important to chemists, but especially so even to us laymen, inasmuch as the fault in the ratio of "16 to 1" was first pointed out to the chemists of the world by our own learned professor-president.

University Lectures.

The University will have a splendid lecture course during the session 1900—1901. The following is the program as arranged up to date and given in by the committee on lectures:

Oct 12, President F. P. Venable, Ph.D., "The University and the State."

Nov. 1. K. P. Battle, L.L.D., "Some Remarkable Trials, Civil and Criminal, in North Carolina."

Nov. 10. Mr. Ramon Reyes Lala A.B., (St. Johns, London), "The Philippines," Illustrated.

Nov. 22, Mr. Archibald Henderson, A.B., "The Latter Day Novel and its Influence upon Modern Life."

Dec. 13, Eben Alexander, Ph.D., L.L.D., "Some Old Teachers."

Jan. 17, Prof. John DeMotte, A.M., M.D., Ph.D., "The Harp of the Senses." Illustrated.

Feb. 14, (Marshall Day.) Judge Jas. C. McRae, L.L.D., "The Character of John Marshall and his Influence upon the Construction of the Constitution."

Feb. 4, Grand Concert by the Tyrolean Concert Company, then just arrived from the Paris Exposition.

Feb. 24, Prof. M. C. S. Noble, "Southern Blockading."

March 7, Prof. H. H. Williams, A.B., B.D., "Some Vital Economic Problems."

March 28, To be filled.

April 15, Hamilton W. Mabie, subject to be announced.

April 26, To be filled.

Exchanges.

A very pleasant ceremony took place at the University of Pennsylvania last week—the presentation of a "loving cup" to that institution by the United States Naval and Military Academies. This action was prompted by the courtesy and untiring effort on the part of Pennsylvania last year in aiding the Academies to resume their annual football contests.

Senator Depew made a strong Republican speech at Yale College last week to an enthusiastic audience.

Texas defeated Vanderbilt by a score of 22-0 last week. Vanderbilt's weakness was at tackles.

Sewanee's first game resulted in a victory over Bethel College with a score of 22-0.

"There was a stir in the football ranks after the speech of Dr. Alderman last week," says the Olive and Blue.

Virginia is highly pleased at the showing she made against the Carlisle Indians. Walker was their star as usual—"impersonating about three stumbling blocks for the Indians," as the College Topics put it.

The University of Georgia defeated the Techs 12-0 last week.

The M. S. U. Independent has in a recent issue an interesting collection of different people's ideas as to what college spirit is.

The University of Pennsylvania has a set of very fine new dormitories just completed, with a "war tower," in honor of the Pennsylvania students who fought in the Spanish-American War.

Virginia is like us, making an effort to organize a strong Glee Club like those of former years.

SOPHS. VS. HORNER.

(Continued from first page.)

down. Carr kicks goal.

Score—Sophs 6. Horner 0.
Horner kicks to McAden on 25 yd. line and he advances 5 yds. Carr goes around end for 8 yds. and then out of bounds. Ramsay gains 9 yds. around end and is tackled by Armstrong. Nichols advances 9 and Holt goes over line for same distance. Ramsay goes on mass play the line for 4 yards and Nichols on the same play gets 8 yds. Holt goes through the line for 4½ and Nichols gains 6½. Ramsay 15 yds. and Nichols 16 more on end mass play. Holt bucks line for ½ yd. gain and Nichols goes 2½ yd. for a touchdown. Carr kicks goal.

Score—Sophs 12. Horner 0.
Horner kicks to Sophs 10 yd. line and Holt obtains the ball and runs for 18 yards. Ramsay gains 4 yds. and Carr on confused signal loses 1 yd. Ramsay fails to make required distance and ball goes to Horner on downs. Connor hits line for 3 yds. and Outlaw follows with 3 more. Pritchard circles end for ¼ yd. gain and is prettily tackled by Gant. Armstrong goes around end for 5 yds. and is tackled by Carr. Ball is fumbled by Horner and secured by Ferrell. Time up with ball on Soph's 40 yd. line in their possession. Second half—15 minutes.
Score—Sophs 12. Horner 0.

Line up of the two teams:

Sophomores.		Horner.
Webb.	C.	Harris
Urquart	R. G.	Bunn.
Everett	L. G.	Hill J.
Jones	R. G.	Small.
Ferrell	L. T.	Moore
Carr	R. E.	Armstrong.
Gant	L. E.	Pritchard.
McAden	Q.	Emerson, Capt.
Ramsay	R. H.	Outlaw.
Nichols	L. H.	Hill J.
Holt, Capt.	F. B.	Connor.

Umpire—W. A. Devin. Referee Thos. Hume, Jr. Hodges and Short, Linesmen.

The Sophs came over to Durham in the afternoon train and arrived in Chapel Hill through the country very much elated over their victory. It is probable that another game will be arranged between these two teams to be played in Chapel Hill in a few days.

With the Societies.

PHI SOCIETY.

The debate was the best we have heard in some time. The men have taken hold in earnest this year and the excellent speeches Saturday night were a good sign for the future. The query was "Resolved, That the policy of Imperialism which the United States has entered upon is a dangerous one."

The affirmative endeavored to establish that the trend of nations is toward imperialism and that we could do no better than to follow this tendency. For the sake of humanity and our status in the mercantile world, we must keep the Philippines.

The negative held that our Constitution is in imminent danger from this strenuous policy and that we have no right to sacrifice our soldiers for mercenary gain.

DI SOCIETY.

The debate was postponed until next Saturday night. The conference committee brought in their report on removal of Vanderbilt debate to Raleigh. After investigating the matter thoroughly and weighing the argument for and against the proposed change they decided that it would be unwise to move it this year.

Nothing to Nothing.

Carolina vs. V. P. I. Neither Side Scores. Magnificent Game and Brilliant Playing.

One of the most brilliant games of football ever seen on the gridiron here was the hotly contested game Saturday afternoon between the University and Virginia Polytechnic Institute of Blacksburg. Every inch of ground was stubbornly fought for. The line bucking of both elevens was hard and low and the defensive work was superb. Each team did a great deal of punting and the Virginians came out ahead in kicking.

A large crowd witnessed the game, which was intensely exciting and great enthusiasm was manifested. Few end runs were made by either team, mostly line plays being used. The work of both lines was fine, each man playing his position for all it was worth. Graves and Bennett were both unwell, but grittily stuck in the game and did their usual strong work. Berkely at half was the star of the game and Foust was a power at tackle. Individual praise would be useless. Every man on both teams did his duty and did it well. For Blacksburg, Coxe's work at tackle, and Carpenter's at end were the features, while the whole eleven did good playing. The two elevens are about evenly matched and there is very little difference in the weights of the players. The offensive playing was stubbornly resisted by each side and the defensive work could not be improved upon.

There was very little fumbling and the playing at all times was fast and furious. The day was a little warm for football, but the men were gritty and stood up well, not a man being replaced until near the end of the last half when Ebbs succeeded McRae at half.

Following is the detailed report of the game:

Game was called at 3:45. Carolina wins toss and chooses to defend west goal and receive the kick.

The visitors kick to our 10 yard line and McRae brings the ball back 15 yards. McRae gains 4 yards. Quarter fumbles a pass to Graves and no gain is made. Berkely advances 4 yards, and McRae, 2 yards. Graves goes over guard for 4½ yards and Bennett hits end for 2½ yards. Graves makes 2 yards over guard and McRae goes on end for ½ yard gain. Ball is given to Berkely who fumbles, but Osborne obtains it with gain of 6 yards. Foust hits right end for 4 yards and Osborne skirts left end for 8 yards. Berkely again tries right end and gets 3 yards and then 2½ yards. Graves bucks line for 1 yard and Berkely hits for 2½ yards. McRae goes over line for 2 and is nicely tackled by Steele. Graves tries for no gain and Berkely gets only 1 yard. McRae fumbles, but Bennett gets the ball,

which goes to Virginia on downs.

Blacksburg tries for no gain. Ingalls tries end, but loses 1 yard. Carpenter kicks 38 yards to Graves who takes the ball back 8 yards. Osborne circles end for 1½ yards and is tackled by Carpenter. Berkely advances 2½ yards and Graves bucks the line for 1½ yards. McRae is nicely stopped by Carpenter after gaining 1 yard. Foust plunges for 2 yards and is stopped by Steele. Graves punts 38 yards, but on Blacksburg off-side play ball goes to Carolina. Third down with three yards to gain. McRae makes 2 yards over line and ball goes to Virginia on downs. Ingalls hits guard for 2 yards and is downed by Rankin. Huffard tries same play and loses ½ yard. Carpenter kicks 40 yards to Graves who takes the ball 8 yards and fumbles, but Makely obtains it.

Graves kicks 38 yards to Blacksburg who advance the ball two yards. Ingalls ploughs through line for 6 yards and is nicely stopped by Berkely. Huffard makes 1 yard over line and again gains 1 yard on same play. Ingalls advances 3 yards. McCormick hits Councill for no gain. Huffard is stopped by Foust with only 1½ yard gain. Carpenter punts 40 yards to Makely who is downed in his tracks. Graves returns kick for 35 yards and Blacksburg brings it back 12 yards. Coxe makes 3 yards over line, but Osborne was off-side and Referee gives visitors 10 yards. Ingalls makes 9 yards around end and is tackled by Osborne. Huffard hits line for 2 yards and is stopped by Bennett. Huffard gains two yards and Coxe gains 2½: Huffard tries and fumbles after running 2 yards, but one of Polytechnic's players gets the ball with an advance of 6 yards. Ingalls hits Brem for only 2 yards and Baird gains 2 yards more. Huffard tries to jump line for one yard. Baird manages to make only 1 yard before being beautifully thrown by Graves. Jowell is given ball, but is fiercely tackled by Berkely and Graves and fumbles. Osborne gets ball for Carolina for a loss of 3 yards for Virginia.

Berkely on nice interference by Foust runs 7 yards. Graves is shoved over line for 1 yard. McRae hits line for 2 yards and is thrown by Carper. Graves punts 30 yds. and Blacksburg comes back 2 yds. Jowell is nicely thrown by Brem and Councill for a loss of 1 yard. Coxe loses 1 yard on Brem's nice tackle. Carpenter kicks 35 yards to Graves who makes 3 yards.

Time is up with ball in Carolina's 31 yard line.

First half 20 minutes.
Score—Carolina 0; V. P. I. 0

SECOND HALF.

Carolina now kicks off and Virginia Polytechnic defends west goal. Graves kicks off to Baird on their twenty yard line, who takes the ball for 6 yards before being

beautifully tackled by Rankin. Huffard tries for no gain. "Tackles back" is called and Huffard plunges for 1 yard. Carpenter kicks 37 yards to Graves who makes fair catch, but being tackled by a Blacksburg player, as a penalty Carolina is given 15 yards and a try to place kick goal from the field on the 48 yard line. Brem tries to put the ball between the goal posts, but kicks only 25 yards and Blacksburg captures the ball. Huffard is nicely tackled by Bennett and is thrown back ½ yard. Again Huffard loses 5 yards on a fierce tackle of Bennett. Carpenter kicks 28 yards to Graves who runs up field for 12 yards. Next play, Umpire calls holding on Carolina and gives ball to Virginia. A little discussion arose on this decision as the umpire could neither name or point out the offending player, but Captain Osborne finally conceded his point and ball was given to Blacksburg.

Ingalls plunges fiercely at line, but can only go 1½ yards when Foust stops him. Ingalls then makes a beautiful run of 15 yards and is thrown by Berkely. Ingalls advances 5 yards more. Huffard jumps the line, but is held for no gain. Baird gains two yards over line. Coxe is given the ball, but fumbles and Osborne grabs it and runs 9 yards before being downed. McRae goes around the end for another 9 yards and Bennett opens the line for Graves to make 2 yds. On tackle back, Berkely advances 3 yards and on the same play, McRae fumbles and Blacksburg obtains the ball with a gain of 8 yards. Coxe bucks for 2 yards and Huffard gets only one yard before Rankin stops him. Baird makes 1 yard and ball goes to Carolina on downs. On pass to Foust, ball is fumbled and visitors fall on it. Coxe gains 1 yard and Huffard is thrown back by Rankin for a loss of 1 yard.

On pass back to Carpenter to kick, the ball is thrown way over his head and is obtained by Blacksburg with a loss of 20 yards. Huffard on double pass fails to gain. Carpenter punts 23 yards to Graves who comes back 8 yards. On tackle back, McRae gets 2½ yards and Graves 3 yards. (Berkely goes to Right Half. Ebbs takes Left Half and McRae retires from the game.) Berkely over line gains 3 yards, then 4 yards more, then 2 yards and Ebbs on same play gets 2½ yards. Bennett plunges fiercely at line for 2 yards and Berkely ploughs for 3 yards. Graves hits hard for another 3 yard gain and Bennett jumps guard for 2 yards. Graves hits line for 1½ yards and Berkely tries Coxe for only ½ yard gain. The ball goes over on downs. Blacksburg's ball. Coxe bucks line for 5 yards and is stopped by Graves. Huffard tries for no gain. Coxe is thrown by Brem after making 2 yards. Carpenter punts 30 yards to Graves

who takes ball back 5 yards. Berkely makes a fine run for 12 yards and Ebbs hits right side of line for 9 yards. Berkely on tackle-back gets 3½ yards and then 1 yard. Bennett is forced over line for 2 yards and Smathers for ½ yard. Berkely makes a sensational end run of 12 yards and is wildly cheered. On pass to Rankin the ball is fumbled, but Makely falls on it with a gain of 1 yard. Berkely advances ball 2 yards. On fumble at centre, Carolina loses 1 yard and ball goes over to Polytechnic on downs.

Cove bucks for 2 yards, and Ingalls is finely tackled by Bennett and thrown back 1 yard. Time is called with ball in Blacksburg's possession on her 29 yard line.

Second half 20 minutes.

Score—Carolina 0; Virginia 0

Following is the line-up of the teams:

Carolina	Va. Polytechnic	
Councill	C	Steele
Rankin	R G	Abbott
Brem	L G	Carper
Bennett	R T	Coxe
Foust	L T	Baird
Osborne (Capt.)	R E	Carpenter
Smathers	L E	Jowell
Makely	Q B	De Camps
McRae & Berkely	R H B	Ingalls
Berkely & Ebbs	L H B	Huffard (Capt.)
Graves	F B	McCormick
Umpire—Mr. Huffard of N. C. A. & M.		
Referee—Mr. Meade.		

The Virginia boys were "tickled to death" at the result of the game and they say it is by far the best game ever put up by them. Both teams showed clearly the great amount of work they have done and the good training they have received.

The visitors drove through the country to Durham where they spent the night, and returned home Sunday, much delighted with their North Carolina trip.

DEPARTURE OF THE TEAM.

Vanderbilt, Tennessee and Sewanee Our Enemies.

This morning at one o'clock, the foot ball team left in their special car on their Southern and Western trip to be gone till Tuesday. They go directly to Knoxville, where on Thursday they tackle the University of Tennessee. On Saturday we line up against Vanderbilt at Nashville, and on Sunday the boys will go to Atlanta and play Swannee Monday. We have every reason for reposing the utmost confidence in our players. In Saturday's game they clearly demonstrated that they can play good and fast ball. They have been trained well and we expect them to defend their Alma Mater well. It is true we start out under a handicap. Graves is barely able to use his leg; and the loss of Graves means much. The men who go on the trip are as follows:

Councill, Brem, Phifer, Rankin, Bennett, Foust, Roberts, Osborne, Smathers, Makely, Graves E., Graves L., McRae, Berkely, Ebbs, Carr, Donnelly and Coach Reynolds and Herman Weil.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

A Plain Duty.

The students of the University many of them, need some plain talking to about The Tar Heel. Their lack of interest in it and their failure to aid its editors in making its columns brighter and better might well be made the text for an editorial. But it is of an even greater dereliction from duty than this that we are going to speak. The paper does not receive from the college the financial support that it has a right to expect.

The facts of this matter may surprise some; but it can be verified by reference to the books of the business manager. It is that more than half the men in college do not take the paper even on shares. Why is this? Where is that splendid "college spirit" of which we are wont to boast? Surely one of the primary manifestations of a man's love for his college is his support of his college paper, which is the paper of the students and the exponent of the college before the public.

From those who do subscribe to the paper it is like pulling eye teeth to get the pittance the subscription costs. There is something wrong when the college paper has fairly to struggle to get the cash necessary for its existence from week to week. There is something wrong with the man who won't subscribe to his college paper or who will subscribe and won't pay. He is usually the citizen who has the brazen assurance to do the most fault-finding. No paper can be run without financial aid, and the more money the better the paper. Of course the services of the editors are gratuitous, but if its patronage would justify, considerable improvement could be made in the get-up of the Tar Heel. We hope that every man in college who has failed in his manifest duty to his paper will take these remarks to himself and ponder them in his heart.

It has been a matter of remark that the men who come here to meet us in athletic contests are not properly treated. We do not mean on the athletic field, for the teams generally leave, as that did Satur-

day, enthusiastic over the gentlemanly conduct of our men in the game, and the fairness of the officials. No charge can be brought against us in that respect. What we wish to invite the special attention of the college to is the fact that the visiting team should be better looked after and entertained. There seems a determination to make their visit as dead a failure in a social as in an athletic way. They are generally allowed to flock to themselves and kill the time as best they can. One might suppose that the visitors were regarded as bitter foes rather than as opponents in a friendly contest. Let us put a stop to this sort of seeming "dog in the manger" spirit. It has little existence in point of fact, and what seems to be such is a mixture of thoughtlessness and indolence. The Southern people have always been an hospitable people, and it is not for us to compromise that reputation. Every man in college ought to feel that he is a committee on entertainment when gentlemanly visitors come to us in a representative capacity from other institutions.

The boys who have gone away to stand for the University on the grid-iron know that they carry with them the earnest good wishes of those they leave behind. Our life and our hopes will be pretty much centered in them for a few days. Whether they win or lose, we can rest confident that they will do their best, for the team has a spirit in it. We are hoping and praying that they may not know defeat.

Shakespeare Club.

The Shakespeare Club held its first meeting on the evening of the 23rd. in Gerrard Hall. The following officers were elected: Dr. Thos. Hume, President; E. K. Graham, Vice President; Dorman Thompson, Secretary; J. C. B. Ehringhaus, Treasurer. Representatives of the graduate and undergraduate classes have been selected as councillors, who with the above officers will be Directors of the Club. The night's programme was very effectively done by Messrs. Newman and J. R. Conly and Miss Lucy Cobb in papers of high merit. Mr. Newman gave a very analytic discussion of the "Religious side of Henry the Fifth's Character," while Mr. Conly presented a striking paper on the "General Method of Developing Hal's Character." Miss Cobb's subject, "Difference in Method of Epic Drama and Epic Ballad," was very artistically treated by a comparison of Drayton's "Battle of Agincourt" with the battle scenes of "Henry V." Dr. Hume's inaugural address for this session, on "Violations of History in Shakespeare and the Dramatic Reasons for Them," was received with marked enthusiasm. After a few remarks on the value to students in all lines of industrial endeavor of the study of Shakespeare—a writer whose infinite variety age cannot wither nor custom stale—he very vividly presented a comparison of the true Sir John Oldcastle as portrayed by Tennyson and the burlesqued and distort-

ed representation given in Falstaff, the master comic figure in all literature.

The next meeting programme will be connected with the historical tragedy of "Richard III." Many students joined the club. It bids fair to have a prosperous year under the able guidance of its distinguished pilot, Dr. Hume.

With the Societies.

PHI SOCIETY

The query was: "Resolved, that the South Carolina dispensary law is a good one."

The affirmative held that it aided Christianity in its efforts to stamp out the evils caused by liquor and that its success in South Carolina proved its beneficence.

The negative claimed that it is unconstitutional in several of its clauses and that it sets the stamp of governmental approval on drinking. They said that a dispensary would increase illicit liquor traffic.

The debate was good and reflected credit on the society. The committee decided in favor of the affirmative and reported Mr. Ballard as best debater.

DI SOCIETY.

The query was: "Resolved, that independent action is preferable to party allegiance in politics."

The affirmative claimed that politics should be purified and that this could only be done by good citizens showing their disapproval of party workings by removing themselves from those parties. Men should be governed by the dictation of their conscience rather than by party ties.

The negative held that parties are necessary, and therefore citizens should not withdraw from them. They tend to unite the different sections of the country, give stability to legislation, and fix responsibility. All the great reforms were brought about by parties.

The debate was one of the best ever held in the Society. The committee decided for the negative and that Mr. R. R. Williams made the best speech.

Campus Chat.

Jule Carr, Jr., was here Saturday to see the Blacksburg game.

Prof. T. Hume, Jr., of Horner's School was here Saturday with Prof. Pennington, also of Horner's.

Messrs. T. Webb, Paul Collins, J. Webb, Jr., and Tom Webb, of Hillsboro, were here Saturday for the game.

The Presbyterian church has been entirely refitted and on Sunday was used for the first time in some weeks.

Dr. Mangum dismissed his class Monday and told them he would be absent for a few days—he was going off to drum in the interest of the school.

Dr. Battle will lecture Thursday evening in the chapel on "Remarkable Trials." He will discuss the impeachment of Holden and other things, and the lecture promises to be most interesting.

Among those who attended the State Fair at Raleigh were Messrs. W. Carr, L. Morehead, H. Turner, O. Thompson, G. Andrews, Root, Holmes, Galloway, Busbee, Gwyn, Holt, Haywood, Battle, Justice, Staton, Cox, Graves, E., Hinsdale, Latta, Hanes, Thigpen, Woodward, Lemly, Heard, Johnston, Jones, Kenan, Skinner, McLean, Rountree, Reynolds, Noble, Bonner, Alford, Webb, Cunningham, Capeheart, Judd, Gant, Ford, Winston, Dr. Venable, and Profs. Williams, Noble, and Howell.

Next Friday afternoon, on the New Athletic Park, the Fresh class eleven will play Horner School team. The Freshmen have a pretty good team and they are determined to do Horner up as bad as the Sophs did some time ago. The game will be called at 3.15 and everybody should turn out and cheer the boys up, as they are a representative of the University, and a victory for them means a victory for the College.

Star Lecture Course for the Season 1900-1900.

A partial list of the lectures to be delivered at the University was published in a recent number of the Tar Heel. We are able to give our readers some additional information, received from the faculty lecture committee.

The members of the two literary societies receive their tickets for all the lectures free, according to agreement.

These entertainments comprise lectures by Mr. Lala, the Filipino; Dr. DeMotte, Hamilton W. Mabie, and the Tyrolean Concert Co.; and one more entertainment, either a reading by Mr. John Fox, Jr., or Dr. Crawford, or Mr. E. Ingersoll (on natural history and travel).

Those who buy season tickets for the entire course of five lectures can get the same from Dr. Baskerville, chairman of the lecture committee, for \$2.25. If the tickets are bought separately at each entertainment, they will amount to \$2.75.

The lecture course is particularly fine this year, and not only should but will, without doubt, receive hearty support. The students and villagers are to be congratulated upon having such excellent opportunities to hear noted lecturers and

a magnificent grand concert by a company of ten players, musicians and singers, directly from the Paris Exposition.

Mr. Lala gives the first lecture the night of Nov. 10th; so it will be necessary to get season tickets right away, in order to take advantage of the reduced rate offered those purchasing the season ticket.

Why We Should Have a Glee-Club

The Tar Heel of last week commented very sensibly on the desirability of our having a University glee-club. A few suggestions may bring out the advantages afforded by a glee-club in furthering both the particular and the general interests in the University.

Speaking of Southern universities as a whole, one may say that in them a glee-club ought to wield an equal power with athletics. For, not only have Southerners an acknowledged instinct for music, but they are, besides, forced by the climate to find the greater pleasure in the less vigorous exercises. And, specifically, our University contains the conditions conducive to the utility and the popularity of a glee-club. There are seasons of the year when athletics can neither be practised nor attended, and when almost all outdoor sports must be idle. To fill up the void in the life of the student outside of his study, we have no adequate matter. The course of University lectures

(Concluded next week.)

HISTORICAL SOCIETY.

Interesting Initial Meeting.

The first meeting of the North Carolina Historical Society, in Gerrard Hall, evening of the 21st, while not so largely attended as it should have been, was a good start-off for this organization. The opening remarks of the President, Dr. Battle, were relative to the history and work of the society. Mr. E. D. Sallenger was elected secretary.

Mr. Bobbett read the first paper on "The History of our University." It was a good resume of the story of this institution and showed research. The birth amid the storms of war, the early struggles and simplicity, the period of expansion under Swain reaching an enrolment of over 450 in 1858 were narrated. Then the story of the rebirth was told. The history was brought down to date, much of the recent history of the institution being told. The erection of the different buildings now on the campus were alluded to, and much history unknown to many of his hearers was brought out by Mr. Bobbett.

Mr. E. D. Sallenger read an excellent paper on, "The First Supreme Court." The character and attainments of Justices Spencer, Williams, and Ashe were gone into. All were men of ability. They were Superior as well as Supreme court judges, riding a circuit. They first promulgated the doctrine that the Legislature's enactments could be declared invalid by the Supreme Court. This innovation was bitterly denounced. Dr. Battle gave some interesting reminiscences of the Justices spoken of by Mr. Sallenger.

Dr. Battle read some amusing and instructive extracts from the diary of an indentured servant in Virginia just before the Revolution, and made helpful comments on the record. Much light was thrown on the customs of the period. Diet, dress, occupations, and other details of colonial life among the writer's class, was described. The fact that he was a school-master sewing as a bond slave brings out the great improvement in the condition of the teaching class since 1771.

Piano Recital.

Lovers of the aesthetic in music were delighted Friday night by a musical recital given by Miss Harrington, pianist, assisted by Miss Taylor, soprano, and Mr. McKie. The program was partially as follows:

Prelude M. J. Harrington.
Night Piece Schuman.
Barcarolle Nevin.
Thy voice doth thrill my heart Saint Saens.
For this Reginald DeKoven.

Adlai Osborne, of Charlotte, was here Sunday.

WAR! WAR!

Read what H. R. Guthrie has to say to the University students. Five hundred men wanted as soldiers for China and five hundred men wanted to shave at R. H. Guthrie's Shaving Parlor, opposite Chapel Hill Hotel. The Central Barber Shop. Sore necks caused by rough shaving and scalp diseases are cured at Guthrie's Shaving Parlor. \$10.00 reward deposited in any bank for any case of dandruff that can't be cured at Guthrie's Barber Shop. Satisfaction always guaranteed. I am just from Charlotte and have the latest in everything. Special prices by the month. Yours to please.
H. R. GUTHRIE.

Exchanges.

The Vanderbilt Hustler refers as follows to the Va.—V. M. I. game: Virginia had her Southern Championship aspirations crushed Wednesday when she was played to a standstill by the Virginia Military Institute, a preparatory school. The cadets had Virginia very much on the defensive in the last half, and closed the game with the ball in their possession on Virginia's ten yard line and the score 0-0. "College Topics" refers to the defeat of their expectations in an eminently sensible editorial.

The celebration of the twenty-fifth anniversary of the founding of Vanderbilt University, held last week was a complete success. It was attended by numerous distinguished visitors, and attracted national attention.

It is interesting to compare the figures of this year's mock Presidential election at Yale College with those held four years ago. "About 300 more ballots were cast four year's ago than in this year's election, showing a falling off in interest. But notwithstanding this, McKinley received a greater percentage of the votes cast this year than in 1896.

Then McKinley received about eighty-one per cent of the 1,845 votes cast. This year his percentage was eighty-nine.

Persons, a full back from the N. C. A. & M. College is showing up favorably at Lehigh, even making it probable that he will beat the old full back out of his place, according to the *Brown and White*.

Yale has made public her plans for the Bi-centennial Celebration, to be held just a year hence.

Quite an amusing state of affairs has held sway at Tulane for the past week or two. The Freshmen proved themselves equal if not superior in strength to the Sophomores at a cane-rush. Ever since then the nerve of those necessary nuisances has been appalling, so bad in fact, that a Senior condescended to voice the opinion of the upper-classes at such doings in the last issue of the *Olive and Blue*.

Ovation to Triumphant Foot Ball Team. Mass-meeting and Bonfire

The football team returned to Chapel Hill Tuesday evening after an absence of six days, during which time they had defeated the University of Tennessee and Vanderbilt University and broke even with Sewanee when neither side scored.

The record is an admirable one. Traveling over 1600 miles and winning two championship games and tying another is an awful task. Our boys did it and we are proud of them. They showed that we have a team worthy of any college. We expected much; they did more than we expected. The University congratulates them right heartily on their magnificent work. The ovation given them by the student body was soul-stirring and inspiring. It was deserved by them. It was a spontaneous outburst of enthusiasm. Men could control themselves no longer. Yelling crowds, flaming torches, college songs, bell-ringing and mass-meetings in abundance were the rule, rather than the exception. We realize that they are great and are able to go up against any college and expect to come out ahead.

Committees met the team at the depot and drove them down in carriages. When they reached the campus, hundreds of students with torches formed an avenue of fire, while others gave the college yells and rahs! for the individual players. The team was driven up Cameron Avenue accompanied by the monster torch-light procession to Commons where they took supper. While they were eating, 50 boys stood in the vestibule of the eating hall and yelled, cheering both the individual men and the team collectively.

After supper a mammoth mass-meeting was held in Gerrard Hall. Every student in college was there, thus showing his appreciation. The townspeople and the co-eds were there and were as deeply interested as the boys. Rival leaders of cheering crowds on the floor and in the galleries vied with one another in yelling Yackety Yacks and Boom! Rah! Rays! It was a scene that baffles description. The team came in together and pandemonium reigned supreme. Hats were thrown into the air and every man stood and yelled for fully five minutes.

Mr. A. R. Berkely, President of the Athletic Association, called the meeting to order. Captain Osborne was the first man called for. He responded with a short talk and thanked the students for the reception. Coach Reynolds made a short speech and called on the boys for earnest support from now until the end of the season. Support was pledged with a mighty yell. Coach told the story of the Sewanee game. He did it in a most interest-

ing way, proving himself an admirable story teller, as well as an able football trainer. Members of the team were called on, but they were a bashful lot and refused to respond. These broad-shouldered men quaked and tried to hide behind one another when their names were called, but just the sight of them kept excitement at the boiling point. Dr. Baskerville, Profs. Henderson and Warshaw, Dr. Jones, Messrs. Meade and Bernard and others made short talks.

The meeting came to a close with a mighty Yackety Yack given by everybody standing and it never sounded better, it never carried more genuine feeling than it did then.

Out on the athletic field a huge bonfire had been built. When the meeting had adjourned everybody went there and the Captain struck a match to the mass of the inflammable material, drenched in 50 gallons of oil. A mighty blaze broke forth that shone for miles around. The boys tramped around singing and cheering. They could not keep still. They didn't even know it was election night. Politics was a small matter to this crowd. Their football team had reflected credit on their alma mater. What cared they how New York voted? The bonfire finally burnt down, but until a late hour the pent-up enthusiasm would let itself loose in many ways. Fireworks were sent off. The college bell rang wildly all night. Everything paid tribute to this sturdy eleven.

Ramon Reyes Lala, who will lecture before the University Nov. 10, is an eminent Filipino author and orator. His lecture is entitled "A Visit to the Philippines," and will be superbly illustrated with 130 colored views. Admiral Dewey speaks in high praise of his work. The New York Herald regards his book as "by all odds the most important contribution" to our knowledge of the Philippines. Those who miss his lecture will miss a delightful evening of picture, song, and story.

Pres. Venable and Dr. Alexander went to the meeting of the Association of Southern Colleges on the first of November. This Association includes the more prominent colleges and many secondary schools of the South. It met last year at Columbia, S. C., this year at Charlottesville. They returned Monday, the 4th.

The marriage of Miss Flora Hazel Brackett and Mr. Percy Wood McMullan, an alumnus, occurred Wednesday afternoon, October 24, at two o'clock in the First Baptist Church of Elizabeth City. We congratulate the happy couple and wish them a serene voyage.

W. B. Sorrell has just received a nice assortment of diamond rings.

Sewanee Game.

Constitution's Account. Both Teams Did Fine Work.

As is well known, on Thursday last in Knoxville, Carolina walked over the University of Tennessee by a score of 23 to 5. Tennessee made five by drop kick from field.

Saturday at Nashville, our boys easily defeated Vanderbilt by the large score of 48 to 0. The story of these two games will be in the next issue of the Tar Heel.

On Monday afternoon at Atlanta Carolina and Sewanee played a very brilliant and snappy game which resulted Carolina 0, Sewanee 0 which the Atlanta Constitution says "tells the story of a game desperately and viciously fought out, brilliant in team work and alive with daring and individual plays." It says "Carolina's tactics were clearly a shade better than Sewanee's" and while the Tennesseans were in fine physical condition "the Tar Heels entered the game in signally poor physical condition, demanding the administration of stimulants on the field to keep the men on their feet." Describing Seibel's long run when the ball was put on Carolina's ten yard line and everybody expected to see it rush over in Sewanee's furious attempt to score, the Constitution says: "Here Carolina showed her dogged grit. The Chapel Hill men stood in their last ditch like grim death was behind them. Three times the line broke through and each time Kilpatrick was dashed back with a loss of ground and the oval went over on downs amid a yell of glee from the Carolina crowd. There on Carolina's ten yard line it became evident at last that Sewanee could not muster the strength to score on her opponent save through a fluke or chance kick from the field."

The game began at 2:30 and the following report is from the Constitution:

Carolina took the ball for the kick-off, while Sewanee defended west goal. Graves kicked 40 yds, and the oval was brought back nearly to centre of field where the Tennesseans sent Simpkins, Seibels and Kilpatrick around the end and through the line for gains of 3 and 4 yards. After the first rush was over Carolina settled down to work and took the ball from Sewanee on downs. McRae and Berkeley romped through the line for short gains, but Sewanee got ball on downs and with an occasional punt the first half was over while neither team had brought the ball anywhere near its opponent's goal. During this half Graves made effort to kick drop kick goal from Sewanee's 25 yard line, but failed.

SECOND HALF.

Sewanee kicked off and Graves got ball on five yard line and kicked to centre of field. Simpkins returned the kick and Graves again

sent the oval back.

Carr is substituted for McRae. Kilpatrick went around right end for 3 yards and again for two yards. Seibels tried left end, but was thrown back. Kilpatrick was sent around right end for 4 yards and the three following attempts resulted in the ball going over on down. Carolina kicked and Seibels caught the ball. Sewanee kicked only 10 yards. Kilpatrick got 5 yards over line. He went around end for 1 yard and then 3 yards. Seibels was given the ball and he shot around left end for 35 yards being nicely tackled by Graves L. on Carolina's 10 yard line. Kilpatrick got 3 yards over tackle and then he bucked the line for 2 yards. On the third attempt he was thrown back by Captain Osborne for a loss of 5 yards and his next two attempts were equally as futile.

Carolina's defense was brilliant and the ball went over to the Tar Heels.

Graves kicks the oval out of danger, and Simpkins on the line-up, in trying to break through centre was thrown back 2 yards. Sewanee kicked and Graves returned the ball, when Simpkins made a free catch on the 35 yard line. Sewanee lined up for a place kick and the crowd held its breath while Kilpatrick adjusted the oval. The contact came, but the ball sailed to the left and Sewanee's only chance of scoring was lost.

It was Carolina's ball on the 20 yd. line and again Graves kicked out of danger. A series of punts followed in which neither side received any material advantage. On Carolina's last punt Seibels made a brilliant catch and brought the oval up the field for 25 yds. Captain Williams on double pass goes around end for 4 yds., and Seibels make 1 yd. over line. Kilpatrick kicked and Graves L. caught the ball. With the oval in center of the field the Tar Heels display offensive work. Carr was thrown into the line for 4 yards and again for 3 yards. Berkeley goes around end for 7 yds. and Bennett hits centre for 3 yds. Carr again makes 5 yds. and then three yards. Sewanee off-side gives Carolina 10 yds. The oval was in Sewanee's territory, brought there by quick and fast rushes, but there was only two minutes more to play and after an exchange of kicks the game was over with ball in center of the field in Carolina's possession.

The line up is as follows:

Smathers	L. E.	Pierce
Foust	L. T.	Smith.
Rankin	L. G.	Phillips
Council	C.	Poole.
Phifer	R. G.	Clairborne.
Bennett	R. T.	Bolling.
Osborne	Rr E.	Black
Graves L.	Q. B.	Wilson.
Berkeley	L. H.	Kilpatrick,
McRae and Carr	R. H.	Seibels,
Graves E.	F. B.	Simpkins
Wilson, Umpire.		
Rowbotham, Referee.

Honor to the Team!

The results from the football team's Southern and Western trip are far from discouraging. The winning of two good games, the one by a considerable and the other by an overwhelming score, from strong teams, is a record for a single trip of which we may be proud. It is true we did not win the last and most important of the three games, the one with Sewanee, and that is, of course, a disappointment. But Sewanee didn't get it either, and that is distinctly a matter of rejoicing. As The Tar Heel predicted, the University's team did do its very best, for the true Tar Heel grit was in it; and a team that does its best deserves all honor. It was "up against the real thing" at Nashville, and no advantage was gained over it. The line has been very strong from the beginning of the season, and it was so on the recent foreign fields. There seems to be improvement behind the line, and this is noted with gratification. In the thing in which we have been most deficient, wonderful improvement took place, for Carolina undoubtedly played a beautiful and brilliant kicking game in Atlanta; and over this we may sing anthems of joy. The whole team has been steadily on the rise since the season began: it gets stronger every game, it plays; and on its recent trip it has gained a large increment of efficiency and power. Georgia, Virginia, and Georgetown are now to be met and overcome. There seems to be no sufficient reason why, with team the we have, we shouldn't down them all three. Let everybody urge on our representatives to continued conquests. Georgia will be easy; and Virginia we must defeat. If the team and the whole college direct their utmost efforts to that end, we can and will compass it.

Prof. Noble went recently to the laying of the corner stone of St. Paul's School. Rev. Thomas W. Noe is principal, and Mr. C. F. Hoell, '00, is master. Mr. Noble delivered an address on the University and schools of North Carolina.

Dr. Battle's Lecture.

Dr. Battle's lecture in Gerrard Hall Friday night was well attended and much enjoyed. His subject was "Some Remarkable Trials in North Carolina—Both Civil and Criminal." In part, Dr. Battle said:

One of the first and greatest trials ever held in this State was that of Earl Granville vs. Richard Davie and others held at Raleigh in 1804. Earl Granville was one of the large English proprietors and owned almost all of Western North Carolina. When the Revolutionary War broke out the land was confiscated. After the War the United States decreed that such lands should be returned to their original owners. The State objected and a suit was started. The case was finally wiped off the docket during the War of 1812. In this trial William Gaston represented Granville and Duncan Cameron plead for Davie.

Glascoc's case was important because it resulted in the establishment of the Supreme Court of North Carolina. Glascoc was Secretary of State and while in office frauded the State out of a large tract of land. For this he was convicted and turned out of office.

The Holden case is of the greatest interest. Holden declared Alamanca and Caswell in state of insurrection, imported a body of 500 men from Virginia and Tennessee, and arrested many good citizens without cause. This was done for political purposes. For this he was convicted, removed from office, and disqualified from holding any office.

One of the most exciting of private cases was that of State vs. Barnum. Barnum married a North Carolina woman, treated her harshly. She died suddenly and Barnum was tried for poisoning her, but the physician who examined the woman's stomach found no poison and Barnum was turned loose.

The next case was remarkable because in it there happened a serious breach of court decorum.

A beautiful young lady married a man named Simpson and, becoming tired of him, poisoned him with arsenic. In the case, one of her lawyers expressed it as his private opinion that his defendant was innocent and she was acquitted.

In the case of State vs. Caravan the sanctificationist, a jealousy arose between him and a man named Lasseta and Lasseta disappeared. Finally the body was found and Caravan was convicted. He then shot his prosecutor and committed suicide.

The case of State vs. Inkhorn was most amusing. Inkhorn was a Methodist who thought it his duty to sing at every revival and he always broke up the meeting. He was asked by the officers of the church to stop, but refused to. He was then indicted for disturbance of public worship.

Mr. Frank Murray Fremont '79, formerly of this State, but lately of New York, died Friday, Oct. 26, from the effects of a railroad accident a short time ago. At the time of his death, he was engaged in the railroad business.

Why We Should Have a Glee Club.

(Concluded from last week.)

The course of University lectures is, by itself, insufficient; Chapel Hill has but few means of indoor entertainment; the various literary, social and religious clubs do not appeal to all. For lack of something of universal interest, many students, forced by sheer idleness and by excess of animal spirits, commit petty acts, acts unspeakably small and altogether unbecoming to men. These students deserve the attention of the University. Opportunity should be given to those of them who have musical ability to use this power; and to those who may not have special talent in this direction, opportunity should be given for fostering a sentiment of pride for an organization which, in other colleges, wields tremendous influence, and ought here to inspire stronger feelings of loyalty and of true manliness. There is inspiration in the sight of college men rendering in music that indefinable "college spirit," that mixture of youthful enthusiasm, of reverence for a noble institution, of loyal pride. To both young and old alumni, anything which calls up in them remembrances of their alma mater ought to be inexpressibly dear, and is. And nothing can so well flood them with loving memories as their college songs, and their college music.

So that, besides advancing the musical powers of the participants, besides rousing a feeling of college unity, besides furnishing entertainment at seasonable times, besides affording a legitimate outlet for youthful exuberance, besides stirring the best feelings of our men, as only music can stir the best feelings of men, a glee-club would bind more closely to the University the sentiments of its graduates; it would, by giving outside entertainments, gather the alumni of each town or county in one hall; it would call forth the men and women of the State who find it impossible to attend athletic contests.

Dr. C. S. Mangum and bride arrived in Chapel Hill Monday.

Mr. J. R. Rountree spent Sunday last in Raleigh, as did also W. A. Murphy.

Dr. William B. Phillips '89, has been elected to the chair of Geology at the University of Texas.

L. Morehead and Tom Ross went Wednesday on a hunting trip 25 miles north of Durham. In two days they killed 80 partridges, or at least so they say.

Mr. Edward May, of Boston, has given \$500 to the library to be used in the purchase of books in the modern language department as a memorial to his son, the late Prof. May.

Mr. Holland Thompson '95, who is in New York doing graduate work at Columbia University, has been appointed instructor of history at the City College of New York. This institution has over 1900 students.

Dr. Mangum's Marriage.

The following clipping from the army and navy register will interest the University:

MANGUM-PAYNE--At Washington, D. C., October 25th, 1900, Dr. Charles S. Mangum of North Carolina and Miss Laura Rollins Payne, daughter of the late Capt. J. S. Payne, U. S. Army, retired.

Miss Laura Rollins Payne, only daughter of the late Major J. S. Payne, U. S. Army, and Dr. Charles Staples Mangum of the University of North Carolina, were married at 8:30 o'clock on Wednesday night at St. Andrews Church, Washington.

The vested choir of the church, of which the bride has been a member, met the wedding party in the lobby of the church and preceded them up the center aisle to the chancel singing the bridal chorus from "Lohengrin."

Following them walked the ushers: Mr. Eppa Hunton Jr., of Warrenton, Va., Dr. Thomas Ruffin of the University of North Carolina; Dr. Vincent; Mr. Julian Carr of Durham, N. C., and Dr. Thomas Steele of Rockingham, N. C.

The maid of honor was Miss Julia Barry, of Warrenton, and the bridesmaids in attendance were Miss Virginia Payne, the bride's cousin, and Miss Sarah Taylor, of Georgia.

The bride, who is a girlishly pretty brunette, was escorted by her uncle, General Payne, by whom she was given in marriage.

Her gown of cream-colored silk crepe that hung gracefully to her slender figure was edged about the train with small flounces, and the bodice was made with a shirred effect and finished with lace and white ribbon.

A coronet of orange blossoms held her veil in place and she carried a shower of bridal roses and lilies of the valley sheathed in maidenhair fern.

The groom and his best man, Dr. Baskerville of North Carolina, joined the train in the chancel, and the ceremony was performed by Rev. Josiah Perry, Rector of St. Andrews, assisted by Rev. Mr. Argo, rector of the Church of the Holy Nativity, Philadelphia.

A reception was held at General Payne's residence, 2215 Washing-

ton Circle, and later Dr. Mangum and his bride left for a wedding trip that will end at their home in North Carolina.

With The Societies.

PHI SOCIETY.

Two new members were initiated. The query was: "Resolved, that Trusts are not detrimental to the welfare of our country."

The affirmative held that this is the day of great combinations and that they are the natural outgrowth of our industrial conditions. Combination is stronger than individual effort and "In unity there is strength."

The negative held that trusts tend to build up monopoly and drive out individual capital. Trusts control prices to the detriment of all classes of people.

The debate was fairly good. Freshmen took part for the first time. The committee to decide the debate declared in favor of the negative and reported Mr. Sallenger as best debater.

DI SOCIETY.

The reporter failed in his duty this week.

Virginia is trying hard to get another game with V. M. I. The Cadets are refusing to play, so *College Topics* says, unless Virginia cancels her Thanksgiving game with Sewanee and plays them then.

From the Tulane "Olive and Blue."

To The Tar Heel.

Under the new administration, Tulane has begun the session of 1900-'01 with bright prospects for a successful future. Although Dr. Alderman has held but for a brief period the reigns of government, his influence is already felt in all departments of University life. With an unerring judgment he has solved many of the problems that Tulane has had to battle with, and he has put plans into operation which will put Tulane in the high position she should occupy.

One of the most important and desired changes brought about by the new President is, the institution of services and lectures at the University for the purpose of bringing the students more closely together and to foster college spirit. Chapel services will be held every day for a few minutes and though a deeper purpose is intended than the mere assembling of students, the daily gathering is expected to add another bond to fraternal union. One day in every week, however, the services will be extended to forty-five minutes, with the addition of a lecture or an address on some subject of interest to the students. The services are to be purely non-sectarian and are not to be compulsory, except on the one day in the week when an address will be added to the ceremony.

Dr. Alderman has for some time been in communication with scholars and prominent men in New Orleans and throughout the State, and has secured a number of speakers filling the program up to March.

Another change brought about by the President's advice was the amalgamation of two rival publications, the "Collegian" and the "Tulane Magazine," into one, now under the name of the "Tulane University Magazine." Not only will the new publication be a stronger and better one than either could have been alone, but there is a promise that the system of selecting the Board of Editors will be altered, a more democratic plan of choosing being substituted for the former method of election by the old Boards.

Another change that President Alderman has instituted has been the appointing of committees of different gentlemen of the Faculty on subjects of importance to Tulane.

A medical journal has recently been started by the medical students under the name of the "Phagocyte," the first number to be published November 1st. Articles on medical topics are to be contributed by the students and later on physicians may write for publication. Although the journal will have no regular departments, one of its leading features will be articles and comments on cases of especial and extraordinary interest in the Charity Hospital by those students in whose departments such cases may be found.

Tulane's prospects in football this season are brighter than they ever have been. Under the careful training of Coach Summersgill the team has developed wonderfully and will do its best to prove that

its work and practice has not been in vain. Only one game has been played so far and that against a city team that proved unequal opponents to the defenders of the olive and blue. It must be added however that the work shown by our men on this occasion augurs well for the success of the team, in the trials to come.

Henry P. Dart, Jr.
Exchange Editor.

News of Other Colleges.

Sewanee defeated Georgia and the Techs last week. The former 21 to 6, and the latter 34 to 0. Georgia scored by a sensational run of 35 yards by Darsey, her little quarter-back.

Tulane in her first game of this season defeated the Southern Athletic Club by a score of 23-4.

Professor H. V. Hilprecht, of Pennsylvania has returned to this country, after having spent a year in developing one of the greatest discoveries in Archaeology, the ancient city of Nippur in Babylonia. In recognition of his splendid work he has received decorations from the Sultan of Turkey and the Emperor of Germany. Many prominent German Universities extended to him flattering offers of professorships, and doctorates, but he modestly declined all and remained in allegiance to his American University.

A poll of Harvard taken by the *Harvard Republican* showed that out of 2408 voters, 2053 favor McKinley and 297 favor Bryan. At Pennsylvania McKinley received about 74 per cent of the 902 votes cast.

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., November 14, 1900.

NO. 8

Carolina Downs

Tennessee

A Good Game in Knoxville. Score Was 22 to 5.

In Knoxville, Tenn., Nov. 1st., our boys met and defeated the University of Tennessee football eleven by the score of 22 to 5. In commenting on the game the "Journal and Tribune" says:

"Carolina's interference was the most impenetrable ever seen on the local field, and old time football men who have seen the best teams in the country, say they never saw it excelled. Time after time the interference whipped around between end and tackle, boxing the ends out into the field, while the Tennessee backs flung themselves desperately in to stop the breach, sometimes to be met with a rush of Tar Heels in which it seemed the whole Carolina team was interfering."

Logan kicked goal from the field in the first half, making the University score. Hamilton, Logan, Newman, Knappe, Jarnagin, Hollopeter, French and Schenck deserve special mention for the good work they did for Tennessee.

McRae, Bennett, Donnelly, Berkely, and Makely did especially well for Carolina, but every man on the team played safely.

FIRST HALF.

Tennessee kicked off and Carolina fumbled until Sharp got the ball on Carolina's 20 yard line. Tennessee struck Carolina's line twice without success and lost the ball on downs. Carolina took the ball and through a series of quick end plays with their good interference, gained twenty yards to Tennessee's right, five yards to left, through right tackle for a gain, and in eight minutes sent McRae around right end for a touchdown. Brem fails to kick goal.

Score—5 to 0.

Tennessee kicks off, Sharp tackles at 25 yard line. Hamilton goes through interference in next play and tackles behind Carolina's line. Carolina fumbles and Jarnagin gets ball in the next play. Newman for Tennessee goes through the line for a gain. Hamilton repeats it. West attempts to go around Carolina's right end and is tackled behind the line. Newman attempts to kick, but is blocked by Bennett who goes past Longmire, and after blocking the ball so as to fall behind Newman, caught it on a bounce and was off for a touchdown with a clear field. Brem kicks goal.

Score—14 to 0.

Newman again kicked off to Carolina's 20 yard line and held in return at the 25 yard line. Carolina was held for two plays and kicked on the third. Logan promptly returned with a kick to the 25 yard line. Tennessee again held. Carolina kicked. Logan did not get to

return but was tackled and held at the 50 yard line. The ball went into play when Logan kicked it back to the 25 yard line, just at the close of the first half.

SECOND HALF.

Tennessee kicked off to Carolina's 20 yard line. The ball was returned 20 yard, and put into fast play, with steady gains by Carolina. McRae found a hole between left guard and tackle and plunged through, shook off all tackles, and went down the field for a touchdown.

Brem fails to kick goal.

Score—16 to 0.

When the game got under way again, Tennessee got the ball and steadily plunged into Carolina's line for gains. Newman, Hamilton, Hollopeter and Longmire took the ball and gained. At the fifteen yard line Logan kicked for goal from the field and got it.

Score N. C. 16, Tenn. 5.

Tennessee's first play after Carolina's kick-off made a big gain through Carolina's centre, but in some way the ball was fumbled and Carolina got it. McRae was succeeded by Ebbs at right half. Carolina next fumbled. Tennessee kicked. Carolina, after gaining on two or three plays, sent Donnelly between University's left tackle and end for a touchdown.

Brem kicked goal.

Score—N. C. 22 Tenn. 5.

The last half finished with ball near centre of field.

Following is the line-up of the teams:

Tennessee		Carolina.
Jarnagin	C.	Council
French	R.G.	Brem
Knappe	L.G.	Rankin
Longmire	R.T.	Bennett
Newman	L.T.	Foust
Sharpe	R.E.	Osborne (Capt.)
Schenck	L.E.	Smathers
Hollopeter	R.H.	McRae & Ebbs
West	L.H.	Berkely
Logan	Q.B.	Makely
Hamilton	F.B.	Donnelly.

Umpire—Thompson McClung
Referee—Howard Ijams

To the Freshman.

The following by a student is published with pleasure:

When across the campus
For you the Sophs come,
No matter their motive
There's no place like home.
When safe from the Soph'more
You keep yourself there,
You rather prefer it,
To being elsewhere.
Home, home! sweet, sweet home.
When off from the campus,
There's no place like home.

But if they have caught you,
With chills do you shake
And wonder how long
The blacking will take;
Anticipation is dreadful,
The deed itself worse,
And when all is over
You run home to curse.
Home, home! sweet, sweet home.
Stay 'way from the campus!
There's no place like home.

Carolina 48 Vanderbilt 0.

The "Nashville American" and "Vanderbilt Hustler" tell of the Great Game.

On Saturday, the 3rd of the month, Vanderbilt University team lowered their colors to the Tar Heel boys. The *Nashville American* telling of Vanderbilt's victory over Carolina three years ago says: "48 to 0—that was the bitter pill of revenge which Carolina forced down the throats of the Vanderbilt boys. The hope of defeating the gold and the black stimulated them to work with the result that one of the best teams ever turned out by a southern college sports the white and blue colors of the University of North Carolina. They went into the game yesterday with the spirit of the lion that has his prey covered. The visitors were conscious of their strength. They went into the game with a jump and never let up till time was called. The visitors played one of the strongest games of foot ball that has been witnessed here in some time. They were always in the game and had their knowledge box with them. Fumbles were rare and misplays seldom. Their play was like clock-work in its regularity and perfection." The *Vanderbilt Hustler*, says, "North Carolina has a well balanced, well developed team. The strongest point in the line is the tackles. The team seems to build up around Bennett, the big tackle who was always called behind the line when gains were needed. Osborne and McRae did good work and Graves punted well and kicked goals with great accuracy." The *Hustler* furnishes the following detailed report of the game:

Webb kicks off for Vanderbilt at 3:13. Bennett is somersaulted by Simmon's hard tackle. Simmon is taken out and Overton is put in at quarter. Carolina gets away for a 20 yd. run before being downed by Webb. Carolina bucks the line for 4 yards. Tries another to no avail. Makes 3 on next play, and again gets 1. Ball is fumbled, but recovered and 3 more added. Berkeley gets 12. Graves tries line three times for 9 yds. Carolina fumbles but recovers. Berkeley gets it. Buck nets 3. McRae killed on the line. Berkeley makes 2. Buck fails. Vanderbilt's ball. Davis gets 1/2 yd. Barbee makes 4. Edgerton punts over his head skyward. Berkeley falls on ball behind goal line. Graves kicks goal.

Webb kicks off and Carolina returns 5 yds. McRae gets 1, tries tackle for 5, and bucks line for 4. Berkeley adds 8. Osborne tries end, dodges Webb and makes a 60 yd. run for a touchdown. Graves kicks goal.

Webb kicks off and ball is returned 3 yds. Graves punts. Ball fumbled repeatedly, but finally ends in Vanderbilt's hands. Line buck results in 1 yd. Edgerton gets 2.

Webb attempts punt, but Carolina blocks. Carolina falls on the ball.

Berkeley makes 1, and works a trick play for 8 more. Vanderbilt line kills two bucks. Ball given to McRae who fumbles when somersaulted by Barbee. Berkeley secures it and makes a touchdown. Graves kicks goal.

Vanderbilt kicks off and Carolina returns 8 yards. Graves kicks and Carolina gets ball on Webb's fumble. Trick play loses 3 yds. Tackle tried but loses. Carolina punts. Buck gains 1/2 yd. Edgerton tries fake but gains only 1/2. Ball given to Webb to kick, but he loses it to Graves who makes a touchdown. Graves kicks goal.

Webb kicks off and Barbee gets Carolina on a 10 yd. return. Graves kicks. Webb fumbles, but Barbee recovers for Vanderbilt. Webb attempts punt but fumbles. Carolina bucks 3. Tries again but Barbee spoils it. McRae goes through tackle for a touchdown. Graves kicks goal.

Webb kicks off and Bennett returns 3 before he is tackled hard and loses the ball. Carolina gets ball and kicks on next play. Webb fumbles, but Vanderbilt gets ball. Davis tries in vain. Webb kicks. Makeley returns 10 yds, and fumbles when tackled. Vanderbilt's ball. Edgerton tries end for 8.

Time of first half called. Score 30 to 0.

Graves kicks off and McLean returns 10 yds. First play results in no gain. McLean gets 4. Davis punts and Carolina returns 3 yds. Carolina makes 3, and Berkeley adds 4. Trick blocked by Edgerton. Berkeley tries tackle for 3, and goes through line again for a touchdown. Graves kicks goal.

Davis kicks off and a return of 10 yds. is made. Graves kicks and Carolina gets ball on a fumble. Again kicks. Buck through Carolina's line for 4. Edgerton bucks in vain. Booth dies on the line. Brem taken out and Phifer put in. End run gives Carolina nothing. Graves punts to McLean who returns 5 yds. Edgerton loses on end run. Kick tried but blocked. Jenkins tried in vain. Edgerton tried. Vanderbilt kicks. Carolina bucks twice for 8, and continues to the tune of 4, 1, 4, 2. Patterson hurt and Houston put in. Carolina continues bucking process. Booth hurt. End run nets 12. Graves goes through for 4. Graves fumbles and Vanderbilt makes a touchback. Vanderbilt kicks and Carolina returns 3. Line buck nets Carolina 2. Graves punts to McLean who fails to make any return. Edgerton makes 10. Overton fumbles and Carolina gets ball. Berkeley makes touchdown. Graves kicks goal.

Davis kicks off over goal line and Carolina makes a touchback. Graves kicks to McLean who returns 4. Ball goes to Barbee on a

SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

The University needs for some of its bards to strike their silent lyres. At the notable welcome-home the college recently gave its football team, college songs were conspicuous by their absence. There was plenty of yelling, but it was clearly demonstrated that we are sadly in the need of songs. They are most appropriate to such occasions, and, breathing the love of alma mater, make patriotic pulses beat faster. A college without its songs is like a springtime without its flowers. They keep alive and even often create college spirit. The men who write them are, as the saying goes, greater than the lawgivers; they are rendering a service of the first magnitude. It will give the Tar Heel utmost pleasure to publish any worthy efforts in this direction. The necessity is great; let it be met manfully. We must, by no means, be without anthems to sing in celebration of Virginia's downfall and departed glory.

Let every member of the student body who possibly can go over to Raleigh Saturday to whoop Carolina on to a great victory over Georgia. Nothing will put heart and hardihood into our boys like the presence of those to whom their success is most dear. There must be such a gathering of the clans in the capital city that a census of the University can be taken then and there. Let there be such a gathering of the unterrified clans that our opponents, realizing that the "Carolinians are coming," will wish that they were "Marching through Georgia." We are on the high road to the Southern Championship; a big victory over Georgia will put us some stadia nearer it.

Manager Carr has arranged for a special train to Raleigh Saturday. It will leave here about 10:30 A. M. and leave Raleigh about 7 P. M. The fare will be about \$1.80. A special car will be provided for ladies. Let everybody go.

Messrs. N. C. Curtis and K. P. Lewis, A. B. '00, spent Sunday on the Hill.

THE PHILIPPINES.

Mr. Ramon Reyes Lala's Instructive Talk on His Native Country.

Mr. Ramon Reyes Lala delivered his famous lecture on "The Philippines" in Gerrard Hall Saturday night. There was a large crowd present, all the seats being occupied. The lecture was well illustrated by over 100 colored views showing the scenery of the country and the customs and occupations of its inhabitants. It gave a good account of our newly acquired territory and was very interesting to everyone there. During the evening, Mr. Lala sang several Filipino songs which showed clearly that the Filipinos are not without musical ability.

In introducing the speaker, Dr. Venable said that Mr. Lala had fought in the insurrection against Spain and on this account had been forced to leave his native land, that he had formerly been an editor of a Manila paper, was educated at St. Johns, London, has been in America 14 years and is the only Filipino who is a naturalized citizen of this country. He has also written the best book ever published on the Philippines.

In part, Mr. Lala said: The present revolt against the United States is confined to the Tagalos and to only a very few of them. It was instigated by intriguing chiefs whose sole aim was self-advancement. It was also partially caused by a misunderstanding between the Filipinos and the Americans. Aguinaldo cannot be taken as a representative Filipino, but is much admired by his followers for his courage and shrewdness.

The refined class of Filipinos are in sympathy with the American government. As a whole, they are gentle, ductile, and are Christians. The savages of the interior are not Filipinos, but descendants of the African negroes.

Most of the inhabitants of the islands have civilization to a considerable extent. Lawyers, physicians and members of every profession are found there—in brief they have their own civilization.

They desire to become a part of the world and to have a share in its progress and blessings.

They want an opportunity to work out their own destiny, unmolested by any foreign power.

They are not yet, however, ready for independence. They have never had a chance to try to govern themselves, and hence might commit many grievous faults. The best classes desire a protectorate under which they may improve and then decide for themselves whether they shall be annexed.

Humanity demands that the United States keep the Philippines and humanity is the paramount law. Annexation would no more destroy this government than did the acquisition of Alaska and Hawaii. The Philippines were discovered in 1621 by the Spaniards. They are as large as New York, Delaware, Maryland and New Jersey combined. They are very mountainous, and abound in fine fruits and plants.

The remainder of the time was spent in showing pictures of the noted places of the islands, and the

life and manners of its people. Many of the views were taken in and around Manila, which has a population of 460,000. It is divided into two parts, the old city and the new city, which are separated by a wall. In it are merchants from all nationalities. In speaking of Aguinaldo Mr. Lala said that he was a young man about 30 years old. He served in the Spanish army for some time, but was suspected by the Spanish and arrested. He escaped, however, and has since been their most bitter foe.

A strong talk was made last week by Prof. Perrin of Yale, to the students, urging upon them more dignified and respectful observance of the Chapel Service.

A. M. Carr, '02, spent Sunday in Raleigh.

Mrs. F. M. Beard of Winston, N. C., has been in town during the past week canvassing for her book "My Own Life, or A Deserted Wife." She is the authoress of her autobiography and merits praise for such a work.

This book contains 203 pages including a cut of herself and husband. It is indeed a valuable reproduction and is endorsed by all. After being deserted, she was thrown upon her own resources with two children to support. She has traveled over 8 States up to the present date, selling about 5000 copies of this book, price 50 cents. It is published by Edwards & Broughton of Raleigh. Mrs. Beard is recommended by Mr. A. H. Eller, one of the leading lawyers of Winston. And we see no reason for anything but success in her canvassing tour.

On Saturday the 3rd, the Fresh class eleven met the Horner School team on the gridiron and defeated them by a score of 11 to 0. Both teams played very good ball. Horner was much outweighed by the Freshmen, but the teams were about evenly matched.

Campus Chat.

Claiborne Carr, of Durham, was here Saturday in the capacity of manager of the football team of the Durham Graded School. He was the guest of W. F. Carr, '03.

R. L. Vernor, of the Southern Railway, was here Monday relative to securing special accommodations for the students who are going to the Georgia game in Raleigh.

Mr. E. W. Myers, '65, of the United States Geological Survey, is again in Chapel Hill after a long absence.

The football game which was to have been played Saturday between William Bingham School and the Sophs was cancelled by Bingham on account of the poor condition of her team.

We are very sorry to learn that Hon. John Sprunt Hill, '89, who ran for Congress in New York on the Democratic ticket, was defeated.

William M. Walton, ex-'00, of the 5th. U. S. Cavalry, recently won a lieutenantancy in the regular army in a competitive examination. While here he achieved local fame by daringly climbing the flag pole of Memorial Hall.

Rev. Alex S. Phillips D.D., '80, has entirely recovered from a seemingly fatal disease and is now a prominent Presbyterian minister in Knoxville, Tenn.

The Charlotte Alumni Association was organized recently by Dr. Venable with a large and enthusiastic membership. One of the Association committee was Mr. T. T. Allison, A. B., '00, our star left fielder. After the meeting, a banquet was held at which some spicy speeches were made. Mr. D. A. Tompkins, Rev. Dr. Staggs and others were invited guests. It is hoped that Mr. Tompkins will be induced to lecture before the students soon.

Messrs. W. J. Harty and Fred Habel, both traveling men, spent Monday on the Hill.

Tar Heels in New York.

Mr. Ralph Graves who is making a name for himself in New York journalism, sends The Tar Heel this interesting account of a North Carolina organization in the metropolis:

New York, Nov. 10.—Not many days ago a score or more of Tar Heels had a dinner in the A.K.E. Club, 9 West Thirty-first Street, for the purpose of forming an organization to be known as "The North Carolina Society of the City of New York." Ex-Justice Augustus Van Wyck, Democratic candidate for State Governorship in 1898, was chosen President of the society, and it was decided to have an annual banquet on the anniversary of the Mecklenburg Declaration of Independence.

In addition to this annual affair it is proposed to give a supper on some day during next February in the Hotel Waldorf-Astoria.

Those who are eligible to the society are native North Carolinians and their descendants and graduates of the State University.

It is thought that the membership, as soon as all eligible people who live in and around the city have been initiated, will number upwards of four hundred—maybe more. Among those whose names have already been obtained and who will undoubtedly join the organization are the following:

- H. H. Atkinson, physician; Thos. Toy, merchant; Joseph H. Strange, manufacturer; Junius Parker, lawyer; George Graham, of the A. T. Co.; John Sprunt Hill, lawyer; Rufus L. Patterson, of the A. T. Co.; Taylor Grandy, advertiser; Kenith Murchison, cotton broker; George P. Howell, Lieut. of engineers, U. S. A.; Frank M. Cooke, Lieut. of Artillery, U. S. A.; George Gordon Battle, lawyer; George H. Mallett, physician; E. Pierre Mallett, physician; George B. Willis, architect; Gerard Wittson, lawyer; R. H. Sykes, lawyer; Albert Rountree, cotton broker; Logan D. Howell, teacher; Victor Whitlock, lawyer; W. H. Wills, of The Fruit Trade Journal; Robt. E. Follin, of the New York Commercial; Henry T. Sharp, of the Evening Sun; Ralph H. Graves, of The New York Times; C. B. Buxton, railroader; H. L. Staton, lawyer; Richard Arrington of the A. T. Co., Frank Faison, writer; J. J. Phillips, physician; F. C. Mebane, lawyer; Julian E. Ingle, lawyer; Ralph H. Holland, lawyer; Albert P. Massey, lawyer; W. Bynum Glenn, marine observer; J. D. Campell, secretary, and Thos. W. Harris, of the A. T. Co.

Lindsay Russell, son of Governor Daniel Russell of North Carolina, is Secretary and Treasurer of the Society. All applications for membership should be sent to him. His address is 6 Wall Street.

Linesmen—Roberts and Monroe.

Twenty minute halves.

Exchanges.

The scores of the three leading colleges in the football world stood as follows on the 10th. inst: Yale has scored 244 points to her opponents 5; Harvard 194 to opponents 10; and Princeton 138 to opponents 18.

The recent fall handicap games at Yale shows up a strong athlete in the Freshman class, J. L. Spraker. He cleared 6 ft. 2 in. in the running high jump and 21 feet, 2 inches in the running broad jump.

There is a wide-spread sentiment among the personal and political friends of the late Wm. L. Wilson, late President of Washington and Lee University, and among the alumni of that institution, in favor of erecting a suitable memorial in his honor. It has been suggested that this be a special endowment fund of \$100,000. Ringtum Phi suggests the erection of a new building, a Wilson Memorial Hall.

It is remarkable how nearly the Sewanee view of the result of the game coincides with ours. Though both teams were somewhat disappointed at the result, still there was no making of excuses, or intimation of unfairness in the game, by either side; in this respect the game deserves to be pleasantly remembered.

From a letter by a student in the Red and White, of the A. & M. College, it would seem that the students at least are not altogether blind and look at the State Athletic Association in a common sense way.

Several Princeton Freshmen recently stole the clapper of the College bell, were caught, and were fined \$30 apiece by the Proctors. They met this fine by having a number of small souvenir clappers made from the captured one, by the sale of which they easily raised the necessary amount.

State Athletic Association.

The following statement from students of the Agricultural and Mechanical College was sent to the News and Observer last week with request to publish:

"To the Editor:—We wish to state a few facts in regard to athletics in the A. & M. College. The general opinion is that the college students joined the North Carolina State Athletic Association of their own accord, because they thought such an association would improve athletics in the State colleges and schools. We wish to say that this is not true. At the convention which was called to organize the association, the student body was represented by one who did so without their consent, or knowledge of the object of the association. The students have always been opposed to an association of this kind, because they thought it would cripple college athletics in this State. The playing has not been up to the standard this season. This fact has been clearly demonstrated by all the games played this year, especially in the one between the A. & M. and Guilford College on Friday. We think that this attempt to improve athletics has been a failure and the students are in favor of withdrawing from the organization.

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., November 21, 1900.

N O. 9

VICTORIOUS CAROLINA

Varsity easily defeats the University of Georgia at Raleigh. Our boys play fine ball.

By the overwhelming score of fifty five to nothing made in two halves of twenty-five and fifteen minutes the 'Varsity' easily defeated the University of Georgia, last Saturday at Raleigh.

The game had attracted much attention and the friends of each college were claiming much for their eleven.

About one hundred and twenty boys from here, augmented by about fifty Durham people, went on a special train to Raleigh. The team also went down on this train.

The contest took place at the Fair grounds, which is by no means an ideal foot ball field.

The attendance was about 800, among those present being the A. & M. students and young ladies from Peace and St. Mary's. Nearly everyone wore the colors of their favorites and while the Red and Black had many supporters, the White and Blue was in great preponderance.

At the beginning there were many yells given and some enthusiasm but this soon died away when it was seen how easy it was for Carolina. The Georgians were in no way a match for Carolina. At every point they were clearly outclassed. The Tar Heels had a genuine walk-over from the start. The Georgians could not stop the terrible onslaught of our boys. The interference was superb and the ball would be carried for long gains at every rush. Carolina was never held for downs and only once did the Crackers hold them for two downs. The Georgians only succeeded in making the required distance once or twice and at the third down would have to kick. There was a good deal of punting, and here again our boys outclassed them. The tackling was very good and the game, on our part was free from fumbling.

Georgia played the strongest game she knew how. The men were in good condition and the score shows the relative merits of the two elevens. Their line could not stop our excellent interference and the backs and ends had to tackle our men after long gains. Dorsay for Georgia played star ball, as did Dickerson who was easily their best player.

The game was called at 3:15 and Captain Osborne won the toss. He chose to receive the kick and defend the west goal.

Georgia kicks off to Graves on the 15 yd. line and he carries the ball back 27 yards before being downed. Bennett hits left end for 23 yards and Oldham hits tackle for 13 yds. Foust fumbles but Smathers grabs ball with a 2 yd. gain. Bennett romps over for a touchdown. Time two minutes.

Graves fails to kick goal.

Score 5 to 0.

Georgia kicks to Carolina's 12 yd. line and Graves brings the ball back, behind nice interference for 21 yds. Oldham makes 5 yds. at end and Berkeley gets 8 yds. Graves hits guard for 5 yds and Oldham gains another 5 yds. Behind strong interference, Osborne runs 18 yds. and Foust is nicely tackled by Ridley after making 13 yds. gain. Berkeley is shoved over guard for 4½ yds. and Bennett takes ball for 7 yds. Hewlett goes in for McCutcheon at left half. Tackle called back and Bennett gets two gains of 4 yds. each. Oldham goes remaining 3 yds. for a touchdown. Time 3½ minutes.

Berkeley fails to kick goal.

Score 10 to 0.

Georgia kicks off twice and ball goes out of bounds, so Georgia prepares to receive the kick off.

Graves kicks 50 yds. and Dossey returns it 12 yds.. Ridley punts 18 yds. and ball goes out of bounds. Berkeley advances 4 yds. and is tackled by Gordon. Graves breaks through line for nice run of 18 yds. Foust gains 8 yds. and is thrown by Monk. Berkeley gets 2½ yds. and is stopped by Gordon. Bennett hits line 3 yds. and Graves bucks line for 3 yds. more. Remaining 5 yds. for touchdown made by Oldham. Time 3 minutes. Graves kicks goal. Score 16 to 0.

Georgia kicks off to Berkely on Carolina's 18 yard line and he runs back behind good interference for 20 yards. Graves kicks, but both teams are off-side and ball is carried back. Graves punts to Dorsey who fumbles and Smathers gets the ball with a 4 yard gain. Oldham knocks end away for 6 yards and Berkely follows with 8 yards. Oldham covers remaining 5 yards for a touchdown.—Time 2 minutes.

Georgia kicks 45 yards to Graves who returns 16 yards and is downed by Putnam. Graves punts 45 yards and Dorsey fumbles and then falls on ball! LaMar hits line for 3 yards. Dickinson tries centae but fails to gain over Council. A double pass to Dorsey gains 1 yard and ball goes to Carolina on downs. Osborne fails to gain. Foust hurls himself for 7 yards over right side of line. Berkely is thrown by Dickinson after making 2 yards. Oldham bucks line for 3 yards and Smathers follows with 4 yards. Graves nets 4 yards over line and Oldham advances 6 yards and is thrown by Ridley. Oldham on quick opening runs 4 yards and Hewlett stops him. Berkely fumbles, but Rankin catches the ball with 1 yard gain. Another fumble is obtained by Makely with no gain. Bennett with a nice run of 14 yards brings the ball within 8 yards of their goal and Oldham is pushed over in next rush. Time 5½ minutes. Graves kicks goal. Score 27 to 0.

Georgia kicks off 43 yards to Graves who returns 20 yards.

Graves kicks, but Georgia is off-side and Carolina gets 10 yards. (Monehan goes in for Dorsey.) Graves punts 50 yards to Monehan who fumbles and Bennett gets the ball with 8 yards advance. Oldham gets 4 yards and Bennett 3 yards. Foust runs remaining 12 yards for touchdown. Time 5 minutes. Graves kicks goal. Score 33 to 0.

Georgia kicks 30 yards and Graves comes back 21 yards. Graves punts 44 yards and Monehan returns 8 yards. LaMar advances 3 yards and goes out of bounds. Hewlett gains 2½ yards.

LaMar hits line for no gain. Council beautifully blocks a kick and Oldham grabs the ball with a 10 yard gain. Foust runs 15 yards and Bennett gets 1 yard. Oldham tries end for 14 yards. Georgia is off-side and Carolina gets 10 yards, when time is called with ball on Georgia's 5 yard line in Carolina's possession.

SECOND HALF.

Ebbs succeeds Berke'y. Walton goes to left tackle, Monk to left guard and Swanson retires. Baxter succeeds Rucker.

Graves kicks to Georgia's 10 yard line and Dickinson comes back 6 yards. Georgia kicks, but her attempt is a poor one and the ball rolls back to her 7 yard line and a Georgia player gets the ball. Georgia punts 45 yards to Makely who runs back 17 yards. Berkely skirts end for 30 yards and touchdown, making the longest gain of the game. Time 1¼ minutes. Graves kicks goal.

Score 39 to 0.

Georgia kicks off to Graves on 10 yard line and he returns 25 yards. Graves punts 50 yards and Monehan runs back 10 yards. McCutcheon tries end but cannot penetrate it. LaMar opens up line for 4 yards over centre. Hewlett, on delayed pass, gains 1 yard. McCutcheon takes ball but Graves takes it from him with no gain. Ebbs tries end for 12 yards. (Baxter goes in for Rucker at end on Georgia.) Baxter tackles Berkely and he fails to gain. Bennett advances 4 yards and is thrown by Baxter. Ebbs runs behind Graves for 6 yards. (Berkely is succeeded by Carr.) Carr gains 8 yards. Bennett fumbles and Georgia gets the ball. Georgia punts 40 yards to Graves who makes 5 yards. Carolina fumbles and Baxter gets the ball with a loss of 6 yards. Georgia attempts to kick, but Bennett nicely blocks the ball and Carolina advances 5 yards. Ebbs goes over the line for 4 yards. Foust hits end for 11 yards and goes out of bounds. Foust makes a beautiful run of 28 yards for a touchdown. Graves fails to kick goal. Time 1¼ minutes.

Score 44 to 0.

Georgia kicks 45 yards and Graves returns 32 yards. Roberts goes in for Foust. Graves punts 40 yards to Georgia who returns

the kick 40 yards to Graves who advances 7 yards and is thrown by Monehan. Graves punts 33 yards to Georgia who fumbles and Smathers obtains the ball. Ebbs loses 1 yard. Carr advances 9 yards over tackle and is thrown by Dickinson. Ebbs stumbles and fails to gain. Carr gains 3 yards and then 7 yards. Graves bucks the line for 6 yards and Ebbs follows over line with 2 yards. Carr jumps line for another 2 yards and Graves makes touchdown with another 2 yard gain. Graves kicks goal. Time 4½ minutes.

Score 51 to 0.

Donnelly succeeds Graves. Martin goes in for Makely.

Georgia kicks 40 yards to Martin who comes back 16 yards. Donnelly punts 34 yards and Georgia returns kick 23 yards to Donnelly who runs 5 yards. Donnelly punts 37 yards and Georgia returns 10 yards. Georgia punts 31 yards to Osborne who runs 7 yards. Donnelly punts 34 yards to Georgia and the ball is fumbled, but Georgia obtains it with a loss of 17 yards. Georgia punts 25 yards to Donnelly who comes back 9 yards.

Roberts gains 5 yards over line. Ebbs advances 7 yards and Carr makes 6 yards. Donnelly goes over centre for 5 yards and Ebbs runs the remaining 7 yards for a touchdown. Time 5½ minutes. Donnelly fails to kick goal.

Score 55 to 0.

Georgia kicks off to Carolina's 12 yard line and Donnelly returns 27 yards. Carr makes 7 yards around end. Ebbs fumbles and Georgia gets the ball. On double pass to quarter Georgia loses 7 yards. LaMar hits line but is thrown back 2 yards. Georgia punts 22 yards and Donnelly runs back 6 yards when time is called with ball in Carolina's possession on Georgia's 42 yard line.

Following is the line-up of the two teams:

Carolina		Georgia.
Osborne	R.E.	Rucker
Bennett	R.T.	Gordan
Rankin	R.G.	Swanson & Monk
Council	C.	Hirst
Phifer	L.G.	Putnam
Foust & Roberts	L.T.	Walden
Smathers	L.E.	Ridley
Makely & Martin	Q.	Dorsey & Monehan.

Berkely & Carr R.H.B. Dickinson
Graves & Donnelly F.B. LaMar
Oldham & Ebbs L.H.B. McCutcheon
Referee—Mr. Phil Meade
Umpire—Prof. Hubbard of A. & M.

Help The TAR HEEL.

According to the custom of advertisers, they always expect patronage when advertising in a college paper. For this and other reasons we would be pleased if you both as University men and Alumni show your desire to help us by patronizing them when in need of anything in their line. When you do this tell them you saw their advertisement in The Tar Heel and it will help us in securing their advertisement in the future.

The Tar Heel.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

Excelsior!

The higher educational institutions of the South have a common problem. It is the problem of nearer approach to that University ideal from which all of them are far. The subject is too large for any justice to be done it here. There is, however, a line of action essential to growth that can be briefly emphasized. Consistently and persistently followed, it will get these institutions daily further from the narrower and nearer to the larger view. It will help them to leave the comparatively contracted spirit and aim of the college for the more expanded spirit, the fuller, freer, and higher life of the University.

It is not the business of a University to work with raw material. Its privileges and duties are not realized, not realizable, by crudeness and immaturity. It is necessary to exclude the unprepared and unfit until they are prepared and fit. Admitted, they invariably lower the spirit and aim of the institution, making a high school of what should be a college and a college of what should be a University. Therefore entrance requirements should be raised as rapidly as is practicable. Of course local conditions which do not tend to scholarship must be considered and nothing unreasonable done. There is room for a rise throughout the South. The standard of entrance must be put up, gradually and surely, if slowly. Certainly this is a primary condition of the progression we are striving for. It is easily seen that putting up the standard of entrance, giving the institution a better class of men, will aid indirectly in satisfying the most absolute essential of its progress—the broadening of its prescribed courses of study.

Who can deny the necessity for liberalizing curriculums which are narrow and hide-bound? In our college courses leading to degrees there is a tendency to put all men in the same mould and turn them all out about the same size. Inflexible rules of study are laid down; the wants of the individual are

ignored, and he misses his potentialities. The same training is prescribed and enforced upon all sorts and conditions of men, the same mental pabulum for minds as different a diversity. Compulsion occupies a more exalted place than choice.

A University proceeds upon the assumption, the basis of which is sure, that those who come there are men who know their needs and not children to be guided into knowledge by leading-strings. The student is a free ranger, unfettered by the cramping restrictions of the school.

This ideal has been realized on both sides of the Atlantic, and can be here, though not in a day or perhaps even in a decade. A good beginning can be made now. Right now, the choice of studies in regular courses in this and some other institutions in the South, can, with utmost safety and advantage, be made freer. A long stride can be made from comparative narrowness and shallowness to University breadth and depth. May individual and institution throughout our loved Southland together grow up out of weakness into power.

To Virginia.

Here's the kind of thing we need. It rings true.

There's a football team a comin',
Yes, Virginia, she's a comin',
And if you are kind o' wonderin'
As to who and what they are,
They're the runnin', flying,

buckin',
—Smashin', tearin', kickin', cuffin'
Crowd that's goin' to lick the stuffin'

Out of you, Virginia.

There's a time that I remember,
Up in Richmond one November,
When they trailed the blue and orange

In defeat and in the dust.
And so now I've been a sayin'
And a bettin' and a prayin'
That the boys would win the day in

Norfolk, and they will or bust.

No, Virginia, you can't hack 'em,
And they've got the tin to back 'em,

Every man has got his money
On the good old Varsity.
With the streamin' white and blue you'll

See the crowd that's come to do you,

They'll come shoutin' Halleluia,
And they'll march to victory.

I'll be there with all the rooters,
With our old tin horns and tooters,

And the air will sound like thunder

On a roarin', ragin' sea.
Yes, you'll even be outhollered,
And your football team get walled,

And old "Wa hoo wa" 'll be swallowed

up in yells for U. N. C.

J. A. G.—'96

Mrs. Julia Graves went to Selma last week to the celebration of the golden wedding of Mr. and Mrs. Noble, parents of Prof. Noble, of the University.

With the Societies.

DI SOCIETY.

In the Di an animated discussion was held on the relative merits of the liquor systems of North and South Carolina. The Tar Heel advocates argued that in this state the liquor traffic is in the hands of the people. The dispensary advocates argued its satisfactoriness in Europe and South Carolina as a decreaser of drunkenness. The committee decided in favor of the North Carolina debaters and declared Mr. Jonas best debater.

PHI SOCIETY.

The query was: "Resolved, that Trusts are justifiable and should not be abolished."

The affirmative held that the trusts meet the tendency of the times toward consolidation and that it takes large combinations of capital to carry on the enormous volume of our business.

The negative argued that trusts tend to destroy individuality in business and to cause concentration of wealth.

The committee decided in favor of the negative and reported Mr. Herring best debater.

Dr. H. M. McDonald, of La Grange, came Thursday to see his son, Mr. A. M. McDonald, who is taking a course in Pharmacy here. Dr. McDonald returned the following day. He is a great admirer of the University.

WAR! WAR!

Read what H. R. Guthrie has to say to the University students. Five hundred men wanted as soldiers for China and five hundred men wanted to shave at H. R. Guthrie's Shaving Parlor, opposite Chapel Hill Hotel. The Central Barber Shop. Locals.

Dr. K. P. Battle lectured at Guilford Coge Saturday night and spent Sunday with his son, Dr. H. B. Battle, in Winston-Salem.

Coach Reynolds saw the Georgetown-Virginia game in Washington Saturday. No doubt he got valuable pointers for the approaching contest with our time-honored rival. May she meet the same fate as in '98.

Among the faculty who went to the Georgia game were Messrs. Noble, Graham, Howell, Linscott, and Baskerville. About 150 students were on the special Saturday morning.

The fall examinations are in the not far distant future and the loafer is becoming an unwelcome visitor. Signs such as these are appearing on the college dormitories: "This is my hard day!" "No loafers wanted!" "Keep out; this means you!"

Mr. Paul Collins, of Hillsboro, who played half back on the '97 team, comes over every day this week to strengthen the scrub and so give the Varsity better practice.

Mr. J. R. Rountree was called home last week on a sad mission, to attend the funeral of his uncle.

In a letter to The Religious Herald Rev. J. W. Jones gives an interesting description of Chapel Hill, the University and the Baptist church. He says that he has not smelt liquor on "student or citizen" since he came here. He pays Drs. Hume and Venable deserved tributes.

Senseless Vandalism.

Legitimate sport is entertaining and healthy, and should be encouraged, but the wanton, useless, and cruel killing of the beautiful larks on the campus should be condemned by authorities and students alike. The faculty have passed a law forbidding the firing of a gun on the campus, but why is it not enforced? Day after day, the larks are shot and there is no one to say the Vandals nay. A very few students, for a moments diversion, destroy a constant source of pleasure to the majority of the students and some of the faculty. This selfish habit should be stopped at once. This could be easily done by enforcing the faculty law, but no one, up to this time, has taken any steps to punish the offenders. It is a small matter, you may say, but those who, by acting as if they were small boys turned loose with a gun for the first time, destroy the larks, should be punished and the other students protected.

Junior.

A Caution!

Do you love your University? And do you wish to read a respectable paper? If so, kindly send remittance for The Tar Heel without further delay. For it is our desire to place before The Tar Heel readers a creditable paper, and this cannot be done, unless proper support is given it. Subscribers are again asked to send in their dues to the Business Manager at an early date, that publication may not be suspended.

Support the Team.

The record of the team so far is an admirable one. They have clearly shown what stuff they are made of. But heretofore the boys have been out in the afternoon and have stood on the sidelines and cheered the men. Now, for some unknown reason, probably the cold weather, very few students are on the sidelines. Probably not more than fifty are out each afternoon and these all seem to be "apathetic," as rarely is a sound heard. Coach Reynolds, at the mass-meeting recently given in honor of the team, said that now, as never before, will the team need the college behind them. Is this the way, then, we are standing behind them?

Let every student go out every afternoon and cheer the players. They have lots of hard work yet to do. We must support them. Keep off the field and give them plenty of room to practise and the proper amount of encouragement and we need have no fear for the future.

Beginning this evening go out and cheer the boys on and let them see that the college is behind them, body, soul and spirit, and it will do untold good.

VIRGINIA GAME

To be played in Norfolk next Saturday. Hot Game expected. Both teams determined.

Next Saturday, Nov. 24th in the city of Norfolk we tackle our old rivals the University of Virginia for the championship of the South in foot ball. Last year for reasons known to us all, it was impossible to have a game with Virginia and the absence of that contest caused a sort of apathy and lack of spirit on the part of our players, but this year we again meet them and each team will enter with a determination to do or die. Virginia this year has one of the strongest teams in her history. She has met many foot ball teams of national repute and against them all has put up a magnificent fight. Carolina is also represented by a team that we may well feel proud of. Their invincible tour of the South and West and their overwhelming victory against Georgia last Saturday shows us that our team is a powerful one.

They go to Virginia, knowing that they have the full confidence of the entire college and knowing that the entire college is behind them, heart and soul. The success of the team this far means much to us, but we want it to continue—it must continue. The white and blue can not be trailed this year. A good many boys will accompany the team to Norfolk and they will root as hard as they can. We that are left here have perfect faith in those that go and whatever be the result we know they will do their best and we shall be proud of them. The men that will go to Virginia are as follows:

F. M. Osborne, Capt.	End.
Age 21 Weight 146 Height 5-8.	
F. B. Rankin	Guard.
Age 22 Weight 188 Height 6 ft.	
F. L. Foust	Tackle.
Age 21 Weight 184 Height 6 ft.	
F. B. Bennett, Jr.	Tackle.
Age 21 Weight 184 Height 6 ft.	
T. R. Brem	Guard.
Age 20 Weight 196 Height 5-8.	
E. Graves	Back.
Age 20 Weight 184 Height 5-11.	
W. F. Smathers	End.
Age 19 Weight 148 Height 5-11.	
Council	Center.
Age 18 Weight 186 Height 5-11.	
Roberts G. V.	Tackle.
Age 24 Weight 160 Height 6-2.	
M. Makeley	Quarter.
Age 21 Weight 140 Height 5-8.	
Ebbs	Back.
Age 20 Weight 166 Height 5-9.	
G. Berkeley	Back.
Age 17 Weight 130 Height 5-8½.	
Donnelly J.	Back.
Carr M.	Back.
Age 20 Weight 150 Height 5-10.	
Phifer	Guard.
Age 21 Weight 184 Height 6-1.	
Oldham	Back.
Age 21 Weight 141 Height 5-10.	
Orr	Center.
Age 23 Weight 155 Height 5-10.	
Martin	Quarter.
Age 21 Weight 139 Height 5-8.	

In conclusion, to the team, we say put up your best fight and your alma mater will have no cause to fear. She sends you forth with hearty wishes for a glorious victory and she has confidence in you.

With Other Colleges.

The Yale faculty has voted to allow the University Glee and Banjo Clubs to take the longest trip in the history of American colleges. They are to go across the continent during the Christmas holidays, singing at Los Angeles and San Francisco. They will be the first eastern college musical organization to touch the Pacific coast.

The price of admission to all games of the University of Minnesota is \$1.50.

A meeting of the intercollegiate executive and advisory committees was held on the 11th at New York to discuss a proposed change in the eligibility rule, and to consider the interpretation of the rules.

The defeat of 12 to 0 which Cornell recently gave Princeton, was the first defeat which the latter college has ever received on its own grounds.

Tulane recently defeated Alabama by a score of 6 to 0.

Out of the 472 colleges in the United States, 370 have an enrollment of less than 150.

Vanderbilt rather surprised people by defeating Central College 26 to 0. Central recently played a tie game with Center College, which lately defeated Vanderbilt 11 to 0. So a different score was expected.

Rear Admiral Crowninshield has recommended that the number of naval Cadets be doubled, being appointed in same way as heretofore.

Virginia Defeats Carolina.

Old Dominion Boys Make Three Touchdowns. Fumbling at Critical Moments Lost the Game. Story of the Game.

In Norfolk last Saturday the University team went down before the University of Virginia boys by the score of seventeen to nothing. The outcome was a great surprise to every one and to none more than the Virginia players. Every one seemed to have thorough confidence in the ability of the Tar Heels to easily win over Virginia, and Carolina money was freely offered; but very little was taken.

The team left Chapel Hill Friday morning and arrived in Norfolk that evening and stopped at the Monticello Hotel, where also were quartered our rivals.

The scene that night in the hotel lobby was one that baffles description. Crowds of college students in different parts of the Hall were giving their college yells and songs. In the spacious balcony above the lobby were gathered the elite of Norfolk. Some of the most beautiful women of the two states were there and all wore the colors of their favorites. It was especially pleasing to Carolinians that the white and blue was out in such full force, there being about equal distribution of colors. The yells and songs were liberally applauded by the large audience of spectators but Yackety, Yack! caused a storm of enthusiasm.

The betting that night was very fierce. Odds were offered by each side, but even-money was the prevailing bet. The teams retired early, but their supporters were up far into the night.

The day of the game was ushered in early by a regular Christmas like noise. It was very cloudy and a slight rain fell part of the morning. All the trains brought in large numbers of people and many Carolinians were among the number. The streets were filled all the morning with yelling crowds.

The store windows were beautifully decorated with the rival colors. All Norfolk was football wild. At the hotels betting had taken a different turn. Carolina men were offering odds but Virginia money was scarce. 5 to 4 and 7 to 5 went begging. One bet of \$150 to \$50 was made that Virginia would not score.

The scene at the Park was a most beautiful one. On every side of the gridiron was a mass of humanity every one waving flags of White and Blue or Orange and Blue. There was about an even distribution of rooters. The S. A. L. Band of 35 pieces furnished music during the game. A corps of 50 policeman preserved perfect order. Reporters and officials were allowed inside the ropes.

When the two teams appeared on the field the whole assemblage rose en masse, yelling and applauding and through it all could be heard: Wah! Hoo! Wahs and Yackity! Yacks vying with each other.

Captain Osborne and Captain Lloyd tossed for choice and Virginia won, and chose to defend the north goal and receive the kick-off. Carolina played the poorest game she has played this season, while Virginia acknowledged that their team played by far the finest game of the season. We fumbled at critical moments. Virginia would gain by long runs around our end and some of our best players seemed to be dazed.

Virginia played by far a better game than Carolina. Graves punted well, and in the last part of first half, our boys carried the ball down the field in a quick series of rushes, but just before reaching the goal line another fumble was made. Virginia played unusually fast ball and Carolina was often caught unprepared. The only unpleasant incident of the game occurred just before the second half ended. Harris was put out of the game by the referee for kicking Graves, otherwise the contest was singularly free from all dirty and foul playing. Not a single off-side play was called during the game.

The game was called at 2:45 P. M. The teams lined up as follows:

Carolina	Virginia
Osborne	R. E. Bride.
Benett	R. T. Benet.
Phifer	R. G. Harris.
Council	C. Montgomery.
Rankin	L. G. Choice.
Foust	L. T. Lloyd.
Smathers	L. E. Hobson.
Makeley	Q. Nalle.
McRae	R. H. Coleman.
Oldham	L. H. Dabney.
Graves	F. B. Walker.

Graves kicks off to Virginia's 15 yd. line to Benet who advances the ball 10 yds. Dabney goes around right end behind beautiful interference for 28 yds. Coleman makes 2 yds and then 1 on mass on tackle. Walker bucks the line for 9 yds. and then 3. Dabney fails to gain and Coleman punts 33 yds. to Makeley who brings it back 23. Bennett gains 2 yds. on next down the ball is fumbled and Virginia man falls on it. Coleman tries line for no gain. On guards back formation Va. makes 1 yd. Coleman punts 15 yds., the ball rebounds 10 and Dabney gets it. Dabney makes 7 yds. on mass on tackle. Walker bucks line for 1/2 yd. Ball on Carolina's 20 yd. line. Second down and 4 yds. to gain. Dabney skirts right end for a touch down.

Coleman kicks goal. Score—Virginia 6. N. C. 0. Graves kicks off to Virginia's 13 yd. line to Coleman who brings the ball back 10 yds. Dabney circles end for 25 yds. Virginia is held for no gain on the next two downs and Coleman punts 20 yds. Graves kicks 15 yds. and Foust falls on ball

for Carolina. Graves kicks 30 yds. to Nalle who is downed in his tracks. Coleman tries line for no gain and then punts 40 yds. to Makeley who fumbles and the ball rolls 8 yds. before Graves gets possession of it. Graves punts 35 yds. to Coleman who returns 13. Two center plays net 5 yds. Dabney makes 3 yds. and Coleman makes 15 around left end. Ball on Carolina's 18 yd. line. Makeley hurt and Martin goes in. Virginia fumbles but Hobson gets ball and makes 13 yds. Two bucks on center net 1 yd. and Dabney fails to gain. Ball goes over to Carolina on her 3 1/2 yd. line. Graves kicks 33 yds. and Nalle brings ball back 5 yds. being nicely tackled by Osborne. Dabney makes 4 1/2, 1 1/2 and 1 yd. successively. Benet makes 3 yds. and Walker makes it first down. Coleman fails to gain. On next down Dabney is tackled by Foust behind the line for a loss of 2 yds. Coleman tries for goal from the 23 yd. line but fails.

Graves punts 35 yds from Carolina's 25 yd. line to Lloyd who returns 12 yds. Dabney makes 3 yds. and Coleman fails to gain. Coleman kicks 30 yds. and Martin gets ball on Carolina's 12 yd. line.

Graves punts 30 yds. Walker makes 5 yds and then 1 yd. Benet on the next three downs makes 5, 3, and 2 yds. Choice on guards back formation fails to gain. Coleman is thrown back 4 yds. by Bennett. Coleman fails at trial for goal from the field and Montgomery falls on the ball and the Referee declares a touchdown for Virginia. There is a dispute as to whether the ball was touched by a Carolina man before Montgomery fell on it but the Referee's decision remained unchanged. The ball is kicked out to Coleman who makes fair catch and kicks goal.

Score—Virginia 12. Carolina 0. Graves kicks off to Virginia's 15 yard line to Bride who returns 12 yards. Coleman kicks 30 yards.

Foust makes 5 yards around right end, but the ball is fumbled on next down and a Virginia man falls on it.

Coleman punts 40 yards to Martin who returns ball 5 yards. Ball is on Carolina's 23 yard line.

McRae skirts left end for 24 yards. McRae makes 1 yard and Oldham 3. Graves punts 30 yards, the ball rebounds 8 yards and a Carolina man falls on it. Oldham gains 1 yard. Graves bucks centre for 5 yards. Oldham is thrown for a loss by Choice. McRae makes 12 yards and here the ball goes over on downs.

Coleman punts 25 yards to Graves who returns 5 yards. McRae loses 1 yard. Graves punts to Nalle who is tackled in his tracks by Osborne.

Coleman punts but ball is blocked and Foust falls on it. Foust makes 3 yards. Oldham makes 4 yards but on next down the ball is fumbled and Montgomery falls on

it. Coleman kicks 25 yards and the ball is returned 5.

McRae gets 1 yard and Graves 2. Graves kicks 25 yards to Nalle. Here the ball is passed poorly to Coleman for a kick and Carolina gets it on Virginia's 15 yard line. Bennett makes 4 yards but drops the ball and Dabney falls on it on Virginia's 9 yard line. This was Carolina's best opportunity to score.

Coleman punts 25 yards to Graves who returns 10 yards. McCall displaces Bride at right end. Bennett is called back and McRae gains 1 yard. Bennett fails to gain and Graves fails trial at goal from Virginia's 25 yard line.

Coleman kicks 35 yards from Virginia's 25 yard line to Foust who returns ball 8 yards. McRae and Graves buck line for 8 and 2 yards respectively. Graves makes 3 and 3 again and on next down is held for no gain. Foust is thrown for a loss and Graves punts 27 yards.

Time is called with ball in Virginia's possession on her 9 yard line. 35 minute halves.

Score—Virginia 12. N. C. 0.

SECOND HALF.

Brem takes Phifer's place at right guard.

Walker kicks off to N. C.'s 10 yard line to Graves who returns 15 yards.

Graves kicks out of bounds and Virginia gets the ball. Virginia is held for no gain in the next two downs and Coleman punts, but the ball is blocked by Rankin and Oldham falls on it.

McRae gets 10 yards, Oldham 1, Foust 8, Bennett 8, and Graves 3 yds. McRae fails to gain and Graves punts 37 yards. Virginia's ball on her 23 yard line. Dabney gets 1 yard and Lloyd 4. Coleman kicks 32 yards to Graves who returns ball 5.

Harris substitutes Choice at left guard. McRae gets 4 yards. Bennett makes it first down. Foust fails to gain. Graves makes 1 yard. and kicks 40 yards to Nalle who is downed by Osborne on Virginia's 10 yard line. Coleman kicks 30 yards. Oldham gets 5 yards and Osborne goes around left end for 17 yards. Oldham gets 1 yard and Graves fails to gain. On the 3rd. down Foust gains 3 yards and the ball goes over to Virginia on her 14 yard line.

Coleman gains 15 yards on a double pass. On next two downs Virginia fails to make distance and Coleman kicks 20 yards.

Osborne gets 3, Foust 5, and Oldham 6. Bennett and Oldham are held for no gain and Graves kicks 20 yards to Nalle who advances ball 3 yards.

The next four rushes net 8 yards. Walker breaks through left tackle for 37 yards and is beautifully tackled by Smathers from behind.

Berkely takes Oldham's place at left half back.

Dabney makes 17 yards around right end and Benet 7 through the line. The ball is fumbled and Carolina falls on it on her 3 yard line. Graves kicks 32 yards to Coleman who returns 6.

Orr displaces Brem at left guard and Church takes right half for Virginia.

After the Ball.

The University has been beaten on the gridiron by its chief rival in Southern athletics, and the cup is bitter. The defeat—our first this season—is bad enough without being made worse by coming from Virginia. Although of course we have only the best wishes for our sister institution in its educational work, the rivalry in athletics naturally is keen. There is scarcely a friend of the University who would not have made personal sacrifices for the success of the team last Saturday. The dearest wish of many of them would have been gratified if banners of white and blue had flaunted victory in the face of that day's setting sun. The hope they set their hearts upon is ashes. Some of Carolina's supporters feel like covering their heads because they are undone.

But lamentations are useless. No college whose players are only mortals can expect to triumph always. If our athletic contests with Virginia have proved anything, they have proved this: that we can't lick Virginia all the time any more than Virginia can lick us all the time. It is not worth while for Carolinians to hang their harps by their rivers and weep because they have met defeat in a single contest.

It is a truism that it is not prosperity but adversity that shows the true worth that is in men, whether singly or in groups. It is in the times of adversity, when favoring breezes cease to blow, when the darkness of defeat is around, and the bitterness of death is nigh, that souls are first truly tried. Then humanity is proved on the great touchstone. The University has come to such a trial. That her sons will be as brave, calm and resolute in defeat as in triumph is a matter of course, for they are her sons, partakers of her spirit.

It is not only useless but harmful to take our disappointment out in passing severe strictures on the team. Surely there is no shame in admitting that it met more than its match in Norfolk. But that is

past and gone, and our eyes should be on the future. Let us lengthen our cords and strengthen our stakes. Next spring we will have a chance to give Virginia a dose of defeat. Let us gird on our armor for future contests and conquests. We haven't been conquered yet; like our fathers in the great war we have just been "overwhelmed." We are Tar Heels, men and brethren; Tar Heels don't stay beaten; and, by the Eternal, they won't this time. We are cast down but by no means dismayed.

We tender Professor Cobb the sincere sympathy of the students in this hour of his deep grief. The loss of a loved one is the saddest of the woes that wring the sad heart of humanity. It comes soon or late to every one of us, and there is nothing to do but bear it—the absence, the anguish, the bitterness of death—all must quaff the cup. If heartfelt human sympathy can in any wise alleviate such sorrow, our professor's burden is surely lightened, for we all feel deeply for him in this dark hour of his life. May the merciful God temper the bitterness of his affliction and lift up his heart. May he have the sweet assurance that the soul of the loved and faithful wife and mother is happy where the tears shall be wiped from off all faces in living fountains of water.

Georgetown Game.

The Varsity plays its last game of the season tomorrow afternoon at Washington, D. C., against Georgetown University. Georgetown has a very strong eleven and recently defeated Virginia by a score of ten to nothing. Carolina is going to Washington with grim determination to do their very best and it is by no means improbable that we will gain a victory.

The team left this morning and they will return Friday. Coaches Jayne and Reynolds went with them and they will not return to the Hill, but will continue on home. They have labored very faithfully with our team and whatever record it may claim, much of it is due to the untiring energy of the Coaches. They have made many close friends in college and all sincerely wish for them the highest success, and they may rest assured that there is always a most cordial welcome for them in this State and particularly at the University.

Mr. John Fox.

The Committee on Lectures announces Mr. John Fox, Jr. for December 6.

Mr. Fox is one of the most prominent of American men of letters. As the author of "The Kentuckians," "Hell fer Sartain," "A Cumberland Vendetta," and other stories of the Kentucky mountaineer, he has done enduring work.

There is enough of the melodramatic in his stories to make them very thrilling reading. Naturally, however, interest is added when they are told by word of mouth. So Mr. Fox has had great success as a lecturer.

Mr. A. C. Miller, '00, was on the Hill a day or two last week.

Messrs. Morehead, Carr, Payne, Jones T., Ramsay, Berkely, Capeheart, Ehringhaus, Lemly, Johnson, Bell, L. Graves and Weil accompanied the team to Norfolk.

VIRGINIA DEFEATS CAROLINA.

(Continued from first Page.)

The next three runs net 8 yards for Virginia. Walker bucks line for 5, 1, 4 and 1 yard successively. Dabney goes around end for 12 yards and a touchdown.

Coleman fails goal.
Score 17 to 0.

Graves kicks off to Virginia's 12 yard line to Walker who returns the ball 17 yards. Walker then bucks the line for 6, 1, 1, and 8 yards. Benet gains 3, Walker 2, and Benet 5 yards. Walker is thrown for a loss. Dabney gets 2 yards and Coleman kicks 35 yards to Graves who returns 10 yards. Osborne tries an end play but loses 4 yards and Graves kicks 40 yards to Dabney who returns 6 yards. Martin is hurt and Berkely goes to quarter, Donnelly taking his place at left half. The remaining few minutes were consumed mainly in an exchange of punts, the game being called with the ball near the centre of the field. A few seconds before time was called the only dirty play of the game occurred.

Graves after having punted was thrown and while there was kicked twice by Harris who was properly put out of the game by Umpire Armstrong. Barring this incident the game was a clean and sportsman-like exhibition of football in which Virginia excelled Carolina both in team work and head work.

Of the faculty, Pres. Venable and Messrs. Howell, Baskerville and Henderson went to our Waterloo.

As the words of Julius Caesar were quoted by a school-boy, "We came sore and conquered." (Sunday evening through the city from Durham.)

In the Phi society, the query was: "Resolved, That we annex Cuba." The committee decided in favor of the negative and reported Mr. Godwin best debater.

In the Di, the subject was: "Resolved, That Trusts are beneficial." The committee decided for the negative and that Mr. McRae was best debater.

The King's daughter's will hold their Annual Fair for the benefit of the charity fund, at Patterson's Hotel, Friday December 7th, 1900 from 3:30 to 10 P. M. Refreshments and beautiful Christmas presents for sale. The public cordially invited.

Mrs. Cobb Dead.

There was sadness on the Hill Tuesday when the news of Mrs. Collier Cobb's death came. For months she had been very ill and for weeks her life had been hanging in the balance. At half past four o'clock Tuesday morning Death struck the balance with his heavy hand, and the weary spirit fled. Mrs. Cobb had struggled in vain against the terrible constitutional malady of consumption. Her devoted husband was with her when she died. The funeral was held at Lilesville, where Mrs. Cobb had suffered so long. The husband and three children whom her death so sadly bereaves have the heartfelt sympathy of students, and community.

A loving, faithful wife and mother has gone from earth and left a house of mourning. Her epitaph might truthfully be written in these words: "Faithful unto Death."

Elisha Mitchell Scientific Society.

The Elisha Mitchell Scientific Society held its regular monthly meeting Tuesday night of last week in the chemical lecture room.

The first paper of the evening was read by Prof. E. V. Howell, on "Chocolate and Vanilla." He showed that since the chemical formula of vanilla had been made known it was no longer a product of the vanilla bean, but practically all that is put on the market to-day is manufactured.

Chocolate, however, is not manufactured, but is obtained from the seed of the cocoa-plant. The seeds are ground into a meal, and this is pressed into cakes for market.

Dr. A. S. Wheeler read a paper on the "Dissociation Theory." Dr. Wheeler's paper was rather too technical for the uninitiated to understand all the points discussed.

Some idea of what the "dissociation theory" means, however, was gotten from his illustrations. If sodium chloride—ordinary salt—for instance, be dissolved in water, the solution contains, not salt, but sodium and chlorine ions. But neither the sodium nor the chlorine exhibits its properties, the supposition being that they are charged with different kinds of electricity,

thus destroying each other's properties.

Prof. Cobb was expected to read a paper on "A Marsupial Track from the Triassic," but was absent from the meeting.

Historical Society.

The Historical Society held its second meeting for this term in Gerrard Hall Monday night.

Mr. Hugh Smith read a paper on Commodore Johnston Blakely, the hero of the War of 1812. Blakely was an Irishman by birth, but was brought to America by his father at an early age. In 1796 he became a student of this University, but did not complete the course for graduation. He subsequently joined the United States Navy, and became one of the greatest sea-captains in the early history of our country. His vessel with its gallant captain and crew, disappeared about 1814 and no trace of them was afterwards found.

Miss Rodman read a paper on the "Selection of the Seat of Government of this State." The State Legislature had met at various towns in the State, causing much inconvenience to the members. About 1787 1000 acres of land were purchased from Joel Lane, in the centre of Wake county, and the state capital—named in honor of Sir Walter Raleigh—was located here.

(Continued to next week.)

THE MODERN AMERICAN NOVEL.

Prof. Henderson's Fine Lecture.

Last Thursday evening the college was given a rare literary treat. Mr. Archibald Henderson, Assistant in Mathematics, lectured on "The American Novel of To-day: Its Place in Our Modern Life." Both the matter and manner of the address were excellent. The speaker showed intimate acquaintance with the authors and books he discussed and his analyses were pithy and full of insight. When, after being introduced by Dr. Venable, Mr. Henderson rose, he was welcomed with unusual warmth, the applause attesting the deservedly high place which he holds in the esteem of the students. Mr. Henderson was especially happy in his opening words. He said:

"Some months ago Gabriele D'annunzio, the distinguished Italian Novelist, left his party in the Italian Senate, of which he was a member, and walking over to the Socialist side of the house, tossed down his hat, exclaiming as he did so: 'Gentlemen, I come to you, for you are life.' Tonight, ladies and gentlemen, I leave Mathematics for a brief space only and I come to literature, for literature is life."

There has risen in our land today a power that will have to be reckoned with in the future. Its influence, should it be perverted, might become a serious menace to the morals, conscience and ideals of the great world of thought. When a book rushes into its hundred thousand in less than two weeks, the vast number of readers can be approximated to, since five readers to the copy is the accepted average. Why, every fellow that falls in love nowadays gives his sweetheart every new novel that comes out, and we all know that the woods are full of such fellows. The novel has become the most distinctive form of literary expression in the present age. The primacy of fictional literature demands our most diligent study.

Of late years the whole gamut of human emotions seems to have been run with startling rapidity. The reading public demand excitement and novelty, and dallies too much with the baubles of a day. Specialism is the genius of our literary life. The American exponents of fictional literature may be classified under four heads: the cult of realism, the romantic school, the American short-story writer, the American humorists.

Balzac was the founder of realism. In America we have a school whose scholarly efforts appeal to the most enlightened and cosmopolitan audience. It is that of naturalism or realism. It is life as we lived it yesterday, as we know it to day, as we shall meet it tomorrow. William Dean Howells, Henry James, Hamlin Garland and Brander Matthews have done more perhaps than any other American writers to apply conscientiously the principles of realism to the problems of our race and of the country conditions.

Romanticism is the eternal foil of realism. The glowing color scheme of the former is matched against the black and white of the latter. Sir Walter Scott may be said to

have founded the historical romance. Hugh Wynne, Richard Carvel, Prisoners of Hope, To Have and to Hold, and Janice Meredith are striking examples of this type which now overtops any other in this country. In these books the white light of art has been poured upon phases of our national development. The reaction from devitalizing realism has begun. Bryan has shown the vitality of great oratory. Let the school of realism preserve the silence of the condemned in the face of Hobson, Shipp, Bagley, and Blue whose names will go down to deathless fame as examples of the heroic principle in American life.

The American short-story is the most truly representative product of American letters. Bret Harte deserves the credit for originating the true type. Page, Harris, Cable, Wilkins, Craddock and Allen have done brilliant work. They have cleverness and technical mastery, and are true "artists in the little."

The humorists are represented by Twain, Jerome, Stockton, Westcott, Harris, Townsend, Bangs and Dunne. Definite creations have been evolved by Mark Twain's genius.

Let us endeavor to ascertain the place of fiction in our modern life and to understand its purpose. M. Gaston Paris says: "The modern novel is a piece of fiction destined to please." Second, its mission is to set up ideals for men. Its lessons should be true and healthy. While mirroring nature, the novel should condemn vice. Third, fiction is the great force to mould the popular taste. Fourth, in fiction we see pictured forth distinctly American types. The fifth and last function of American fiction is to level all sectional prejudice and to develop a truly national spirit.

Nothing to Nothing.

Tar Heels and Georgetown Fight Hard but Neither Scores. Bennett Elected Captain.

The last game of Carolina's football season was brought to a brilliant close in Washington, D. C., last Thursday when our boys fought the warriors of Georgetown University to a stand-still. Two fiercely fought twenty-five minute halves were played and at the end the score was 0-0.

North Carolina in the first half had all the best of play, but were unable to get in scoring distance of their opponent's goal. In the second half, Georgetown held the Tar Heels more closely and five minutes before time was called forced the ball to Carolina's two yard line. "Here the Southerners," says the Post, "made the greatest stand ever seen on a football field in Washington. Georgetown was repulsed and Graves punted the ball well out of the danger zone." The kicking game was resorted to frequently and Graves easily held his own with Devlin, the star punter of Georgetown. Graves, McRae and Oldham played splendid game and for Georgetown, Devlin, Riley, Buckley and Kearns were the stars.

The game was called at three o'clock. Carolina won the toss and Georgetown had to kick off. Devlin kicked to the 20 yard line and Martin returned 15 yards. Carolina failed to gain on line play or end run. Graves punted 25 yards. A little later Devlin punted, honors being about even on the exchange. During the early part of the half neither side gained any particular advantage. Each team would gain a short distance by line plunges and dashes around the end, and would then either lose the ball on downs or would punt. At first, Graves had the best of Devlin in the kicking game and each exchange of punts netted Carolina from five to ten yards. Toward the end of first half, the play resolved itself into a punting duel between the opposing full-backs. Graves generally received Devlin's punts and made several good returns, on one occasion returning practically about 20 yards without interference.

Nearly all the playing in this half was in Georgetown's territory, but Carolina was unable to push the oval further towards her opponent's goal than the 20 yard line, except on punts. Time was called just after Devlin had returned a kick to Carolina's 45 yard line. "During the intermission," says the Post, "there was much surprise expressed at the good showing North Carolina had made."

SECOND HALF.

Carolina kicks off and Gracie returns 10 yards. On exchange of punts, Graves gains 5 yards. Riley, behind Buckley's nice inter-

ference, skirts end for 15 yards. Each team got the ball on fumbles and an exchange of punts was made.

Devlin drew back to punt from Carolina's 50 yard line. McKaye made a wretched pass and the ball went over his head and rolled to Georgetown's 50 yard line before he recovered it. Riley made a wide circle around left end for 7 yards. Devlin on fake pass makes 13 yards. Devlin and Graves exchanged kicks and this netted the Tar Heels 8 yards.

It was now Georgetown's ball on Carolina's 40 yard line. On fake pass Devlin shot through the line and was stopped by Martin, after a gain of 20 yards. Devlin repeats this by another run of 10 yards. The ball is now within the 10 yard line, and it certainly looked as if the blue and gray would score. This impression was heightened when Lynch advanced the ball to the 3 yard line.

To quote the Post, "The Tar Heels, with a spirit born of desperation, here made a wonderful stand. Kearns plunged into the line but failed to gain. Then Devlin took the ball and the crowd looked to see a touch-down at once. But even the crack captain only gained a single yard. The third down was the last chance Georgetown had to win the game, for it was a practical certainty that if they failed to score now, the game would end 0-0. The Carolina line braced for the attack, and the Georgetown backs got upon their toes. The ball went to Devlin and he shot into the line like a catapult. The Tar Heel line wavered for a moment and then Devlin went down and when the players got up from the ground, the ball was still 9 feet from the line. North Carolina rooters were rather few, but they made enough noise to make up for the scarcity of numbers. Georgetown rooters were silent, but they could not keep from expressing their admiration for the gallant defence of the Carolina team."

The ball went over and Graves punted to the 20 yard line. Devlin tried to make fair catch but failed. Devlin punted and Carolina made a slight return. Graves kicked 45 yds. and Buckley returned 5 yards. It was fast getting dark and the only chance either team seemed to have to score was on a fake play. Nothing of this kind developed. Devlin punted 40 yards. Carolina began to work the ball back by line smashes and end runs, until time was called with ball in centre of field.

Following is the line-up of the two teams:

Carolina		Georgetown.
Councill	C.	McKaye
Rankin	R.G.	Kearns
Brem & Phifer	L.G.	Lynch
Bennett	R.T.	Russell
Foust	L.T.	Boulay
Osborne	R.E.	Firmigan
Smathers	L.E.	Drill
Martin	Q.	Buckley
McRae	R.H.	Riley
Oldham	L.H.	Gracie
Graves	F.B.	Devlin

Referee—Williams of Pennsylvania.
Umpire—Andrus of Princeton

Time Keepers—Scheel of Colombian and Boyle of Georgetown.

Linesman—Glenn of Carolina and Barry of Georgetown.

After the Georgetown game the Carolina team met at the Ebbitt House and unanimously elected Mr. Frank Bennett Jr., Captain for next year. Mr. Bennett is star tackle of the South. He is a brilliant player and his selection is a most admirable one.

Shakespeare Club.

The Shakespeare Club held its regular monthly meeting in Gerrard Hall on Tuesday night of last week. The papers were of the highest order and showed thorough preparation. The large number of students present gave proof of the interest taken here in discussions of a purely literary character. It speaks well for the President of the Club and for the students in general.

The first paper was read by Mr. N. R. Blackman on "Richard III. Shakespeare's Method of Treating the Character of Richard."

Richard was small and much deformed physically as well as morally. He is crafty and his crimes show great skill. He acts quick and kills all who oppose him. His only good trait is his love for his father.

Miss Margaret Jones read an essay on "A Word for Anne and the Other Women."

Anne was of noble heritage and had strong managing ability combined with great beauty. She long resisted Richard but was finally won by him through cunning and flattery. She married him for political reasons only.

Margaret appears as an avenging Nemesis, but this is not substantiated by history. All of the women were unjustly treated by Shakespeare.

Mr. Thompson spoke on "The Point of View."

In Richard III, Margaret is represented as a fury brought from the grave to torment Richard. She has no mercy or womanly traits.

Scott treats her as one having a tender heart, but eager for power.

The meeting was closed by a paper on "Battle of Bosworth" by R. L. Payne. Here the poet dramatically shows the contrast in the Character of Richmond and Richard.

Richmond was peaceful and trustful. He was sustained by God and a good cause.

Richard was unquiet and troubled. He plead for the aristocracy of England.

The Popular Science Monthly for November, discussing the Progress of Science, speaks of the fact that President Venable as the proposer and establisher of the new standard of atomic weights, in which oxygen equal to 16.

FOOT BALL SEASON OVER.

The Season a Most Successful One. Only One Defeat. Big Games Played.

The foot ball season, brought to a close last Thursday with the Georgetown game was a remarkably brilliant and successful one. On account of the very unfortunate existence of the State Athletic Association, the Varsity was deprived of its usual practice games with four or five of the preparatory schools, which had always been most valuable.

Notwithstanding this Manager Carr arranged an excellent schedule of eight games. They were played against the Deaf and Dumb School of this State, Virginia Polytechnic Institute, University of Tennessee, Vanderbilt University, Sewanee University, University of Georgia, University of Virginia and Georgetown University.

Only one defeat was scored, when Virginia won their game. Our boys made a total score of 164 points, and our opponents scored only 22 points, Virginia making 17 and Tennessee 5. All of the games were big games, against big colleges with good teams and our record is a most gratifying one. The college has, with one or two exceptions, stood behind the team and placed entire confidence in them. But to the Varsity itself and the Scrubs is most of the credit due. Their self-sacrifice, their hard work and training, their regularity of practice and habit, all counted much for the final out put of the team. Coaches Reynolds and Jayne labored faithfully with the boys. Captain Osborne gave us a good team, and the players have all fully justified the college in the trust imposed upon them. Their record will always be looked back upon with pride and will prove an incentive to future teams to work hard. A more encouraging prospect is that so many of the Varsity and Scrubs will return next year. The team made a most excellent choice of Mr. Frank Bennett for Captain and under his leadership we will most confidently expect a victorious eleven to defend the White and Blue in 1901.

Reception to the Varsity.

The team on its return from Georgetown was given a most enthusiastic reception by the student body. Decorated carriages met the train at the depot and they were driven immediately to Gerrard Hall which was crowded with students, faculty and townspeople. The third and fourth recitation hours on Thursday were suspended in order that the demonstration might take place. Yackity, Yack! and yells for the players were given by the entire body standing.

Captain Osborne, Captain-elect Bennett, Messrs. Foust, Rankin and other members of the Varsity made short talks and Dr. Venable, Dr. Baskerville, Dr. Battle, Dr. Hume, Mr. Graham, Prof. Noble, Mr. Henderson and other members of the faculty spoke a few minutes each, all congratulating the team for the excellent work against Georgetown and on its brilliant record for the entire season. The demonstration was a deserved tribute to the eleven of 1900 which has upheld so brilliantly the name of their alma mater.

Carolina in Debate.

Now that the football season is over it might be well to direct the attention of the University to two contests of vital import that are drawing on. Carolina meets Georgia and Vanderbilt in the arena of debate early next Spring; the Georgians fighting on their home ground at Athens and the Tennesseans coming here. Both are smarting under defeat at our hands and will put out their ablest men. This University must sustain its past by winning both debates. If we are in earnest about this, we must support, assist and encourage our debaters by every means in our power. We must get behind the team just as in our athletics. Debate is the highest form of intellectual athletics, and the debaters an educational institution puts out to stand for it in an intercollegiate and inter-State contest are supposed to represent the brain force that is in it. Shouldn't this college stand like one man behind the team that represents it in a trial of that kind of strength?

The student body has not yet realized the full significance of these debates in the life of the institution. The intelligence of the State knows of them, is interested in them, and regards them as one of the best criterions by which to judge of the mental training given here. The lawyer, the physician, the minister—all the silent, thinking forces—know and care about the stand the University takes in her intercollegiate debates. Many to whom an athletic victory means little have become enthused over the laurels the University has won for itself and the State upon the rostrum.

This spirit is growing outside the University; let it grow yet more rapidly within. Let all debating be warmly encouraged by the unanimous sentiment of the college. When an inter-society contest is held, let everybody turn out. What kind of 'Varsity' would we have without encouraging and developing 'scrubs'? Let us have a University spirit that will enthrone over debate.

The Georgetown Game.

There is vindication, as well as retribution, in history. This time it came quickly, for five days after her defeat at the hands of Virginia, Carolina took the sting out of that defeat. We have have tied the college that won over Virginia and had the best claim to the Southern championship.

If we haven't won the championship ourselves, we last Thursday debarred any other from making a rational claim to that primacy. It is just as well to be honest and admit that the splendid record of the team on its last trip surprised, almost as much as it delighted most of us.

A word needs to be said, though it is neither easy nor pleasant to say it, and the short-sighted would either gloss the matter over or mention it not at all. It is quite true that recently in the hour when the football team was bearing the burden of defeat and cast down by what was even more a calamity to it than to the college, and stood most in need of sympathy and encouragement, many of those who should have strongly stood behind it, turned their faces from it in disapproval and even often in disgust. This thing must never occur again; it is positively wrong and unjust. The greatest, the bravest and truest man is he who draws ever closer to his friend as the clouds of adversity gather about him. A fair-weather friend isn't a friend at all; and a college spirit that flags and almost fails in support of the institution's representatives when calamity comes is a not inapt parallel. We must cultivate such a spirit that the men who fight for us in athletics and in debate, may never be hurt to the quick because of unsympathetic hearts and stony faces in their day of defeat. They ought under all circumstances to feel the beating of sympathetic hearts near and the strong arms underneath.

The football team had the stuff in it that made it greatest in defeat. It came back from Norfolk and went to work to win in Washington. It worked with grim, dogged, invincible determination in the face of a college which looked on, most with apathy, some with disgust, a few faithful ones with sympathy. In Washington they made the manfullest fight ever seen on the gridiron there. The football team ought to be remembered in the history of the University as the team that wouldn't stay beat, the team that went from a bad defeat straight to a glorious success.

As we stand at the close of the season of 1900, and look back upon our football record, the retrospect is pleasing. We didn't beat Virginia, but we tied a greater, for while Virginia has slain her thousands, Georgetown has slain her tens of thousands, Virginia among the number. Let us rejoice and be both glad and proud. We have fought a good fight and are well entitled, athletically speaking, to hibernate for a while and enjoy pleasant dreams.

Manners here seem to be in a crude state. When the college assembles for any purpose, the behavior of many of the students is unworthy of the kindergarten, much less of the University. Shuffling of feet, stamping like wild things, caterwauling, and calling for speeches by students are common, and sometimes Bedlam breaks loose. How long is this sort of thing, disgraceful to the institution as it is, going to last? Where is that gentle breeding of which our people are wont to boast? Visitors to the University have gone away disgusted at the ill-mannered conduct of students in the mass. It is true that there are extenuating circumstances. We are indeed far removed from "the culture and refinement of the province." But let us not on that account degenerate into barbarism. There are enough students with a sense of propriety to put a stop to public rowdyism. By all means let them exert their influence to stop a disgrace that cries to heaven to be stopped.

Our Next Lecturer.

Mr. John Fox, Jr., who lectures here Thursday night by special arrangement between the University and the literary societies, is equally delightful as writer and lecturer. He has thrown all the glamour of romance over the hills, valleys and streams of "Old Kentucky," as Daniel Boone called it. Everyone who cares for culture and pleasure should hear him. Mr. Jane Lane Allen says of him: "His stories have been widely and wisely accepted as among the most virile, original, and variously effective pieces of literary art that have come from the living writers of the South; his delightful reading from these in New York City, Brooklyn, Washington, and elsewhere have only deepened the impression of their humor and tragic intensity; while his unique lecture on the Cumberland mountaineer, where heard, has still further added to their value by placing behind them the background of historic reality upon which they are projected, and by inspiring confidence in the author of them as a clear and indefatigable student of life."

The King's Daughters will give a charity bazaar Friday afternoon. Come and get your sweetheart a present.

Miss Louise Venable spent Thanksgiving week with her parents. She returned to St. Mary's School on Tuesday.

Miss Eugenia Harris, who has been attending Peace Institute spent Thanksgiving here. Miss Brown also of Peace was her guest.

Mrs. Patterson, of Georgia, is here on a visit to her parents Dr. and Mrs. Alexander.

We grieve to hear that Mrs. Wheeler was compelled to go to Tacoma, Washington, to see her father, who is sick.

Mr. and Mrs. H. L. Staton, of Tarboro were here last week on a visit to their son, Marshall.

A. W. Mangum, '97, was on the Hill last week. He is one of the professors at the William Bingham School.

Dr. K. P. Battle went down to Lilesville to the funeral of Mrs. Cobb.

Notice is hereby given of the election for Chief Ball Manager and Subs for Commencement 1901 in History Room at 3:30 P. M. Jan 12th 1901.

D. M. Swink, Pres'd't '01.

The Southern Presbyterian of November 23rd. has an excellent likeness of Rev. Robert Caldwell, pastor of the leading Presbyterian church of Winston, and also a biography of him. The Central University of Kentucky has conferred on him the degree of Doctor of Divinity—a worthy honor. For 250 years his ancestors have been Presbyterian ministers. Dr. Caldwell is one of the brightest lights in the Presbyterian Synod of North Carolina.

The University of Michigan has received the de Criscio collection of Latin inscriptions, which number more than 250, most of them being on slabs of marble. The collection represents the work of forty years' research by Signor de Criscio, the parish priest of Pazzuoli, Italy, and is of great archaeological value.

The Senior class of St. Mary's, Raleigh, are getting out a Christmas edition of their excellent publication, the "Muse." The price will be twenty-five cents, and the Business Manager will be perfectly charmed to receive subscriptions from the University boys.

The Texans are now the undisputed football champions of the Southwest; not content with that they inform Sewanee and Virginia that it is up to them to "take their defiance, or to present them with the Championship of the South without a struggle."

Another S. A. E. Dance was given Friday night from 9 to 12 o'clock. The couples were:

- Miss Moses with Rankin.
- Miss Gordon with Calder.
- Miss Busbee with Bynum.
- Miss Bynum with A. Berkeley.
- Miss Harrington with Heard.
- Miss Barbee with Thompson.
- Miss Alexander with G. Berkeley.
- Miss Venable with Stevenson.

Meeting of the Historical Society.

(Continued from last week.)

Mr. Whitehead Kluttz read a paper on the Committee of Safety of his own native county of Rowan. This committee was organized before the earliest days of the Revolution: its chief function seems to have been in resisting Great Britain's oppression, and in furthering the liberties of the colonies. Indeed it was the first organization in America that offered its protest

against taxation without representation.

At the close of the meeting Dr. Battle showed some relics belonging to the Dialectic Society, among which were a photograph of Andrew Johnston's house in Raleigh, and some old diplomas issued by the Dialectic Society.

SCHOOL TELEGRAPHY.

I have opened in Chapel Hill a school for instruction in telegraphy and practical railroading. Having had twelve years' actual experience in this business, am prepared to give complete instruction. University students wishing to take a course with me will find it a profitable investment. Hours arranged so as not to conflict with college studies. Terms reasonable.

Exchanges.

The Alabama Polytechnic Institute relates the story of the "Man and the Lion" to the *Sewanee Purple*, which paper fell under their displeasure by not including them in the "Big Four" of the South. "Any fair minded person" says the Auburn *Olive and Blue*, "will tell you that Auburn certainly ranks among the first of the "Big Four" of the South.

The Sewanee-Vanderbilt game shows how a team can improve. Vanderbilt, whom we defeated 48-0, played Sewanee, who tied us, 10-11, out-playing them at that, it seems. Vanderbilt scored on line bucking, straight foot ball; the ball was in Sewanee's territory most of the time and Vanderbilt gained in all three times as much ground as Sewanee. Sewanee scored on a long end run trick play, and a fumble, and a goal from the field.

The *Sewanee Purple* always candid and fair, says, "We won because Dame Fortune wielded her wand in our favor, and because Vanderbilt did not understand the art of kicking goals."

Strenuous efforts, in a great measure successful, were made by Yale to keep the tickets to the Yale-Harvard game out of the hands of speculators.

Commenting individually on the team the *Lafayette* says of M. L. Elliott, that "He has been playing a strong game at right tackle. Though his knowledge of the game is still somewhat limited, this being only his second year of playing, he is a player of the "never-say-die" class. He actually played the entire Pennsylvania game after he had a bone in his hand broken in one of the early scrimmages. This of course left him out of the Cornell game."

The *Pennsylvanian* urges upon the students the formation of school clubs by the alumni of the different schools represented, urging that the associations form in the preparatory schools are often firmer and more lasting than those which are the result of college life, and that they deserve to be continued in all their strength in college.

The last issue of the *Vanderbilt Hustler* comments in no uncertain or guarded terms on Virginia's cancelling her game with them. It is with regret that we note some of the terms used, it is to be hoped that the facts are not as bad as Vanderbilt has concluded, and published them to be.

Texas recently defeated Missouri 17 to 11. "Today says the *Texas* we find ourselves without a peer in the great Southwest and without a superior in the whole of the South." Another applicant for the "Big For," it seems.

The foot ball team elected F. Bennett, Jr. of Anson County, captain of next year's team. Their choice fell on the right man, and no one has more right to lead Carolina to victory than he. He is widely known in the state and all over the South as the best tackle Carolina has ever developed. His selection meets with the hearty approval of the student body.

Inter-Society Debate.

The Junior-Soph Inter-society debate was held in Gerrard Hall last Wednesday night. The query was: "Resolved, that South Carolina's Dispensary system is better than North Carolina's present one." The affirmative was represented by Messrs. C. A. Bynum and R. P. Couley of the Di. The negative was supported by Messrs. H. B. Short, Jr., and S. J. Everett of the Phi. The committee, composed of Profs. Alexander, Gore, and Warshaw, decided in favor of the negative.

The first speaker on the affirmative was Mr. Bynum. In part, he said: "Liquor selling in itself is a necessary thing, but is rendered an evil by the following elements: its sale by a class of scoundrels; dirty and underhanded places of selling; sale of impure whiskey; and the increase of temptation to drink. All of these elements are present in the local option system, but are done away with by the dispensary. These are the only evils that can exist in the liquor trade and hence the dispensary which eliminates them is better than high license, which does not."

Mr. Short, for the negative, said: "The dispensary is a revenue law and is not for the suppression of the trade. High license is a prohibitory measure. The dispensary has driven the liquor traffic into secret places. It is a monopoly and a violation of personal rights. It permits private houses to be searched without warrant. High license, supported by public opinion, is effective. The dispensary has not the support of the people. It has brought much trouble to South Carolina."

Mr. Couley, for the affirmative, said: "Since drinking men will have liquor, its sale should be legalized. The sale of liquor by the State decreases the temptation to drink and diminishes crime and disorder."

The State should sell liquor if, by doing so, better order prevails. South Carolina has reduced the sale of liquor, while North Carolina has not. Since the liquor trade has failed in the hands, the state has taken control of it and has succeeded.

Mr. Everett, the last speaker for the negative, spoke as follows: "The liquor traffic is an evil and hence the State should not engage in it. The dispensary is a monopoly and deprives citizens of their rights. It was organized to increase revenue and to create a political machine. The laws are not enforced for enforcement would make them impossible. Fraud is conspicuous. Local option has the people behind it and hence is efficient. It did more good in South Carolina than the dispensary. It has proved a success in almost every State of the Union."

THE YARBORO HOUSE, RALEIGH, N. C.

Is almost as widely known as the "City of Oaks." Its equipment, service and table the best that can be provided. Rates \$2, \$2.50 & \$3 per day. Special weekly rates. Coach to and from all trains.

THE TAR HEEL.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

Vol. 9.

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., January 16, 1901.

NO. 12

S. I. A. A.

Met at Oxford, Miss. Dec. 21st.

The annual convention of the Southern Intercollegiate Athletic Association was held at Oxford, Miss., Dec. 21st. Six colleges were represented, Cumberland University, S. J. Gilbreath; University of Nashville, W. R. Payne; Tulane University, John Lombard; A. & M. College of Mississippi, J. L. Sessums; University of Mississippi, A. L. Bondurant; Vanderbilt University, Robt. L. Lund. This was rather less than the usual representation at the convention.

Dr. Dudley, President of the Association, was absent on account of sickness, and John Lombard was chosen presiding officer. No very important matters came before the convention, that of the greatest interest perhaps being the adoption of the Eastern football rules complete without the supplementary rules heretofore used by the S. I. A. A.

Tulane University invited the association to hold the annual track and field meet at New Orleans, and the invitation was accepted, as was also that of the University of North Carolina to hold the next convention at Chapel Hill.

The election of officers resulted as follows: For President, Dr. Wm. L. Dudley, Vanderbilt University; Vice President, Prof. W. M. Riggs, of Clemson College, South Carolina; for Secretary and Treasurer, Prof. A. L. Bondurant, University of Mississippi; members of the Executive Committee, John Lombard, Tulane University, and Prof. Patterson, University of Georgia.

It was the general opinion of the convention that the association is more prosperous and stronger at the present time than ever before, and that college athletic in the South were never in better condition—Ex.

Dr. Jones to Lecture.

We are glad to hear that Dr. J. Wm. Jones is going to deliver one of his excellent lectures next Thursday, January 17th. Most of us had the pleasure of hearing Dr. Jones lecture last year, and do not need to be told what a pleasure is in store for us, especially when we know that he will have one of the finest of his war subjects, "Lee the Soldier." Dr. Jones is able as an intimate friend and acquaintance of General Lee, and as a deep student of his life, to give this subject a more authoritative, and still a more sympathetic treatment than any other living speaker. No one should fail to take advantage of his opportunity of hearing this lecture.

The Bi-centennial committee of Yale has received \$900,000 in subscriptions for the contemplated improvements.

Base Ball

It is a little early in the season to form any correct idea as to what kind of a team will represent Carolina on the diamond this year, yet we must admit that prospects are very encouraging at present. Mr. Earnest Graves has been appointed captain in the place of Mr. Graham Woodard who did not return to College this year and under his direction a strong team will probably be developed. Mr. Tom Worth has arranged an excellent schedule of games, among them many of the best baseball teams in the country.

Messrs. Carr, Holt, Graves E., Donnelly, Graham, Willcox, Oldham, Graves L., and Battle of last year's team have returned and will again play ball. Many of last year's scrubs have returned and there is plenty of good material among the new students. Arrangements will probably be perfected for the services of a coach who will arrive in time to begin early training, which will start when the weather permits.

Track Athletics.

At present the prospects for an exceptionally good team to represent the University in track athletics is most encouraging. Of last year's team the following returned to college this year and all of them will again go into training and practice: Messrs. McIver, Burgess, Foust, Oldham, Rankin F., Cates, Simpson, Thorp, Berkely G., Osborne, Gudger, Ramsey and Linville. These will be augmented by a good many new students, among them some remarkably good track athletes.

Mr. F. M. Osborne is captain and as soon as the weather permits he will put the men to work. Mr. Weeks, the gymnasium instructor is an exceptionally good man for the training of the track team as he has had much experience in this line of work and is well up on the latest methods.

Mr. F. B. Rankin is Manager and he is trying to complete arrangements for the team to enter the Southern Inter-Collegiate contests which will take place in Atlanta during the Spring and in which almost all of the prominent Southern colleges will be represented. As to what will be done in the contest for the cup offered by Mr. Horner and now in possession of our team, is not yet definitely known, as the State League rules conflict with the S. I. A. A. rules and some further arrangements will have to be made, before we can compete with the State Schools. But it is very probable that these arrangements will be perfected and that the annual track events will occur at Oxford as usual. The prospects are very bright and with good conscientious work on the part of the men and honest backing and support by the student body there is absolutely no

reason why Carolina should not be represented on the track as ably and successfully as she is represented on the diamond and gridiron.

THE SHAKESPERE CLUB.

The Shakespere Club held its first meeting of the new century in Gerrard Hall on Tuesday evening at half past seven.

Dr. Hume, who presided as president of the Club, introduced the first paper of the evening by speaking of the doubt existing in the minds of some well informed people in regard to the existence of such a person as Shakespere. However something is known of the life of such a person and among other records of the great dramatist we have several portraits. Of these Mr. J. W. Turrentine would speak.

Mr. Turrentine opened his paper on "The Face of Shakespere" with the remark that a face is supposed to be an index to a character. The portraits of Shakespere are poor as works of art. They are also very different. The bust of Shakespere as we are accustomed to name the peculiar piece of sculpture is more likely a bust of King Lear. One artist painted him as Falstaff. Mr. Turrentine accepted the Chandos portrait as the best. His face he minutely described. The portrait should help us to know the man. But in the Chandos portrait there is contradiction. There are lines which show characteristics which we do not care to see in the face of our idealized poet. But the portrait may have been true to life and the lines may have been traces left by youthful misbehavior. But we shall never be satisfied with a picture of Shakespere because we want more than a man in our portrait of him.

The second paper of the evening was read by Mr. J. Warshaw, instructor in Modern Languages in the University, on "Tragic Method in Shakespere and in Racine."

"Every writer has a method. At least we will see that like subjects are treated in like manner.

The characteristic elements of Tragedy are conventional. The details are different. The Greek introduced Tragedy and Aristotle defined it.

Writers of Tragedy still hold to the elements which Aristotle defined. Shakespere and Racine followed these elements. Shakespere took characters as they were and gave them to us as such, yet he had a method. The secret lies in his attitude toward his characters. He takes an objective point. His personality does not enter his plays. As an Englishman of the reign of Elizabeth he brings into his plays blood and thunder, bombast and quibbles common in his days among his fellow play writers. In these we see his superiority due to two facts: (1) He was a cool experienced observer and could reason out

situations. His sequence of thought is natural and the characteristic of of his dialogue and his soliloquy is reality; (2) He was a laborious student of literary art, he labored to make words stand for real concepts. His fundamental principle is the reaction of personality against extrinsic acts. Hamlet is an example. All of Shakespere's tragedy's are dramatic, i. e. they introduce irrelevant characters by means of their connection with relevant persons. Example, arrival of troop of actors in "Hamlet". Shakespere represents in concrete terms the reaction of a person against circumstances beyond his control though closely affecting him. Yet in this struggle diverse actions are so closely associated by the main action as to seem integral parts of it.

Ball Managers Elected.

The election of Ball Manager for next Commencement was held Saturday afternoon in Gerrard Hall. This was the first election to be held under the new rules, which provide only members of the graduating classes in the various schools and members of the other classes who shall have paid their Ball Fee of \$5.00, shall vote. Mr. Alex. Murphey, '01, was elected Chief. The Subs. are Makeley, '01, Cobb, '01, Turner, '03, Ramsay, '04, Smathers, '03, and Capehart, '03.

Mr. Klutz Resigns.

A meeting of the Tar Hell Board was called Saturday afternoon at five o'clock in the Editorial Room, at which Mr. Whitehead Klutz presented his resignation as Editor-in-Chief. This was received only when he insisted that his studies in the Law School, which he has just taken up, made it impossible for him to serve. Mr. B. S. Drane '02, was elected to succeed him. No other appointments or changes were made.

Young Men's Christian Association

Tuesday evening, at the first business meeting of the year, the Young Men's Christian Association elected officers for the coming year. The new officers who at once enter upon their duties, were elected as follows:

President	J. E. Latta
Vice Pres.	C. E. Maddry.
Rec. Secretary	G. W. Stevens.
Cor. Secretary	T. J. Hill
Treasurer	J. M. Justice

Chicago University has opened a new and novel department. The course consists of studies of foreign commerce designed for men who expect to become consuls in foreign countries. This is a most important step toward the improvement of the diplomatic service of our government.

The college papers of the University of Mississippi and the University of Georgia attribute the failures of their foot ball teams to the petty factional politics existing in those institutions.

A Sin to be Stopped.

It is unpleasant in the extreme to write of some things—family matters, so to speak, in our life here—for publication. When, however, it becomes a matter of general report that a serious abuse exists, that an evil disease is more or less prevalent in our moral system, the time has come to speak out. That is the way by which reform must come.

There is published in this issue an article which is commended to the thoughtful consideration of the students. There is more heinous offence known to the ethics of a college than cheating on examination. It is said there a few instances of this kind on the December examinations. We are reluctant to believe this, but we are forced to say that we do. It cannot, however, be believed that those who committed the breach were aware of its seriousness.

A public sentiment ought to be aroused which would make cheating on examination impossible. Think of the detestable nature of that act! A man is put upon his honor to be honest. No spies are set to watch him, as is the case at so many institutions. The man's own word that he has been honest is accepted as proof positive of the fact. What then shall we say of the offence which adds to cheating a flagrant breath of trust and deliberate perjury? Surely he who is persistently guilty of it should be shunned by his fellow-students, shut out from their society. There is no room here for such a man.

The past we cannot recall; the future we can provide against. The past has seen a few men pass examinations and receive diplomas tarnished by fraud. The future will hardly witness a single such case, if a college spirit is aroused aggressively intolerant of such practices. With the attention of the college emphatically directed to the abuse, we believe cheating on examination will cease entirely.

After considering the question carefully, we have thought it best thus to speak out frankly—best for

the institution and all concerned. There is no reflection upon the University involved, for all institutions have the same problem. As we love the institution, we should all strive to root utterly this evil and remove far from us this stigma.

It was with reluctance and great regret that the editors of the Tar Heel accepted the resignation of Mr. Whitehead Klutz from the Editorship-in-Chief. During the past season he has met with gratifying success in that proverbially difficult position. He has been unusually successful in the expression of the feeling of the student body on the serious questions that have arisen for discussion and his style both of thinking and of writing has been such as to attract complimentary notice not only from University students, but from the press away from the Hill. It is very far from easy to fill the place resigned by one so eminently suited for it as he.

A Serious Question.

For The Tar Heel.)

It has been remarked that cheating has been done on examinations during the last examination period. If so, shall it be permitted to pass again without the student body taking some action to stop it?

Shall it be said that a student can get through an examination by unfair means and the student body remain inactive? It has not been so in the past. Shall we institute it as a custom for the future? I feel sure we will say no! Of course it a very hard matter for one student to tell a class-mate, and at the same he has to consider whether he will be able to prove, as a certainty, the charge which he brings. We can all realize to a certain extent how we would feel under the circumstances, and hence all actions of this kind must be in a way slow, so as to be sure.

It is very evident that the students must be the means of stopping such low, underhanded action. This is to some extent difficult, owing to the fact that the student body has no organization in which to deal with such matters, and the faculty would find it next to impossible to approach it. This does not mean that I would suggest such a thing as spies, but simply that where such is plainly detected we will not close our eyes to it and let it pass as unnoticed.

For myself, I have thought of the matter a good deal and the best way which occurs to me is that the students should come together and pass resolutions that they will not permit such a thing to occur, and that instead of censuring a student who has the manhood and courage to come out boldly against such unfairness, we shall give him our full support. I do not say that such men have been censured by us, but that we should assure them that such would not be the case. It is necessary that the students should stop this evil, which we have not been accustomed to shelter; if it is to be stopped they should act before the next examination period. Any plan, whatever it may be, which will stamp this out, and will enable us to still say that a man

cannot use foul means to pass on examinations will be greatly welcomed.

STUDENT.

Death of Jim Crowell.

His many friends will be deeply grieved to hear of the death of Mr. J. J. Crowell, ex-'03. He died Tuesday morning after a very brief illness of typhoid fever at his home in Fayetteville. A merry, open-hearted fellow, Jim Crowell made many warm friends while here last session. Death seems all the more sad and pitiful when it takes from us one so strong in mind and body, one so eminently fitted to excel in the battle of life as was he.

Senator Pritchard, having the appointment of a cadet at large to the West Point Military Academy, has designated Walter W. Bryan, of Madison county. He has named as his alternate Thaddeus W. Jones, of Asheville.

The Secretary of the Treasury at the instance of Senator Pritchard, has appointed President F. P. Venable, of the University of North Carolina, a member of the assay commission, which meets at Philadelphia Feb. 13 next.

Locals.

A number of the students went down to Raleigh Tuesday morning to the inauguration of our new Governor, the Hon. Chas. B. Aycock.

Dr. Baskerville has been absent during the past week, on a visit to his mother, who is seriously ill in New York City.

A great many of the students heard Sousa's Band in Durham Wednesday morning.

Work is now under way on the Mary Anne Smith Building, as the New Dormitory is to be named.

The squirrels which Dr. Battle hopes to see domesticated in the Campus were put, under his direction, in their new home last Saturday. Great interest is being shown in them by all, and there is no doubt that the students will do all in their power to help make the experiment successful.

Professor Noble attended the Grand Lodge of Masons, which met in Raleigh, last Thursday. This was the most largely attended meeting of Masonry ever held in North Carolina.

Doctor Baskerville has been honored by appointment on a Committee of the American Chemical Society to arrange for an appropriate celebration of the twenty-fifth anniversary of that order.

Dr. N. King expects to leave for Baltimore to take a special course in dentistry between the 15th and 20th of this month, and will not return until April 1st.

Dr. Alexander delivered a lecture on "The Study of the Classics" before St. Mary's School, Raleigh, last Saturday night, the twelfth.

The "Round Table," the Faculty Club, met in Dr. Linscott's charmingly furnished apartments last Friday night, the eleventh, at half past seven o'clock. The meeting was a most pleasant and interesting one in every way. The main subject for discussion was the Subsidy Bill. Professors Williams and Wheeler took the leading parts.

Dr. W. H. Venable and wife spent part of last week on a visit to President Venable, cousin of the former. Dr. and Mrs. Venable, who have been for a number of years missionaries in China, left on account of the recent troubles but expect to return in a few months.

Announcement was made that Mr. Weston Gales, an Evangelist of the Young Men's Christian Association, will hold a series of evangelistic meetings in the College Chapel during the last week of February, under the auspices of this Association. While Mr. Gales is here, two meetings will be held each day. The Faculty of the University will arrange lectures so as to allow time for a service and address in the morning. The second service each day will be after the supper hour.

The February German.

The German Club met in the Math. Room Tuesday afternoon at 4:30 o'clock. It was decided to give a German on the evening of

Friday, February, 15th. Mr. Emory Alexander was elected leader. The Club will this Spring also give another German just after Easter, which has not been done hitherto.

Faculty Discipline.

One morning at eight
Quoth a Freshman "Too late.
Did I study last night—after ten!
I am feeling quite tough;
I have not slept enough."
He relapsed into slumber again.
This slothful deed done
He slept on till one,
Then arose and turned pallid
with frigh.
"I have taken five grats,"
He said, trembling, "and that's
All I had! I'll be shipped home
this night."

Fresh Election.

The Freshmen of the past three years have distinguished themselves for originality in the management of their class elections. The class of '02 held their election with a large majority of the class present, while their friends, the Sophs were all at supper; the class of '03 managed to hold an equally successful and undisturbed election by meeting at six o'clock on a winter's morning when all was dark and still. The class of 1904 held the most unexpected of all, perhaps, last Saturday night at nine o'clock.

Several of the mighty men in the camp of the Freshmen were at that hour observed by a Soph to enter the Carr building. "Aha," he thought, "they are getting their crowd together! So he gathered himself a supply of mock-oranges and a few more Sophs and waited out in the dark and cold until until the Freshmen should come out, to be dispersed. But an hour passed by and nothing happened. An investigation disclosed the fact that the election was all over. Each of those Freshmen had had his pockets full of proxys, and the matter had been attended to in five minutes.

The election was as follows:

President	A. S. Cox.
1st. Vice President	A. Latta.
2nd " "	A. H. Jones.
Secretary	G. MacNider.
Treasurer	H. H. Harrison.
Historian	H. Lee.

Exchanges.

We take these statistics of the past foot ball season in America from an exchange.

Died from injuries	4.
Seriously injured	4.
Injured who will recover	129.

Commenting upon this statistical information the writer has this to say as a balm to the college authorities.

"As usual in the case of casualties on the gridiron or in the prize ring, those men who were killed or seriously injured were unfit, either on account of their size or some physical weakness, for the work they tried to do.

"Of the thousands who played foot ball on teams that employed coaches and trainers not one was seriously hurt. Sprained ankles, broken noses and muscle bruises were the limit for players who understood the game, for the simple reason that until they were able to withstand hard knocks they were not allowed by the coaches to receive any.

"It was in the smaller towns and little colleges that the rougher element of foot ball found its victims in players who had either not been taught to fall properly, or whose bodies had not been hardened for strenuous exertion."

Dr Green Talks.

Sunday night in Gerrard Hall, Dr. Green, a missionary of the Baptist church who has been laboring in China for the last nine years, gave a talk on the missionary work and the late troubles in that ancient country.

Somewhat to our surprise Dr. Green did not lay all the blame of the uprising at the door of the Chinese. He told how the foreigners had gone there and trampled under foot the superstition of the Chinese, how they had treated with contempt and utter disregard the most sacred places of these people, often building railroads through their cemeteries, desecrating the graves of their ancestors. Dr. Green told how many of the missionaries—especially those from France had taken to themselves civil power and caused trouble wherever they went. He told how the Chinese look upon the action of the so-called Christian nation in taking from them whatever territory wherever they desired. At one place Russia has taken possession of many square miles; at another place France has take a port-city; rt another England claimed a large strp of land. At another Germany has taken for herself an harbor and the contiguous territory. So, it is not surprising that the Chinese, treated in this way by the Christian nations, have little confidence in their professions of piety. The Chinese have come to the conclusion that their only salvation lies in rooting out the foreigners. This purpose has dominated both political parties there for years. The conservatives, however, believed that it should be done slowly and cautiously, the Radicals were in favor of accomplishing it immediately, and so when the Boxers organized for the same purpose, this party—including the Empress and most of the officials—lent their aid to the Boxer movement.

Dr. Green says it will be a troublesome question to settle, but he hopes that the open-door policy which is avocoted by this government, will prevail. For wherever the merchant and his wares can go in safety, the missionary and his Bible can follow and heathenism will vanish.

NO. 13

LEE THE SOLDIER.

Dr. Jones' Splendid Lecture.

All who heard Dr. Jones on the above subject in Gerrard Hall last Thursday evening, unite in placing his lecture second to none in the excellent series that have been heard during the past season. Its excellence was of a very high order from two points of view; either looked upon as authoritative historical fact, to instruct, or as a select fund of anecdote and reminiscence to entertain. It thus combined exactly those features which made the lectures of Dr. Gordon McCabe, and Gen. Jno. B. Gordon respectively, so well known and admired. Among facts and statistics which he has personally collected and verified. Dr. Jones introduced here and there bright, witty episodes and anecdotes illustrative of his point. The lecture was withal, perfect in its literary finish; everything went to establish the truth that Lee was a master of offensive as well as defensive warfare.

After alluding pleasantly to the occasion of his lecture here last Spring, while on a visit here, on "R. E. Lee, the Model Man," he said that by special request he would speak tonight on "R. E. Lee, the Soldier."

"Lee was by birth, nature, and education a soldier. His military training was gotten at West Point and in the Mexican War. His marvelous genius in war was recognized thoroughly by General Scott, the commanding general. This is shown in his official reports, but most especially in his letter to Gen. Preston.

On another occasion Scott spoke as strongly of Lee, as Reverdy Johnston and to John B. Floyd. The press of the day reviewing his campaigns all agreed in calling him the "ablest general of that or any other age." Lord Woolsey and others of the ablest Military Critics of Europe concur in giving Lee the chief place among American Soldiers.

But we may decide for ourselves by looking at what he accomplished. "Master of Defensive Warfare," is what Grant and Longstreet, were fond of calling Lee. They called him cautious, slow, not willing to make bold offensive warfare. In the Seven Days Battle, Lee had 78,000 all told; McClellan had 105,000 entrenched, with 50,000 within reach as reinforcements. Sending Stewart on his famous "ride around McClellan" and calling on Stonewall Jackson, Lee drove McClellan back to the river, under the cover of his gunboats. Tolerably "offensive," that.

At Second Manassas, and at Sharpsburg, Lee attacked forces which outnumbered him about two to one.

At Chancellorsville, Lee had 53,000 men; Hooker had 132,000, 90,

000 entrenched at Chancellorsville, and an army nearly equal to Lee's across the river. It was here that Hooker boasted "The Army of Northern Virginia is now the legitimate property of the Army of the Potomac." Well, they failed to take possession of their "property." There has been much discussion as to who planned the wonderful flank movement which won the day. It is now known that Lee planned it, and gave the order to Jackson, who executed it so splendidly.

At Gettysburg, Meade had 105,000 against Lee's 60,000. Had Lee's order's been carried out victory and independence would have resulted, for Baltimore would have been taken, Maryland would have come over, Washington would have fallen, and the Peace Party would have been supreme in the North.

During the Campaign of 1864, Lee had from start to finish, only 73,000 men, against over 275,000 men on the other side. Porter's attempts to explain this to the glory of Grant are weak and lame. Even under those circumstances, Lee was wanting and seeking "an open field and a fair fight." Lee out-generalled Grant at every point. At Cold Harbor Grant lost 13,500 men; Lee lost about 900. And when the end came, "Lee had made a campaign unexampled in the history of defensive warfare."

And thus Lee marched into history. Saturday, the 19th of January is his birthday; Monday, the 21st of January is the birthday of Stonewall Jackson. It seems fitting that the anniversaries of the birth of these great soldiers should come so near together. Cavalier and Puritan--but brothers in arms, in faith, and in glory! They will shine forever in the world's galaxy of true patriots, stainless gentlemen model christians, and peerless soldiers! They sleep well in "Lexington in the Valley of Virginia", where Jackson asked to be buried, and where in the Providence of God Lee spent his last years laboring for the young men of the land he loved so well, and served so faithfully. I hold up to the young men of the land tonight these twin heroes of our Southland. Study their lives and character as models of all that is pure, and noble, and true, and good, as fit types of American manhood.

And as I look back over the centuries and study the great soldiers of History, I hesitate not to place him at the their head, Robert Edward Lee, of Virginia, of the Southern Confederacy, of America, of the World."

In the *Red and Black* of January 19, appear several proposed changes in the constitution of their Athletic Association. These are devised to define clearly the distinction between the "G's" and what entitles a student to wear one. Many radical changes in methods of electing managers are also proposed.

THE TRACK TEAM.

The University last year took a step in the right direction when it entered the Southern Inter-Collegiate Athletic Association. We then came forward as the advocates of pure athletics in every established form. Since joining, we have shown what we can do both in base ball and foot ball with teams which meet the Association's strict requirements. In both of these branches of Athletics, North Carolina is, without doubt one of the Big Four of the South. But it has only partially established an Athletic reputation. It is of very high importance that we do not forget the fact that Track Athletics form fully as honorable and important a department of Athletics as either base ball or foot ball. In the past the South has not considered it so, and the word athletics has in the South come almost to exclude from its meaning those original and typical forms of exercise and contest that the word was made for. In England and in the Northern States where conditions have in the past been more favorable for the proper development of Athletics, to be an Athlete means rather to be what we inwardly call a track athlete, than to be a foot ball or base ball player. This statement may seem to some of us to be putting it rather strongly, out a consideration of the very important, of the leading position taken by the Track Meets of our great Universities in their Inter-Collegiate Athletics, will, we think, bear out its truth.

To bring about a proper adjustment between the different branches of Athletics, to cultivate general Athletics in the South, is one of the main objects of the Inter-Collegiate Association. It is a matter of congratulation that this object is succeeding; unusual activity of preparation for the Track Meet of the coming season prevails throughout the South and some strong teams may be expected. We must not be behind in this movement. We must begin to take our track team seriously. We must see to it that our track team this Spring is as conscientiously organized and supported as any of our base ball or foot ball teams have ever been, if we would keep our prestige in Athletics. This will be easy to do, for our track team last year was a strong one, and almost all of its members are in college this year. There is a very powerful reserve, too, in the upper classes in those men who have heretofore saved themselves for base ball, but who will in such a time of rare need, gladly come out for the track team. All in all, there is every reason why Carolina should be as prominent on the track this Spring, as ever on the diamond or the gridiron.

New Goods—New Goods—New Goods, at N. C. Lohg & Bro's.

Georgia-Carolina Debate.

In the contests which recently took place in the societies for the selection of debaters to represent this University in the Georgia-Carolina debate, D. P. Stern, '02, of Scotland Neck, was chosen from the Phi., and R. R. Williams, '02, of Newton, represents the Di. Each of these men won the position over several strong competitors, and this fact alone, is sufficient evidence that the University will be represented in Georgia by two of her best debaters.

It is rather unusual for both these representatives to be members of the Junior class, and the selection of these men should be a matter of pride to their class-mates.

Mr. Williams has already won a medal for his ability as a declaimer and Mr. Stern has represented his society time and again in the inter-society debates, always making sound and forceful arguments.

The query submitted is: Resolved: That the combinations of capital, commonly known as trusts, are more injurious than beneficial." Messrs. Stern and Williams speak in support of the negative side.

The debate takes place in Athens, Ga., in the early part of April.

We feel certain that if ability and hard work count for anything this University can feel safe about the coming debate.

"THE HARP OF THE SENSES,"

Professor DeMotte to be the Next Lecturer in the Star Course.

An unusually fine lecture may be expected for the evening of Friday, February 1st, when we will be given the entertainment announced above. Through the kindness of Dr. Baskerville we are enabled to print the following review of it.

"The Harp of the Senses," the lecture delivered by Prof. DeMotte at the auditorium last night, was perhaps the greatest psychological treat ever enjoyed in this city. It was illustrated by a huge magic lantern, which was most successfully operated. The illustrations were superb, and they brought science into such familiar relations that it robbed it of all its technical drudgery and made it simple and charming to all present.

The speaker represented one's personality as surrounded by two oceans, one of ether and one of air, and he showed how they effected one's personality. He pictured the brain and its action as they govern human conduct, and he told some interesting studies in character and conduct to emphasize his theme. A number of musical instruments were exhibited to show the effect of sound in all its variations. The human ear was perfectly pictured, as was also the effect produced thereon. The human brain was also exhibited, and a strong moral sermon adduced from it. All in all, the lecture was a deep, serious and uplifting entertainment, and students of psychology were enraptured with it.—Chattanooga, Tenn. Daily Times, Jan. 7, 1901.

Subscription Price, \$1.50 per Year.
Payable in ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

Now that the Spring session has begun, the matter of the Annual, the Hellenian, comes up for consideration. A few words may not be amiss.

The Hellenian came into existence about years ago the Fraternities starting the organization for its publication. The design was to publish an Annual thoroughly representative of our whole University life, and to attain this end, the cooperation of the whole student body was sought. For various reasons, these attempts were unsuccessful, still they attempted for many years to represent the University in all respects—to make a true College Annual. The '99 Hellenian was the last of the above type. Owing to the time and labor the Editors gave it, it compared very favorably with the annuals of our sister colleges here-about, not withstanding that it had not the support of the whole University.

Last year the Editors of the '00 Hellenian decided that all that could be reasonably attempted by them was the publication by them of a really good Fraternity Handbook, and not of a College Annual which would be doubtfully creditable to the University, and for whose imperfections the University at large would assume no responsibility. Their decision, it seems to us, was a fair and reasonable one. That they met with entire success, we think all will agree. It took the place of the former Hellenian in essential respects, at the same time doing greater justice to the Editors. This seems to be the best that can be done under the circumstances, and it seems to us, it is a very good best at that. The circumstances are what are to be regretted. It is to be hoped that the University will, in time awake to a realization of the desirability of a true College Annual, and will devise some means by which an entire cooperation may be brought about to this end. There has been in the past no such spirit and all attempts heretofore by the existent management of the Hellenian to bring about such a spirit have failed.

But by all means, let the Hellenian be continued. As it is, it stands for a great deal. The sooner an organization is effected, the better. It would be well for the Editors to be elected at once, and for them to organize, and to get the work under way as soon as possible.

Tar Heel Editor Elected.

Friday afternoon a meeting of the Tar Heel board was called for the purpose of electing an editor to fill the vacancy made by Mr. Klutz's resignation and Mr. Drane's promotion. Mr. J. C. B. Ehringhaus, '01 was unanimously elected and assigned to the Exchange Department.

Tom Tackle.

Tom Tackle was a football man,
Who never thought of fear,
A quarter back came rushing by
And tore from him an ear.

A full back stopped him in a spurt,
Before he could dodge by,
And ere they separated there
Poor Tom had lost an eye.

And after one more sprint he was
Of his left arm bereft,
But cheerfully he murmured: "Now,
My good right arm is left."

A centre rush approached him with:
"Your pardon, sir, I beg,"
And in the tussle for the ball
He pulled off Tom's right leg.

'Twas then his sweetheart said to him:
"With sorrow do I scan
The remnants of your handsome self—
You are but half a man.

"And though I pity you indeed,"
The charming creature said,
"I fear that we must say farewell,
For we can never wed."

Now, Tackle was a wise young man,
"Though I have lost an ear,"
He said: "I'll have a double charm
When your sweet voice I hear,

"And though my left eye's gone to rest,
Yet it is very nice,
For where I looked at you but once,
I'll now look at you twice.

"And though one arm is in its grave,
The other's strong as two.
Then, since one leg is gone I can
Ne'er run away from you."

So, they were wed, and Tackle thanked
What he called lucky fates,
For when he paid the marriage fee
Its cost him but half rates.

His wife declared: "I'll take no chance,
There's none of you to spare."
To keep him from more football games,
She cut off his hair.

Tom Tackle is a happy man,
Yet sometimes says: "'Twould be
Much better had my hair been lost
Before the rest of me."
—Baltimore American.

Death of Mr. Shaw.

The saddest event which has occurred here this session was the unexpected death of Mr. R. Newton Shaw, who died Tuesday morning at about half past eight o'clock in the Infirmary. His illness was a very brief one, only four days. The University at large was totally unaware of the serious nature of his illness until Monday evening, when it was known that he had pneumonia. His parents, at Elkton Bladen Co., were repeatedly telegraphed for, but owing to imperfect lines of communication, no reply had been received up to the time of his death.

Out of respect to his memory, no classes were held between the hours of eleven thirty-five and twelve thirty. At twelve o'clock

a large delegation from the faculty and the different classes met at the Infirmary and attended a brief but very impressive and appropriate service of prayer held by Dr. Hume. The body was then taken through the country to Durham, Mr. Moore, from the Freshman class, and Mr. McDiarmid, from the Philanthropic Society, of which the deceased was a member, accompanying it as escort. Mr. Shaw was twenty one years of age, and was a first year optional student.

The Secretary of the Treasury at the instance of Senator Pritchard, has appointed President F. P. Venable, of the University of North Carolina, a member of the assay commission, which meets at Philadelphia Feb. 13 next.

Locals.

A. R. Berkeley has been quite unwell for some days.

Mr. P. U. Richardson '03, has re-entered the University.

Miss Lucy Battle has been visiting Dr. K. P. Battle this week.

The University Record is out this week. It contains the President's Report to the Trustees.

Mr. Thos. H. Battle, President of Rocky Mt. Cotton Mills, spent last Sunday with Dr. Battle.

Prof. J. A. Holmes, has recently been appointed chief of the Road Building Bureau of the U. S.

Mr. Wentworth Pierce ex-'92, who is now a cadet at West Point, is on the Hill for a few days.

E. W. Myers, '95, of the U. S. Hydrographic Survey is just back from a trip out into the mountains of Tennessee.

Messrs. Stringfield, Murphy, Gudger, Hall, Smith, Aycock and others attended the inauguration, returning Thursday.

There are a number of cases of grippe in college, Messrs. Graves, Berkely, Jones and several others have been confined to their rooms for several days.

The Captain of the Track Team has received an invitation that our team enter the Third Annual Indoor Games of the Georgetown Athletic Association, of which mention is made in another column.

J. G. Murphy has just received from the well known house of Alfred Williams & Co., in Raleigh a complete line of stationery, tablets, note books, pens, pencils, inks, etc. Call at his room No. 13, Old East, middle entrance, 1st floor—and examine his stock.

During the elegant weather which has been our good fortune for the past day or two, it has been possible to have an hour or two of skating in the morning, and then, in the warm and sunny afternoon to play tennis without coat or sweater.

A Sophomore Class base ball team is under discussion. When the diamond is made in the new Athletic field, there will be ample room for a number of teams to practise, and there is every reason why inter-class base ball should be successful.

The Freshmen of the past three years have distinguished themselves for originality in the management of their class elections. The class of '02 held their election with a large majority of the class present, while their friends, the Sophs were all at supper; the class of '03 managed to hold an equally successful and undisturbed election by meeting at six o'clock on a winter's morning when all was dark and still. The class of 1904 held the most unexpected of all, perhaps, last Saturday night at nine o'clock.

This will be the greatest college year that the United States or indeed any other country has ever known. The collegiate institutions numbering over 400, have a combined attendance of nearly 200,000. The rush for higher education has never been so strong or so general as it is today.

Exchanges.

The annual indoor athletic meet of Georgetown University will be held on Saturday, March 2, at Washington D. C. The list of events includes an open 50 yards, 220 yards, 440 yards, one mile and 50 yard hurdle races, running high jump, pole vault, and shot put, an intercollegiate 50 yards and 880 yards run, scratch, besides relay races between schools, colleges and national guard regiments.

Convention Hall where the meet will be held, is one of the largest halls in the country. It contains a 10-lap track, with carefully constructed banks and corners, with a seating capacity of eight thousand.

The fund for the new athletic field at the University of Virginia has now passed the \$4,000 mark. The field is to cost \$10,000 and when completed will be one of the finest in the South.

"The All Southern Team for 1901 will appear in the February *Outing*. There will be a discussion of the recent foot ball in the South, and a criticism of the individuals selected for the All-Southern. Our readers should be especially interested in the February issue of this prominent Athletic Magazine.

The Yale Banjo and Glee Club has just returned from the longest and most successful trip in the history of the University. The tour extended over a distance of 8,000 miles and during the twenty-four days, sixteen concerts were given.

Students of Pennsylvania are preparing for a grand celebration of their University Day, this being the first in the new century.

A Pennsylvania alumni club has recently been incorporated in the state of New York. The new club opens with an enrollment of about 200 and has about 600 names to draw from in and about New York.

The prospects for base ball at U. Va. this year are excellent. Of the old men, Nalle, Stearns, Mallory and Carter are back. Walker, Bride, ex-captain University of California, Woodard ex-captain of North Carolina, Pollard of William and Mary, Pelson of Hampden-Sidney and Leyander of Randolph Macon, form the best of the new material.

Through incomplete organization the Tar Heel last week was full of errors, typographical and otherwise. To confess the truth, we hadn't intended to bring those facts before your attention any farther than they brought themselves, no, not even though in one place it looked as if an attempt had been made to perpetuate a miserable and entirely un-called for, pun on the Tar Heel's fair name. But we are forced to do so, for an error of such magnitude appeared, that we are unwilling to silently pass it by; human justice does not permit any such flagrant error. In our columns last week the sacred dignity of a Sophomore was violated. After his name appeared the numerals '04. Justice must and shall be done, so apology is hereby made to any and all persons who felt offended by the error.

A chair of economics, to be known as the "William L. Wilson Chair of Economics" will be established at Washington and Lee University as a memorial to the late president.

The law class of several Universities are preparing to celebrate Feb. 4, the anniversary of John Marshall's appointment as Chief Justice of the Supreme Court of U. S.

One hundred and twelve candidates for the Yale track team have reported. Of these twenty-six are short distance men, and thirty-eight are middle distance men. There are eight hurdlers, ten jumpers and seven weight men.

The Magazine.

The *University Magazine* will come out this week, in time to be reviewed in our next issue. It contains several articles of individual merit, that by Mr. Klutz, on "Rowan's Committee of Public Safety" being especially well written. The fiction is much better than usual "Croatan" a story of Virginia Dare is of a nature that deserves imitation by our literary men. A series of stories from North Carolina history would be a valuable gain for the *Magazine*.

Law Class Election.

At a meeting of the Law Class last week, the following officers were elected:

Judge—K. Van Winkle.
President—G. V. Cowper.
1st Vice President—E. Q. Nelson.
2nd Vice President—W. C. Rector.
Solicitor—C. W. Sapp.
Clerk of Court—L. Goodman.
Sheriff—H. S. Harris.
Coroner—G. F. Reynolds.
Poet—Cunningham, G. L.
Historian—Edwards, M. L.
Secretary and Treasury—Glenn, J. F.

The picture committee after corresponding with the leading Photographers who are receiving samples and comparing them, have decided to award Cole and Holladay the work again this year.

They will be on the Hill in ten days or two weeks. Half the cost is expected to be paid when the pictures are taken.

Senator Pritchard, having the appointment of a cadet at large to the West Point Military Academy, has designated Walter W. Bryan, of Madison county. He has named as his alternate Thaddeus W. Jones, of Asheville.

THE YARBORO HOUSE, RALEIGH, N. C.

Is almost as widely known as the "City of Oaks." Its equipment, service and table the best that can be provided. Rates \$2, \$2.50 & \$3 per day. Special weekly rates. Coach to and from all trains.

THE TAR HEEL.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

Vol. 9.

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., January 30, 1901.

NO. 14

Dr. Venable

Meeting of Athletic Advisory Committee.

TEAM MANAGERS ELECTED.

An important meeting of the Advisory Committee was held last Friday afternoon, the 22nd. Present were Dr. Baskerville, for the trustees, Mr. Graham for the Faculty, T. W. Moss for the students, and F. Bennett, Captain of the football team, F. M. Osborne, ex-Captain of the football team, and Captain of the Track Team; A. M. Carr, Manager of the football team, T. C. Worth, Manager of the baseball team, and A. R. Berkley, President and B. Bell, Jr., Secretary, of the Association.

The first business attended to was the election of Manager of the football team of 1901. After a discussion of several names, J. B. Whitehead, '03, was elected.

The Manager of the baseball team then named as his Assistant, I. F. Lewis, subject to the ratification of the Committee, which was immediately given.

A very important discussion then arose on the subject of entering our track team in the Southern Meet in New Orleans this Spring. After fully discussing the question the Committee decided in favor of doing so, dependent on two conditions; first that a worthy team be developed; and, second, that the team receive financial support sufficient to justify the Atlantic Association in undertaking the expense of the trips. G. R. Berkley, '03, was elected manager of the Track Team. For a full and more open discussion of several matters, a meeting of the General Athletic Association, composed of the whole student body, was requested for Saturday afternoon at 2:30.

Meeting of Athletic Association

A meeting of the Athletic Association was held in Gerard Hall last Saturday afternoon. The object of the meeting was to devise a plan by which money can be raised to put the Athletic Park in good trim for the coming ball season.

President Berkeley stated that the University had promised \$250 and the work before the Association is to raise at least \$250 in addition to this; several dollars will have to be spent on the diamond before the ball season opens, and a grand stand will have to be built. A committee will be named by President Berkeley to wait on the boys, and it is hoped that they will contribute liberally for the money is for a worthy purpose, and is badly needed.

The All-Southern Football Eleven.

The February number of *Outing* has appeared. Useless to say it is entirely up to its usual high standard as a Sportsman's Magazine. The article which above all others contains interest for us is found on page 615, "Reviews of Southern Season, 1900."

After commenting on the main features of the season's play, which he characterizes as "the prettiest, and most ragged, football ever played in the South," and declaring Virginia unquestionably entitled to the first place in Southern football, Mr. Whitney makes out the All-Southern Eleven as follows:

Simpkins (Sewanee), full-back.
Dabney (Virginia), and Seibels, Sewanee), half-backs.
Poole (Sewanee), center.
Choice (Virginia) and Sams (Texas), guards.
Bennett (North Carolina), and Loyd (Virginia), tackles.
Hobson (Virginia), and Osborne (Carolina), ends.

The quarter-back was not chosen.

Among those "whose work entitled them to honorable mention" is MacRae (North Carolina).

Base Ball Schedule

Mr. Thos. Worth, manager of the Base Ball team gives us the schedule below of games he has arranged for this Spring. Of course it is only a tentative schedule and several changes, with some additions will probably be made. With a good team, like we should have and these big games, Carolina should stand way up in the base ball arena. But remember, every student in College must support the team. The manager has been canvassing for money lately. He has met with quite a liberal response, but not near enough. Every man must give, not as little, but every cent as much as he can possibly afford for subscriptions is the only way by which any money is raised at all for athletics here. And then another thing. This is the only way that many, in fact a large majority of students can show their interest. So from the start, on through the entire season, stand behind the nine and we will have a successful season and victorious schedule. The games are as follows:

- Lafayette College, March 25th, Chapel Hill.
- Lafayette College, March 26th, Chapel Hill.
- Clemson College, April 6th, Charlotte, N. C.
- Lehigh University, April 8th, Winston, N. C.
- Lehigh University, April 9th, Chapel Hill.
- Cornell University, April 15th, Chapel Hill.
- Richmond College, April 19th, Richmond, Va.
- University of Virginia, April 20th, Charlottesville, Va.
- University of Maryland May 4th, Chapel Hill.
- University of Georgia, May 9th, Athens, Ga.
- Georgia Technological Institute, May 10th, Atlanta.
- University of Georgia, May 11th, Atlanta, Ga.

Frank Bennett Jr. spent Saturday in Hillsboro.

Track Athletics.

Last Tuesday was a great day for track athletics in the University. Never before has the subject met with such consideration, and its true importance been so realized and admitted, as by the concessions made by the Advisory Committee. We do not mean to intimate that these gentlemen have ever taken a stand which was not for the University's best athletic interests; we do believe, on the other hand, that their action is a sure and indisputable sign that the day of Track Athletics has begun here.

Perhaps the most satisfactory explanation for the lack of interest shown here in track work, indeed the only good explanation is the fact that the work done by the team has until last year been so tame, so devoid of any competition and rivalry of a broad enough nature to arouse enthusiasm. It has been merely a series of contests between individuals. If A wins, "Good for A!" exclaim a few of the spectators; it would have been the same to them had B won. The only possibility of the Team's reflecting any credit on the University has lain in breaking records, Under the old conditions, this possibility has not of itself been inducement enough to make men strive for such attainment. What has been needed is hard competition. Last year's team is sufficient proof of that fact. Through the enthusiastic efforts of Mr. J. C. Horner, a Track Meet of the State Colleges was organized; the University rose to the occasion by putting out one of the best teams she has ever had. It was the expectation of intercollegiate competition that did it.

But higher things are now within our reach. We have an opportunity to establish Carolina's fame among the Colleges of the South. The track team is offered a trip longer and more interesting than any other taken by a team from the University. If these two things do not do away with the "tameness" of our track work, if these new features do not bring the track team up to its rightful place in the estimate of the students, then we must be mistaken in our idea of the reasons of our failure hitherto. If there are other explanations of the indifference of the student body, they can hardly hold now—there is no place for any indifference to such opportunities as are before us.

There are, it will be noted, two conditions, upon the fulfilment of which our participation in the Southern Contest depends. There is hardly any reasonable doubt but that these will be easily met; there is no excuse for failure to meet them. A good enough team? We have it already. Financial support? The students can be counted on to see to that.

Chas. J. Parker of Raleigh, head of the Educational Bureau spent last Wednesday night on the Hill.

Campus.

[Communicated.]

It is exceedingly disagreeable to complain but when we see something going on in our midst which is to be deplored it appears to the writer that steps should be taken towards stopping it.

For years one of the greatest boasts of the University has been the beauty of its campus and especially the beautiful square on which stands the Caldwell Monument and the Davie Poplar. Every graduate has left with a vivid remembrance of the spot where he and his classmates "smoked the pipe of peace" and went through the others of those solemn ceremonies the last they should participate in as undergraduates.

In fact the plot has always been, in a sense, sacred and naturally there has been developed a sort of reverence for it. But of late the writer has noted a decided tendency on the part of certain lazy individuals to save a few steps at the expense of the square. Instead of following the paths these thoughtless ones cut across and in one or two places the grass has been trodden until there is almost a beaten foot-path.

Such a fact is to be sincerely regretted. It is too bad that this beautiful plot should be thus marred on account of either the laziness or thoughtlessness of a small portion of the students.

Last Spring the same tendencies were exhibited but through comment a strong sentiment was aroused against such desecration and it was stopped before serious damage had been done.

The protest comes in ample time this year and it is to be hoped that the practice will be stopped immediately. Let all who take pride in the beauty of our campus and the preservation of the charms with which nature has so richly endowed it, cooperate in putting a stop to this evil and such a strong sentiment will be raised against it that no more appeals will be necessary.

Philanthropic Hall University of North Carolina

Whereas, Almighty God in his divine power has seen fit to remove from time to eternity our late friend and fellow member, Ira Newton Shaw, therefore be it

Resolved 1st That while bowing in humble submission to the will of Him who hath the power to give and to take away we the members of the Philanthropic Society cannot but lament our bereavement.

II That we offer our warmest sympathy to the family and friends of the deceased, and while we would not intrude upon the sanctity of domestic grief we would point them to that Eternal Source from which alone the crushed heart can derive consolation.

III That these resolutions be (Continued on third page.)

Subscription Price, \$1.50 per Year.
Payable in ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

It is with pleasure that we note the names of Captain Bennett and Ex-Captain Osborne on the All-Southern Eleven. We all feel pleasure and satisfaction in this honor, deserved as we know it to be. But to all of us read in *Outing* Mr. Whitney's censorious criticism of the lack of honesty in Southern Football last season' which we fear more or less deserved, there is more satisfaction still in knowing how perfectly honestly we came by every honor that we won. We can point with pride to our fulfillment, in spirit and letter of the S. I. A. A. requirements.

Y. M. C. A. Report.

Many of the students have during the past week received a leaflet from the Young Men's Christian Association in the University. "A report of the work done during the fall of the year 1900 and an announcement of a series of students' meetings to be conducted by Mr. Weston R. Gales under the auspices of the association, beginning on Sunday, February 24th, 1901."

The report is interesting, indicating the strength and activity of the Association during the past fall. The total membership is now 131. Five courses in Bible study have been given. One of these, the course of Bible History in New Testament characters, taught by Dr. Battle, was by an oversight omitted from the report. A course in Mission study has also been given. Under the head "miscellaneous are a number of reports, which show the many ways in which the Association is working for good in and about the University. It is indeed a strong and healthy institution.

The Imperial Tyrolean Concert Company.

On the night of February 7th, in Gerrard Hall the above entertainment will be given. The Company includes both vocal and instrumental artists, their vocal work is varied from solos to the full ensembles, while the number and character of the instrumental productions are equally fascinating.

The national dances of the Tyrol are given when desired. Altogether, this promises to be a most novel and interesting entertainment.

Communication.

Can you spare the space in your columns for a few words of suggestion? The writer knows how uninteresting it is for the readers of the Tar Heel to see articles of this nature, but he believes that in this especial instance most of them will agree with the spirit of his thought. Reference is made to the terrible condition of Cameron Avenue, between common's hall, and the West Gate. In such weather as this, the whole breadth of the Avenue is little better than a ditch, so deep is the mud and standing water. If the writer remembers aright, the footpath used to lie along the South side of the way, where a promiscuously thrown up bank of red clay now lies, left there after the putting down of the water-main. There is evidently abundant room for improvement, and indeed, the situation demands consideration, for this is the most pretentious street of the campus. This writer does not presume to suggest how it should be done, but he would like to see the proper authorities give the matter their attention before another such wet and muddy spell as this comes upon us. Yours truly, '02.

Resolutions of Respect.

At a call meeting of the class of 1804, of the University of North Carolina, held January 23rd, the following resolutions were unanimously adopted.

Whereas, Almighty God in his infinite wisdom has seen fit to take from our midst our classmate and comrade, Ir a Newton Shaw, the before be it Resolved.

First, That in the death of our classmate we have lost a friend and companion, one who was full worthy of the respect and esteem of his fellow students; but recognizing God's hand we bow in humble submission to the will of Him who doeth all things well.

Second, That we extend to the bereaved family our sincere sympathy in this sorrow and bereavement.

Third, That a copy of these resolutions be sent to the family, to the Clarkton Express and to the Tar Heel.

'03 to Put out a Baseball Team.

A meeting of the Sophomore Class was called last Saturday afternoon to discuss a Class Baseball Team. It was decided to enter the lists, with the intention of establishing the athletic supremacy of '03 in baseball as well as in football. The election of officers resulted as follows:

Captain—J. B. Ramsey.
Manager—J. L. Moorehead.
Coach—W. F. Carr.
Chief Cheerer—H. R. Weller.

Mr. P. Hall Busbee spent a day last week in Hillsboro.

Advisory committee.

At a meeting of the General Advisory Committee on Athletics of the University, held last week in Dr. Baskerville office, the following appointments were made.

Mr. Jas. S. Whitehead, '03 of Wilson to be Manager of Varsity Foot Ball team for the year 1901.

Mr. I. F. Lewis, '02 of Raleigh to be Assistant Manager of the Base Ball this Spring.

Mr. G. R. Berkeley, '02 of Atlanta was appointed to succeed Mr F. B. Rankin Manager of the Track Team.

All of these appointments are very worthy bestowed and no doubt the gentlemen will fill the positions ably and well.

Exchanges.

Dartmouth College is trying to raise the sum of \$1,000,000 for a fitting commemoration of the graduation of Daniel Webster, one hundred year ago.

At Bowdin there is no compulsory chapel attendance but a record is kept and forwarded to the parents, in this way making the parents responsible.

During the past year Harvard received gifts amounting to \$531,500 exclusive of certain donations not yet publicly announced.

It is said that the Carlisle Indians cleared \$10,000 on their football team last season.

Mr. John D. Rockefeller made a New Year's present to the University of Chicago, of \$1,500,000.

Yale is considering the plan of having a certain fixed sum of annual dues instead of the old plan of separate subscriptions for each team.

It has been decided by the international commissioners to award the Olympian games for 1904 to Chicago. It was decided some time ago to award them to America and as Chicago has offered the greatest inducements she has secured the games. A large stadium will be erected, so that the games may be carried out on a magnificent scale. This is the most important international event held in America since the World's fair in 1892.

"Where" asked the female suffrage orator, "would man be today were it not for woman?"

She paused a moment and looked around the hall.

"I repeat," she said, "where would man be today were it not for woman?"

"He'd be in the garden of Eden eating strawberries," answered a voice from the gallery.

The treasurer of the Yale Athletic Association reports a net gain of \$5,000 for the year.

The largest score ever made in a football game was piled up by Earlham College when she defeated Eastern Indiana Normal University by the score of 139 to 10.

Out of the 472 colleges in the United States, 370 have an enrollment of less than 150.

At the annual convention of the S. I. A. A. Tulane University invited the association to hold the annual track and field meet at New Orleans, and the invitation was accepted, as was also that of the University of North Carolina to hold the next convention at Chapel Hill, N. C.

The gross receipts of the Harvard-Yale football game amounted to \$418,447. Of this Yale received 55 per cent, or \$22,019, and Harvard 45 per cent, or \$19,715, after a reduction of \$1,809, for expenses had been made.

The total enrollment at Princeton as shown by the new catalogue is 1,249, an increase of fifty-seven over last year.

Dartmouth was said to have published the first college paper. Daniel Webster was editor-in-chief.

During the year 1900, the public gifts and donations to colleges, universities and other educational institutions in the United States amounted to \$35,000,000.

Out of about four thousand students at Harvard only sixty-three men are privileged to wear the "H". Sixteen of these are for football; fifteen, crew; twelve, base ball and twenty for track men.

The Yale athletic field has been cleared of a debt of \$8,000 through the efforts of the Alumni. The field will be turned over to the Yale corporation free from debt.

Dr. Daniel Coit Gilman, President of Johns Hopkins University, has notified the board of trustees of the University, of his intention to retire at the close of the present scholastic year. Dr. Gilman for twenty five years, has served as President of the University.

INDEPENDENCE.

You won't and you will, half no and half yes;

I'm quite at a loss your meaning, dear Miss.

And enough, in all conscience, you've and shamm'd,

Say yes, and be kissed; or say no, and be d—d—

—From Texas Republican, 1835.

We ask all our readers to notice the communication from "01" in another column, and to give it their thought. It is really a crime against the University—against ourselves—to allow such ruthless defacement of the beauty of our campus as has thus been begun, to go on. Some of us will remember that this same lack of regard was shown last Spring; we will also remember Dr. Alderman's appeal to the students to protect their property, and the successful stop put to it then. It is gratifying to hear the protest come from a student this year. As "01" says, the advice comes in time to save the grass, if passage over it ceases at once. If the college shows that its sentiment is already against such practices, and one or two offenders are "called down," the trouble will cease. For we believe, the only trouble with those who have been taking this "cut" is a lack of thought, and failure to see what an ugly and prominent scar will be left on the face of our campus.

They sat upon the garden still,
The youthlet and the maid.

The stars above are not so bright

As you," he softly said.

She lifted up her little head
Toward Luna's golden light;

"The moon above is not so full
As you, my dear, tonight!"

Dr. John DeMotte Lectures.

A Brilliant and Entertaining Talk.

Last Friday evening the third lecture in the Star Course was given in Gerrard Hall by Dr. John De Motte on the "Harp of the Senses, or the Secret of Character Building." To say that a lecture is brilliant, whether true or not is easy, but no one would truthfully speak of Dr DeMotte's lecture as other than brilliant. For two hours he held the audience spell bound by his wonderful power of description.

His lecture may be termed a physio-psychological one, since he showed quite clearly that most psychological phenomena depend on certain changes in part of the physical world—that is in the brain.

His first statement was "I do not see you and you do not see me. We see the body but not the mind, And the mind is the essence; it is the individual. Though the body is not mine, yet the latter does exist without the former."

He then showed by means of slides and the stereopticon how outward objects affect us—how vibrations caused by certain bodies given a motion similar to their own to particles of air, and how the latter affect our ear from which we get a perception. The object in these experiments was to show that character is largely moulded by agencies from without, and that we are conscious of these agencies only through our special senses. The latter half of the lecture was given to character building entirely showing how important that it is for the young to begin life aright, avoiding all the influences that can be detrimental and courting all that may be beneficial. The first wrong act usually leads to another and each becomes easier than the preceding one.

It was really a lecture on the power of habit in which student's of psychology could easily note the fact that Dr. De Motte takes practically the same stand that Prof. James does in his text book.

It was a splendid lecture, one which it is impossible to give a synopsis of as is the case with any good lecture.

The "Gimme" Gang.

As you stroll along the campus
Taking your accustomed smoke,
Thinking of your "bestest only"
Or perhaps, the latest joke,
Some chap is sure at last to say
(And this happens every day)
"Gimme a match."

No sooner has the bunmer left you,
Than another takes his place,
Presuming on his old acquaintance
Guilelessly looks into your face,
Then at last has this to say,
(And this too, happens every day)
"Gimme some tobaccol"

Then at last to cap your troubles
Comes the ferdsh-sucker,
His nerves a-tremble, eyes afire,
Teeth a-grinding, mouth a-pucker—
He, at last is sure to say,
(And this happens every-hour)
"Gimme a paper."

Cornell has property valued at \$10,849,085.98.

Judge McRae Lectures.

It was exactly proper that on "Marshall Day" Judge Jas. C. McRae should deliver an address on the private and judicial life of that great man of whom the South shall always be proud—Chief Justice Marshall. Having been a justice of the Supreme Court himself, Judge McRae is in a position to know something of the task that was Marshall's in the early days of our republic.

The following synopsis of his address is very imperfect, for such a feature must be read or heard in full to be appreciated.

"My father told me that many times he has seen, in his younger days, a plain unassuming gentleman, dressed in the simple garb of of the country gentlemen of that day, ride up to Cook's Tavern in Raleigh, alight, and hitch his horse. That plain country-looking gentleman was Chief Justice John Marshall of the United States Supreme Court—the highest officer of any court in the world, the greatest man of his day. Federalist though he was, and advocate of a strong union, yet his democratic simplicity was as great as that of his opponent Thomas Jefferson. The constitution of the United States which Marshall was called upon to interpret for thirty-four years was not the product of any one man's brain but it was a growth, an evolution. It was to be the fundamental law of the land, not subject to change on account of the mere whim of the people.

In the eleven years preceding Marshall's appointment to the chief justice-ship no great constitutional question had arisen.

In the years of the Supreme Court's existence before Marshall became Chief Justice there had already been four Chief Justices, first of whom was John Jay. He did not seem to have very great confidence in the document, and was glad to retire from the bench. When Marshall entered upon his duties party feeling was bitter. He had even been the leader of his party in Virginia, and was a politician of the highest order. He had also served as Secretary of State in the cabinet of John Adams. Marshall was sworn in as Chief Justice of the supreme court at its first meeting in Washington city, February 4, 1801, and for a generation of men he presided over this august body and handed down his interpretations of the constitution which have stood for a century. In those days a cool head as well as an acute intellect was required of him, for political feeling ran high; the party to which Marshall was an adherent—the Federalist part; went out of existence, to be succeeded by the Democratic party under the leadership of Thomas Jefferson, the political enemy of Marshall, and the one who pronounced the opinions of the chief justices to be the "most

dangerous sophistries."

It was Marshall's opinion that put the constitution above congress for he declared that any act of congress contrary to the constitution could not become a law. This was a new principle that Marshall gave to the world, it could not have happened in England nor in any other country. The doctrine of interstate commerce is also based on an opinion handed down by Marshall in regard to the case of Robert Fulton and the State of New York.

It is strange that the political opinions of Virginia's greatest statesmen at that time should be so widely different, but Marshall's interpretation of the constitution seldom met the approval of Thomas Jefferson.

When Marshall assumed the judicial toga in his forty fifth year, he had wide experience in various walks of life. He had been a soldier in the war for freedom, had served in legislative and constitutional assemblies, and was a diplomat of reputation. But the task that the Chief Justiceship put upon him was the greatest that could be put upon any man at that time. A written constitution was an experiment and the sound interpretations of that high law by John Marshall did much to assure the citizens of this young republic that it would not be a failure.

Med-Pharmacy Baseball Team.

The medical and pharmacy have classes determined to get out a baseball team this season. At a joint meeting of the classes in the Physiology room Saturday night Simpson was elected captain, and Everhart, manager.

To the Men Who Hold the Line.

(BEING A FOOTBALL TOAST.)

Oh, the full-back bows to the cheering crowd,
And the halves, and the quarter, too,
And the praise ascends to the plucky ends
Who fight for the red or blue;
To none so great do I dedicate
This poor little verse of mine—
But here's to those in the fighting rows,
To the men who hold the line.

You watch the game and you'll all exclaim:

"Just look at that fellow run!"
And you'll shout and roar when the struggle's o'er,

That the game was only won
By the full-back's pluck in that splendid buck,

That carried him to the goal;
But you don't see fit to think a bit
Of the man who made the hole.

Yes, the full-back has his need of thanks
And the quarter "did it all,"
And the halves are praised, and a voice is raised

For the ends who took the ball;
Now take your cup and fill it up
To the brim with the dancing wine;
A toast to those in the fighting rows,
To the men who hold the line! Ex.

The Sweater.—This, my child is a sweater. It is knit. What is it used for? Why, to keep the body warm, to starve the laundry, to make frisky students to arise at 7:58 and yet reach their "8 o'clock."

—Exchange.

The December Magazine.

The December number of the University Magazine has come out during the past week. In attractiveness of appearance it is inferior to none that we have seen, and it must be admitted that the standard of excellence has been very much advanced along this line during the past year or two.

In the matter of contents, the literary inclination of our students is exemplified very forcibly, the articles dealing with fact are excellent, those of fiction comparatively weak. It has always been thus, there has never been a cultivation of the imagination among the writers for the Magazine, and the Magazine suffers for it. On the whole however, such fiction as this issue contains is in several respects above the standard of what has appeared hitherto. The opening article is deserving of the first place given it, "Rowan's Committee of Public Safety," is discussed carefully and in entertaining detail; the author gives a clear idea as to what this committee was and how highly it deserves to be remembered. This kind of essay is one that will appeal to North Carolinians, wherever they be for there is in the Old North State but too little popular knowledge of the great things that Tar Heels have done.

"Our Common Hawks; Why they are Despised" is an interesting little article, presenting a very sensible argument for those generally useful birds, drawing easy practical distinctions between the harmful and harmless species.

One hardly knows how to understand "A Game of Hearts." If the personal experience of the author has ever given him a peep into such a precipitate, and swimmingly progressive case of "love at first sight," it is a well-written story; but over most of us poor creatures who have never been so fortunate, there comes a feeling of the impossibility of such things in real life, a feeling so strong as to mar our enjoyment of the story. Possibly that is because we are envious or possibly, we do not appreciate the aptness of the parody on Carolinian pronunciation.

Mr. Holland Thompson's "Life at Columbia" is excellent. Clearly and concisely he explains the lack of community, the individualism characteristic of work at that great University.

Failure to familiarize himself with the setting of his story is the only criticism that can be applied to the author of "Croatan" His idea is excellent, and it is to be hoped that he will follow up his story with others of the same nature.

The last article, "A Soldier's Fate" is a well-written story, and the verse "Song of a Birch Canoe," good. The best feature of the Magazine is the "Editor's Page." His discussion of the matter of an Annual is a strong and sensible one. His

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

We would urge all our readers to fall into the article "Concerning the Library" which appears in another column. This matter of the defacement of the current literature on the library tables has been time and again referred to in these columns, in an earnest effort to arouse sentiment against such an utterly senseless, but vicious practice as this is. But no words are strong enough to condemn the recent crimes—for they are no less—that have been perpetuated against the library in the cutting up of the bound volumes of periodicals. "Junior" in this issue puts the matter very plainly and makes evident the extent to which the Library, one of the strongest departments of the University's equipment is injured.

It is really a remarkable fact that every thoughtless and inconsiderate act that our students are ever guilty of, is against themselves in effect. Probably no college of our size has a more desirable reputation for consideration and regard for the villages and their property. Would that we had as much regard for our own property! Sentiment should down that student who destroys the valuable Magazines in the library, which are the property of the rest of us, just as quickly and unhesitatingly he would treat the student caught in theft in one of the village stores. The motive may not be exactly the same, but the result is the same, except perhaps we are more heavy losers than the suppositional merchant.

Thoughtlessness is usually the explanation for such things as this. In this case however, the matter has been often referred to and condemned for this excuse to apply. Whatever the nature of the disease, it has now developed into a rabid form, and a strong remedy is needed for it. Let the rest of the students show their determination to protect their property, and the two or three who have paid no regard to such property rights will cease their reckless destruction of the periodicals.

Are you a Buffalo?

After the Georgia debate last year after the victory was won, the following remark was made by the editor of the Tar Heel in a brief review of the debate: "The honor of winning this notable victory belongs almost to the debaters themselves. The students and members of the faculty as well have not seemed to realize the great value that they can render by moral encouragement and active assistance." He goes on to say that there were no regular arrangements by which the debaters were given practice, but that all the real assistance given them was from a few men who volunteered as "scrubs." We certainly have, this year, excellent arrangements for the practice of the debaters; it is our impression that the same existed theoretically at least last year.

Let it be seen to that none of us merit such censure this year for failure to show our interest in the work of our representatives and our appreciation of their self-sacrificing championship of our honor. Let it take the form of a real desire to help them to the utmost extent of our ability whether by active study and suggestion, or by helping to make the debates for their benefit in the Societies to mean as much as possible to them.

The Captain of the track team publishes a call to the track men in this issue to give him their names. We urge all men with any ability along this line to attend to this matter without delay; for though work will not begin for several weeks, it is very desirable that some idea be gotten at once as to the probable size of the team, and that some slight preliminary organization be effected. The Captain wants every man who has any ability at all as an athlete; there is no telling how much he may develop under training.

Concerning the Library.

If there is one thing, that is a benefit to the student-body as a whole, it is the library. It should be our care to see, that its privileges are not abused. There has developed a practice among certain students, of mutilating the magazines and papers. The mutilation extends even to the bound magazines and other books on the selves.

Every one who uses the library has noticed, and probably been annoyed by this vandalism. A magazine or paper comes in, and before it has been on the table a day, it will be so cut up, that one cannot read a single whole page. In the case of "Life," this nefarious practice was carried to such an extent that the subscription to the paper had to be discontinued.

Of late the bound periodicals have been attacked. Our library contains the best collection of this class of books, in the South. Many of these magazines are rare, and if destroyed could not be replaced, except at considerable cost.

Some person or persons have done untold damage to the library, by mutilating these magazines. Only last Friday, these periodicals were damaged to the extent of fifty dollars. If this practice continues, it will not be long until these books will be useless.

Many topics are discussed only in

current literature, and if the articles treating these questions are cut out of the magazines, the library will have practically no literature on these subjects. Last year a committee from one of our State colleges came here to use our library in the preparation of an intercollegiate debate. In going over the bound periodicals, they found that every article on their subject had been cut out. This illustrates to what an extent our library is being damaged.

The library is an important factor in our life here. If its usefulness is to continue this vandalism must cease.

Locals.

Harvard and Columbia have automobile clubs.

Dr. Richard H. Lewis of Raleigh was here Wednesday.

Miss Martha B. Lewis of Raleigh spent Sunday at Dr. Battle's.

Mr. G. H. Andrews went to Raleigh Saturday.

Miss Mangum returned to Chapel Hill Saturday night.

Messrs. A. M. Carr and J. L. Morehead spent Sunday in Durham.

Prof. M. C. S. Noble returned Saturday night from a trip to Raleigh.

Dr. Linscott has been quite unwell for several days; he was unable to meet his classes on Monday.

Gen W. R. Cox, Ex-Secretary of the U. S. Senate spent Sunday on the Hill, the guest of his son Albert S. Cox.

Mr. J. F. Newell of Concord, who was a law student here in '99, has re-entered the University to take some special work.

Fourteen members of the Law Class went to Raleigh Saturday. They went before the Supreme Court Monday.

Mr. A. D. Zachary, of the firm of Zachary and Zachary of Raleigh was here last week looking after work on the new building.

T. A. Adams has just received a fine lot of engraved stationary, with designs in fraternity and University paper. Call and see samples.

An error occurred in last week's paper, Mr. I. F. Lewis was elected Chief Marshal and not Chief Ball Manager as was printed.

The Freshman Class are going to put out a Base Ball Team, S. T. Peace has been elected Manager, B. H. Smith, Chief Cheerer, and Wm. Dunn Scorer.

The Medical class will also have a Team this Spring; at a meeting of the class last week, Simpson was elected Capt. and Everhardt Manager.

Mr. J. C. Webb was called home Thursday by the sad news of the death of his brother James Webb Jr. Messrs. W. H. Webb and J. C. Cheshire accompanied him.

Seniors and all others wishing to have pictures taken will please remember that Cole and Holladay will be on the Hill, Tuesday, February 12th to begin work. Get yourself ready so that the work can be pushed along without delay, and remember that half the money must be paid when the negative is taken.

Dr. Hume addressed the Oxford Shakspeare Club last Saturday—at a reception given to it by Mrs. Henry Cooper—on "The Personality of Shakspeare." On Sunday morning he preached at the Baptist church and Sunday night gave his lecture on "The Hymns of the Ages" before the Oxford Female Seminary. Monday morning he visited the English Department of Horner School.

It is probable that if the International games between Yale and Harvard, and Oxford and Cambridge be held arranged, that they will be at the Pan-American Exposition in Buffalo.

Candidates for Track Team.
All students who wish to be considered as candidates for the Track Team will please give me their names this week. Members of last year's team now in college will be entered on the list as candidates unless I am otherwise instructed.
F. M. Osborne, Capt.

COMMUNICATIONS.

The Editors welcome all articles of a timely nature for publication in this column, though they do not hold themselves responsible for the sentiments expressed therein.

To the Tar Heel:

Once in a while as I walk around this campus I just feel like bustin' loose and cussin' out a dozen more people than I can lick. But discretion has proved the better part of valor and I have refrained from verbal expression of my disapprobation of how some affairs are conducted about this place. Then sometimes I have thought of asking for some of the valuable space in the columns of The Tar Heel. But if, as in the last Tar Heel, the managing Editor is determined to give in same issue two accounts of the decisions of the Athletic Advisory Committee (all due respect to their importance!) and two accounts of the election of the captain and manager of the Sophomore Base-Ball Team (no question on my part as to the importance of this election!). I very much feared that there would be no space left for a communication from me.

However, I must let off steam now. Whom shall I hit first! I'll just do like the jolly old Irishman who went to the fair. "I take me shillally and when I get in a crowd I hit the first pate that projects above the others."

Last week's Tar Heel had a communication headed "Campus," in which the writer speaks of the act of boys who have made a path across the Caldwell Monument square as due to "laziness or thoughtlessness" and he says this is "a fact to be sincerely regretted." Right you are, "Ol," but you did not put it half strong enough. People that do that kind of a thing are not going to have their feelings hurt by a more vigorous reminder. "Laziness" you say? You might have made that "infernal laziness." And "thoughtless" you say? Yes, "thoughtless." I am with you then. I doubt if those kind of people ever think for themselves.

Now, my dear lazy, thoughtless ones, it is for the pleasure of renewing the memories of the days of your boyhood, when you loved to feel the swish of the dewy grass on your bare feet, or hear the rustle of the dry fallen leaves as you passed through the woods on your way to school? Or, are you from the city of paved streets and have you the romantic desire to feel the pressure of your soles on the elastic sod? If yours is the latter case, let me remind you of something else you are accustomed to see in your city. Did it ever occur to you why people fancy that style of lawn decoration which erects uncomely signs with this inscription, "keep off the grass?" Well, you know some people (who are not blind) cannot see what paths are made for.

And you, the erst-while barefoot boy, you must remember that your feet are not of the same size now that they used to be. Why, I'd bet as much money as the students have raised for the improvement of the new athletic field against the chances of the Magazine coming out again before April that half of you wear number ten shoes. You can kill more grass by dragging those gon-

dolas once across the sacred square than those two fraternities in the north west corner of the campus can raise in their front yards in two years. Why don't you apply for a position on the Orange County Road Commission and help this county outstrip Mecklenburg in the matter of good roads. No, there is in you too much "infernal laziness."

There is another point, "Ol," on which you did not touch. As I come by the north end of the Old East today I saw a couple of stakes with a board nailed across the top, just such an affair as we used to have at home to keep the old brindled cow out of the rose bed, to suggest that a path should not be made across the sacred square. I was struck with the appropriateness of this means of suggestion. That old brindled cow did not have a sufficient development of the aesthetic sensibility to know that she should not trample the rose bed. Neither do those—but I had better stop here. Next time I will have some more things to talk about.

JUNIUS, JR

Died.

James Webb, Jr., of Hillsboro, died Friday morning at the Eastman Business College, Poughkeepsie. He was here in the class of '98 and was deservedly popular while in college. Since his graduation, he has been associated with his father in business in Hillsboro, and to all appearances, had a brilliant future before him. His illness of pneumonia was of short duration and his untimely end was a surprise and shock to his many friends here.

Fresh Baseball.

At a meeting of the class of '04 held in the Greek Room last Saturday the question of a Class Baseball team was discussed, and decided favorably. The election of Manager was then held, Sam. B. Peace being elected; the Captain will be elected later by the team. The Freshmen have some very good material available and may be looked to for a pretty good team. Among the applicants so far are Bass, Cox, Peace, Herring, Irving, Sifford, Winston, Yelverton, A. Jones, F. Hawes, Smith, Eagles, Oldham, Graham, F. Gregory, R. Noble, M. Noble, Westerfeldt, MacNider.

(Concluded from 1st page.)

statement of his aim for the Magazine should be read with thoughtful consideration by every member of the University. There are writers in the University and the Editor-in-Chief makes it his chief aim to get contributions from these.

THE YARBORO HOUSE, RAEIGH, N. C.

Vol. 9.

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., February 18, 1901.

NO. 16

A College Annual to be Published

The Tar Heel is able to inform its readers on good authority that a college annual; an annual thoroughly representative of every phase of our college life will be gotten out this Spring. For years past attempts have been made to bring about the necessary cooperation on the part of the student body but for many and various reasons these have been futile. But at last we are able to state that within a week, such an organization will be effected as to secure the hearty cooperation of at least nine tenths of the student body.

On Saturday last representatives of the fraternities and the two Literary Societies met to discuss the question and after an hour of consultation an agreement was drawn up which met the approval of every representative present. A copy was given to each to be submitted for ratification to the respective organizations and on Saturday night the two Literary Societies ratified this agreement.

The main features of this agreement are as follows:

The board is consist of four representatives from each society with two votes each, and one representative from each fraternity.

The managing board shall consist of an editor-in-chief and two business managers to be chosen, one each from the two societies and the fraternities.

The name is to be chosen by the board of editors.

This agreement is for one year but should the venture prove satisfactory, as it most likely will, it will, without doubt be renewed.

As the Philanthropic Society and the majority of the fraternities have already elected their editors and the others will be elected within a week, it remains only for the fraternities to ratify the agreement (and, when this issue of the Tar Heel reaches its readers, this will very probably have been done), and the board organized. The Phi Society editors are: Messrs. Thigpen, '01, Ballard, '02, Everett, '02 and Lewis, '02.

The fraternity editors so far elected are:

Drane, '02	D.K.E.
Rankin, '03	S.A.E.
Byrnes, '02	Sigma Nu.
Horner, '03	K.A.
Short, '02	A.T.O.
London, '03	Phi Delta Theta.
Van Winkle(Law)Beta	The at.Pi.

At the meeting of Board of Trustees of the State University at Raleigh last week Dr. Chas. Baskerville, who has been in charge of the Department of Chemistry, was elected Professor of Chemistry, the election to take effect on September 1, 1901. Dr. Baskerville is one of the foremost young scholars of the South, and has already made an enviable record in his chosen work.

Historical Society.

Two interesting papers were read at the meeting of the Historical Society last Tuesday night, one by Dr. Alexander on the "State of Franklin", the other by Mr. Ivey F. Lewis on the "State vs. Wills."

Dr. Alexander, himself a native of the State once called Franklin, read an exceedingly interesting account of the struggles of that short lived state against her savage and her civilized foes. It was, we think the only instance in the history of the American union of a state being organized, flourishing and then passing into decay. The dominant character in the state of Franklin, and its successor Tennessee, was John Sevier, the hero of Kings Mountain. Though once jailed in Morganton for stirring up an insurrection, he was afterwards released, welcomed back to Tennessee with a great demonstration, and honored by his people with the highest offices they had to bestow.

Mr. Lewis read an account of the celebrated trial in the State of North Carolina against Wills. Wills, a slave was tried in the Superior Court for the murder of his master, whom he had killed in self defence, he claimed. The lower court found him guilty of murder in the first degree, and he was sentenced to be hanged. The case was sent up to the Supreme Court, and here the decision of the lower court was reversed, and the slave was found guilty of manslaughter only. This decision of the Supreme was a great surprise to the people of the State, for it was commonly supposed that a slave was only property, and had no more right to resist the assaults of his master any more than a horse had. Dr. Battle declared it a land mark in the court decisions of North Carolina.

Washington's Birthday.

Next Friday, the twenty-second, Washington's birthday will be observed in the usual manner, as a holiday, and with the appropriate ceremonies customary on that occasion. Mr. J. E. Event, '01, of the Phi Society, will be president, and Mr. G. L. Jones, of the Di., secretary. The orators are, from the Phi. Society, Mr. B. S. Skinner; from the Di., Mr. Whitehead Klutz. The final speaker of the occasion is the Hon. Francis D. Winston.

Origin of the Rugby Game.

There has just been fixed in the famous garden wall, of the headmaster's house at Rugby school, overlooking the playing fields, the following tablet to the memory of William Webb Ellis, which will interest football readers:

This Stone
Commemorates the Exploit of
William Webb Ellis
Who with a fine disregard for the
rules of football
As played in his time
First took the ball in his arms

and ran with it.
Thus originating the distinctive
feature of the Rugby game.
A. D. 1823.
—Minn.Daily.

The Elisha Mitchell Meets.

At the regular monthly meeting of the Mitchell Scientific Society last Tuesday night papers were read by Dr. H. V. Wilson and Mr. Isaac F. Harris. Dr. Wilson's paper was on the "Porto Rican Sponges," being an account of the method used for classifying a great number of sponges that has come into Dr. Wilson's hands for that purpose.

A few years ago an expedition was made to Porto Rico for the purpose of investigating its fauna and flora, and of the collections made portions were distributed to the great naturalists of the world, and to our professor of biology came the sponges.

Mr. Harris gave an account of the contention between two great German chemists—one asserting that phosphorous is transmutable to arsenic and the other declaring it impossible. Mr. Harris referred to the fact that chemists of modern times had laughed the transmutation theory of the old alchemists to scorn, but pointed to the attempt to transmute phosphorous into arsenic as a revival of the old theory.

The February German.

The largest and most successful Spring dance ever given by the German Club was held last Friday night in Gymnasium Hall. The leader, Mr. Emory G. Alexander introduced a number of remarkably pretty figures, and managed everything with the utmost smoothness and grace. He was ably assisted by his Floor Managers, Messrs. Will K. Battle and Graham Andrews.

Present were:

Miss P. Bridgers	with Mr. K. Lewis
" R. Bridgers	" " Root

An Inquiry.

What has become of our proposed Glee Club? This is a question which has probably occurred to many of our students during the past few weeks and it is a question which should receive an answer at once, if anything is to be accomplished towards the organization of the club yet this year, for the weeks still remaining before the time for spring examinations are rapidly decreasing in number.

The project has surely not shared the fate of the University Forum without having even progressed so far as to be formally organized though present appearances would seem to indicate that it has come dangerously near to a like fate.

A very good beginning was made last fall and a great deal of interest seemed to be taken in the enterprise. Since the Christmas holidays however there has been a lull and nothing has been heard concerning the organization of the Club.

There is evidently a great need for such an organization in the University and there is abundant material in the student body from which to select men for a glee club, therefore why not push the matter and begin the work without delay. It is hoped that this little reminder will serve its purpose and stimulate those already interested to further exertions, besides, interesting other men in the undertaking. In closing it may be well to repeat that the weeks are passing rapidly and if anything is to be done, it must be done immediately.

L. '02.

The Tyrolean Concert.

The musical entertainment given by The Tyrolean Concert Company in Gerrard Hall on Thursday night February 7th, was greatly enjoyed by all. It attracted a larger crowd than any paid entertainment for some time. The music may not have been classical, there may have been in it discordant notes, but this was compensated for by Gremint native costumes of the musicians. And it was the first time that lovers of German music have been taken into account in the selection of the concert companies. "Ich ken ein Thal," struck a responsive cord in the hearts of all the German students as they sat in rapt attention.

A telescopic photograph of the milky way, taken recently at the Harvard Observatory, shows more than 400,000 stars.

Payable in ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

The arrangements which have been made for the publication of the Annual, which are briefly discussed in another column of this issue, are all that could be desired, and the spirit with which the several organizations have entered into them allows of no doubt but that they will produce the best Annual that the University has ever had. It is most fortunate and happy that the Literary Societies rose to the occasion at this time and expressed their desire to enter into the publication; the time had come when it was imperative that co-operation of this kind be effected, if the annual was to represent the University at all fairly. Under the system that has existed heretofore, there has been no task more utterly thankless than the editorship of the Hellenian. Support of no kind could be counted on from any quarter, but everything depended on the ability, and active exertions of the Editor-in-Chief and the Business Manager. Under the management now adopted, however, all is different. The Annual is henceforward, what the Hellenian editors never succeeded in producing, a true students' publication, and as such has a right to expect the financial and moral support of the whole University.

The outlook for interclass baseball this Spring is most encouraging. More interest and activity in organizing has been developed this year than ever before. The Meds. and Pharmacy students have joined forces toward a team, the Sophomores are well organized, and the Freshmen have elected their Manager. It is very probable that the Juniors at least will enter the contest also. All this is very far in advance of anything that has been done heretofore. Interclass rivalry has been confined to the football season hitherto, class baseball, stangely enough, being altogether lacking. There is every reason why the classes should be able to put out very good teams, and that the games should be very interesting. A movement in this direction is highly to be praised and encouraged, for

it will serve two needed ends; it will develop and foster a truer class spirit than now exists, and it will serve to develop valuable material which would otherwise not be gotten out.

For various reasons the management has decided to change the date of publication of the Tar Heel from Wednesday to Monday of each week, the change going into effect with this issue. It is our desire to give every Monday the news and the happenings of the past calendar week. Any aid in making the news complete, such as information as to visitors on the Hill, and the like, will always be highly appreciated by the editors.

The Tar Heel offers its apologies for its late appearance last week. Repairs in the printing office put the press out of commission for the time being, and the Tar Heel had to wait for the completion of the work.

Exchanges.

Manager Selee has signed R. B. Lawson, formerly of the University of North Carolina. Lawson is not only a fine right handed pitcher, but a great all-round player. In one game last year he shut Cornell out, 6 to 0. He is now in the University of Maryland medical school. Selee thinks he has secured a grand ball player in this man.

Courses of instruction in the Japanese and Chinese languages are announced by the University of California, and the Northwestern University has two classes studying the Swedish language.

The next Legislature of Missouri will likely provide for a chair of journalism in M. S. U.

Professor: "Fools can ask questions, which wise men cannot answer."

Student: "I suppose, sir, that's why so many of us flunk out."

The faculty of Amherst has debarred members of musical clubs from joining the ball teams. Too much play and no work does not carry the real college purpose.

The University of Chicago this year leads the other American institutions of learning in the number of enrolled students. Harvard has held the record heretofore.

The Yale-Harvard track meet will be held at New Haven this year, probably on May 11.

A law recently passed by the New Jersey Legislature provides that hazing from which bodily harm results, shall be punishable by imprisonment for one year or a fine of \$1000 or both.

The Ninth Annual Chess Tournament between Harvard, Yale, Columbia and Princeton was won by Columbia, with Harvard and Princeton tied for second place.

The Faculty of the University of Pennsylvania have disqualified I. K. Baxter, the famous jumper and pole vaulter J. B. W. Tewkesbury was finally declared eligible.

The Yale Library has, during the past eighteen months, acquired 12,235 volumes by purchase and 10,275 by gift.

A very spirited contest is being held at Cornell to decide whether the Freshman banquet should be wet or dry. The matter has gone beyond the bounds of the class interested and the outcome is awaited with considerable interest.

The Ring-Tum Phi is agitating the question of a Press Club for Washington and Lee.

Harvard owns an income-producing property of ten million dollars and Yale one of five million.

Tulane has established a University Press in which students are to be employed.

The highest salary a college professor receives in the United States is \$7,000—\$3,000 or \$4,000 is considered extra good pay.

Lives of students all remind us
We should pay no heed to looks,
But on passing leave behind us
Interlinings in our books;
Interlinings which another
Toiling hard midst grief and pain
Some forlorn and flunked out fellow
Reading, ne'er shall flunk again.
—Ex.

The Yale Team made \$22,071 last fall.

Casper Whiting's criticism in the February "Outing," of Southern foot ball is exciting much editorial comment among our college contemporaries.

At Lehigh an effort is being made to establish an Honor Court for the prevention of cheating on examinations. It is highly probable that other Northern colleges will adopt the system ere long.

Prof. Cobb spent last week in Lilesville, N. C., where he was called by the serious illness of his daughter.

Mr. J. L. Morehead went to Durham Friday.

WAR! WAR!

Read what H. R. Guthrie has to say to the University students. Five hundred men wanted as soldiers for China and five hundred men wanted to shave at H. R. Guthrie's Shaving Parlor, opposite Chapel Hill Hotel. The Central Barber Shop. Sore necks caused by rough shaving and scalp diseases are cured at Guthrie's Shaving Parlor. \$10.00 reward deposited in any bank for any case of dandruff that can't be cured at Guthrie's Barber Shop. Satisfaction always guaranteed. I am just from Charlotte and have the latest in everything. Special prices by the month. Yours to please. For disposal of second-hand clothes, see me.

The Misses Hiusdale of Raleigh are visiting Miss Fannie McRae.

Mr. Chas. J. Smith of New York is registered at the Chapel Hill Hotel. He has been quite ill and has come south for his health.

Messrs. W. K. Battle and Emory Alexander went to Durham Friday evening to meet those coming to the Friday night German. Mr. G. H. Andrews and J. R. Rountree met them at the University Station.

A Progressive Heart Party was given Thursday night by Mrs. Linscott. Those present were: Dr. and Mrs. Pratt, Dr. and Mrs. Mangum, Dr. and Mrs. Baskerville, Miss Mary Graves, Miss Toy, Miss Hooper, Miss Susan Moses, Mr. Palmer Cobb, Mr. Alf. R. Berkeley, Prof. Howell, Dr. Ruffin, and Dr. Wheeler.

Mr. D. A. Bullock went to Raleigh Thursday morning, returning Saturday.

Mr. J. R. Rountree returned Saturday from Raleigh where he had been to consult Dr. Lewis about his eyes.

Mr. C. McFadgen went to Raleigh Saturday.

Mr. Gaston Justice spent Saturday and Sunday in Raleigh visiting his father.

Mr. Holladay, University Photographer, will be on the Hill Tuesday the 19th to begin taking the groups. Anyone wishing individual pictures made can have them taken at the gallery while he is here.

Mr. Ernest Graves left some time ago for Highland Falls, N. Y., where he is taking a preparatory course for West Point. He will probably return to Chapel Hill about March 1st. Mr. Thad. W. Jones, '00, is also at Highland Falls.

Last Saturday Dr. Baskerville, Mr. Mills, and Messrs. Drane, Holmes, Lemly, Lichtenthaeler, Moss, Taliafarro, and Woodward, of the Course in Economic Chemistry, visited by special permission the Sulphuric acid plant of the Caraleigh Phosphate and Fertilizer Company at Raleigh. Mr. Chamberlain, President and General Manager of the Company, met the party and showed them through the plant, making their visit exceedingly pleasant and interesting, and in the highest degree profitable.

Mr. A. M. Carr left on Tuesday for Portland, Maine. He has gone to attend the annual convention of the Zeta Psi Fraternity, and will be gone for several days.

Dr. Venable has been away from the Hill for several days. Dr. Alexander has been acting in his place.

Dr. Hume has been invited to contribute signed articles on Contemporary Literature to the Baltimore Sun for its special Literary number on Thursdays.

Mr. J. C. Webb went to Hillsboro Friday returning Monday.

Mr. M. L. Staton went to Raleigh Thursday.

Dr. Hume will lecture on Shaksperian Side-Lights on Old English Life at the Anniversary of the Literary Society of Louisburg Female College, Feb. 22.

Candidates for Track Team.

All students who wish to be considered as candidates for the Track Team will please give me their names this week. Members of last year's team now in college will be entered on the list as candidates unless I am otherwise instructed.

F. M. Osborne, Capt.

Mr. G. H. Andrews went to Hillsboro. It is probable that if the International games between Yale and Harvard, and Oxford and Cambridge be held arranged, that they will be at the Pan-American Exposition in Buffalo.

The Medical class will also have a Team this Spring; at a meeting of the class last week, Simpson was elected Capt. and Everhardt Manager.

COMMUNICATIONS.

The Editors welcome all articles of a timely nature for publication in this column, though they do not hold themselves responsible for the sentiments expressed therein.

Letters of Junius Jr., No. II.

I wish you Tar Heel folks would learn how to write attractive head lines to articles I write (and to a few others too). My last title was headed "Communication". And if there is anything in a college paper that has a prophetic savor of a coming "kick" it is that word "Communication". I am afraid some one will think I am a kicker too, whereas—

But let me tell you what happened the other night after I wrote my first letter. When I tell you this some of you will be surprised that I have taken up my goose quill again. 'Twas this. After I finished my little say about those people who make paths across the sacred square I joined a friend in an oyster fry (down where the red lantern hangs) and then went to my room to sleep. I slept and lo I dreamed! Horrible dream! Why that old brindled cow which I spoke of came waltzing into my room on her hind legs. She wore trousers, a dress coat and a broad brimmed straw hat and had a cabbage leaf stuck in her button hole. She hopped up on the bed and with awful grimaces and direful threatenings compelled me to admit that I had done her an injustice in comparing the aesthetic as it is developed in her to the same sensibility as it is developed in those sacrilegious profaners of the sacred square.

And let me change the subject and ask a question or two. What has become of the movement to raise some money for improving the new athletic field? Three or four weeks ago in a meeting of the Athletic Association some one was put in charge of the matter and the students are just waiting with pocket-books open, getting more anxious every day to contribute towards the object. Where is the man who was put in charge? Do the class officers—I speak of the class presidents not of the class essayists, the class poets, the class historians, the class treasurer and the two dozen class vice-presidents, and other officers made to order in accordance with the exigencies of political deals—I ask do the class presidents refuse to give their hearty cooperation to forward this important matter? I'd just like to know something about this thing. What does this year's team care about having the field repaired if it is to be put off until the summer. The alumni are willing to help too if they are called on. "The quicker the sooner" as the Dutchman says.

And speaking of things athletic I want to propose one more thing for adoption by the Athletic Association. Can't we fit out about a dozen of our most skilful huntsmen with modern fire guns and organize a hunt for the wholesale and complete extermination of the Campus "croaker." I believe such a move would do more for the advancement of our athletics than any thing else that has been done in years. Did you ever see one of these "croakers"? Well if you have not, a hap-

pyman you are, for mosquitoes and and flies are not anything in comparison. The pest is now abroad in the land. This has been my experience. I am sitting by the college well or I am waiting for my mail at the Post Office. Perhaps I am discussing base ball. Without warning the "croaker" appears. "Say, I don't believe we are going to have much of a team this season do you?" or, "I wish we had some kind of a chance to win out this year but I don't believe we are going to do anything in base ball". Oh you pusillanimous little shrimp! You are worth nothing yourself. You could not play a game of marbles if you tried. You know about as much about the true spirit of college sportmanship as Bennie Booth knows about the Porto Rican tariff question. In expressing your opinion and delivering your contemptible criticism you show conceited ignorance. Your highest idea of sport is to win a game and you can never see that a defeat at the hands of a stronger team may often be more honorable than victory over other teams. And when the game has been played and we have been fairly beaten some of your miserable tribe come around with your narrow minded carping and want to tell me how so-and-so shirked and lost the game. Well if I were a player and knew that there were many of your kind in the grand stand I suggest to my captain that we all go gunning for "croakers."

But I am afraid that shooting "croakers" would be like shooting sparrows—you don't get back the price of your powder and shot unless you can get them bunched and even then it's mighty poor shooting. It seems that the "Buffaloes" might incorporate in their constitution as part of their initiation ceremony that each initiate be required to bring in at least one dead "croaker". The Buffaloes can hardly find any higher reason for their existence. I am not a Buffalo and do not know whether you "croakers" are ever candidates for initiation. If you are then I hope you'll indulge in a glorious suicide, for that combination is something awful. If there is any one who does not know what a croaker is then I warn you lest by his siren croak you loose yourself in the miry slime of his conceited pessimism and—oh, but you know how bad that would be.

The formal inauguration of Dr. E. A. Alderman as president of Tulane University of Louisiana will take place on Tuesday morning, March 12th.

Mecklenburg Alumni.

The mass meeting held Friday in honor of the party of visitors from Chartotte was most hearty and cordial of its kind ever given here. Gerrard Hall was well filled the most of students who turned out to give evidence of the high loyal interest shown by the visitors.

The visiting party was composed mostly of Alumni, but these were accompanied by a number of their friends both ladies and gentlemen.

At 7:30 o'clock the students hailing from Mecklenburg County, thirty-two strong, filed into the Chapel in a body, with the emblematic Hornet's Nest borne aloft at the head of their column. Their entrance caused great enthusiasm and applause. They replied with a Mecklenburg Yell; "Rah, rah, rah!! Rah! rah! rah!! Rah, rah, rah!! Mecklenburg! Mecklenburg! Hornet's Nest!!"

President Venable then arose and in a little speech, bade the visitors welcome, in the name of the faculty and trustees. In closing he introduced Mr. Whitehead Klutz, '02, who gracefully expressed the warm welcome of the students.

Mr. George Wilson of Charlotte, was introduced then and though not an Alumnus, expressed himself in the strongest terms in admiration of the University and its work. His speech was warmly applauded.

In a few words which made the students acquainted with the splendid work which he has done for the aid of his alma mater, Mr. Heriold Clarkson was introduced by Dr. Venable. Mr. Clarkson was greeted with enthusiastic and continued applause. He said that he had been touched by the kindness that had greeted him and his friends, and hardly knew how to express his thanks. He went on to say what a great love he felt for the old University, and how he now saw how much he owed it. With a few words of kindly advice of a kind always appreciated by students, he closed his talk.

The speaker of the evening, Mr. D. A. Tompkins, was introduced by Dr. Venable in a few words appreciative of his great talents.

Mr. Tompkins rose, and made one of the greatest talks that our students have ever had opportunity of hearing. Hard, straight practical common sense, it was the talk of all talks for young men about to enter their professions, and every thoughtful man in the hall listened eagerly and thoughtfully. The speech was printed in full in the Charlotte Observer, where every college man should read it. It was a plea for education which gives thorough hard, careful attention to every little detail. Mr. Tompkins took as his ideal of an educated man the Southern planter, before the war. The Southern boy learned all about mules and negroes individually and collectively, learned how to plow, to raise crops, to do

every thing on the plantation; all this he learned as a boy by actual contact and association with the men that did those things. He then went to college and got a liberal education. After that he came home and was able to take his father's place. He knew everything on the farm, could do everything on the farm, and do it better than anybody else and everybody on the place knew that he could. That is the kind of man that can hold a high position.

If our young men would learn their professions in this way, by hard-drudgers in the thorough mastery of all the details of the subject he would never have to ask for a place. Places would be forced upon him.

Mr. Tompkins dwelt extensively on education as an economic problem for the South. He said that with proper education there was no class of young men in the world better fitted by natural endowments to excel in industrial pursuits, than the young men of North Carolina. But it would be an injustice to his lecture should an attempt of this kind be made to give an idea of its content. It should be read in full.

Mr. Tompkins' speech closed the meeting. After this the visitors "received the Mecklenburg students. They spent Friday afternoon and Saturday morning in seeing the sights about the campus and the village, leaving on the afternoon train. Their visit was most highly appreciated by all, it is the wish of every one that their visit meant to them all that it should have.

Visiting Committee Here.

The committee from the Legislature came over from Raleigh this morning to inspect the University. They were met by Dr. Venable who escorted them over the buildings and grounds.

After dinner at Commons the committee, composed of Representatives McIntyre and Whitaker and Senator Aycock, were met in Gerrard Hall by the student body which had assembled there. As the members entered the Hall they were greeted by a perfect storm of applause. After this had subsided Dr. Venable arose and spoke for a few moments welcoming the committee to the University. He then introduced each of the members who responded with a few pointed remarks.

Mr. McIntyre, Chairman of the Committee on Education, was the first to speak. He dwelt for a few moments on the past of the institution and prophesied a future just as brilliant. "Rest assured," he said, "that if the appropriation for the University is not increased it will be because there is not money enough in the treasury."

Mr. Whitaker, the next speaker, pointed out the vital relation existing between the University and the State. "If you cripple the University, you injure the State's best in-

terests.

The last speaker was Senator Aycock who spoke in substance as follows.

The State is what we make it. There are many who have received little education for at the time when they should have been at school they were working to support the widows and children of those who followed Lee and Jackson. Yet they recognize the need of education. It was the opinion of the speaker that the present Legislature was heartily in favor of giving to the greatest institutions and especially to the University.

Each of the committeemen recognized the needs of the University and we feel sure that they will give us all that the state can afford.

Track Athletics.

Prospects Are Very Good.

The meeting of the Track Team last Wednesday was largely attended, and resulted in a list of forty candidates. This number includes all of last year's team who are back; Messrs. Gudger, Cates, Oldham, Rankin, Burgess, McIver, Foust, Berkeley, G., Thorpe, Simpson, Linville, Ramsey, and Osborne. Among the new men are a number who have done track work at Horner, Bingham, and Oak Ridge, who have shown considerable ability.

Preliminary work has begun in the Gymnasium, towards getting the men in condition. Specific track work will not begin until the fifteenth of March. New apparatus for track work has been ordered.

The same reasons that have prevented our entering contests with the State colleges in football and baseball will prevent our entering the contest at Oxford this spring. But negotiations are under way for a dual track meet with Georgia, and every effort will be made to send a team to New Orleans. There is a broad field of opportunity for distinction on the track team, and a place for every man of any ability. It is strongly desired that every man who has any ability as a track athlete come out at once and go into training. The list is still open for applicants. It is strongly desired that all applicants go into the light preliminary training at once, so it is urged that the matter of coming out be not deferred.

Mr. J. H. Garren was seriously hurt a few days ago in the Gymnasium. An iron ring struck him just over the eye cutting a considerable gash.

A. W. Haywood, Jr., spent a few days last week on the banks of the Haw.

A. M. Carr spent Saturday and Sunday in Durham.

Mr. A. M. Carr returned from Portland, Maine, Tuesday.

J. Cox Webb has been confined to his room for several days with an injured arm.

Washington's Birthday Exercises.

Exercises on the anniversary of the birthday of Washington were held in Gerrard Hall last Friday. Mr. J. Avents presided at the meeting and Mr. G. Jones acted as secretary. Orations were delivered by representatives from each of the Literary Societies: Mr. B. S. Skinner, '01, from the Phi., and Mr. Whitehead Klutz, Law, from the Di. Mr. Skinner was the first to speak. His subject was "The Ideal of Citizenship in the Twentieth Century," a synopsis of which follows:

Our early settler brought with him large results of civilization which were tested by his new environment. It is a mystery that there was any United States at all. Our forefathers challenged the strongest nation in the world without justifiable means to accomplish their ends, but above all the hardships, they established our national liberty forever, and plucked victory from the enemy on the plains of Yorktown.

This cautions young men who are now entering life of the great advantages they are now enjoying with their national liberty firmly fixed. The Revolution prepared our foundation. Washington, Jefferson, Franklin and others laid the plan and design of our government. Its three departments are such as to indicate that they are a reflection of Anglo Saxon christian civilization. The character of our citizens is what determined their fitness for the responsibilities of self government.

American prosperity is due to the self-protective policy, foreigners are not to be consulted as the methods we adopt for increasing American labor. A nation must defend itself against a war on its industries as well as against a war on its territory. The Constitution merely gave a new form to the life already begun and defended it. Although trained and disciplined as American citizens have been, it is not surprising that they are now prepared to venture still nearer to the principles of a pure and perfect self-government.

The 16th century man cleared the way for his successor. This was a century of Emotionalism, while the 19th was characterized by Democracy. It came on with the prosperous events, but man was in a comparatively crude state compared with the fellow citizens of to-day. In the earlier national period our ideals were somewhat more unselfish.

There are two types of men the college bred and self made. The former aims at a lofty, rounded character. The latter rises to a high ideal by talent and experience. Results of culture must come from somewhere. Franklin and Morse discovery and invention proved this.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

It is indeed a pleasure to note the manner in which Vanderbilt has answered the remarkable charges published by Casper Whitney against the S. I. A. A. and the Vanderbilt football team, in particular. Mr. Whitney's remarks were to the effect that unless there were more honesty of purpose shown in Southern football, he would ignore it in his annual review; that the Southern Association was not asserting itself as it should,—that it was too passive; and that he wanted some explanation of Vanderbilt's playing Fugler and Jenkins, "two men who come out of the North at the eleventh hour."

We could not understand what the above complaints meant when we saw them in Outing. It seemed to us then that he must be writing—as he has done before now—without due regard to the reliability of the source of his information, and, consequently, to the sufficiency and accuracy of it. That Vanderbilt College was guilty of his charges, we did not believe for a moment. The fact that Dr. Dudley, the President and the Soul of the Southern Association, is the moving spirit in Vanderbilt Athletics, made the thing impossible, not to mention the leading stand which Vanderbilt has always taken for the most stringent application of the Association's regulations to her teams.

But it was very evident that somebody would expect a reply, an "explanation" from Vanderbilt. It came. A mass meeting of the students drew up resolutions pronouncing the charges against the S. I. A. A. ungrounded and uncalled for, and denouncing the charges against Vanderbilt as being grossly libelous and false. Expressing their appreciation of Mr. Whitney's effort for purity in athletics, and the belief that his publication of the charges was an oversight, they asked that he investigate them, and substantiate them, or acknowledge his error in his magazine. The resolutions are excellently expressed; they give just the firm decided denial that the occasion called for.

With regard to the charges

against "honesty of purpose" in Southern football, it is certain that any such condition is not the fault of the attitude of the Association, as is intimated in Mr. Whitney's article. Virginia and Georgetown are not, as he seems to think, members of the S. I. A. A., and their violations of the rules of college sport cannot be laid to the charge of that organization. As to Texas, we have not yet heard their side of the matter in an official way, although they have defended themselves in a controversy on the subject with the M. S. U. Independent. But they will be heard from, and, we hope, establish their innocence of the charges against them. The Southern Association cannot be characterized as "not attending to its duty with proper aggression." The Association has been, and is actively making for the best in College Sport, and is creating a right spirit, albeit a new one, in regard to purity in athletics. This spirit is not yet all it should be; there are still some colleges that do not appreciate the ideals of the Association. But the Spirit is growing. Southern colleges are losing that old idea that has so long lowered the plane of our athletics, the idea that a victory, however won, is the end in itself.

The Association is beginning to be more and more recognized for what it is, and supported by universal sentiment in its rulings, as this spirit increases. Though there may have been some cases in the past where the Association has been open to criticism for laxity, it has never been the fault of Dr. Dudley, the President. The local Presidents, it seems, have sometimes not taken their duties seriously enough, and have overlooked matters in their province.

We held off for a long time, for the very reason given above, before we came into the Association. We thought that the members did not seem to take the matter seriously enough. But we have joined, to use all our influence towards the strict enforcement of the spirit and the letter of its regulations. We hope to have an opportunity on the occasion of their meeting here next Christmas to take an active part in the proceedings, and to show our ideas of the Association's province.

It has been decided that we cannot enter the track meet of the State Colleges at Oxford this year. This may be disappointment to some; there are, it must be admitted reasons, why our meeting with the State Colleges would be desirable for us. But it came to a matter of choice between the hampering restrictions made by colleges weaker than we on the one hand, and the broader rules and provisions of the Southern Association, where we belong rightly, on the other. Of course we took the step forward.

Notice.

The Editors of the Annual have decided to ask suggestions from the students for a name for the Annual. Names may be handed to Ballard, Short or Drane, before March 2nd. To the author of the name chosen, a copy of the Annual will be given.

Mr. J. B. Ross is here on a visit to his son Thos. Ross, '03.

Fresh Medallists.

The annual official meeting of the Soph class was held Thursday night Feb. 21st to discuss meritorious freshmen and decide what medals they should receive on Washington's birthday. This has been a custom at the University and it was a question of discussion when the medals should be given, as much was to happen on the 22nd, and time was lacking. Accordingly it was decided that the medals should be awarded the night before. They were awarded with impressive ceremonies and the freshmen in good spirit each in turn thanked the Soph class for the honor conferred. The medals were quite appropriate and handsomely engraved. They were awarded in the following order:

Typical freshman	Lawrence Holt.
Natural born fool	W. M. Bryan,
1st degree fool	Bohannon.
2nd degree fool	Hunt.
Liar	Jerry Cocke.
???	Catlett.
Ladiesman	Alex. Jones.
Heavenly twins	Noble Bros.
Missing Link	Jack Frost.
Bull Tamer	S. P. Bass.
Dirty man	Stewart.
Pretty man	Latta.
Mama's "baby boy"	M. C. Staton.
"Grandmama" medal	Fresh Beall.
Chew! Chew!	Westerfeldt.
Bore	Burton Smith.
Broken down sport	A. G. Brenizer.
Conceited man	R. L. Payne.
Lord high proprietor of the campus	President Cox.
Dog faced man	Henry Lee.
Utter failure	Whole Fresh Class.

The following are on the roof of honor and deserve honorable mention:

Lamb	"The black sheep."
Dunn	"The cook."
Cobb and Eagles	"Side partners."
Smith	"The Buffalo."
Peace	"The fighter."
Winston	"The Hunter."
Hoskins	"The upright monkey."
Brower, J. Fred,	"Muncher's Pet"

Next in order are: Kenan, Hanes, Gudger, Gregory, Pearson and Harrison.

faction guaranteed. Give me a trial.

(Concluded from 1st page.)

In industrial pursuits agriculture stands first. The notion has been and is to-day that an educated man must be something other than a farmer.

This is the sentiment held by the majority, but counts little when put into practice. These notions are gradually giving away as we advance.

The civic ideal is important in a democratic government; no nation can be saved if the individual citizen is not honest.

The requisites of man is to meet life, and he must be disinterested and efficient and take things as they are. Education the basis of his preparation. The chief functions of state is to teach children to become citizens, money and thought must be invested to raise this ideal. This is a creative period and the problem of Americanism arises. New problems confront us. The 20th century is dawning with new conditions. America has solved many problems which have threatened our dissolution and stands to-day in the front rank of nations.

Then can the American citizen have deteriorated if the nation held such a claim.

At the conclusion of Mr. Skinner's oration President Avert introduced Mr. Whitehead Klutz, of the Dialectic Society. Mr. Klutz spoke on "The Spirit of the Old South in the New." He began by showing the error very often committed by people in the South as compared with that of the old South: the difference is not great. We are very much the same people that our forefathers were, so far as inherent disposition is concerned, but surroundings have changed, and this change has had its effects on us as a people. With the old Southerner the love of truth, honor, and justice was paramount. In politics he was a giant, in his home he was hospitable and courteous to strangers; towards his slaves he was thoughtful and considerate.

Young men of today should draw from the great men of the Old South helpful lessons. The qualities of those men will make of the young men of today great leaders. In regard to the negro it is the duty of our race to look upon them as dependents, in the same way that our ancestors did. The negro is inferior and ignorant and it is the duty of the strong and intelligent race to protect him.

The orations of both the speakers were splendid in conception and were received with hearty applause.

The absence of Mr. Klutz from the Hill is responsible for our failure to obtain a synopsis of his oration, and we regret our report of his speech is so imperfect.

At the conclusion of Mr. Klutz's speech President Avert introduced the final speaker of the occasion, Hon. F. D. Winston. Mr. Winston referred to the fact that he had been in the same position of the gentleman who preceded him. At the reopening of the University after the Civil War the time-honored custom of observing the anniversary of the birth of Washington was revived and the selected representative of the societies on this occasion was Mr. Winston. In his own humorous manner Mr. Winston then be-

gan to give some of his reminiscences of college life, telling how the Magazine of which he was editor, would rise, flourish for a time, and then on account of some indiscreet notice in its pages, it would fall a victim to faculty discipline, and would suspend publication for a time. He then spoke of the character of the man whom we were honoring; of the human side of his character, not Washington the great general and statesman, but Washington the man. He read numerous extracts from the great man's diary, showing that he was intensely human, possessed of many of the same qualities as other men.

Washington was a shrewd business man; he was fond of the pleasures of life; he was not an ascetic; he was fond of cards and the theatre, of sumptuous meals, of fox-hunting, and in his relation with all men he was courteous but formal. Mr. Washington's speech was rather informal, and was replete with wit and humor. He showed that despite the fact that Washington was intensely human, nevertheless he was a great man in every respect, and due all the respect and reverence that we can pay him.

The exercises were greatly enjoyed by all, and we are under many obligations to Mr. Winston for taking the time and trouble to leave the legislative halls and give us our sparkling speech.

Mr. W. A. Blue went home Thursday.

Food

Interesting Lecture by Prof. Kilgore

A large assembly of students and citizens availed themselves of the opportunity of hearing an exceedingly practical talk on the Food Question by Dr. B. W. Kilgore, the State Chemist. His lecture was very well written and delivered, and far from being merely a dry collection of scientific facts, as the subject seemed to imply.

Dr. Kilgore began very happily with a pleasant (?) little anecdote of two young married women, of whom the first had a most happy time of it, while the married life of the second almost led her to believe that marriage is a failure. She applied to her more fortunate friend for information as to how she managed to get along so happily, and asking for advice. The answer came "Feed the brute." What we shall eat is indeed a most important question, and one with many sides to it. We can only consider briefly a few of these.

The plant has as its object the storing of nutriment. Man has just the reverse object. He has the power of assimilating the matter of the plant, and of storing largely as a result of the combination.

The energy of the body all comes from food,—our vital force, shown in physical labor, mental activity, or even in the sleep. Work wears out the body, and food is needed to repair the losses. So the necessity of good and proper food is evident. The proper amount, neither too much nor too little, should be found and observed in our eating. More sickness and death is caused in the world by intemperance in over-eating, than by alcoholic intemperance.

It is of interest to us Americans to make a wise choice, who have so much to choose from. The American workingman, as a matter of fact eats 50 to 100 per cent more than the German. Energy and the desire to work depend on good nutrition, but appetite is greater than capacity, and there is great danger of over eating. Since ones health, strength, and desire to work depend on diet, proper attention to the kind of food is of great importance, that all parts of the body be nourished. There is another aspect,—that which reaches the pocket-book. Laborers spend from 50 to 80 per cent of their earnings for food,—we may say that one half of all human effort goes toward satisfying the palate. So it is important to see how results may be gotten for ones money.

There is a great deal of thought and investigation toward making plants and animals do best work. Farmers constantly write me for advice as to how much Phosphoric Acid will make best plants, or what kind of food will cause the cows to produce most milk and butter. But even the most intelligent people are most careless in regard to their own food.

By means of a chart, Dr. Kilgore then showed graphically the relative amounts of nutriment contained in the same quantity of different foods. The nutriment in oysters was hardly visible, while "our old friend, corn meal," ran almost across the chart. "The line between animal and vegetable foods is a sharp one. The former is far more concentrated more easily digested, and satisfies

the palate, so in a way, is better; though much more costly.

The question has been asked, "How is it that the Negro is the main labor dependence of the South on his diet?" The ordinary negro laborer gets as his ration, one peck of meal, five pounds of fat pork, and a jug of molasses. Now all this is excellent nutritive food, heating and fattening, but not muscle making. For every pound of muscle producing food, he gets twelve of fattening and warming diet, whereas the white man gets one pound in every six muscle making food. Such a one-sided diet means a decrease in powers. In the case above, peas or beans would give three or four times the strength that pork does."

Dr. Kilgore then entered into an interesting discussion of adulteration of foods. Some of the adulterations are really injurious, such as the antiseptic acids used in canned vegetables. Others may be entirely harmless, as artificial vinegars, and butter-coloring. Some, like our lard and fancy olive-oils, all made from cotton-seed oil, are an excellent substitute, even an improvement on the original article. But everything should be sold under its own proper name.

The State has made legislation against these adulterated foods, and is investigating them. The purpose is to use the results of the investigation in shutting out all useless and unnecessary substances and having things sold under their proper name. The object is, an economic one for the Southern people. There are fortunes for Southern young men who will apply their brains to economic problems, for much is wasted in the South. But they should have in mind the principles that there is more glory gained in the profitable scientific working of the toolings at a mine than in getting out the native ore.

A special train from Charlotte Friday afternoon brought a number of visitors and the delegates to the Mecklenburg Alumni Association. Among those here are:

Mr. and Mrs. Walter Brem, Mr. and Mrs. Geo. E. Wilson, Mr. and Mrs. H. E. Bryant, Mr. and Mrs. A. L. Smith, Misses Caldwell, Mary Oats Caldwell, Morrison, Erwin, Ross, and Messrs. D. A. Thompkins, W. G. Brown, Jno. B. Ross, J. K. Ross, C. Bentheim, H. Clarkson, L. W. Humphrey, Chas. Stone, S. F. King, H. Woodruff, Alex. Graham, Geo. Stephens, Gilmer Erwin.

Mr. Fred Oliver, of Charlotte, N. C., was visiting his son T. C. Oliver here on Saturday and Sunday.

THE ARBORO HOUSE, RAEIGH, N. C.

WASHINGTON, D. C.

THE TAR HEEL.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

Vol. 9.

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., March 4, 1901.

NO. 18

Baseball Beginning.

The very pleasant weather of the past two weeks has been ideal base ball weather and a large number of players have been out each afternoon, indulging in batting practice and more recently lining up.

As yet there has been so little practise and the players have not yet become accustomed to their positions, that individual criticism would be useless.

There are quite a number of applicants and they all seem to play hard ball, each striving very faithfully for their positions. There has been some very good playing this week, but the base running and batting is very poor. This of course, will improve greatly with good, hard work.

Work will commence shortly on making the necessary improvements to the new Athletic Field and the regular practise will begin in earnest.

Mr. Phil Meade, a noted base ball player of many years experience has been secured to coach the team and will no doubt develop the men wonderfully. Already he is giving the players individual training and he is paying much attention to the base running.

The players themselves seem to be doing their work conscientiously and it is this steady, hard training that makes a successful team. They play several hours each afternoon about half the time being devoted to batting practice.

The prospects for a winning team are very bright. Besides a number of last year's Varsity there are many of the Scrubs and quite a number of new men. All the positions will be well filled, and there are several men trying for each position. The practise now is held on the old athletic field, Captain Graves, who has been absent several days will return soon. During his absence Mr. E. P. Holt has been acting Captain and has put the men at hard work.

The excellent schedule of Manager Worth has already been printed in the Tar Heel. It was only a tentative schedule and the final list will be published soon. After this the Tar Heel hopes to have an individual and general criticism of the team each week. It will show the players their weaknesses and places for improvement and will be intended only for the betterment of their playing. One criticism that can be made now is that some are rather slow in throwing the ball to a base after they have secured it. Also some of them are too fancy and seem to play to the grandstand. This must stop and the men must play hard, fast ball.

The men who have been out lately and the positions they are trying for are as follows:

Pendleton, a new man of considerable base ball experience is trying for catch and an infield position.

Messrs. Wilcox G. and Foust of last year's "Scrubs" are working for catch.

Our pitchers with one exception are old men here and they are getting their arms in trim. They are Battle, Wilcox J., Harrington and Cunningham of Bingham.

Holt of last year's Varsity is again at First and Brem of the Scrubs is also trying for that position.

Cock of Wm. Bingham and Stephens of the Scrubs are applicants for second base.

Geo. Graham of last year's Scrub team and Cunningham of Bingham are working for third.

Graves and McAden are trying for short.

The applicants for out field positions are: Carr, Graham A., Donnelly and Oldham, all old Varsity men. These players when well practised will make a good team and they will no doubt keep up the enviable record of Carolina's base ball life.

The students might as well realize at the very beginning that all does not depend on the players! It is the expressed sympathy of the University with them. We must show them that we have interest in them. Good plays should be applauded. Do not be so ready to criticise. If a player makes an error remember he hates it worse than than you do.

Do not guy the new players. It will discourage them, but from now on let us all stand behind the team and our season will prove a successful one.

Track Team.

Regular practise of the Track Team will begin on March 15th. Already most of the applicants have practised a good deal. They work hard in the gymnasium and many of them take running exercise. This heretofore undeveloped feature of our athletic life is attracting the deserved attention of the students and no doubt, the record of a track team will be pointed to with as much pride as that of a base ball or foot ball team.

Before the Revolution, only nine colleges were in existence in America. There are now nearly 500.

The smallest university in the world is in Africa, having five students and fifteen instructors.

Harvard makes the study of English the only required work in the curriculum.

George Washington was the first person to receive the degree of L. L. D. from Harvard.

The University of Boulogne is the oldest university in the world. It was found in 1119.

Mr. Gales will be in our midst through the coming week, by an invitation from a union of the churches here.

The "Yackety Yack."

The last issue of the Tar Heel was so crowded that there was not the opportunity of announcing the work done on the Annual up to this time.

On Saturday, February 16th, the editors held their first meeting. The Philanthropic Society was represented by Messrs. Ballard, Everett Lewis and Thigpen, Mr. Thigpen being their representative on the Managing Board. For the Managing Board, the Dialectic Society elected Mr. Swift, the other editors being Messrs. F. B. Rankin and Swink. The Fraternities elected as their representative on the Managing Board, Mr. L. Rankin. These gentlemen of the Managing Board then drew for the Editorship in Chief. The place fell to Mr. Swift of the Dialectic Society, the other two members becoming as provided, as Business Managers of equal power.

A Statement.

As there has been a delay in announcing to the college at large the names of the men who are eligible to membership in the Alpha Theta Phi Society, I feel that some statement is due these men.

The present officers had been informed that the constitution and will of the Society had been left with the Bursar. After the meeting was announced for Feb. 19th, it was found that the book was not in Maj. Patterson's office. The officers of last year were written to but no answer has been received.

It will be impossible to conduct the formal invitation without the constitution of the Society. The names of the men eligible for membership are as follows:

Seniors: Palmer Cobb and J. C. B. Ehringhaus.

Juniors: R. N. Duffy, Ivey Lewis, R. R. Williams, D. P. Stern, D. C. Ballard, Reston Stevenson, G. P. Stevens, T. J. Hill, H. M. Robins, and B. S. Drane.

As soon as possible these men will be initiated.

Dorman Thompson, President.

"Yackety Yack."

The Annual board met in Gerrard Hall Saturday afternoon and transacted quite an amount of important business. That of most interest to the University students was the choice of the name; it was decided that our annual shall be the "Yackety-Yack," by a unanimous vote.

The following committees have been appointed:

On size, space, and design—Drane (chairman), Swink, Van Winkle.

On Dedication—Van Winkle (chairman), Rankin, Drane.

On Collegiate Class Statistics—Ballard (chairman), Swink, Gwyn.

On Law Classes—Sapp, (chairman), Van Winkle.

On Medical and Pharmacy Classes, Justice (chairman), Everett.

On Co-Eds. and Graduate Students, Lewis, chairman, Horner, Byrnes.

On the Faculty—Byrnes, chairman, Horner, London.

On Art, Wit, and Fiction—Rankin, L., chairman, Swink, Drane, Sapp, Lewis, Ballard.

On Y. M. C. A., and General College Societies—London, chairman, Rankin, F., Drane.

On the German Club, and Social Organizations—Lewis, chairman, Byrnes, Justice.

On College Publications—Gwyn, chairman, Drane, Everett.

On Athletics—Rankin, F., chairman, Lewis, Gwyn.

On Inter-Collegiate Debates—Short, chairman, Sapp, Van Winkle, W. H. SWIFT, Editor-in-Chief.

Several weeks ago the Secretary and Treasurer of the General Athletic Association sent out letters to many of its young alumni, requesting that they each send a small sum of money, which Dr. Venable has offered to duplicate, for the purpose of making necessary improvements to the Athletic Field. So far only a few have been heard from and we hope any person who has not sent his subscription will do so at an early date. The following have sent subscriptions:

Jas. A. Gwyn, Asheville; H. L. Miller, Columbia, S. C. W. L. Kluttz, Salisbury; H. G. Conner Jr., Wilson; Geo. Stephens, Charlotte; J. O. Carr, Wilmington; J. R. Carr, Baltimore; J. A. Moore, Littleton; J. C. Biggs, Durham; Dr. Chas. R. Turner, Richmond; P. A. Govell, Winston; W. R. Robertson, Charlotte; Alex Stronarch, Raleigh; A. B. Andrews Jr., Raleigh; P. C. Graham, Durham; Ralph Van Lanningham, Atlanta, Ga; F. B. Johnson, Clinton; A. W. Beldew, Birmingham.

Tennis Association.

All interested in Tennis are hereby called to meet in Gerrard Hall Saturday 2. p. m. March 9th to elect officers of Association.

President.

Lecture.

Prof. M. C. S. Noble is scheduled for a Public Lecture in Gerrard Hall on next Thursday night on "The Southern Blockade. Prof. Noble has made a special study of the event of the eventful period and a very interesting lecture may be expected. The people of Chapel Hill are cordially invited.

The faculty of Iowa State College has given to the editor-in-chief on the college paper three hours credit per term and one hour credit to each assistant.—Exchange.

This is a good move and should be followed up by the faculties of all the colleges that issue weeklies. We are sorely in need of some such recognition by the faculty.

The Tar Heel.

BOARD OF EDITORS

Brent S. Drane, Editor-in-Chief.
R. R. Williams, Man. Editor.
B. S. Skinner, Business Manager.
E. D. Sallenger, Ass't Business Manager.

ASSOCIATE EDITORS.

T. L. Gwyn, J. K. Hall.
J. C. B. Ehringhaus, Benj. Bell Jr.

Published every Monday by the General Athletic Association.

Subscription Price, \$1.50 per Year.
Payable IN ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

With such favorable conditions of weather and climate as have been our good fortune for the week or two just past, the baseball season has gotten thoroughly under way. The daily line-up between the Scrubs and Varsity is even thus early beginning to have a real interest for the spectators, other than that afforded merely by the critical inspection of the work of the new men and the spectators are not lacking at the practice. But they—"Ah!" you say, "So the 'kicking' is beginning to come this early, eh?"

No, it isn't. The fact is, about the only good resolution made on New Year's morning that the Tar Heel hasn't forgotten completely, is this one: that it was going to try to shake its reputation as a "kicker." Everybody knows how easy it is to criticize—to suggest how this matter or that is by no means what it ought to be,—to offer one's own pet theory as to the remedy. It is just possible that the zeal of the Tar Heel has led it to extremes in this way on some occasions, and the natural outcome is a reputation for cynicism. This is really undeserved. The error has been of the head, not of the heart. Of course there are now and then some things which ought not to be passed over in silence. Sometimes the Tar Heel can be sure it is delivering the kick of the whole student body as recently in regard to the trouble in the library.

But there can certainly be no kick coming now. The way the crowd out on the Athletic field is sticking up to the team is all that could be desired. The applause which is given the good plays is an exceedingly good sign. It seems to indicate that the crowd realizes that the team, composed of so many comparatively new men, is more or less an unknown quantity, that it therefore needs the encouragement and evidence of confidence in it on the part of the crowd, in order for it to get confidence in itself; and that the crowd means to give that support, instead of indulging in that senseless and disheartening spirit of foreboding which has been accorded some our teams.

It may not be amiss to say here a few words of self congratulation on the good fortune of our team in securing the services of Phil Meade as coach. Though he has been with the team only a few days, the results of his able coaching are already beginning to plainly show in improvement in every department, especially in the batting. There never was a time when, from the character of our material, we needed a good coach worse than this spring. The acquisition of one of such a thorough knowledge of the game, and unusual ability as a player and as an instructor, and at the same time, of a gentleman of such engaging personality, is something in which we may well take pleasure and satisfaction. Under his instruction, and with the backing of the students, we may be confident that the team of 1901 will be in every way up to Carolina's standard.

The services conducted during the past week by Mr. Weston R. Gales without doubt, have been successful. They have been well attended throughout by the young man to whom especially he came to talk, and though the outward professions on their part of renewed acceptance of the great truths which may be presented may have not been many, still it cannot be doubted but that his clear, concise and logical presentation of the claims of our Lord, have made many a man think earnestly, and though quietly, examine himself, and look to his Christian duty with new and stronger purpose.

A Course in Argumentation.

Carolina has been unusually successful in her debates with other institutions. These victories may be attributed to what you will, but it is plain to the close observer that these debates have been won by the undivided energy of the debaters and by this alone. The student body has given practically no support to the debaters—until after the victory has been won, and support by the faculty has been with one exception totally unsystematic. We need improvement.

The three divisions of our debating system are (1) literary societies, (2) scrub debaters, (3) faculty instruction. The literary societies are doing fine work and are improving daily. The system of scrub debates instituted last year was a step in the right direction and these debates are accomplishing much good, it is of number three that the writer wishes to complain.

We need a course in argumentation. There is a course in argumentation offered, English 3, which is a very good thing in its way but owing to the fact that the instructor is overloaded with work this course isn't made to weigh enough. The writer believes that there ought to be a thorough practical course in argumentation offered, that it ought to be open only to those who have proven themselves proficient in debate, and that it ought to be supplemented by a course in such as is now offered by Mr. McKee. The good to be accomplished by such a course is self-evident: it would perfect our debating system in that it would make the efforts of our debaters thoroughly systematic. In

addition to this it would give our debaters the "platform finish" so to be desired, it would afford criticism and instruction adopted for further development. The mount-teers would not labor, as at present, and a "cussing out" come forth.

Let us have such a course by all means. The catalogue will soon be out and let us see in it a course in argumentation. The writer believes that there are three men in the faculty capable above all others of giving such a course: Professor Williams, in that he has made debating a life study; Mr. Graham in that he has had considerable practical experience in debating; Mr. Warshaw in that he has been thoroughly trained in debating at Harvard, where the courses in argumentation are the best in the country. Now, gentlemen, don't tell us that you would like to give us such a course but haven't the time. Please don't be like a friend of mine who, when I asked him if he had enough confidence in me to loan me a dollar, replied that he had the confidence but not the dollar.

Notice.

The Editors of the "Yackety-Yack" solicit contributions, both of a literary nature and of drawings, for its pages. A list of the subjects of the drawings desired will be published in a subsequent issue of the Tar Heel. It is urged that this work be not delayed, but that it be begun immediately.

To encourage effort along this line, the board of Editors offer as a prize a copy of the "Yackety Yack" for the best story submitted, for the best poem submitted, under the following conditions:

Only members of the University may compete for the prizes offered.

All material thus submitted becomes the property of the "Yackety-Yack."

Mr. W. R. Capehearst, '03, has gone home for a few weeks.

WAR! WAR!

Read what H. R. Guthrie has to say to the University students. Five hundred men wanted as soldiers for China and five hundred men wanted to shave at H. R. Guthrie's Shaving Parlor, opposite Chapel Hill Hotel. The Central Barber Shop. Sore necks caused by rough shaving and scalp diseases are cured at Guthrie's Shaving Parlor. \$10.00 reward deposited in any bank for any case of dandruff that can't be cured at Guthrie's Barber Shop. Satisfaction always guaranteed. I am just from Charlotte and have the latest in everything. Special prices by the month. Yours to please. For disposal of second-hand clothes, see me. H. R. GUTHRIE.

Locals.

Mr. J. J. London, '04 left Friday for Washington, D. C. He will stay for the Inauguration Monday.

Miss Bessie Henderson of Salisbury was here a few days last week the guest of her uncle Prof. Wm. Cain.

Mr. W. C. Rodman, ex. '02 has re-entered the University. He is taking law.

W. P. Turner of Greensboro was here a few days this week.

Prof. M. C. S. Noble went to Wilmington Friday, returning Monday afternoon.

Mr. C. B. Coob, '01, made a short visit home this week.

Mr. Chas. L. Van Noppen of Greensboro was on the Hill Thursday and Friday.

Mr. Jas. P. Bunn of Rocky Mount has entered the Law Class.

Mr. Cheshire Nash of Tarboro and J. Webb of Hillsboro were on the Hill Tuesday.

Miss Rosa Battle returned home Monday.

Miss Emma Norwood of St. Mary's School was the guest of Miss Fannie McRae Monday and Tuesday.

Mr. Hollaud Thompson, '95 brother of Mr. Thompson, '01 has been appointed permanent instructor in Political Economy at Columbia he will receive his Ph.D. this year.

Messrs. F. H. Tomilson and Jno. Cagle of Durham were in Chapel Hill Tuesday.

Sam Peace returned Tuesday from a short visit home.

Cole and Holladay the University Photographers have been here all the week taking groups. An unusually large number have been taken. Pictures were made this of all the classes and the Di and Phi Societies.

One of the most enjoyable dances ever given by the S. A. E. Fraternity, was given at their Hall on Monday night February 18th.

Those present were:
Miss Battle with Mr. Whitehead
" Thompson " " A. Berkeley
" Gray " " Andrews
" McRae " " Heard
" Annie Hinsdale Cowles
" Nellie Hinsdale " Thorpe
" Moses " " Rankin
" Busbee " " Gordon
" Gordon " " Calder
" Barbee " " Hutchison
" Snow " " Battle

and Messrs. Stringfield, Huske, Brenizer, Staton, Nickols, Bernard, Ramsey, Kenan, Bell, G. Berkeley, Hanes, A., Hanes, F., Stevenson and Lemly.

Mrs. E. W. Myers was the hostess last Thursday evening at an extremely pleasant little Euchre Party. Those present were Dr. and Mrs. Baskerville, Dr. and Mrs. Mangum, Dr. and Mrs. Pratt, Miss Snow, Mrs. Graves, and Messrs. Ehringhaus, and Cobb, Makely, and Osborne. The prize was won by Mr. Ehringhaus, the booby by Dr. Pratt, The counters unusually pretty, cardboard hearts, very artistically decorated with India ink studies, to which little hearts were attached as the points were scored.

Red-hot from the North is the representative of the Carolina Clothing Co., of Charlotte, who will be at Patterson's Hotel on March 6th, Wednesday, under the auspices of Hutchison and Lewis. His line of samples will be the finest ever seen here. Come and look at the furnishings he will exhibit.

Mr. Frank Bennett, of Wadesboro, was here Saturday and Sunday visiting his son Frank Bennett, Jr.

Part of the Committee from the Legislature came up from Raleigh on Monday. They were Mr. Stephen McIntyre and Mr. B. F. Aycock, Wm. Lindsay and T. E. Whitaker- At 2 o'clock there was a meeting of the student body in the chapel and each made a short address. The rest of the committee composed of Mr. F. M. Shanonhouse, Mr. F. L. Carr, Mr. W. S. Wilson and Mr. G. E. Hood came up on Wednesday.

Notice!

All subscribers are kindly asked once again to send in their Tar Heel dues immediately. This is an important matter and it is hoped that you will give us your support by being prompt.

COMMUNICATIONS.

The Editors welcome all articles of a timely nature for publication in this column, though they do not hold themselves responsible for the sentiments expressed therein.

Junius Jr. Letters, No. III.

It may be tiresome to some of you to see so much of the weekly paper taken up with my remarks but I am a man of unbounded conceit and I will not stop until the Editor-in-Chief shuts down on me for I believe the majority of the students point to my remarks and say "Them is my sentiments."

To-day I want you to follow me into the Library, our dear old Library which is the pride of every true son of this University. But even in this holy of holies the sorry little band of lawless professors have made their way. Worse than the profaners of the sacred square, worse than the "croaker" is the selfish and conceited prig who slips magazines, daily papers and books, or who writes his literary criticism in a scrawling hand on the fly leaf of every book he reads or underscores every profane or obscure passage in many of our not too careful authors.

First in regard to such a criticism as this at the end of a very popular novel "This book ain't what its cracked up to be, it is too long." Think of that my literary friend! Listen to this literary critic! Hark ye, ye magazine editors! Search him out and use him. He is modest, too modest to sign his name but a man who can write a criticism like that promises to be the first among the scholars of your country. Think too of the brilliancy and poetical value of his idea for let every person of sound judgment and good taste, when he has read a book, jot down at the end his opinion of the book. Think what a full commentary that will be! Who, then we'll have the opinion of such a variety of critics' faculty, seniors, co-eds and freshmen. How valuable that for any person who wants to read a book! By simply turning to the fly leaf he can get the consensus of opinion of all classes of people who read. Thanks and honor to you, our critics, you'll all be Walter Pages some day.

But look, my reader, at that criticism which I have cited as a typical example of the thousands of such like which embellish our Library books. Note first. "This book ain't what its cracked up to be." Oh our critic is not bound by the trammels of inherited opinion and popular tradition. He is ready to set at defiance the whole world and if need be, substitute his opinion. There is a ring of freedom.

Exchanges.

Messrs. L. P. Goodrich and W. J. McIntyre were the successful competitors in the contest at the University of Georgia to decide upon Georgia's representatives in the inter-collegiate debate with Carolina.

The report of the first decade of University Extension work recently issued by The American Society, which has its headquarters in Philadelphia, shows that 945 courses of lectures have been delivered to 180,755 persons, the aggregate attend-

ance reaching 1,084,530. It is most gratifying to note that the attendance secured by The American Society exceeds that of Oxford, the most successful of the English Society, by 25,000.

Oh, come where the spirit-lamps brilliantly glow
As the flame o'er the oxides they silently blow;
Where the litmus turns pink and the students turn blue,
As they see H₂SO₄ eat up Cu.
Come then, Oh come, from near and from far,

To get nitrate of silver from Ag. Br.
Oh come with your test-tube, your blow pipe and spoon,
And get Ag. NO₃ bright like the moon.

We'll form a precipitate, make a glass lead—
To red flame we'll ever give heed.
We'll meet you, we'll greet you as never before
With test for Hg. and K₂C₂O₄.
In Biology I.

Though the last going guests their last farewell have said,
The images haunt thee of joys that are dead;
Though the music be silent, thy soul still can hear
The sounds that so lately were caught by the ear.
You may wash, you may lather your hands as you will—
The scent of the dog-fish will cling to them still.

The College of Mexico is the oldest American college, being fifty years older than Harvard.

The first Intercollegiate Camera Contest will be held in Philadelphia and Cambridge next May. The contest will be held between members of the camera clubs of the University of Pennsylvania and Harvard. Invitations have been sent to the camera clubs of Princeton and Yale to participate in the contest, and it is thought that Princeton will accept.

Late Benjamin D. Silliman, of New York City, has left a legacy of \$1000,000 for Yale University.

David K. Gross, an alumnus of Indiana of the class of '87, has founded a school at Starsburg, Germany, for the purpose of preparing German students for entrance into Harvard, Yale and other American Colleges.

At a mass meeting at Vanderbilt recently resolutions were passed denouncing Caspar Whitney's accusations against Vanderbilt athletics in his February Outing as "being grossly libelous and false, made without a shadow of justice or any effort to ascertain their truth."

THE YARBORO HOUSE,

RAEIGH, N. C.

Is almost as widely known as the "City of Oaks." Its equipment, service and table the best that can be provided. Rates \$2, \$2.50 & \$3 per day. Special weekly rates. Coach to and from all trains.

NO. 19

Fort Fisher and the Southern Blockade.

Professor Noble's Fine Lecture.

Among the very highest in the list of the Faculty lectures that have so pleasantly entertained the University, will, there can be no doubt, be placed that delivered under the above title last Thursday evening in Gerrard Hall. Seldom does it fall to our lot to hear one so thoroughly master of so interesting a subject, and, too, so happy in the selection of the matter presented. The lecture was full of interesting anecdotes and of humorous turns wherever humor was consistent. It was of a nature exactly suited to his audience.

Professor Noble began with a modesty entirely out of keeping with the circumstances under which he spoke. "I had thought," he said, "that I had made a mistake in accepting the invitation to address you, young gentlemen, especially when I thought of the others who having preceded me, on subjects broader and more able to please the general audience. Yet, when I remember that a greater part of you are, like me, native after the manner born, I feel that I need make no apology for talking of the deeds of the brave sons of North Carolina. For I hold firm to a theory that patriotism will never die out." Heartily applause assured the speaker that he had not mistaken his audience. "I have another theory," he continued, "and that is, that certain localities were from the beginning of the world more fitted for noble deeds than others—Waterloo, Gettysburg, Manassas. In the same way, I think that this Cape Fear region was selected as the place where events should be enacted that will always arrest the eye of the historian." With a few quick lines Professor Noble drew a map of the State, showing the river of which the Cape Fear is the only one entirely a North Carolina river. "It is very fitting," he continued, that the only distinctly North Carolina valley should be chosen. He told briefly of the many points of historical note along the river, as Moore's Creek, Alamance, and Guilford, of Revolutionary fame. "I could show you here, too, battle fields of the Civil War, but will take up only one."

Fort Fisher was here. In the very early political life of North Carolina before there was a state, an enterprising man from the north came here, and undertook to civilize the gentle natives, and at the same time to raise cattle. How a smart yankee made such a mistake as to try to raise cattle in that country I cannot understand. It did not pay, and he went back where he came from, leaving a sign of warning posted there, advising no one, on pain of death, to land at such a God-forsaken place, that no one could stay there. Over a hun-

dred years afterwards a northern general came to the same conclusion. A court of inquiry agreed that he could not have stayed there any longer than he did.

At the mouth of the river is Smith Island, which got its name as did Smith Hall, our Library, from Governor Smith of this State. It was originally part of the mainland that stretches down in a long tongue between the river and the ocean, but a great storm in 1761 cut a channel through here, New Inlet separating off this island.

When the civil war came on, it was necessary for us to send to foreign countries our wealth of cotton and tobacco, to get in exchange, arms, ammunition, blankets and shoes, and all the things that our soldiers needed. Blockades were established by the federal government at all our ports to prevent these from getting out. Now of the four Southern ports, the most desirable was Wilmington. The Bermudas were no further away than is Asheville, and the trip was easily made in two days. These blockade-runners ran through New Inlet instead of by the larger route and Fort Fisher was built to protect them as they ran in from the pursuit by the blockading-fleet. When Col. Wm. Lambé now living in Norfolk, Va. took charge it was weak and powerless. He worked for months with over a thousand slaves, with other workman, in making Fort Fisher the powerful place that it was. Among the slaves who worked there was one of our great colored citizens, Mr. Benjamin Booth."

A description of the fort was then given. The shape was that of the letter L, the long branch extending along the beach, the short one running from the northern end almost across the peninsula. To the south, along the Inlet, were built several powerful batteries, one by Lieutenant Pitman a University man from Edgecombe County.

"On Monday, Oct 24, 1864, there was great excitement in the fort. It was heard that Porter and Butler were about to attack the post. There were only nine hundred men and the hundred and sixty boys, Junior Reserves, in the fort. There was a saying that 'the Confederacy had to rob the cradle and the grave to keep her armies in the field'. But there was no robbery here. All looked forward gladly, eagerly for the fight. For several days a great storm raged, and the fleet had to keep out at sea. But on the twenty third day of December every thing was gotten ready for the fight which was sure to come the next day. During the afternoon a powder ship was sent in at the fort, and two hundred and fifty tons of powder exploded. Some time after that a long, lank specimen of North Carolina humanity was captured and sharply questioned by Butler as to the of

the explosion. After much treating with tobacco, and many questions, he finally admitted that the explosion 'waked up purty nigh every man in the fort'. Butler was fond of saying that though it was said that he 'borrowed silver spoons and the like' no one ever called him a fool. Right here is where it exploded' said Prof. Noble, pointing to the map.

The twenty fourth was a beautiful, mild day. At sunrise the great fleet got under way, making for the fort in a great crescent. In the center were the great frigates Colorado, Minnesota and Susquehanna, each carrying more ammunition than all the land batteries. When all was ready, there was a flash, a puff of smoke, and a boom, from one of the frigates, and the shot splashed into the river beyond the fort. A gun on the ramparts replied, and the shot carried daylight with it through the funnel of the Susquehanna. Thus began one of the greatest bombardments in the history of warfare.

In vivid language Prof. Noble told the story of the fight—how, when the flag was shot away it was sent to one of the batteries to be raised, but the halyards were tangled, and it was necessary to climb the flag pole to straighten them out, how a brave fellow from Sampson county climbed up, fixed it, as he thought, only to find that there was still a hitch; and how, with every gun in the fleet directed on that flag-staff, he again climbed up and shook out the Bonnie Blue-Flag to the breeze. He told how a landing party came ashore to the north of the fort, was repulsed at the stockade built there, and the first attack was over.

"The second attack was on Christmas day. A storm of shot and shell, 120 to the minute, was hurled against the angle of the fort, battering it down. The landing party again came ashore, without the least opposition from General Bragg, stationed there to keep them off. There were 1900 boys in the fort. A detachment of 2000 marines came along the beach toward the broken down angle. They were forced to retreat with great loss by the gallant little band of Junior Reserves, under a sixteen-year-old Lieutenant. The main body of the attacking army came down along the river. Col. Lamb telegraphed Bragg: "Attack! attack! attack!" Bragg did not attack, why, only one man now alive knows, and he cannot be made to speak of the war. Before the great attacking force the men in the fort gave away, mound after mound, until they at last had to take ship and leave. The fort was lost."

The speaker told most interestingly of the blockade-runners, and their fearless captains and pilots, who knew all the crooked channels as well as the farmer knows the paths on his farms, took the Marie Celeste out for Nassau one dark August

(Continued on 4th page.)

Track Team.

Systematic Practice to Begin on the Fifteenth.

Now that winter is past and the warm spring days are come the candidates for the Track Team will be put into regular and systematic training. The system of training to be employed this year requires that six weeks be given to put the men in the best condition for the coming meets on Southern tracks. This is the time deemed necessary by the leading track men of this country for successful training of track men. Our small experience here with men who have had to leave the track on account of indiscreet practice confirms us in the opinion that the best results may be had by careful and gradual development.

The training is so fine and the liability to overtraining delicate muscles so imminent that great care must be taken to see that no one is overworked at the first. With this point in mind we have decided to use the scheme employed at Yale. This scheme marks out definitely the work for each day during the period of six weeks. The candidates will be divided into squads and trained according to the character of the event which the candidates propose to enter.

All candidates for the track team are expected to meet in the Gymnasium on Friday, March 15th, at five o'clock. It is imperative that the training begin on that day unless the condition of the weather renders it unwise to come out of doors in a thin running suit. In case of cold weather the training will begin indoors and move to the track when the days are warmer.

Besides the thirty or more students who have given in their names as candidates for the team others will be allowed the practice provided that they are out on the first day and are regular in their practice. Irregular workers amount to nothing and are only in the way of others.

Each candidate must be provided with a running suit and a pair of spiked running shoes by March the 15th and present himself for practice with this equipment.

F. M. OSBORNE, Captain.

Soph Class Team.

The plan of the classes getting out a baseball nine appears to be a very excellent one. Most of the classes have organized and elected their managers and captains. Several interesting Scrub games have been played between the classes. The Soph team is a very good one. They have furnished the Varsity practice several afternoons lately. The following is a line-up given us by Captain Ramsey, who says that all positions are yet open and if any others want to play for them to come out and they will be given a chance.

Harvard's best debater, in her late debate with Yale, was a negro, R. C. Bruce, of Mississippi.

Subscription Price, \$1.50 per Year.
Payable IN ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

Notice has been given that regular practise of the Track Team will begin on March 15th. It is strongly urged that everyone able to add to the strength of the team, come out at that time and begin work.

The development of Track Athletics here has been interesting. The start was made about five years ago. The beginnings were successful, in that some excellent material was brought out; but there was no enthusiasm over Track work. Base ball and foot ball stood for sport, to the exclusion of everything else. Track Athletics did not come in their class, was the sentiment. The purely local nature of the contests was probably the explanation of this feeling, as has been suggested before.

It is a significant fact, however that each year has seen both a stronger team and stronger sentiment supporting the team. The track team is now thought of as being equally responsible with the baseball and foot ball teams for the honor of the University, and an organization to which it is an honor to belong. In short the track team is coming to its proper position.

There are many reasons why this spring's team should be the best we have ever had, and there are no many reason why its success should be the best we ever had and why its success should be followed with keener interest than any other we have ever put out. This team will we hope, go into track meets with Colleges who are powerful rivals of ours both in base ball and foot ball. It needs to be a strong one. Carolina needs the very best she has, on the track this Spring. See to it that she gets them.

The Tar Heel has suffered a very great loss by the resignation from the Board of Editors, Mr. Jas. K. Hall. He has for the past two years been on the Board, one of the most earnest workers. It will be hard to find a successor of his ability, his experience and his talent for work of this nature.

Ode to the Brave.

The Seniors late one afternoon
With grave and sedate look
And Sunday clothes and charming
pose

Had their Class Picture took.
All spectators with awe?
O, not a bit! It drew their wit,—
O how they worked their jaw!
The noisiest of that guying gang—
We will not call his name—
With matchless brass and care-
less gass.

He put the rest to shame.
But do the noble Seniors not
Object when he begins?
O not at all! Both great and small
They mostly have dry grins.
But see! At last too personal
He gets! With awful frown,
With accents hoarse, and harsh,
of course,

Brave X doth call him down.
Then boldly forth before the
throng,

He strode, his stern eye flashing
"Tis moved," he said, "and sec-
onded,

That I give that man a thrashing,"
The mighty Seniors rise as one
And pride shows in each eye.
"The Champion of 1901!
Hurrah for him!" they cry.

Then Y, for so we'll call him, did
not hesitate, or stay;

He came ahead and boldly said
"Well, I'll meet you half way."
They fall together, X and Y,
Like windmills fly their arms,
No skill or might enters the fight.
(They both were raised on farms.)

The picture man was horrified
He tried to stop the bout,
But when his hat was mashed
quite flat

He speedily drew out.
Uninterrupted goes the scrap,
But neither hard nor quick,
Y landed none, X only one,
So both begin to kick.

But now it gets monotonous,
Their skill is not admired;
With willing heart they're pulled
apart,

For both were getting tired.
The combatants were satisfied,
Each one had made his bluff,
Each one was pleased to get re-
leased

Before the scrap got rough.
But O, alas, what evil tongues
Are in this world of sin!
They start to guy both X and Y
Till each one bluffs again.

Next morning at the mail they
meet,
X challenges, full soon;
"We'll have it out," he says,
"about

The well this afternoon."

Exchanges.

A bill has been introduced in the Wisconsin Legislature abolishing tuition at the State institutions.

Leland Stanford, Jr., won a debate with the University of California recently.

California has dropped one hundred names of students from the rolls this year for deficiency in scholarship.

Tulane is to have a new dormitory building.

Trouble is brewing at Iowa University over the suspension of ten Sophomores for kidnapping the president of the Freshman class. The Sophs. secured their prey on

the day before the Freshman spread, and left him locked in an old farmhouse for two days.

Seventy-four men last week handed in their names as candidates for the Yale Freshman baseball team. There were seven pitchers, four catchers, thirty-nine outfielders.

Walter Camp has been elected a member of the Yale University Council, which constitutes the cabinet of President Hadley. Mr. Camp will act as athletic advisor.

The first class at West Point is to be graduated ahead of time, so as to give seniority to its members in the army over the officers who will come from the volunteers.

Dartmouth has established a school of administration and finance which is intended to train men for business.

Mr. Hall's Resignation.

The Tar Heel Board met Friday afternoon, to consider the resignation of Mr. J. K. Hall. When it was made clear that he could not reconsider his resignation, it was accepted. Mr. D. M. Swink was elected to fill his place.

Inclement Weather prevents much work.

Base ball practice the past week has been rather irregular on account of the cold weather and rain, but every afternoon possible the men have been out and gotten in some good work. All the applicants have been put on pledges and regular training is now going on.

The playing yet rather loose and lacks briskness, except at times. The base running has improved a little, but must get much better. Some of the infielders are too slow in throwing the ball and they must liven up and leave off fancy playing.

The outfielders are playing good ball and many very pretty and difficult catches have been made.

(Concluded on 3d page.)

WAR! WAR!

Read what H. R. Guthrie has to say to the University students. Five hundred men wanted as soldiers for China and five hundred men wanted to shave at H. R. Guthrie's Shaving Parlor, opposite Chapel Hill Hotel. The Central Barber Shop. Locals.

Jack London, '03 is back after spending several days in Washington.

At a meeting of the Tar Heel Board Friday afternoon, Mr. D. M. Swink was elected to fill the place of J. K. Hall, resigned.

Graham Andrews spent Saturday and Sunday in Raleigh.

Mr. I. F. Harris has accepted a position in the Connecticut Chemical Experiment Station. He left Chapel Hill Tuesday.

C. B. Aycocck, Jr. spent Sunday at home in Raleigh.

Pres. Venable has been gone several days. Dr. Alexander has been acting in his place.

At a recent meeting of the German Club, April 12th, was selected as the date for the Easter German. W. K. Battle was chosen leader.

Mr. E. B. Cobb, '00 who has been at his home in, Wilson, N. C., for several days returned to the Hill Wednesday.

Messrs. J. C. and David H. Webb left Friday afternoon for their weekly visitation, to Hillsboro.

Considerable work has been done this week towards improving the diamond in the new athletic park.

A. M. Carr and J. L. Morehead went to Durham Saturday.

Burke H. Bridgers has been confined to his room for several days with the Grippe.

W. K. Battle has been at home for several days on account of his injured arm.

Several clothing houses have been represented here the past week, among them were, McDowell and Rogers of Winston, Carolina Clothing Company of Charlotte.

Wm. Yearby's branch drug store at Chapel Hill has been greatly improved by a new fountain that was sent over from the large store in Durham.

Stop at Patterson's Hotel and examine the new line of fine shoes sold by Mr. J. H. Coleman representing Burch Gorman Co., of Durham, N. C.

Tulane University, New Orleans, February 12, 1901.

Dear Sir:
The Sixth Annual Track Meet of the S.I.A.A. will take place in this City on Tay 17 and 18.

You are advised of this fact thus early in the season so that you may have ample time to make all arrangements necessary to send a strong team of athletes to compete on those dates.

You will confer a favor upon the Committee by publishing this in your newspaper.

Very truly
"The Committee."

(Continued from 2d page.)

The base runners do not pay enough attention to the signals. They must watch for the signal and be guided by it. Also they are slow in getting off the base, waiting sometimes till the ball is over the plate before starting.

Harrington and Wilcox are getting their arms in good shape and they have been pitching some very

good ball. Battle has been laid up for a few days, but will be out for practice shortly.

Cocke and Graham G. have been unable to come out this week on account of bruises, but they are now alright and are now out regularly.

Captain Holt asks us to urge more players to come out. If any of the 'Varsity or Scrubs are laid up it is impossible to have a practise game, on account of lack of men. This will never do. The 'Varsity must get its practice every afternoon. So beginning this afternoon let more boys go out and offer their services.

Mr. Meade has been coaching the player's and already improvement can be noted.

John McKee ex-'00 was on the Hill a few days last week and he gave some valuable training to the men.

Work has commenced on the improvements to the new athletic field and it will soon be in good condition. The ground has been scraped off level and it gives a hard clay foundation. A layer of sand will be put on it and after this had hardened it will give a very good diamond.

Aeter finishing this work a grand stand will be constructed in ample time for the first game.

COMMUNICATIONS.

The Editors welcome all articles of a timely nature for publication in this column, though they do not hold themselves responsible for the sentiments expressed therein.

Argumentation.

I hesitate to write anything when I find that well meaning persons make so many mistakes. I venture to suggest that the writer of the article in last week's paper on a Course in Argumentation might have started with the facts as the young debater is expected to do. A member of the class in Essays and Orations has, I suppose, the privilege of reporting his experience. Mine is this: I have had to recite for a month on a clear strong book on the Art of Debate with explanation accompanying it from the teacher. Two weeks ago written work was assigned on Brief or Outline, on Burden of Proof, and Methods of Proof, and each member of the class was required to apply the book and the lectures to one of the subjects of debate that are of special concern to us now. These are to be reviewed by the teacher and then discussed privately in special conferences to which a period is given each week the class being divided into sections for that purpose. The teacher has announced that only one half the class attend these conferences and thus fail to carry out his method. I have written out my work carefully, and it has been duly reviewed, I have attended my conference and have received two hours of special discussion and direction. I have been required to rehandle my material, add to it matter that will show my acquaintance with the art of refutation and rejoinder, and am to receive special instruction on structure and style and then write again. Meantime the subject has been discussed in society, as well as privately with the teacher, and he has directed me as to the art of using all my material flexibly, and with an eye to extemporaneous interruption and readjustment. After all this I am to report myself to Mr. McKee for the art of delivery and outward expression, and for all platform drill. This is regular class work. I have serious need of this minute instruction, and shall feel that I have been put through a systematic course in argumentation. In addition to this there are the scrub debaters and the teacher's repeated careful criticisms for our special debaters. All these debaters will testify to the skill and faithfulness with which they have been treated. It is true the teacher is hard worked but he brings to his labor that skill and ability and sympathy that comes from years of experience. If "01" and some others would do their work as outlined above, they would not only lighten the teacher's work, but would be greatly benefitted and wake up to the fact that we have a very superior course in argumentation. This course is open to all who will join the class and comply with the requirements. What then shall we say of the intelligence and justness of the afore mentioned article? What shall we say of the taste and sentiment which urges an undergraduate to offer criticisms and make suggestions that have no facts to sustain them, and even if they had might better come with some degree of modest reserve?

'01 too.

(Continued from 1st page.)

night. He slipped silently past the fort and safely through the blockade, and reached Nassau without mishap. But he had escaped one great danger only to run into a greater. Yellow fever raged in Nassau. Anderson caught the disease, and as land was sighted he was about to die,—the only man able to pilot the ship in. Day broke just as the steamer came opposite the inlet: a blockading vessel saw her and gave chase, firing from time to time.

By this time Anderson lay dying in his berth below. He knew what the firing meant—that they were at shore and in great danger. He also knew that he was dying, and had no interest in the world's affairs. But the sense of duty was strong in death. He demanded to be taken to the pilot-house. Two sailors carried him there and held him up. Calmly the dying man directed the course of the ship through the tortuous channel. When they were half over the bar the blockade gave up the chase. Anderson's head dropped forward, and the last terrible symptom of the disease appeared. Still he gave his commands. At last the Marie Celeste glided into still water and came to anchor. With the last rattle of the chain, John William Anderson's spirit escaped, and another name was added to that fair list of North Carolina heroes. Does not your heart burn at the recital of such stories as this? Patriotism cannot die, with such deeds as this to be thought of. That is why we are ever ready to cheer the Stars and Stripes, whether they wave over Porto Rico, the Philippines, or Memorial Hall.

Subjects for Drawings.

The Yackety-Yack desires the following drawings, as stated in last week's Tar Heel:

Full-page drawings—Cover design (name place); frontispiece, editors, athletics, general societies, fraternities, literary societies (representing some phase of society work), advertisements, the end.

Headings for Law School, Medical School, Pharmacy School, each of the college classes, Co-Eds, Y. M. C. A., Shakspeare Club, Historical Society, Elisha Mitchell Scientific Society, German Club, Inter-Collegiate Debates, College Publications (Magazine, Record, Tar Heel, Yackety Yack), Grinds.

Tail pieces, Miscellaneous subjects.

This list may be increased as the work proceeds. Subjects will be announced in these columns.

The Drawings should be in ink, on regular drawing paper.

THE YARBORO HOUSE, RAEIGH, N. C.

Is almost as widely known as the "City of Oaks." Its equipment, service and table the best that can be provided. Rates \$2, \$2.50 & \$3 per day. Special weekly rates. Coach to and from all trains.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

Vol. 9.

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., March 18, 1901.

NO. 20

Calendar for the Week.

Chapel service every morning at 8:30 conducted by Mr. Watson.

Monday—Baseball practice at 4:30 o'clock; Track team practice at 5 o'clock; Historical Society at 7:30 o'clock.

Tuesday—Y. M. C. A. devotional services lasting 30 minutes. Gerrard Hall at 7:15 o'clock; Baseball practice at 4:30 o'clock.

Wednesday—Baseball practice at 4:30 o'clock; Track team practice at 5 o'clock.

Thursday—Baseball practice at 4:30; Track team practice at 5 o'clock; Y. M. C. A. short prayer service lasting 15 minutes in the Association room at 7:15 o'clock.

Friday—Baseball practice at 4:30 o'clock; Track team practice at 5 o'clock.

Saturday—English III. conference, Section (3), at 11:35 in English room; Baseball practice at 4:30; Track team practice at 5 o'clock.

Friday night the Managers of the different class teams met and arranged a schedule of games. The Law class was represented by Mr. Spears Reynolds, the Med by W. G. Everhart, the Soph by J. L. Morehead, and the Fresh by S. T. Peace.

The following is the schedule so far as completed.

March 23d	Sophs	vs.	Fresh
" 30th	Law	"	Meds
April 3d	Sophs	"	Meds
" 2th	Law	"	Fresh
" 8th	Fresh	"	Meds
" 13th	Sophs	"	Law
" 20th	Fresh	"	Sophs
" 23d	Law	"	Meds
" 27th	Med	"	Sophs
" 30th	Law	"	Fresh
May 7th	Fresh	"	Med
" 11th	Sophs	"	Law

The college championship is to be held by the team that wins the largest per cent. of these games. The class teams are better organized this year than they have been for some time and it is to be hoped that the college will give them the proper support and take the proper interest in these games.

The Catalogue.

The new Catalogue will be out toward the latter part of this week. This is much earlier than usual. Dr. Linscott who has had charge of its publication is to be congratulated on his excellent management of it.

Notice.

At a meeting of the Board of Editors Saturday, it was decided to make this proposition to the student body in order to secure ads. for the "Yackety Yack."

Any one in the University who will secure advertisements for the "Yackety Yack" will be allowed 10 per cent. discount on the same, provided they are not of a Chapel Hill firm and did not appear in last year's Hellenian. Advertising rates are \$25.00 per page, \$13.00 per half page net. All advertisements should be handed to the Business Managers.

Annual Debate.

The Annual debate between the two societies took place in Gerrard Hall Friday evening. The question was, "Resolved: That the fifteenth amendment to our National Constitution should be repealed."

The first speech was made by Mr. H. H. Short of the Phi who spoke in substance as follows:

Importance of the problem to the South could be solved only by developing him industrially and not politically. Elimination from politics does not mean elimination from citizenship. The relation of the two races must be that of protector and ward, not equality, if the south is to succeed.

The negro is not fit to vote. He is ignorant and his ignorance incapacitates him from voting intelligently or independently. Easily led by prejudice. Votes always in a solid mass totally irrespective of principle. Negroes are 12 per cent of population and 3 per cent of criminals. Bad voter means bad government and bad laws. By their fruits ye shall know them. Sketch of negro rule during reconstruction and their rule in this state show unfitness and lack of improvement part of negro. Negro can not reach in four generations the capacity it took the white race 5000 years to reach.

Trend of history shows the unfitness of the negro. Conditions in Africa today and 5000 years ago. Modern history shows its failure in Hayti and Jamaica. Negro suffrage was forced upon the South against the wishes of its best people. Not an outcome of the war, for Lincoln said he was not in favor of Negro suffrage. No need for it at the time President Johnson disapproved of it in his message. Was passed to perpetuate the Republican party and has been a farce at that. Necessary for the business interests of the South for it would assure good government which would induce capital and immigration. Assure State credit. Necessary for negro interests, for would remove racial antagonism which is bound to work negro harm. Leaders of two races say his future lies in industry, not politics. The amendment is evaded now by state amendments which have a bad moral effect tending to lesson respect for the constitution as a whole.

To try to make the races equal is to try to overrule God's will. The government admits the failure of negro suffrage, for in giving a government to Hawaii it disfranchised nearly every negro. Negro suffrage has proven a failure and if we want prosperity in the South the repeal of the amendment must come.

The first gentleman who spoke for the Negative was Mr. R. A. Merritt of the Di. He said: The purpose of the Amendment was to establish a uniform standard of suffrage. The manner of adoption has nothing to do with the question of repeal, for the negro has really

bettered his conditions by the white man's help, and by his own industry. Such men as Vance and H. W. Grady had confidence in the negroes capacity for bettering his condition. The negro submitted to slavery when it was thrust upon him and has been loyal to our government in all of our wars, and faithful to his conception of duty. There are really some worthy negroes in every town and scattered throughout our country. Booker Washington is one such example. His work and his plans are object lessons of the possibilities of the race. Negroes are citizens and held subject to laws. To tax the worthy negroes and deny them suffrage merely on account of race is unamerican, hence a purely race qualification is unjust, because the best element of negroes are more fit to vote than the worst element of the white race.

Nothing can really be gained by this repeal, but much may be lost, for it would cause discontent of the better class of negroes,—destroy their attachment to our institutions and would reduce our representation in Congress. It is true that many negroes are unfit to vote, but State amendments answer the purpose by taking away suffrage from all such, not because they are negroes, but on grounds of personal incompetency. There State regulation of suffrage is secured in essential ways while the national guarantee only protects the rights of the worthy class better than the states might be able to do. For all these reasons it is dangerous to change our constitution upon which our liberty and progress depend.

The next speaker was Mr. J. E. Avent of the Phi society.

The negro question originated at a time when every circumstance aggravated its difficulties of solution. But the South having solved all the questions arising from the Civil war, has the capacity to solve the Negro question. Public sentiment at the South is against universal negro suffrage. Various ways are used to exclude the negro from suffrage. Therefore the negro's actual political status and his constitutional status are not the same. These must be reconciled in order to establish the relations of the races on a basis of orderly government. To do this either the public sentiment at South must be removed, or the Fifteenth Amendment must be repealed. But Southern sentiment cannot be changed. Therefore the Fifteenth Amendment should be repealed. Suffrage should be left to the States altogether. The States can enforce its laws on the subject, the Federal Government cannot; because Amendments to State constitutions are being frequently adopted to evade the Fifteenth Amendment. They are not likely to prove to be the final and lasting solution of the question. They are not commendable because their object is to evade the Federal constitution.

(Continued on last page.)

Shakespeare Club.

The Shakespeare Club held its meeting for March in the Chapel on Monday night. The meeting was called to order by the president, Dr. Hume.

It was announced that circumstances prevented Mr. Rankin from reading his paper at his meeting as expected, but he would do so at the next.

The first paper of the evening was read by Mr. F. M. Osborne, the subject being: "Sidney, Lover or Poet?"

The paper was a study of the group of sonnets by Sidney, entitled "Astrophel and Stella." The question is this—Did Sidney 'with this key unlock his heart' and pour out his personal feeling and experience or are the sonnets simply the product of a poets fancy and the lively imaginings of this intense chevalier-poet? After showing that the first view is held by many good authorities the speaker presented a condensed form of the argument for the other side given in "A History of English Poetry," by Courthope. Courthope says that the theory that the sonnets are personal and biographical is opposed by (1) historical facts in the life of Sidney, (2) the character of Sidney, which was such as would not allow the supposed relation to Lady Rich, and (3) the conventional character of the sonnets. The only touch of personality to be seen is found when we look at the sonnets as the assertion of the chivalrous tradition of Petrarch against the Euphuists of his day and as the outpourings of the spirit of the brave chevalier, who poured out his life in a brilliant victory and a glorious death in behalf of freedom in the Low Countries.

Dr. Hume then read a paper on Sidney's Influence on English Prose Romance. The lecture was a carefully considered discussion of Sir Philip's hereditary personality, experience as a courtier and knight, with high ideals as a scholar and gentleman, with the purpose of showing how all these contributed to produce the Arcadia, the first original prose novel in English. How this affected the Shakesperian drama was also indicated by interesting examples and commentary. As a classicalist Sidney knew how to use his Greek pastorals, his Virgil, his Plato, his Ovid. As a cultured Elizabethan he used his Aristotle, his Italian landscapes, his complex love-plots from Spanish romances. The English Protestant must color all his store of learning with his Christian philosophy of life. The Hamlet-like soul of Sidney must communicate somewhat of his own speculative, sensitive, idealism to what he wrote. The soldier friend of Raleigh, fit for deeds of high emprise, by Elizabeth's moodiness confined in the pent-up Utica of intriguing politics, took such solace as he could in combining the different

Payable IN ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

On Monday the first game of base ball for this season will be played against Lafayette College and another game will be played against the same team on Tuesday. The admission to each game will be 50 cents and it is only right that every student in college should turn out and help the boys on. The game will be played on the new athletic field, which is already a better field than the old one. The diamond is very hard and fast and the outfield is in good condition. The Varsity has been practising on this field for the past few days and they are now pretty well accustomed to it.

The practice during the past week has been very helpful and shows decided improvement in all the players. The men have livened up considerably and the base running and batting have improved a great deal. The infield and outfield is strong and the battery work is good. Captain Gaaves returned last week and he has greatly livened up the players. Pendleton who was playing catch has gone to the field and is playing nice ball. Will Carr has been put at short and with a little more practice will make a fine infielder and Smathers who has been placed at third will improve with practice. No other changes have been made and all the old men show decided improvement. Geo. Graham has been laid up with injuries for the past week and he will not be able to play again before next week. The men are becoming accustomed to signals and show their benefits. Coach Meade is rendering great service in his constant criticism and instruction. The prospects now are decidedly bright and there is no reason why Carolina should not have a successful season and winning nine, but it all does not depend on the players, the college boys must root for the boys and show them that the college is behind them. The Chief Cheerleader and his Subs will be out and lead in the yelling, but remember they can not do it all and everybody must help.

The following is a correct schedule of the games to be played:

Lafayette College, March 25th, Chapel Hill.

Lafayette, March 26th, Chapel Hill.

Raleigh B. B. Team, March 30th, Raleigh.

Raleigh B. B. Team, April 2nd, Raleigh.

Clemson College, April 6th, Charlotte.

Lehigh University, April 8th, Winston.

Lehigh University, April 9th, Chapel Hill.

Cornell University, April 15th, Chapel Hill.

University of Virginia, April 20th, Charlottesville, Va.

University of Georgia, April 26th, Chapel Hill.

University of Georgia, April 27th, Chapel Hill.

University of Maryland, May 4th, Chapel Hill.

University of Maryland, May 6th, Chapel Hill.

University of Georgia, May 9th, Athens, Ga.

Georgia Technological Ins., May 10th, Atlanta, Ga.

University of Georgia, May 11th, Atlanta, Ga.

It will not be many weeks before our games begin, and the chief cheerer and his force will have to begin their inspiring work. It may be that now is a good time to say a few things on the subject of our cheering.

It would be a very easy thing for our cheering to be better than it is. The only trouble at present is a lack of concerted practice. Almost every man in college knows all the yells, but there is a big difference between knowing how to repeat a yell, and knowing how to give it in unison with a crowd. As matters stand at present, when the chief cheerer calls for a yell, there is never any failure to respond on the part of the crowd generally; still, all do not respond. Some stay out from lack of confidence. Then the lack of perfection in the first effort or two, scares out most of those who have a kind of sneaking idea that they "busted" on the one just given.

This state of affairs can easily be improved upon. It would be the easiest thing in the world almost any evening, in the loafing hour right after supper, to have a mass meeting; not a semi-formal affair in the Chapel, with speeches, and all that, but just a crowd to yell, out of doors, around the well, for instance.

Two or three such natural rehearsals as that, by full crowds, would make a very decided improvement in our cheering. It would then be possible to give our teams a "Yackety Yack!" or a "Boom Rah Ray!" with deep volume from several hundred throats, instead of the rather weak and disconnected yells given last fall.

It is suggested that the chief cheerer appoint his assistants thus early in the season, and that they get seriously to work in accustoming crowds to be led in concerted cheering, so that by the first game, our cheering may be, what every man in college wishes to see it, something that we can take pride and pleasure in.

In another column will be seen the

card of the Business Manager. We must beg that all who have not yet paid their subscriptions do so as soon as possible, as the money is positively needed.

With this issue begins an institution which we hope will be of practical service to all our college readers—the calendar, which we hope to publish regularly. The desire is to publish here everything in the way of announcements, such as those which are posted on the bulletin boards. Meetings of all kinds—mass meetings, German Club meetings, Scientific Society meetings, Y. M. C. A. meetings; all lectures, and entertainments of like nature; and announcements by members of the faculty to their classes, such as the dates of specials,—all these things are examples of the kind of material we desire to include. Several members of the faculty have already expressed their hearty approval of the plan, and offered their assistance. It is hoped that the members of the University will follow their example, both faculty and students, and at all times make use of its column. Properly carried out, it should be one of the most valuable features of the paper.

Track Team.

About thirty candidates reported to Captain Osborne on Friday for track team work. They started immediately with regular training. This training will consist of special work in the Gymnasium and on the track. The men will be trained under the direction of Mr. Weeks, the gymnasium instructor, who will use the methods in vogue at all the universities. The men have been divided into different groups, according to what class of work they are to do, with a captain over each group who is to have direct control of their training.

The out-door practice started on Saturday and will now continue as long as the weather permits. The prospects are exceedingly bright and many more candidates will report in the next few days.

Locals.

Mr. A. H. Jones, '04 is now at Highland Falls, New York, preparing for West Point.

Ivey Lewis went home for a short visit last week.

Marvin Carr went to Durham Saturday morning.

Mr. Ed. Wood of Raleigh was on the Hill a few days last week.

Messrs. Fred Tarber, Nat Allen and Roy Taylor were over from Trinity Saturday.

The Dancing School began Tuesday. The floor at Commons Hall has been secured and a large number of students are taking lessons. Prof. A. Belleza of Norfolk, Va. is again in charge.

Mr. Wm. W. Smith, President of the Randolph Macon System of Virginia was here March 15th.

Dr. Sheiler Mathews of the University of Chicago made the University a short visit last week.

Burton Smith '04 returned Saturday from Raleigh where he has been for several days having his eyes treated.

The appropriation for the University has been increased \$12,500.

Prof. A. W. Mangum came over from Mebane on Friday. He has turned Saturday morning.

It has been requested that the following notice be published in the Tar Heel:

An N. C. Sweater, or the price of one, will be given to the man who holds the highest batting average at the end of the season. Batting to be counted from the first scheduled game.

Elisha Mitchell Scientific Society.

The meeting of the Elisha Mitchell Scientific Society on Tuesday evening, March 12th, was up to the usual high standing in scientific work, and the program was carried out, save for the paper to be read by Mr. Collier Cobb, who was absent, to the interest and good of all present.

Mr. E. V. Howell in his paper on "A True Antidote for Corbolic Acid" made reference to some new and accidental experiments with carbolic acid. Several years ago a man attempted to commit suicide by taking carbolic acid, and afterwards got drunk, and instead of the carbolic acid acting and having the desired effect, the man got well. Experiments also demonstrated that carbolic acid being put on the face and then to throw alcohol on the face would remove the blemishes caused by the acid, and the conclusion reached was that alcohol removes the caustic effect caused by carbolic acid.

Dr. Whitehead in his paper on "Yellow Fever and Mosquitos" read some reports of the investigations of the government at the Marine hospital in Cuba. They were seeking to discover how the disease spread from one to another, and the conclusions reached, were that the Yellow Fever was carried by, and the germ deposited by the mosquitos biting the inhabitants exposed. Experiments and their investigations proved that Yellow fever was not communicated by means of

clothing, &c., as the test was made for a man to sleep for twenty days in a bed occupied by yellow fever patients, and the disease was not communicated to this person.

Dr. Baskerville gave some interesting statistics, and stated the condition of affairs in his paper on "The World's Production of Iron and Steel." In 1800 the output of steel in the United States was next to the smallest of the powers, while at present she is furnishing 30 per cent. of the entire output of the world! Seventy per cent. of the total amount of pig iron in the United States is converted into steel giving the Americans the reputation of making the greatest quantity and best grade of steel. What is this to? Dr. Baskerville said that the application of science to practice was more pronounced in the iron and steel industry in the United States than in any other country, giving the results the Americans are proud to claim. The means for doing this are due to the concentration of capital. The corporation spending millions of dollars on an experiment, where the private firm would not spend a hundred dollars.

(Annual Debate concluded from 1st page.)

The negro views the Fifteenth Amendment as a great charter of rights to him. But this is a delusion and he is a loser and not a gainer by being a voter. Citizenship does not always carry with it the right to vote. But Government owes every man protection. Suffrage is not a natural right. It is a political right. It is a state gift.

The relations between the races are not at all satisfactory. This Amendment is ineffective for the purpose for which it was adopted. Hence it is practically nullified. We have three fundamental definite propositions:

(1) This constitutional provision cannot be enforced.

(2) No constitutional provision can be enforced against a practically unanimous resistance of its inhabitants.

(3) The most effective and most acceptable agency by which either law or constitution can be put into operation is the State. Suffrage originally was within State control altogether. If suffrage were restored to the States the Solid South would be less solid and the negro's every right would be protected.

The last speech of the evening was made by Mr. N. R. Blackburn of the Di.

The Fifteenth Amendment involves the principle of class distinction applied to suffrage. Class favoritism of one kind and another was the great curse of early times. The progress of liberty came to be a struggle to abolish all sorts of class discrimination as far as possible. The abolition of class distinction in suffrage was but a logical and inevitable step in the progress of democracy. This principle has been unpopular in the South, not because of any error in the principle itself, but because of the unhappy circumstances attending its establishment. The true principle was misunderstood, and misapplied at first. Now it is a rightly understood, restriction based on fitness is becoming general. This a broad principle. All races are protected. It would be possible to disfranchise the white race in some states, if it were not for the Amendment. The true application of this principle to the negroes is just, because some are capable and many others may become so. The negro constitutes a large part of our population and is taxed. A fairer test must be made before negro suffrage is pronounced an absolute failure. The negro possesses all the mental, moral, and physical qualities of the human race in general, and these may be developed. If a weaker race is discriminated against it will crush them, and cause the stronger race to become tyrannical, and all rights will be in danger. Thus this repeal would alter the character of all races and threaten the existence of all our institutions.

Each gentleman came on rejoinder and attacked the point of his opponents. The judges then retired. After much consultation they finally rendered their decision in favor of the Negative.

Mr. W. K. Battle has returned to the Hill.

(Concluded from 1st page.)

types of fiction already developed,—the romance of chivalry, the pastoral, the love intrigue, the didactic narrative, into one artistic whole, the Arcadia. Shakspeare's Arden and its lovers, his "King Lear" subplot of Gloster and his sons, his disguised Viola, Rosalind, Perdita, all his women who count the world well lost for love, were suggested by this elaborate novel. Its style affected the English sentence and figurative language and the construction of stories. Its dialogue and spirit satisfied the earnest ethical side of English character.

The third and last paper of the evening was read by Mr. Ehringhaus on "Ben Jonson's Type Comedy, (The Alchemist)".

After showing the peculiar fitness of Ben Jonson to write comedies he traced briefly an outline of the plot of the "Alchemist."

"This," he said, "is a social satire intended to attack that weakness in human nature which makes men ever ready to be duped; a satire in which our author attempts to show man his folly by portraying a series of situations in which men allow themselves to be deceived, cheated, apparently with their eyes wide open; the recklessness and utter lack of thought being so apparent as to make the whole ridiculous."

He then compared the style and treatment of Jonson with that of Shakespeare. In style Jonson was the precise logician, Shakespeare the easy naturalist. Jonson characters, are all labelled with names indicative of their nature just as the characters in the old plays were distinguished by masks. They stand out, not as human beings, but as personifications, as imbediments of all the feelings and passions which go to make up a type and for this reason the "Alchemist" is called type-comedy. On the other hand Shakespeare endows his characters with such a strong personality that instinctively we feel as if they were real men and women.

Jonson's Puritans in the Alchemist were compared with Shakespeare's Malvolio in "Twelfth-Night." The paper ended with a discussion as to Jonson's place among English poets. The meeting then adjourned.

The Vanderbilt Glee Club scored a big hit at Nashville and is said to be the finest in the south. It is making its eighth annual tour under the direction of Mr. Arthur Phillips of Boston and will go as far as De Funiak Springs, where an engagement at the winter Chautauqua has been booked.

THE YARBORO HOUSE,

NO. 21

Carolina vs. Lafayette.

The First Game of Base Ball Was Played Today.

The first game of base ball for this season was played yesterday afternoon on the New Athletic Field and when the game was called in the middle of the fifth inning, with the score 2-2.

The playing was pretty from the beginning and would no doubt have been a close struggle. Carolina was ahead up to the fifth inning when on error Lafayette succeeded in crossing home plate twice. Before that Lafayette had not reached second. Cunningham's pitching was the feature of the game, as was Carr's excellent work at short and Pendleton's fielding. For the visitors the feature was a triple play in the third inning.

The weather all day was very sultry and cloudy, but rain did not begin till the end of the fifth inning and after waiting a reasonable time the game was called off, with the score not counting for either. The second game will be played tomorrow afternoon and a large crowd should turn out to see it. The crowd was inexcusably small. With this kind of support the team surely can't think that they have the confidence and backing of the student body.

The synopsis is as follows:

Game called 3:20. Lafayette goes in field and Carolina at bat.

Carr gets base—on balls.

Graham bunts and reaches first and Carr goes to second. Graves strikes out. Carr caught out between second and third, being forced off by Graham. Holt hits to third and thrown out.

Wright hits to Cunningham and thrown out at first. Currier flies out to Pendleton who makes a pretty catch. Bell hits to second and thrown out.

SECOND INNING.

Pendleton gets hit and takes first, then steals second. Donnelly hits to short and thrown out at first, while Pendleton advances to third, Cunningham flies out to left and Pendleton thrown out at home.

Chalmers hits to pitch and thrown out at first. Howard gets base on balls. Launt strikes out. Erust flies out to centre and side retired without score.

THIRD INNING.

Smathers makes hit to left and goes to second on hit of Cocke to same place. Carr bunts to pitcher and Cocke thrown out at first and Smathers thrown out on triple play.

Van Atta strikes out. Pritchard flies out to Carr on short. Wright hit by pitched ball and goes to first, then steals second. Currier hits grounder to Cunningham and thrown out at first, while Wright dies on second.

FOURTH INNING.

Graham hits to third and reaches

first on error of first baseman. Graves makes hit to right and Graham reaches third. Graves steals second. Holt flies out to centre, but Graham scores at home and Graves reaches third. Pendleton sacrifices and Graves scores. Donnelly hits to left and Currier makes pretty catch.

Bell hits through pitch to Carr who makes quick throw to first and catches him. Chalmers hits grounder to Carr who throws him out. Howard gets another base on balls, and then is thrown out at second.

FIFTH INNING.

Cunningham hits to first and is thrown out. Smathers hits to pitch and is thrown out. Cocke hits to pitch and retires the side by being thrown out.

Launt gets base on balls. Erust makes hit over second and gets two bases. Van Atta flies out to Pendleton and Launt scores at home. (Time called on account of rain). Pritchard flies out to Pendleton and Erust scores. Wright at bat when time called on account of heavy rain.

Y. M. C. A. Delegates.

At the Young Men's Christian Association Convention recently held in Wilmington, the following gentlemen were present as delegates representing the University, Messrs. Hill, Ivie, Woodard, McNeely and Newton, all of whom with the exception of Mr. Woodard returned yesterday. The Y. M. C. A. gave them a hearty welcome on their return and had a few brief remarks from each delegate at their last meeting. The greatest joke fell upon Mr. Hill, as one of his friends said he was the only gentleman there when the ladies held their meeting.

Base Ball.

Practice Games and General Criticism.

The practice the past week has been held on the new Athletic Field which makes an excellent ground. The diamond is very hard and fast and the outfield is in good condition. The Varsity and Scrubs have lined up every afternoon and decided improvement is noticed in the playing. Graham is out again trying for third, after having been indisposed for two weeks. Cunningham has been put in the box during the week and he is a decided acquisition to the pitching force. He throws a very swift ball and has good curves. He should use his head more and not use such a winding-up delivery, especially when there is any one on bases.

Battle has been out and thrown a few balls. His arm is greatly improved and no doubt will be entirely well in a short time. Smathers at third is playing good ball and has made some very nice stops. Graves and Carr have both done much better work at short than heretofore. Cocke and Holt are playing their old steady games. The outfielding continues good, in fact the fielding of the whole team is decidedly better now than it has been. The men are generally very active and quick, but every bit of lazy and slovenly playing must be stopped, and no fancy work indulged in. The batting is improved some, but there is much room for more improvement. Batting practice is held every afternoon, before the game, and no doubt this will get better. The base-running is pretty good, but sometimes faulty. Every man, time he hits a ball, either grounder or fly-ball, to infield or outfield, should run as hard and fast as possible to the base, instead of taking it for granted that the ball will be caught, because it is not always caught. More attention should be paid the signs and the players should follow explicitly any special directions given them by the coach. More head-work should be used in running bases and the players must start off more quickly and not slow up just before getting to a base. The weeks practice shows good improvement in the fielding, batting still weak, base-running better, but faulty and a tendency noticed to do lazy work and loaf. All of these faults must be corrected and any others that the players themselves are aware of. Next week's Tar Heel will contain a synopsis account of the Lafayette games.

Historical Society.

The meeting of the Historical Society last Tuesday evening was quite an interesting one. Well prepared papers were read by Messrs. N. R. Blackman and G. V. Roberts, and some very interesting matter by the President, Dr. Battle.

Mr. Blackman's paper was entitled "A Chapter from the History

of Prices." We print an abstract of it.

"It is of especial interest to look into the retail trade of a hundred years ago, and follow the changes in prices, and in the articles consumed, and to investigate the causes and follow these changes and their causes down to the present time. This will give us information that cannot be gotten from any one book, and the subject constitutes an humble, but important branch of our history, greater in significance than many of the political matters that receive so much attention.

This shows us what the average private citizen bought and used, and in what quantity and what price. It shows us what the real cost of living in those years was. It enables us to compare the cost of living in the past, the variations in the prices of any one article, the variations in the purchasing of wages money, and helps us in a very striking way to compare our own times with the past in a personal way.

Upon the whole the general tendency for a hundred years has been to lower prices. Almost without exception the real necessities of life are cheaper now than ever before. Fluctuations have occurred, but the general tendency has been to cheapen the cost of living.

North Carolina has undergone many changes in a hundred years. A hundred years ago we had only half a million people. Now we have almost two million. Then there were no large communities, and very little communication between them. At first North Carolina was strictly an agricultural State, and the the plantation system prevailed extensively. Each plantation was almost a complete little community in itself. Even the class that did not own slaves depended but little on the outside world, as all sorts of home supplies were produced. This was more or less the outcome of necessity, as transportation was expensive. When railroads were introduced, however, a great change took place in the nature and amounts of things bought."

Mr. Blackman then followed the great market fluctuations, as influenced by wars, panics, and the like, from 1700 up to the present time. He read a list of prices of different articles in general use in 1812, 1832, 1841, and 1858, then during the Civil War, when there was almost no supply, and prices were enormous. The lowest point in prices reached was about the time of the panic in 1893.

"Some people tell us," he concluded, "that at the present time wants have been multiplied without a corresponding increase in means to satisfy them, and that the general tendency is for people to live beyond their means. Be this as it may, one thing is certain—the purchasing power of a dollar in the real necessities of life is greater now than it has ever been in the so-called good old days of the past."

The next paper was read by Mr.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

The practice of the Track Team has continued very regularly and satisfactorily during the past week. Several more candidates reported for work and all are being put through a systematic course of training.

Mr. Weeks furnishes us the following criticism:

There are a few points to be criticised in the work of the track team, particularly among the new men. The new men do not give enough attention to the command "go" after "get set." The mind should be concentrated upon that order, which when given should be immediately obeyed. A half second delay in the 100 or 200 yd. dash means half a rod loss. Also on the other hand care must be taken not to anticipate the command, for if any part of the body touches ground in front of the mark before the command is given, it means a set back of 1 yd. on the 100 yd. and 2 yds. on the 220 yd. dash.

Let the men in the 100 yd. and 220 yd. dash keep their eyes upon the finish and keep up full speed to the end, and not slowing up when near the finish. If these suggestions are followed much time will be saved and better work done.

Every Friday there will be a vigorous drill in the gymnasium, and if it makes any body sore it is a sure sign that the one afflicted needs to take more of that kind of work.

During this week, the officers of the Tennis Club will be at work effecting a working organization of our tennis players. The Club has a reason for its existence this year, the purpose of bringing out Carolina's representative tennis team, and it is our interest to help the success of their effort.

An opportunity is afforded us to give tennis the rank it had here some years ago,—to have an inter-collegiate tournament. A proposition has been made us by the Athletic Association of a Southern College, that our tennis teams play a tournament here on the occasion of their baseball game with us. The Athletic Advisory Board think well

of the idea, and would be pleased to see the plan carried into execution. We can easily get out a strong team if the matter is taken up at once, as there are quite a member of individually strong players in the University.

It is desirable that a tournament be held as soon as practicable to determine our best players, and that our teams in doubles thus selected then get as much practice in team work as time allows.

Some comment has been made on the failure of the Tar Heel's exchanges to be put in the Library. Various reasons caused the discontinuance of that custom last fall, but as interest in them has been expressed, the Exchange Editor will see that they are sent there.

(Concluded from 1st page.)

Guy V. Roberts, on "The Ku Klux Klan, its origin, form of organization, and object."

"At first the Klan existed only in the little town of Pulaski, Tenn.

At that time, only the favored few were admitted to membership. Every thing was shrouded in mystery. Crowds would gather to watch their street parade at night, to try to find who they were. They would enter the town disguised, on horse-back. Every thing was done by signals. After marching in a circle around the central block of the village, they would disappear as mysteriously as they had come.

While at first the number of members was small and from a limited circle, yet it spread rapidly until at last it reached from Virginia to Texas and contained men of all classes. Probably it was first organized purely for purposes of fun, but things happened at that time in the South that caused it to be developed for entirely different purposes.

The organization went by many different names; among themselves it was known as the invisible Empire. The smallest body formed was known as a "den"; there would be eight or ten of these in a county, and about fifty members in each. The officers were a Grand Chief, then the Grand Monk, Grand Turk and two Night Hawks. The latter rode over the country to summons men to the dens. They met every two weeks in woods and old fields. Three shots at sunset was the signal for the den to assemble.

They usually wore white gowns, though some wore red, with black borders. Many wore only masks, with very high crowns and large faces. They had certain signs, whereby they found out whether or not a man was a member, also a "grip" when they shook hands.

The body was, organized as said above, in a spirit of fun. But later they declared it their object to protect the defenceless, and to see to the enforcement of the law. All these objects were worthy but in North Carolina it took a more serious shape. The Republicans claimed that it was a political body organized to keep them from carrying elections and to keep the negro from voting. In Rutherford County, the Klan did adopt that purpose. But the Conservatives could usually defend the Order; it was claimed that barn-burning was

becoming common, and that it was becoming unsafe for women to go about unprotected, and that the law did not punish the crimes that were being committed; they claimed that the organization was for the punishment of the guilty, and to deter others from crime. Mr. Roberts closed his paper with an interesting detailed account of their methods.

Dr. Battle then read a letter about Dr. Dread Phillips, of Florida an ante-bellum physician, who was a graduate of the University. Then he read a most interesting paper, a chapter from his "History of the University," now in preparation. It was a letter from a lady who was before marriage a Miss Sarah Kirtrell, of Chapel Hill. She wrote this letter to Dr. Battle from her home in Texas, at the age of ninety one years. She gave a charming description of Chapel Hill and the University as she knew it between 1820 and 1830, telling of the society of the place, and all the interesting characters, as the village school-master, and the village doctor.

The letter tells also how during that time the town began to get "more modern". The meeting closed with an informal discussion among those present, of the times described.

A. M. Carr has been at home for several days.

The whole University is sorry to lose Frank Bennett, Jr. He left Tuesday to accept a position in a Geological survey.

Cole and Holladay, the University photographers, have been on the Hill several days completing their group work.

Services were conducted in the Chapel Sunday evening and night by Rev. D. H. Tuttle, who is one of the preachers to the University.

Several students went to Durham Saturday to see the Trinity-Horner game. The game resulted in a victory for Trinity by a score of 11 to 1.

Mr. Davis B. Smith of the class of '96 has entered the Law class.

WAR! WAR!

Read what H. R. Guthrie has to say to the University students. Five hundred men wanted as soldiers for China and five hundred men wanted to shave at H. R. Guthrie's Shaving Parlor, opposite Chapel Hill Hotel. The Central Barber Shop. COMMUNICATIONS.

The Editors welcome all articles of a timely nature for publication in this column, though they do not hold themselves responsible for the sentiments expressed therein.

This column still clings to its popularity by containing a short communication. Time after time the letters of Junius Junior have appeared bearing the emblem "keep off the grass" or something of similar nature. Doubtless the Editors of this paper are tired of having a publication filled with "kickers" but as such things continue to happen, a whole page if necessary should be taken in giving the guilty ones a write up for general cussedness. The matter in hand is a very little thing to complain of, but if such low down rascality is not stopped, some human being's conscience will begin to sting. It is not the Magazine, the Tar Heel or the Campus lawn this time, but the electric lights on the walks and in the entrances of the different buildings. Is it fun you think you are having when you break out the electric bulbs? If so suppose you go out to Piney Prospect and have a good time in general. Or is it pure thoughtlessness on the part of those who don't hesitate to shoot a pistol ball or throw a rock at the light?

At present I'll bet that there is not an electric light in order on the campus walks and it is due to nothing more than a trick played by some smart Alex who thinks that he has done something great.

We would suggest to such a man of the above named type, that it is not compulsion to prohibit your breaking out the glass bulbs, but merely ask you to let them alone that they may be useful to a man wish to go to his room after dark.

According to our geological department rocks are for some useful purpose and they are not to be used as a missile to the electric lights. But if you will play with such earthly weapons, go to the geological laboratory and use them in the right way and quit trying to do some mean act against the sentiment of the general public.

The Annual.

At a recent meeting of the Yackety-Yack Editors, the resignation of Lamar Rankin, who was unable to serve on account of sickness, was submitted and received. B. S. Drane was elected to take his place as Business Manager. C. A. Byrum succeeds him as the representative of the Sigma Alpha Epsilon fraternity.

The work is going on rapidly, and all indications point to the probability of decidedly the best Annual the University has ever had.

Yale was recently defeated for the third consecutive time by the Harvard debaters. The Yale Alumni Weekly claims that more attention is given to debate and oratory at Harvard than at Yale and consequently debaters do not receive as much training.

Andrew Carnegie is said to be contemplating the founding of a polytechnic school at Pittsburg, Pa., for instruction in practical mechanics and industrial sciences, at a cost of \$3,000,000.

Exchanges.

There are 76 tribes represented in the Indian School at Carlisle, Pa., making an enrollment of 1,218 students.

Twenty-one students have been recommended by the teachers' bureau of the University of Chicago for positions in the schools which the United States are to start in the Philippines.

A committee, of which Hon. Grover Cleveland is chairman, is engaged in collecting funds for the memorial to the late William L. Wilson. About \$20,000 of the \$100,000 desired has been subscribed.

The first Inter-Collegiate Camera contest will be held in May between the Camera Clubs of the University of Pennsylvania and Harvard. This will be the first event of its kind ever held.

Casper Whitney replied very fairly to Vanderbilt's demand for investigation of his charges against their team, disclaiming any intent to reflect on the president, Dr. Dudley.

Virginia plays St. Albans, Wednesday, and Richmond College Saturday. The outlook promises a strong team.

Meeting of Senior Class.

At a meeting of the Senior class held last Tuesday, March 19th, in Gerrard Hall. President Swink appointed the following committees to attend to important matters.

On Cap and Gown committee, Messrs. Skinner, Graham and Jenkins.

Class Gift, Messrs. Hardin, Coble and Turrentine.

Class Pin, Messrs. Brooks Alexander and Murphy.

For Early Examinations, Messrs. Holmes, Hall and Swift were appointed.

These committees are expected to carry out the respective duties immediately and make their reports known to the class.

Mr. N. F. Jenkins resigned the office of Statistician and Mr. W. A. Murphy was elected in his stead.

No further business coming up the meeting was declared adjourned.

"Not that I care," but just to make business for the next 30 days, I will give 10 per cent. off my already low prices, or any body else's prices for the same quality of goods. Boys, note this ad., save money.

Respectfully,

A. A. KLUTTZ.

Varsity Defeats A. & M.

Game Very Uninteresting—Score 30 to 3.

In marked contrast to the Lafayette game was the very uninteresting and one-sided contest against A. and M. College last Friday.

At no time did the visitors prove in any way the equal of our boys. Carolina had everything the way she wanted it.

All of our pitchers were put in and several changes were made in the line-up for practice. The A. and M., in hope of strengthening their team, also made several changes, but they availed nothing.

The contest was so decidedly in our favor that it wasn't even interesting. One thing was accomplished though. The chief cheerer and Scrubs got the fellows together and practiced cheering, and the Varsity got a little practice, that's all.

Game called at 4 o'clock with A. & M. in field and Carolina at bat.

Carr gets hit and goes to first, and on passed ball goes to second.

Graham gets hit and goes to first. Both advance on wild pitch. Graves gets base-on-balls. Holt gets 2 base hit in left and Carr and Graham score, and Graves goes to third.

Pendleton sacrifices and Graves scores. Holt is caught out at third.

Donnelly gets first on error of Hall. Goes to second on passed ball. Cunningham hits foul fly to third and retires the side.

Heath gets hit and goes to first. Welch flies out to Cocke. Bonitz gets hit an goes to first, forcing Heath to second. Asbury gets to first on fielders choice, forcing others up a base. Dalton makes hit over left and Heath and Bonitz score. Pate hits to Smathers who cut off Asbury at home. Hall strikes out leaving Pate on first.

Second Inning.

Smathers hits to third and is thrown out at first. Cocke hits to second and is thrown out at first. Carr gets two-base over left. Graham gets base-on-balls. Graves gets hit and goes to first forcing others up. Holt gets 2-base hit between left and centre scoring Carr and Graham, and Graves going to third. Graves scores on passed ball. Holt scores on wild pitch and Pendleton gets base-on-balls, and then steals second.

Donnelly makes two-base hit over left scoring Pendleton and Cunningham gets hit over second, scoring Donnelly. Cunningham steals second.

Smathers hit to short and is thrown out at first.

Ross gets base-on-balls. Allen hits to Holt and is out at first, but Ross gets to second. Heath strikes out. Welch flies out to Carr at short who makes nice catch.

Third Inning.

Cocke hits to short and is thrown out at first. Carr gets base-on-

balls, then steals second and goes to third on passed ball. Graham flies out to second. Holt goes to base on four balls. Pendleton gets base on balls, forcing Carr in. Donnelly hits liner to short and is out.

(Harrington goes in pitch). Bonitz gets hit to right. Asbury hits to short and Bonitz is thrown out at second. Dalton hits to Cocke and is thrown out to Holt.

Pate gets short hit in diamond and Asbury reaches third.

Holt hits to Cocke and is thrown out at first.

Fourth Inning.

Harrington gets hit to right and steals second. Smathers strikes out. Cocke sacrifices to first and is out and Harrington reaches third. Carr makes hit to left and Harrington scored. Graham flies out to left.

Ross gets hit to right. Allen gets hit between left and centre. Heath gets first on error of Donnelly, who throws Ross out at third. Welch reaches first on error of Cocke. Bonitz gets hit over third, scoring Allen at home, but Heath is thrown out to Graves by Donnelly. Asbury hits to Smathers and thrown out at first.

Fifth Inning.

Graves gets hit over second. Holt gets hit to left. Pendleton flies out to right, who makes pretty catch, and Graves goes to third. Donnelly gets base-on-balls.

Harrington gets to base-on-balls, forcing Graves in.

Smathers flies out to left. Cocke gets base-on-balls, forcing Holt in. Carr hits to second and retires side by being thrown out at first, leaving three on bases.

Dalton flies out to Graves. Pate hits to Smathers who throws him out at first. Hall flies out to Graham.

Sixth Inning.

(Fenner goes in box for visitors). Graham gets hit and goes to first. Graves makes hit to right, and steals second, Graham going to third. Holt makes two-bagger to left, scoring Graham and Graves. Pendleton flies out to centre. Donnelly steals second. Harrington makes hit to second, scoring Holt. Harrington steals second. Smathers makes hit by short, scoring Harrington, and goes to second.

Cocke hits to third and is thrown out at first. Carr flies out to Bonitz.

(Oldham goes in centre; Battle goes to pitch). Ross hits to Carr who makes bad throw to first and Ross goes on to second. Allen flies out to Carr. Heath gets hit and goes to first. Welch gets a hit to right. Bonitz flies out to Cocke. Asbury hits to Smathers who touches Heath at third, retiring the side.

Seventh Inning.

Oldham foul-flies out to first. Graham gets hit to left. Holt hits

(Concluded from 1st page.)

Lafayette Defeated.

On Tuesday last, Carolina won the second game from Lafayette in a hard played and brilliant exhibition of base ball by the score of 4 to 3.

The day was very rainy and the ground was quite muddy and wet, but about noon the rain ceased and the sun came out, so the diamond was in fairly good condition when the game was called.

A fairly good crowd, considering the inclemency of the weather, saw the game, but a majority of the spectators were not in the grounds but resorted to nearby windows, tress and even some students were on the athletic field fence. The game from the start was full of interest and excitement. Both sides played, hard, strong ball and many brilliant plays were the result.

The game was called at 4:10 with Carolina at the bat and Lafayette in the field.

Carr, the first man up, got base on balls. Graham bunted to third and reaches first, but Carr was thrown out at second. Graves went to first on four balls, forcing Graham to second. Holt flies out to left. Pendleton hits grounder and is thrown out at first.

Wright hits grounder to Holt and is thrown out at first. Carrier hits to Smathers, but reaches first on error, and then is caught napping and put out. Bell hits to Cocke and is thrown out at first.

Second Inning.

Donnelly makes safe hit to center. Wilcox sacrifices Donnelly to second. Smathers is hit and goes to first. Cocke hits to short and on double play to second and first, Smathers and Cocke retire the side.

Ernst drives a hot grounder to Smathers, who makes quick recovery and throws him out to Holt. Chalmers get safe hit over second. Howard hits to pitcher and is throw out to Holt.

Third Inning.

Carr strikes out. Graham follows suit. Graves gets base on balls and goes to third on Holt's two base hit to left. Pendleton gets a safe hit to right and Graves and Holt score, Pendleton going to second. Donnelly gets a hit over short, scoring Pendleton. Wilcox hits to Chalmers and is put out at first.

Van Atta hits to Smathers and is thrown out at first. Willis flies out to right. Wright gets a hit to left and steals second. Carrier fans retiring the side.

Fourth Inning.

Smathers hits foul fly to Ernst and is out. Cocke hits safely between center and left. Carr flies out to Wright. Graham hits to pitcher and is thrown out at first.

Bell makes pretty hit between second and short. Ernst flies out to Wilcox and Bell steals second. Chalmers hits ground ball to Wilcox and is thrown out at first. Bell advances to third. Howard

hits to pitcher and is thrown out at first.

Fifth Inning.

Graves hits grounder to Willis and is thrown out at first. Holt strikes out. Pendleton flies out to Bell who makes pretty catch.

Launt drives a hot grounder to Wilcox but is thrown out at first. VanAtta hits a liner to Carr and is out. Willis fans retiring the side.

Sixth Inning.

Donnelly flies out to short. Wilcox hits grounder to third and is thrown out at first. Smathers hits to Willis and is thrown out to Chalmers.

Wright goes to first on balls. Carrier bunts to third and reaches first safely. Wright going to third. The Carrier steals second. Bell makes a drive to left and Wright scores. Ernst flies out to Graham. Chalmers strikes out. Howard hits grounder to Wilcox and is thrown out, leaving two men on bases.

Seventh Inning.

Cocke takes four balls and goes to first. Carr flies out to Howard in center. Graham bunts and gets first, Cocke going to second. Graves hits to pitcher and Cocke is caught at third. Holt hits long fly to left and Launt catches it, retiring the side.

Launt fans the air three times and is out. VanAtta hits to Wilcox and is thrown out at first. Willis is thrown out to Holt by Wilcox who stops his hot grounder.

Eight Inning

Pendleton flies out to Bell. Donnelly gets a two-bagger to left. Wilcox gets out on a long fly to Launt and Smathers strikes out.

Wright hits foul fly and Graves catches it. Carrier hits grounder to Wilcox who throws him out at first. Bell hits slow infield ball and reaches first. Ernst drives the ball over left for two bases and Bell scores at home. Chalmers sends grounder to Carr who throws him out to Holt.

Ninth Inning.

Cocke hits to third and is thrown out at first. Carr hits to Willis and is thrown out to Chalmers. Graham gets hit and goes to first. Graves gets a two base hit over left, scoring Graham. Holt flies out to left.

Howard drives over left for two bases. Laut sacrifices to Cocke and is thrown out while Howard reaches third. VanAtta hits safe over second, scoring Howard. Willis to Wilcox, who throws him out at first.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

We have abundant reason to feel pleased with the showing our team has made in the recent games. The team-work is good, and the hitting not unsatisfactory, though we may look for much improvement along this line. It must be remembered, however, that we have not yet gone up against any such pitchers as we will meet later on, and that it will not do for the team to get into the habit of expecting to slash out two-base hits with the ease of the present time.

Another development of the last week which is cheering, is in the position of pitcher, which was considered rather weak. Cunningham's pitching in Lafayette game shows that we can count on him for good work, and Battle, who it was feared would be out of it, showed in the game with A. & M. that there is strong probability that his arm will soon be well, and bring him up to his usual strong form. Altogether things are progressing very nicely.

In the "Communication" column appears an article over which is the phrase "the editors do not hold themselves responsible for the sentiments," looks like a joke. But in this case, the Editor-in-Chief, at least, can fully appreciate the justice of the complaint, and enter into the spirit of it. The only wonder is, as the writer says, that nothing has been said before this time on the subject. There is no doubt that there is a lack of a proper feeling of responsibility on the part of some of the board of Editors, despite repeated efforts to impress them with it. This does not apply to all, there are notable exceptions. But an improvement must be made, we realize, and we shall do our best in a renewed effort to make the Tar Heel what it claims to be.

As was intimated in our last issue, we have received a suggestion for a tennis tournament, from Georgia. It is to be hoped that we can arrange it. Carolina has never played intercollegiate tennis but once; then she defeated Virginia in both singles and doubles. It would be very interesting to the College to

have a tournament played here, and we hope the players will arrange it.

President Venable's task on last Friday morning was hard, straight-from-the-shoulder, common sense. He put several matters before his audience in a way in which they had not been thought of before, and got them the consideration they deserved from every reasonable man in the house.

Communication.

The purpose of this article might be called a serious one and what it contains should have been put in print long ago, but the author has hesitated more than once in attempting to write a communication embodying such sentiments. Thinking some one else would take the matter in hand or that those whom it may hit would show some improvement thus prohibiting the publication of an article of this kind. Although the same old thing has been going on week after week and as it seems to be growing worse day by day. I don't see how one could well refrain from giving his opinion of the matter. The time has come when something must be done and done quickly, by those students holding important positions in University affairs. The positions are honorary, and because they are honorary does not indicate that a man should be slack in his work, 'tis more a stronger reason why he should be prompt and attentive to his duty. The date of publication of our college paper is supposed to be on Monday. The question is why doesn't it come out then? The change of date for publication was made by the editors themselves to suit their convenience though for the last month its appearance has been nearer the latter part of the week. Is the delay due to the editors or the printers? 'Tis true the University Press Co. have their hands full, but surely they would print the college paper were all the material handed in on time. If the board can't edit a decent paper promptly, why don't they say so, and if necessary let them change the date of publication to a suitable day and keep it there.

Why can't we afford a good paper like the northern colleges, in some of which the students even publish dailies. How is it then if they can afford dailies, we can scarcely get out a weekly here. The trouble is we don't realize how far behind we are.

are and criticism is indeed deserving. The support of any publication certainly lies in its subscribers and advertisers and when they begin to kick, evidently there is something wrong. When a man comes to this University he is considered a man, and you are forever hearing of that manly prompt college spirit of a model man, up to date in everything. Now show it to me if the Tar Heel board are fair examples. Possibly the reference is not for them all. Perhaps some are attentive to duty and others are not. It's not a very pleasant act to have to ask a man to resign, though if he should merit anything of the sort, the general Athletic Association can most assuredly find men who will gladly fill their places. Yet another thing, that is, when the

material is all in the office, every other week something like half a column or more is lacking, consequently some office occupant or bystander, writes an article on any subject at the printer's request to fill vacant space, such mistakes as well as bad arrangement of material is due to non-attentiveness to duty on the part of the managing editor. The University has men with ability, tact and skill, who can if they will, publish a respectable college paper.

I have not a doubt but that the sentiments expressed in this article correspond exactly to those of the whole student body and all others who read the Tar Heel. Now then what's the matter with getting out a weekly regularly, a weekly representing the University which will stand for the intended purpose.

WANTED!

A few good agents for Taylor's Historical Chart of the United States. Endorsed by the greatest historians. New, Practical, Superb. A good seller. Keep this. Address, G. P. BETHEL, Supt. Sales and Agents, Dubuque, Ia.

REVIEW.

The Modern American Speaker, published by the Gammel Book Company, Austin, Texas, contains two hundred selections, for the most part the speeches of noted public speakers of the day, adapted for declaiming and for the study of the present day oratory. Compiled by Edwin Du Bois Shurter, formerly instructor at Stanford and Cornell Universities, and now Professor of Oratory at the University of Texas. Among the large variety of selections included in the book, the student of current topics will find selections from speeches *pro* and *con* on Imperialism, Expansion, Militarism, the Currency, the Philippine Question, Strikes, Trusts, etc., etc. Of the one hundred, or more, speakers represented, we note such well-known orators as Bryan, Grady, President McKinley, Beveridge, Curtis, C. K. Davis, Depew, Lincoln, Phillips, Roosevelt and Waterson. The book is intended for all interested in public speaking.

WAR! WAR!

Read what H. R. Guthrie has to say to the University students. Five hundred men wanted as soldiers for China and five hundred men wanted to shave at H. R. Guthrie's Shaving Parlor, opposite Chapel Hill Hotel. The Central Barber Shop. Sore necks caused by rough shaving and scalp diseases are cured at Guthrie's Shaving Parlor. \$10.00 reward deposited in any bank for any case of dandruff that can't be cured at Guthrie's Barber Shop. Satisfaction always guaranteed. I am just from Charlotte and have the latest in everything. Special prices by the month. Yours to please. For disposal of second-hand clothes, see me.

Opposite Pickard's Hotel. The oldest Shoemaker in Chapel Hill, begs to solicit your patronage. Satisfaction guaranteed. Give me a trial

Locals.

Graham Andrews spent a few days in the city of Oaks the past week.

Mr. W. S. Woodward has returned from a short visit to Wilmington.

President Venable spent Saturday in Raleigh.

Mr. R. W. Hickerson has gone home to spend Easter. It is possible that he will not return.

J. R. Rountree is spending a few days in Raleigh.

J. L. Morehead spent Sunday in Durham.

Mr. J. H. Coleman of the firm of Gorman Burch and Co. will be at Patterson's Hotel tomorrow, Wednesday with a full line of shoes. His stock has just arrived. Call and examine the new styles of low quarters and patent leathers.

Dr. Venable addresses the Students.

Friday morning at the first hour Dr. Venable met the student body in the Chapel. He stated that he had called the students together in order that he might tell them something of the recent growth of the University.

During the year 1900-1901 the following improvements have and will be made.

- Carr Building 18,000
- Mary Ann Smith Building 15,500
- Alumni Building 32,000
- Water Works 15,000
- A central heating plant for 14 buildings 27,000
- New Athletic Field 1,000
- Library 4,000
- Scientific laboratories 2,000
- Total 115,500.

In scholarship, numbers and efficiency the University ranks among the first in the South.

The Magazine.

The last issue of the University Magazine is rather a valuable one, for in addition to the higher literature, it contains a biography of unusual worth, that of Dr. James Augustus Washington. Until the writers in the University bestir themselves and make the Magazine a true exponent of our literary talent, its value must be dependent on such articles as this, and the editorials, entirely. This sketch of Dr. Washington is one of the best that the Magazine has ever published,—the story of a great-hearted man whose professional career and private life were alike an honor to his native state and to his University.

"The Process of Falling in Love" is a unique little article, ingeniously conceived, and quite readable. The author seems to have been much more-successful than most people, in that he can approach the subject logically, and not cynically at the same time.

"Jimmie's Luck" sounds more like a prep-school performance than like one of college-men, but in spite of this, it is well written. "The Battle of Bosworth" in a very good paper.

The next article, "An Adventure on the Catawba" has considerable merit, being well worked up out of a simple theme. "The Southern Student" should be read with interest by every man in the University, for it is our life here that the author

describes, and seems almost to idealize.

The only verse in the issue, "The Overtone," has a poetic ring.

The Editorial on "Graduate Honors" is a strong one and many facts go to support the Editor's view. But there are many things to be said for the opposite view of the matter, and many will be found who will doubt the desirability of discontinuing the custom.

OF INTEREST TO STUDENTS Desiring Profitable Vacation Employment!

This company desires to engage an energetic student in each county for the summer vacation, to interview book buyers in the interest of our "Book-buyers' Union." We have our Sample Display at Teachers' Institutes, and distribute to all teachers and book buyers, our Price Lists with explanation of our Book & Magazine Combinations, etc. All book buyers in each county are invited to call on the agent, or to write for a book wanted supplied direct from publisher at 25 per cent. to 50 per cent. discount. \$1.50 worth of latest novels (your choice) for \$3.50; \$3.50 worth of leading Magazines (your choice) for \$5.50; \$1.50 Standard Pictorial, History, etc., \$3.00. Endorsed by all book buyers. — "As Chairman of the Committee of Chicago Women's Club, I have for past 4 years bought all their books through the Northwestern Library Association at an average discount of 40 per cent., have had 'prompt service,' they do an immense business." — Mrs. G. A. Dixon, Librarian, Unit Chicago. (Mrs. Dixon's last purchase was March, 1901.) "I take pleasure in recommending the Northwestern Library Association as a reliable institution, and one which is very beneficial in enabling members to get books, etc., at wholesale prices." — John E. D. Hines, Dean Cumberland Univ., Lebanon, Tenn. (Prof. Hines' last purchase was May, 1901.) Our 1901 Book and Magazine Combinations are sweeping things wherever offered and are a revelation in modern book selling. To one student from each county furnishing satisfactory references, we offer a 4 month's vacation engagement at \$50.00 a month, and commission on sales. The position will pay \$100.00 a month with reasonable push and energy. To first student applying from each college, we offer exclusive right of representing us in his college and college town, with position will easily pay \$100.00 to \$200.00 to an energetic student, for his evenings and Saturdays between now and June. Address: NORTHWESTERN LIBRARY ASSOCIATION, 5 and 6 Washington Street, CHICAGO, ILL.

SHERIDAN TEACHERS' AGENCY, GREENWOOD, S. C.

Thoroughly trained professional teachers and specialists wanted. Covers the entire South thoroughly, Eighth year. Established reputation, honest work, business methods, reasonable charges. Endorsed by the leading educators of the South. Write us at once. Best service to be had in the South.

F. M. SHERIDAN, Manager. T. J. Creechman, Special Agent, Lynchburg, Va. P. S. We can refer to a number of students of University of North Carolina, for whom we have secured positions.

COMMUNICATIONS.

The Editors welcome all articles of a timely nature for publication in this column, though they do not hold themselves responsible for the sentiments expressed therein.

In the last issue of the Magazine an editorial appeared attacking the honor system now in operation in the University. The article was doubtless written with the honest conviction that a change would be beneficial, yet after a careful perusal of it I am still unable to believe that the editor's plan would not prove the remedy he imagines. Tee "jack" may be banished forever from this University and the search for "puds" may be an unknown excitement to our younger brother, yet that this is to be accomplished by the knowledge that only a pass mark is possible may still be questioned. As to the "narrow chested, weak-eyed dyspeptic" just look at the two men if a personal allusion may be permitted, who lead the present senior class. They may not always digest their dinner—the editor of the Magazine knows best about that—but even he can't claim that they are narrow chested.

Seriously, I think the honor system as now constituted is a good one, and serves a useful purpose in the University and is at present in no danger of being abused. My own observation in college is that the men who study too much for their best development, and they are very few, are men whose highest ambition in the way of marks is to make a "pass."

No. 23

Dr. Alexander's Lecture.

On Thursday evening Dr. Alexander lectured in Gerrard Hall. His subject was "Some Old Teachers" and his talk was one of the most interesting of those so far delivered.

The speaker stated at the outset that the lecture was a pedagogical one and designed to interest and instruct only those who were going to teach.

Years ago there lived an old teacher from whom we all have to learn. He and his pupils may have created the science of education. Though a great teacher he wrote no books; though poor he charged no tuition; and strange to say he laid no claim to being a teacher, on the contrary he disliked to have the term applied to him. "I am no teacher," he would say, "I like company."

Though his lectures and talks were listened to by many he never taught in fine buildings, but in the grove or on the street or wherever he might be.

He was a simple, plain, earnest, extremely homely but an exemplary citizen.

His purpose was to draw out and develop the minds of his pupils by questions here and there; thus their minds were quickened.

His pupils were eager and anxious to learn, and each looked upon the schooling of the mind as one of the necessities of life.

In those days children went to school before breakfast and all went who were able. The methods were those used today. Reading, writing, and gymnastics were among the most important subjects taught. The pupils learned temperance, self-control, justice and a noble uprightness of life. They were to be noble in mind, body and character.

In his broad view of education few men have equalled him.

After about three score years of usefulness he incurred the displeasure of a few citizens. This dislike spread gradually and finally he was tried for charges which were absolutely false, but he was sentenced to death.

The good work begun was ably carried on by his pupil. The first wrote no books but the pupil wrote many.

The people with whom he had to deal were simple and quick to take up theories.

He taught that early in life the child should be told beautiful stories and kept from pain and sorrow so that he might see the bright side of life, and his nature be beautified. He thought that education proper should begin at seven, but regular study not until ten. Boys and girls should be trained alike for they differ only in degree.

The schools should have large play grounds, for much of the work of training was to be done out of doors, and education should be compulsory in the strictest sense of the word.

The soul, he said, had three parts

and it should be fed and nourished with noble things as music and sculpture.

His theory was that arithmetic should be taught as a method of stimulating thought. This should be followed by geometry. It could be best to teach astronomy as a branch of solid geometry. Philosophy should not be taught until the mind was more fully developed.

He believed in compulsory education but thought that religious sentiment and public opinion should influence it to a great extent.

His writings possess an universality that makes them valuable to all.

Among his pupils was one who was the forerunner of the science of today. He was a man of greater intellectual breadth than his teacher. His theory was that the highest object of man is to obtain perfect happiness, and this is only obtained by perfect virtue; and by virtue he meant a full development along every line.

His idea was that the purpose of an education is to fit a man for a good citizen and he taught with this end always in view.

The first thing to be attended to was the body—a sound body is essential to a sound mind—hence much stress was laid on gymnastics. He opposed the education of women on same lines as men.

A child's early life is extremely susceptible to the influences of its environments. Hence the greatest care should be exercised to surround the child with only the best and noblest influences. In families able to afford it competent servants were kept to train the minds of the children.

Reading, writing and gymnastics were taught. Music he would have taught, for its influence is ennobling, but it should not be taught in excess. In fact the motto of the times was "nothing to excess." Philosophy was important. Rhetoric, logic and natural science were included in the course of subjects he thought students should pursue.

The next teacher lived where laws were the guiding principal of life. Every citizen had to commit these to memory. In these days, if schools were not afforded at home, young people went abroad to study. In his time the ordinary course of learning included arithmetic, astronomy, geometry, etc.

After twenty years of teaching our teacher began to deliver lectures on oratory. He objected to corporal punishment of children and claimed that it bred evil traits. In teaching, much depended on memory. Minds differ much as soils, and, like soils, all may with proper care and attention, be made to yield something. He believed in paying strict attention to details, but always being plain, for the best method is always the plainest. A good teacher should try above all things to be as a parent and hence should be an exemplary character. He

should encourage his pupils to ask questions. Moderate lessons well learned were better than long lessons skimmed over. Study should at first be a pastime. Verses of the poets should early be committed to memory and the reading of the pupil should be under the direct supervision of the teacher. A strong foundation should be laid in reading, writing and grammar.

Socrates, Plato, Aristotle, and Quintilian lived long ago, but their theories and methods, enlarged and improved, have come down to us today.

At the present time teaching is more thorough than formerly but we should remember that thoroughness may be overdone.

At present when every other profession fails a man he begins to teach. Let us hope that ere long conditions will be changed and only those will teach who are capable.

Class Games.

So far in the contests between the classes for supremacy of the college only three games have been played.

Those three and their results were:

Fresh-Soph—Score 17-4, favor of Fresh.

Law-Med—Score 0-22, favor of Meds.

Soph-Med—Score 6-16, favor of Meds.

The game Saturday afternoon between Fresh-Law was necessarily postponed on account of rain.

The game between the Sophs and Meds was really a good exhibition of baseball for about five innings.

On account of lack of space the Tar Heel cannot publish a full synopsis of these class games but gives below the tabulated score of the Soph and Med game.

Summary: 2 base hits, Alexander, Ramsey, Wilcox; stolen bases, 20; base-on-balls: off Morehead 1; off Patterson 2; hit by pitcher: Patterson 1; struck out, by Morehead 0, by Patterson 4.

Prof. Noble has gone to Wilmington to spend Easter. Mrs. Noble will probably accompany him back to the Hill.

Carolina vs. Clemson C.

In a game of baseball that was altogether too one-sided for interest, the University of North Carolina defeated Clemson College, S. C., at Latta Park yesterday afternoon by a score of 14 to 0.

Owing to inadequate advertisement, the crowd was about one-third the size it should have been; but at 3 o'clock over 200 spectators were in the grand stand. Most of these were personally interested in one or the other team, and it was therefore expected that the contest would proceed through a multitude of comments and cheers. But the spectacle was too tame for enthusiasm. From the first inning the University men had everything their own way and their superiority was so manifest that it is questionable if their excellent game yesterday really indicated their best form. This means favorable criticism. The University team is strong, snappy and heady in all respects, and it is almost even betting that they will win the Southern pennant.

Where a victory is due to team work, it is hardly worth while to select individual players for complimentary notice. North Carolina's infield was superb; Carr at short, Smathers at third; Cocke at second and Holt at first all making brilliant use of their opportunities. Battle who pitched his first game this season yesterday, was all that he should have been. Graves, catcher, was in his usually good form, both behind the bat and in batting. The University's out-field is also to be commended for making the team consistently strong.

The star man on the Clemson team was Barksdale, the catcher, who accepted the 14 chances given him. The rest of the team played clean, fair ball, but suffer by comparative criticism.

The synopsis and official score will be published in next week's Tar Heel.

Important News to the University.

At a recent meeting of the Board of Trustees of the University held in Raleigh several important steps were taken looking to the improvement and advancement of the college. Authority was given the Committee to make arrangements and give out the contract for a central heating plant, which when completed will cost about \$28,000 and will heat all the college buildings. The committee is composed of Dr. R. H. Lewis, Mr. John A. Roebeling and Prof. Gore, and they will start to work at once.

Authority was also given to make certain additions to water works and sewerage system of the University.

The Trustees ordered the immediate repair of the roofs of Memorial Hall and Gerrard Hall. They created a Professorship of Physiology in the Department of Medicine and Assistant in Department of Pharmacy; the fees in the Departments justifying the additions.

Subscription Price, \$1.50 per Year.
Payable in ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

The Editor is very much indebted to Messrs. Ehringhaus, Gwyn and Beil for their assistance in getting out this issue in his absence.

The baseball team left Saturday to play Clemson College in Charlotte, and Lehigh University in Greensboro. Accounts of the games will be given next week.

The oft-repeated statement that the athlete cannot be a student is very agreeably disproved in the case of our baseball team. The average amount of work per man passed on at the mid-year examinations was fourteen and one-half hours, out of the fifteen hours taken. This is an excellent record.

An article appeared in the Tar Heel last week on the matter of Graduate Honors, expressing a different view from that of the Editor of the Magazine. The writer puts the matter very sensibly. He certainly brings up a very pleasant refutation of the theory that the system of Graduate Honors tends to make "narrow-chested, weak-eyed" Seniors. But we would suggest that the name "Honor System" should not be applied here. That refers to an institution that we are proud of, one that will live as long as the fine Southern Spirit—which means courtesy and honor—endures among us, and let us hope that that will be forever.

Let no one ever by any means get the mistaken idea that the efficacy of the Honor System in this University is questioned.

Easter Trip.

The base-ball team left Friday afternoon for their Easter trip. In Charlotte, on Saturday they played Clemson College of South Carolina and the report of that game is published elsewhere in this paper. From Charlotte the team went to Greensboro where on Monday afternoon they play Lehigh University. These two nines will again line-up against each other on Tuesday at Chapel Hill.

The Varsity is now in excellent condition. From constant practice and coaching they have steadily improved in all points of the game and

are now surely winners.

In the game against Lehigh here, every student in college, that can possibly do so, should go out and see the team and cheer the players. The game will undoubtedly be a close one and it is a University student's duty to do all he can.

The players that went on the trip were:

Graves, Battle, Wilcox, Cunningham, Holt, Cocke, Smathers, Carr, Donnelly, Graham and Pendleton, besides Coach Meade, Manager Worth and Ass. Man. Lewis. Quite a number of students accompanied the team as roosters.

A Rare Treat.

The Lecture Committee, composed of representatives of the two Societies and of the University have secured for the night of the 23rd of this month, the distinguished Henry Watterson, the brilliant and versatile Editor of the Louisville Courier Journal. Mr. Watterson is today one of the greatest Journalists in America and the students will enjoy a rare opportunity in listening to him.

Efforts were made to get Hamilton W. Mabie, Editor of Outlook to come here this month and deliver a lecture, but other engagements prevented. It is now probable that Mr. Mabie will deliver the Commencement Address before Alpha Theta Phi.

"The News and Observer of a recent date has the following."

In a recent address to the students of the University, President Venable said: "Stay in North Carolina. It is going to be one of the foremost States in the South and the young man who leaves it will be sorry for it."

That's the sort of talk that the leaders and educators of the State ought to give to the young men to them for advice. North Carolina has lost more in the going away of its young men than in any other way. Many of our best young men have in times past felt that to win large success they must go away. "Emigration has been our bane." The tide has turned. Our young men find the largest opportunities for success and development in their own homes and in daily association with the friends of their youth.

"Stay in North Carolina" is a text for commencement orations, for editorials, for counsel from teacher to pupil.

Fresh-Soph Debate.

The Fresh-Soph debate will take place next Friday night. The subject for discussion is "Resolved that an Educational Qualification is Preferable to Universal Manhood Suffrage in the United States." Messrs Harper '04 and Hassell '03 of the Phi, have the affirmative, Messrs. Robins '04 and McRae '03 of the Di., the negative.

Coming Lectures.

The Lecture Committee has arranged to have the Hon. Henry Watterson to lecture here on the night of April 23rd.

Dr. Hamilton N. Mabie who was to lecture at that time will likely make the Alpha Theta Phi Oration on Monday night of commencement week.

Georgia Debate.

A telegram was received Saturday morning announcing the outcome of the Georgia debate. As our debaters will not return in time for us to secure an account of the debate for this issue, we will publish it in our next. Our representatives had the unpopular side of a very unpopular question, besides being in the territory of their opponents.

We are confident that Messrs. Stern and Williams ably upheld the side of the blue and white in spite of the fact that the odds against them were so heavy.

You whipped us this year, Georgia, look out for next.

The University Annual.

The "Yackety Yack" will be out early in May. Please subscribe at once.

REVIEW.

The Modern American Speaker, published by the Gammel Book Company, Austin, Texas, contains two hundred selections, for the most part the speeches of noted public speakers of the day, adapted for declaiming and for the study of the present day oratory. Compiled by Edwin Du Bois Shurter, formerly instructor at Stanford and Cornell Universities, and now Professor of Oratory at the University of Texas. Among the large variety of selections included in the book, the student of current topics will find selections from speeches *pro* and *con* on Imperialism, Expansion, Militarism, the Currency, the Philippine Question, Strikes, Trusts, etc., etc. Of the one hundred, or more, speakers represented, we note such well-known orators as Bryan, Grady, President McKinley, Beveridge, Curtis, C. K. Davis, Depew, Lincoln, Phillips, Roosevelt and Watterson. The book is intended for all interested in public speaking.

WAR! WAR!

Read what H. R. Guthrie has to say to the University students. Five hundred men wanted as soldiers for China and five hundred men wanted to shave at H. R. Guthrie's Shaving Parlor, opposite Chapel Hill Hotel. The Central Barber Shop. Sore necks caused by rough shaving and scalp diseases are cured at Guthrie's Shaving Parlor. \$10.00 reward deposited in any bank for any case of dandruff that can't be cured at Guthrie's Barber Shop. Satisfaction always guaranteed. I am just from Charlotte and have the latest in everything. Special prices by the month. Yours to please. For disposal of second-hand clothes, see me.

Locals.

Mr. Phil Busbee has gone to Raleigh to spend the Easter Holidays with his parents.

Messrs. Graham Kenan and Ramsey are spending Easter in the Capital City.

Messrs. Joe Cheshire and Gwyn went to Hillsboro Saturday to spend the holidays with the Webb boys.

Mr. Emmett Gudger has gone to Asheville to spend Easter.

Mr. Herman Wei' went to Goldsboro last week to be at home during the holidays.

Mr. Alf Berkeley spent Easter in Raleigh with Mr. Chas. Johnson.

A. W. Haywood, Jr., has been confined to his room for several days. He is now much better and will probably be out in a few days.

Robt. Lasseiter left for Oxford on Friday.

Miss Christine Busbee is spending the Easter holiday in Raleigh.

Reidsville was doubtless made glad on Friday by the arrival of her noble sons. Messrs. Richardson and Ellington.

Burke H. Bridgers has been on the sick list for a day or two.

P. H. Winston, ex-'02, is on the Hill for a short visit. Mr. Winston some time ago received an appointment to Annapolis and has successfully passed his examinations.

Messrs. Payne, Latta, A. W. Rountree, Dunn and Turner are enjoying the holiday in Raleigh.

E. C. Gudger is in "The Land of Sky" for a few days.

Messrs. Staton, Cox and Bass left Thursday for Tarboro.

Why is J. Henderson sad?

Mr. J. L. Morehead has been in Durham for several days past.

Miss Nellie Cobb is here on a visit to her brother, Prof. Cobb.

An unusually large number of students have taken advantage of the holiday, Monday, to spend a few days off the Hill. For the last day or two the College has seemed almost deserted.

Mr. Jas. Bunn of Rocky Mount left for home Friday.

Mr. W. A. Blue has gone home to spend Easter.

The Webbs left Thursday to spend a few days in their native metropolis.

Mr. J. J. London, '03, recently received an appointment to Annapolis. He left the Hill last week to stand his examinations.

Wade U. Chisman is home for the holiday.

Messrs. McAden, Talioferro and Smith left Friday for a few days in Charlotte.

Mr. W. G. Peckham and son of New York, are spending a few days in Chapel Hill.

Quite a number of students accompanied the Team to Charlotte on Friday. Among them were Messrs. Klutz, Graham, Brem, Alexander, Heard, Brenizer, Ross, Latta, and Carr.

Track Work.

The third week of practice has passed, and in spite of some very unfavorable weather, decided progress has been made. Every fair afternoon has seen a full number of men at work on the track. A majority of those are new men, and there is some excellent material among them. The team will have its protograph taken next week; the time will be announced later.

**OF INTEREST TO STUDENTS
Desiring Profitable Vacation Employment!**

This company desires to engage an energetic Student in each county for the summer vacation, to interview book buyers in the interest of our "Book-buyers' Union," manage our Sample Display at Teachers' Institutes, and distribute to all teachers and book buyers, our Price Lists with explanation of our Book and Magazine Combinations, etc. All book bills cut in half; any book wanted supplied direct from publisher at 25 per cent. to 80 per cent. discount; \$1.50 worth of latest novels (your choice) for \$2.25; \$2.50 worth of leading Magazines (your choice) for \$3.25; \$10.00 Standard Fiction, History, etc., \$3.50. Endorsed by all book buyers:—
"As Chairman of Book Committee of Chicago Woman's Club, I have for past 4 years bought all their books through the Northwestern Library Association at an average discount of 40 per cent.; I have had prompt service. They do an immense business."—Mrs. E. A. Dixon, Librarian, Univ. Chicago.
(Mrs. Dixon's last purchase was March, 1901.)
"I take pleasure in recommending the Northwestern Library Association as a reliable institution, and one which is very beneficial in enabling members to get books, etc., at wholesale prices."—John L. B. Hinds, Dean Cumberland Univ., Lebanon, Tenn. (Prof. Hinds' last purchase was Jan., 1901.)
Our 1901 Book and Magazine Combinations are sweeping things wherever offered and are a revelation in modern book selling. To one Student from each county furnishing satisfactory references, we offer a 4 month vacation engagement at \$55.00, month, and commission on sales. The position will pay \$100.00 a month with reasonable push and energy. To first Student applying from each college, we offer exclusive right of representing us in his college and college town, where position will easily pay \$100.00 to \$250.00 to an energetic student, for his evenings and Saturdays, between now and June. Address: NORTHWESTERN LIBRARY ASSOCIATION, 5 and 6 Washington Street, CHICAGO, ILL.

**SHERIDAN TEACHERS' AGENCY,

COMMUNICATIONS.

The Editors welcome all articles of a timely nature for publication in this column, though they do not hold themselves responsible for the sentiments expressed therein.

Perhaps the majority of students think that enough complaints have appeared in the last few issues of the Tar Heel to satisfy all the croakers that Junius Junior ever thought of. But there is one other matter that the writer thinks should be brought up and now that we are all in a "croaking" humor it had best be gotten through with.

When a man has by three hard years of work reached his Senior year with nearly all the work necessary for a degree completed, he has well earned a year of comparative ease. There are several members of the present Senior class who need only an hour or two to graduate; they have, by extra work in their first three years, gotten thus far ahead. These men of course do not have to take but just these few hours to get through in June but instead they prefer to carry 15 or 18 or 20 hours of recitations.

It seems to the writer that this spirit of working for work's sake should be commended. But it is not so. There is a faculty regulation existing which not only discourages extra work among lower classmen, but will without doubt be the means of making the Seniors who are ahead of their course confine their attention to the few hours needed to graduate.

According to the new regime if any one, whether Senior or lower classman, has as many as five unexcused absences from classes during a month he is hauled up before the faculty as if guilty of some heinous offense.

Obviously this is unfair. In the opinion of the writer the man who has carried 19 or 20 hours of work for four years and has satisfactorily passed it all, deserves far more credit than the man who has made a string of 1s each year but carried only as much as he was compelled to take.

The Senior who has by hard work in his first three years forged ahead of his course and is carrying a great deal of extra work has well earned the right to "grat" occasionally, and for no other reason than because he doesn't feel like going on class. It is unfair in the faculty or any one else to say that because he is absent without excuse five out of 60 or 70 or 80 times, he shall be disciplined.

There are only two arguments that the writer has heard advanced in favor of this new rule.

First it is claimed that absences disorganize the class.

In answer to this the writer ventures to assert that there is not a single class which is more thoroughly organized now than it was before the rule was passed. If the threat of the faculty discipline was designed to prevent the disorganization of classes the rule has been a dismal failure. There are few among the underclassmen who do not absent themselves from classes just as frequently now as they have always done; while among all the classmen, and Seniors especially, it has caused many good men to drop courses

which they would otherwise have kept up, because they do not wish to run the risk of incurring faculty displeasure. It is most certain that no one will claim that the new rule has checked "gratting" to such an extent as to benefit the organization of the classes.

The second argument is that the new rule keeps students from getting behind in their work.

On page 57 of the University catalogue the following appears:

"Any student whose absences from a class during any month amount to as much as 25 per cent. of the scheduled meetings of the class, is required to stand a special examination on that month's work."

What need have we for further rules to make the students keep up with their work? This regulation has been in force and has worked admirably for years, why should another be advanced which accomplishes no further good but does much harm?

It seems to the writer that he voices the opinion of nine-tenths of the students of the University when he says that the new rule is an utter failure and an irksome imposition. It has evidently wrought no good,—on the contrary it has done much harm. The writer is aware of the fact that there are some who abuse the privileges allowed them but can not some rule be devised which will touch only these? Members of the Senior class who are ahead of their work have just as much right to "grat" as post-graduates and there are no "five-grats" restrictions placed on the latter.

In the name of justice let something be done.

With the Societies.

The Phi Hall has been repainted and frescoed. The designs of which show up well and add much beauty to the appearance of the walls.

The Debate last Saturday night was excellent and the speeches showed thought and investigation on the part of the debaters. Mr. Robinson was reported as best debated.

The same can be said of the debate in the Di Hall. The query for discussion was, Resolved that "Educational qualification is preferable to manhood suffrage." Mr. C. P. Coble was reported as having made the best debate.

Messrs. R. R. Williams and D. P. Stern left Tuesday for the University of Georgia to represent Carolina in the annual Georgia-Carolina Debate. The reputation of the University is safe in the hands of such able debaters.

The Yarbrough House, RAEIGH, N. C.

Is almost as widely known as the "City of Oaks." Its equipment, service and table the best that can be provided. Rates \$2, \$2.50 & \$3 per day. Special weekly rates. Coach to and from all trains.

*Captain. Score by innings:

University,	1 2 0 2 0 9 0 0 0—14.
Clemson,	0 0 0 0 0 0 0 0 0—0.

Earned runs, University 3. Base on balls, Sitton 2. Two-base hits, Graves, Smathers. Double plays, Cox to Carr to Holt. Hit by pitched balls, Graves 1, Barksdale 1. Wild pitches, Sitton. Left on bases, University 8, Clemson 5. Umpire, Kelly.

Following is the story of the game in detail.

First Inning.

University: Carr hit to short and on error was safe at first. Graham sacrificed was out at first and Carr went to second. Graves hit safe to right and Carr scored. On a wild throw Graves went to third. Holt struck out. Pendleton fanned.

Clemson: Dingle hit safe to left and went to first and made second on passed ball. Barksdale hit to pitcher and was out at first, while Dingle went to third. Hunter hit to pitcher and Dingle died at the home plate. Bamberg struck out.

Second Inning.

University: Donnelly hit a long one to left and went to first. On a passed ball, which was blocked, Donnelly scored. Smathers struck out. Cocke hit to third and was out at first. Battle hit safe to centre. Carr hit to short and on error made first. Battle went to third. Graham was hit and went to first. Graves hit to short and Battle went to second. Carr was thrown out at third.

Clemson: Cole flew out to Carr. Chisholm flew out to Donnelly. Hughey flew out to Pendleton.

Third Inning.

University: Holt hit a slow ball to pitcher and was out. Pendleton went out on three strikes and throw to first. Donnelly flew out to Chisholm.

Clemson: Pearman hit to Battle and was out on first. Sitton was out second to first. Dingle was out to Donnelly.

Fourth Inning.

University: Smathers hit to left for two bases. Cocke hit to short,

who tried to catch Smathers between second and third. On error of third Smathers was safe and Cocke went to first. Battle hit to second and Smathers scored. Carr flew out to first. Graham flew out to catcher. Graves hit to centre and Cocke scored. Battle went out to third.

Clemson: Barksdale was out, Battle to Holt. Hunter flew out to Carr. Bamberg fanned.

Fifth Inning.

University: Holt fanned. Pendleton hit safe, as nobody was under an easy one that dropped at second. Pendleton died in trying to steal second. Donnelly hit to short and was safe on that player's error. Smathers hit to pitcher and Donnelly was out at second.

Clemson: Cole went out, Carr to first. Chisholm hit safe to centre. Hughey hit to Cocke and on a pretty double from Cocke to Carr to Holt, Chisholm and Hughey went out.

Sixth Inning.

University: Cocke made a base hit safe to centre. Carr bunted safely. Graham hit to short and Cocke scored. Graves hit a long liner to centre and Battle and Carr scored. Holt hit to short and Graham scored. Pendleton was caught at second. Donnelly hit safe to left. Smathers hit safe through short.

Battle hit safe to right. Donnelly scored on a passed ball. Carr got first on balls. Graham hit to left and Smathers and Battle scored. Carr was caught at the home plate.

Clemson: Pearman was out, Battle to first. Sitton hit to Holt and was out at first. Dingle hit to Battle and on error made first. Barksdale was out, second to first.

Seventh Inning.

University: Graves was hit by pitcher and went to first. Graves stole second. Holt hit to short and Graves was out at third. Pendleton hit to short and Holt went out at second. Donnelly flew out to centre.

Clemson: Hunter was out, short to first. Bamberg hit safe to left. Cole was out on a beautiful stop by Cocke and throw to first. Chisholm was out, Cocke to first.

Eighth Inning.

University: Smathers was out, catcher to first. Cocke was out, short to first. Battle struck out.

Clemson: Hughey hit safe to left. Pearman flew out to Carr. Sitton hit to Holt and was out. Dingle flew out to third.

Ninth Inning.

University: Carr was out, short to first. Graham was out, catcher to first. Graves hit safe to centre. Holt was out, third to first.

Clemson: Barksdale flew out to centre. Hunter hit to Carr and on wild throw made second. Bamberg flew out to Smathers. Cole was out, Carr to first.

The total enrollment of the current session of the University of Michigan is 3700.

Raleigh Defeats Varsity.

Eleven to Six Result of Game.

Last Friday afternoon in Raleigh the Varsity went down before Raleigh's professional team to the score of eleven to six.

The game was full of errors and mis-plays on both sides, and neither side seemed to be in form. Cunningham pitched good ball at times but was very erratic. Wilcox played magnificent ball in centre, and Graves' work behind the bat was excellent.

For Raleigh Legrand at catch, Atz at third and Sherman in the field were the star players.

Raleigh went to bat first and the first three men up were put out in rapid succession. Carr made a fine stop of a hot grounder from Person. Varsity started in with a rush and piled up four runs. Carr reached first on Meades' error but was caught at second. Graham got his base on balls and was advanced on Graves' safe hit. Meade fumbled and Holt safely reached first. Oldham struck at the air three times and was out. Cocke lined the ball out for two bases, scoring Graham and Graves. Smathers followed with another two-bagger and Holt and Cocke crossed the plate. Wilcox bunted and was caught out at first.

Second Inning.

Raleigh was quickly retired in one-two-three order, our boys playing fast ball.

Cunningham for the Varsity hit to third and was out at first. Carr hit fly ball to right and was out. Graham and Graves both went to base on four balls. Holt made safe hit to right, scoring Graham. Oldham got to first on balls. Cocke retired the side by fanning.

Third Inning.

Sherman and Legrand both got nice hits and then Stanley sent the ball deep down in right field for a home run, scoring the other two. Person followed with a hit for three bases and then came home on wild throw. Hinnegan hit safely and stole second. Kelly placed a hit in right, scoring Hinnegan.

Ottmer reached first on error of of Holt. Kelly reached third and then stole home. Atz fled to left. Meade hit safely, scoring Ottmer. Sherman flew out to first, retiring the side.

Our players could do nothing in their half of the inning. Wilcox hit safely, but the other three were quickly put out.

Fourth Inning.

Raleigh could do nothing. Legrand hit safely, stole second and was caught out at home. Others up were easy.

Varsity got together and made another run.

Graham got base on balls. Graves struck out. Holt hit to centre and Graham reached third. Oldham fled to Ottmer reached third. Atz fouled out to Smathers. Meade fled out to Wilcox, but Ottmer scored at home. Sherman popped a

high fly to Cocke and was out.

Varsity again failed to connect and were quickly retired without any special features.

Sixth Inning.

LeGrand reached first on Carr's error. Stanly again knocked the ball away for a home-run. Person got base-on-balls, but was caught out between second and third. Hinnegan and Kelly failed to reach first.

Carolina again went out quickly, retiring in one-two-three order and no one reaching first.

Both seventh and eighth innings was without results. Harrington went in box, in eighth, succeeding Cunningham. In this inning Graves, in trying after a foul ran into a fence, sinking his head and arms. He fell senseless but held the ball momentarily. In a few moments he was able to get up, but Holt had to go behind the bat and Cunningham took first.

The ninth was unproductive of runs, only feature being a magnificent catch of a long drive from Hinnegan's bat by Wilcox.

Official Score:

RALEIGH.	A.	B.	R.	H.	E.

 SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

To Georgia go the laurels this year, as victors in the annual inter-collegiate debate.

Nothing but the highest praise have we, nevertheless for our debaters, Messrs. Williams and Stern. We believe that they presented their side of the question better than anyone else in the University could have, and as well as any college students in the South. It was simply "fortune of war" that they had to champion one of the most unpopular theories that vexes this Southland of ours.

Two victories and one defeat! Many of us would have preferred three victories, no doubt. But, if we had to meet defeat anyhow, it would have been impossible for one to have come more opportunely. It came just in time to effectually check any tendency to over-confidence and consequent carelessness that our team may have had. Many of us will remember what beneficial results came of our defeat by Oak Ridge school last year in just this way. So, on the whole, there is no reason to be dissatisfied. The pitching that the boys went up against in the second Lehigh game, was a foretaste of what we may expect later on in the season, and is a warning against that effort after two- and three-base hits that some of the players have gotten into the habit of making every time they come up.

The team has been playing as good ball, as we have ever had, often doing brilliant playing. The team is one to count on, and we need have no doubts of the record it will make this spring.

We print in the last column a letter which the editor received from an Alumnus who is now in attendance at one of our largest Northern Universities. It goes without saying, that the editors highly appreciate his encouraging words; we hope that all of the "out of town" readers can speak as kindly. But we do not mean to deny that there has been some cause for complaint.

George Washington was the first person to receive the degree of L. L. D. from Harvard.

COMMUNICATIONS

Editors welcome all articles of a timely nature for publication in this column, though they do not hold themselves responsible for the sentiments expressed therein.

The Tar Heel:

Since the fall of 1894 it has been my pleasure to read every issue of the Tar Heel. During that time there has not been an issue that has failed to contain some complaint of the failings of somebody. Possibly two or three of these complaints in seven years have been justified, while the remaining have apparently been the virgin attempts of some guileless youth at sarcasm, irony, and general expressions of contempt. Truly the late editor of the Iconoclast could learn many "stunts" from these self-rated sages. Would that Diogenes with his lantern could take a trip to Chapel Hill and find at least one man to satisfy the demands of this sage.

In the last issue that has come to my notice there is a complaint that the editors do not do their duty. The sage thinks that if some of the large institutions can maintain a daily, our University should at least have a good weekly. For his benefit allow me to say that the Tar Heel reflects credit both on the University as well as the editors. There is more readable matter (excluding the "kicks") in its weekly issue than in a whole week's publication of many of the dailies. In this University the daily (so-called) is stuffed into our little boxes about three mornings in the week in fair weather just in time to serve as shaving paper and even for this use is inferior. In justice to the editors let me say that the Alumni, at least, appreciate their efforts and read with pleasure every line (except the "kicks").

If these aforesaid sages would spend their literary energy in "Fresh English themes" and would lend their substantial support—instead of contempt—to the Tar Heel the "out-of-town" readers would be very grateful.

Just to break the record—if for no other reason—is it not possible to have an issue without a single "kick" or paragraph of back-biting?
 ALUMNUS.

Carolina 10; Cornell 9.

In a magnificent game of ball played here Monday afternoon, Varsity defeated Cornell by score of ten to nine. Both teams played excellent ball, and batted heavily. We were in the lead till seventh when visitors scored 3 runs and in eighth 4 more, making the score 9-9. Things looked very uncertain and the ninth inning was full of excitement. Harrington knocked a two-bagger, scoring Smathers and winning the game.

The crowd was fairly good-sized and rooting at times excellent. Full account of the game with tabulated score in next week's Tar Heel, which will also have account of the Carolina-Virginia game to be played in Charlottesville next Saturday.

We beg to inform our readers that Dr. I. N. Carr of Durham, one of the Tar Heel's faithful advertisers has moved his office over Kronheimer's Store, Summerfield Building. Give him a trial when you are in need of Dentistry work.

Locals.

Major Cain and Prof. Henderson spent Saturday and Sunday in Hillsboro.

Miss Louis Jones of Charlotte is visiting Miss Mary Graves.

Mr. B. R. Webb of Hillsboro was on the Hill for a day or two last week.

Miss Venable came up from St. Mary's on Friday to spend a few days with her parents.

Messrs. Battle, Root and Andrews went to the University Station Friday evening to meet those coming to the Dance.

Mr. T. D. Rice '00 is now at Statesville, N. C. in a Geological Survey. Robt. Lassiter has succeeded him as assistant in Geology.

Mr. A. W. Haywood, Jr. has been quite ill at his home at Haw River, with Pneumonia. At present he is somewhat improved.

The Phi Delta Theta Fraternity are constructing an excellent Tennis Court just back of the South Building.

Prof. Noble returned from Wilmington Tuesday.

Messrs. Stern and Williams returned from Atlanta Monday.

Mr. T. C. Oliver is again on the Hill after a rather extended visit to his native land.

Mr. Oran S. Thompson ex '02 is on the Hill for a few days.

Dr. Chas. Baskerville has been in Baltimore the past week.

Messrs. T. N. Webb and Paul Collins of Hillsboro were over to the Lehigh game Tuesday.

Easter German.

The most enjoyable dance of the year was given last Friday evening in Commons' Hall by the University German Club. Although there were many conflicting dances throughout the State, a large number of young ladies attended.

The German was ably led by Mr. W. K. Battle with Messrs. A. S. Root and Graham Andrews as assistants. Many new and intricate figures were introduced which brought forth appreciative applause from the spectators.

Haywood's band of Raleigh furnished the music.

The following attended:

- Miss Lizzie Nash, Mr. J. C. Webb
- " Isabel Norwood " R. Hamilton
- " Norwood " P. C. Collins
- " Riba Bridgers " Geo. Graham
- " Placid Bridgers " W. A. Murphy.

Miss Charlotte Young, Mr. R. E. Pagne, Jr.

Miss Elsie Haywood, Mr. Emory Alexander.

Miss Rosa Battle, Mr. Eben Alexander.

Miss Florence Boylan, Mr. M. Makeley, Jr.

Miss Bittie Gordon, Mr. C. Howles

" Ettie Haywood, " S. P. Boss

" Lewis Jones, " M. Calder

" Thompson, Mr. A. S. Thompson

" Moses, Mr. Stringfield

" Bynum, " Henderson

" Alexander, Mr. M. Staton

" Adderton, " P. W. Richardson

" London, " Palmer Cobb

" Eliza Busbee, Mr. A. R. Berkeley.

Miss McRae, Mr. H. Short

" Griffith, Mr. G. Galloway

Stags: Messrs. Bell, Morehead, Lemly, Fred Hanes, Carr, Ramsey, Whitehead, Dunn, Pearson, Gwyn, McRae, Benard, Brenizer, Holland, Byrns, Rosamond, K. P. Lewis, Turner, Cox, and Ehringhaus.

Chaperons: Mrs. Pratt with Dr. Pratt; Mrs. Barton, Mrs. Mangum with Dr. Mangum, Mrs. Gore, Mrs. Gordon, Mrs. Linscott with Dr. Linscott, Miss Hooper, and Mrs. Graves.

**OF INTEREST TO STUDENTS
Desiring Profitable Vacation Employment!**

This company desires to engage an energetic student in each county for the summer vacation, to interview book buyers in the interest of our "Book-buyers' Union," manage our Sample Display at Teachers' Institutes, and distribute to all teachers and book buyers, our Price Lists with explanation of our Book and Magazine Combinations, etc.

All book bills cut in half; any book wanted supplied direct from publisher at 85 per cent. to 60 per cent. discount; \$7.50 worth of latest novels (your choice) for \$3.95; \$8.50 worth of leading Magazines (your choice) for \$3.95; \$10.50 Standard Fiction, History, etc., \$3.50. Endorsed by all book buyers.

"As Chairman of Book Committee of Chicago Women's Club, I have for past 4 years bought all their books through the Northwestern Library Association at an average discount of 40 per cent.; I have had prompt service; they do an immense business." - Mrs. S. A. Dixon, Librarian, Univ. Chicago.

"Mrs. Dixon's last purchase was March, 1901."

"I take pleasure in recommending the Northwestern Library Association as a reliable institution, and one which is very beneficial in enabling members to get books, etc., at wholesale prices." - John F. B. Hinds, Dean Cumberland Univ., Lebanon, Tenn. (Prof. Hinds' last purchase was May, 1901.)

Our 1901 Book and Magazine Combinations are sweeping things wherever offered, and are a revelation in modern book selling. To one student from each county furnishing satisfactory references, we offer a 4 months' vacation engagement at \$45.00 month, and commission on sales. The position will pay \$100.00 a month with reasonable push and energy. To first student applying from each college, we offer exclusive rights of representing us in his college and college town, which position will easily pay \$100.00 to \$150.00 to \$200.00 a month, for his evenings and Saturdays, between now and June. Address, NORTHWESTERN LIBRARY ASSOCIATION, 5 and 6 Washington Street, CHICAGO, ILL.

**SHERIDAN TEACHERS' AGENCY,
GREENWOOD, S. C.**

Thoroughly trained professional teachers and specialists wanted. Covers the entire South thoroughly, Eighth year. Established reputation, honest work, business methods, reasonable charges. Endorsed by the leading educators of the South. Write us at once. Best service to be had in the South.

F. M. SHERIDAN, Manager.
T. J. Creekman, Special Agent, Lynchaven, Va.

SCORE REVERSED.

Lehigh Defeats Varsity 13 to 2.

The second game played by the Varsity against Lehigh last Tuesday afternoon on the home grounds was the great surprise of the season. Every body was very confident that Carolina would easily win, the only question being by how large a score, but alas! the Northerners started in with a push and when the first inning was over they had already secured a lead that our boys did not overcome.

It was the worst defeat the Varsity has received in several seasons. The only excuse we offer is that it seemed to be an off day with nearly all the players. Wilcox started in as pitch and if he had received the proper support of the fielders his work would have been satisfactory. The visitors scored four runs in the first inning and all of these were on long hits to the field, but the balls were mis-judged and Lehigh gets credit for base hits.

Gaves L. played short in place of Carr who was necessarily away from the Hill. His playing was good and was one of the features of the game. Not only did our boys have an off day in fielding, but their batting was unusually poor. Only two hits were gotten during the whole game. The trouble from the start was overconfidence and perhaps the defeat will do the team good.

The pitching of Taylor for the visitors was their star playing. Game called at 4:05 with Carolina at the bat.

Graham goes to base on four balls and is caught napping at first. Graves E. hits liner to short; is out. Holt drives to short who makes nice pick-up and throws him out at first.

Parsons drives to left for two bases. Eisenhart follows to same place for another two-bagger, scoring Parsons. Lilley hits safely over second and Eisenhart scores on Pendleton's error. Person hits to Holt and is out at first. McKelvery hits to Graves L., who catches Lilley out at third. Alder pops over third for a safe hit, scoring McKelvery. de Schwinitz drives long ball over center for three bases and Alder scores. Reise strikes out.

Second Inning.

Pendleton gets a base on balls and steals nsecond. Donnelly fans Smathers hits to third and is out at first, who throws back to third catching Pendleton.

Battle goes in to pitch. Graham goes to left, and Donnelly to right, Taylor drives to short and is thrown out at first. Eisenhart gets another two bagger over left, but dies at second, as Lilley flies out to Pendleton.

Third Inning.

Cocke hits to short and is thrown out at first. Battle pops fly to third and is out. Graves L. gets safe hit by third. Graham strikes out.

Person drives to Cocke and is out at first. McKelvery lines the ball over center for three bases. Alder reaches first on error of Smathers and McKelvery comes home. de Schwinitz hits to left for two bases scoring Alder. Reise flies out to right and Taylor goes out from short to first.

Fourth Inning.

Graves R. fails to connect and is

thrown out at first on three strikes. Holt flies out to second. Pendleton strikes out.

Parson hits to Graves L. who makes a clever stop and throws him out at first. Eisenhart is out from Battle to Holt. Lilley gets base Person reaches first on error of pitcher. McKelvery is thrown out by Smathers to first.

Donnelly hits to third and is out at first. Smathers is out at first from third. Cocke gets first on four balls and Battle flies out to McKelvery.

Alder hits to short and on wild throw of L. Graves goes to second, and on a passed ball goes to third. de Schwinitz hit to short and is thrown out at first. Reise flies out to Graham. Taylor hits to short and is thrown out at first.

Sixth Inning.

Graves L. drives to second and is out at first. Graham out at first from ball in the same place, Graves gets hit and goes to first. Holt hits to second and out at first. Parson drives over second for a safe hit. Eisenhart hits to left, Parson going to third. Lilley flies out to Graves E. and Eisenhart is caught out at first. Person flies out to Oldham.

Seventh Inning.

Pendleton gets base on error of McKelvery. Oldham hits safely to short. Smathers sacrifices Pendleton to third. Cocke hits to Taylor, reaches first and steals second and third. Pendleton and Oldham score on error of Taylor. Battle strikes out. Graves L. flies out to second.

McKelvery hits to Cocke and is out at first. Alder goes to first on balls. de Schwinitz hits to short who retires Alder at second. Reise gets base on balls. Taylor makes hit to left. Parson gets base on balls forcing de Schwinitz across the plate. Eisenhart makes hit over third, scoring Reise. Lilley hits to center and Taylor scores. Person hits to short who catches Lilley out at second, retiring the side.

Eight Inning.

Graves E. goes to first on four balls. Holt hits to second who catches Graves out at second. Pendleton hits to same place and Holt is caught out at second.

McKelvery drives ball over left field fence for a home run. Alder hits to Smathers and is out at first. de Schwinitz gets to first on four balls, Reise makes a two bagger to left and de Schwinitz goes to third. Taylor reaches first on fielder's choice and on error of Graves E. de Schwinitz and Reise score. Parson hits to short and is out at first. Eisenhart hits safely to left scoring Taylor. Lilley flies out to Smathers.

Ninth Inning.

Oldham reaches first on error of Reise. Smathers flies out to center Cocke hits to first who throws Oldham out at second. Battle hits to third and is thrown out at first.

Carolina 10; Cornell 9.

Nice Game—Heavy Batting.

In a very hotly contested and exciting game of base-ball played here last Monday the Varsity defeated Cornell University nine by score of ten to nine.

Carolina had a sure lead up to the seventh and eighth inning when the visitors had a streak and scored enough runs to tie the game.

The ninth opened with result very uncertain, but Carolina crossed the plate once and the Northerners could not reach home.

The playing all through the game by both teams was very excellent, with a few notable exceptions.

Cunningham pitched nice ball part of the time but toward the end his work was very uncertain and control not good.

Harrington succeeded him and did his work well.

For the visitors Costreed did star fielding work.

The batting of both teams was heavy and the game on the whole was a fairly good exhibition of base-ball, and at times was intensely exciting.

The rooters on the bleachers limbered up and did effective yelling at critical times.

The crowd numbered about 200, which is by far too small an attendance for such a game.

A large and interested number of spectators "beat the manager" and saved 50 cents by witnessing the games from windows, trees and fences. This method of seeing games must be humiliating to the University.

Below is the account of the game.

Game called at 2:05 with Carolina at the bat and Cornell in the field.

Carr goes to bat and hits safely over second. Oldham sacrifices to pitcher and is out at first. On wild pitch Carr reaches third and then scores. Graves flies out to second. Donnelly hits for fine three-bagger between centre and left. Holt hits to short who fumbles and Donnelly scores. Cocke gets safe hit by third and Holt goes to second. On passed ball, both advance a base. Wilcox hits to short and on error of first is safe and Holt scores. Smathers drives over second and Cocke scores. Cunningham ends the inning by striking out.

Cornell: Brewster opens up with a safe hit by third and steals second. On wild pitch he reaches third. Lyon hits to Smathers who fumbles and Brewster tallies. Robertson makes a safe hit to right. Harvey strikes out. Drake hits to pitch and is out at first and Lyon caught out at home.

Second Inning.

Carolina: Carr gets base on-balls. Oldham hits safely over second, and both advance a base on passed balls. Graves hits second and Carr is thrown out to home. Graves steals second and on throw from catch to second, Oldham scores at home. Donnelly hits to pitcher who

throws wild and he goes on to second. Graves is caught out. Holt hits grounder to third and is thrown out at first.

Cornell: Bristol flies out to Cunningham. Costello hits grounder and is caught out by Holt. Brown hits to Smathers throws him out to first.

Third Inning.

Carolina: Cocke flies out to left. Wilcox hits to third and is thrown out to first. Smathers hits to pitcher and is out to first.

Cornell: Whinnery hits to Carr and Holt catches him out. Brewster bunts in front of plate and is safe, but Cunningham catches him off and he is out. Lyon hits to Smathers and is out to first.

Fourth Inning.

Cunningham knocks grounder to second and is caught out at first. Carr walks on four balls. Oldham makes safe hit to left and Carr goes to second. Graves hits ball toward second, it touches Oldham as he runs toward the base and he is called out. Carr goes to third.

Donnelly lifts another pretty two-bagger over left, scoring Carr and Graves reaching third. Cocke gets hit by pitched ball and goes to first. Wilcox flies out to right.

Cornell: Robertson hits to pitcher and is out at first. Harvey gets base on-balls. Drake makes safe hit to centre, and Harsey is caught out by Cocke from Cunningham. Drake steals second. Bristol hits safely to right, scoring Drake at home. Costello strikes out.

Fifth Inning.

Smathers hits safely to centre. Cunningham flies out to right. Carr hits to short and Smathers is caught out at second. Oldham hits to short, who throws to second. Oldham hits to short, who throws to second catching Carr out.

Cornell: Brown flies out to centre. Whinnery strikes out. Brewster reaches first on bunt and goes to second on wild throw. Lyon hits to short and is out at first.

Sixth Inning.

Carolina: Graves flies out to right. Donnelly hits through pitcher to short who throws him out at first. Holt makes safe hit to left. Cocke hits to second and is out to first.

Cornell: Robertson gets a pretty three bagger between centre and left. Harvey hits to pitch and is thrown out at first. Drake hits to third, on wild throw reaches first and Robertson scores. Bristol goes to base on balls. Costello hits to Cocke and is out to Holt. Brown gets base on-balls. Whinnery hits safely to left, scoring Drake and Bristol. Brown steals third. Brewster fills the bases by reaching first on called balls. Lyon ends the agony by fanning.

Seventh Inning.

Wilcox hits to third and is out at first. Smathers hits safely toward third. Cunningham flies out to pitcher. Carr hits prettily over second

(Continued on last page.)

Virginia 9, Carolina 2.

To the utter surprise and great disappointment of the whole University, the Varsity nine was defeated in Charlottesville last Saturday by our old rivals of Virginia, by the score of nine to two.

At Charlottesville the morning was very rainy and the idea of having a game was abandoned, but towards noon it ceased and although the clay grounds were in very poor condition, yet it was decided to play.

The game cannot be taken as an example of either side's strength. Many very pretty plays were made some difficult stops received much applause.

The Varsity did not put up its usual game of ball, while Virginia owing to recent coaching and criticism played faster than usual, but we have no excuse. They defeated us and Stoic like we accept the inevitable.

Both pitchers acquitted themselves well, allowing the same number of hits. Carr at short played good ball and Oldham made a sensational catch in right. For the Old Dominion boys the batting of Walker and fielding of Woodard were features.

Orr team arrived on the Hill Sunday morning. They report the best courtesies and clever treatment from the hands of their hosts, the students of the University of Virginia and a very generous and liberal applause for our players from their rooters.

The following is the game as received by wire from the grounds.

Virginia at the bat and Carolina takes the field.

Stearns hits to Smathers and is thrown out to Holt. Nalle hits to same place and is out to first. Steptoe reaches first on error of Carr. Walker makes safe hit, and Steptoe scores. Woodard follows with another safe hit scoring Walker. Carter flies out to Oldham.

Carr flies out to second. Graham hits to Carter and is thrown out to first. Graves hits to Coleman and is thrown out to Stearns.

Downing flies out to Carr. Coleman makes first on Cocke's error. Moran hits to Cunningham and Coleman is out at second. Stearns hits to Carr who puts Moran out at second.

Donnelly hits by first for a safe hit. Oldham hits to Steptoe and is thrown out at first. Holt bunts and is out to Stearns. Cocke pops fly to Carter and is out, leaving Donnelly on third.

Third Inning.

Nalle hits to Smathers and is out to Holt. Steptoe flies out to Cocke. Walker knocks ball over centre field fence for home run. Woodard goes out on high foul fly to Graves.

Carolina: Smathers hits to Carter and is out to Stearns. Cunningham strikes out. Carr gets pretty two-bagger. Graham gets hits by

(Continued on last page.)

Vanderbilt Debate.

A Victory for our Boys.

The second annual debate with Vanderbilt University, held Friday night in Gerrard Hall was a scholarly one, and it is with all the morpride that we rejoice in the victory.

The query was, "Resolved, That the concentration of capital into trusts and combines is an economic and social advantage." Carolina's representatives, Messrs. B. B. Lane, '99, and W. H. Swift, '01, upheld the affirmative. The visitors, championing the negative, were Messrs. T. R. Reeves, '01, and R. H. Scott, '01. Both teams handled their subjects in a masterly manner, and the contest was marked by almost equal excellence of argument on each side.

Judge McRae presided, and Mr. W. H. Stacey, of the Dialectic Society acted as Secretary and Timekeeper. The judges were Rev. Bratton, of St. Mary's Raleigh Mr. J. D. Horner, Principal of Horner Military School, Oxford, and Mr. J. A. Holt of Oak Ridge Institute.

We regret that we can only give the briefest outline of the debate, and cannot do justice to the arguments so briefly.

Mr. Lane opened for the affirmative.

"We maintain that the trust is a combination of capital demanded by the need of a more complete organization of industrial forces.

The trust can produce more, and keep supply in close touch with demand. Saves waste of useful advertising and employees, making labor of each man more productive; it can make a better and cheaper article, and at the same time has the financial power to weather panics.

In the trust merit must and will rise, for it is advantageous to have the best man at the top. If we make use of the trust as we do of the other forces God has given us, it must be of service, and give us that wealth and power which is transmitted into all that makes for national progress."

The principle of the inevitable necessity for such organization applies in the social organism, as in the physical. The history of civilization is fruitful in examples. The continued existence of an institution, is a proof of its service to society. This principle has held along all lines of development.

Division of labor, combination of capital, the partnership, the corporation, have all developed in due succession, as there was necessity for them.

Within the last three decades, the industrial development of America, naturally the economic superior of any other nation has demanded in place of the ruinous waste of the old competitive system, a system preserving to the country the benefits of low prices, and fairness to the manufacturers.

Mr. Reeves spoke first for the negative.

"A trust is a combination of capital for the purpose of accumulating wealth.

We admit that more can be accomplished by organized than by individual effort, but whether it is beneficial to society or not depends

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along his line.

The second Vanderbilt debate is over, and the victory won. It was the closest contest ever heard here, and at the end, opinions were sharply divided. An index of the feelings of a considerable portion of the audience is found in a remark one was heard to make as the judges retired to decide the debate; "I'm almost afraid they are going to give it to us." Many, no doubt, had, a similar feeling, though they would not have expressed it so.

The situation was simply this. The gentlemen from Vanderbilt expressed the personal feelings of almost every man in the audience, and they did it wonderfully and beautifully. As the debate went on, so intense was the feeling of interest that half of the audience forgot they were supporting Carolina and the affirmative. Vanderbilt stood for their views. Carolina did not. But the excellent argument of Messrs. Lane and Swift shook personal convictions, against their will.

As to the debate itself, little can be said that is not on the above lines. Many of the audience felt that the argument of Mr. Reese for the negative was decidedly the strongest put up. But that of our crafty old talker, Swift, in the face of such odds, fairly brought down the house.

The arguments of Messrs. Scott and Lane were absolutely flawless. Taken as a whole, to repeat what we have said before, it was the tightest contest ever heard here; so excellent was each side that it seemed a downright pity to have to decide that one was superior to the other.

The last of the Star Course of lectures for this year will be given Tuesday night. It will then be in order, after the lecture, to applaud heartily the Faculty Lecture Committee to whom the highest praise is due for putting the lecture course on its present basis, and for their excellent choice of the men who have delivered the lectures, or given the entertainments. For a small sum, the students have had the opportunity of seeing and hearing several of the best-known lecturers in the

country, besides the unique musical entertainment which was so much enjoyed.

The idea of having these lectures in addition to the fine series given by the members of the faculty, started last year. Only two were given last year, but their success led to the enlargement of the course, and five very successful entertainments will have been given this year. It is a great idea; such a course of talks is an enlightening and broadening influence which is of very great value in a community as secluded as ours.

(Concluded from 1st page.)

on its purpose. The purpose of a trust is to make money at the expense of a weaker competitor; so instead of an advantage to society it is an evil.

Trusts are an economic evil, because they place both buyer and seller at their mercy. The spirit of the trust is not to destroy individual competition and raise it to a higher plane; but to altogether destroy competition.

After competition is destroyed, the trust is free to raise prices at will, and does so. This is proved by the fact that American trust made articles in almost every case sell for more in this country than in Europe.

Trusts are a social evil because they are able to affect our politics, by expending immense sums to corrupt legislatures. They threaten to endanger our social system by destroying the independent action of individuals."

Mr. Swift closing for the affirmative rose amid wild applause. "A trust is a combination of capital for successful business, formed to meet the needs of modern life."

It is an economic instrument or organization. Ought the world to use its discovery? Do its advantages accrue to the public welfare. The introduction of an economic instrument is always beneficial to the people. It is true of the trust.

Prices are lowered. Useful competition cannot be eliminated nor is the trust meant to do so. Trusts stop destructive trade warfare.

Trusts do tend to control. This is only to be won or held by selling better articles at lower prices. Political competition would keep prices down, the struggle between different commodities would also give low prices; these two surface forces would accomplish the desired result and yet deliver us from cut throat methods.

As trusts can produce more cheaply it follows that prices will be lower than under a profitable individual business.

Although some laborers are dispensed with in the case of trusts, this is true of all other discoveries of economic value. They are temporary hardships, but they are incidents of the movement into a new life. The trust is the solution of how to bring labor, capital and business talent into cooperation. They will put a stop to the periodic returns of financial panics brought on by a debauched credit system.

The debate was closed by Mr. Scott who spoke in substance as follows:

A trust or a combine, is a combination of capital, between individuals or corporations, in order to get control of the output and price of that article of trade in which they

deal. The question involves the place of the individual in commercial life. The great tendency of the trust is toward monopoly, hence monopoly is the model trust. Through all history monopoly has been present and has always checked the progress of civilization.

The theory of organization is alright if the motive is alright. In the case of the trusts the motive is a selfish one and sordid one—self-aggrandisement.

The trust is destructive to competition and suppression of competition is contrary to all our theories of government. Competition is an advantage, 1st to the producer, 2nd to the manufacturer, and 3rd to the consumer.

Tendency of the trusts is to concentrate the wealth of the land in the hands of a few. Besides it divides society into two classes, the privileged few and the unprivileged many. Therefore it is a social disadvantage. Such divisions have caused revolutions in other countries, as France.

Each gentleman came on for a brief rejoinder. The debate was then closed and the decision of the committee announced.

Messrs Lewis and Moss went to Durham Thursday evening on business.

The Georgia Debate.

"Resolved, That the Combination of apital, commonly called Trusts are more injurious than beneficial."

The fifth annual inter-collegiate debate between the University of Georgia and the University of North Carolina was held in the College Chapel at Athens Ga., and was hotly contested.

The Audience present was in thorough sympathy with the debaters. We are confident that our boys supported the Institution which they were privileged to represent. They were masters of their subject and they showed excellent training and a great deal of study. The points were presented in a clear, forcible manner and were brought out with powerful and brilliant effect. The examples quoted and authorities cited were of the best, and the University of North Carolina is indeed proud of such worthy representatives who have so nobly upheld not only their Alma Mater, but their native state.

The debate was opened by Mr. E. A. Goodrich for Georgia in defending the affirmative. Mr. Goodrich made strong points and forcible arguments and presented his side unusually well.

Mr. D. P. Stern of North Carolina, followed for the negative. Among the points brought out by him were the following. In surveying the greatness of our age caused by invention and perfection of machinery, facilities for transportation and communication. To supply the world's great demands, organizations are absolutely necessary. The business man has found out that his true interest does not lie in opposition, but in combination. He showed how inequalities of demand and supply either results in a panic or in industrial combination. The trusts are caused by our foreign trade, by the magnitude of modern business, by overproduction and by excessive competition. Trust does not differ in character from the corporation that has preceded it. The trust owing to certain economics inherent in its Nature produces and distributes cheapest, the consumer gets the benefit of these economics in low prices, the very life of the trust depends upon this fact. This increased consumption means more labor and that means increased wages.

They produce cheapest on account of 1 great specialization. 2 Improved system. 3 Employment of best scientific skill. 4 Manufacture of best products. 5 An approximate regulation of supply to meet the demand. The economics in distribution are: 1 Doing away with unnecessary selling force. 2 Saving of cross-country freight. 3 Improved transportation facilities. 4 Conservatism in extension of credits. Shows why trusts must keep down prices, and points out the benefits to the laborer, to the farmer, to the producer and consumer in the prosperous condition of our people today. He points out the great importance of wealth and pleads for the poor man—that wealth may be placed in his hands, not above him. Then we can turn our efforts and benning our energies toward the uplifting of the human race. This is the ideal condition and we favor

the trust because it assists in accomplishing this ideal condition.

Mr. W. S. McIntyre of Georgia replied with paralyzing arguments for the affirmative, speaking for twenty-five minutes.

Mr. R. R. Williams of North Carolina concluded for the Negative. He defined the true nature of modern competition, and denied that its practice is good. Showed the effects on the country and on the laborers and farmers, showing that agricultural products have increased since the formation of trusts. Greatest of all the advantages enjoyed by the trusts is the elimination of financial panics which are due to cut-throat competition and are made impossible by the perfect organization of trusts.

Our foreign trade is dependent on the trusts, for nothing but such a gigantic organization can secure this trade for us.

Trusts are exactly in harmony with the principles of our social life. It creates an organization in which the masses can invest their money. It does not destroy individual opportunity, but increases it. For greater organization always creates greater positions of honor and emolument, and every man that has secured these positions through talent alone.

These conditions of combined capital may seem enormous when compared with those of one hundred years ago, yet they are no larger when compared with the transactions of that day and this. Changed conditions have necessitated changed methods. Hence trusts have come. Nothing strange and mechanical, but simply a growth demanded by progress and they have succeeded only because they meet the demands of progress.

Individuals no longer fight individuals, but combinations. This is the principle of modern society.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

Vol. 9,

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., April 29, 1901.

No. 26

Carolina 10; Georgia 1.

The Varsity had an easy time with the University of Georgia boys in the games played here last week.

The first game on Tuesday resulted in a victory for Carolina by the score of 10 to 1. The whole contest was dull and uninteresting; our boys having such a complete walk-over.

The team itself was lifeless in its work and should have piled up a larger score. There were no pretty plays and no features.

Georgia was weak in nearly every position and in no way a match for our boys. The game was called at 4 o'clock and the visitors went in the field; with Carolina at the bat. Carr gets base on balls. Graham sacrifices from pitch to first and Carr goes to second. Graves hits to third and is thrown out to first. Holt hits to pitcher and is out to McMullen.

Georgia—Jaques hits to Smathers and is out at first. Bevers strikes out. Blackshear goes to first on called balls. McMullen fans the air three times and is out.

Second Inning.

Oldham hits safely by third, Donnelly hits hot over to short who fumbles and he is safe at first. Oldham and Donnelly steal. Smathers gets safe hit by second, scoring Oldham and Donnelly. Smathers steals a base. Cocke hits to short and Smathers is thrown out at third. Cocke steals second. Cunningham knocks grounder to McMullen and is out at first, Cocke going to third. Carr hits hot liner to third and is out.

Smathers injures his shoulder in sliding and Wilcox takes third.

Georgia—Gordon hits to Oldham who makes beautiful catch and is out.

Hull strikes out. McCalla foul flies out to third.

Graham G. succeeds Wilcox at third.

Georgia—Monk hits grounder to Holt and is out. Brown flies out to Carr. Jaques on four balls reaches first. Bevers hits safely by second. Blackshear hits to Holt and is out.

Fourth Inning.

Donnelly hits to short and is out at first. Graham G. is out from pitcher to first. Cocke gets hit and takes his base. Cunningham flies out to Hull.

Georgia—McMullen fails to connect and is out. Gordon follows and fans.

Hull hits hot one to Cunningham who makes pretty one-handed stop and throws him out to Holt.

Fifth Inning.

Carr receives his base on called balls. Graham A. makes a beautiful bunt in front of plate and Carr goes to third. Graham steals second. Graves hits in front of plate and no error of Monk. Carr scores. Graves steals. Holt hits safely to centre, scoring Graham and Graves. Oldham foul flies out to third who makes pretty catch.

Donnelly flies out to Bevers. Graham G. hits to second and on Be-

er's error reaches first. Cocke is out from Gordon to Hull.

Georgia—McCulla flies out to Donnelly. Monks strikes out. Brown strikes out.

Sixth Inning.

Cunningham hits safely through pitcher and steals second. Carr makes safe hit to left and steals second. Graham A. hits safely between second and short, scoring Cunningham and Carr. Graves hits safely over second and Graham reaches third. Graves steals second and Graham reaches home on error by Bevers. Graves reaches third on piss ball and scores on wild pitch. Holt hits to short, and is out to first. Oldham hits grounder to McMullen and is out. Donnelly gets pretty two base hit to left. Graham G. flies out to second. Georgia—Battle succeeds Cunningham at pitch. Jaques gets a pretty two bagger to left and goes to third on wild pitch. Bowers flies to Donnelly. Jacques scores. Blackshear strikes out.

Seventh Inning.

Cocke is hit and takes his base, then steals second. Battle strikes out. Cocke steals third. Carr flies out to short. Graham A. reaches first on error of second and Cocke scores. Graves hits to second and is out to McMullen.

Georgia—Gordon strikes out. Hull gets base on balls. McCulla strikes out. Gordon steals second. Monks hits grounder to first and is out.

Eighth Inning.

Holt flies out to Hull. Oldham is out from Gordon to Hull. Donnelly flies out to third.

Georgia: Bowers strikes out. Jaques strikes out. Bevers reaches first on Carr's error. Blackshear flies out to Donnelly.

Ninth Inning.

Graham G. hits to pitcher and is out at first. Cocke hits safely out to third. Battle hits hot one to second who fumbles and Cocke reaches second. Carr hits long fly to left and is out. Graham a fly to some place and is out.

Georgia: McMullen hits safe to right. Gordon is out from Battle to Holt. Hull strikes out. McCalla hits fly toward third, but ball is missed and Battle touches McMullen who is trying to steal home.

(Continued on last page.)

Maryland Games.

The last base-ball games of the season on the home-grounds will be played Thursday and Friday against the University of Maryland team, which has the reputation of being one of the strongest college nines in the country.

The games no doubt will be hotly contested and our boys are determined to fight hard. Every student should go to these games and cheer the Varsity on. Their record this year has been excellent and we all must go out and show our continued confidence in them.

Henry Watterson Lectures

On Abraham Lincoln.

Students of the University and residents of Chapel Hill were afforded a rare treat last Tuesday night when Mr. Watterson lectured here. This was the last of a star course of lectures and the two literary society together with the University should be congratulated on the course offered by them to the public.

Dr. Venable introduced the speaker and announced that Mr. Watterson would give his lecture on "Lincoln" instead of "Money and Morals" as had been expected.

The personal characteristics of Lincoln were portrayed in a striking and vivid way. His thin face, angular form, coarse black hair and plain clothes were the outward marks of distinction, nor should we forget his kindness of heart and his keen sense of humor; these were apparent and added a charm to the personality of the man.

The men who were leaders at the beginning of the great strike were pictured—their characteristics described.

Webster had tried to prevent a conflict, Clay attempted a compromise, but to no avail. The issues must be settled. "They were moral forces that would down at no man's bidding. The middle ground began to narrow. Slowly the forces of freedom approached those of chivalry, and those between were crushed or absorbed by one side or the other."

Politics too became clouded but at this time one man appeared in the North. The early life and struggles of Lincoln were traced up to the point where he took the lead in the North. Lincoln had been unconsciously training for the presidency all his life. He was a born commander and his simple honesty and candor were traits which few men possess.

Many incidents were cited to verify these statements.

Mr. Watterson then asserted that Lincoln was a friend of the South who was the only one possessing the power of saving it from itself.

It was most emphatically declared in speaking of the famous conference at fortress Monroe—that Lincoln was prepared to make there a proposition looking to remuneration of the South for the slaves about to be freed. No opportunity was given him to make such an offer.

According to Mr. Stern's account of the conference, Mr. Lincoln stated that he would be willing to be taxed to remunerate the Southern people for their slaves. He thought there was a general sentiment throughout the North to this effect. Lincoln stood for the restoration of the Union, nothing else.

Lincoln was a far-seeing, broad-minded statesman, true to his conviction and to himself—a great man, a typical American.

In closing Mr. Watterson summed up in a masterly way the life of Lincoln. Common sense, he said, was the secret of Lincoln's power. Lincoln, like Shakespeare or Mozart or Burns was inspired of God.

Although he had in his youth scarcely no opportunities yet when in his manhood, the time of trial came, other statesmen were relegated to the rear by this masterful man.

James Sprunt Monograph.

This publication by the University is of more than common interest. It consists of four parts. 1st, the Congressional Career of Nathaniel Macon, by Mr. Edwin M. Wilson, A. B., 1891. This informs us of the votes and speeches of Mr. Macon in his long service in both branches of Congress. Secondly, more than twenty letters by him, mainly during the administrations of Monroe and J. Q. Adams. They give fully the constitutional and political views of the writer. Thirdly, a long letter by Willie P. Mangum, written soon after he entered Congress, very interesting and instructive. Fourthly, very copious notes by Dr. Kemp P. Battle, explaining the numerous allusions in the letters to personal and political facts and measures. The attentive reader will from this monograph gather much information about the first decades of our history.

Any one becoming a member of the North Carolina Historical Society and paying one dollar initiation fee can obtain the volume.

Princeton's spring football practice began a few days since. A systematic course of training will be adopted, and the expressed aim will be to keep the men in the best possible condition until next fall.

A team of American Athletes will go to Europe again this summer to compete in all the large British games. The team will not represent any American University, nor will it be under the control of any organization. The trips undertaken as an individual enterprise.

Lamar Rankin, who has been at the University of North Carolina for the past two years, arrived in Sewanee Friday morning, and will enter the Academic Department.—Sewanee Purple.

SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along his line.

What is at the bottom of Southern Inter-Collegiate Athletics? What is the spirit that leads to our contests?

We can all agree as to what it should be. We would probably formulate something like this: "A desire to promote cordial relations between institution and institution by friendly rivalry in sport; but above that, and above everything else, a love of the sport for the sport's sake."

But isn't that a mere ideal?

We believe not. There are teams in the South who live up to the true spirit of sportsmanship and we have just played with one of them. The way in which the University of Georgia, with one of the weakest teams in her history, is still filling all her dates at financial loss, is one of the most sportsmanlike things in the history of Southern Athletics. Many of our teams would not have done so, if we may judge from the past. There have been more than once among us, teams that, on finding their weakness, have found means to wriggle out of games that meant defeat to them. Nothing could be farther from the true spirit of sport than this kind of action. It is actuated by none of the high principles that should govern the contests between college gentlemen, but by a dishonorable spirit which says only, "Win; win fairly, if possible, but never fail to win." Such a spirit is a disgraceful one among gentlemen, as is plain on reflection; it could do credit only to professionals.

If the college puts its best men on its team, good! And if those men play their best, and give the best the college has in its shop,—ah! That is true sport! If they defeat their opponents, so much the more honor; but if they are defeated at their best, then so much the more the honor to their opponents, but not one bit the less to them.

From a standpoint of true sport there is far more distinction achieved in the plucky way in which Georgia, or any other team, plays ball, with no hope of a high record in scores, than in the thousand percent. of a team that picks its games and finds means to evade the hard

one on its schedule.

"Sport for sport's sake," is the principle that college athletics should be based on; not "Championship." We here at the University of North Carolina believe that and try to live up to it.

Here is a good place to put in another word: This principle must be as honestly that of every student of a college, and every supporter of the team, as of the team itself, and its managers.

Nothing is more disheartening to a team, who do look on this matter as gentlemen should, and feel honestly satisfied when they have done their best, than to have so many evidences of a total lack of appreciation of the principles of sport, as are sometimes shown by their supporters. A college team deserves as much applause after having been defeated in a good game, as after a victory. Yet how much of a reception was tendered our team last fall after its greatest football game, or last week after its greatest baseball game?

We go up against Virginia's usual superior teams year after year, and naturally, defeat is not infrequently the experience of our teams. But there is far more honor to be won in a nery struggle against odds, than in the most decisive victory. As sportsmen, the Virginians have no more proved themselves our superior, than we have proved ourselves the superiors of the Georgians. This proposition seems strange at first, but we are coming to understand it. It is the truth. We are beginning more all through the South to see it so, and this is the surest sign of the good influence of the Southern Association. We may hope that in a few years all the little bickering between teams, and all the petty quarrels about the scores will be a thing of the past—something that college teams will be ashamed of, when the sole aim of each team is to play hard, fair ball.

A most brilliant entertainment.

Few lecturers have come to us whose lectures have received such enthusiastic admiration from the press as those of the Hon. Henry Watterson, of Kentucky. The greatest newspapers of our country, from New Orleans to New Hampshire, and from Denver to Atlanta, all agree in their praise of the talks of the eloquent Southerner. The Boston Journal says of one of his most famous lectures:—

No report, though it contained every word uttered, could do Mr. Watterson justice. One must hear him. While he is an orator, on the occasion he eschewed the tricks of the rhetoric and was idiomatic, not to say epigrammatic, and at times dramatic. He is a word painter, and as such can have no rival. His language is pure, and is enriched at times by a soft Southern accent. He builds rich and beautiful sentences and they are always freighted with ideas and crowned with logic.

Says another:

Henry Watterson is wholly unlike any other speaker. Now you feel that he is merely talking to you personally, and in a simple, conversational tone; and then, before you know it, you are whirled along by the irresistible force of his eloquence and the originality of his thought,

while at all times his diction is exquisite.

This is the last of this Season's "Star" Lecture course, and it is well chosen. The last and freshest memories of that year's course will be most pleasant ones; fitting memories of this successful and delightful series.

Geo. Vick '98 was on the Hill for a few days last week.

A. S. Root has been confined to his room for a day or two with the Grippe.

An informal entertainment was given Friday evening by Miss Mary Graves in honor of her guest Miss Louis Jones. There were present Misses Gordon, Jones, and Graves, and Messrs Alexander, Morehead, Gordon, Cowles, Winston, Stevenson, Calder and Graves.

Walter Holladay of Durham was over a few days last week finishing up the groups.

Harvard has her complete football schedule arranged for next fall. She has eleven games arranged.

President McKinley will attend the commencement exercises of Harvard next June, when according to the custom, the degree of L. L. D. will be conferred upon him.

The Yarbrough House, RAEIGH, N. C.

Is almost as widely known as the "City of Oaks." Its equipment, service and table the best that can be provided. Rates \$2, \$2.50 & \$3 per day. Special weekly rates. Coach to and from all trains.

Locals.

Mr. H. C. Farror of Greensboro, who was a medical student here last fall, was on the Hill Saturday.

Dr. Alexander was unable to meet his classes Wednesday on account of a very bad cold. The cold is now much better and he is able to be out again.

J. L. Morehead and W. F. Carr spent Saturday and Sunday at home in Durham.

Mr. Wm. W. Jones of Asheville was here Friday and Saturday on a visit to his son "Little Bully."

Victor S. Bryant of Durham was on the Hill Tuesday. Mr. Bryant was a Law student here several years ago.

Geo. L. Cunningham left Friday to spend a few days in Raleigh.

H. C. Zachary of Raleigh was in Chapel Hill Friday. Mr. Zachary is contractor for the Mary Ann Smith Building.

G. C. White of Durham has been here several days over-seeing work on the water works system.

Mr. E. W. Myers was on the Hill Thursday.

Miss Mary Graves has been quite ill for several days with pneumonia. She is at present very much improved.

Francis Cox of Horners' spent Saturday and Sunday with his brother A. L. Cox, '04.

Jas. Whitehead, '03, left the University Thursday for an extended trip North.

Dr. Blossingame, Ex-President of the Baptist Female University of Raleigh, made the University a short visit this week.

Frank Smathers had a shoulder dislocated in the first Georgia game. It is doing nicely and will probably be alright in a few days.

Work of repairing the Chapel has begun.

Some work has been done this week on the Gymnasium and other buildings.

Prof. H. A. Patterson of the University of Georgia came up with the base ball team and has been spending a few days with Dr. Alexander.

The second game between the Sophs and Fresh was played Friday, resulting in a score of 11 to 4 in favor of the Sophs.

Mr. J. J. McMahan of Columbia, S. C., made the University a short visit last week.

Mr. Frank Hardy, '96, of Charlotte was on the Hill a few days this week representing The Mellon Clothing Co. of Charlotte, N. C.

Mr. W. B. Stranghen, traveling auditor for the Southern Railway, was in Chapel Hill the past week for a day or two.

A. M. Carr went home Wednesday on account of a very severe cold.

Wade X. Chisman is back after an extended visit home.

R. W. Hickerson spent a few days with friends on the Hill, last week.

Mr. P. D. Gold '98 of Greensboro was on the Hill Wednesday and Thursday the guest of Mr. A. A. Holmes.

Kemp. P. Lewis of Durham was over to the Easter German.

A. W. Haywood Jr., who has been ill for some time with Pneumonia, is now much better.

President Venable has been in Winston for several days, attending the Educational Convention.

Miss Rosa Battle of Raleigh was a visitor for several days at Dr. K. P. Battle's.

Mr. K. P. Thigpen was in Greensboro a few days last week in the interest of the Yackety Yack.

Miss Bessie Henderson of Salisbury was visiting friends in Chapel Hill the past week.

Mr. Phil Meade is now with the Raleigh Base Ball Team. He played short stop in the game with Carolina Friday.

Mr. Emmett Gudger returned Saturday from a short visit to Asheville.

Mr. J. A. Aluminal of New York has been here several days looking after the proposed heating plant for the University.

Mrs. Jas. C. McRae returned Thursday from a visit to Fayetteville.

**OF INTEREST TO STUDENTS
Desiring Profitable Vacation Employment!**

This company desires to engage an energetic Student in each county for the summer vacation, to interview book buyers in the interest of our "Book-buyers' Union," manage our Sample Display at Teachers' Institutes, and distribute to all teachers and book buyers, our Price Lists with explanation of our Book and Magazine Combinations, etc. All book bills cut in half; any book wanted supplied direct from publisher at 85 per cent. discount; \$7.50 worth of latest novels (your choice) for \$3.00; \$5.00 worth of leading Magazines (your choice) for \$3.50; \$10.00 Standard Fiction, History, etc., \$8.50. Endorsed by all book buyers:—
"As Chairman of Book Committee of Chicago Woman's Club, I have for past 4 years bought all their books through the Northwestern Library Association at an average discount of 40 per cent.; have had prompt service; they do an immense business."—Mrs. E. A. Dixon, Librarian, Univ. Chicago.
(Mrs. Dixon's last purchase was March, 1901.)
"I take pleasure in recommending the Northwestern Library Association as a reliable institution, and one which is very beneficial in enabling members to get books, etc., at wholesale price."—John I. D. Hinds, Head Cumberland Univ. Lebanon, Tenn. (Prof. Hinds' last purchase was May, 1901.)
Our 1901 Book and Magazine Combinations are sweeping things wherever offered and are a revelation in modern book selling. To one student from each county furnishing satisfactory references, we offer a 4 month's vacation engagement at \$55.00 a month, and complete on satisfaction. The position will pay \$100.00 a month with reasonable push and energy. To first student applying from each college, we offer exclusive right of representation to county and college town, with a position will easily pay \$100.00 to \$250.00 to an energetic student, for his evenings and Saturdays, between now and June. Address: NORTHWESTERN LIBRARY ASSOCIATION, 5 and 6 Washington Street, CHICAGO, ILL.

Georgia Wipec Up.

Varsity piled up 40 runs to the Visitors 4.

In the second game played here last Wednesday between the University of Georgia and the Varsity, our boys piled up the largest score ever made by our base ball team against the visitors. The score was forty to four and the score indicates just the kind of game it was, lifeless and uninteresting. Carolina had everything the way she wanted it, the only redeeming features being the heavy batting of the home team, and the fielding of Jacques for the visitors.

The game was called and Carolina took the bat. Before the inning was over our boys had piled up fifteen runs against the Georgians, who in their half could only cross the home plate one time.

In the second we only scored once and that was caused by lack of control of Blackshear who gave two bases on balls in succession forcing Graham A. in. Georgia was quickly retired with no more runs. The third was ushered in with a pretty two bagger by Wilcox and Graves hit also for two bases, Carr and Graham A. also hit safely. The result of this inning was five more for Carolina and a goose egg for the visitors.

In the fourth, Carr, Graham A. and Graves crossed the plate, while the Georgians did not reach first. For the only time during the game, the Varsity failed to tally and on opportune hits by Beaver, Jacques, and Hull and a two base hit by Blackshear, the Georgians scored three more runs.

The sixth added four more for Carolina. Harrington succeeds Wilcox as pitch and another inning passed without the visitors reaching first. In the seventh five more runs were scored, brought in by four well placed hits. Blackshear was the only man for them to pass first and he was caught out at second.

The eight resulted in three more runs for Carolina, two of them being brought in by Graves' three base hit between center and right. The visitors were again quickly retired. The ninth added four more to the Varsity and the visitors were retired in one, two, three order.

Varsity Walks Over Maryland.

The first Maryland game played here last Tuesday resulted in a victory for the Varsity by the score of 19 to 7. The score does not indicate the sort of game played by both teams. The playing was excellent and the contest was very interesting and at times exciting.

Our whole team played in fine form and Marylanders were not up to our standard. Cunningham pitched good ball, allowing only four hits. His control at times was not so good, and he gave several bases-on-balls. Cocke, Carr, Oldham and Graham made beautiful plays, cutting off almost sure hits.

Smathers was in the game for the first time since he was injured and he was very strong at the bat. The Varsity batted well, getting 14 hits. For the visitors, Whitehurst was strong at second and Saylor played steady ball behind the bat.

The attendance was small, but the root at times was good.

It was a few minutes after 4 when Umpire Meade called, "Play ball." Carolina took the bat and the visitors the field.

1st Inning: Carr knocks grounder to Fisher and was thrown out to Sheely. Drewry sent four balls over the plate and Graham went to first. Graves drove hot liner to third and Graham was thrown out at second.

Maryland: Whitehurst out from Cocke to Holt. Smith is hit by ball and takes his base. Burns waits for four balls and gets to first. Saylor hits long drive over right for three bags, scoring Smith and Burns, then steals home. O'Mara was punctured by Cunningham's ball, so gets to first, then steals second, gets to third on Carr's error. Fisher hacks one to Cocke and is thrown out to Holt. Sheeley flies out to Carr.

Second Inning.

Donnelly reaches first on Fisher's error. Oldham is given his base on balls. Donnelly runs to third on Sheely's error. Oldham steals a base. Holt pops a fly to Whitehurst and is out. On passed ball, Donnelly scores and Oldham is safe at third. On another passed ball, Oldham comes to home plate. Smathers drives long fly to centre and he drops it. Cocke is out from Whitehurst to Sheely. Cunningham hits to third who throws wild and he is safe, then steals second. Carr foul flies out to Saylor.

Maryland: Richardson knocks a grounder to Smathers and is thrown out at first. Drewry singles over third. Whitehurst drives one to Cocke and Carr touches Drewry at second. Smith flies out to Cocke.

Third Inning.

Graham bunts and is caught out at first. Graves hits safely by second. Donnelly drives long fly to centre, but Richardson drops it and both runners take another base. Oldham hits to second and is out to

Sheeley, but Graves is safe at home. Holt flies out to Saylor.

Maryland: Burns fails to connect and is out. Saylor follows suit and is retired on strikes. O'Mara hits to Holt and is out at first.

Fourth Inning.

Smathers is out on three strikes. Cocke is out from Whitehurst to Sheely. Cunningham pops up a foul and Sheely takes it in.

Maryland: Fisher strikes out. Sheely can't find the ball and is out. Richardson hits an easy grounder to Holt and is out.

Fifth Inning.

Drewry sends foul balls over the plate and Carr walks. Graham hits by third for a base. Graves drives safe-hit to right. Donnelly knocks grounder to Whitehurst who fumbles and Carr comes home. Oldham lines one out to second and is retired at first, but Graham reaches home. Holt walks on called balls. Smathers drives beautiful three-bagger to left, scoring Graves, Donnelly and Holt. Saylor throws to third and Smathers is caught out. Cocke takes first on Fisher's error. Cunningham get safe-hit by first and Cocke goes to third. Cunningham steals. Carr hits safely to right, scoring Cunningham. Burns allows the ball to go by him and Carr trots around the bases. Graham gets in front of the ball and is hit, taking his base. (Burns goes to centre and Richardson to right.) Graves pops up fly to Fisher and is out.

Maryland: Drewry drives to Smathers and is out to Holt. Whitehurst knocks by second and on Carr's beautiful stop is out to Holt. Smith hits to Cocke and is out at first.

Sixth Inning.

Donnelly hits through pitcher to second and is out to Sheely. Oldham foul flies out to Saylor. Holt lines a pretty two-base hit by third. Smathers follows with another two-bagger to left, scoring Holt. Cocke hits to Fisher and is out to Sheeley.

Maryland: Burns hits over second for a base. Saylor hits to Cocke and is safe on his error. He steals second. O'Mara takes his base on called balls. Fisher knocks one to Cocke, who throws him out to Holt, but Burns scores.

Sheeley lines one to right for a safe hit and Saylor scores. On Graves' error, O'Mara comes home and Sheeley reaches third. Richardson hits grounder to Cocke who throws Sheeley out at the plate. Richardson steals second, Drewry hits long fly to Graham who makes almost impossible catch, and causes great applause.

Seventh Inning.

Cunningham send a grounder toward first and Sheeley fumbles. Cunningham going on to second. Carr reaches first on error of short. Graham sacrifices from pitcher to first and other advance. Graves is hit by pitched ball and goes to first. Donnelly drives one through Drewry to Whitehurst and is out to Shee-

ley, but Cunningham is safe at home. Oldham hits safely to centre, scoring Carr and Graham and Oldham steals second. Holt retires side, from third to first.

Maryland: Whitehurst is out from Cunningham to Holt. Smith fans the air three times and is out. Burns hits to Carr and is out to Holt.

Eighth Inning.

Smathers drives one to short and on Fisher's error is safe at first. Cocke flies out Burns. Cunningham hits to second and Smathers is out, but Whitehurst throws wild to first and Cunningham holds his base. Carr knocks one to left and ball is fumbled, so Carr goes on to second and Cunningham to third. Graham sends one to Whitehurst who throws wild to Sheeley so he is safe and Cunningham scores. Graham steals. Graves hits safely to left, scoring Carr and Graham, then steals second. Donnelly takes his base on called balls. Oldham pops a fly to Burns and is out.

Maryland: Saylor takes advantage of Cunningham's wildness and goes to first on balls. O'Mara hits over first, but Oldham makes quick throw to Holt and he is out. Fisher can't find the ball and is out. Sheeley sends one to Carr and is thrown out to Holt.

Ninth Inning.

Holt hits to left for two-bases. Smathers drives safely to right and Holt comes home, Smathers steals. Cocke is out on long fly to left. Cunningham sends hot grounder to Whitehurst who makes a pretty stop and throws him out to first. Carr pops up a fly to Drewry and is out.

Maryland: Richardson sends a high fly to Cocke and is out. Drewry drives grounder to second and is out to first. Whitehurst reaches first on Carr's error. Smith ends matters with a little pop-up to Smathers.

MONDAY, JUNE 3.

8 P. M. Reunion of the Literary Societies.

TUESDAY, JUNE 4.

10 A. M. Senior Class Exercises. 12 M. Reunion of the Class of 1901.

12:30 P. M. Alumni Address, by Locke Craig, Esquire, of Asheville, N. C.

1:30 P. M. Alumni Luncheon. 3:30 P. M. Meeting of the Board of Trustees.

5:30 P. M. Closing Exercises of the Senior Class.

8 P. M. Annual Debate between the Dialectic and Philanthropic Societies.

10 P. M. Faculty Reception.

WEDNESDAY, JUNE 5—COMMENCEMENT DAY.

Address by Dr. J. H. Kirkland, Chancellor of Vanderbilt University.

The President's Report.

Delivery of Diplomas, by Governor Aycock.

Presentation of Bibles.

Soiree Recital.

The entertainment given by Misses Harrington and Taylor and Mr. McKie on Saturday evening, May 11th, was of an unusually high order of excellence. Miss Harrington's great ability as a pianist is well known. She is always highly appreciated. Miss Elizabeth Taylor, of Durham, was the vocal soloist. It is indeed seldom that the opportunity is given in Chapel Hill to hear such a beautiful voice, and expression as Miss Taylor's. Mr. McKie's recitations and coster songs were very good and highly enjoyed. Below is the program:

Part I.		
Barcarolle		Nevin
Miss Harrington.		
Heigh oh		Dore
Miss Taylor.		
Pro and Con		Powers
Mr. McKie.		
For the Sake of the Past		Mattel
Miss Taylor.		
Part II.		
Polonaise		Chopin
Miss Harrington.		
Christian Night in the Quarters		Russell
Mr. McKie.		
Hernani Resue Me		Verdi
Miss Taylor.		
Coster Songs		Chevallier
Mr. McKie.		
Evening Song		Sheldon
Miss Taylor.		

Oak Ridge base ball team claims the State championship.

Tulane has adopted the cap and gown for the Seniors of the three departments.

The Class of '99 of the University of Pennsylvania has just given their Alma Mater a memorial clock costing \$600.

The Tar Heel.

UNIVERSITY OF NORTH CAROLINA.

BOARD OF EDITORS

Brent S. Drane, - - - - - Editor-in-Chief.
E. R. Williams, - - - - - Man. Editor.
B. S. Skinner, - - - - - Business Manager.
E. D. Sallenger, Ass't Business Manager.

ASSOCIATE EDITORS.

J. C. B. Ehringhaus, Benj. Bell Jr.

Published every Monday by the General Athletic Association.

Subscription Price, \$1.50 per Year.
Payable in ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

With this issue ends volume nine of the Tar Heel, and the work of the present Board of Editors is done.

We would all express our thanks to the Athletic Association for the honor and trust conferred upon us. It has been our constant effort not to prove unworthy of their confidence, and to give a paper worth reading. And especially does the Editor-in-Chief desire to thank his Associates who have cheerfully supported him during the past term. To work with them has been a real pleasure. He also wishes to express his grateful indebtedness to those who have helped him by their suggestions and criticisms.

We print in this issue a letter from one who is probably the best living authority on the Civil War, from the Southern standpoint, our honored friend Dr. Jones. He feels that Mr. Watterson's lecture does an injustice to the South, and very properly wishes to set us aright on the question. We highly appreciate his article and the spirit in which it was sent, and take great pleasure in presenting it to our readers.

The games of the last two weeks have been satisfactory on the whole. Especially was the second Maryland game a good one, from an aspect of sport. Both teams at times played beautiful ball, it being evident however, that our team played a smoother, cleaner game. Nobody could fail to see that in this case the final score meant little and was no proof of the superiority of the visitors.

There were strong reasons for the non-appearance of the Tar Heel last week. According to the report of the Business Manager it was decided to get out the last issue this week, so as to include the Georgia games. As it is, there have been as many copies issued this year as last year.

A novel college performance took place at the University of Wisconsin some days since—an indoor circus. It seems to have been a grand success in every way, containing all the features of the modern circus even to the menagerie. Fully 2,000 spectators were present.

Ten members of the Faculty of New York University have resigned, owing to dissatisfaction with the administration of University affairs. The students en masse are demanding the re-tenation of these professors.

TRACK MEET.

The University will be Represented at the S. I. A. A. Track Meet.

For the first time in our athletic history this University will be represented at the S. I. A. A. Track Meet at New Orleans on May 18th. Five of our best men will do their best to win laurels for U. N. C. and though such a small delegation cannot hope to score the highest number of points yet we fully expect our share of the honors of the day.

Preliminary to the selection of the team a Field Day was held on April 27th and nine of the best men were chosen from the long list of competitors.

Further contests were held on May 4th and May 11th and from these competitions five men have been selected. They are Osborne, Captain, Berkeley G. R., Manager; and Messrs. Ramsey, Linville, Council, Irwin and Oldham.

In addition to those who were elected to positions on the team other track men received consolation prizes for their excellent work on Field Day. The prizes were awarded by Chapel Hill and Durham merchants: J. T. Durham, W. B. Sorrell, A. A. Klutz, Chapel Hill Bakery, R. S. McRae, Eubanks Drug Co., W. N. Pritchard, Carolina Clothing Co., Cole & Holladay, Yearby Drug Co., Lambe & Lyon, and W. A. Slater Co.

The team this year has been trained by Mr. Weeks, Gymnasium Instructor, managed by Mr. Green Berkeley and captained by Mr. F. M. Osborne. Captain Osborne will have charge of the team in New Orleans.

Gimghoul Dance.

On Monday evening, April 29, the Order of Gimghouls gave a dance in honor of Miss Henderson, visiting Mrs. Hume. This picturesque lodge was very tastefully decorated for the occasion. From the balcony above the Chapel Hill band played their softest and sweetest strain. Between dancing and promenading out on the front piazza in the warm evening air, the time passed all too quickly to the fateful hour of twelve when "the hand of Utey grasped the throttle" and brought things to a close.

There were present:
Mrs. Hume with Mr. A. Henderson
" Mangum " Dr. Mangum
Miss Henderson " Mr. Bernhard
" Alexander " Mr. Hutchison
" Busbee " Mr. J. Henderson
" MacRae " Mr. Murphy
" Bynum " Mr. Alexander
" Moses " Mr. M. Carr
" Gordon " Mr. Gregory
" Toy " Mr. Osborne
Messrs. Drane, Berkeley, Brem, Worth, E. Graves, Howell.

Invited guests: Dr. and Mrs. Alexander, Dr. and Mrs. Linscott, Dr. and Mrs. Pratt, Mr. and Mrs. Powers Meade, Dr. Ruffin, Messrs. Jas. MacRae, P. Cobb, Holmes, Makeley, Bell, Shore, Emory Alexander, Stafford, Byrnes and Cowles.

Harvard won the team championship of the Intercollegiate Golf Association at Atlantic City, N. J., on Wednesday, defeating Yale by the score of 13 to 3 1-2 points. By this victory Harvard becomes the permanent possessor of the championship cup. Princeton, Pennsylvania, Columbia, Yale and Harvard were the contesting Universities.

THREE VICTORIES NO DEFEAT.

The Southern trip is over and Carolina ends the last four games, by taking three victories and tying one score.

The team left last Tuesday and spent the night in Charlotte. On Wednesday they went to Clemson college where on that afternoon the South Carolinians played us a hard game with the result of two to two. Clemson made both of her runs in the seventh and Carolina did not cross the plate till the ninth, when Donnelly and Smathers reached home.

The playing of both teams was good and the game was interesting. Harrington and Cunningham did the box-work for our team and they both pitched good ball.

After the ninth inning there was not time enough to play any more as the team had to go on to Athens.

Full accounts of the game cannot be published and only the tabulated score is furnished.

Two base hits: Bambery.
Double plays: Wilcox to Holt, Dingle to Hughey, Hunter to Dingle to Hughey.
Base on balls: Cunningham 5.
Struck out: by Cunningham 3, by Harrington 3.

In Athens on Thursday Carolina met the University of Georgia for the third time this season and again came out victorious by the score of twelve to four. Georgia fought hard for the game, but our superior team walked over them. The game was not as loose as the score indicates, but was full of pretty playing and lively features. In this game the heavy batting of nearly all our men kept Georgia moving.

In Atlanta on Friday before an immense and enthusiastic crowd, Carolina defeated Georgia Tech. by a score of 9 to 6. Henley the pitcher for the Tech. is one of the best college pitchers in the South, but Carolina caught on to him for seven hits and aided by several inexcusable errors, our team outclassed them and played the prettiest game. In this game all three of our pitchers went in, Cunningham pitched the first, Harrington the second and Wilcox went in the third and pitched magnificent ball the remaining seven innings.

Carolina concluded our schedule with an easy victory over the University of Georgia on Saturday before a crowd of 1500 people. Georgia played fiercely but in no way were they a match for our team. Carr and Holt played star ball, and the whole team played steady and well. In this game Carolina made 10 runs while Georgia failed to score. Hits 11 for Carolina and 6 Georgia. Errors 4 and 6.

The team returned to the Hill Sunday. They report a right enjoyable time and very clever and courteous treatment everywhere.

The record they made is certainly an excellent one and the whole University is proud of their season's work.

OF INTEREST TO STUDENTS Desiring Profitable Vacation Employment!

This company desires to engage an energetic student in each county for the summer vacation, to interview book buyers in the interest of our "Book-buyers' Union," manage our Sample Display at Teachers' Institutes, and distribute to all teachers and book buyers, our Price Lists with explanation of our Book and Magazine Combinations, etc.

All book bills out in half; any book wanted supplied direct from publisher at 50 per cent. to 60 per cent. discount; \$7.50 worth of latest novels (your choice) for \$3.00; \$5.00 worth of leading Magazines (your choice) for \$2.50; \$10.00 Standard Fiction, History, etc., \$5.00; endorsed by all book buyers.

"As Chairman of Book Committee of Chicago Women's Club, I have for past 4 years bought all these books through the Northwestern Library Association at an average discount of 40 per cent. I have had prompt service; they do an immense business."—Mrs. E. A. Dixon, Librarian, 1st Chicago.

(Mrs. Dixon's last purchase was March, 1901.)

"I take pleasure in recommending the Northwestern Library Association as a reliable institution, and one which is very beneficial in enabling members to get books, etc., at wholesale prices."—John L. D. Hinds, Dean Cumberland Univ., Lebanon, Tenn. (Prof. Hinds' last purchase was Jan., 1901.)

Our 1901 Book and Magazine Combinations are sweeping things wherever offered and are a revelation in modern book selling. To one Student from each county furnishing satisfactory references, we offer a 4 months' vacation engagement at \$5.00 per month, and commission on sales. The position will pay \$100.00 a month with reasonable push and energy. To first Student applying from each college, we offer exclusive right of representing us in his college and college town, his position will easily pay \$100.00 to \$150.00 to an energetic student, for his evenings and Saturdays, between now and June. Address, NORTHWESTERN LIBRARY ASSOCIATION, 5 and 6 Washington Street, CHICAGO, ILL.

Maryland Defeats Carolina.

In the second game, played here on May 3rd against the University of Maryland, the visitors won out by the score of 9 to 8.

The game was prettily played throughout and was hotly contested. Especially during the last two innings, did Carolina fight hard to overcome the score. In the fifth the score became 6 to 6 and remained that way till the eighth when Maryland crossed the plate three times, caused by a two-bagger and three singles. In our half of the same inning, three men got safely on bases, with two out and Graves hit a little pop-fly to third and retired the side. In the ninth, Maryland failed to add any more to the score, but Donnelly started it up nicely for us with a two-bagger, then Oldham was thrown out from short to first, Holt hit a single by short and Donnelly goes to third, Smathers hit safely by pitcher and Donnelly scored. Cocke lined out a pretty single and Holt scored. Holt flies out to O'Mara, Carr gets base on balls. Here again three bases when Graham hits to pitcher and retires side being thrown out to first. The game was exciting and well played, though both teams made a goodly number of errors. The rooting was excellent and the enthusiasm of the small crowd present kept things lively.

Hon. R. H. Battle Lectures.

In the lecture of Hon. R. H. Battle, of Raleigh, the University at large, as well as the law class, was afforded a rare treat. The lecture was a valuable one from a standpoint of practical and necessary historical knowledge as well as from that of personal interest.

The subject was "Some Lawyers as I have known them and the lessons learned from them,"—in itself one which should interest every citizen, but when we consider the method of treatment adopted by the lecturer our interest is renewed. Especially those lawyers were spoken of who had gone out from our own University and their influence in shaping the life of the State, together with the lessons taught by them were portrayed in brilliant and thrilling language. Such examples have been set by these that we cannot but feel the deepest pride in the noble sons of our old State. We sincerely regret that lack of space prevents our giving the lecture in full.

The Real Lincoln vs. Henry Watterson's Romance.

Editor of the Tar Heel:—

Will you allow me to enter my earnest protest against the estimate of Abraham Lincoln given in Mr. Watterson's brilliant lecture, and your seeming endorsement in your Editorial?

That Lincoln was a man of great ability and that he deserves very great credit for the persevering pluck with which he rose from his very humble origin, and adverse surroundings to be President of the United States, and the idol of the Northern people no one will question.

But that he was "inspired of God"—that he was as pure a patriot as Washington—that he "saved the Union"—that he was "a born commander simple honesty and candor"—or that "he was the friend of the South who was the only one possessing the power to save it from itself"—I most emphatically deny, and hold myself prepared to maintain the negative of these propositions on any fair platform, and against all comers.

That the Northern people regard Abraham Lincoln as a Saint and place him along side of John Brown as the "great champion of freedom," I am fully aware. But how a Southern man can join in a eulogy on this coarse vulgarian, who violated his oath to support the constitution of his country whenever it suited his purpose, and who inaugurated against the Confederate States a cruel war of subjugation simply because they chose their "inalienable right" of changing their form of government—their constitutional right of resuming their powers as Sovereign States—passes my comprehension.

Henry Watterson poses as a Confederate when lecturing in the South—though unless I have been incorrectly informed his Confederate record would not admit him into any Confederate Camp—but his lecture on Lincoln was prepared originally to be delivered before the Grand Army of the Republic, and I notice that all of the press commendations, save two, quoted in his circular are from Northern papers.

When the Grand Army of the Republic held its annual Reunion in Louisville, Henry Watterson was "chief cook and bottle washer"—making one of the addresses of welcome and delivering this lecture on Lincoln to an enthusiastic audience of G. A. R. men. But when the Confederate Veterans held their Reunion in Louisville last year Mr. Watterson was conspicuously absent—certain it is that the Confederate Veterans did not wish to hear his *gush and slush* about their "friend" Abraham Lincoln.

I had not intended to write so much, but you must let me say in conclusion that Mr. Watterson's statement about "the Hampton Roads Peace Conference" is the merest romance, and has been refuted over and over again.

When Secretary of the Southern Historical Society I published, in *Southern Historical Papers*, papers from Hon. R. M. T. Hunter, and Judge John A. Campbell, (the only surviving member of the Commission), President Davis, and Sec.

Benjamin and Mr. Stephen's account of the Conference in his book—"War between the States"—, the original draft of the Instructions from Mr. Davis to the Commissioners, and the report of the Commissioners to the President on their return from the Conference, and these papers all show conclusively that Lincoln made no proposition, and intimated no purpose of making any, save that "the Rebels" should *lay down their arms and trust to the clemency of their conquerors*. He would not even agree to an Armistice to discuss terms of Peace but demanded *immediate and unconditional surrender*.

At Nashville before the Confederate Veterans Reunion in 1898. Hon. John H. Reagan, of Texas, the only surviving member of President Davis' cabinet, made an able, and exhaustive refutation of this romance, and last year at the U. C. V. Reunion in Louisville the "History Committee," of which Gen. S. D. Lee is chairman, presented and the Veterans unanimously adopted a paper clearly setting forth the facts, and completely refuting Mr. Watterson's statements.

Judge Reagan has written a recent letter on the subject which I have placed in the University Library and the other day Capt. S. A. Ashe of Raleigh published in the *News and Observer* a very clear reply to Watterson.

Excuse me for this trespass on your columns, but I could not allow this perversion of history to go unchallenged.

J. Wm. Jones.

A Note of Thanks.

The following addressed to Prof. Collier Cobb through our columns needs no explanation.

Mr. Editor, Worthy Sir: I being the pastor of the A. M. E. church of this elevated and nice little town, with its balmy air, laughing waters, excellent and magnificent University; which is the greatest centre of much learning and high culture for your race in the state; I beseech you for enough space in the valuable columns of your paper to thank Prof. Collier Cobb, for the grand entertainment he gave us of mountain sceneries in the behalf of raising money to buy a Library for the colored youth of the public school. I am sure the teachers, Mrs. Kirkland and Merritt feel very grateful to you, touching your humane generosity and exquisite kindness.

Ignorance is a curse to any race or nationality. It is an aggravation of a contagious disease, and heterogeneous to high citizenship and true progress everywhere it exists. It is like a rubber ball thrown against an object, many times it rebounds, and does the propeller as much or more harm than the object against which it struck. We thank you kindly or any-one among your race who will aid us in rising above this mighty evil. The better class of my people have always regarded the most refined and progressive whites of our beautiful Southland as our true friends.

Your humble servant in Christ,
Frank W. Sowell.
(We regret that space does not permit of our giving the letter in full. There is no doubt but that the creditable sentiments expressed deserve such recognition—Eds.)

The German Empress has presented the library of Johns Hopkins University a handsome edition of the works and letters of Frederick the Great, in recognition of the work of Prof. Paul Haupt of that institution.

Oxford and Cambridge have recently accepted the challenge of Harvard and Yale for a track contest. The meet will take place in New York about Sept. 21.

ATHLETICS.

Football Prospects — Candidates, Both Old and New.

For the past several afternoons the men who are candidates for the football team this fall have been out on the field going through some light exercise and getting in some preliminary practice.

Counting both the old men and the new ones, there are about forty candidates for the Varsity. This is an extremely gratifying number at the very beginning and from this material, no doubt a winning team can be chosen. Mr. Frank Bennett of last year's team, who had been elected captain for this fall, did not return to college, hence the appointment of another captain was necessary.

The advisory committee have been very wise in their appointment of Council, who is now captain pro-tem. He was a star player on last year's strong eleven and one of the best all-round athletics ever at the University.

Carolina will greatly miss many of the brilliant players of the last few years who have done so much to make our remarkable successes over nearly all the Southern football team.

Graves is now at West Point, a cadet there at the Academy. Bennett, Rankin, McRae, Osborne, Oldham, and others have not returned this year. Smathers is back but will be unable to play during the early part of the season. Brem is likewise in bad condition and will not be able to come out for some time. Donnelly is here, but will not play this season.

Makely, Council, Foust, Berkeley, Car, Graves, L. Orr, and Stewart of last year's Varsity and Scrubs are again on the field and they are working hard. Several of the best men in the different class teams are now candidates for the Varsity and quite an encouraging number of the new students have reported for work. Among the new men there are five or six very good football players and under proper training they will early be developed. All are entering into the work very enthusiastically, with the determination to turn out a winning team, if possible.

Next week a complete list of all the candidates will be published and right here let us say, that it is the duty of every man that possibly can to go out on the field and do the best work he is capable of doing. The team is always made up of the best men, regardless of what class they belong to or what year they enter.

The attendance of students at practice so far has been very good. This is right, but the spectators should not crowd around the teams when they are lined-up, as they get in the way and may possibly prevent a run, or interfere with a play.

Mr. Tondenstein, the efficient

Gymnasium Instructor, has had charge of the men during the past week. He has practiced them in kicking, catching, passing, and falling on the ball and has put them through a little light scrimmage work, ending each afternoon with lining up the players for about five minutes.

The new coach will arrive the first of the present week. He is Mr. Chas. O. Jenkins, a man prominent in the athletic life of Yale. This is the first time in all our history that Yale tactics will be used and much good is expected from the change.

The first game is scheduled for October 12, and will be played against Oak Ridge Institute. A tentative schedule for the season will be published in a few days.

Advisory Committee Meeting.

Immediately after the meeting of the General Athletic Association last Tuesday, the Advisory Committee met, at the call of Dr. Baskerville, in the chemical lecture room. The first business was the selection of a temporary captain of the football team and Mr. Council was chosen for the place. Mr. Whitehead then announced his appointment of Mr. Will Carr as assistant manager of the football team which was approved by the committee. The next business was the election of a manager of the baseball team. Mr. George Graham was elected.

It was found upon inquiry that both the captain and manager of the track team were elected last year, Messrs. Ramsay and Thorpe, respectively.

The question of the wearing of Varsity sweater which was discussed and unanimously decided upon by last year's committee was again brought up with the same result.

It seems that every season in games on the home grounds a good many men are put in as substitutes either on trial or when several men are disabled, and that some of these men afterward stop playing or prove themselves entirely unworthy of a place on the team, but from the technical fact of having played in a match game claim the privilege of wearing the Varsity sweater. The committee therefore rule that in the future no man shall be allowed to wear the Varsity sweater until his right to do so has been passed upon by the Advisory committee.

The Juniors meet in the Chapel Saturday afternoon and held their class election. The following gentlemen were unanimously elected: R. O. Everett, President; R. S. Stewart, 1st vice-President; Frank Foust, 2d vice-President; G. R. Ward, Secretary; J. V. Judd, Treasurer; J. R. Hamblin, Orator; W. W. Walker, Essayist; E. R. Wainwright, Historian; W. P. Wood, Poet; C. A. Jonas, Profit and D. Z. Canble, Statistician.

Memorial Exercises.

Out of respect to the memory of Pres. McKinley exercises were held in Gerrard Hall Monday, 16th inst. The Chapel was filled to overflowing, faculty, students and the citizens of the town participating in the meeting. Resolutions of respect, drawn up by members of the faculty, composed of Judge McRae and Drs. Hume and Battle, were read. Er. J. William Jones then spoke in behalf of the citizens of the town and Mr. Whitehead Kluttz, represented the professional schools. Dr. Jones spoke of an incident of the days of 1863, when a band of one of the Northern regiments came down to the Rappahannock, on either side of which the hostile armies were encamped, and played their martial airs. Large crowds of both the Confederate and Federal armies gathered on the opposite banks of the river, the friendly pickets not interfering. First the band played some national airs of the United States such as "Hail Columbia," "Yankee Doodle" and "The Star Spangled Banner," and as one of these airs ceased "the Boys in Blue" would make the hills echo with their "Hip, Hip Hoorah!" Presently in compliment to their friends across the river, the band played some of our Southern melodies, "Dixie," "My Maryland," "The Bonnie Blue Flag." When one of these ceased the boys would give with a will "the old Confederate yell." After awhile the band played in sweet strains which were wafted on the evening breeze across the beautiful Rappahannock, "Home, Sweet Home." As these notes died away there went up a simultaneous shout from both sides of the river. The "Hip! Hip! Hoorah!" of "the men in blue," mingled with the "Confederate yell" of "the men in gray," and those hills which had so recently reverberated with hostile guns, now echoed and re-echoed the glad acclaim. These simple strains had struck chords responsive to which the hearts of even enemies,—enemies then, friends now, thank God—could vibrate in unison.

"And so," said Dr. Jones, "as we stand to-day around the bier of Pres. McKinley, past affiliations and "bitter memories of a stormy past" are forgotten, and men of every party, every creed, and every section of our common country, mingle their tears, their sympathies; and their prayers, and unite in a common detestation of the cruel deed of the assassin." Others could speak of Pres. McKinley as a soldier, civilian and statesman more fittingly than he, but he would speak of him simply as a Christian.

Dr. Jones spoke of his consistent, active, Christian life, and brought out the fact that his last words, when the operation was being performed, were the prayer that Jesus taught his disciples, and his last words before he passed into uncon-

sciousness before his death, were: "This is God's way, God's will be done!"

Dr. Jones held up the Christian character of our dead President for the imitation of young men and expressed the hope that his able successor might imitate his noble example.

Mr. Whitehead Kluttz, following Dr. Jones, said; We are assembled here to honor the memory of an American President, and statesman, to share the sorrow that has touched the heart of a nation profoundly, and to evince our hatred of a colossal crime."

"It seems to me fitting," continued Mr. Kluttz, "upon this occasion to remark upon the death of public men in general; to speak of the dead President as public man and private citizen; of his attitude toward the South; of the crime that killed him; and of the infamous propaganda that spawned it; and to indulge the gratifying hope that while the life of the President has been cut off, the life of the Republic endures, and is, in some sense, immortal."

Mr. Kluttz concluded:

"On the day before he died, as he lay upon his bed of agony, with the shades of death closing in around him, the President looked out of the open window upon the light and beauty of the world. 'Don't close the shutters,' he said, 'The trees, the trees are so beautiful. I love to see them.' The attendant closed the shutters and for William McKinley it was closed forever."

"Let us indulge the fond hope that the dead statesman, the martyred President, with wrapt vision, and free from pain, walks this morning amid the perfect beauty of the Green garden of God."

"Where fall not rain nor hail nor any snow,
Nor ever wind blows loudly."

Judge McRae read the following resolutions:

Resolved, That the faculty and students of the University of North Carolina, in public meeting with the citizens of Chapel Hill, hereby place upon record the deep sense of the loss which has fallen upon the United States of America by reason of the cruel murder of the President. They desire to express their personal grief at the death of the first citizen of the Republic. They offer their respectful condolence with those who in the inner circle of his private life have been so sorely bereaved by the untimely taking off of the good man, William McKinley, and especially to her through whom he has illustrated the most beautiful traits of human virtue, do they tender their profoundest sympathy. They here deprecate that condition of the laws which has permitted, in the name of freedom of speech, the utterance of false teachings at variance with all law and whose result has been

The action of the classes who have adopted resolutions condemning, and aiming at the suppression of hazing is distinctly praiseworthy, inasmuch as it goes against long tradition. But, looked at from another standpoint, it is nothing but the natural expression of student feeling against that senseless custom.

For years past the men of the University have looked at the matter in its true light, and held utterly aloof from it, remaining neutral toward the practice. When the thinking men of the University held such an attitude, it was but natural that the practice of hazing should fall more and more into disrepute. That is just what happened, without any voice raised against it.

What really drew forth these protests was the depth of degeneration to which the hazing had come. For the past three or four years, with an occasional semi-excusable exception, almost every single instance of hazing has been the doing of little Sophomores in whom it has become as unbecoming as cigarette smoking in the very young. The sight of these feeble spirits who by running and hiding like brave young ones all their Fresh year, were never blacked, coming out in the role of bold Sophomores, and blacking every Freshman who had not sense enough to put up a bluff and chase them away, has finished the last remnant of the tolerant spirit of indifference which has hitherto allowed it. It has been long since hazing has had the sympathy of the student body—now it is actively antagonized.

The only thing that has prevented action of this kind long ago, is the horror of reporting a fellow student for any misdemeanor not actually criminal. When hazing was visited discriminately on the conspicuously "Fresh," and there was some show of justification for a little "taking down," this feeling was strong. But under present conditions, there is little room for any feeling but disgust, and sentiment is all against it.

There have been men, of course, who have once or twice indulged in the "harmless sport," while sentiment did not disallow it; but they have been exceedingly few and far between. Every one of them has come out for stopping the thing, now that there is any willingness shown to stop it.

The session opens with prospects better than ever before. Never before has the registration come within the present mark in the same length of time, from this, it seems not unreasonable to believe that we will have a record of 600 for this year. Everything bears witness to the excellent selection which gave the University Dr. Venable as President. His work has been magnificent outside in the State; the large attendance speaks for that. But the observable evidences of his wise administration are seen about us on the campus. A fine new dormitory, furnished and furnished after the most approved modern ideas, has been built and is now occupied. The beautiful Alumni Building has been pushed ahead, and it is a matter of only a few weeks before it will be occupied. A system of heating and lighting of the best kind known to modern science is installed in all the buildings, and a fine system of water works and sewerage has been installed. Within the University there is no department but has been improved during the past year. Three new Professors have been created, and a corresponding increase in the number of instructors and assistants. The equipment of the different departments has been improved greatly, in library equipment or apparatus. Everything shows beyond doubt that the University has a brilliant future. The State at large is beginning to appreciate what a noble institution it has at its service, and to know it for what it is.

There is not much that can be said of the football prospects as yet. Very few of last year's Varsity have returned, but it is pleasant to remember that there was not much difference in strength between the Scrub team and the Varsity last year. The new material seems unusually good, and rather more experienced than usual. Between the last year's Scrubs and the new men, the vacancies can be easily filled with good men. The chances seem that the new team will be lighter, but quicker than the teams of the past two years.

First Meeting of the Athletic Association.

On Tuesday afternoon, the 17th, inst., a meeting of the Athletic Association was called by President Berkeley for the election of new officers for the coming year. The attendance was larger and more enthusiastic than any of the kind for years. The whole University was well represented, and showed considerable interest in the elections.

For president, James K. Hall was nominated in most graceful and appropriate manner, by Whitehead Klutz. Amid great applause he was unanimously elected.

Of the two nominees for vice-president, Robin Brem and James B. Whitehead, the former was elected. Tom C. Worth, was elected secretary and treasurer.

For the Tar Heel Board of Editors, the following were elected: B. S. Drane, '02, R. O. Everett, '03, J. A. McRae, '03, J. C. B. Ehringhaus, '01, E. D. Sallenger, '02, J. W. Horner, '03, and E. M. Land,

Law.

The student members of the Athletic Advisory Committee were elected as follows: Graduate member, James A. Gwyn, 'Law; undergraduate member, Jno. S. Henderson, '02.

Notice.

The Tar Heel is sent this week to every student in college. The paper is a University paper, representing the University as a whole. As such, every student in college is expected to support it. With the support of the students we can get out a good paper. Without it we cannot make the Tar Heel what we would have it. Give us your subscription.

Star Lecture Course.

The Star lecture course this year offers five attractions: Mr. A. W. Hawks, Humorist; Dr. W. Hinton White, Traveller in Africa and Australia; Prof. Michael Foster, Liquid air Demonstrations; Boston Sextette Club, Grand Musical Concert; and Dr. Hamilton W. Mabie (or some other prominent literary man) for Literature.

The tickets for these lectures, &c., bought at the door, or reserved just before each, will cost \$3.00; the Lecture Committee offers a season ticket for the five attractions at \$2.25. Last year only a few took advantage of the season tickets, but it is thought that more would like to have reservations throughout the season.

Tar Heel Editors.

On Thursday afternoon, the men elected by the Athletic Association to the Tar Heel Board of Editors met at the D. K. E. House for the purpose of organization. R. O. Everett was made chairman of the meeting.

Brent S. Drane was elected Editor-in-chief, E. D. Sallenger, Business Manager, and J. C. B. Ehringhaus, Managing Editor. Appointments were then made by the Editor-in-Chief as follows: Athletic Editor, R. O. Everett, Local Editor, J. W. Horner, Reporting Editors, J. A. McRae, and E. M. Land.

Various questions connected with the publication were brought up and discussed, chief of which were the day for publication, and arrangements for the prompt publication of the paper each week, than heretofore.

Meeting of Junior Class.

A meeting of the Junior class was held in the Chapel Friday afternoon. Mr. Wm. Gordon called the meeting to order. The first business was the election of officers for the ensuing year. Mr. R. O. Everett was unanimously elected president of the class. After a few well chosen remarks, thanking the class for the honor conferred upon him he assumed the duties of the office. The election of officers was resumed.

It was then moved and carried that a committee of five be appointed to draw up resolutions denouncing hazing.

This committee was also instructed to draw up resolutions censuring cheating.

Messrs. H. P. Stevens, E. P. Holt, B. F. Huske, L. L. Parker and R. W. Herring were appointed as a committee to frame resolutions upon the death of our departed classmate, Charles B. Aycock, Jr. There being no further business the meeting adjourned.

The Yarbrough House, RALEIGH, N. C.

Local Lore.

For outline and material for essays and orations, address Colchester, Roberts & Co., Tiffin, O.

Mr. J. Cox Webb, Ex-'03; visited his friends on the Hill Wednesday.

Messrs. Kemp Lewis and Richard Lewis of Durham spent Sunday with their brother, Ivey Lewis.

Dr. Alexander was appointed by the Governor to act as one of North Carolina's representatives at the funeral of Mr. McKinley.

Several Alumni attended the opening of the University. Among them were Dams Eatman '97, Geo. Vick, '99, Percy Whitaker, George Chadborn '99, and N. C. Curtis '99.

Mrs. Osborne, of Greensboro, is visiting her son, W. E. Osborne '04. She is the author of "Under the Golden Skies," a sketch of North Carolina life.

Work on the Alumni Building is being rapidly pushed forward. It will be ready for occupancy about October the first.

The increased attendance at the University necessitates additional teaching force. Already Mr. McNider has been elected an assistant in Anatomy and Mr. Bennett an assistant in Chemistry.

A strong sentiment against hazing in any form is growing among the student body. The Senior class has already passed resolutions condemning it. The other classes will soon follow.

Mr. W. H. Everhart, Med. '01, was on the Hill a few days this week on important business(?). He is on his way to the University of Maryland.

Unmolested the Sophomores held their class election Saturday night. The officers elected were, Graham Kenan, President; F. R. Gregory, 1st vice-President; Henry Lee, 2d vice-President; S. T. Peace, Secretary; V. A. J. Idol, Treasurer; A. M. Noble, Jr., Orator; W. G. Lamb, Jr., Essayist; F. C. Taliaferro, Statistician; L. H. Jones, Poet, and Neil Graham, Historian.

We wish to impress on the students of the University as never before, the duty they owe the college paper in regard to its advertisers. The advertisements to be found in the Tar Heel this year represents the best firms in their lines in the State; they sell everything the college student needs and will sell as cheap as any other house. Why not every student patronize those who are patrons of the college publications? Let us urge that the students support the Tar Heel ad-

the corruption of weak and vicious minds and the perpetration of an irreparable and atrocious crime against government and man.

"They pray that the resultant sacrifice of the chief ruler and servant of the people may awaken them to the danger which has been allowed to grow up in their midst, and may lead them to devise and execute such constitutional measures as may close the doors of asylum against all enemies of the human race and forever silence the first suggestions of anarchy or other like crime against society and government.

The Seniors.

The class of '02 met at the call of President Stern in Gerrard Hall on the afternoon of the 16th. for action on the question of Commencement honors.

The faculty had recently decided to do away with the system in all future classes, but in consideration to the unusually high order of scholarship of the present Senior class, and the unusual number of "honor men" in the class, who might feel that injustice was done them after their three years of work for honors, it was left to a vote of the Senior class whether the system should be dropped now, or continued until their graduation.

The question as thus stated by Mr. Ballard, was discussed fully at considerable length. The weight of feeling was clearly for abandonment of the system by the class, and when a vote was taken, only two men expressed themselves as loath to abandon their right to graduate with honor (?)

After the vote the president appointed the three men highest in class standing, Messrs. Lewis, Williams and Ballard, a committee to announce the decision of the class to the President and Faculty.

After a long discussion on ways and means, the class adopted resolutions against hazing in any form, and the president was given power to appoint a secret committee of seven to work for its suppression. Like action was taken with regard to cheating on examination.

Later, on Monday, the 23rd. the class met for the election of officers. Mr. Stacy was elected president and took the chair.

The other officers were elected as follows:
Vice-President R. A. Merritt
Sec. & Treas. G. P. Stevens
Prophet R. R. Williams
Historian H. M. Robins
Statistician C. E. Maddry
Essayist J. F. Duncan
Orator R. L. Godwin
Mr. R. R. Williams was elected Captain of the class football team, and Mr. D. C. Ballard Manager.

An experienced representative of the Peerless Meechant Tailoring Co. will be at N. C. Long & Bro.'s on October 5th and 6th. Give them a call.

Common's Hall is better patronized by the students this year than ever before. There is a neat, clean appearance about the dining hall, the waiters are accomodating, the food is of a variety and is well prepared. Remember Commons gives you your board at the actual cost. ATHLETICS

Prospects of Team, Interview of Coach, Tentative Schedule.

The despondency which enveloped the football enthusiasts upon their return to college is fast disappearing before the promising development in the team. The arrival of the coach naturally, had a tendency to restore confidence, but the prospects for a fast team are more apparent than the most sanguine had hoped for. Candidates for the team are still numerous, thirty or forty are in suits most afternoons, and new men continue to come out. One thing more in evidence now than at an earlier period is the increased weight of the material. This is as it should be; the large men should be especially urged to come out. While they need not necessarily be superior to the light men, the preponderance of matter is undoubtedly in their favor.

The work of the class teams comes into prominence this season. Men who were not considered as football material some weeks ago, are pushing themselves to the front and unless indications belie us, bid fair to become star players.

This would not be possible except for the training received on the class teams.

This is the important stage with the football eleven—it is the formative period—and what the team is to be, must to a great extent be determined in the next few weeks. The students of the University should bear this in mind and see that all the support is given that the occasion demands. If the best men are not out soon, it will be too late. After a certain stage in practice is reached, it is at a great disadvantage that new men are trained.

In an interview, the Coach said in substance; "Although material for the first team is assured, the great problem is whether we will be able to get men out to practice the first team. Up to the present time, it has been a matter of prayer to get men capable of playing to put on suits. The making of the team depends on this."

"The team should show at the end of each week a certain amount of development, and this development should correspond to the time of the season."

"The coming ten days should be devoted to the training of green men in the rudimentary principles of the game. Every moment spent after that time, at this work, will be at the sacrifice of the general good of the whole team."

"There is good fighting material here, but we are not after a fighting team only but a finished team as well. Whether we get this or not depends upon the response of the students to the preliminary call. The prospects for a line are good, with the possible exception of the ends. Behind the line the men are slow."

The coach especially insists that

the students do not crowd too near the players, but stay behind the sidelines.

It is well for a large number of spectators to come out and encourage the players but this can be done more effectively from the sidelines than from crowds that hem in the team. The captain and coach have their hands full and no unnecessary trouble should be thrust upon them.

Manager Whitehead was seen to-day and he gave out the following as the scheduled games for the season:

Oct 12, Oak Ridge at Chapel Hill.

Oct 19, Guilford at Chapel Hill.

Oct. 26, Davidson at Charlotte.

Nov. 2, U. of Ga. at Atlanta.

Nov. 4, Auburn Pol. Institute at Auburn, Ala.

Nov. 16, Georgetown at Washington, D. C.

Nov. 26 U. of Va. at Norfolk.

Thanksgiving, Clemson College at Raleigh.

Mr. Whitehead has shown good judgment in the arrangement of this schedule; it is all we could ask.

Meeting of Junior Class.

The Junior class held an important meeting Monday afternoon. President Everett called the class to order and explained the object of the meeting—to hear the report of a committee that had been appointed at a previous meeting to draw up some resolutions in regard to hazing. Before Mr. Ferrell, chairman of the committee, read the resolutions, President Everett made a few remarks. He said that the time had come when the Junior class to take a decided stand against hazing, that these practices were hurting the University, that the University was too large for these relics of a ruder age.

Mr. Ferrell then read the resolutions denouncing and condemning hazing and suggesting a plan by which it could be broken up. Whenever there is reasonable evidence that a student has taken part in hazing as defined in a previous article he is to be brought before a tribunal. This tribunal is to be composed of nine students, four of them from the Senior class, three from the Junior and two from the Sophomore class, and to have full power to expel the student if he is found guilty.

Different sections of the resolutions were fully explained by members of the committee. Mr. McRae spoke of the importance of passing the resolutions and urged the class to do so at once.

A motion to accept the resolutions was put before the house and carried by a large majority.

Cheating on examinations was also denounced and condemned. Anyone suspected of this dishonorable practice will be reported to the tribunal.

It is indeed encouraging to see

the student body taking charge of such things as these and saying that there must be a stop to them.

The Sophomore class held a meeting later in the afternoon and adopted similar resolutions.

THE YACKETY YACK-DIS-CUSSED.

At the request of the Literary Societies, a conference committee composed of representatives from each society and fraternity, met last Saturday afternoon to look into the financial condition of last year's Yackety Yack, and to report on the advisability of again entering into the same organization for its publication. Mr. E. P. Gray was called to the chair, and at his request, Mr. S. J. Everett stated the object of the meeting.

Mr. Drane, Business Manager of last year, the fraternity representative on the managing board, addressed the meeting with regard to last year's Yackety Yack. According to his showing, last year's management figured on a considerable profit. Two things prevailed thus: an unavoidable misrepresentation of part of the contract made the book cost very considerably more than was intended; and the late appearance of the book caused a great loss in its disposal to the students. By another board, profiting by the experience of the last one, the first mistake would be avoided, and all of its nature; and immediate organization and work would insure the appearance of the annual at any date desired next Spring. Thus more could be saved, and more made, in another publication of the Yackety Yack than was the case last year, and financial success would be a certainty. In addition to this, he claimed, a better book could be put out should work be begun at once, the increased time giving the opportunity for the preparation of more, and better material to select from, both in the way of art, and literature.

As to the financial status of last year's book, he stated that the publishers had been paid in full, and that the only debt was a note of \$45.00 held by the Bank of Chapel Hill, due Nov. 18. Collections which are to come in, together with the cash on hand, brings the amount to be raised, down to about \$20.00. There are enough copies left on hand, sold at \$1.00 each, to cover this amount, and bring the publication out clear of debt.

After a discussion, Mr. Everett moved that the conference committees, report favorably to their respective organizations for the publication of the Yackety Yack, as before, and recommend that the editors be elected at once. This motion was seconded by Mr. Short, and then passed unanimously.

Mr. and Mrs. R. G. Lassiter, of Oxford, N. C., were in Chapel Hill last week visiting their sons, R. G. Lassiter, '02 and Benj. Lassiter, '05.

Report of Committee in Regard to Hazing.

The Senior, Junior and Sophomore classes at meetings held during the week appointed a committee of three from each class to draw up resolutions in regard to hazing and cheating. They submitted the following report which was read before, and it is hoped adopted by, the above mentioned classes.

The conference committee of the Senior, Junior and Sophomore classes appointed to inquire into and ascertain the best means to stop the practice of hazing, do report as follows:

I. We recommend the adoption and recognition of the following definition of hazing.

Hazing consists, (1) In the application of blacking, paint or any other offensive or injurious substances to the persons of Freshmen. (2) In any insulting, derisive or injurious treatment of Freshmen that may require or involve the use of masks or personal disguises. (3) In any mistreatment of Freshmen that may cause positive physical injury.

II. We recommend,

A. (1) That the presidents of the three upper classes consider themselves a committee of safety, the Senior president to be the chairman and acting head. (2) That this committee be considered guardian of the public discipline, with whom all charges or complaints of hazing shall be laid. (3) That this committee be empowered and instructed in cases of known or suspected hazing to warn the participant or participants.

B. (1) That when such warning shall not prove sufficient, and the same party or parties shall again come to the notice of this committee for a like offence, they shall be empowered and instructed to lay the case of the suspected party or parties before a student tribunal which shall have over such case or cases complete jurisdiction, even to the power of expulsion.

2d, That this tribunal meet at the call of the chairman of the committee of safety, and to be composed as follows: four Seniors, three Juniors, and two Sophomores, to be chosen by the presidents of three respective classes.

3d, That in the choosing of such tribunal the accused be allowed three challenges for cause.

4th, That before such tribunal when met, the accused may appear and make such plea as he shall see fit.

5th, That the accused be allowed two witnesses, no other testimony to be introduced on either side except such as the committee of safety may see fit to present in person.

6th, That no course or pleading be allowed on either side; the object being to secure justice to all from a plain statement of facts. That the vote of this tribunal be by secret ballot; and that a vote of eight be sufficient to convict or acquit.

Subscription Price, \$1.50 per Year.
Payable IN ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

Every man in college has by this time seen a copy of the TAR HEEL, and has an idea of what it is meant to be. We wish the TAR HEEL to be a true exponent of student feeling in regard to current happenings. In this work, the editors are not meant to be the exponents, all by themselves. The TAR HEEL should be made largely by the students, and we earnestly invite contributions by everyone who has anything pertinent to say. The only right the editors have is judgment on the propriety of the article—a right which is seldom exercised; the only requirement they make is that the name of the author of every article be known to the editor-in-chief, though it need not be published if not desired. We editors want every man in college who has anything to say—anything worth saying—to give us the privilege of saying it through our columns; that is "what we are here for," remember. In order that men in college may more conveniently communicate with the TAR HEEL, a TAR HEEL box has been put in the Library for the reception of all matter intended for publication. It is hoped that this will be taken advantage of.

The TAR HEEL, remember, however, is not solely a bulletin for the convenience of the University. That is, indeed, one of its chief aims, and we wish it to be fully developed along that line, that it may be of greatest convenience to its University subscribers. But it has a broader field. As the official organ of the Athletic Association of the University, it must fairly represent the University's Athletic life, and to do so in a creditable manner. It is sent as an exchange to every college in the Southern Association, and so must be of value to them. There is every reason why our college paper should be as good as any in the South. It must be supported in the same spirit that our athletic teams are, for it is as much a representative institution as they. Help the editors, then, to make it what it should be, something that we may be proud of.

So far the football squad has been large enough to give opportunity for some good preliminary practice. The material seems to show the right spirit, too; attendance has been regular, and all have shown themselves perfectly amenable to discipline. All this is ex-

ceedingly encouraging; it is almost all that can be asked for the present. We have the good fortune to have this year a coach who is going to make a strong team for us, with proper support, and we must see to it that he is supported. Every man in college strong and heavy enough owes it to his college to go out and help to make the team. The squad is by no means too large yet, and there is still great need of heavy men. We must encourage every possibility in the way of a player, to go out and offer his services. As to the rest of us who are not players, let us begin right now, and get behind the team; show them that we are right with them. We owe it to the team to show our interest in them by attending the practice every afternoon, and, further, by open encouragement. Let every man who does his work well, get credit for it from us spectators. Our cheering must be frequent and hearty—let it mean something to the team, and to us.

We again ask the student body to support the college paper. The paper cannot be printed without your support. Out of a student body of five hundred and fifty, one fourth subscribe to the *Tar Heel*. Something is radically wrong. Men, where is your college spirit? Why, sit on the campus and boast of the University and its greatness when you are not willing to support the one factor in our life we cannot do without? Subscribe to the *Tar Heel* at once.

Report of Committee in Regard to Hazing.

(Continued from 1st page.)

III. We recommend that each of the three upper classes pass the following resolution: Resolved: That we will attempt to put down hazing by every means in our power which shall not seem repugnant to the standards of personal honor and integrity.

IV. We recommend further, 1st that this committee of safety before mentioned be empowered to bring up before a tribunal such as previously defined any cases of cheating on examination that may come or be brought to their notice. 2d, That this tribunal be given complete jurisdiction over all such charges of cheating that may appear before it. 3d, That the procedure in such case or cases be that outlined in Section II. of this report.

[Signed:]

DAVID C. BALLARD, CHAS. E. MADDRY, ROBERT S. HUTCHISON, Conference Committee of Senior Class.

JOHN A. FERRELL, W. J. GORDON, JOS. B. RAMSEY, Conference Committee of Junior Class.

S. S. ROBBINS, S. T. PEACE, F. M. HANES, Conference Committee of Sophomore Class.

These resolutions were read and adopted by the Sophomore class, this the 30th day of September, 1901.

GRAHAM KENAN, President.
S. T. Peace, Secretary.

The tennis tournament is under headway. The winner will be announced later.

Y. M. C. A. Notes.

The Y. M. C. A. has bright prospects for good work in the University this year. At the business meeting held September 24th nearly 100 new members were admitted into the association. Among these new members are many old students who are beginning to realize the good which is done to them by taking an active part in the association work.

The following new officers elected in place of several who failed to come back to the University this year: Messrs. R. M. Harper, recording secretary; Z. V. Judd, treasurer, and C. P. Russell, librarian.

Upon the suggestion of Mr. E. G. Wilson, college secretary of the Y. M. C. A. for North and South Carolina, who was here a few days ago, the association is now having some membership cards printed. These cards not only serve as receipts, but also upon presentation, the student will be welcomed to all city and student associations, and during the vacation periods will be granted privileges subject to local limitation in the gymnasium, reading room, etc., of the Y. M. C. A. wherever he may be, while this ticket is in force. These cards will probably be issued to the members this week.

About 50 students have already started taking some of the instructive Bible courses which the Y. M. C. A. is giving this year. The courses in the Bible given by this Association last year were greatly appreciated by those who took advantage of them. These classes meet once a week, generally at some convenient hour on Sunday, and are conducted by good, strong leaders. Anyone else desiring to take one of these courses will do well to see at once Mr. C. E. Maddry, the president of the Y. M. C. A.

Every student whether he is a member or not is especially invited to attend the meetings of the Y. M. C. A., which are held every Tuesday night in the Chapel. He will never miss this small amount of time, in which he is supposed to study, in regularly attending these meetings and in being thereby thus drawn into closer Christian fellowship with his fellow students.

Sunshine and Shadow.

Mr. A. W. Hawks, the laughing philosopher, opened the Star Lecture course in the Chapel Wednesday night September 25th. Mr. Hawks was all fun from the beginning. To attempt to give here in cold type, his stories and anecdotes would be to do Mr. Hawks an injustice. His own inimitable style gave wit and flavor to his anecdotes. His subject was Sunshine and Shadow and "sunshine and shadow" he gave us.

He said in part, that a young man never amounted to anything until he fell in love with some nice girl; that he does not like the man who lives in the past; it was better to live now than to have lived a hundred years ago. A hundred years ago a man who was unable to pay his debts was thrown into prison. A hundred years ago a man never criticized the preacher; now the man who knows the least, criticizes the most. The world gets better every day. Today man is worth

more and money less than ever before in the history of the world. It takes our age to produce a Frances Willard. Do not find fault with the world; kick at the world and the world will run over you. All you hold is what you give away. To be happy quit the shadows and get in the sunshine. The home-maker is the grandest thing on earth. The card table, the gambling saloon, and the race track lead to ruin. L-u-c-k spells failure; w-o-r-k spells success. It was by hard work that Lincoln, Grant and McKinley climbed the heights of statesmanship and won a place in the hearts of the American people.

The Stone Printing & M'fg Co.

ROANOKE, VA.

The Yarborough House, RALEIGH, N. C.

Is almost as widely known as the "City of Oaks." Its equipment, service and table the best that can be provided. Rates \$2, \$2.50 & \$3 per day. Special weekly rates. Coach to and from all trains.

Shoes! Shoes!

First Va. Regiment Band and Orchestra, RICHMOND, VA.

Music furnished for all occasions. Address communications to Secretary.

Mr. Joyner,

REPRESENTING

Lamb & Lyon,

Will be in Chapel Hill next week with the most complete line of Clothing and Gents' furnishing goods ever brought to Chapel Hill.

This line includes clothing made by

STONE BLOCK & CO.

STROUS BROS.

FECHEIMER & CO.

WILSON BROS., Furnishings, Auerbock's Underwear.

You are cordially invited to call and examine his stock

PICKARD'S HOTEL.

Local Lore.

About eighty new members were taken into the Literary Societies Saturday night.

For outline and material for essays and orations, address Colchester, Roberts & Co., Tiffin, O.

Through the carelessness of some workman in the Biological laboratory the valves of the water pipes were left open Saturday night flooding the upper story and leaking through into the Phi. Society Hall. The recently frescoed ceiling was damaged to a very considerable extent.

Mr. G. H. Andrews, '03, spent Sunday in Raleigh.

Mr. H. M. London, of Pittsboro, was in Chapel Hill last week.

Mr. W. K. Battle, of Raleigh, was here for a few days last week.

Mr. J. C. Briggs, of Durham, was in the Hill Wednesday.

Rev. E. Pendleton Jones, pastor of the first Baptist Church of Owensburg, Ky., will be here next week to assist his father, Dr. J. Wm. Jones, in a series of meetings.

Dr. Charles Baskerville was in Willingto last Wednesday.

Mr. David Eatman, who graduated at the head of his class in '97, has been awarded a scholarship, value of five hundred dollars, in Columbia University of New York.

Several students went over to Durham Saturday night to see "Thelma."

With the Law Class.

On Friday night last the Summer Law class assembled in the Law room, and as a token of their appreciation of the work of Judge McRae and Dr. Ruffin, Messrs D. B. Smith and Z. V. Cowper, on behalf of the Law class, presented presents to Judge McRae and Dr. Ruffin. A handsome book case went to Judge McRae and a beautiful chair to Dr. Ruffin.

Mr. Smith spoke of his great interest in the University, how he had learned to love the Law room and what an inspiration it had been to the class to learn at the feet of Judge McRae. He spoke of the highest esteem in which the late Dr. Manning was held and of the anxiety that every friend of the University felt in the choice of a successor to the lamented Manning, but in the person of Judge McRae, his mantle had fallen on worthy shoulders.

Judge McRae, in his response, spoke of his deep feeling and high regard for the class, and that with energy and tact he saw no reason why a young man should fail of success in the great profession of law.

In a few well chosen remarks, Mr. Cowper presented the chair to Dr. Ruffin.

Dr. Ruffin said that he felt a peculiar interest in the class inasmuch as it was the first class which had been under his instruction from the beginning of their legal studies. He warned the young men against being excited when they went before the Supreme Court and wished for the class the best there is in the legal profession.

A Ruling of the President of the S. I. A. A.

The following ruling for the Southern Inter-collegiate Athletic Association has been sent by the Secretary for publication.

You are requested further to publish in your paper this ruling of Dr. William L. Dudley, President of the Association, viz.:

"Any student who has been a member of a summer base ball team, shall not be eligible to play on any team in the S. I. A. A., affidavits sworn to by himself and by the manager or managers of the team or teams of which he has been a member, clearly setting forth that no money, nor consideration of any kind, (in accordance with article IX, section 1, of the constitution of the S. I. A. A.) except actual expenses, has been paid by the said manager to said player."

The Secretary also informs the University that copies of the new handbook of the Southern Inter-Collegiate Athletic Association may be obtained by applying to the Secretary, Professor A. L. Bondurant, University P. O., Miss. The price of the hand book is ten cents. This publication will contain football rules of the Eastern Association, under which the Southern Inter-Collegiate Association will play this autumn,

Meeting of the German Club.

The German Club held an important meeting last week. New officers for the ensuing year were:

- A. M. Carr, President.
- F. H. Lemly, Vice-President.
- Benj. Bell, Jr., Secretary.
- J. L. Morehead, Treasurer.

October dance will be on the night of the 18th, inst.

Leader—J. L. Morehead.

The *Tar Heel* is sent this week to many of the old students of the University. We send it with hope that interest in our life here will be revived. Every man who loves the University is always interested in the doings around his *Alma Mater*. He loves the old landmarks and loves to hear about them. The *Tar Heel* is printed for the University man. it is of interest to him, because it revives in his breast the old college spirit. Without a weekly payer we could not live, the *Tar Heel* is a part of our life. If in this spirit that the management appeals to the Alumni for support. Help us to make the *Tar Heel* one of the best college papers in the country. All those who receive this paper will be considered subscribers unless notified otherwise.

We ask you for your support, if you will not give it, kindly drop us a postal. Subscribe to the *Tar Heel* and you will never regret it.

Dr. S. Rappert, the eye specialist of Durham, will be at the Pickard House Monday, October 7th. Consultation free. You should not fail to consult Dr. Rappert in regard to your eyes. He can be of great help to you as hundreds of others will testify. He will be at Pickard's Hotel Monday, Oct. 7th. See advertisement in another column.

Rev. J. Wm. Jones, preached an able sermon to the students in Gerard Hall Sunday night, Sept. 22. His subject was "Christian Activity in College." The Chapel was crowded as is always the case when Dr. Jones speaks.

Rev. A. McCullen, of Oxford, is assisting in a protracted meeting at the Methodist Church. Students are cordially invited to attend these services.

ATHLETICS.

First Game--Conditions of Team. Coach's Criticisms.

When this paper again goes to press, the first game of the season will have been played. This game means much to our team, as its strong and weak points may be discovered. Besides this, the first game always has a moral effect on the team. Those of a superstitious turn are encouraged or discouraged by the outcome of the first contest as it is to them an omen of the season's work.

Let every student remember this and by their presence on the field encourage the players to their noblest efforts.

The prospects of the team are not as promising as might be wished. The trouble on our athletic field, now and always, is the deficiency in big men for the Scrub team. It is too late in the day to raise the tune about getting men out, supporting the team and the like, and it is late in the day that it should be needed, but such is the case. Those that go out and see the little men that compose the Scrubs, the lack of spirit and enthusiasm displayed by the students must realize the facts stated above.

The Scrubs are unable to train up the regular team, and a team will not exert more strength than the occasion demands. If the Scrubs are now unable to develop the strength of the Varsity, when we meet Virginia and Georgia, that commodity will be strangely lacking. There are men in college with the grit and gristle sufficient to make football players, if there was anyone authorized to go and insist upon their coming out. It seems as if that is what everyone waits for. College spirit is not adequate, individual interest prompts no one, so that if a man is urged to come out it must necessarily be by the Coach. It is time we awaken to our condition.

A week or ten days ago prospects were fairly bright, but since then, so little improvement is perceptible, one has room to despair here on the eve of battle.

Lots of men who have been out, come only for a day, then stop for a week. If you don't get the place you are after, don't give up, but remember that there are about 45 men to one Coach, and he can't get to your case immediately. But all may rest assured of the fact that if a man perseveres and is the best man for the place; he will get that place. There will be no favoritism shown in selection of men for the two teams.

The Coach, although not thoroughly familiar with the progress of the leading candidates, owing to time necessarily spent in organizing the second team, nevertheless ventures to make a few brief criticisms.

"There is a great dearth of ends in the University, at least, good

ends have not presented themselves. The most promising candidates for these positions are Coxe, Fisher, Williams and Carr W. The strong point in Coxe's favor is his ability to get down field on kick. He shifts responsibility by playing about twice as far on defense as he ought, and fails to box good tackle. Fisher is also fair in getting down field and makes good attempts at boxing. He is, however, very light and has had little experience. Williams does not get down the field in following up fumbles, and is apt to wait too long before attempting to tackle runner. Carr tackles fairly well, aids his tackle in boxing opposing tackle better than any other candidates, and on defense takes advantages of his own tackles, smashing a place to make sure of his runner. If ten pounds heavier, he would surely make the team.

The most promising candidates for tackles are Foust, Hester, Gulick and Leggett.

The University already knows Foust.

Hester has shown himself to be a quick man, but has much to learn. He is apt to pay more attention to his own opponent in line, than to general team play. When he has a little more coaching, he will doubtless get over some of his airs. He is quick enough for an end.

Gulick is a very determined man and promises to make an interesting race for several positions on the team. He is improving daily.

Leggett is a little light, but is the sort of man who with season's work, will be a strong candidate at the beginning of next year, when his weight increases.

"The candidates for guards are Brem, Glenn, King, Stewart and Miller.

Brem, who has been laid up with injuries, will probably be in the end of next week.

Glenn holds his guard well, but does not cover space enough, and shifts more responsibility upon the tackle than he should. He has been slow to tackle behind the line and makes scarcely any attempt to go down field under a kick. He is a faithful worker, however, and may prove a valuable man before the end of the season.

King is learning fast and is an earnest player. He is weak in blocking his man, however, and prefers to wait until the runner reaches the line, to breaking and tackling behind. He is also negligent about following the ball when kicked. He has good prospects of making the eleven.

Stewart has been doing good work with the second team. During the past few days he has shown his ability in meeting good clean tackles behind the line. He does not get in all the plays, however.

Miller is one of the latest to put on the suit. He has good football instincts and will prove a help to the University.

Candidates for the center. Orr,

the principal candidate for center, has more ability than he has yet shown, and feels so sure of his place that his work has been poor. From his position he should get the runner out often as the tackles.

Back on the line. The candidates for quarter are Makely, Graves and Ramsay. Makely, last year's regular, has lately been tried as half-back, where he has been learning fast. He is slow in starting, however, and is not sure on punts, and does not hit the line hard enough. It may later seem advisable to put him back at his old place. Graves has been playing quarter most of the time, but is slow at giving signals and does not men in line quick enough. His punting and handling of punts, however, goes a great way to counter balance his light frame.

Ramsay is learning the position for the first time and though his work has been crude in passing the ball and getting into interference, he has been great help in organizing the second team. His tackling has been equal to that of any man on the field.

"The candidates for half backs are Berkely, Nichols, Carr M., Robinson, Graham, and Townsend.

Berkely is the fastest man and kicks well. His defensive work is not equal to his offensive. He follows interference better than other men.

Nichols would be an excellent player if he kept his mind more concentrated on his playing. He is very slow to start, but somehow hits the line with considerable impetus. He does not follow his interference closely. His defensive work has been good.

Carr M. follows interference well but is not a very hard runner. His defensive work has been poor, but his general playing has been somewhat impaired by recent illness. We may expect better of him.

Roberson is an energetic player and likes the game. He has not yet had an opportunity with the first team, but is worthy of attention.

Graham is an erratic player. He hits the line hard at times, but is apt to think he is playing alone. He tackles well.

Full back. The temporary captain, Councill, has shown up well as full back both in bucking and punting, as well as in making interference for runner. He is slow, however in getting his punts away and in starting with the ball. He is a good all around player and can fill almost any position on the team.

Prof. Noble was in Selma Friday. Mr. E. L. Harris, register, was in Durham Monday.

Mr. O. S. Thompson was on the Hill a few days last week.

Mr. Thos. Hill, '05, who had the misfortune to sprain his ankle, is at home for a few days.

Messrs Whit Webb, '03 and W. A. Hart, '05, spent Sunday in Hillsboro.

The Sermon of Rev. T. J. Ogburn.

Rev. T. J. Ogburn of Summerfield, preached the University sermon for October. Mr. Ogburn's sermon was thoughtful and delivered in a way that held the attention of his audience. His text was: "And Jacob went on his way and the angel of God met him." The thought running through the sermon was that the greatest things come to a man unsought. That it is by working for God that man attains success in the world.

Mr. Ogburn said in part that there are some blessings obtained by direct efforts. Wisdom is found by seeking. Blessings come by prayer, by action and by asking for them. Note that other blessings not directly sought come to one. We cannot live by rule. Let a man eat by rule and he will starve. Man must live naturally. The pursuit of happiness is universal; the finding of it is not universal.

Unhappiness comes from a false view of life. We seek the very things that we should not desire. We put our heart on things material. We should put our minds on godly things. Go about your duty diligently, and God will take care of you! The right purpose of life is sublimer than material things. All wealth, every dollar and every acre of land which comes through direct seeking is a curse. We should fear the responsibility of wealth. Blessed wealth comes when it is not sought directly. Abraham said to Lot, "you take the east and I will take the west, or I will take the east and you may take the west." Lot looked on the plain and chose Sodom. Sodom was destroyed, misfortunes overtook Lot and disgrace is yet attached to his memory. Abraham prospered. He obtained the very thing that he generously gave away. There is a divine hand that controls affairs.

Solomon prayed for wisdom. He received both wisdom and wealth. Poverty is not a virtue, and wealth is not a curse. But to set out for riches just for the sake of being rich is the most sordid and blackest deed. Social and ecclesiastical positions should not be sought as an end. People sacrifice everything for position in society. We should not seek for the chief place in the synagogue. Do not seek your own promotion. "He that exalteth himself shall be abased."

Some envy those who are in high positions. This is the best evidence of unworthiness. The man who is jealous of his wife's love is unworthy of it. Never vote for a man who wants a place. Fill your place until you outgrow it and then you will get another. There is a God that rules. Trust him and you will succeed.

The best thing for a man is to espouse some unpopular cause which is right and some right cause

An announcement of the "Star Course of Lectures" was made in our last issue. It may be that the nature of these lectures is not generally understood, especially among the new men, and a few words of explanation may not be out of place.

The need of entertainments during the winter which may keep us in touch with the outside world has often been felt: something to keep the long succession of winter evenings from growing dull and monotonous. Many of the new men can already appreciate the idea, when one of the aims is to keep them from driving through a cold night to Durham to see a "bum" show. Oh no! Not that we mean that you can see it here instead! The Star Course is what it claims to be, every time. Every entertainment is given by a specialist in his line, carefully selected by a committee from the Faculty and students, and you never get anything that is not first class; you never fail to "get your money's worth." The lecture by Mr. Hawks last week was a sample of the quality you may expect. Gen. John B. Gordon and Max O'Rell have been Star Lecturers here; others right in the same class may be depended on, every time.

The scheme is operated for the sole purpose of giving first class entertainment to the University; it is in no way a money-making scheme. It is worked somewhat in this way: the University gives a certain amount towards the expense, and the two Literary societies are responsible for the remainder of the expense. In order that the expense be not too heavy on the societies, an admission fee of fifty cents for each entertainment is charged of men not society members. Season tickets for the whole series are sold at a lower rate than this, for the benefit of those who know a good thing when they see it. The Secretaries of the societies can give full information with regard to the course, and tickets may be gotten from them, until a regular agent is appointed by the Committee. The Course has been fully appreciated in the past, as the full attendances have proved, and it has deserved it. It is safe to say that it will continue to deserve, and to have the appreciation of the student body.

During the past month have died several Alumni whose lives have been a source of unmixed pride and

pleased to their University.

On September 17th died Mills Roberts Eure, of the class of 1898, in his 33d year. While in college he was a member of the D. K. E. fraternity, and of the Philanthropic Society; he was president of the Society for two terms. He narrowly missed being awarded the Mangum Medal. After a few years of teaching he entered the practice of law. In 1892 received by acclamation the Democratic nomination for the Legislature from Gates county, and the Populist party was then powerful, he was elected by the largest majority ever received by any candidate for the office. From 1894 to 1897 he served as vice-consul under General Roberts, U. S. Consul to Victoria, B. C. Since his return to this State he has enjoyed a large practice in his profession of law, in Greenville, N. C.

On October 3d, died Richard Turner Arington, of the well-known firm of John Arington and Sons, Commission Merchants. He was born in Warrenton, N. C.; and married Miss Betty Plummer of that place.

On October 5th died Henry Clay Thompson, for many years a resident of Chapel Hill. He was a first honor man of the class of 1857. For years he was a teacher, and superintendent of public instruction of Orange county. He was a man of very high character and talents. He was a ruling Elder in the Presbyterian church. Though ever since the war he was of the Republican Party, there was never a charge against him, nor any of his motives ever questioned. At the time of his death he was Chief Clerk of the Revenue Department, Raleigh.

Every year since the writer entered college, the *University Magazine* has been seriously handicapped by the lack of contributions from the students. To obtain for publication a bit of fiction, a poem, or a sketch, it has been necessary for the editors to stand over the promising contributor with a figurative goad until the contribution is handed in. This communication is an appeal to every student to do his duty as a student and to perform his part in relation to the Magazine by a trial of his talent for writing. The columns of the Magazine are always open to contributions from the students of the University. By the students and by the students only, can the Magazine be made a success. Let us have contributions!

To encourage literary activity, the Commencement Debaters' Prize of \$20 has been offered to the contributors to the Magazine. The Bingham Prize is to be offered at Commencement. The editors have decided to divide the Magazine Prize as follows:

For the best essay or biography \$10.00

For each of the two best pieces of fiction \$5.00

The following conditions were decided upon.

Each contestant must be a student of the University at the time of submission of essay or piece of fiction.

To be entitled to either of the prizes for fiction, the contribution must be at least 750 words in length.

The prizes are to be awarded by

a committee of three from the faculty.

Sophs. vs. Juniors; 5 to 0.

For the first time in its history, the Junior football team was on last Saturday forced down before the superiority of a competitor. It was most humiliating to this proud class, who for three years have held undisputed championship over the other class teams, to acknowledge defeat at the hands of a competitor for whom they professed the utmost contempt—the '04's.

To the success of the Juniors in their earlier years can be traced the cause of their reverses now. They had such continued success over the other teams that they came to regard success as theirs by right divine, and were only convinced of the fallacy of this belief by the brilliant runs of Jacocks around their ends for anywhere from 5 to 30 yds.

The game was called at 2:30, with the Sophs. defending the west goal. Urquhart kicked off for the Juniors, and sent the ball well into the Sophs. territory, where it remained during the half. The Sophs began by bucking the line, but finding this of no avail, they tried end runs, where they had more show. No one, however, made any decided gain, and at the end of the first half the score stood 0 to 0.

On second half, Juniors defended west goal. Jacocks kicked off for Sophs. Jonas secured ball and advanced some distance. On first down Kerner circled end for 20 yds., carrying ball to center of field. Then by repeated end runs Jacocks and Bass carried the pig skin back to Juniors 5 yd. line. On first down, Sophs. on Juniors 5 yd. line. They buck the line for no gain, but on second down Jacocks circles end for a touch down.

At end of second half score stood: Sophs. 5; Juniors 0. Time, seven minutes. Remainder of half spent in scrambling over the ball without any decided gain for either.

Line up as follows:

Sophs.—Irwin, capt., r. e.; Peace, r. t.; DeLaney, r. g.; Knox, c.; More, l. g.; Cockran, l. t.; Craven, l. e.; Gregory, q.; Jacocks, l. h. b.; Bass, r. h. b.; Frost, f. b.

Juniors—Gant, r. e.; Jones, r. t.; Short, r. g.; Skinner, c.; Everett, l. g.; Jonas, l. t.; Kerner, l. e.; Gordon, q.; Gould, l. h. b.; Terrell, capt., r. h. b.; Urquhart, f. b.

The Sermon of Rev. T. J. Ogburn.

(Continued from 1st page.)

which is unpopular and fight for it. It never hurts a man to tie himself to a principle that is right. If a man believes in a principle let him die for that principle, and he will never die. He will live in memory. The best way to promotion is to be humble. This is typified in the life of Christ.

Happiness, whether religious or secular, is not found by direct search. Happiness, you cannot buy. The most unhappy people in the world are those who are in search of it. We are not here to feel good. We are here to work. We are here to fight all manner of evil. The best thing about anything is what it does. We are here for the service of God. Life is great only as it is linked with ev-

erlasting principles. Let us live for the good we can do.

Special Notices.

Mr. Joyner, representing Lambe & Lyon, the up-to-date clothiers of Durham, will be in Chapel Hill Thursday, Oct. 10, with the finest and most beautiful line of gents furnishings ever brought to Chapel Hill. Look at his stock, and get his prices.

Mr. Harry Dannel, representing Chisholm, Stroud, Crawford & Rees, of Greensboro, will exhibit a full line of clothing and gents furnishings at Patterson's Hotel the first of next week. Be sure to examine their goods.

LAMBE & LYON, Durham, N. C.

Local Lore.

Mr. Newell, Med., who was called home last week on account of sickness in his family, has returned to the University.

Dr. Chas. Baskerville was in Raleigh Friday making arrangements for a handsome exhibit at the State Fair by the University.

Messrs. Tom McAden, '05, F. S. Cox, '05, and D. A. Bullock, Phar., are in the infirmary with the mumps.

Mr. F. S. Hassell, who went home sick three days ago, is again in college.

The Sophomore football team expects to go to Oxford Friday afternoon and play the Horner team Saturday morning.

The heating plant is now in operation. So far it has given entire satisfaction.

Until the Philanthropic Society Hall is repaired the society will hold its meetings in the Chapel.

Dr. Edwards and wife, Prof. Wm. Gill and Miss Moore, Mr. Joe Breedlove, an old student of the University, Misses Carrie Scruggs, Lizzie Bridgers, Edgerton and several other "Co-eds" of Trinity college, visited the University.

Gen. W. R. Cox is here visiting his sons, A. L. Cox, '04, and F. S. Cox, '05.

Mr. Tom Beall is in Greensboro this week taking in the Central State Fair.

Mr. A. G. Roundtree, of Brooklyn, N. Y., was here Sunday on a visit to his sons, J. R. Roundtree, '03, and L. G. Roundtree, '05.

Messrs. Stewart, Lewis, and Clayborne Carr spent Sunday in Durham.

The Law Class.

The following University Law students passed the examination of the State Board:

- C. E. Thompson
- S. G. Bernard
- E. M. Land
- G. V. Cowper
- W. C. Rodman
- R. A. Pittillo
- R. W. Lemmond
- D. B. Smith
- J. R. Mitchell
- W. J. Cocke
- M. W. Winstead
- C. W. Sapp

Pharmacy Men.

The following men from the University Pharmacy department passed the State Board:

- J. E. Hicks
- H. H. Eubank
- W. D. Patterson
- C. W. Simpson
- M. M. Pendleton
- W. L. Phifer.

Meeting of Medical Class.

The medical class held its election Oct. 2nd. The officers elected were:

- J. K. Hall, President.
- Eben Alexander, Vice Pres.
- W. W. Council, Secretary.
- F. L. Sharp, Treasurer.
- Archie Graham, Prophet.
- E. G. Alexander, Poet.
- M. Guthrie, Statistician.
- J. H. Stanley, Chaplain.
- J. P. Battle, Surgeon.
- N. A. Orr, Historian.

With the Societies.

Owing to the recent injury done to the Philanthropic Hall by a leakage in the pipes, the society met in the Chapel. As it was rather cold, and as there was no heat at hand, the regular exercises were dispensed with.

The Dialectic Society discussed the question, Resolved, That each individual should report all cases of hazing coming under his observation. The affirmative argued that hazing is no part of the University work, that the spirit of the times is against it, and, therefore, it should be stopped, and the only practical way to stop hazing is for each individual to report cases of hazing coming under his observation.

The affirmative argued that it is wrong for one student to report another, that it would tend to create a rebellious spirit in the students and that is the duty of the Faculty discipline a college.

The committee decided for the affirmative.

University Day.

Next Saturday, University Day, will be observed by simple exercise in Chapel at eleven o'clock in the morning. The regular Annual Address will be delivered by Colonel Thomas Williams Mason of Northampton.

Colonel Mason is one of the University's most loyal Alumni. He graduated with the class of 1858, with high honor. His title was won in the Confederate States army. After the war he was active in the work of re-establishing the University. He has been a member of the General Assembly, Railroad Commissioner, and for many years a Trustee of the University.

He is a lawyer by profession, but his large plantation near Garyburg, on which he resides has a great part of his attention.

Messrs. A. W. Latta, Jno. Cheshire, Thos. Mears, Horace Emerson, and Benj. Bell attended a dance in Oxford Friday night and report a pleasant time.

The Yackety-Yack.

The Editors of the Yackety-Yack met at 7:30 last Monday evening for organization. A copy of last years' agreement for its publication was brought out and discussed. It was finally amended to read as follows:

I. There shall be a University Annual, its name to be "Yackety-Yack."

II. The board of editors shall consist of one representative from each Fraternity and four from each Society. The editors from each Society shall have two votes each. Provided, however, that in case of change in the number of fraternities represented, this ratio of two to one be preserved in voting power of the Society representation. The method of changing this voting power of the Society representation to be decided by the Society representatives.

III. The managing board shall consist of two business managers and an editor-in-chief.

IV. One member of the above board shall be elected by the fraternity representatives from among their number, and one by each Society.

V. The non-fraternity element shall be given a cut to be paid for by them, and reasonable space for a write up free of cost.

VI. All expenditures and disbursements shall be borne one-third each by the fraternities as a body, and the two Societies. All expenditures and disbursements shall first be ratified by the board of editors:

(Signed:)

B. S. Drane, Editor-in-Chief, S. J. Everett, H. B. Short, Jr., H. P. Stevens—Philanthropic Society.

Dialectic Society: J. A. McRae, Business Manager; Hazel Holland, S. S. Robbins, G. L. Jones.

Fraternities: J. R. Rountree, Sigma Nu, Business Manager; W. H. Lee, Phi Delta Theta; Wm. Dunn, Jr., Delta Kappa Epsilon; J. R. Giles, Alpha, Tau Omega; J. H. Winston, Zeta Psi; J. H. McAden, Jr., Sigma Alpha Epsilon; G. G. Galloway, Beta Theta Pi; Chas. C. Orr, Pi Kappa Alpha.

Committees were then appointed by the editof-in-chief as follows:

On Design, Size and Price: McRae, Rountree, Robins, Holland, Giles.

On Subscriptions: McAden, Everett, Peace.

On Art and Literature: Short, Winston, Giles, Holland, Robins.

On the Faculty: Lee.

On Academic Classes: Jones, Dunn, Stevens.

On Professional Classes: Orr, Jones.

On Athletics: Galloway, Jones, Winston, McAden, Everett, Orr.

On College Periodicals: Everett, Lee.

On the Y. M. C. A.: Peace, Dunn.

On College Societies: Robins, Lee.

On Social Organizations: Holland, Galloway.

Land's Resignation.

The Board of Editors of the Tar Heel met Monday afternoon to act on the resignation of Mr. E. M. Land, who has completed his law course and left college. Mr. R. W. Herring, '03, was elected to fill his place on the Board.

UNIVERSITY DAY.

Col. T. W. Mason, Speaker of the Day.

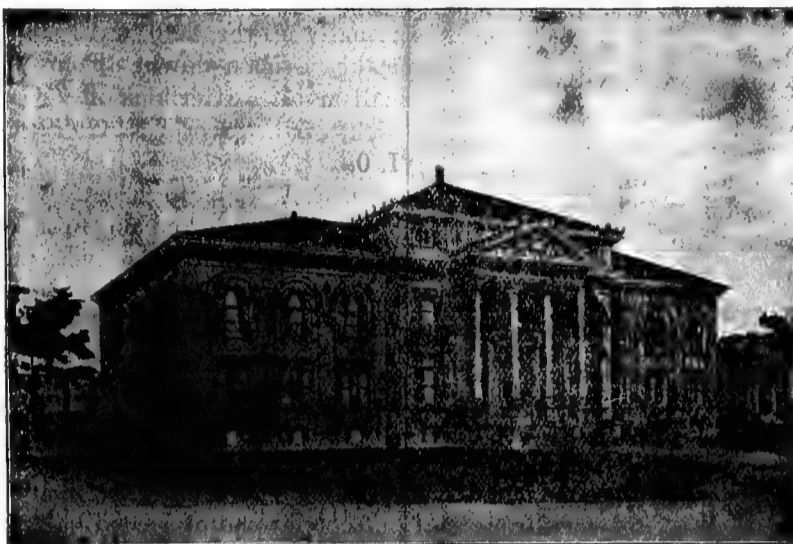

University Day exercises were held in the Chapel Saturday, Oct. 12th, at 11 a. m. Exercises were opened with prayer by Rev. Edloe Pendleton Jones, of Owensboro, Ky. Dr. Venable introduced the orator of the day, Col. Thomas W. Mason, of Northampton, a member of the class of 1858.

In his introduction Dr. Venable said: "One hundred and eighty years ago, 1793, the corner stone of the first building of the University was laid in faith and hope by our strong fore fathers who builded better than they knew. In 1795 one man, one house and a few books comprised the University. We are assembled today to reap the fruits of the work of the grand pioneers, who founded this University. It is their achievements, not ours. It is well, then, to think of these noble men, to commemorate their deeds.

"We have with us today an 'old boy' of the class of 1858, and, who, when the country called him to battle, gladly and cheerfully consented to enter the strife. When the civil strife which almost rent our nation in twain was over, he rendered valuable assistance to the University by acting as a wise and valuable trustee. I have the pleasure ladies and gentlemen, to present to you the speaker of the day, Col. Thomas W. Mason, of Northampton.

Col. Mason said in part: "Mr. President and gentlemen of the University, ladies and gentlemen,— I wish that I could utter some thought at this hour worthy of you. When I received your invitation through the kind letter of President Venable, my first impulse was to decline this honorable office. And yet, it was a most welcome, pleasing message, for which I was very thankful. And while I distrusted myself, I seemed to hear the voice of dear old Chapel Hill calling me; and an intense longing took hold of me to come to you. I wanted to stand once more where I stood in the fifties. Halcyon days they were when heads now white shone with the glow of youth and when that old life of ours was abroad, now only a sweet memory, whose very breath was the inspiration of heroes. What a great part of that old life this University was! And so I came to you today, bringing only the tribute of a warm heart.

Mr. President, I know few things on earth that can equal in interest, an assemblage like this. We the people are not concerned with what Calculus or Grammar you teach, but we are concerned with what you are thinking about apart from your text books; what opinions and aspiration are being formed here. We have abundant confidence in the President and Faculty of this University, and we ask you to share

with us that confidence, and doubtless you do. Let me remind you, at once, that you belong to us or perhaps it is a little better to say that we belong to you, or better still that we belong to each other. You are a part of us, and a great part, you are as much a part of us as the cadet at West Point or Annapolis is a part of the army.

"How came this University here? Its genesis has been recited many times, but you will let me mention again some of its characteristics which have entered into its life, and which have made it forever, "bone of our bone and flesh of our flesh.

It does not owe its life to the brain of any one man or to the purse of any dozen men. Many fertile brains and many generous hands have helped it on its way, but it was conceived by the people of N. C., assembled in convention at Halifax in Nov. 1776, and born at Fayetteville by an act of the General Assembly on the 11th day of December, 1789.

This University is a "Tar Heel" of "Tar Heels." It was eternally fit that it should grow slowly and it did. But it did grow and it had staying qualities. Its growth was our growth, its poverty was ours. It is of us and by us and for us; and "it shall never perish from earth;" it will endure "for it was founded upon a rock."

"Why did it come into being? The constitution of 1776 answers: 'All useful learning shall be encouraged and promoted' here; the act of December 1789 further answers: 'that it is the indispensable duty here' to consult the happiness of a rising generation and endeavor to fit them for an honorable discharge of social duties of life." Again our present constitution tells us, that religion, morality and knowledge being necessary to good government and the happiness of mankind, schools and the means of education shall be encouraged.

"What does useful learning mean? Let that be our theme on this University Day. What did our fathers mean by these words? Are we executing the trust imposed in us in good faith? They have construed these words to mean that learning conduces most to the happiness of mankind, to the honorable discharge of our social duties and to good gov-

ernment. How did they apply to the constitution and the act? They bought their text books, they employed their teachers, and they put the young men who came here for instruction to the study of Latin, Greek and Mathematics. Is the study of Latin, Greek and Mathematics conducive to the happiness of mankind, to the honorable discharge of our social duties? They seem to think so. Surely, through all these score years and ten the guardians of this University must have thought that they were consulting the happiness of the rising generation and fitting them for an honorable discharge of their social duties. And they had a right to. Class after class went forth from this stern curriculum, and, lo, they had stout limbs and bore their lances well. You will not ask me to review this long line of useful, I will not say illustrious workers. One of them years ago, then President of the United States, came back to bring, in person the tribute of his gratitude. In all of these states of the South theirs no ministry of labor in which they have not worn the badge of their honorable service. Did this high type of manhood come from the study of Greek and Latin and Mathematics? It may be safely said that without these studies, we lose that accuracy of thought and beauty of expression which give ease and grace in the discharge of our social duties, but let it be said that it is the only culture of true manhood? Surely not, the spirit and not the text book gave it to us. But what was this spirit of the old curriculum?

"Let us again enter these halls that we may discover and interpret this spirit. The soul of useful learning, we need not fear to enter. We shall find here many weaknesses and follies; but we shall find here, also, a confidence and a brotherhood, whose very warmth is a school of happiness. You will learn here, the noblest lesson ever learned in life, to minister to a weaker brother. You will have keen rivalries in your society, in your fraternities and in your class, but these will only increase knightly zeal for the colors you wear. From these you will learn also the lesson of unselfishness. It

FIRST GAME OF BALL.

Carolina Makes 28 to Oak Ridge Institute's 0; Account of Game

Carolina's football season of 1901 was opened Saturday by a very interesting game between the teams of this institution and that of Oak Ridge Institute. The condition under which the first contest was held were very auspicious. The weather was very pleasant. The clouds hovered over the field during the afternoon, protecting the players from the rays of the sun, and making it very comfortable for the spectators. The size of the crowd at the game was gratifying, showing the increased interest of the student in Athletics. The enthusiasm of the students was as great as the onesidedness of the game warranted.

When Carolina appeared on the field there seemed to be a feeling of dejection at the absence of so many of the old players, but this was dispelled in the presence of the new men, who promise to be worthy of the reputation they inherit as members of the Varsity football team.

The O. R. I. men were outweighed and outclassed, but notwithstanding this they put up a plucky game till the finish and in the last part of the last half prevented Carolina from scoring a touch down in the usual time by stubborn resistance. The workmanship of tackling behind the line was especially good.

Carolina started out playing swift ball and for the first five minutes the work was flattering. After this though, the men began lagging and their movements were seriously slow. Victory is not always to the swift beginner but to the one who perseveres with vigor till the end, an old adage that might be recalled with profit here.

In regard to the general work of the Varsity the following points were prominent.

The line work was not aggressive. From guard to guard there were no openings and the runner was forced to plough his way through by main strength. The tackles were apt to make their openings too soon and as a result they were choked up before the runner reached them. Play was slow, due to the failure of the quarter back to give signals quickly. There was an absence of good clean tackling. The work of the men who played the three centre positions was especially disappointing, but the work of the men who played behind the line was promising and fairly fast. Foust was the only man on the field who assisted to any extent in the interference.

First Half.

North Carolina won toss and chose to defend east goal. Oak Ridge kicks ball to Carolina's 20 yard line, Graves secures it and advance 15 yards. First down: Foust carries ball 8 yards over tackle. Carr goes through line four yards;

Subscription Price, \$1.50 per Year.

Payable IN ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communication for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

On Saturday the Varsity lined up for the first game of the season. While the result was just about as expected, the game was nevertheless, one of peculiar interest inasmuch as it afforded the first opportunity for something like accurate estimation of our prospects for a strong, and winning team when we meet our principal rivals.

From this point of view the game was exceedingly gratifying for the results of the efficient coaching were seen on every hand. Our team delighted the college not only by their fast, snappy playing and the ease with which they made regularly the required distance, but also by their beautiful defensive work. It is a peculiarly significant fact that during the entire game there was but a single failure on the part of the Varsity to make five yards at least in the allotted number of downs and that this failure was due to an offside play. It is also interesting to note that although our opponents punts were frequently returned in order to give them further opportunity to test our defense—not once did they succeed in advancing the sphere the required distance. There was a total absence of anything savoring of "dirty football" in the work of both teams and the entire contest was characterized by a spirit of gentlemanly sportsmanship—the spirit which has made football such a popular college sport.

These few general remarks serve to show us what a team we have—a team strong both in defense and offence, in other words a winning team. Of the team's doing its duty by a continuance of the hard, conscientious training that has marked the season thus far, we have no doubt. But there is another element necessary for the production of a successful team. No matter how good the team may be, without the support of the college their efforts will amount to nothing. It remains to be seen whether we, as University students, shall do our duty toward the team.

The rooting at Saturday's game was good when we take into consideration the small crowd present. Such a thing should not occur again. Let every student of the University come out—not only to the practice games but also to the match games

and encourage our representatives by our pecuniary as well as our vocal support.

For the benefit of our alumni and others we publish in this week's issue a cut of the Alumni Building. This building is rapidly nearing completion and will, we are informed, be ready for occupancy before the expiration of the Fall Term. When completed it will not only, in all probability, be the handsomest structure of its kind on the campus but will also supply a long felt want and be a noble reminder of the love of our Alumni for their Alma Mater.

Beginning with this issue, the editorial department of the *Tar Heel* passes into new and untried hands. It is with fear and trembling that we assume the position but with a keen appreciation of the incumbent responsibilities. Hence throughout our term of office we shall fervently endeavor to keep the paper up to the standard established by our predecessors.

First Game of Ball.

(Continued from 1st page.)

Berkely over tackle 4 yards; Berkely around end for 20 yards; Carr carries ball through line 5 yards; Makely goes over tackle 4 yards. Foust over tackle 10 yards; Carr bucks line for 3 yards and Foust goes over tackle for 8 yards. Berkely circles end for touch down; Graves fails to kick goal. Time six minutes; score N. C. 5; O. R. I. 0.

O. R. I. kicks to Carolina's 25-yard line, King advances 10 yards; Berkely, assisted by Foust's superb interference, skirts end for 20 yards. Carr hucks line for no gain; Makely goes through line for five yards; Foust over tackle for 3 yards. Cox secures ball on Berkely's fumble and advances 10 yards. Foust goes over tackle for 7 yards; Berkely goes around right end for 10 yards. Makely over tackle 6 yards. Foust goes over tackle for touch down. Council punts out but Hester fails to make fair catch; no goal. Time 4 and a half minutes. Score Carolina 10, O. R. I. 0.

At this point Carr gets hurt and leaves field. Council goes to full and Glenn to right guard.

O. R. I. kicks off to Carolina's 25 yard line. Graves secures ball and advances 15 yards. Council bucks line for 5 yards; Berkeley circles end for 5 yards. Makely fumbles but Berkely secures ball; Makely tackled behind line by Makeship for loss of 3 yards. Council hits line for 9 yards. Berkely goes around end for 6 yards. Council bucks line for 10 yards. Foust rushes tackle 8 yards. King over tackle 5 yards. Council hits line for 7 yards. King goes over tackle for 3 yards. Berkely skirts end for 8 yards; Foust makes gain over tackle for touch down. Graves kicks goal. Time 6 minutes. Score N. C. 16; O. R. I. 0.

O. R. I. kicks off to Graves who returns kick for forty yards. O. R. I. bucks line for 2 yards. Second down O. R. I. hits line for no gain and third down O. R. I. punts 30 yards. Council hits line for 10 yards. Berkely around end for 10 yards; Makely fumbles and ball goes over on downs.

O. R. I. fails to make gains and

ball is back in Carolina's possession as time is called.

Score at end of first half, N. C. 16; O. R. I. 0; time of half, 20 minutes.

Second half was begun with O. R. I. defending east goal. Council kicks off to O. R. I. 15 yard line. The ball then is carried continually up the field until Berkely makes a touch down: Four and a half minutes after kick off. Graves kicks goal. Score: N. C. 22; O. R. I. 0.

O. R. I. kicks to Foust who advances 10 yards and on first down carries ball 10 yards over tackle. Gain for Carolina continued until goal was reached. Graves kicked goal. Time 5 minutes. Score, Carolina 28, O. R. I. 0.

O. R. I. kicks to Graves who returns kick. Time called with Carolina on O. R. I.'s 15-yard line.

Score at end of second half: Carolina 28; O. R. I. 0.

Musical Organizations of the University.

The Guitar and Mandolin Club that was prayed for so persistently and earnestly in the Tar Heel last year, has this year been realized and is now in full swing. Under the able directorship of Mr. Woolsey the club has already learned several very good pieces and is progressing rapidly. The Business Manager, moreover, has recently sent off for a full repertoire of more difficult selections such as are quite worthy to be dispensed by representatives of the University. The club meets in the chapel on Monday and Wednesday nights and on Saturday mornings. A small circle of listeners is usually attracted, and all seem to enjoy the harmony with which the club plays even at this early date. Later on it may be necessary to give even more time to these practices. This one thing, however, we know, and that is that the Guitar and Mandolin Club will prove an honor to the University.

In addition to the Guitar and Mandolin Club there has been organized an orchestra of seven instruments. It is not yet in good running order, but soon will be, and from the present outlook promises a successful career.

A Glee Club will, of course, be added to the general musical contingent of the University. This organization, as it will be more easily and quickly brought to perfection, has not yet started to work. We feel sure, however, that it will prove more than a success and that it will revive in all Alumni throughout the state recollections of their

University Day.

(Continued from 1st page.)

will be revealed to you that the true man is he who gives himself to the service of others without reward or the hope of reward. No creed will demand your fealty here. You are in the home of independence whose hearthstone was laid by our fathers when they separated themselves from England. Confidence in your fellowman, unselfish purpose in your heart, the spirit of independence leading you forward, sympathy broad and deep, calling you to the service of mankind; these are the graces that adorn you. Does not the soul of useful learning speak to us through these graces. And so, the text book learning, however deficient it may have been, became useful learning through the spirit of its system that gave to it its form and beauty. These graces abound here today and they do wherever the soul of useful learning has its home.

"We hear much said now of what is called industrial learning; sometimes it is called technical education. Is not all useful learning education? Technical learning, that guides the work of our hands, is as necessary as seed time and harvest. We appreciate those who are imparting technical learning to our rising generation bid them God's speed; but we beg that they will add to our industrial learning the grace of useful learning.

"Last summer, it was my fortune to read the addresses of distinguished speakers at our school commencements. These speeches seem to teach that this is an era of industrial learning synonymous with our educational awakening; that industrial learning means gainful learning to its possessor. Certainly, industrial learning is necessary in the service of mankind; surely "the laborer is worthy of his hire;" and money making, while I would not class it as one of the fine arts is honorable. But is there not danger in exciting too much the craftsman's sense of gain and power? How are we consulting the happiness of a rising generation and fitting them for the honorable discharge of their social duties? Shall we produce a generation of money lovers and money getters and tell the world that this is the highest type of manhood? Is this useful learning?

"We used to hear much of the irrepressible conflict between free and slave labor. We hear quite as much now of the conflict between labor and capital. What does it mean? Only the battle of the money-lovers and money-gatherers defying the laws of trade. Political parties offer us their platforms as a remedy.

"In the name of this University, I offer the remedy of useful learning as construed by our forefathers. Your address, Mr. President, when you began your office, gave us no uncertain note. You told us that this was "the trust of our fathers". Gentlemen of the University, you have lost none of the meaning of useful learning. You will welcome the era of industrial learning, you will go forth to teach the craftsman his art, but you will not forget that you belong to the brotherhood of letters, the sign of whose order

is unselfish service.

"Let useful learning go forth throughout the world to ennoble labor and consecrate wealth. Let it flow forth as a river upon whose bank shall grow all trees, whose fruit shall be for meat and the leaf thereof for medicine.

"Gentlemen of the University, with cherished memories in my heart, with my love for my country chastened by the shadow of bereavement that now falls about its hearthstone, I ask that I may kneel once more with you at the shrine of venerated learning."

(Continued from 2d page)

college days and imbue them more and more with that glorious college spirit that has never failed to stir the heart of every student of our University.

Local Lore.

Graham Andrews spent Sunday in Raleigh.

Tom Beall has returned from Greensboro.

Resignation of Mr. Drane.

At a meeting of the Tar Heel editors in the Y. M. C. A. room Saturday Mr. Brent S. Drane, '02, offered his resignation as editor-in-chief. On motion the resignation was accepted and Mr. J. C. B. Ehringhaus '01, was elected to fill his place. Mr. Drane then offered his resignation from the board stating that his work as editor-in-chief of the Yackety-Yack necessitated his withdrawal from the Tar Heel staff. This resignation was also accepted on motion. Mr. Hazel Holland, '03, was elected to the vacancy made by Mr. Drane's resignation.

The board then proceeded into the election of a managing editor to fill the vacancy caused by the election of Mr. Ehringhaus to the chiefship. Mr. Holland was elected.

Various matters connected with the Tar Heel were discussed and at the request of the editor-in-chief a motion that the board meet regularly once a week in order to facilitate the regularity of the publication was carried.

Discontinuance of Summer Term.

The management of the University have decided to discontinue the sessions of the Summer Term, which has been conducted during the last two summers. The reasons for discontinuance are that the Summer Term taxes the resources of the University to too great an extent, and that it comes at a time when those who teach here need opportunity to prepare for the work of another year. This action with reference to the Summer Term has nothing to do with the Summer School for Teachers, nor with the Summer Law School.

With the Societies.

The Di. Society discussed the question, "Resolved, that the honor system should be restored". The debate was good. The committee decided for the affirmative. Mr. Stacy made the best speech.

The Phi. Society discussed the question, "Resolved, that foreign immigration should be prohibited". The committee decided in favor of the negative. Mr. Dameron made the best speech.

From the Phi. were elected for the Soph-Junior debate Messrs. Z. V. Judd, '03, and E. S. W. Dameron, '04; from the Di., Messrs. L. L. Parker, '03, and V. A. J. Idol, '04. These are all good men and a lively debate is anticipated.

Press Association Meeting.

The Press Association held a meeting in Gerrard Hall Thursday afternoon to elect officers for the ensuing year. The following gentlemen were selected: J. E. Latta, Pres.; Whitehead Klutz, Vice-Pres.; Benj. Bell, Sec. and Treas. There were more correspondents present than at any previous meeting. About twenty papers were represented.

Dr. Hume lectured before the three Ladies' Clubs of Durham last Thursday night at Judge Winston's elegant home. The banquet under Mrs. Winston's direction is described as of unusual beauty and delightfulness in its service and setting. Dr. Hume's subject was "Shakespeare's London and the London of To-day".

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., October, 23, 1901.

No. 5.

Carolina, 39:

A. & M. O.

On Wednesday, the Agricultural and Mechanical college team came up from Raleigh and engaged Varsity in a manner not unbecoming visitors. While the first half was all Carolina's, the A. & M. took a brace in the second and by hard work succeeded in carrying the ball to our five yard line where they fumbled just as time was called.

Both teams were in good condition; both with victories behind and a battle royal was expected. A. & M.'s line was apparently very heavy, averaging perhaps, 180 lbs. The anomaly of an N. C. sweater-man, playing on the opposing team was realized in Richardson. The star players for the visitors were Gardener and Welch. Their tackling was a feature. Asbury, the quarter, also did good work in passing the ball.

The work of Carolina showed considerable improvement over the game with O. R. Institute. There was throughout however, a lack of the team work that should be seen at this stage of the season. The runner was often allowed to go through the line unsupported. When by united effort the ball was carried four or five yards. The men would make no further attempt to push, shove or drag the man with the ball along. There was no lack of brilliant individual plays. The gains of Berkely around the end, and the interference of Council on long runs were features. Graves of also did good work and the tackling Smathers was of the finest kind. Carolina's score was made in the first part of the game. In the second half the subs were run in and it was with great difficulty that they were able to hold their own. The A. & M. men discerning the vulnerable point, pounded our line again and again for their distance.

FIRST HALF.

Council started the game with a long kick to A. & M.'s 20 yard line. A. & M. bucks the line for no gain; called off side, and after two more rushes ball goes to Carolina on downs. Berkely circles end for 10 yards; Foust goes over tackle 5 yards and Council bucks tackle 6 yards for touch down. No goal. Time three minutes. Score, N. C. 5; A. & M. 0.

Richardson kicks off touch back. Carolina lines up on 25 yard line and Council kicks off 35 yards to Richardson, who is downed in his tracks by Smathers. Ball then goes to Carolina on downs. Carr goes over tackle 5 yards and Berkely through line for touch down. No goal. Time, 2 minutes. Score, N. C. 10; A. & M. 0.

A. & M. kicks off 20 yards to Jones, who advances the ball 10 yards. Berkely goes around right end 10 yards, but Carolina is called off side in the second down and in

third down ball goes over on Carolina's failure to make required distance. A. & M. bucks for small gain, and on the third down ball goes back to Carolina. Carr hits line for four yards; Berkely around end 10 yards; Carr bucks line for 10 yards and Berkely goes around end 70 yards and a touch down, goal. Time, two minutes and a half. Score, N. C. 16; A. & M. 0.

A. & M. kicks off to Carolina's 20 yard line; Graves secures ball and turns down the field, after innumerable dodges and zig-zag runs he is free from further obstruction and scores a touch down in less than a minute after the kick off, no goal. Time, one minute. Score, N. C. 21; A. & M. 0.

A. & M. kicks off 30 yards; Graves advances the ball 10 yards. Carr over tackle 4 yards; Foust bucks line 5 yards; Berkely circles end for 10 yards and Council over tackle 4 yards; Carr goes out and Makely takes his place. Makely tackles behind the line at loss and Council punts 50 yards. A. & M. bucks line for no gain and at end of third down the ball is back in Carolina's possession. Makely around end for 4 yards; Council bucks line for 10 yards; Berkely circles end for 20 yards, and Foust goes over tackle for a touch down. Council makes a fair catch and Graves kicks goal. Time, 4 minutes. Score, N. C. 27; A. & M. 0.

A. & M. kicks off 40 yards to Makely who advances the ball 20 yards. Council bucks line for one yard. Makely loses 3 yards and Council punts 30 yards. A. & M. bucks line for no gain and at end of third down ball again goes to Carolina. Foust hits the tackle for 10 yards and Makely skirts the end 50 yards for a touch down, goal. Time, two and a half minutes. Score, N. C. 33; A. & M. 0.

A. & M. kicks off to Graves who returns kicks. Richardson secures ball but is tackled by Council before advancing. A. & M. tries tackle for no gain, attempt an end run with some result, and on third down punts. Graves gets the ball and moves up the field 10 yards. Makely around end 5 yards; Foust hits tackle for 10 yards; Berkely goes around right end 15 yards and Foust hits the line for touch down. Council makes a fair catch and Graves kicks goal. Time, 3 minutes. Score, N. C. 39; A. & M. 0.

A. & M. kicks off to Graves who returns kick. Cox tackles before any gain is made. Richardson punts 20 yards and Cox falls on ball beyond the line. Council punts 10 yards and Smathers makes fierce dive for Richardson and downs him in his tracks. Time called with N. C. on A. & M.'s 30 yard line. Score at end of first half N. C. 39 A. & M. 0.

SECOND HALF.

In the second half A. & M. made better showing. The pig skin was

(Continued on second page.)

CAROLINA 42;

GUILFORD 0.

The last game of the season on the home grounds was played on Saturday last with the team from Guilford College. This game had been looked forward to with a great deal of interest for some time inasmuch as all desired to compare the score rolled up by the Varsity with that made by Clemson—our Thanksgiving day rivals—against the same team. The result was somewhat disappointing to the student body and other supporters of the Blue and White inasmuch, as Clemson had previously beaten Guilford by the unusual score of 122—0.

While we cannot understand the piling up of such a large score unless the defeated team was terribly crippled, we are yet forced to recognize the apparent strength of our South Carolina friends.

In our game on Saturday the work of our team was most certainly disappointing and we are at a loss what to attribute it to. There was almost an entire lack of the team work so necessary to success and was due without doubt due to individual efforts. The contest was not only unusually slow but was characterized by fumbling and half-hearted playing on the part of our men. Most probably it was due to over-confidence. This must certainly be eliminated for it is absolutely fatal.

Soon after the game started it became evident that we were to have a hotly contested game. Carolina received the kick and after a small gain lost the ball on downs, but Guilford was unable to gain five yards and consequently the ball was once more in Carolina's possession. This time the Varsity started off with a 20 yard run by Berkely, but they lapsed again into their lethargy and again Guilford took the ball on downs.

However it was only three downs before they lost the ball and the Varsity then began to do something like work. By a series of line plays Guilford was forced down the field until finally Carr crossed the line for the first touchdown. Time 10 minutes.

Graves kicked an easy goal. On the kick-off Carolina again began well. By hard, straight football the sphere was advanced thirty five yards and then lost by Berkeley's fumble. Makely retires and Carr takes his place at right half, Holt going to full.

Guilford again tries the line for no gain and kicks to Graves who makes a fair catch. Council then by a beautiful punt sends the ball over Guilford's line and Guilford man falls on it. Touchback. Varsity then received the kick from the 25 yard line and immediately rushed the ball over the field for the second touchdown of the game. Goal is kicked,

Varsity received the kick and again rushed the ball straight down the field, Berkely making a nice run of thirty yards. Finally Carr again bucks line for touch-down. Berkely retires and Jacocks takes his place at left half.

Foust received the kick-off and advanced fifteen yards. Here Jacocks makes a pretty run of thirty yards, Smathers blocking beautifully but his shoulder is dislocated and he retires, the Varsity thus losing her star end.

The same old line bucking story is repeated and Holt finally carries the ball over the line.

Graves fails to kick goal. On kick-off Graves returns kick fifty yards and time is called.

Score—N. C. 23; Guilford 0.

The second half opened well for the Varsity. By steady gains they advanced the ball until finally Jacocks took it for a 20 yard run and a touchdown. This was made in a little over a minute.

The goal was kicked. Again the Varsity received the kick and ploughed their way through Guilford's line and another touchdown is in sight but the ball is lost on a fumble.

However Guilford is soon forced to kick and again the advance begins. But alas! it is soon stopped by another fumble. Another kick is soon made by Guilford and the ball is again carried toward the goal line by Carolina. Finally Council takes the ball over the line but fumbles and a Guilford man falls on it making a safety.

After the kick Carolina takes the ball but soon loses it on a fumble.

Kicks are exchanged and the ball is again in Carolina's possession. Jacocks opened with a pretty thirty yards run. The good work is kept up and Council carries the ball over.

No goal is kicked.

The kick-off is returned, and Guilford tries two rushes for no gain. On the attempt to punt Council blocks nicely. The ball is again carried over the visitor's goal line, this time by Carr.

Graves kicks the goal.

The ball is again kicked off and the kick is returned to Guilford's 40 yard line when time is called.

Final score—Carolina 42; Guilford 0.

Officials—Referee, Howell; Umpire, Brem.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

During the last foot ball season a touching incident occurred on the athletic grounds of Princeton University. It was just after the final game of the season, when another defeat had been added to the already long list and thus put an end to the most disastrous season in the history of the Orange and Black.

When time was called at the expiration of the second half there was a mad rush of Princeton students upon the field. It was only a moment before the members of the defeated team were lifted upon the shoulders of their adherents and then with bared heads and tear-stained faces the entire body broke out into the singing of their famous college song, "Old Nassau".

What was it that prompted such an action on the part of that crowd of disappointed students, — that made them mindful, even in their darkest hour, of the fact that those eleven defeated men were the representatives of the institution they loved, — were their representatives, who had worked, and worked nobly, to withstand the tide of defeat, but had failed?

The answer comes readily. It was college spirit, — the spirit that has won many a game and the absence of which has lost as many more, — but always the spirit which keeps the student loyal to his college and its representatives in times of defeat as well as in times of victory.

Perhaps what we have to say here should not be said in the editorial column, but there is one thing certain — it should be said somewhere and we can think of no more fitting place than in the columns of the official organ of the Athletic Association, for it is of vital importance to the association.

The above incident leads us to inquire, "have we any college spirit, and if so, to what extent does it go? Perhaps we have, perhaps all this time it has been hiding or perhaps taking a rest. It may be that it will awaken next spring in time for the base-ball season, inasmuch as we have such excellent prospects for a team. Be that as it may, the Tar Heel ventures the assertion that there is not a student at this University who would not just as soon believe that the angel Gabriel

had descended from heaven and interfered with the progress of a game as that an incident similar to the above had occurred on these grounds.

Is it not a fact that with us it is always "WE won, WE won, but the team lost"? The receptions given to the foot ball team upon its return from its victorious trips last season were all that could be desired, but what was done or what word of commendation was spoken when our representatives returned from the disastrous Virginia game? (and never was there a more stubborn fight than that in Norfolk on the 24th of November last.) Was not this same story repeated in our last base ball season? And now after the disappointing result of Saturday's game has not this same spirit of petty criticism and croaking begun to appear?

If there is any spot which should be conducive to the development of a college spirit, it is here at our own University. If there is any University which needs such a spirit, it, too, is here, for we are seriously handicapped financially. But when we look around us we see very little of it. If what is here said may even start a reaction against the abominable habit of croaking and petty criticism which is endeavoring to gain ground among us, the Tar Heel will feel that it has accomplished something. We should never leave ourselves open to such an attack.

May God speed the day when such a spirit will spring up among us as will be worthy of the institution which fosters it; when small faults will be overlooked in the light of greater accomplishments; when all will remember that those who wear the blue and white are our representatives, and in the heart of every student of this dear old institution one thought will be prevalent — "win or lose, still this is my University, — its success is my success and its failure my failure".

The University Exhibit.

In compliance with the request of many of the University students and for the further accommodation of the printers, the date of publication of the Tar Heel has been changed from Thursday to Wednesday. We shall endeavor to have the paper out each week at the appointed time as regularly as it has appeared so far this year. Contributors please note this change.

The University will be represented among the exhibits at the State Fair this year. It is intended that the University exhibits shall represent, in some measure, the equipment of the University, its growth during the past hundred years of its history, and the work which the institution is still doing. Photographs of buildings and laboratories will be put on exhibition for the purpose of giving some notion of the equipment of the institution. As indicating the growth of the University there will be charts showing the increased attendance in all departments since 1876; a map showing to what extent the different parts of the State have been represented among the students of the University, or, rather, how well the whole State has been reached by the institution; and also

data showing the growth of the Faculty during the last hundred years. Records of inter-collegiate debates, a collection of books and monographs by professors and students, and others of like character will represent the present work of the University. No attempt will be made to get up a bulky or showy display. The aim of those who are arranging the exhibit is simply to have the institution represented as well as can be by one exhibit of this sort.

(Continued from 1st page.)

in Carolina's territory most of the half and was at one time within 2 yards of our goal line. At the last part of the game A. & M. had two yards and two seconds to make a touch down in. The quarter back fumbled and the visitors lost their last and only chance of scoring. Neither side scored and at end of second half the score stood, N. C. 39; A. & M. 0.

Halves, 20 and 15.

Sophs. 11, Cadets 5.

The second annual game between the University Sophomore team and Horner's Military Cadets at Oxford was played on Saturday the 12th. The Sophomores report a pleasant time and a stubbornly contested game. A detailed account of the game would, of course, at this time be impracticable. However to generalize, the first half was decidedly the Sophomores. In it they made one touchdown and were well on their way toward a second when time was called.

In the second, however, honors were about equally divided. In this half, too, the Sophomores scored a touchdown, but with the score 11 to 0 against them Horner took a sudden brace and by continued hard work succeeded in carrying the ball over the line.

LAMBE & LYON, Durham, N. C.

Local Lore.

Messrs. Taliaferro, Holt, Richardson and Hanes went over to the University Station Friday morning to meet the visiting young ladies.

Dr. Venable left Friday morning for New Haven, Conn., to attend the bi-centennial celebration at Yale.

Messrs. Geo. Stephens and Percy Whitaker, old University boys, were here last week.

Mr. J. S. Carr, Jr., of Durham, came over to see the Guilford game.

Mr. N. D. Stevenson, of Newbern, visited his son, W. H. Stevenson, '04, last week.

Mr. Kemp Lewis, of Durnam, spent Sunday with his brother, Ivey Lewis.

Mr. Geo. Graham, of Hillsboro, is assisting Mr. Jenkins in coaching the football team.

Mr. Fred J. Coxe, class '99, was on the Hill a few days last week.

Prof. Collier Cobb was in Raleigh Monday making preparations for the University exhibit at the State Fair.

Mr. Watt Richardson, ex-'03, of the A. & M. team, remained over a few days after the game.

With the Societies.

The Di Society discussed the question, "Resolved that the United States should restrict the freedom of the press." The committee decided in favor of the negative. Mr. Barnhardt made the best speech.

The Phi Society discussed the question, "Resolved, that the United States is pursuing the proper policy in Cuba." The committee decided in favor of the affirmative. Mr. Adams made the best speech.

Exchange.

Lehigh claims a great improvement for her general athletics this fall. They say that it is due not only to the fact that every department is infused with the new life of the largest classes in the history of the college, but because the trustees have taken steps to promote favorable conditions for athletics. They have employed a director both of the gymnasium and all college athletics. Each student will have personal advice as to the physical training best adapted to his case.

The Freshman class at Harvard numbers 553, exclusive of special students. It is the largest class ever admitted at that institution. There are 500 students who are working their way through the institution.

The registration figures at Yale show an increase of over 200 over last year at the same time. The total number of students this year will be about 2,750.

Dr. Venable and Dr. Pratt at Yale.

Dr. Venable and Dr. J. H. Pratt will attend the Bi-Centennial of Yale, as the representatives of the University of North Carolina at this great educational celebration. Dr. Pratt is a graduate of Yale. These gentlemen left for New Haven the latter part of last week.

October German.

On Friday night the University German Club gave one of the most enjoyable dances in its history. While the number of participating couples was comparatively small the affair was thoroughly enjoyed by all present.

The music was furnished by the Haywood orchestra of Raleigh, the weather was especially pleasant and the floor in excellent condition;—all combining to make the dance a pronounced success.

The german was ably led by Mr. J. L. Morehead, '03, assisted by Mr. G. Galloway and Mr. S. Stringfield.

Dancing began at about half past ten and continued until three but no one seemed to tire or notice the flight of time.

A list of the couples, chaperones and stags is given below:

Mr. Eben Alexander with Miss L. Philips of Tarboro.

Mr. S. P. Bass with Miss London of Pittsboro.

Mr. P. Cobb with Miss Hume of Chapel Hill.

Mr. F. H. Hanes with Miss Faison of Charlotte.

Mr. J. B. Ramsay with Miss Nell Hinsdale of Raleigh.

Mr. A. S. Root with Miss R. Bridgers of Tarboro.

Mr. J. S. Turner with Miss Hay of Raleigh.

Mr. L. S. Holt with Miss Barnes of Richmond.

Mr. A. Murphy with Miss P. Bridgers of Tarboro.

Mr. S. Stringfield with Miss Thompson of Raleigh.

Mr. F. H. Wesfeldt with Miss A. Hinsdale of Raleigh.

Mr. W. McNider with Miss Busbee of Raleigh.

Mr. R. Stevenson with Miss McRae of Chapel Hill.

Mr. E. Galloway with Miss Barbee of Chapel Hill.

Mr. Urquhart with Miss Taylor of Pittsboro.

Mr. S. A. Douglass with Miss Louise Holt of Graham.

Mr. P. W. Richardson with Mrs. Holt of Greensboro.

Mr. Smith with Miss L. Gray of Raleigh.

Mr. J. Tallaferro with Miss Alexander of Chapel Hill.

Mr. Wooten with Miss A. Graham of Hillsboro.

Mr. E. Long with Miss Lois Holt of Charlotte.

Mr. A. Henderson with Miss Bynum of Chapel Hill.

Mr. T. W. Jones with Miss Andrews of Raleigh.

Mr. Rose with Miss E. Haywood of Raleigh.

Mr. Bunn with Miss Arrington of Raleigh.

Mr. Gwyn with Miss Neive of Salisbury.

Mr. Ellington with Miss E. Holt of Charlotte.

Mr. Cheshire with Miss Nash of Wilmington.

Mr. Brem with Miss Dockery of Charlotte.

Chaperones—Mrs. Oates, Mrs. Gilmer, Prof. and Mrs. Gore, Dr. and Mrs. Linscott, Dr. and Mrs. Wilson, Mrs. Graves, Mrs. Hume, Dr. and Mrs. Baskerville.

Stags: Messrs. Andrews, Berkely, Brenizer, Bell, Duffy, Haywood, Person, Bridgers, Byrnes, Cox, Dunn, G.

Graham, Holland, Graham, Latta, Makely, Rountree, Carr M., Carr W., Clement, Gwyn, Staton, Whitehead, Gregory, Henderson, Harrison, Kenan, Pritchard, Stevenson, Bernard, Prof. Howell, Dr. Ruffin, Prof. Noble, G. Stevens, C. O. Jenkins and Ehringhaus.

Elisha Mitchell Scientific Society.

The Scientific Society met in the Chemical lecture room, Tuesday Oct 8th. at 7:30 P. M., and topics were discussed by Maj. Cain, Dr. H. V. Wilson and Dr. Baskerville.

Maj. Cain gave an able discussion of the form 0 divided by 0 in which he showed by the use of different equations that it could be made to equal anything. We regret that we are not able to give the equations used by Maj. Cain in arriving at this conclusion.

Dr. Wilson read a paper on the work of the Beaufort Laboratory. In his paper he showed that the work of the Laboratory was highly satisfactory. At the first of the season they had hoped to be in a new building, but owing to the fact that it was not completed they had to work in the old one. The new building, however, which is very comfortably arranged, will be completed by the end of the year. It is one hundred and seventy or eighty feet long and two stories high. The building is narrow and so arranged that each room faces the sea. This was necessary in order that whichever way the wind may blow, the work rooms will get a breeze. The future of the laboratory is divined by the fact that there were seventeen men there this season from different parts of the United States.

The work done at this Laboratory is calculated to contribute much to the fish and oyster industry of North Carolina and so build it up from an economic standpoint. Experience teaches that there are many things to be observed in growing oysters, and these experiments show what are the best methods to be followed. They also tend to build up a new profession which may be called Fish Doctors. Aside from these, the Laboratory has a purely scientific importance.

Dr. Baskerville made a few remarks in the short time which remained, on "A New Element Associated with Thorium." He assigned as basis for his belief in the existence of this new element; first, a difference in the specific gravity of the oxids; secondly; an increase in radio-activity; thirdly, atomic weight. He elaborated, to some extent on the experiments bringing out these different properties. His remarks, though short, were very interesting.

Notice.

The Business Manager of the **TAR HEEL** will see every subscriber within the next week and every one is expected to pay at least half of his subscription at once. The paper must run—to run we must have money. The subscribers should not keep us waiting.

Owing to a lack of space, several articles were omitted from last week's issue of the **Tar Heel**, but we have inserted them this week. Those interested will please note.

No. 6.

The University Again Victorious.

Defeats Davidson by a Score of
6 to 0.

The University team left for Charlotte, Friday, where, on the following day the team from Davidson college was played. This is the first game of the season, that the team has played on other than the home grounds, and the score shows how well they acquitted themselves when away from home. The day was fine for a game and the spectators were many and enthusiastic. Under such favorable conditions the game as reported by the *Charlotte Observer* was never slow or uninteresting and its cleanness was noteworthy and commendable. It was however, devoid of any sensational plays. The lineup of the two teams was as follows:

University.—Orr, center; Meller, left guard; Brem, right guard; Council, right tackle; Cox, right end; Bass, left end; Graves, quarter back; Carr, left half; Mekely, right half; Holt, full back. Jacobs and King were substituted on account of injuries received by Foust and Brem.

Davidson.—McKinnon, left end; Rowe, left tackle; Taylor, left guard; Mann, center; Fetzer, right guard; McFayden, left tackle; Caldwell, captain, right end; Kirkpatrick, quarter back; J. A. Wyman, left half; Fitzpatrick, right half; McLelland, full back.

The game was called at 4 o'clock and before this time the ropes surrounding the gridiron were lined with spectators anxiously awaiting the signal to start the play. The rooters of the two teams seemed to be about evenly divided and especially flattering was it to notice, that so many of the young people were enthusiastic supporters of the University eleven. It is to be regretted however, that the rush beyond the side lines was very demoralizing to the players and often prevented them from making big gains when an opportunity was presented.

In the first half neither team scored, as expressed by the coach, they rested for the second round. The sphere remained near the center of the field most of the time, but always in Davidson's territory. In the last half the game was a little more snappy and interesting. The University men were unable to make gains of any consequence around the opposing team's end, but by steady line bucking carried the ball down the field and sent Makely over the line for a touch down. On the second lineup in the second half Carolina again carried the ball down the field by line bucking and were on Davidson's ten yard line when time was called.

The following taken from the *Charlotte Observer* gives the impression of an outsider:

Both teams played strong, ag-

gressive ball, and the tackling was quick and usually good. The playing was never slow or uninteresting and the cleanness of the game was noteworthy and commendable. The fact that both teams will seriously consider the unnecessary amount of fumbling in the game is a criticism and a hint that may be of future service.

The University team work and interference showed the result of careful coaching. Excellent playing was done by Carr and Jacocks, the two halves; by Graves, a beautiful quarter back; by Captain Council, the right tackle, a heady brilliant player; and by Foust, the left tackle.

For Davidson Kirkpatrick, at center was in excellent form; showing fine judgment and made very few errors. Kirkpatrick's kicking was a decided feature of the Davidson work. Caldwell at left end and McKinnon at right were superior. Wyman proved himself the equal of any half back ever seen on the gridiron here. Fetzer and Rowe also deserve special mention for good work.

Fresh. vs Sophs.

The game to decide whether the Soph. or Fresh. team should play Bingham at Mebane last Saturday was called Friday at five P. M. The teams were almost equal in strength before the loss of Bass and Jacocks from Sophs. to the Varsity and the addition of the scrubs, Roberson and Hester, to the Freshmen. With these changes and Smathers to coach them the Freshmen made a decidedly better show. There was no score. This was due to the Freshmen losing about 30 yards in off-side plays and the inability of the Sophomores to gain over the superior weight of the Freshmen.

With the Freshmen defending East goal Peace kicked the ball well into their territory where the Sophs. kept them until forced to kick. The Sophs. then bucked the line for no gain and were forced to kick. The first half thus proceeded, not varying the order, with no score.

Roberson kicked off for Freshmen with Sophs. defending East goal in the second, which was practically a repetition of first half. The game ended with no score.

The features of the game were Irwin's end runs for the Sophs. and Hester's numerous breaks in Soph. line for the Freshmen.

By agreement of teams before entering the game the Freshmen won the chance to play Bingham.

With the Societies.

The Phi. discussed the question, Resolved, That the National Government should take measures to exterminate anarchistic organizations. The affirmative won. Mr. McFadygyn was the best debater.

The Di. discussed the question, Resolved, That the State Mortgage System should be abolished. The negative won. Mr. Ivey made the best speech.

The Historical Society Meets.

Papers Read by Dr. Battle and
Mr. Stern.

The Historical Society met in the Chapel Monday evening, Oct. 21, at 7:30. Papers were read by Dr. Battle and Mr. Stern. Prof. Raper was elected vice-president and Prof. Noble, treasurer of the society.

Mr Stern read an interesting paper on the Impeachment of Wm. Blount. It was gathered from this paper that Senator Blount's trouble grew out of a certain letter which he had written to James Carey, an interpreter to the Cherokee Indians. This took place during the trouble between the United States and Spain over the southwestern boundary question. This boundary question was made the subject of a special message to Congress by President Adams on July 3rd, 1797. This letter from Blount was among the documents communicated. In this letter Blount asked Carey's assistance in uniting Cherokees and Creeks for some purpose not definitely stated. The plan seemed to be for Carey to destroy the influence of the government agent with the Indians while Blount at the head of a force of British regulars and Tennessee backwoodsmen attacked the Spaniards. In addition to this letter, the English ambassador Mr. Leston stated that someone had proposed such a plan to him.

The House on receipt of the message went into executive session and a committee was appointed to investigate the Blount affair.

The committee reported that Wm. Blount, a senator from Tenn. be impeached of high crimes and misdemeanors. It was moved and carried that a member of the House go to the Senate and impeach Blount at the bar of the House, requesting that Blount be deprived of his seat. Blount was at once placed under a bond of \$50,000.

The investigating committee of the Senate recommended that Blount be expelled. Blount refused to deny or affirm the authenticity of the letter. At his request Blount was assigned counsel. His counsel contended that it was not right for the Senate to pass judgment on Blount before the impeachment, that punishment should not precede the trial, that Blount could not be expelled until found guilty of the charges. After much discussion the motion to expel was carried. A few days after Congress convened in Dec., the articles of impeachment were reported to the House. These were based entirely on Blount's letter to Cary. When the case came up in the Senate the counsel for Blount contended that the Senate had no jurisdiction as a senator was not a civil officer and that by the Constitution these alone could be impeached and that as Blount had been expelled by the Senate he was no

longer triable by it. Managers for the House said that the plea of the counsel for Blount was not sufficient for dismissal of the case. Argument continued for two days when the Senate decided by a vote of fourteen to eleven that the Senate's jurisdiction terminated with expulsion.

Dr. Battle read a paper on the Great Seal of the State. He stated that the first Great Seal was sent by the king of England to Governor Tyron in 1767. We have followed up the design of this old seal all along. In 1777 Hooper, Hughes and Burke were appointed as a committee to prepare a Great Seal of the State. This seal was destroyed in 1794 and another was made. In 1893 Judge Clarke suggested that the Latin phrase *esse quam videri* be placed on the seal.

The Freshmen Defeat Bingham 21 to 0.

The Freshmen by a victory over the Sophs. on Friday gained the privilege of playing Bingham at Mebane on Saturday. They went over and, as in most other contests engaged in this fall, were entirely successful. Below is an account as reported by one of the spectators.

"The game was exciting from beginning to end. The Bingham men were heavier and stronger to a man but the Freshmen balanced this by their fast, snappy team work.

"The Freshmen kicked off and after three rushes secured the ball. After this only a few end runs put the leather beyond Bingham's goal line.

"After the first touchdown Bingham lost hope and played on the defensive entirely. Fumbling was a marked feature of Bingham's game.

"For the Freshmen, Hill, Townsend, and Robinson made fine end runs, Meares blocked beautifully and punted well. Emerson, the star, showed fine executive ability and passed the ball perfectly.

The final score was, Fresh. 21, Bingham 0.

Medical Class Election.

At a meeting of the '03 Medical Class, Saturday, Oct. 26, the following class officers were elected:

J K Ross, President,
B U Brooks, Vice-president,
J H Hewitt, Secretary,
J L Floyd, Treasurer,
L Hovis, Poet,
L F Johnson, Prophet,
C E Conwell, Chaplain,
J B Cranmer, Surgeon,
J M Crumpler, Statistician,
R A Herring, Historian.

Pharmacy Class Election.

At a meeting of the Pharmacy Class the following officers were elected:

B F Page, President,
S W McKesson, Vice-president,
H L King, Secretary,
S G Fox, Historian,
T F Rhodes, Poet.

Published every Wednesday by the General Athletic Association.

Subscription Price, \$1.50 per Year.
Payable IN ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

The Tar Heel feels that it voices the sentiment of the entire student body in extending our heartfelt thanks to those alumni, faculty members, and undergraduates who have so faithfully assisted in the coaching this season. At almost every practice they have by their enthusiasm incited the players to greater efforts and thus materially aided in the development of our team. To such men as Graham, Stevens, Smathers, Dr. Baskerville, and Prof. Howell we shall ever feel grateful and to their efforts shall attribute much of the success which we may attain.

Again the Freshmen have held their election and again havoc has been wrought in one of our buildings. This time it was Gerrard Hall that suffered. When we think of the rapid development of nerve on the part of the Freshmen and of the destructive spirit on the part of the Sophomores we are at a loss to predict what will be the end of it all. Perhaps the Freshmen may be persuaded to stop meeting or hereafter to meet in the woods, as it seems impossible, in the present generation, for the "lamb" and the lions to lie down together.

At any rate steps should be taken by the upper classmen to prevent such wholesale destruction of property.

In the last issue of the "Sewanee Purple" we notice that steps are being taken at the University of the South towards the organization of the rooting at the ball games.

The need of such organization has been felt at our own University for some time—the little rooting that is done being almost spasmodic. Two years ago the matter was brought up and discussed at a meeting of the General Athletic Association and as a result the office of "chief cheerer" was created. This officer was given the power to appoint six sub-cheerers to assist him in the organization of the students into rooting squads and in leading the cheering.

The plan was a good one and good results should have materialized but unfortunately this has not been the case. On the contrary a positive reaction has set in in the other direction. The student body

has already begun to look upon the election of his assistants as a joke and as a result they can do very little. During the games played on our grounds this fall this organization has indeed been conspicuous by its absence and its absence has been distinctly felt. The students, as a rule, seem to think it the duty of the cheerers, not to lead them in their yells but to do all the yelling. They are apparently regarded as a squad organized to represent the entire college in the rooting and also to furnish amusement for the crowd by their efforts.

Instead of the attending students being organized into squads and a cheerer placed in charge of each squad, they are scattered all over the grounds. In most cases when an attempt is made to lead a cheer every one is either so much amused by the efforts of the cheerer or so interested in the game that they will not help. As a result the cheer is hardly loud enough to be heard by those ten feet away. This failure is greeted by burst of applause on the part of those too lazy to help and further the efforts thus discouraged.

It is too late for the mistake to be remedied this fall as all our home games have been played but let us not forget to do so when the baseball season comes. There have been many games won by hard, consistent and persistent rooting at other places. The same will be the case here. Let us lay aside this false modesty or whatever it be that prevents us from joining the cheering and let every student come out to the games prepared and willing to do his part of the rooting.

The Yackety Yack.

The editors of the college annual offer copies of the Yackety Yack as follows:

- 1 copy for the best short story.
- 1 " for the best poem.
- 1 " for the best full page drawing.
- 1 copy for the best drawing for heading or ending.
- 1 copy for the best drawing or idea for a cover design.

This contest is open to all students of the University, everything submitted to become the property of the Yackety Yack, the Committee on Art and Literature to be the judge. Any one competing for these prizes will hand their work to one of the following committee: H. B. Short, S. S. Robins, J. R. Giles, J. H. Winston, Hazel Holland.

The Washburn Book about Mandolins and Guitars.

Any one interested in the subject of mandolins and guitars can obtain a beautiful book about them free by writing to Lyon & Healy, Chicago. It contains portraits of over 100 leading artists, together with frank expressions of their opinions of the new model Washburn Instruments. Descriptions and prices of all grades of Washburns, from the cheapest (\$15.00) upwards, are given, together with a succinct account of the points of excellence which every music lover should see that his mandolin or guitar possesses.

Lyon & Healy,
Adams Street, Chicago.

Exchange.

Georgia considers her prospects for "a good, quick, light team" very favorable. She is still in good cheer, notwithstanding the large scores heaped up against her recently by Vanderbilt and Sewanee.

Last commencement Harvard conferred 1,053 degrees.

The Juniors of the University of California are planning to raise \$2,000 to be used as a loan fund.

The University of Michigan now boasts two daily papers—the first college in the country to make such an attempt.

Dr. George H. Denny, acting president and professor of Latin, has been elected president of Washington and Lee University, to fill the vacancy caused by the death of William L. Wilson. Dr. Denny is not yet 31 years of age and is a native of Virginia.

Hon. Stafford Little, of Trenton, N. J., has given \$100,000 to Princeton for a new dormitory. Vassar has been given the same amount by John D. Rockefeller. The stream of money coming in to institutions already richly endowed seems to be unlimited.

The following are some recent foot ball scores:

- Harvard 16, Bates 6.
- Princeton 47, Haverford 0.
- Yale 29, Tufts 5.
- Pennsylvania 23, Penn. State 6.
- Georgetown 0, Annapolis 0.
- Cornell 6, Bucknell 0.
- Columbia 6, Williams 0.
- West Point 20, Marshall College 0.
- Michigan 57, Case 0.
- Carlisle Indians 11, Dickinson 5.
- Vanderbilt 22, Kentucky State 0.
- Clemson 122, Guilford, N. C., 0.
- Harvard 11, Amherst 0.
- Princeton 23, N. Y. University 0.
- Yale 24, Wesleyan 0.
- Chicago 22, Illinois Wesleyan 0.

The student body of the University of Georgia has taken action to promote honesty on examinations.

There is a committee or board composed of men elected from the several classes. On this honor board the Freshman class has one representative, the Sophomores two, the Juniors three and the Seniors four. When any one is suspected of having cheated, it is the duty of this board to look into the case and report their decision to the Faculty whose verdict is the voice of the student body.

Prof. Williams was in Raleigh Friday.

Messrs. L. R. Hunt and T. E. Brown are in the infirmary with the mumps.

J. N. Sweeny who has been in the infirmary some time is able to be out.

Prof Cobb left Saturday morning for Guilford College where he delivered a lecture.

J. L. Morehead, '03, has been home since Tuesday sick with the mumps.

Misses Bynum and Busbee were in Raleigh last week attending the fair.

Mr. Jacob Warshaw, who was instructor in the department of Modern Languages in the University last year, sailed for Paris on Oct. 23. He goes abroad to take a course of study in one of the large European Universities.

Dr. Battle was in Winston Friday.

W. H. Heartt, '05, went home Monday.

Prof. Noble, of the department of Pedagogy, delivered an address before the Orange County Teachers' Association last week.

Mr. Geo. Stephens, '96, has been on the Hill several days.

About seventy-five of the University boys attended the fair last week.

Mrs. Minor and children, of Asheville, are visiting at Dr. Venable's this week. Mrs. Minor is Dr. Venable's sister.

The second lecture of the Star Course for 1901-02 will be delivered by Mr. W. Hinton White next Tuesday, Nov. 5th., in Gerrard Hall, at 7:30 P. M. Admission, 50 cents. Mr. White is a very interesting lecturer and every one should hear him.

Juniors, 6; Meds., 0.

The first of a series of class games for college championship was played on Saturday by the Juniors and Meds. The game was very interesting from beginning to end, devoid however of any sensational plays. The work of both teams was good, for the amount of training they evidently had, and showed that by the end of the series some good games might be expected. These class contests have come to attract considerable attention in college in recent years, as attested by the number out Saturday. This is due in a large measure to the growing class spirit, but more to the excellent work of the class teams. It is fortunate this is the case, as it well furnishes amusement here, while the regular eleven are playing away from the Hill, but more as it will cause to be trained up a strong reserve force from which the ranks of Varsity can be recruited in times of need.

In the Saturday's game the score was made in the first half. Ross kicked off the Juniors and immediately after the lineup Kerner secured the ball on a fumble and made a touch down. After this the ball did not leave the center of the field far, except in the last part of the game, when time was called with it on the Meds.'s 5 yard line.

The report on gifts and bequests to American libraries from June 1st, 1900, to July 1st, 1901 as compiled by George Watson Cole, including all gifts of \$500 or more, as well as all gifts of 260 volumes and over, is a gratifying exhibit of this form of beneficence. The report covers 405 separate gifts or bequests, amounting in value to \$16,130,220.13. The contributions of Mr. Carnegie to this imposing total reached \$11,249,500. Of this sum about \$10,000,000 was given for library buildings, and in nearly every instance the gift was made on condition that the community receiving it should furnish a site for building and provide yearly a sum for the support of the library equal to 10 per cent of the gift.

Virginia seems to be well satisfied with the recent work done by her team. She has just won a game from Gallaudet and scored on Pennsylvania. Virginia realizes and acknowledges the great power of a college spirit, to get behind, and support her team. It goads them on to play better ball, and it will do ours the same way. All the colleges are awakening to the same realization, and are endeavoring their utmost to foster this thrilling elixir of enthusiasm, a college spirit.

The brawn and muscle of the American Collegians, proved to be too much for the Oxford-Cambridge team at Berkeley oval last Wednesday, the Americans winning six out of nine events on the programme. One point was counted for each first place so that Harvard and Yale defeated their English opponents by a score of 6 to 3.

Between the American universities the honors were equally divided, Harvard and Yale each winning three events. Cambridge captured all the points falling to the English team, Oxford not being able to score a single first.

Dr. Alderman Here.

Pres. Alderman, formerly of this institution, but now of Tulane, came in quite unexpectedly on yesterday morning's train. As soon as it became known that he was here, there began a movement, on the part of the students, which resulted in a mass meeting. The crowd proceeded to the residence of Mr. Travers, where Dr. Alderman is stopping, and after long continued cheering, induced him to come out and then escorted him to the Chapel for a "speech". A detailed report of this will appear in our next issue—lack of space prevents our publishing it this week.

The Fresh Election.

On Wednesday afternoon, the 23rd. inst., at 2:30, the Freshmen met in the Chapel and, amid torrents of water from the gallery and showers of missiles from the windows, elected the following ticket:
A. M. McLean President
J. B. Robertson 1st Vice Pres.
W. T. Mallison 2nd Vice Pres.
R. B. Wilson Secretary.
K. L. Baldwin Treasurer
A. R. Hester Orator.
S. S. Cooley Essayist.
I. C. Wright Statistician.
S. S. Howie Poet.
W. H. Whitley Prophet.
J. H. Vaughn Historian.

CAROLINA DEFEATS GEORGIA.

Tar Heels Take Easy Victory from Georgia's Light Team. Score 27 to 0.

Georgia went down in defeat Saturday before the Varsity. In the two halves of twenty minutes each, the Tar Heels succeeded in scoring five touchdowns and kicking two goals and winning by a score of 27 to 0.

The account of the game, as given by the *Atlanta Constitution* follows:

"The game demonstrated conclusively that Georgia's team is not strong enough to cope with the North Carolinians. The Georgia men are gritty players and fast at times, but the odds of weight are too much against them. Georgia's average per man is 145 pounds, while North Carolina averages 157 pounds.

There were times in the game, especially in the first half, when good team work would have increased North Carolina's score, but on account of miserable fumbling back of the line several openings that looked dangerously good for touchdowns were blocked by Georgia. Although North Carolina's team work at times was good, the majority of the time it was a case of winning by sheer weight. At only one time during the two halves did Georgia really out play their opponents when it came to a test of strength. This was near the end of the first half, when North Carolina had the ball within 3 yards of Georgia's goal on the third down. When the rush for goal was made, Georgia met it with superb pluck, making the gamest of stands and preventing a touchdown.

Frequently during the game Georgia lost some splendid chances for gains by trying the ends when clean sweeps were open down the middle of the field. Time after time this happened, the North Carolinians heading the runner off and blocking gains, when a slight interference and a straight sprint ahead would have carried Georgia within hailing distance at least of North Carolina's goal, if not resulting in a touchdown.

Georgia seemed to lose heart toward the close of the second half, and with almost every man on the team crippled and the lineup showing nearly the full quota of substitutes, the dash and ginger that marked the beginning was missing. At least one, and possibly two, of the touchdowns made in the second half might have been averted had Georgia shown the same line and the same spirit the first half evidenced. Gordon, the main strength of the Georgia team, sustained a severe wrench of the back in the second half, and was compelled to

retire for awhile. He reentered the game, however by consent of North Carolina, before the close and played the same strong, hard game until the end.

One of the tackles by Gordon back of the line was of the gamest sort. Monohan, Georgia's game quarterback, also played a fast and heady game. His tackles were most effective, showing him as game and as sure a player as was on the field.

Green Berkeley—an Atlanta boy, by the way—played the star game for North Carolina. As left half back his runs around right end never failed to net North Carolina a gain, and often showed him as a brilliant sprinter. Council and Faust and Graves, the quarterback, also did fine work—in fact, did the greater part of the hard playing for the team. Makely's playing was also deserving of special mention. Faust scored three of the five touchdowns made.

It was a small audience that greeted the two teams when they came onto the field, not more than 600 people being present.

North Carolina wins the toss-up and takes the south goal. Brem kicks off and Calhoun stops the ball at Georgia's 10-yard line. Georgia makes slight gain, but loses the ball on a fumble, and North Carolina advances it to the 10-yard line. North Carolina gains 5-yard line and, on a sprint around right end, Faust scores the first touchdown. Brem makes kick for goal and fails. Score, 5 to 0.

Gordon kicks off and on North Carolina's fumble Monk gets the ball. Georgia fumbles and the ball goes back to North Carolina. Berkeley sprints and Clay makes a splendid tackle. Ball is kicked from 25-yard line and Georgia makes a gain of 5 yards. Georgia is gradually forced to her own goal and, after the second down, Gordon punts for 30 yards. Berkeley makes run of 40 yards, going over the line for a touchdown. North Carolina had a fair try at goal, but failed. Score 10 to 0.

Gordon kicks off to 10-yard line. No gain for North Carolina. The ball goes to Georgia on a fumble and is advanced 5 yards. In a scrimmage the ball goes to North Carolina and Graves punts for 40 yards. On failure to advance, the ball goes to Georgia. Calhoun gains 5 yards. Georgia makes cross buck through right tackle for 10 yards gain. Gordon punts for 35 yards and North Carolina downed without gain. North Carolina makes two downs and Graves punts for 50 yards. Monahan gets the ball and makes a gain of 5 yards. (Calhoun out and Lamar substituted.) Georgia

makes two downs and Gordon punts for 40 yards. North Carolina fails to gain, Berkeley being tackled by Gordon.

North Carolina makes repeated gains until the 5-yard line is reached. With 3 yards to gain to secure a touchdown, North Carolina forms wedge for the attempt. Georgia meets the line and blocks it, making the prettiest single play of the game. The ball goes to Georgia and Gordon punts to the 30-yard line. North Carolina is downed without a gain. North Carolina loses the ball on a fumble and the ball is advanced 5 yards by Georgia. With the ball in Georgia's possession at the 25-yard line, first half ends. Score: North Carolina, 10; Georgia 0

SECOND HALF.

Gordon kicks to North Carolina's 10-yard line and the ball is brought back 5 yards. Makely makes run for gain of 10 yards, and is downed by Monk. North Carolina advances ball steadily to Georgia's 15-yard line. The ball goes to Georgia on claim that North Carolina held in line. Dickinson punts to North Carolina's 20-yard line, Monahan sprints and gets ball in scrimmage. Dickinson makes left end run for fifteen yards. (Hester retired and Orr substituted.) Monk punts for 20 yards, and North Carolina makes 5-yard gain. (Gulick retired and Jacocks substituted.) Jacocks makes run around right end, but goes down before Monahan's tackle. Faust makes 20-yard run and scores touchdown. Goal kicked by Brem. Score, 16 to 0

Gordon returns to game and kicks off to North Carolina's 10-yard line. Graves advances the ball 15 yards. Foul interference claimed and the ball goes to Georgia. After two downs, Gordon punts for 50 yards and Berkeley advances the ball 40 yards in a beautiful left end run. Faust makes splendid end run for touchdown and Brem kicks goal. Score, 22 to 0.

On Georgia's kick-off, North Carolina advances the ball from 25-yard line for 10 yards. The ball is carried steadily forward to Georgia's goal until 20-yard line is reached. Makely makes sensational run around right end, scoring a touchdown. Brem fails to kick goal. Score, 27 to 0.

Georgia punts ball in 30-yard line at the kick-off, and North Carolina downs without gain. Graves punts and ball goes out of bounds at Georgia's 5-yard line. The ball is carried across field by Georgia for a gain of 10 yards. Gordon punts and ball goes out of bounds. End of second half called. Score: North Carolina, 27; Georgia, 0.

The two teams lined up as follows:

N. Carolina.		Georgia.
Brem, Orr	c.	Ketron
Jone	l. g.	Beaver
Hester, Brem	r. g.	Monk
Faust	l. t.	Clay
Council (capt.)	r. t.	Gordon
Makely	l. e.	Rucker

(Continued on 4th page.)

Tulane's President Here.

The Students Assemble in Mass Meeting to Do Him Honor.

Dr. Alderman on his way North where he was to deliver several speeches, dropped in at Chapel Hill on Tuesday of last week. The students set themselves to give him a royal welcome. A mass meeting was held in the Chapel and a committee instructed to ask Dr. Alderman to address the students was appointed to wait on him. The committee started for Mrs. Graves' residence where Dr. Alderman was stopping, and the students followed en masse down Cameron avenue to west gate of the campus where they awaited the committee's return. The "college yell," given time after time from five hundred throats told Dr. Alderman that he was not forgotten and will not be so long as the "Varsity" boys know themselves. Soon word was brought that Dr. Alderman would address the students in the Chapel. A rush was made for the Chapel and the eager throng awaited the distinguished alumnus and former President. In a few minutes the figure of a tall slender man greeted the expectant eyes. Every man rose to his feet, and again the "college yell" went up. Dr. Alderman was escorted down the aisle to "faculty corner" where he was greeted by various members of the faculty. In a few well chosen words President Venable introduced Dr. Alderman to the audience.

Impromptu though, it was, Dr. Alderman's speech was filled with good, sound sense, couched in the most beautiful and expressive sentences. In brief, it was an Aldermanic speech and thousands know what that means. The only regret is that his speech cannot be given verbatim. In substance he spoke as follows:

My friends, a great many emotions are struggling in my breast tonight. I had no idea of going away without looking you in the face. This is the dearest spot in all the world to me. It has been a day of pleasure to me, a pleasure to look into your faces, into the face of your president and into the face of our dear old Dr. Battle. It has been a pleasure to me to see my old friend Prof. Gore, whose useful hand has done so much for the University, and to meet with other members of the faculty. It gives me pleasure to see the growth and vigor of this dignified old institution. It has been made in every sense a modern institution. But the greatest thing is this body of young men for whose benefit this institution was founded, men who are to become the directive force in our state.

I look back upon this old campus with feelings of emotion. There is not a more constant reader of the *Tar Heel* than I. Sometimes I go

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

When this issue of the TAR HEEL appears, our team will have returned from the Southern trip. As a result of this trip two more victories have been added to our list and the hearts of all loyal Carolinians made more glad. The work in these games shows that our team, while slow in developing and perfecting the team work so necessary to success, is nevertheless possessed of greater capabilities than we have heretofore supposed. With proper support they will accomplish a great deal.

On Saturday next we will probably play V. P. I. at Lexington. This game is looked forward to with a great deal of interest inasmuch as it will afford us our first opportunity for comparing our team with that of the University of Virginia.

In a recent issue we endeavored to impress upon the students of our own institution the necessity for the development of a strong college spirit.

A consideration of the temperament of the average Southern man would lead us to expect entirely different conditions at a Southern University, but it is a noteworthy fact that the lack of college spirit seems not only peculiar to, but also prevalent among the institutions of the South. This is evidenced by the almost general appeal for such a spirit now being made throughout our section.

There must be some reason for this lack—this evident contradiction of nature—and in searching for such a reason one of the first, indeed, the very first fact which impresses itself upon us is the absence of class organization in Southern institutions.

Consider our own case.

There are held here, every year, elections of class officers, but there is no attempt at further organization, no constitution—nothing to define the duties of such officers, and nothing is expected of them. Hence such offices have degenerated into empty, irresponsible honors. Perhaps nowhere in the South may be found a responsible (in the sense of responsible for a debt) class organization,—one that could undertake the publication of an annual, for in-

stance, as is the custom in the majority of Northern institutions, where such organization is almost invariably the rule.

Without class organization there can be no class spirit,—and this, it seems to us, is of supreme importance in the development of a college spirit.

We cannot fail to recognize our needs and recognizing them, should seek some remedy. Perhaps the above-suggested one may not be the best, but from its trial nothing but good can result. Let's try it.

The unusually large crowd at Saturday's game between the Sophomore team and that from Horner's gave evidence of the increased popularity of such games. Though it seems to us only a dream, we may yet live to see the day when there will be annual class games between teams from our own institution and our sister Southern universities, such as Georgia, Sewanee, and—should she ever revert to the class system—even Virginia may be among the number. Would it not indeed be interesting to see a game between our Freshman team and the Freshman team from Virginia?

The editors desire to state that the late appearance of this issue of the TAR HEEL is due to its having been held over from Wednesday in order that it might contain full reports of the games played on the Southern trip.

(Continued from 1st page.)

even so far as to correct the proof. To be away from my native state is almost like being expatriated. I see its earnestness, its steadiness, and its Godfearing purpose. I have seen it forging ahead so that I might stand in any state and feel proud to point to North Carolina as my native state. It has no great cities therefor, no metropolitan newspapers. Hence its deeds are not published to the world. I have often thought that this state is a reproduction of this University. No man dares say that there is any sham, any fraud or any unreality here. Sometimes I regret to speak so much about the South. I hope the day will come when we can use the broader term America. We are, in some sense, a homogeneous people. We have a sympathy in the whole life of the nation. But the South is a distinctive region—distinctive for its tragedies, distinctive for its sorrows, distinctive for its errors, distinctive for its blunders and distinctive for its achievements.

While we must hold to our high standard of scholarship yet this is an industrial age, and the man who sneers at industrial education prefers a mule to a steam engine, a hobby-horse to a street car. The people of the South must manufacture the clothes they wear, and they must produce the food they eat, or they will be industrial slaves. My gospel is that the whole people must be educated, white and black, bond and free, high and low. On the foundation laid by others under the leadership of your governor and my classmate, Chas B. Aycock, you have begun this work. Heretofore it has been mere patchwork.

The University must breed men who do things. Men who think without violence and without pas-

sion. Men who go direct to the heart of things. The negro question has not been settled. We cannot be cowards and flee away from it. We must not be tyrants and settle it with a cruel hand. Posterity will say that we settled this question with sense or with folly. There must come from this University a breed of men who know how to look at things; men whose hands are cunning, men who think, men who look at things face to face.

The northern people have a strange "Hebraic" feeling for the people of the South. They do not understand us. They say that we have prejudices. If we have prejudices, they are prejudices of the Anglo-Saxon people. The southern people have a notion that they are going to produce a different kind a breed of men from those of other sections, men who will stand up firmly against the yellow wave. They feel that some day that out of this land of trouble will come the leader who is to save democracy from its undoing.

The President of the University of Illinois has issued an address to the student body on the subject of hazing, which is said to be very severe at Illinois. The President stated that hazing, and certain other college customs, such as painting the college buildings, and the posting of personal bulletins, had to be stopped.

Dr. C. K. Adams, President of the University of Wisconsin, on account of ill health has been forced to resign. He was, for several years, President of Cornell, and has been at the head of the University of Wisconsin for nine years.

No trouble to Answer Question.

SOPHOMORES 0: HORNER 0.

The football team from Horner's Military School came over Saturday and held the Sophomore eleven down, through a warmly contested game for a score of 0 to 0. The result of the game was rather surprising as the Sophs played the cadets at Oxford earlier in the season and won an easy victory of 11 to 5. The difference in the two scores is due to a great extent to the loss of Jacocks and Bass from the Sophs, but for the most part to the improvement of the soldier lads since their meeting with the University team.

The playing was smooth, and the game as a whole was as good as any that has been seen on our field this year. The Horner boys showed the results of good coaching, and played a clean, manly game. Conner, their captain, a dauntless player, and Armstrong, right end, did especially fine work. The punting of the former would compare with that of Varsity's quarter, Graves, while Armstrong made a brilliant run by clearing a tackle, with a beautiful jump. Goddard and Leary also did commendable work for the Cadets.

The Sophomores were somewhat handicapped by the loss of their two stars, but the work of Smite and Craven, in a great measure, compensated for this. The team was deficient in systematic work, but a few individual players stood out in prominent relief against this background. Erwin's end runs were decidedly a feature and the big gains of Smith and Craven through the line were the result of headword.

The following is the line-up of the two teams:

Horner	Sophs.
Gregory, Armstrong r.e.	Swink
Perry r.t.	Cochrane
Peace r.g.	Ross, DeLaney
Hudson c.	Knox
Moore l.g.	Noble
Burwell, Royster l.t.	Peace S.
Goddard l.e.	Craven
Forthing q.b.	Gregory
Leary r.h.	Smith
Cheshire, Fenner l.h.	Erwin
Connor f.b.	Jack Frost

The game started with Cadets in possession of ball. Connor kicks off 45 yards to Erwin who advances twenty yards. The Sophs line up and send Erwin around the end twenty yards and Smith through the line fifteen. Then follows line-backs without gain and the ball goes to Horner on downs. The soldiers take the oval but are unable to advance 15 yards before it goes back to the Sophs. The ball exchanges hands three or four times without decided gain for either contestant, when Noble decides to punt for the Sophs. The oval whirls through the air twenty yards to Forthing who advances 5 yards. Goddard then goes around left end for ten yards and Connor bucks the line for three, two more rushes and Horner is forced to kick. A series of punts now occur, in which Horner comes out the gainer. Time is called with ball in visitor's territory.

Score at end of first half, Sophs

0; H. M. S. 0.

Second half was begun by Soph's kick-off to Horner's 20 yard line. Armstrong secures ball and advances twenty yards. On line-up Armstrong goes through the line and makes a thirty yard run by brilliant jump over tackle. After three downs Connor punts 30 yards and Craven gets the ball beyond the sideline. Sophs send Craven around end for five yards. Noble is tackled behind the line for a loss of five yards and ball goes to Horner on downs. The game so continues until time is called with ball near centre of field.

Score at end of second half, Sophs 0; Horner 0.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

Vol. 10.

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., November, 14, 1901.

No. 8.

Carolina Defeats Auburn.

Varsity Wins the Second Game of
Southern Trip by a Score
of 15 to 0.

The second and final game of the Southern trip was won from Auburn Polytechnic Institute by the score of 15 to 0. The "Tar Heel" gives an account as reported by one who witnessed the game.

Auburn kicked off to the 25 yard line. Graves caught the ball and advanced it 10 yards. Berkeley made 3 on line play. In the next two plays signals were mixed but Carr never-the-less arose to the occasion and bravely attempted to carry the ball through, although it was intended for one of the other backs. However the 5 yards were not made and the ball went to Auburn on downs.

Auburn on her first attack, showed her style of play by starting her entire team before the ball was put in play and massing on tackle for 5 yards. Without further signal this series was operated and Auburn got as far as the 20 yard line and the ball went to Carolina on downs. Carolina carried the ball, after several rushes, to her own 35 yard line and then went over on downs. However Carolina's stubborn defense again recovered the ball but a fumble occurred. Auburn carried it back 8 yards by mass plays but by nice defense Carolina recovered and again fumbled. Auburn was still unable to make much headway and ball went over to Varsity. Here Graves finally woke up and gave signal for a kick.

From that time on Carolina's goal was never in danger. Graves' kick brought the play to Auburn's end of the field. Carolina recovered the ball after Auburn's short kick and rushed to 15 yard line but was held for downs. Auburn kicks, Graves returns kick and ball goes over the line. Auburn brings out to 25 yard line and kicks to Graves who returns punt.

An Auburn back back punts it on side on her 10 yard line but fails to handle the ball cleanly and the ball bounds with some speed across the goal line where Cox falls on the ball and retains complete possession of it.

The umpire declares there was no offside play and it is a clear touch-down. The referee, however, declares, through gross ignorance or dishonesty, the play a touchback. A touchback can only be made when the side defending its goal has possession of the ball behind its own goal line whereas possession in this case was Carolina's. Score, 5 to 0.

After the kick out Carolina carried the ball back 10 yards and by a series of rushes and end plays brought the ball to Auburn's 20 yard line. Graves drops back and scores a goal from the field. Score 10 to 0.

During the second half Carolina's

goal was no time in danger and nearly the entire half was played around the Auburn goal—the ball frequently changing hands on fumbles—according to the referee. Carolina finding it difficult to carry the ball over once more drops back for a field goal and Graves adds five more points to the score. Score, 15 to 0.

The Auburn men played a hard, fast and fairly clean game beyond some unnecessary piling up and were undoubtedly trying to retrieve their lost reputation in the matter of rough football.

Carolina was much dissatisfied with the referee and many times the ball was given to Auburn without the slightest excuse.

The Auburn team has apparently improved in the matter of clean football for during the entire game only a few times did they attempt to put Carolina's players out of the game. However the courtesy extended by the spectators was hardly such as to be an alluring invitation to future contests. It was a long ways to go to get such treatment.

Dr. Hume at Charlotte.

We clip the following, headed, "Woman, Poet, Prophet", from the Charlotte Observer of November 5th:—

"A large audience greeted Dr. Thomas Hume last night at the Y. M. C. A. auditorium to hear his lecture on "Woman, Poet, Prophet". Hugh W. Harris, Esq., introduced the speaker, referring in a very cordial manner to him and his work.

"The subject of the lecture was Mrs. Browning and her writings. Dr. Hume gave a very entertaining and instructive sketch of her life and study of her literary work.

"Her girlhood days, the accident which crippled her for life, the suffering which spiritualized her character and over which her indomitable spirit triumphed; her studies in literature and art, the courtship of Browning, the health which came with love, the elopement and the events of her after life, were presented in a very pleasing way.

"The influence of her writings was brought out and also the wisdom displayed in them."

Rev. J. B. Dunn's Sermon.

Rev. J. B. Dunn, of Suffolk, Va., preached the second one of the University sermons, in the Chapel Sunday evening, Nov. 10. His sermon was scholarly and delivered in a forcible way.

President Venable left Nov. 5th for Sewanee, Tennessee, to attend a meeting of The Association Southern Colleges. The Association will be in session from the 6th to the 8th instant and will be a meeting representative of most of the colleges of the South.

Mrs. Chas. Baskerville went to Raleigh Wednesday to attend the funeral of Mrs. Bovian.

IN MEMORIAM

Eugene L. Harris.

In the death of Mr. Eugene L. Harris the University has lost a loyal alumnus and a faithful officer. Just before dawn Monday, the 11th inst., at his home in this place "God's finger touched him while he slept" and he passed into the cloudless day out of the weakness and pain with which he had long heroically struggled.

Born in Granville County, N. C., March the 12th., 1856, he was a little over forty-five years old. He graduated from the University in 1881 and the year following married Miss Lena Foust. His first work was an art, but he resigned it on account of his health to undertake the general secretaryship of the Young Men's Christian Association for which he was fitted by his special study of Association methods, his unfeigned piety and his earnest interest in the religious welfare of young men. The duties of a town secretary are exacting and often demanded continuous attention into the late hours of the night, and after most valuable service in Winston, Salem, Raleigh and the far South his failing strength compelled him to retire from this congenial office.

As a student with a group of choice spirits he had organized here and sustained this Association work so peculiarly adapted to a non-denominational State institution, he was an efficient member of the State Executive Committee and a directive force in the councils and Bible classes of the local University Association. His deep spiritual experience, his godly example and his intimate knowledge of the Scriptures gave peculiar weight to his private and public instructions. As an official of the Presbyterian Church the hearts of his pastor and his brethren safely trusted him and the affairs of the church felt the influence of his consecrated zeal and useful methods. In 1894 he was appointed Registrar of the University and successive administrations have had reason to be grateful for his constant quiet faithfulness amidst the countless details of his office. His has been a marvelous exhibition of devotion to duty under the assaults of disease. Within less than ten days before his death he was at his desk doing what lay nearest to his hand. In his home he was the model husband, the inspiring companion of his children, the patient uncomplaining sufferer. Faith in God was the wellspring of an abiding peace in his simple and true cause. "He was a good man and full of the Holy Ghost." His devoted wife and two daughters have a sacred memory and a blessed hope. To them, to the aged mother, the two brothers, Dr. Frank Harris of Henderson and Mr. T. C. Harris of Baltimore and the sister, many friends everywhere give sincere sympathy.

His funeral took place at 12 o'clock

Tuesday, in the Presbyterian Church, the pastor Rev. D. J. Currie officiating, assisted by Dr Hume. T. H.

Y. M. C. A. Meetings.

The interest as well as the attendance of the weekly meetings of the Y. M. C. A., held every Tuesday night, has been much greater so far this year than last. The leaders, most of whom are students, have given considerable thought and preparation to the subjects on which they have spoken. The result of this has been that these subjects were treated in an interesting and thoughtful way.

Between now and Christmas, the following will conduct these Tuesday night meetings:—Dr. Thomas Hume, Nov. 19; Mr. J. A. McRae, Nov. 26; Prof. C. L. Raper, Dec. 3; Mr. R. C. Holton, Dec. 10; Mr. C. A. Bynum, Dec. 17.

Every student, especially every member of the Y. M. C. A., should try to attend these meetings. It will not take much of his time,—only from a half to three-quarters of an hour once a week. These talks which are being made every Tuesday night are worth listening to. They are of such a character that they will help those who come out to hear them.

These meetings instead of being held at 7:30 o'clock are now held at 7. The bell rings twice for the meeting—at fifteen minutes before 7 and at 7. Every one should try to come promptly on time.

Communication.

As the time for the Virginia game approaches we are led to wonder how many of our students will attend the game in Norfolk. We understand that exceedingly low rates have been secured from Charlottesville to Norfolk and return, and that a delegation of over two hundred students will take advantage of these.

Why cannot something similar be done here? If some one with a sufficient amount of push would only start to work immediately he could in all probability sell enough tickets to secure a special train and very low rates.

This would not only enable many of our students to see the game and help to cheer our team, but would in all probability be a financial success for the promoter.

X. Y. Z.

With the Societies.

In the Di. was discussed the question, Resolved, that the United States should give Cuba absolute independence. The Aff. won. Mr. C. Ross made the best speech.

The Phi. discussed the question, Resolved, that the government should own and control the railroads. The Neg. won. Mr. Taylor, best debater.

Mr. Rockefeller has now given a total of \$9,000,000 to the University of Chicago.

The Tar Heel.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

Scarcely two weeks are now left us in which to make our final preparations for the Virginia game and these will be busy weeks for us. The same spirit of work which has characterized the former labors of the men will undoubtedly be all the more evident during the short time that remains unto us. Each man fully understands the duty that rests upon him and each is working in such a manner as to show that he appreciates it. We can ask, indeed we can expect no more of these than a continuation of such work.

But there is yet another duty to be performed, not by the members of the team, but by us, the supporters of the team. The Tar Heel feels that it is unnecessary to make an appeal that this duty be looked after; it merely mentions it in order that it may be kept before us. We are confident, we say, that every loyal student will regularly attend the practice games from now on and will in every way possible encourage the men in their work.

The season opened with perhaps poorer prospects for a team than we have ever had before, there being only five of last years regular players here and two of these incapacitated by injuries. In the face of such discouragement the men and the coach have worked hard, and the results of the games already played have been sufficient proof of this. While, of course, the scores have been nothing like as large as those made in former years against the same institutions, we are entirely satisfied with these when all things are taken in consideration.

The height of the season is now upon us and with it our great game.

Of one thing we may be sure,—that when the team returns from Norfolk, it will be with the comforting assurance of a duty nobly done and a knowledge that every inch of ground made by Virginia was contested, with the same pluck which has always characterized the playing of Tar Heels.

Let us give them a "send-off" next week which will show them, much better than words, some idea of our appreciation of what they have accomplished in the past and the confidence we feel that they will acquit themselves like men in the future.

The query for the Georgia-Carolina debate has been submitted and our prospective debaters have already begun work. The interest felt in such intellectual contests is keener than ever before.

We now have yearly a debate with Georgia and with Vanderbilt and, at present, there is a proposition under consideration in our two literary societies to arrange a series of debates with Johns Hopkins University. This series, if arranged, will undoubtedly increase the interest, for in accepting it we enter a new and untried field.

The record made by our representatives in the past is something at which we may well point with pride. We have, indeed, a reputation to sustain,—a reputation of which any college might well boast. That it will be sustained, no one can doubt.

Once more the angel of death has visited our University and this time we mourn the death of our Registrar. While we realize that nothing that we might say can in the least assuage the sorrow so universally felt, we would yet join with the others in paying one last tribute to him of whom it might well be said, "he was faithful to the end."

Mr. White's Lecture.

Mr. Hinton White delivered his lecture, "The Australian Commonwealth" in the Chapel last Tuesday evening at 7:30, it being the second lecture of the Star Course. Mr. White was born and raised in Melbourne, Australia, and is a lecturer of wide experience. His lecture was illustrated by a number of colored views. Below is given a synopsis of the lecture:

In area Australia is about the size of the United States, excluding Alaska. Its population equals that of New York city. Gold was discovered in 1851, and the total output has been 109,000,000 oz. Sheep raising and wool clipping is a very important industry. The aborigines of Australia are not civilized.

Holy Adelaide, "the city of churches," is the place where the Australian ballot system originated. This system was formulated by a man named Dutton in 1851, but not until 1856 was it adopted in Australia. Since that time it has been adopted in various countries, and also in the United States.

Sidney harbor is one of the most beautiful harbors in the world.

The Australians are troubled with the Chinese labor. The Australian wants and has an eight hour day, while the Chinamen want to work eighteen hours a day.

Australia is a fine agricultural country. Sugar cane is the great agricultural product. The importation of cheap beet sugar from Europe has injured the home industry.

On every hand is evidence of "Yankee" ingenuity. There is a suspension bridge built of steel brought from America.

Birds of beautiful plumage are found here. The blackswan and flamingo are numerous. A kind of bear, but one not dangerous to man, the Kangaroo and other animals are found. Here are found the tallest trees in the world.

Australia is a land of contrasts,

where the birds are songless and the trees shed their bark instead of their leaves.

The different colonies in Australia are now united under one government. Australia has a promising future. Education is in the hands of the State. So are the railroads. Education is free and compulsory. There are four universities and seven thousand schools.

The University of Oxford has the reputation of having been founded by King Alfred in 872.

In his will, George M. Kennedy leaves \$75,000 to Syracuse University.

Yale College has conferred the degree of LL.D. on President Roosevelt.

The smallest University is in Africa. It has five students and fifteen instructors.

Locals.

Mr. J. H. Winston visited Durham Sunday.

Mr. Wm. Snow, of Raleigh visited Dr. Baskerville last week.

Mr. Lenox Turnbull, of Durham, visited J. L. Morehead last week.

Mr. Nixon Davis, of Wilmington, visited J. R. Giles, '03 las week.

Mr. Lloyd Hunt, who went home sick with the mumps about ten days ago, has returned to college.

The University preacher for November is Rev. Joseph B. Dunn of Suffolk, Virginia.

Messrs. W. F. Carr, Claiborne Carr and J. L. Morehead spent Sunday in Durham.

Mr. W. H. Heartt, who has been home the last two weeks, returned to college Monday.

Messrs. Francis Gudger and F. H. Lemly accompanied the team on the Southern trip.

One hundred thousand dollars has been appropriated by the War Department for the establishment of the new War College at Washington.

There is a splendid opportunity at the University now for a young man who is a practical printer. The Press Company needs another such man. One who is an experienced printer and who wishes to take a course in the University can make most of his expenses by working at odd hours.

Dr. Hume lectured at Charlotte Monday evening, Nov. 6, his subject being "Woman, Poet, Prophet." This lecture was in the Star Course which the Charlotte Y. M. C. A. arranges. A large and appreciative audience heard Dr. Hume Monday evening. On the Sunday preceding this lecture Dr. Hume addressed "The Men's Meeting" in the Y. M. C. A. hall on "Questioning God"; a study in the Book of Job.

Dr. K. P. Battle, on Friday night last, read a paper before the Wachovia Historical Society, and invited guests, on the history of the Great Seal of North Carolina and the Coat of Arms. Bishop Rondthaler followed with a paper on the ancient use of the lot in the Moravian Church.

Under the auspices of the Y. M. C. A., Dr. Hume will make a short address in Gerrard Hall Tuesday evening, Nov. 19, at 7 o'clock. The subject of his address will be "The Secret of Spiritual Life". A cordial invitation is given to every student to be present at this meeting. Every one should try to come promptly on time.

Exchange.

The Princeton Baseball Association cleared \$4,596 last season.

The President of Tien-Tsiu University, one of the leading institutions of China is visiting the University of California.

One of the finest church organs ever built has been given to Yale University. It has between 4,500 and 5,000 pipes.

The University of Illinois is looked upon as a strong candidate for the Western football championship.

This year at Vanderbilt a Chinaman won the Founder's prize for oratory. His subject was: "The Miracle of the Twentieth Century—the Regeneration of China."

Over \$2,000,000 has been given to the American University at Washington, D. C.

For the first time in its history, a young lady has been elected president of the Senior Class at the University of Wisconsin.

The first college paper in America was issued from Dartmouth, and Daniel Webster was the editor-in-chief.

A citizen of the Chinese Empire has given \$10,000 to endow a chair of Chinese Literature in Columbia University. This is the first donation ever made to an American college by a Chinaman.

A great technical institute is going to be established at Pittsburg. Andrew Carnegie, the steel magnate, has promised to furnish \$1,000,000 at once, and more when it is needed, provided Pittsburg will furnish suitable grounds. Men prominent in the technical schools of the United States have been formulating plans for the school, and if these are carried out, it is estimated that the institute will cost about \$20,000,000.

There were present at the Yale Bi-Centennial Celebration delegates from thirty foreign universities and 125 American institutions. Some of the principal features of the occasion were the torchlight procession, in which over 6,000 graduates and undergraduates participated; the conferring of the degree of LL. D. upon President Roosevelt, and the singing of old Yale songs, led by the student chorus.

Georgia Query.

The query for the annual Georgia-Carolina debate has been presented by Georgia and is now undergoing a thorough analysis by our men, with the end of choosing sides for the coming contest. As first submitted the query did not meet with the approval of Carolina and Georgia modified it to meet the objections, so that it now reads: Resolved, That the democratic institutions in the U. S. A. are in danger from the growing power of centralization. The query as now stated is more specific in its character than as first submitted, as it then read, Resolved, That our free institutions are in danger. As it now stands it is a good question, and there is little doubt as to the side Carolina will choose. The comprehensive discussion of this query, will involve many phases of our industrial and political life, upon which all minds are not in union, and for this reason should be very interesting and instructive. Carolina will be allowed two weeks to select sides. This is the sixth annual debate between two rival universities, and the last the stipulations provide for. Of the five that have occurred three have been victories for Carolina and it remains now with the outgoing team to determine whether we are to close this series as the equal or superior of our southern competitor. But whatever the outcome be, these annual forensic battles have been a source of pleasure and profit to the student body and the results will be seen in no equivocal way, in the pulpit and forum at a later date. The development of this side of the college training has long been relegated to an inferior position and it is with great satisfaction that the revival of the old time spirit is noted in the University. This revival is shown in no place better, than in the prominence the Societies are beginning to acquire. In no year since the days of compulsory membership have the initiation into the societies been greater than at present, and it is a matter of self congratulation among Society men, that the work being done in these organizations is of the highest order. Especially gratifying is it to notice that three of the prominent contestants for the Georgia debaters place are new men; when this is considered, and the training they are bound to receive here, the Societies may be relied upon to hold up their end of the board in the near future.

Now that Carolina will have three annual inter-collegiate debates one will probably be held in some other place in the State than the University. The plan has been heretofore to alternate with the other institutions so as have one here each year. This may be changed and the wish of many of the students to hold one of the debates in Raleigh or some other city of the State, will possibly be realized. The Vanderbilt, goes this year to Nashville so that it will be from the other two this arrangement must be made.

At the instigation of President Schurman, the students of Cornell met in mass meeting and drew up resolutions condemning hazing.

MASS MEETING - THURSDAY AT 7:30 P. M.

VARSITY ELEVEN DOES UP A AND M

Score 30 to 0 When Darkness
Came On.

GOOD WORK BY THE VISITORS

Played a Snappy Game and Developed Fine Team Work.

A. AND M. BOYS PLAYED A GRITTY GAME

Though They Outweighed the Visitors They Did Not Have the Team Work. The Varsity Eleven Played as One Man.

The A. and M. football team was no match for the sturdy players from the University of North Carolina who won the game at the Fair grounds yesterday by the decisive score of 30 to 0.

The A. and M. boys played a gritty game and contested for every inch of space, often times making brilliant plays, but they were outclassed by the University, which battles next Saturday with the University of Virginia for the football championship of the South.

It was a raw, biting cold day and the weather was not calculated to bring out a big crowd, although a good number of people wrapped themselves up and journeyed out to the grounds to witness the game. Darkness finally terminated the contest, the first half lasting 25 minutes and the second half 15 minutes.

The farmers outweighed their opponents, but they were not on to the fine points of the game. The Varsity eleven played as one man, and the interference put up was the noticeable feature of the team play. When the ball was put in motion the runner was well backed up. There was snap and ginger in the play of the visitors. With the Varsity it was eleven men in every play and with the farmers this was not the case. Gardener, Turner and Welsch of the A. and M. team did fine work, but they did not have the team play to back them up, as did Berkeley, Foust, Council and the Carrs of the University.

A. and M. had the kick off and Wooten sailed the pig skin up the gridiron for 25 yards. Carr, M., received the sphere and made five yards before he was halted. There were several successive gains for the required distance and then Berkeley half for the Varsity made a beautiful run for 30 yards around the right end. Good interference was the feature of the play. The Varsity boys had the ball at the farmer's 20 yard line. The gains of the visitors were growing less each play and at the ten yard line Turner and Asbury made great

tackles within open field. The ball went into the possession of the A. and M. at the seven yard line. Welsch circled the Varsity's left end for 2 1-2 yards, while Gardener hit the line twice for gains of three yards. Turner went through an opening for five yards, but here the farmers ruined their good playing on a fumble, the ball going to the University. Berkeley moved around right end for five yards, but the visitors failed to gain on the next two downs. The farmers made another break just here, being off side as the ball was put in play and the penalty for this was a gift of ten yards to the Varsity. This placed the ball on the A. and M. three yard line and Council bucked the centre safely, landing across the coveted goal line. Carr, W., kicked the goal. Time of play 5 minutes and 20 seconds. Score, University, 6, A. and M. 0.

Wooten kicked off again for the A. and M. with a long drive up the field. Capt. Carr received the oval and advanced ten yards, and Berkeley circled the right end for 35 yards before he was brought to earth. The Varsity seesawed for a few minutes and then the ball went over for offside play. Welsch and Turner both made gains of ten yards each, with practically no assistance. Gardener plunged through the line for three yards and Wooten gained one yard. A. and M. stock had risen way up and the cadets were wild with enthusiasm, believing they would score. Three desperate trials resulted without gains and the ball went over. Carr, Berkeley and Foust made successive gains, carrying the ball down to A. and M.'s goal. Foust went over the line in a mass play for the second touchdown. Carr split the goal. Time of play 8:40. Score, University 12, A. and M. 0.

Neither team scored during the remainder of the half. Both sides resorted to the kicking game and there were some clever exchanges of long punts up the field. Berkeley made several runs behind splendid interference and there was a sensational tackle by Gulley. The farmers were putting up their best game at the end of the second half, when time was called. Successive rushes had given the farmers some thirty yards. The ball was on Carolina's 40 yard line at the end of the second half.

The second half only lasted fifteen minutes, being called on account of the approaching darkness. The Varsity had the kick off, and Capt. Carr punted the ball down to the A. and M. 10 yard line, where it was captured by Wooten who made a splendid run for twenty yards. There was another slight gain and then the pig skin passed from one team to the other, finally returning to the possession of the University, when Foust took advantage of an opening and shot across the field for a touchdown. Graves kicked the goal. Time of play 3:45.

Score, University 18, A. and M. 0.

Wooten for the A. and M. punted for 40 yards, but twenty of this was regained by Capt. Carr, who got the ball. There was a gain of ten yards, and several unsuccessful plays, when Capt. Carr punted for thirty yards. The kick was returned for 25 yards. The Varsity still stuck to the kicking game, but fumbled the ball for first time, losing five yards. Capt. Carr tried again and drove the sphere for 40 yards. A. and M. fumbled but Gulley plunged through the line and got the oval. It was rocky playing along here, both teams fumbling again in succession. The ball passed from one side to the other in a desultory sort of a way, when Berkeley got hold of the oval and made a magnificent dash for 35 yards to the A. and M. 15 yard line. There were gains of five yards after this when Foust made the fourth touchdown of the game and Graves kicked the goal. Time of play 13 minutes. Score, University 24, A. and M. 0.

The next touchdown came quick and was made in less than two minutes. Wooten kicked off for the A. and M., landing the sphere up the field a distance of 30 yards. Capt. Carr returned the kick for a distance of 40 yards and in attempting to punt the ball again it got away from Asbury. Jones, the Varsity guard, seized the sphere and sprinted across the field for the fifth touchdown. Graves kicked the goal. Time of play, 15 minutes. Score, University 30, A. and M. 0.

LINE UP.

University.—Jones, H., centre; Jones, left guard; Foust, left tackle; Makeley, left end; Hester and Brem, right guard; Council, right tackle; Cox, right end; Carr, W., and Graves, quarter back; Berkeley, left half back; Nichols and Donnelly, right half back; Carr, M., full back.

A. and M.—Council, centre; Carpenter, left guard; Turner, left tackle; Kennedy, left end; Neal, right guard; Gardener, right tackle; Gulley, right end; Asbury, quarter back; Darden, left half back; Welsch, right half back; Wooten, full back. — *Raleigh News and Observer.*

With the Societies.

The Phi discussed the question: "Resolved that the United States should give Cuba absolute freedom." The committee decided in favor of the negative.

The Di discussed the question: "Resolved, that Roosevelt did wrong in dining with Booker T. Washington." The affirmative won. Mr. Barnhardt made the best speech.

Election of Captain.

A meeting of the football team was held last week to elect a captain for this year as the one elected last year did not return. Mr. Marvin Carr was chosen.

Dr. Jones Lecture.

Rev. J. William Jones, D. D. under the auspices of the Y. M. C. A. delivered his lecture, "The Boys in Gray," or the Private Soldier as I Knew Him, in the Chapel Thursday evening, Nov. 14th. Every cent of the proceeds went to furnish the Y. M. C. A. study room. Dr. Jones, chaplain as he was of Lee's army, is prominent authority on Confederate history, and his work along this line merits the gratitude of every true Southerner. It goes without saying that his audience, spoken to by a man of such wide knowledge of his subject, was well entertained. Below is given a brief synopsis of his lecture. General Lee said: "the true heroes in the war are not the men in the rank, but the men in the ranks."

Who were the privates in our army? Did secession conspirators force them into the war? No. Private soldiers forced the leaders into the war. Abraham Lincoln by calling for troops brought on the war. The lawyer left his client; the doctor, his patient; the merchant, his customers, and the farmer his furrows to give their service to the country. In the Confederate army was the brawn and sinew of southern manhood and chivalry.

The old Confederate soldiers have been honored by all positions in the South.

Let us take a trip to Harper's Ferry at the opening of the war. We find beef piled up, soldiers well dressed and a beautiful silk flag for every company. Dr. Jones said, "It shall never trail in the dust, but in ninety days it shall be planted on the dome of the capital at Washington." But the scene changes. Poorer dress, brogan shoes, bare and bleeding feet on the march, revolvers and fine things disappeared, negro cook disappeared, silk banners changed to a tattered flag for each regiment.

In the camps the soldiers were lively and happy. Stonewall Jackson never failed to raise a Confederate yell. Here Dr. Jones gave a number of anecdotes illustrative of camp life. Then he showed by statistics the overwhelming odds against which Lee struggled.

Important Notice.

There will be a mass-meeting in Gerard Hall on the night of Thursday, November the twenty first at 7:15. Every one in any way connected with the college is requested to be present.

Nearly two hundred and fifty men entered the preliminary debates at Michigan this year. At Leland Stanford more men appear for the preliminary debates than for football practice.

Armour Institute, with an endowment of \$3,000,000 and an enrollment of 1000 students will probably be absorbed by the University of Chicago in a short time. In the past five years this University has absorbed 19 schools.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

The TAR HEEL has been persistent in its efforts to stir up a good healthy college spirit. While such efforts have been, perhaps, tiresome to some we trust that the majority, realizing our motive—which has always been love for our alma mater—have appreciated them.

It seems to us that, first of all, it is necessary that this spirit make itself apparent on all sides during this last week; that it supplant every other feeling and make us strive diligently for the success of our team in these last few days.

The example set by our alumni cannot but excite us to do as they are doing.

We must make persistent and organized rooting a feature of every evening's practice from now on. We must besides give the team a glorious "send-off" when they leave us next Friday; such an one as will let them see what an interest we have in them.

Such efforts on the part of all to help and encourage our representatives can only result in good and when Saturday comes they will most certainly give a good account of themselves.

There is, however, something else to be remembered. When, after the battle, our team returns, be it as victor or as vanquished,—let us not forget that they are still our representatives and show them in a manner unmistakable the appreciation we feel for what they have done.

In this, the last issue of the TAR HEEL before the Virginia game we wish to bring before the student body the efforts of our alumni and others to help us in our final preparations and to remind this same student body of some of its duties which should be looked after during the coming week. There should be, at this time, one thought paramount in the heart of every loyal son of Carolina and that is on Saturday next our team will meet Virginia and we must do what we can to help it.

This game is always looked upon as the climax of the season but we feel that circumstances justify us in saying that at no time before in the history of our beloved institution has there been such an amount

of interest displayed in regard to a like contest by people throughout the State.

It is indeed gratifying for us to know that during the week we will have as many as eight of our alumni on the Hill to assist in the coaching.

This is evidence enough that they will do their part. What are we, as students, going to do?

In this issue of the TAR HEEL we print two of our most popular college songs. At the game next Saturday Virginia will have more than two hundred students to cheer and sing for their team. The seeming improbability of a special train being run from here will limit the number of students who will attend the game but there is no reason why those who do go should not organize and show our Virginia friends that we, too, know how to root. Last year there was total absence of such organization. Let us hope that such will not be the case this year.

A notice of a mass-meeting appears on another page. We trust that every student of the University will make it a point to be present at this as it is of vital interest to all.

Exchange.

A faculty football team has been organized at Illinois, and the Senior class has challenged them for a game.

Until their recent game Princeton and Cornell had not been scored against. Both scored, Princeton winning by a disputed safety.

A site has practically been decided on for the Carnegie Institute at Pittsburg. These grounds are sixty-five acres in extent and will cost between \$2,500,000 and \$3,000,000. The cost of the buildings as estimated will be \$8,000,000, and the institution will be endowed by Mr. Carnegie with \$25,000,000.

Among the season's innovations in football is the boomerang kick introduced by Pennsylvania. It is used only on the kick-off. The ball is placed sideways—not horizontally but obliquely—and when kicked it twirls like a veritable boomerang.

The West Point Cadets and the students of the Annapolis Naval Academy, who have for the past two years played football on the Franklin Field of the University of Pennsylvania, will again meet in Philadelphia on November 30th, which will be the third time the Army and Navy have met on Franklin Field. The first contest resulted in a victory for West Point, but last year the laurels fell to Annapolis in one of the most beautifully contested games ever witnessed on an athletic field.

Admission to the game is by invitation only. As in former years over 30,000 people will witness the game. There are only twenty-five thousand reserved seats, seven thousand of which are reserved for the guests of Annapolis, seven thousand for West Point, and eleven thousand for the University of Pennsylvania.

There is perhaps no other athletic

event during the year that draws together a larger and more distinguished gathering of prominent statesmen, army and naval officers, and public officials. The event is always looked forward to with great interest by many, and the request for tickets in the last two years has always exceeded many times the number of reserved seat tickets which the committees were able to supply. No tickets are sold.

All Hail, Carolina!

All hail, Carolina!
There ne'er was a finer,
More noble college history than thine;
We'll sing to thy glory
So far-famed in story;
And garlands of sweet music for thee
twine.

Chorus:

Shout, sing, let it ring!
Shout Carolina o'er and o'er.
The welkin above her, with Saint, Sage and lover
Shall sound the swelling chorus evermore.

With Virginia or with Princeton,
At home or at Winston,
The sturdy athletes fight a winning game.

On gridiron or diamond,
(A bad word to rhyme on.)
The white and blue will triumph ere the same.

Locals.

Mr. W. M. Bellamy returned to his home in Wilmington last week to attend the Williamson-Bellamy marriage.

Dr. F. P. Venable went to Washington last week to attend a meeting of the Association of State Universities which commenced on Nov. 12.

Prof. Collier Cobb lectured at St. Mary's School in Raleigh, Saturday night, Nov. 9. His subject was "The Yellowstone Park."

Mrs. J. W. Gore and Mrs. Marriott have gone North on a visit to relatives and friends.

Mr. William Starr Myers, class of 1897, has been appointed delegate of the Permanent Nitrate Committee for the United States and Colonies. His headquarters are in New York City.

Mr. G. H. Andrews spent Sunday in Raleigh.

Mr. L. L. Holt, of Burlington, visited his son, L. L. Holt Jr., Saturday.

Dr. Battle's Bible lectures given in the Chapel every Sunday morning are well attended.

Judge R. W. Winston, of Durham, was in Chapel Hill Saturday.

Mr. N. A. Orr, who had the misfortune to break his collar bone is getting along as well as could be expected.

Coach Jenkins left for New York Thursday. From there he goes to Washington to visit the Georgetown-Virginia game. No doubt he will find out Virginia's weak points.

Dr. Hume was to deliver an address before the Shakespeare Club at Oxford Saturday, but on account of sickness he was unable to fulfill his engagement.

If you know of any locals or other items of news, drop them in the box in the Business office. The editors will appreciate this assistance.

Mr. Kemp B. Stephens, of the class of '02, who is now in the gold fields of Colorado, has recently been elected manager of the Acacia gold mining and milling company of the Cripple Creek District.

A Communication from Washington, D. C.

The TAR HEEL takes pleasure in publishing the following communication and hopes that it will be thoughtfully considered by every student.

You will pardon me for taking this opportunity of heartily endorsing your editorial in last week's TAR HEEL urging a greater demonstration of college spirit by the student body toward the football eleven.

There is without doubt no greater factor in the result of many a game, whether on gridiron or diamond, than the feeling on the part of the team that the student body—their fellows—are back of them. This fact was thoroughly demonstrated last Saturday in the Virginia-Georgetown game on Georgetown's field which I had the pleasure of seeing.

The first half was a veritable

walk-over for Virginia, the score standing 11 to 0, and few there were who thought that Georgetown had the shadow of a chance to win.

But after a few minutes play in the second half, the never-may-die spirit of the Georgetown eleven, backed by the whole college, began to have its effect, and by heroic and almost miraculous efforts, it seemed, considering the actual relative strength and weight of the two teams, Virginia was beaten by a score of 17 to 16, and the proud wearers of the orange and blue completely humbled.

The victorious eleven, at a time when defeat was staring them in the face, had taken courage and determination from the college spirit and support that they felt was back of them. And well they might have, for the loyalty and enthusiasm shown by the Georgetown students for their team at a time when they were being beaten back and crushed under by the powerful Virginians, was a grand and glorious sight!

If such a spirit could be aroused in the next few days in every student from Freshman to Senior, at U. N. C., I am sure that the eleven wearers of the white and blue who will meet Virginia at Norfolk next Saturday will not give even the most cynical the chance for adverse criticism of their efforts.

H. M. L. '99.

The track team of the University of California will probably come east next spring to compete with the teams of the larger universities and to enter the inter-collegiate games at Mott Haven.

The total scores of the "Big Four" up to October 28 were: Princeton, 198; Opponents, 0; Yale, 173; Opponents, 5; Harvard, 95; Opponents, 6; Pennsylvania, 137; Opponents, 6.

Meeting of the Scientific Society.

Prof. Howell spoke on a short-cut percentage calculation. He said it was meant to apply to the making up of solutions of certain percentage. The old rules are mathematical and it is hard for the student to grasp their meaning. This way is not mathematical. If you have a solution of a certain percentage on hand and wish to make up one of less percentage, write the percentage you have in one column, the per cent desired in the second column, and in the third column the water. Then the difference of the first and second will give parts of the solution on hand, and the difference of the first and third will give the parts of water to use. This rule can be applied to the preparation of solutions of certain specific gravities also.

Prof. Gore read a paper on Cold Light. Light is radiant energy; and so is electricity. There is a difference however in the waves. Electricity is propagated by ether waves of miles in length; while the light waves are one hundred-thousandth of an inch. The paths of the different forms of energy differ; and the forms of the waves do also. Cold light is a train of ether waves capable of exciting only the sensation. Cold light is produced at a very great temperature. But there is a distinction between the heat and the ether motion produced by it. One is the cause and the other the effect. A lamp has been invented which is claimed to produce cold light. It is an electric lamp. It is a small glass vessel of considerable length and the electrodes are at the two ends. It takes a high voltage to cause the discharge between the electrodes through the space that has been exhausted of air: but once the spark has passed it will continue at a much lower voltage. One of the electrodes is carbon and the spark volatilizes part of it and thus reduces the resistance in the exhausted space. This lamp has not yet been a commercial success.

Dr. Baskerville made some interesting remarks and then the society adjourned.

Exchange.

Harvard has organized a Student Union with a membership of 2,500. Its object is social intercourse and recreation.

Harvard has 4043 students this year, while Princeton has 1400.

The University of Wisconsin has increased from 481 students in 1879 to nearly 3,000 this year.

President Angell, of Michigan, has recommended that a new dental college be added to that institution.

The University of Pennsylvania is contemplating sending another crew to England next year to compete in the Henley regatta.

Dr. E. Park Willis, formerly professor of Economics at Washington and Lee has accepted a place on the editorial staff of the New York Evening Post.

At Harvard the coach says: "Pierce the line fiercely." At Yale the coach says: "Get through there, you lobsters; dig in with your toes; tear 'em up."

THE TAR HEEL.

Vol. 10,

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., November, 27, 1901.

No. 10.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

VIRGINIA WINS THE BIG GAME.

TAR HEELS LOSE TO HEAVIER MEN.

Six Thousand People Go Out in a Driving Rain-Storm at Norfolk to See a Battle Royal between the University of North Carolina and the University of Virginia.

Norfolk, Va., Nov. 23.—Virginia 23, North Carolina 6. The annual football game between the University of North Carolina and the University of Virginia for the southern championship was played here today in a driving rain, but in spite of the weather 6,000 people saw Virginia win.

It was a day on which only genuine lovers of the great college game would go and the game was the sort that such a crowd would most enjoy. It was a battle royal from start to finish and while the result was generally predicted, North Carolina's strength was surprising. Virginia had the advantage of 21 pounds average weight and relied upon it by continuously hammering the line with Coleman and Walker. In open play Carolina was easily superior and the nearest approach to sensational features were the end runs of Berkely and the runs of Graves after receiving kicks.

Every sort and variety of rooster was present, from the ten-year-old member of the local megaphone brigade to the usually sedate and dignified alumnus, who had left his business and journeyed across three states for the occasion. And each one employed his voice for all it was worth. Thousands pressed against the railings surrounding the gridiron, apparently oblivious of the steady downpour of rain, while a bleacher party of Virginia students, under an appointed leader, sang, whooped and howled at the people, the teams and themselves in a way that would put a Comanche Indian to shame. Up in the grand stand and on high-seated tallyhos were hundreds of pretty girls, most of them ignorant of the game, but multi-ribboned and enthusiastic to an inspiring degree and their escorts, wearing white or yellow chrysanthemums, as interest dictated, with streamers to match, completed the picturesque effect. It was a most interesting crowd, keyed up to the occasion and keenly alive to everything that happened. Virginia sympathizers were slightly in the majority, but it was a fact to be learned by sight and not by sound, for the game abounded in plays that evoked spontaneous and encouraging demonstration from every Tar Heel present. The team play on both sides was perhaps the best that any contest

between the two colleges has shown. North Carolina was not outclassed but outweighed and in the first half, before Virginia realized that it would be necessary to resort to mass plays, the tide was decidedly in favor of the Tar Heels.

Carolina scored her first and only touchdown within five minutes of the start of the game. Foust went over the line following Graves' long punt, which Virginia fumbled. Virginia used a tackle-back formation through the game and played havoc with Carolina's line. Captain Coleman, of the Virginians, had to get out of the game in the second half.

At 2:22 o'clock both teams trotted on the field, Carolina from the north end and Virginia from the south. The band struck up "Auld Lang Syne," and pandemonium broke loose. For fully two minutes bedlam had a back seat. Carolina won the toss and chose the south goal with the wind to her back. Carroll kicked off for Virginia and Smathers caught the ball and returned 30 yards by a beautiful run. Carolina advanced 20 yards further on short gains and lost the ball on a fumble. Carroll kicked for Virginia but the wind was against him and Graves caught the ball and ran for twenty yards. Graves then kicked to Carroll, who fumbled and Smathers promptly captured the ball on Virginia's ten yard line. Foust and Councill then alternately hammered the line until Foust was shoved over for a touchdown, 3½ minutes after play began. Graves kicked goal. Carroll kicked off and Graves returned into Virginia territory, where the game continued fiercely for 20 minutes, each side repeatedly losing on downs. Smathers was hurt and Cox was substituted at left end. Virginia then gave an exhibition of line bucking that was her best efforts of the game gaining fully 70 yards by successive rushes which landed Walker between the goal posts for her first touchdown. Carroll kicked goal. Time 27 minutes. In three minutes the whistle blew with the ball in Virginia territory. Score—Carolina 6; Virginia 6.

In the second half Virginia rushed the ball to Carolina's 15 yard line, after the kick-off. Carolina won the ball on downs, but lost it on failure to gain the required 5 yards. Walker then rushes over the line for a touchdown and Carroll kicks goal. Time, 6 minutes. Virginia substituted St. Johns for Langford and Donnelly took Berkely's place behind Carolina's line. Virginia's heavy weight now began to tell and the line plunges of Coleman and Walker were very effective. Carolina resisted stubbornly every foot of ground and occasionally threw Virginia back for a loss, but the concentrated weight of Virginia's tandem plays were irresistible. Coleman crossed for another touchdown and Carroll made goal. Time 16 minutes. In 12 minutes more

Church, who replaced Coleman at left half back, made Virginia's final touchdown. Carroll missed the goal, making the score 23 to 6 in favor of Virginia.

Graves, for North Carolina, and Walker for Virginia, were the stars, although the prominence was made possible only by the consistent and effective teams. The line-up was as follows:

North Carolina:	Virginia
Smathers, Cox	1 e Hobson
Foust	1 t Walker
Jones, Brem	1 g Moore
H. O. Jones	center Waters
Hester	1 r g Haskell
Councill	1 r t Benet
Makely, Gant	1 r e Williams
Graves	quarter Tutwiler
Gulick	1 r h b Coleman capt.
Berkely, Donnelly	1 h b Langford
Carr, capt.	1 f b Carroll

Referee, Armstrong Yale; Umpire, Thompson, Georgetown; touchdowns, Foust, Walker 2, Carroll, Church; goals, Graves, Coleman 3; Time 30-minute halves.—Charlotte Observer.

The Shakespeare Club.

The Shakespeare Club met last Wednesday night, being called to order by its president "in perpetuo" by reason of his professorship of English Literature in the University—Dr. Hume. This being the first meeting of the year, the president made a short address of welcome to the old and new members. He spoke of the history of the club—its organization and work.

Closing his address, the president then announced that the election of officers for the ensuing year was in order. Mr. E. K. Graham, our efficient instructor in English, was elected vice-president, while Mr. F. H. Uzzell, '03, was elected secretary and treasurer.

After the election of officers and the enlistment of sixty new members Dr. Hume addressed the club on "The London of Shakespeare as Compared with the London of Today." The Doctor delivered this lecture before the Literary Clubs of Durham this fall and said he thought it would be appropriate for his opening lecture of the Shakespeare Club at the University.

Mr. A. W. Hayward read a paper on "Hal." Mr. J. T. Smith read one on "The Handling of Shakespeare's Sources." Mr. C. A. Bynum then read a most interesting paper on Falstaff.

The program as a whole was a very interesting one,—the meeting a most auspicious opening for the ensuing year.

Scrubs 16; Guilford 0.

For the second time this season Guilford has lined up on our gridiron and for the second time defeated. The contest at an earlier date was with the Varsity, with the well known result, but it remained for the Scrubs on Saturday to finish the work then begun. Neither team could do justice to their past

reputation, on account of the bad condition of the field, and the worst weather, but at times the playing was fierce and their rushes irresistible.

The game was to be called at the early hour of one o'clock, so that it might be over when the more momentous one was to begin on the gridiron of another State; but long before the hour of one arrived it was a question whether or not it would be played. The sun had risen that morning—as it was to set for Carolinians—behind a mass of dark and heavy clouds, and at an early hour the rain began to descend in quantities that blighted for a time all hopes of a double victory for Carolina that day. But by one o'clock the rain had so slackened that the teams and about fifty of the students had assembled on the field. Soon after the game started, it again began raining, and only ceased when darkness had made the sorrow of Carolina and Guilford one.

The playing of the Scrubs on Saturday was good. The close attention they have received from the coach, and their constant practice against the Varsity, showed very conspicuously in their team and individual work. Newton, half-back, was the star; at times his plays were sensational. Wilson, quarter, also did good work.

The Guilford men made a much better showing than on their former visit. Their trick plays were snappy and were often the source of gains. Their back field did creditable work but the line was unable to hold back the fierce plunges of the Scrubs.

FIRST HALF.

The game was started with Guilford in possession of the ball. Bauldin kicks off to Wilson who advances 10 yards. Glenn is hurt and on retiring, Moore is substituted. The Scrubs carry the oval steadily down the field by short gains, until it came in possession of Newton, who made a forty yard run for a touchdown.

Goal. Time, four minutes. On this kick-off Guilford sent the ball 30 yds. to Moore who advances ten yds. Roberson then goes around right end for 20 yds and Newton around the left for 88. Constant line bucks carry the sphere to Guilford's 20 yd line, and Reynolds attempts a drop, but Guilford is off side, and blocks kick. The Scrubs carry the ball to the 3-yd line where they lose it on downs.

Guilford bucks line for gain of one yd. Second rush results in no gain and they attempt to punt, but lose ball on fumble on their one yard line. The Scrubs send Reynolds through the line for a touchdown. No goal. Time, seven minutes.

On the third kick-off Newton gets the ball on the forty yard line and advances ten yards. The Scrubs carry the sphere down the field 15 yards and then lose it on downs.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

The great game is over; we have met Virginia and once more the Orange and Blue has been victorious. Comment on the game is perhaps unnecessary and even out of place here, as a full account appears in another column. Yet we would say a word or two in regard to it and particularly would we speak of the part played in it by our own representatives.

With a team composed almost entirely of inexperienced and at the same time unusually light men, no one expected a victory; there were few, indeed, who did not think that Virginia would win as she pleased. But these had failed to reckon on the team work of Carolina which was the feature of the game. There were eleven Tar Heels in every play, who with the never-say-die Carolina spirit bravely contested every inch of ground gained by their opponents.

Against a team which outweighed them twenty pounds to the man, and on muddy grounds in a hard rain which rendered our characteristic game of fast, snappy ball impossible, the men who wore the blue and white put up as noble, as gritty a fight as was ever witnessed on a gridiron. They were not outclassed or outplayed; nor should we say they were vanquished,—they were simply overpowered by the superior weight of their opponents. It was another case of weight and experience on the one side against pluck on the other.

Our hearts are filled with gratitude for the men and the coach who have worked so hard for Carolina. Though it was defeated, there is not a single loyal Carolinian who is not proud of the team and the fight it put up on Saturday last. "Hats off to the team of 1901!" is the sentiment that predominates in every Tar Heel breast.

We have another team to be proud of besides our Varsity. On Saturday last the Scrubs defeated the team from Guilford College by a decisive score. This was the first time in several years that our second team has thus distinguished itself and to this year Scrubs all honor is due.

The second team is as much our representative as any other team

and Carolina men will support it in its games as such. The crowd at Saturday's game was nothing like as large as had been expected as the weather was not such as to induce a full attendance. What they lacked in numbers was, however made for in enthusiasm.

We understand that the rooting done by those who attended the Virginia game in Norfolk was a unusually good—much better than at any previous game with this University.

This together with the mass meetings before and after the game and the reception given the team at the train on its return from Norfolk show conclusively that a broader up, or rather developing among us,

Everyone here is awakening to a realization of the importance of this feature of inter-collegiate contests and the benefit sure to be derived up from such demonstrations.

(Continued from 1st page.)

Guilford seems new to rally and begins to make big gains by the introduction of a new feature into the game. Williams, however, is soon on to the trick and tackles behind their line for a gain of ten yards. Guilford is then forced to punt when the ball comes once more into the possession of the Scrubs.

Newton is now sent around the end and makes twenty yards by a brilliant jump over Guilford's end. Time is called with ball on Scrub's 50 yard line.

Score at end of first half:
Scrubs 11; Guilford 0.

SECOND HALF.

At the opening of the second half the rain continued in undiminished vigor, and the field was flooded with water. The players, though, with characteristic nerve, started the game.

Reynolds kicks off ten yards to Guilford. The offensive now have the advantage, due to the slippery condition of the earth, and Guilford advances the ball 30 yards before the Scrubs are able to get it in their possession.

The Scrubs secure the ball on downs, but are able to advance only five yards before they are forced to punt. Guilford returns the punt after three rushes. Newton then gets the ball and makes a 65 yard run for a touchdown.

No goal. Time, six minutes.
Guilford kicks off but after a few rushes the game is called on account of the rain.

Final score:
Scrubs 16; Guilford 0.

Line-up:
Scrubs Guilford
McCubbins 1e Lenley
Swink 1t Albright
Phipps 1g Ragan
Stewart c Millikin
Glenn, Moore rg Dook
Miller rt Patterson
Williams R. R. re Zelverton
Wilson quarter Deckson
Newton 1hb Leak
Reynolds fb Bauldin
Robinson r hb Short Capt.

Officers—Umpire; Ehringhaus, University; Referee, Wilson, Guilford. Time of halves, 15 and 8 minutes.

Our business manager, Mr. Sallenger, took in the Virginia game Saturday.

Resolutions of Respect.

PHILANTHROPIC HALL,

University of North Carolina.

Whereas, Almighty God in His divine power has seen fit to remove from time to eternity our late friend and fellow-member, George Chadbourn, therefore be it

Resolved, First, That while bowing in humble submission to the will of Him who hath the power to give and to take away, we the members of the Philanthropic Society, cannot but lament our bereavement.

Second, That we offer our warmest sympathy to the family and friends of the deceased, and while we would not intrude upon the sanctity of domestic grief, we would point them to that Eternal Source from which alone the crushed heart can derive consolation.

Third, That these resolutions be placed upon the minutes of our Society; that a copy of the same be sent to the *Wilmington Messenger*, the *Tar Heel* and the *University Magazine*, with a request to publish them.

Mr. E. W. Myers, who now has his headquarters at Greensboro, was here Saturday.

Mr. R. L. Ellington, post-graduate, went home Saturday to spend a few days.

Dr. Baskerville attended a meeting of the State Chemical Association in Raleigh Friday.

Dr. Venable was in Raleigh Thursday.

Prof. Cobb and Mr. H. B. Short attended the funeral of Mr. Geo. Chadbourne.

Prof. Collier Cobb and Mr. H. B. Short, Jr., attended the funeral of Mr. George Chadbourne at Wilmington.

Dr. Mangum and Prof. Howell accompanied the team to Norfolk.

Miss Adelaide Snow, who has been visiting Mrs. Chas. Baskerville, returned to Raleigh Monday.

Mr. James Webb, of Hillsboro, was here Thursday.

Mr. Walter Holiday, of Cole & Holiday, University photographers, was on the Hill last week taking group pictures.

Mr. R. S. Vernon, Travelling Passenger Agent of the Southern, was in Chapel Hill Thursday to consult with the manager of the football team.

Owing to the proximity of examinations and general financial depression our delegation to the Virginia game was not so large as we would like to have seen. The following gentlemen, however, were fortunate enough to be present: W. W. Eagles, P. Fogel, Robt. Lassiter, L. C. Rountree, Satterwhite, Benj. Bell, J. L. Morehead, C. Carr, C. S. Sibley, Leggett, J. B. Ramsey, R. N. Duffy, A. W. Haywood, Burke Bridgers, H. G. Turner, C. E. Johnson, Jr., Horace Emerson and H. Stewart.

Mass Meeting.

Thursday evening before the departure of the team for Norfolk a mass meeting was held in Gerrard Hall. On the whole it was perhaps the most interesting and enthusiastic ever held here.

Short talks were made by Dr. Alexander, Dr. Linscott, Prof. Noble, Messrs. Stern, Williams and Kluttz; Capt. Ramsey and Conch Graham, of the Scrubs, and C. Ach Jenkins for the Varsity. Yells and cheers were given between the talks and at the close of the meeting "nine rahs" were given for each man going to Virginia and also the Scrubs.

With the Societies.

The Di. discussed the question: "Resolved, That the industrialism in the South known as McLaurinism is for our best interest. The negative side won and Mr. Ivie was best debater.

The Phi. discussed the question: "Resolved, That congress should adopt reciprocity as the controlling policy of trade." The negative side won the debate and Mr. Walker was best debater.

Exchange.

The Harvard-Princeton debate will take place March 27.

Six new buildings to cost in all \$600,000, are to be erected on the campus of the Northwestern University.

The Yale football field is valued at \$75,000.

The Harvard Athletic Association has sold \$8,000 worth of membership tickets this year.

For the support of Athletics, \$9,200 will have to be raised at Yale this year.

A college paper, as defined by an exchange, is a publication to which one per cent. of the students subscribe, and which ninety-nine per cent criticize.

Harvard and Yale play two games of basket ball this winter, one at New Haven on Feb. 20, and one at Cambridge March 13.

The University of California is to have a new library with a capacity of 1,000,000 volumes.

Leland Stanford, Jr., University has just finished the decennial celebration.

Forty men played in the recent Harvard-Pennsylvania game. Pennsylvania supplying 22 and Harvard 18.

The president of the S.I.A.A. has written to Auburn about dirty football playing, threatening to blacklist coach, manager and captain. The principle kickers were the University of Nashville and Vanderbilt.

The King's Daughters' Fair.

The King's Daughters will hold their annual Fair Friday, December 6th, 1901, at Pickard's hotel from 3:30 to 10 p. m. Oysters served from 8 to 11 p. m.

George Chadbourn.

Our community was greatly shocked and deeply saddened by the news that George Chadbourn had passed away at his home in Wilmington on Thursday last, the 21st of November. For a year after graduation, in June 1900 he was engaged in cotton milling, and during the past summer he returned to the University for graduate work in chemistry and geology. He was a young man of sterling worth, and his quick intelligence, his generous nature, his ready helpfulness, and his cheerful disposition combined to make him a most agreeable companion. He was faithful student, accurate observer, possessed of excellent judgement and varied accomplishments. A life which gave promise of great usefulness is thus abruptly ended upon the threshold of his career but such a life can never be lost in its quiet influence upon all who knew him and loved him.

We tender to his stricken family the sympathy of our entire community.

With deep sorrow to the class of 1900 has come the knowledge of the death of their classmate and friend George Chadbourne. In grief we desire to express our sympathy to those to whom he was nearer and dearer and who have suffered the more by our common bereavement. Our human testimony also we wish to add to his good report.

In broader university life he typified the courteous gentleman; among his classmates each held him as a friend; truth unequivocal that ever spoke from him and quiet unobliging dignity impressed all with the sense of a character who trusted himself and whom others could trust, because his strength was drawn from the Giver of strength. But this part of his record is written, we know, by hands not of this earth.

It is resolved therefore by the class of 1900 of the University of North Carolina: That in the death of George Chadbourne, we have lost and do mourn a warm friend, and esteemed classmate, and the University a faithful alumnus.

Chas. G. Rose.
T. W. Jones, Jr.

THE TAR HEEL.

Vol. 10,

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., December, 5, 1901.

No. 11.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

The University Is Defeated.

SOUTH CAROLINIANS TOO STRONG

A Large Crowd Sees the White and Blue Meet Defeat — Clemson Plays Fast and Fierce Game and Outclasses the Tarheels — Council Gains Yards and Fame — Carolina's Game a Bit Off Color.

The football team of the University of North Carolina went down in defeat Thursday afternoon before the Clemson College aggregation by the score of 22 to 10.

The game was played at Latta Park before a crowd of about 1,000 spectators.

For the past several days great interest has been manifested in this contest for the championship of the Carolinas, and great numbers turned out to show their interest.

Naturally the University team had a majority of the supporters and from the lapel of nearly every coat could be seen the colors of one of the colleges, the white and blue being easily predominant.

The lobbies of the hotels were the places of very unusual scenes yesterday. Large parties of collegians and their friends were there, betting and yelling and talking. Odds in the morning favored Clemson and her adherents were placing 10 to 8 and 3 to 2 on the result. The bets generally were placed as to who would win the game and the South Carolinians were nervy in backing up their opinions.

Experts differed as to who would win. It was generally conceded that the game would be a hard fought contest, but nobody was prepared for the overwhelming defeat of the Varsity boys.

Both teams were in fair condition

G. R. BERKELEY.

though Carolina was considerably weakened by the inability of Smathers and Graves, end and quarter-back respectively, to get in the game.

Berkeley went in with a very bad leg and was easily retired after making some good distance gains.

Captain Carr had his men well in hand and was playing a hard game until he was forced to retire on being hurt.

The whole Clemson team played

good ball. They outclassed Carolina. They were heavier for one thing but they played a fierce and fast game.

Their trick plays generally resulted in good gains and their line breaking was good.

Carolina's strong playing was in hard line hitting and Council proved himself a steady gainer and star of the game.

Foust hit the line hard and Gulick was always a good gainer. Both teams played good ball, but Carolina did not put up the game she is capable of playing.

The game was called at 3 o'clock. Captain Carr won the toss and chose

T. F. FOUST.

to defend the south goal.

The halves were thirty minutes in length.

Clemson kicked off to Carolina's 15 yard line and Carr returned the ball 16 yards.

Makeley goes for four yards; then for two more; Berkeley fumbles and Clemson grabs it.

Clemson tries twice without result then on quarter-back kick Clemson

COUNCIL.

gets ball with a gain of 12 yards.

Then by successive gains Clemson goes down the field for a touch-down, but fails to kick goal.

Score: Clemson 5; Carolina 0.

Carolina then kicks off to Clemson's 10 yard line and ball is returned 17 yards.

Clemson then begins gaining, until they get off-side and Carolina gets ten yards.

Then Clemson kicks 60 yards and Carr comes back 8.

Carolina then makes short gains, carrying ball for 1, then 1, then 4, 2, 4, 1, 2, and on Clemson's off-side gets ten yards, then Council is shoved over line for 8 yards, then 1, then 1, Foust 4, Carr fumbles and Clemson gets it, Clemson gains and loses then kicks 15 yards and Carr is downed in tracks. Ball on Caro-

lina's 14-yard line. Carolina gains and then Council goes back for a kick but ball goes through him, behind goal and Clemson man jumps on it, scoring second touch-down. They fail again to kick goal.

Score: Clemson, 10; Carolina, 0.

Carolina kicks off to Clemson's 10-yard line. Ball is returned 12 yards, Clemson fumbles, but retains ball, then kicks 30 yards to Carr, W., who is downed in tracks. Gulick succeeds Berkeley at half. Carolina goes on down field in short line gains to their 22-yard line, then Carr's kick is blocked, but Carr gets it on 45-yard line.

Then on line plays and end runs, with one penalty of 10 yards for off-side, Gulick is shoved over line for touch-down.

Score: Clemson, 10; Carolina, 5.

Clemson kicks to Carolina's 10-yard line and Carr comes back 15 yards, Carolina gains a few yards, then ball goes over on downs.

Clemson goes on down field and finally is shoved over for a touch-down. They kick goal.

Score: Clemson, 16; Carolina, 5.

Carolina kicks off. Both teams

L. GRAVES.

get ball during rest of half and see-saw about middle of field.

Time up with ball on Clemson's 40-yard line, in possession of Carolina.

Score: Clemson, 16; Carolina, 5. Second half: Carr is succeeded by Donnelly at full. Foust acts as captain.

Carolina kicks off. Clemson gets ball but soon kicks and Carolina begins going down field for short gains, assisted by one off-side play of Clemson, when Gulick is finally shoved over line for touch-down. Carr misses goal.

Score: Clemson, 16; Carolina, 10

Clemson kicks off to Makeley who is downed in his tracks. Here Gulick makes longest run of game, going a distance of 45 yards.

Carolina goes on down field till they get to 20-yard line, when ball goes over. Clemson kicks 35 yards, then Clemson goes on back toward goal, till ball is fumbled and Clemson gets it. Clemson goes on down field with short, successive gains for last touch-down.

Score: Clemson, 22; Carolina, 10.

From then on during the game neither team is able to score. Carolina came near their goal several times, but the South Carolinians were too strong. Brem takes Jones' place at guard and Jones succeeds Foust at tackle. Jacocks went in Makeley's place.

Time was finally called with ball in Clemson's possession on Carolina's 25-yard line.

The following is the line-up of teams:

Carolina.	Clemson.
Jones, H.	c Sneed
Hester	rg Forsyth, J.A.
Jones, Brem	lg Bearden
Foust, Jones	lt Shealey
Council	rt DeCosta
Cox	le Sadler
Williams	rc Forsyth, W.C.
Carr, W.	qb Lewis
Berkeley, Gulick	rh b Hunter
Makeley, Jacocks	lh b Pearman
Carr, M., capt.	fb Douthit, capt.

Official referee, George Stephens; umpire, Dodsworth.

Carr, M., was replaced by Donnelly. — *Charlotte Observer.*

Zeta Psi Dance.

Saturday evening the Zeta Psi fraternity gave a delightful dance in honor of the visiting young ladies. The german was gracefully led by Mr. J. L. Morehead. Many new and intricate figures were introduced which called forth applause.

A list of the couples and stags participating are given below:

Miss Phillips of Tarboro with C. G. Rose.
Miss Bridgers of Tarboro with A. S. Root.
Miss Falson of Charlotte with J. L. Morehead.

Miss Rhyne of Gastonia with W. F. Carr.
Miss Morson of Raleigh with H. G. Turner.

Miss Primrose of Raleigh with J. B. Ches-hire.

Miss Latta of Raleigh with J. J. Nichols.
Miss Graves of Chapel Hill with T. L. Gwyn.

Miss Thompson of Raleigh with R. Hutch-ison.

Miss Heart of Raleigh with J. B. Ramsay.
Miss Alexander of Chapel Hill with Mr. Staton.

Miss Busbee of Chapel Hill with W. B. McNider.

Miss Gordon of Chapel Hill with Louis Graves.

Miss Skinner of Raleigh with T. W. Jones.
Miss Taylor of Raleigh with A. W. Hay-wood.

Miss Annie Hinsdale of Raleigh with Benj. Bell.

Miss Hume of Chapel Hill with P. Cobb.
Miss Nell Hinsdale of Raleigh with Alex. Jones.

Miss Vonable of Chapel Hill with W. Dunn.

Miss Osborne of Charlotte with W. S. Bern-ard.

Stags:
Shore, Hanes, Calder, Cox, Kenan, String-field, Thorpe, Taliabferro, Alexander, White-head, Berkely, Lemly, Gordon, Andrews, Brenizer, Skinner, Henderson, Graham, Brem, Murphy, Latta, Alexander, Gudger, Gwyn, Cocke, Nichols, Galloway, Worth, Stafford, Bridgers, Makeley, Drane, Lassiter, Douglas, Ehringhaus, Smathers, Rose, Prof. Howell, Bernard, Prof. Graham, Dr. Ruffin, Prof. Raper, Holt, Ross, Council.

Chaperones:
Dr. and Mrs. Baskerville, Dr. and Mrs. Mangum, Dr. and Mrs. Linscott, Mrs. Graves, Prof. and Mrs. Gore, Dr. and Mrs. Wilson.

Two Eastern college professors are preparing to get out a dictionary of American college slang.

Subscription Price, \$1.50 per Year.
Payable in ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

Thanksgiving Day has come and gone and for the second time this season the white and blue for Carolina has gone down in defeat. We will refrain from a criticism of the game; it has been won and lost and its result is a matter of football history. But we would speak a few words in regard to the season's work of our team.

The season has indeed been a disastrous one for Carolina but it has been no worse than was generally expected, with the exception perhaps of the last game. We have, from the beginning—to use an inelegant expression—had our nose at the grindstone to develop a team and no one will gainsay that we "bulted better than we knew."

Although we have failed in our biggest games this year, the season has not been without glory. Our representatives have faithfully worked for and gloriously upheld the honor of Carolina in every contest. By the gentlemanly, sportsmanlike character of their playing and by their heroic efforts against insuperable odds they have won the admiration of every lover of the sport and forever endeared themselves in the hearts of Carolina's sons.

Our failures have taught us many valuable lessons which we could never have learned from success but the greatest good they have done is that they have awakened among us a full realization of the necessity of supporting the team at all times. It is undoubtedly true that never before has a team been better supported by the student body.

Every one connected with the University is grateful to the men and the coach who have worked so hard for the institution we all love. Though they have not attained the same measure of success as some of their predecessors they have by their efforts kept untarnished the name and fame of Carolina;—they have again demonstrated the true Tar Heel spirit, the spirit of "sport for sport's sake."

"Carolina! Carolina! Heaven's blessings attend her.
"While we live we will cherish, protect and defend her."

Now that the football season is over we should begin to think of

other branches of athletics. In this issue of the *Tar Heel* we publish a communication from our gymnasium instructor, Mr. Vonden Steinen, in regard to basket ball and hockey. The general rules of the game are given in order that all may become familiar with them.

It is earnestly hoped that there will be at least a satisfactory response to this call so that we may develop creditable teams. If possible a series of games will be arranged with other institutions and every effort made to arouse interest in these sports which, while practically new departures for us, are so popular in the North.

The examination schedule has been posted and with it an announcement that the period will not begin until December 12th.—two days later than hitherto announced.

The announcement is received with much dissatisfaction by the student body. Evidently our faculty has not considered the fact that should the examinations be thus delayed many of our students will not be able to reach home before Christmas day.

A petition has been circulated among the students and presented to the faculty requesting that examinations begin on the 10th. as previously announced. It is hoped that it will be favorably considered.

Owing to the approach of the examination period the *Tar Heel* will be discontinued until after the holidays.

Students! Decorate Your Rooms!

AN ARTISTIC POSTER FREE.

Send us your name on a postal card and we will mail to you free a new brilliantly colored Washburn poster (size 12x18 inches). This poster is the creation of the Viking's Head Studio, and has been pronounced exceedingly bright and clever. It represents a pastoral scene, a rabbit enamored of the music of a mandolin. Write today, this offer may not appear again.

LYON & HEALY, 73 Adams St., Chicago.
Makers of the World-Famous Washburn Guitars, Mandolins, Banjos and Zithers.

IMPORTANT NOTICE. This poster has been awarded first prize in the poster competition of 1901, held the American Prister, New York City.

Locals.

Prof. Vernon Howell was in Raleigh Thursday.

Mr. W. K. Battle was on the Hill a few days last week.

Mr. S. B. Alexander, Jr., of Charlotte, visited his brother, Emory Alexander Friday.

Mrs. Gore and Mrs. Marriott, who have been visiting relatives in Baltimore, have returned.

Mr. George Thomas, who has been home for several weeks, has returned to college.

Messrs. Stuart Lewis, Shepherd Pender, Benj. Lassiter, J. B. Murphy, Hiram Philips and Horace Emerson, of the freshman class, attended a dance at the Horner School, Oxford, Friday night. They report a pleasant time.

Messrs. Page, Green, Trotter and Fox, Pharmacy students appeared before the State Board Thursday and were successful in securing their licenses. Mr. Page made the highest general average of the successful applicants. The other three gentlemen acquitted themselves with credit. This speaks well for our School of Pharmacy.

Mr. T. Woolen, who was formerly with the Fine Manufacturing and Power company, of Winston, has taken charge of the office of Register to the University, recently made vacant by the death of Mr. Harris, and will discharge the duties of that office until a permanent appointment is made by the board of trustees.

The University preacher for December is Dr. A. T. Graham, pastor of the Presbyterian church at Davidson College. Dr. Graham will be here on Sunday, December 8.

The next annual inter-society Soph-Junior debate will take place Thursday evening, December 5th. The debaters are Messrs. Parker and Idol from the Dialectic and Messrs. Judd and Dameron from the Philanthropic.

Before the Oxford Shakespere Club Thursday night, Dr. Hume lectured on "From Mystery to Shakespere." A banquet was served afterwards. Friday morning he addressed the Horner School cadets on "A School Boy's Hero"

Dr. Hume left Thursday morning for Winston-Salem, where he spoke Sunday night before the North Carolina Baptist Convention on "The Culture Side of Bible Study and Better Methods of Preaching." He will deliver other addresses before the Convention.

On Tuesday night the Sigma Nus gave a progressive euchre party in honor of Miss May Murphy, of Morganton, N. C. Those present were Miss May Murphy, with Mr. J. S. Henderson; Miss Annie Hume, with Mr. J. R. Rountree; Miss Margaret Alexander, with Mr. G. W. Graham; Miss Eloise Harrington, with Mr. J. B. Gilmer; Miss Christine Busbee, with Mr. J. E. Long; Miss Mina Bynum, with Mr. A. Henderson; Miss Bettie Gordon, with Mr. S. S. McNider; Miss M. Stone, with Mr. W. A. Murphy; Miss Etta Mangum, with Mr. W. W. Kluttz; Dr. and Mrs. H. F. Linscott; Messrs. T. R. Brem, E. G. Alexander, H. Clement, R. N.

Duffy, C. M. Byrnes, A. W. Latta. The first prize went to Miss Mina Bynum, the Consolation prize to Mrs. H. F. Linscott. Refreshments were served at 11 o'clock.

COMMUNICATIONS.

The Editors welcome all articles of a timely nature for publication in this column, though they do not hold themselves responsible for the sentiments expressed therein.

"Everything in its place." This is indeed a good motto and certainly an ideal state. The fact that editors sometimes fall short of this happy state makes their motto none the less true. The writer would not conceal his reference. It is to the editorial column of the November Magazine.

We feel that the editor has taken advantage of his official position and hurt the literary standard of his publication when he attempts to drag into its columns a partisan opinion of how college politics should be run. He would have us believe that the Athletic Association is controlled by a political ring, possibly so, but that ring includes a majority of the matriculates of the University and was formed to destroy the Tammany of which the gentleman himself was "Croaker."

We heartily endorse the motto "Everything in its place" even so far as to suggest that advice and political criticisms emanate from an unbiased source and not from the pen of a disappointed "has been."

It is only necessary to search past records to see the broad inconsistency of the gentleman's views. Evidently the editorial was written before certain recent developments.

But an experienced newspaper man was beaten out by a mere boy. All the more credit to the boy. However the students would much enjoy a disclosure of the identity of the mere boy and also of this Solon of "newspaperdom." If the "C-r-o-a-k-e-r" desires to begin a reformatory movement verily he will not have to travel far from home to locate the "rottenness in Denmark" and it has been well said that "harmony should begin at home."

Hockey and Basket Ball.

On Monday, December 2, at 4:45 p. m. the initial game of field hockey will be played on the football field. It is hoped that at least 30 men will be out prepared to play that evening. Many are familiar with the game under the name of "shiny" or "shinty." Each man should provide himself with hooked stick about three and a half feet long, free from metallic substance and small enough to pass through a two inch ring—these can be procured from the dealers in athletic goods or cut from a root. The game is played with a ball three inches in diameter, the object being to drive the ball between the opponent's goal posts and over his goal line. Fifteen men usually constitute a team.

(a) In striking, the stick must not come above the shoulder at any part of the stroke. The stroke shall be from right to left and with the front of the stick. For violation of this rule a free strike is given the opponents at the point where violation occurred.

(b) There shall be nobody checking, shouldering, hacking, tripping with foot or sticks. For violation same as (a).

(c) The goal tenders are allowed to kick the ball; others doing so

commit a foul.

(d) Two thirty minute halves constitute a game with ten minutes intermission.

An attempt is being made to arrange a basketball schedule, games to be played during January, February and March. Charlotte, Wilmington, Columbia, Charleston, Richmond, Norfolk, Newport News, Portsmouth, Washington, Baltimore and others have been asked for games. Several men have shown themselves proficient at the game, but we need more, and a lot of hard practice, if we are to have a Varsity team up to the standard of our other representative teams. Now that football is almost over it is hoped that many of the players will continue to represent us in this phase of the physical work.

The game in general is as follows

(a) Game is played with a ball somewhat like a football, on a court not exceeding 3,500 square feet. At each end of court is a basket ten feet from the floor.

(b) Five men constitute a team and two twenty minute halves a game.

(c) Object of the game is to put the ball into the opponent's basket. This can be done in two ways; one from the field counting three points; the other from a free throw. The penalty for fouling, counting one point.

(d) The ball must not be carried either way, held against the body, kicked or struck with the fists.

(e) A player is not to hold, push, trip or hack another player or interfere with his progress in any way.

(f) Penalty for violation of (d) or (e) is a free throw to the opposing side's goal from a line fifteen yards from the goal, all players to be at least six feet from the thrower.

It is desired that the classes take up these games and make them a part of the athletic life of the University.

E. von den Steinen,
Director of Physical Training.

The blacklisting of Sewanee will result in the breaking off of all negotiations for baseball and football games next spring and next fall with Vanderbilt, and the other members of the Southern Inter-Collegiate Athletic Association.

LeMoyné was declared ineligible by a unanimous vote of the executive committee of the S.I.A.A., and the Athletic Association of the University of the South was informed of this action by Dr. Dudley before Saturday's game. However Captain Cope played LeMoyné over Edger-ton's protest.

The business manager of the University of Chicago Weekly occupies a somewhat anomalous position as the private owner of the paper which belongs to the student body. The paper is edited in the usual way—the private owner acting as business manager. This system is considered much better than that of ownership by a shifting student body.

In playing LeMoyné in last Saturday's game over Captain Edger-ton's protest Sewanee has violated one of the S.I.A.A. rules, and is thereby, according to the rules of the organization, blacklisted for at least one year.

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., January 16, 1902.

No. 12.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

ATHLETICS.

Baseball Schedule and Prospects.

Track Team. Bright Outlook.

March 24, Lafayette at Chapel Hill.
March 25, Lafayette at Chapel Hill.
March 27, Gallaudet at Chapel Hill.
March 29, Clemson at Charlotte.
March 31, Lehigh at Winston.
April 1, Lehigh at Chapel Hill.
April 5, Cornell at Chapel Hill.
" 16, Georgia at Chapel Hill.
" 17, Georgia at Chapel Hill.
" 22, Richmond College at Chapel Hill.

May 3, Virginia.
" 6, Wofford at Spartanburg, S. C.
May 7, Clemson at Clemson, S. C.
May 8, Georgia at Athens, Ga.
" 9, Mercer at Macon, Ga.
" 10, Ga. Techs. at Atlanta.

The above is the schedule of games arranged by Manager Graham and is about complete with the very probable addition of two more Virginia games. If there is only one game against Virginia, it will be played in Raleigh, but if the other two are added, one will be played here, one in Charlottesville, and the third in Norfolk. This schedule is perhaps the most extensive ever undertaken by a Varsity team and it reflects very creditably upon the efforts of the management.

To make any sort of record against the large number of teams to be played, will take an earnest, thorough sort of work on the part of all the candidates.

It is extremely encouraging to know that there are perhaps the largest number of candidates for every position, and nearly all of them with some valuable experience in the baseball world, that there has ever been.

It is a hackneyed expression, but nevertheless true, that the prospects this year are bright, very bright indeed. But the students, those who are not candidates for the team, must realize from the very start, that all does not depend on the nine men chosen for the team. The success of the team depends on the team plus the genuine, hearty backing of the whole college.

This backing must be shown in more ways than one. In the past the Manager could never count on more than 150 boys for attendance at games. This speaks very poorly for college spirit.

Every student who possibly can afford it, and there are very few who cannot, should attend the games and encourage the team by their presence. It is not beneath the dignity of a gentleman to root, every student should join in the rooting.

Now about the personnel of the team. Of last year's Varsity the following are back: Captain Holt,

Cooke, Carr, Smathers, Donnelly, Willcox, Graham, and most of the Scrubs.

The candidates who have so far signified their intention of playing, including the old men, are:

Catchers—Councill, Foust, Noble, Bass, Patterson.

Pitchers—Willcox, Sweeney, Graves, Graham N., Phillips, Hester and H. Irwin.

First base—Holt, Brem and Pritchard.

Second—Cooke, Jacobs and Stephens.

Third—Smathers and G. Graham.

Short—Carr, Cheshire and Worth.

Field—Donnelly, Graham, Henderson, Ahrens, and Hill.

The above is not near a complete list. Every man in college should go out and try. If he does not make the first team he does help to develop it and a good scrub team is necessary for a good Varsity.

Every afternoon now that the weather permits the men are out throwing and batting and this preliminary work is very valuable.

In a future issue of the TAR HEEL we will discuss the baseball records of some of the new men.

In Track Athletics it is also true that the outlook is encouraging. The University is very proud of the brilliant record of our small team at New Orleans last year when they won the championship of the South from the much larger teams of other Southern colleges, and they have no desire to lower the record this year.

Nearly all of last year's team, both Varsity and Scrubs are back and will begin practice before long. Captain Ramsey asks us to request that the candidates go each afternoon to the Gymnasium and indulge in some preliminary work.

Mr. Vonden Steinin will have charge of the training of the men. The Southern Inter-Collegiate Athletic meet will be held this year in Atlanta, Ga., and of course this University will be represented.

The following old men will again take part: Irwin, Ramsey, Councill, Thorpe, Stevens, Berkeley, Bass, Ferrall, Hutchison, Cheshire, Bridgers, Kerner, Calder, Foust, Gant, Hunt and Cov and there will be a number of new candidates.

With the Societies.

Phi Society. Debate. Resolved that women should have the right to vote in municipal elections in North Carolina. The negative side won. Mr. Hassell made the best speech.

Di. Society. Debate. Resolved that the United States should maintain free trade relations with Cuba. The affirmative won. Mr. Barnhardt made the best speech.

Dr. William Duane, professor of physics at the Colorado State Univ. has just been granted a patent for an invention by which 18 telegraph messages can be sent over one wire at the same time.

Northward.

The North is unquestionably the field for our next year's football venture. Such seems to be the sentiment of the student body. The southern games have, with one exception, excited no interest. As preparation for the Virginia crisis the State games have proved useful. These should be continued.

But in arranging the schedule for next season the management should consider the manifest wish of the college to drop such games as are utterly devoid of interest. The University of Georgia is not in our class and we know it. In face of our recent defeat we can easily ignore Clemson. But let us lean toward the North. In Virginia and Maryland we can find plenty of teams that will play with us good, fast interesting games. V. M. I. and V. P. I.; Annapolis and Georgetown; Clemson and U. Va. would make an admirable schedule. Each new game of these would create almost as much enthusiasm as would the annual Virginia game.

Now it is noticeable that none of these teams except Clemson is a member of the S. I. A. A. Membership for us, therefore, in this association would be absolutely useless. Further it would be an incumbrance. For it would impose upon us restrictions not imposed upon our antagonists. The most obnoxious rule would be, and even now is, that which forbids the playing in the first year of men from other colleges. And there would be other galling restrictions. Thus far this association has been always a hindrance, never a help. We were forced into it; we have remained in it unwillingly. It is an abominable nuisance. No better time than now could be chosen for withdrawal. The association is on its last legs; Sewanee and Georgia Tech have been suspended. If Carolina withdraws the decresit S. I. A. A. probably falls to the ground. Thus we should not be hindered from playing the Southern teams at will; if indeed we should wish to play them.

There are fine teams to the north of us; sorry teams to the south. There is interest to the north; there is listlessness to the south. In the S. I. A. A. there is nothing for us; there is everything against us. Let's get out.

S. I. A. A. Bored.

Meeting of the Round Table.

The Round Table had its monthly meeting Friday, January 10, at 7:30 P. M., at the residence of Mr. Wheeler. Dr. H. V. Wilson read a paper on "The Phenomena of Artificial Porthenogenesis." Nearly all of the members of the faculty were present to enjoy this treatise on the birth and life of the lower animals of the sea.

The University of Pennsylvania will probably send another crew to England next year to compete in the Henley regatta.

Law Class Officers.

President—T. L. Wright.
First Vice-president—G. W. Taylor.

Second Vice-president—G. V. Roberts.

Coroner—S. B. McLean.

II make the Alpha Theta Phi.

The following gentlemen have made an average of 90 per cent. on all their work for two and one half years and are therefore eligible to membership:

□ Louis Graves, '02
R. A. Merritt, '02
M. H. Stacy, '02
C. A. Bynum, '03
Milton Calder, '03
A. W. Haywood, Jr., '03
J. H. McAden, Jr., '03
R. C. Marrow, '03
B. F. Huske, '03
W. J. Gordon, '03
R. W. Herring, '03

This large number speaks well for the Class of 1903.

The University of North Carolina.

BY MRS. J. WM. JONES.

'Tis a wonderfully beautiful tree-crowned hill,
Away from the world's mad strife;
Mid classic shades and a grand outlook,
With chapters of interest from Nature's book,
It can tell you a story from life.

Far more than a hundred years ago
A seat of learning was sought,
That the coming youth of our own Southland
Might with the famed of our country stand,
And work where they had wrought.

These sages were led by a Providence wise,
'Neath the "leaning" historic tree;
With wisdom far-seeing they counselled and
planned,

For these noble halls which so proudly stand
As monuments worthy to be.

The sons of the rich and the lowly poor
Alike have crowded its halls,
And have writ far up on the scroll of fame,
From every calling in life, their name,
And their portraits adorn her walls.

So she sits like a queen in her classic shades,
While a mother's grateful pride
Has followed her sons from clime to clime,
And watched their career with love sublime,
Though severed by land and tide.

Notice.

The election of Chief Ball Manager and subs for Commencement of 1902 will be held in the Math. room, South building, January 18th, 1902, at 3:30 o'clock p. m.

Registration will be in the same room on the same day from 10 o'clock a. m. to 12 o'clock m.

M. H. STACY,
President Senior Class.

The University of Michigan has property valued at two million dollars.

SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

With the coming of the new year the University opened its doors for the Spring term. The past year has been a successful one for the institution—perhaps more successful than any since the days before the sixties. In the passing of the old we have seen many material improvements and so it is that with the coming of the new we can hope for greater and more far-reaching progress.

Within the last 365 days the Mary Ann Smith Building has been put up, the Alumni Building completed, steam-heat and water-works introduced into all the buildings, thus aiding in the improvement of the laboratories, where the water supply was insufficient; and last, but not least, the number of instructors and assistants in the faculty has been increased, and two more professorships added. These and many other improvements has signalized the last year as a red letter year in the annals of the institution.

However, we can see the necessity for such improvements only when we consider the growth of the University. The registration books—at this writing—show a total of 568 registered for the Spring term, and there are some on the Hill who have not registered, to say nothing of those yet to come in. From this we may safely conclude that the registration for the term will easily reach something like 580.

This is the largest registration on record at this institution and shows already an increase of about 60 over that of last year. These facts bespeak more eloquently than words the healthy growth of the University.

The TAR HEEL wishes to call attention in this issue to the communication in regard to inter-collegiate debates. As X.Y.Z. says, we—or most of us—do not appreciate the great importance. These intellectual exercises are as much a part of our life as any other contest and all connected with the University should show their interest in them.

In reply to numerous questions the editors wish to say that they are glad to publish in the columns of the TAR HEEL, all communica-

tions of interest. The paper is the exponent of our life at the University and as such it is in duty bound to give space to the expression of opinions that have to do with our life here.

The editors wish to apologize for the late appearance of this issue of the TAR HEEL which was due entirely to the late appearance of the editor-in-chief and the necessity for the filling of two vacancies. We assure our readers that such a delay will not occur again.

A meeting of the Tar Heel board was held in the Y. M. C. A. Saturday last. It was found that Messrs. McRae and Horner, of the board, had not returned to the Hill, which necessitated the election of two new editors. Mr. Peace and Mr. Best were elected to fill the vacancies. The former was assigned to the lecture department and the latter to the local.

Princeton, N. J., Dec. 6.—The eight annual intercollegiate debate with Princeton was held this evening in Alexander Hall, Princeton, N. J., and was unanimously awarded to Yale the judges had been out twenty minutes.

John D. Rockefeller has offered to give \$230,000 to Bryn Mawr College, with the single condition that the institution raises an additional \$250,000 not later than commencement day in June next.

The students of the University of Texas who represent that institution in inter-collegiate debating or oratorical contest are excused from examinations between the time of their selection and such contest.

Three hours after the football game Friday morning the ropes and guard posts were off the field and the baseball bat and mit were in use by a large number of cadets.

How about that for athletic enthusiasm! at Louisiana State University.

Hon. Elihu Root, Sec. of War, has recently changed the regulations governing the admission of applicants to West Point. Hereafter any applicant bearing a college diploma, or a certificate of proficiency from a high school of recognized merit will be admitted to West Point without being required to take the mental examination for entrance hitherto required of all.

Wednesday, at 7:30, Dec. 11, the executive committee of the Vanderbilt Athletic Association met in Dr. Dudley's study. Manager Marshall's report of the foot ball season was the first item of business to be before the committee. His report showed that the total losses on the games were \$344.10, the total gains amounted to \$1,404.50; from the season tickets this department received \$195. The net profits were \$700.

Senator Depew introduced a bill in the Senate last week to establish the University of the United States. It will be for post-graduate work, and make of the Government scientific collection, libraries and laboratories.

The following football captians have been elected for the ensuing season: Yale, Geo B. Chadwick; Columbia, Harold H. Weeks; Lehigh, A. Carnegie Forbaugh; Ha-

verford, Arthur J. Phillips, Wesleyan, W. P. Calder; U. of Pa., W. Gardiner; Princeton, Davis; Annapolis, Belknap; Cornell, Warner; Univ of Wis., Juneau.

We are in receipt of a communication from a old Lehigh football player, suggesting that a vigorous spring practice be instituted, as a partial cure for some of the faults of last year's team. The writer, M. A. Nagle '98 volunteers his services for a week's coaching in the Spring, and expresses a hope that other Lehigh men will make similar promises. The suggestions seems a good one, and we hope to see it carried out.

President Roosevelt has this to say of football: "I don't know whether its because they fight as they play or because they play football as they fight, but certain it is there is a cause and effect somewhere. What ever may be said of brutality of football, it's certain the greatest fighters in the world, come from nations where that rugged, manly game is held in esteem."

Messrs. J. A. McRae and J. W. Horner of the TAR HEEL board will not return this Spring. Mr. McRae is detained on account of the extreme illness of his father. Mr. Horner will be back next Fall to graduate with his class.

Mr. H. M. Robins has been elected to succeed Mr. J. A. McRae as Business Manager of the Yackety Yack.

Mr. W. A. Whitaker will not return this Spring. Mr. C. A. Bynum has been elected to fill the vacancy on the Magazine Board.

Mr. D. P. Stern has been chosen to represent the Phi Society in the debate with Johns Hopkins University. Mr. Stern is a well-informed and powerful speaker.

Messrs. R. S. Stewart and L. L. Parker will be the Junior Commencement orators from the Di. Society.

Mr. C. E. Best of San Antonio, Texas, a member of the '98 Law class, is in the Chapel Hill.

Exchange.

Yale cleared \$70,000 on her foot ball season.

Nearly \$16,000,000 has been given to the colleges of this since the 1st of last June.

For the establishment of a War School at Washington \$1,000,000 has been appropriated by congress.

The first football game played in the United States took place in 1776 between Yale and Harvard.

Harvard, Pennsylvania, Yale or Princeton has never had a single fatal accident happen to any of her foot ball players.

John Hopkins University has a department of the Philippines to prepare men for service in the Philippines.

In all the Universities of France there are no paper, no glee club, no fraternities, no athletics and no commencement exercises.

The University of Virginia scored 270 points to their opponents 48 during the foot ball season just closed.

But one out every 33 student at Harvard receive Phi Beta Kappa honors.

Hazing has been made a criminal offence by the Illinois legislature and offenders may be fined \$590 and sent to jail for six months.

Of 11,000 living graduates of Yale, 9,000 were present at the recent Bi-centennial, representing classes from 1850 to 1901.

The University of Wisconsin cleared \$10,000 from the football season of 1901. \$5,000 was received from the Chicago game alone.

There are 59 students on the University of Chicago Weekly — including editors, reporters and artist.

The Columbia foot ball team cleared between \$1200 and \$1800 this season. This is very encouraging, as it is the first in several years that there has not been a deficit.

At a meeting of the men who had played in the Princeton and Har-

vard games this year, George Brewster Chadwick, 1903, of Brooklyn, N. Y. was unanimously elected captain of the foot ball team for the ensuing year.

Mr. Ray Buckley, manager of the 1905 class foot ball team, was elected manager of next year's Varsity team. Mr. Davis had previously been elected by this year's team as captain of the team of 1902.

Coach Stagg, of the University of Chicago, proposes to measure his foot ball candidate by horse power. Any candidate, to be eligible for the team must show at least two horse power.

COMMUNICATIONS.

The Editors welcome all articles of a timely nature for publication in this column, though they do not hold themselves responsible for the sentiments expressed therein.

On every side is heard the statement that this is an industrial age and that the young man to be eminently successful must fit himself for a business career. We would not gainsay this fact, but we would like to add to it: the people of our day are immensely interested in public questions but most of them are too busy in other fields to study these problems. Hence it is that there is a great demand for men who can master thoroughly matters of public interest and then make their knowledge personal to the people. In other words this is a time in which the spoken word is far reaching in effect, a time in which the man who would control his fellow men must be able to get up before them and impress his thoughts upon them.

Two things are essential to this: he must have thoughts, he must know and know thoroughly what he is talking about and he must have the ability to express these thoughts plainly, directly, forcibly. The powerful speaker of today is not the one who clothes the result of prejudiced thinking in flowery, sense-pleasing words but he is the one who goes at the problem in question in a cold, impartial, matter of fact way, finds its true essence and makes known the results in a forcibly logical manner. The real orator of today is not the spread eagle politician but the pure, hard, scientific reasoner.

It is a matter of a great deal of pride to the Chapel Hill man that the University is developing this sort of speakers, men who say something only when they have something to say and then say this well. The medium through which these speakers are trained is a debating system which though not perfect is in many respects unequalled in the whole country. The height of our system is a series of debating contests with three of the leading Universities of the South. The position that our debating system in general and our intercollegiate debates in particular occupy in the life of the University is not appreciated by the student body and with a few exceptions (but these are notable ones) it is not even recognized by the faculty.

We contend that these intercollegiate intellectual contests should occupy just as important a place in our college life as intercollegiate athletic contests. Certainly this much. Now we would not say one word against athletics, we believe in it and have often cheered our teams on but we believe that the intellectual gridiron and the forensic diamond are entitled to equal consideration, we believe that our debaters ought to be cheered on, that they ought to have the moral if not the vocal support of the entire student body.

Now one word as to what these debates mean to the University. In the first place they bring the University into greater prominence. They show the sort of work that the University is doing. That this work is of the very highest character is evidenced by the fact that we

have won five out of seven contests and in each of the other two we had the vote of one member of the committee. The people of North Carolina are learning through these contests what the University really is and what it is really doing.

But these contests do more, they supply a long-felt need of the State: they furnish training and development that make the sort of men that the State needs and need badly, men who can look economic problems squarely in the face and treat them as such, men whose intellectual creed is not the edict or hard and fast doctrine of any person or party but the results of their own study and search after truth. The State must have men who can speak and speak with authority on the economic questions. The University produces such men and they get their training in these intercollegiate debate. So it is that the highest possible honor in a University career is for a man to have Intercollegiate Debater appended to his name. This title stands for as much hard work, diligent appreciation, successful result, future usefulness as anything in the College Directory. Then lets get behind our debaters and lets push them on to success, lets show them that we appreciate what they are doing. Lets assist them in winning from Georgia, from Vanderbilt, from Johns Hopkins.

X. Y. Z.

A Freshman's Parting Plea.

Dearest of all the world to me,
Dearer than can dearest be,
In truth by far—
Sweet as the lilly of the vale,
Cute as the daisy of the dale,
Indeed you are.

If a'l your praises I should sing,
Then my voice would have to ring
Throughout ages.
So what I now do wish to say
Shall be written in this lay
Of two pages.

If you love me, little dear,
Can you not without a fear
Grant me this?

Ere I return to Chapel Hill,
Will you give me with free will
Just one good kiss.

Remember, sweet, that you can give
What will make me sure to live
At school in joy.
You will give it; on you I'll bet—
If you won't, why don't forget
Your "dear old boy."

—P. A. X.

According to the custom each of the Literary Societies recently elected a representative, and the two will represent the University in the coming Vanderbilt Carolina debate.

The Philosophic's choice was Mr. W. M. Board, of Kentucky, and the choice of the Dialectic fell on Mr. Frank Seay, of Alabama, both gentlemen spoke in the recent Thanksgiving debate and showed great ability as speakers. They will undoubtedly make a team one hard to be downed by the Tar Heels.

At Columbia University 40 per cent of the students earn a portion of the money necessary to take them through. Ten per cent earn half of their college money, and about five per cent earn the whole sum, including living expenses.

Cornell University Medical College. New York City.

The session begins each year during the first week in October and continues eight months.

The course of instruction covers four years, but students who present credentials from accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations in those subjects which have been completed in previous years.

The essential features of the curriculum are—the daily recitations in small sections, the thorough laboratory instruction, and clinical and bedside teaching in dispensaries and hospitals by members of the faculty.

In the College building is a dispensary in which about 50,000 patients are treated yearly.

The facilities offered by the many large hospitals in New York are utilized to the utmost to familiarize the student by personal observation with the diagnosis and treatment of disease. Bellevue Hospital, the largest of all the city institutions, is directly opposite the college building. The circular of 1901-02 giving all details will be mailed on application to Wm. M. POLK, M.D., L.L.D., Dean, CORNELL UNIVERSITY MEDICAL COLLEGE, First Avenue and 28th Street, New York, N. Y.

THE TAR HEEL.

Vol. 10,

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., January 23, 1902.

No. 13.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

Will Establish A Medical College University Trustees Decide to Have it at Raleigh.

DR. HURBERT ROYSTER DEAN

The Faculty Embraces Leading
Physicians of Raleigh.

NEW PROFESSORSHIP OF
ENGLISH.

Dr. C. Alphonso Smith Elected. A
New Assistant Professor of
Botany in the Biological De-
partment will be Elected.
Other Progressive
Steps.

The trustees of the University took three important steps yesterday in the line of progress and expansion. They were:

1. The establishment of the University of North Carolina College of Medicine in Raleigh with Dr. Hubert A. Royster as dean.

2. The division of the department of English into two departments—English Literature and English Language. Dr. Hume retains the chair of English Literature and Dr. C. Alphonso Smith was elected to the chair of English Language.

3. The strengthening of the department of Biology by the election of an assistant professor at a salary of \$1,000.

Less important, though still important, were other steps taken.

The trustees met at the Executive Office at noon and were in session two hours and a half. The report of President Venable showed the University to be in a healthy condition in every way. The new heating plant, the new water supply, electric lights and power, and the sewerage system have added to the comfort and health of the students, as well as lessening the danger to their health and the danger from fire at the buildings. These physical improvements make it easy for the student to attend chapel in the early morning as well as the recitation later in the day. For the first time in its history the University building are properly equipped for comfort.

The enrollment—565—is the largest in the history of the University. The Mary Ann Smith building affords room for 65 more students, but there are still more than 100 students who have to room in the village. Commons Hall, where about 140 students board, is self-supporting. The Alumni building, now occupied, gives the long needed class rooms large enough for the growing classes. The faculty is united in abundant labor for the prosperity of the University. Dr. Venable made touching reference to the death of Mr. Eugene L. Harris, registrar, who afflicted by a malady

that brought him to his death, worked until the day before his end for the institution to which he had always been deeply attached since graduation. He had been succeeded temporarily by Mr. Wooten, who will be continued. Allusion was also made by President Venable to the death of ex-President Solomon Pool and Mr. Elihu White, a trustee.

President Venable recommended that the department of English be divided, and Dr. C. Alphonso Smith a native of Greensboro, now professor of English in the University of Louisiana, was elected to the chair of English Language. He is the best scholar of this age in any Southern University and trustees were glad to add him to the strong faculty, thus making the English Department equal to the large endowed universities.

Dr. H. V. Wilson, professor of Biology, was granted one year's leave of absence. Dr. Wilson is an American expert on sponges and has engaged to prepare an important paper for Harvard University and the United States Government. To do this he will need a visit to Europe. He will put a capable man in his place during his year's absence. Under his enthusiastic teaching this department has grown until there is no need of an assistant professor of Botany. It was decided to add to a new assistant professor of Botany to be elected at the June meeting of the board of trustees.

Mr. Palmer Cobb, of the Modern Language Department, was advanced to the position of instructor.

The most important steps taken was the decision to establish the University of North Carolina Medical College at Raleigh. President Venable presented the plan which he and others had matured and urged that this advanced step be taken. After long discussion of the plan in all phases, the recommendation of President Venable was adopted and the following members of this faculty were chosen:

Hurbert A. Royster, Dean and professor of Gynecology.

W. I. Royster, Professor of Medicine.

A. W. Knox, Professor of Surgery.

R. H. Lewis, Professor of Diseases of the Eye and Ear.

K. P. Battle, Jr.—Professor of Diseases of the Nose and Throat.

The other members of the faculty, associates and assistants, will be chosen by the Executive Committee.

Steps will be taken for the improvement of the 50 acre campus of the University and President Venable was authorized to employ a Superintendent of Building and Grounds at a salary of \$500. He will select Mr. James C. Taylor, of Chapel Hill.

The Governor was empowered to appoint a visiting committee of the members to visit the university and make a report to the June meeting of the trustees.

Dr. R. H. Battle secretary and treasurer of the board, made an exhaustive report, showing the investments, etc., of the endowment of the University. The showing was a gratifying one. The only investment that is regarded as doubtful is the \$6,000 invested in Stanley County bonds, which are now the subject of litigation.

The following were present: Governor Aycock, President; E. M. Armfield, of High Point; C. T. Bailey of Raleigh; R. H. Battle of Raleigh; V. S. Bryant, of Durham; J. S. Carr, Durham; Josephus Daniels, of Raleigh; B. F. Dixon, of Cleveland; W. A. Guthrie, of Durham; J. W. Graham, of Orange; A. W. Haywood, of Alamance; T. S. Kenan, of Raleigh; T. J. Jerome, of Union; P. B. Means, of Cabarrus; D. H. McLean, of Harnett; Fred Philips, of Edgecombe; N. A. Ramsay, of Durham; Z. V. Walser, of Davidson; J. W. Wilson, of Burke; S. O. Wilson, of Wake, and President F. P. Venable.

"Mathematics Historically Considered," by Prof. Wm. Cain.

Thursday night, January 16th, in Gerrard Hall, Prof. Cain lectured before the student body on "Mathematics Historically Considered." From beginning to end he held the close attention of his audience and gave much information on this subject so important in every day life. He spoke in part as follows:

"When I contemplate the development of mathematics in the dim past and trace its growth through the ages, amongst scattered nations of every clime, ever moving on to greater achievements, I am reminded of some great river whose source is in the mist-covered mountains where it leaps and eddies and foams as it pursues its way over crag and precipice, or murmurs sweetly along the moss covered banks gathering force as it advances, winding through verdure covered hills or pleasant valleys, anon almost disappearing, but farther on gathering more strength it sweeps grandly on through the plains to the ocean. Such progress has characterized the growth of mathematics since the time of Pharaoh.

Progress in any science is dependent upon a good notation. The Greeks who led the world in Geometry failed to make progress in Arithmetic and Algebra on account of a bad notation. When the Arabic notation came into use in the fourteenth century Arithmetic and Algebra began to take a rank with Geometry.

Some people have such little mathematics that they cannot even count. An African once had two sheep valued at a bundle of tobacco each. An Englishman gave two bundles of tobacco and carried off the two sheep. The African doubted the correctness of the transaction, had the sheep returned and then traded each sheep separately.

Later on people counted on the abacus, the counting board. It was not until the seventeenth century when decimal fractions came into use that decided progress in the theory of numbers seemed possible.

But we are now bound in the fetters of the ancient base of ten and the sexagesimal division of the circle apparently for all time and are slaves to these adoptions of the Babylonian conventions of four to five thousand years ago.

After the defeat of Xerxes Athens became the seat of learning. It was Plato, the Athenian, that placed over his porch the inscription, "Let no one who is unacquainted with Geometry enter here." Plato has been called the maker of mathematics. Euclid's fame rests chiefly on working over the material of others. Archimedes and Aristotle also added much to the science. About the fifteenth century the signs minus, plus, and equal came into vogue. From then on great strides were made in this branch of science.

If those men who spend much time in combatting the theories of Euclid would turn their attention toward solving some of the many problems before us today the world would be better because of their lives. Mathematics is essential in Astronomy, Physics, Chemistry, Architecture and other sciences. It is a key to external nature.

Election of Ball Manager.

The election of Chief and Sub Ball Managers for Commencement was held in the math room on Saturday.

The following were elected:

A. M. Carr, Chief.

Subs.

T. L. Gwyn, F. H. Lemly,
G. H. Andrews, J. S. White-

head,
J. E. Cocke, A. T. Pritchard.

With the Societies.

Phi Society: Resolved, That the natural monopolies should be controlled by municipal government. The negative won. Mr. Winston made the best speech.

Di Society: Resolved that the present pension system should be abolished. The decision was given to the affirmative. Mr. Gold won the best debate.

Perhaps the Harvard student who won a three-dollar bet by getting on the outside of three beef-steaks, two mutton chops, two dishes of peas, two cups of coffee and two pints of water at a single sitting is working to receive the degree of D. Ph. at the next commencement season.

Johns Hopkins University has a department of Philippines in which men are prepared for service in the Philippines Islands.

The Harvard undergraduates are trying to arrange an international debate between Yale and Harvard on one side and Cambridge and Oxford on the other.

Payable IN ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

Our baseball schedule for this Spring has already been given to the public. Lack of space prevented our speaking of this in our last issue. The schedule is an admirable one and reflects much credit on the management. Nearly all of the old men have returned and there seems to be an abundance of new material. It is of course impossible to form a definite idea of what sort of team we will have this Spring but if present indications count for anything, Lehigh, Cornell, Virginia and each of the others may well look to their laurels.

Regular practice has not as yet been started but will begin in a few days and as many of the students as possible should attend regularly these practice games. This is the duty of every one of us. Let no one think himself exempt from its performance. Each should make a resolution now to come out regularly and encourage the men in their work. If we cannot play baseball ourselves, we can at least help in the development of our team by our presence and our voices.

At the same time let us not forget the other branches of our athletics. Basketball and Hockey practices occur regularly and it will be only a short time before track team work will commence. All who are able, or who desire, to take part in these sports should see the proper authorities at once.

In our last issue we spoke of the growth of our institution during the past twelve months and expressed the conviction that even greater steps would be taken during the year just entered upon. Already we have sure evidence that our convictions were well grounded.

During the past week a meeting of the trustees was held in Raleigh at which meeting several important steps were determined upon. On another page we publish an account of the proceedings taken from the "News & Observer" of January 17. The report of our President, Dr. Venable, at this meeting shows the University to be in better condition than ever before. We indeed have much cause for rejoicing.

Already three attempts have been made to take the Freshman class

picture. It is to be hoped that in the end one will be secured that will suit even the most fastidious member of that class besides meeting with the approval of their guardians the Sophomores.

Y. M. C. A. NEWS.

Weekly Meetings Increasing in Interest.

The weekly meetings of the Y. M. C. A. held on Tuesday nights at the Chapel are increasing in interest since Christmas. Not only in these weekly devotional meetings but in all parts of Y. M. C. A. work does there seem a renewed interest.

In order that the faculty may come in closer touch with the work some members of the faculty will occasionally be asked to conduct the devotional meeting. During the coming three months, however, some member of the faculty will lead in the devotional meeting every other Tuesday. In other words, during the next three months the faculty will alternate with the students in leading the meetings. It is hoped that a large number of students will attend these devotional meetings this Spring.

A large number of students are now engaged in country Sunday School work. A new Sunday School will be organized next Sunday about two miles east of Chapel Hill. Several students have already agreed to take charge of this work.

At a recent meeting Mr. W. H. Mann was elected treasurer in place of Mr. R. M. Harper who, on account of being chairman of the devotional committee, was compelled to resign. The present officers of the Association are: A. D. Ivie, President; Z. V. Judd, Vice President; C. A. Bynum, Recording Secretary; G. P. Stevens, Corresponding Secretary; W. H. Mann, Treasurer.

The following new committees have just been appointed:

Devotional—R. M. Harper, Chas. Ross, J. V. Howard.

Bible Study—F. A. L. Reid, A. W. Grady, F. T. Raney.

Foreign Missions—L. R. Wilson, J. K. Ross, R. W. Herring.

Local Missions—G. M. Garren, C. A. Bynum, H. R. M. Fadyen.

Rutgers College Chapter recently presented a gold Phi Beta Kappa key to President Roosevelt. Roosevelt is the fifth president who has held membership in this honorary fraternity, the other being John Quincy Adams, Pierce, Garfield and Arthur.

A scheme is being considered by the authorities of the American Rowing Association to hold the regatta at Poughkeepsie a month earlier in the spring than formerly, and every year, to send the winner of this American event to Henley, to row the crack English crews.

A Southern Club has been organized at the University of Chicago whose object is to keep the southern students in touch with one another.

Since 1883 Yale and Harvard have played 15 games of football. Of these Yale has won nine, Harvard four, and two resulted in tie scores.

Locals.

Prof. Raper is able to meet his classes after a long illness. Mr. Cobb is yet unable to be out,

Mr. Walter Cain '04, left for Philadelphia last week to have his eyes treated.

Dress suits for rent for all occasions—E. D. Sallenger at Mr. S. M. Barbee's.

Mr. J. R. Rountree resigns as editor of the Magazine. Mr. J. B. Ramsey succeeds him.

Messrs. F. S. Hassell and R. O. Everett will be the Junior Commencement speakers from the Phi Society.

Messrs. A. M. Carr and G. L. Jones will be respectively Chief Ball Manager and Chief Marshal for Commencement. Both of the gentlemen were elected without opposition.

The One Thousandth Anniversary of King Alfred will be celebrated in Gerrard Hall at 7:30 P. M. Thursday evening, Jan. 23rd. The meeting of the Shakespeare Club announced for this week will be substituted by these exercises. Dr. Hume will give an address on "Alfred the Teacher—King" and Judge McRae on "Alfred the Law-Maker."

Rev. Dr. C. S. Blackwell of Wilmington, is the University preacher for January. Dr. Blackwell is one of the foremost Baptist preachers of the State and the University is quite fortunate in securing him. Dr. Blackwell has a son in the class of '05.

Prof. Collier Cobb and Dr. J. H. Pratt read interesting papers before the Elisha Mitchell Scientific Society, Tuesday evening.

Miss Alice Jones, 1900, who is now one of the teachers at St. Mary's School, Raleigh, is visiting friends in Chapel Hill.

Elisha Mitchell Scientific Society.

The Mitchell Society met Tuesday, January 21st, in the Chemical Lecture room. Dr. Pratt gave a list of minerals that had been found for the first time in North Carolina and not before been mentioned. These were:

Martite, a variety of Hematite from near Spruce Pine, Mitchell county.

Spinel Ruby, from Third Creek, Iredell county.

Green Prase, a variety of quartz from Skeener Gap, Macon county.

Tenorite, from Gold Hill, Rowan county.

Arragonite, from Corundum Hill Macon county; Buck Creek, Clay county; and Carter Mine, Madison county.

Stilbite, from Zirconia, Henderson county.

Fuchsite, a green variety of muscovite mica, from Egypt, Yancey county and Buck Creek, Clay county.

Linwite, from the Silver Hill Mine, Davidson county.

Gypsum, from Paint Rock Creek, Madison county.

Prof. Cobb reported: *Prase*, (green quartz) with included crystals of black tourmaline, from one mile south of Franklin, Macon county.

Hausmannite, and *Braunite*, from Liberty, Randolph county, and Siler City, Chatham county.

Branite, from Hilltop, Surry county.

The principal paper of the evening was by Dr. Pratt on the Mineral Resources of Arizona.

A copy of this paper will appear in next week's issue of the *Tar Heel*.

(Continued from 4th page)

the line. 16. If ball goes over goal line outside the goalposts it shall go as a bully at the twenty-five yard line provided the attacking drove the ball over. If the impetus came from the defending side the ball shall be played from a point one yard from the corner by a free hit by the attacking side.

The first game in the series for the intercollegiate hockey championship was played last night between Yale and Princeton, at the St. Nicholas Rink, New York City. It resulted in a score of 7 to 0 in Yale's favor.

The Harvard Football Association will award black sweaters with "H21" to 14 men who played on the second team last fall.

"Now do you understand?" shouted the infuriated professor, as he hurled the ink bottle at the exasperating student.

"I think I have an inkling," the bespattered student replied.

HOCKEY.

The first game of field hockey was played Monday afternoon ending with a score of 8 to 3. The men lined up seven on a side and kept the ball moving from "bully" to "goal". Some good playing was done altho it was the first trial at the game, Council scored several goals, Groome did some pretty passing while Whitehead and Johnson's playing was characterized by the enormous amount of energy expended in trying to drive the ball the entire length of the field. This game will be played at the foot ball field Mondays and Fridays at 4:45. It is hoped that more will provide themselves with sticks and come out. The game can be learned in a few moments. Following are the rules:

1. Grounds shall be 110 yards long and not more than 60 or less than 50 yards wide.

2. From center of each goal line within a radius of 15 yards, shall be drawn an arc of a circle—this space shall be called the striking circle.

3. Goal is same as football.

4. Ball shall be an ordinary cricket ball.

5. Sticks must be able to pass through rings three inches in diameter. They shall not be more than one inch thick and shall be of wood without metal fittings.

6. Players shall not wear metal spikes in their shoes.

7. Game shall be played by two teams of eleven men each or such a number as the captains decide. Men are designated as advance forwards, forwards, advance guards, guards and a goal tend.

8. Game shall consist of two 35 minute halves with ten minutes intermission and shall start by a bully from the middle of the field with all players on side.

9. A goal is scored when the ball has passed between the goal posts, beneath the cross bar, and entirely over the goal line, provided the ball has been struck or glanced from the stick of a player or person of a defender while in the striking circle.

10. Ball may be stopped with hand or any portion of the body; but must not be held, picked up, carried, kicked, knocked on or back except with front of stick.

11. Charging, tripping, kicking, collaring or shining shall not be allowed. A player shall not go between the ball and his opponent.

12. Goal tend can kick the ball.

13. All strokes in striking must be from right to left. The stick must not during any portion of the stroke rise above the shoulder. Fencing or hooking sticks is allowed when one player is within striking distance of the ball. The backs of the sticks shall not be used for stopping or striking the ball.

14. A free hit is given for all violations of rules except within the striking circle when the penalty is a bully. When a free hit is made, the offending side shall be at least 5 yards away.

15. When ball goes out of bounds it shall be rolled in at point where it went out by player of opposite side to last one playing it within the lines. All players shall be outside and not less than five yards from

Cornell University Medical College. New York City.

The session begins each year during the first week in October and continues eight months. The course of instruction covers four years, but students who present credentials from accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations in those subjects which have been completed in previous years.

The essential features of the curriculum are—the daily recitations in small sections, the thorough laboratory instruction, and clinical and bedside teaching in dispensaries and hospitals by members of the faculty. In the College building is a dispensary in which about 50,000 patients are treated yearly.

The facilities offered by the many large hospitals in New York are utilized to the utmost to familiarize the student by personal observation with the diagnosis and treatment of disease. Bellevue Hospital, the largest of all the city institutions, is directly opposite the college building. The circular of 1901-02 giving all details will be mailed on application to Wm. M. POLK, M.D., LL.D., Dean, CORNELL UNIVERSITY MEDICAL COLLEGE, First Avenue and 28th Street, New York, N. Y.

No. 14.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

ANNIVERSARY CELEBRATION

Of King Alfred—Addresses by Dr. Hume and Judge MacRae.

In the place of the regular meeting of the Shakespere Club announced for Jan. 23rd, the celebration of the one thousandth anniversary of King Alfred was substituted. Dr. Hume gave an address on "Alfred the Teacher-King"; and Judge MacRae, on "Alfred the Lawmaker." Both addresses were highly entertaining and very instructive.

Dr. Hume said in part:-

"This is the Alfred memorial, which should have been in November, but having been put off we come tonight to commemorate the great King. In the time of pillage and warfare, he was truly a literary man. Alfred, the son of Egbert, was born amid the chalk hills of Berkshire. His early education was not cared for except by his good mother, as Egbert's time was fully occupied with duties as priest and statesman. Very early in life, he had a deep sense of the spiritual, and at the age of 5 years, the king of Rome called him "Little King."

"Alfred was the fulfiller of all his race; he was the best man of his time. While Ethelred was in his tent praying, Alfred was fighting the enemy, for to him, to fight was to pray. He became king at the age of 20. Saxony, not yet England, was the home of many a cultured man that was deeply under the influence of Christ. Alfred drew the lines closely about him and subdued the heathen Danes. But they were too fierce to remain subdued and ever and anon they arose against him. Yet, notwithstanding all, Alfred triumphed over them in the end."

"King Alfred was a man of visions, he was remarkable in literature, as well as a great patron of missions, sending missionaries to India."

"After another siege by the Danes, peace reigned for about five years and then it was that Alfred became the Teacher-King. The monastery schools that gathered about Winchester were the germs of the great University at Oxford and the other schools of England. Alfred began his work by translating Latin for his people. He believed in a man's showing his worth by his deeds. He said, 'This was the beginning of English prose.'"

Dr. Hume concluded by saying that Alfred, as the rounded up man was, on the whole, like Washinton and Lee. He was a man of God, and had so much to do in making the English roce, that it is fitting that we celebrate his anniversary."

Judge MacRae, in speaking of "Alfred, the Lawmaker" said among other things:-

"I propose to give a very rapid sketch of the beginnings of the reign of law in Britain and the part that Alfred took in the laying of its foundations. Although our symposium is supposed to carry us

back to the earliest days of British history, a thousand years ago: Britain has as long a story before the time of Alfred as it has since. Its pre-historic annals are delineated on the rough stones and the smooth stones, and the bronze implements of its successive inhabitants."

Judge MacRae began with the Cave Dwellers of the earliest time who had no law but that of nature; with whom the law of property was that of appropriation and possession. After the Cave Dwellers came the villagers, the first community life, who owned their tracts of land as long as they kept them in use. About 500 B. C. came the people of the Age of Bronze. They were miners and traders, for in their time were the first traces of commerce with Carthage and Phoenicia. Following them about 50 B.C. Ceasar first took the Roman Legions to the coast of Britain. He found the people of Celtic blood, there divided into petty kingdoms, and with some show of law and government. The Romans, who carried a law and government with them, had to fight their way into the island inch by inch. The conquered shared in the fame and were exalted by the splendor of the victors. The rule was harsh or mild according to the temper of the ruler, but it was the rule of Law.

When the Romans were called home to defend their city against Alaric, the Britons had to turn to the fierce tribes of Northern Germany for succor. First came the Jutes to help them and in their train came the Angles and the Saxons, the heralds of a race, which is about to overspread the world. They drove back the Picts and Scots, and then turned their arms against the inhabitants in whose defence they had come. The eastern half of Britain became the country of Englishmen, in the end of the sixth century, and from this time the island was known as England.

"Guthrum, the Dane, with another horde of heathens raised up Alfred. Who, though not the legitimate successor of his brother Ethelred, was chosen king of Wessex, the man raised up for the occasion. And if not by him, surely under his influence, the raising of the Kingdom of England, over which, from Edward 1st, 901 A.D. to Edward 7th 1901 the same blood has flowed in the veins of him who is called, by the Grace of God, King of England."

"It was in 871 A.D., the darkest hours of the dark ages, that Alfred came to be king. But he shines greatest as the King who united Kingdoms and set up the law over all. He collected all that had gone before in the manner of customs, or laws, and recorded them in his Dom boc, or code, the Common law of England. He re-established civil government; prepared the division of the kingdom into Counties, Hundreds and Tythings with a view to the establishment of a more com-

plete system of police and the efficient administration of justice. From these beginnings we have our counties and townships of today. He is said to have established trial by jury and the Grand Jury system in some primitive way, and we have them still. And they are the very palladium of our personal security and liberty. It was from Alfred that we got our idea of High Court of Justice with its several divisions.

"Alfred's Dom boc or Code of laws was the first compilation of the laws of England. He was the first Christian law-giver of the Anglo-Saxon people. Government by law was first systematized by him. It was said of him that he once hanged forty judges for inefficiency or corruption. This may reasonably be doubted for he probably did not have so many as forty judges. This custom of hanging judges has long since been discontinued, though there really was a Chief Justice sentenced to be hanged in the time of Edward 3rd. We have too much use for Judges to hang them: the severest punishment now is loss of office by impeachment.

"But whatever he did, the memory or tradition of Alfred will ever remain as a great man, a Christian scholar, a brave general, a wise judge and a good king. So, after 1000 years of evolution from the low species of the human race, the Cave Dwellers of the rough Stone Age, without government at all, it was for him to settle the law upon the basis of the decalogue and the Golden Rule, and for another 1000 years it has grown and strengthened through all its chances and changes, from the little kingdom of Wessex in the heart of the island of Britain to the English speaking people through all the world."

Dr. Pratt's Lecture.

Arizona is the third State or Territory in the production of copper, and in 1901 she produced 24 per cent of all the copper produced in the United States which was approximately about 116,000,000 pounds. The gold produced in Arizona amounts to nearly \$2,500,000 while the silver is about \$400,000. All the gold, silver and copper mines are for the most part in the same general belt which extends diagonally across the Territory from the S. E. corner in a northwest direction and varies in width from 50 to 150 miles. The constant rock formation of this belt is a carboniferous limestone which is either directly associated with the ore deposits, or in close proximity to them. Some of the best copper deposits have the limestone for one wall. The limestone has played a very important part in the deposition of the ore deposits, and on account of its being readily soluble in the ore-bearing solution, it has gone in solution in them and aided in the precipitation of the metallic sulphides which have in turn filled up

the cavities left in the limestone. In this way there has been formed large pockets of very rich ore extending into the limestone. The copper ores that are being mined are largely oxydized and many of the mines are worked for years before the oxydized ores are exhausted and the sulphides encountered.

The copper mines of Arizona can be divided up into five districts known as the Bisbee in the southeastern part of the Territory where are located the mines of the Copper Queen Consolidated Mining Co.; the Clifton District which is near the east side of the belt and which includes the mines of the Arizona Copper Company and the Shannon Copper Company; the Globe District which is nearer the west side across from the Clifton in which are located the mines of the Old Dominion Copper Company; the Troy, a new District that has come to the front during the past few years and which is still further to the west; and the Black Range District containing the principal mines of the United Verde Copper Co. which is controlled by Senator Clark of Montana, which is toward the northern end of the belt.

Many of the gold mines are entirely within the igneous rocks as granite or porphyry and many of these are true fissure veins. One vein specially that was examined was that of the Socorro Mining Company located in the Harquahala Mountains in Yuma County. This vein was almost ideal in its construction. It had been opened by an inclined shaft for a distance of 244 feet and in that distance it was practically constant in its dip of 24°. It had a selvege of kaolinized material on both sides which is also constant throughout its entire distance;

Although Arizona is often spoken of as a dry, arid country which is incapable of producing agricultural products, this is a very decidedly wrong impression, for wherever water can be brought to the land it is at once demonstrated that it is a very rich and fertile soil, capable of producing abundantly almost any crop. A great deal of land is being brought under cultivation by means of irrigation, and, if government aid could be obtained so that reservoirs could be built in which to store the water which falls during the rainy season, which might be said to last anywhere from three days to three weeks, a great deal more land could be cultivated and thus redeemed.

The resources of Arizona are many and varied and it is not at all improbable but that in another generation a considerable portion of what is now called a desert, will be under cultivation and become fields of alfalfa and corn and gardens and orchards of all kinds of vegetables and fruits. This will be due largely to the development of the mineral resources which will increase its population and thus make a home

SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

In another column of this issue appears a communication in regard to our college publications. The work on the annual was begun last Fall—much earlier than usual and every effort is being made by the management to make this the success it should be.

There is no reason why we should not have a good annual in every sense of the word—not that we have not had such before—but the great fault with them all is the almost total lack of anything that might be called literary. They have with few exceptions been merely a record of class and society statistics with an addendum of a few jokes or "drags." These features, while essential, by no means comprise all the necessary elements which go to make up a representative publication such as our annual is designed to be.

This fault we hope will not be apparent in our coming YACKETY YACK. We can see our reason in it for surely in an institution as large as ours there are some—nay many—who have literary ability. The great trouble as stated in the before mentioned article, lies with the students. We must attribute it to one of two reasons,—disinterestedness or laziness. Our patriotism and the desire engendered by it to promote the interest of our University in every possible way should exclude the first reason. We hope therefore that the second is the real cause.

In order to have a good annual, one such as is gotten out by the students of other institutions of size and rank that will compare with ours, we must throw aside this apathy and help the editors in this work. If our love for our University is insufficient to bring about such a result, there are inducements held out by the management. No time spent in writing for this publication will be lost. There is an honor to be gained, and above all you will be helping the Institution we all love, by making the annual thoroughly representative.

But in making this appeal for the cultivation of a literary spirit here we desire to add a few words in regard to the other publications. The Annual is not the only one

which has felt this need. We speak from personal experience when we say that it is the same with the Magazine and the Tar Heel. As the time for the appearance of these publications draws near there is constant strain upon the editors to find sufficient worthy material. This lack of literary effort is of course felt more by the Magazine, confined as it is to articles of this nature, than by our weekly. But we of the Tar Heel have likewise a complaint. There is little or no interest displayed on the part of the students and faculty in our efforts and absolutely no assistance given us. If the paper does not come out on time there is complaint of its late appearance while if it does the material it contains is surely criticized. While we appreciate as much as any, our faults, we would suggest that those who spend their time in thus complaining would use it in rendering us the assistance so common at other institutions we would be enabled to get out a much better publication.

With the Societies.

Di Society; Debate, Resolved, That the boycott system is justifiable. The decision was given to the negative. Mr. Parker made the best debate.

Phi Society; Debate, Resolved, That North Carolina should have a compulsory school law. The affirmative won. Mr. Cooley made the best speech.

The Department of English of Syracuse University is preparing a production, "Taming the Shrew" to be given sometime in the spring.

The faculty of the University of Illinois has voted to give debaters credit of three hours per term for work done in contest.

The Texan, the weekly of the University of Texas, has 17 editors on its staff.

John D. Rockefeller gave the University of Chicago a check for \$1,000,000 as a Christmas present.

The Athletic Association of the University of Pennsylvania is considering the advisability of flooding "Franklin field," so that it may be used during the winter as a rink for hockey, a sport which is annually becoming more popular at Pennsylvania.

The Massachusetts Society for the Prevention of Cruelty to Animals has started a crusade against football. One of the objections urged against the game is that 25,000 people yelled themselves hoarse for five hours over a recent game where the players fought like fiends in their effort to win, and after it was won the enthusiasts kissed women promiscuously on the streets. Now are the players, the rooters, or those promiscuously kissed women the animals for which protection is desired?

The Senior class at Harvard has elected a colored man, R. C. Bruce as class orator. Bruce is the son of B. K. Bruce, formerly Senator from Mississippi, and register of the treasury. He is one of the best orators and debaters that Harvard has ever had.

(Continued from 1st page.)

market for agricultural products. In commenting upon Dr. Pratt's paper, Prof. Cobb called attention to the arid land work of the U. S. Geological Survey, in exploiting the water resources of this region, which had made mining on a large scale possible and profitable. He related a number of incidents illustrating the difference in conditions there in 1888 and 1902. He read a letter from President Tift of the University of New Mexico calling attention to the statehood enabling acts for New Mexico and Arizona now pending in Congress, and especially to the clause relating to public lands to be given to the University. The University desires at least four hundred thousand acres, and all mineral as agricultural rights, instead of one hundred thousand as in the act.

Locals.

Judge Walter H. Neal of Laurinburg, who has been holding court in Durham, spent Saturday on the Hill with Judge MacRae.

The students from Mecklenburg County will please meet in the Chapel at 2:15 Sat. afternoon.

Mr. R. R. Williams has been chosen to represent the Di Society in the debate with Johns Hopkins University. Mr. Williams is an experienced debater and has a thorough understanding of his subject.

Mr. J. L. Morehead spent Saturday in Durham.

Mr. Graham Andrews spent Sunday in Raleigh.

Chas. Baskerville Jr., spent Saturday in Raleigh.

Supt. D. Matt Thompson of the Statesville Graded Schools spent Sunday in Chapel Hill with his son D. S. Thompson.

Supt. Graham of the Charlotte Graded Schools spent Saturday on the Hill with his three sons.

Mr. G. L. Jones, who was unanimously elected Chief Marshall for commencement of 1902 has appointed as his subs. Messrs. Smathers, H. P. Stephens, J. R. Rountree, J. J. Skinner, B. Urqhart, D. Z. Cauble.

Sunday night, January 26th, in Gerrard Hall, Rev. Dr. C. S. Blackwell, of Wilmington, delivered the regular monthly sermon for the University. On account of the sermon will be given in the next issue of the Tar Heel.

Dr. Blackwell returned to Wilmington Monday. He was the guest of Dr. Hume while on the Hill.

Dr. Baskerville was accompanied by ten members of the class in Industrial Chemistry to visit The Caraleigh Acid and Fertilizer Works, at Raleigh, last Saturday. Those present were Messrs. Andrews, Bennett, Calder, Cauble, Ellington, Haywood, Holland, McAden, Stevens, and Wainwright.

"Speaking about the man who painted fruit so naturally that the birds came and picked it," said our artist, "I drew a hen that was so true to life that after the editor threw it into a waste basket, it laid there."

(Continued from 4th page.)

that these are as much our representatives as our College Debates, and far more fittingly representatives of a college than are athletic teams. We are now not taking our rightful place among the leaders in college literature, but there is every reason why we can. In justice to ourselves, we should remove this reproach from the old University at once.

The TAR HEEL wishes to get representative college feeling on current events. The MAGAZINE wishes to publish the best literature of every kind, that may be written here. The ANNUAL puts in its plea for short, pointed stories, poetry, and the like, founded on college life, and for illustrations, according to the list published in a former issue of the TAR HEEL. The ANNUAL is published "by the students for the students,—let all join and make it a literary and artistic success that we may be satisfied to have represent us anywhere.

The annual Harvard-Princeton debate will be held on March 28 at Cambridge.

Columbia will probably adopt the Alumni system of foot ball coaching next fall.

Harvard, Pennsylvania, Yale and Princeton have never had a fatal accident happen to any of their foot ball players.

COMMUNICATIONS.

The Editors welcome all articles of a timely nature for publication in this column, though they do not hold themselves responsible for the sentiments expressed therein.

Communication.

It is a queer thing that we have here, known as our College Spirit! It is the mildest mannered spirit that ever existed. It does not spend itself in loud proclamation of its existence; on the contrary it usually lies most unobtrusively dormant. It is this queer habit that has led some would-be reformers to proclaim that no college spirit exists here. But they were all wrong—there was simply not need enough for it to awake from its peaceful slumber. But let there be need of it and we know from the past that the college spirit, when aroused, is as valiant and vigorous a spirit as ever walked. Last fall, for example—but we know all about that.

The desire of this communication is to show pointedly that there is a great need of it, in firm belief that, if this need is made clear, it will awake, and come to the rescue.

Somebody published six years ago, the statement that "Literary Spirit is a potentiality at the University, not a reality, a *posse*, not an *esse*." Those words seem even more true now than then. It is now an oft-heard reproach, from those who are not our friends, that our University gives first class training only to scientists and football players, and that we do not bring out the literary side of our students. This is, undoubtedly, short-sighted in the extreme, as the University's record in the educators she has sent out, shows. Such statements overlook our scholarly Inter-collegiate debates, which are on record, and a source of pride to us. But, when all has been said, the sad truth remains, that there are three, perhaps four colleges in the State, greatly inferior to us in numbers and teaching force, who yet have a student-periodical literature superior to ours. There is not a single explanation to be found to explain this fact. There is not a reason why it should be so, and there is every reason why it should not be so. These little colleges simply have a few men who will publish the excellence of their literary training; we have several hundred who do not.

The trouble is certainly not one of training. Our English courses here are equal to any in the South. Neither does it lie in the character of the students here. We get the best our State can furnish, and they are splendidly developed, as is shown in our class room work. Why, some of these "short themes" are perfect gems!

The trouble is, that we do not realize the debt we owe our University and ourselves. This is to prove that our college is superior to such institutions as Wake Forest, and Trinity and Davidson, and at least the equal of any other Southern college, in those things which prove the excellence of a college, as we have already done in football and baseball.

We undertake to put out a weekly paper, a monthly magazine and an annual book. It must be realized

Cornell University Medical College. New York City.

The session begins each year during the first week in October and continues eight months. The course of instruction covers four years, but students who present credentials from accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations in those subjects which have been completed in previous years.

The essential features of the curriculum are—the daily recitations in small sections, the thorough laboratory instruction, and clinical and bedside teaching in dispensaries and hospitals by members of the faculty.

In the College building is a dispensary in which about 50,000 patients are treated yearly.

The facilities offered by the many large hospitals in New York are utilized to the utmost to familiarize the student by personal observation with the diagnosis and treatment of disease. Bellevue Hospital, the largest of all the city institutions, is directly opposite the college building. The circular of 1901-02 giving all details will be mailed on application to Wm. M. FOLEY, M.D., LL.D., Dean, CORNELL UNIVERSITY MEDICAL COLLEGE, First Avenue and 28th Street, New York, N. Y.

THE TAR HEEL.

Vol. 10,

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., February 5, 1902.

No. 16.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

ATHLETICS.

The Prospects Are Very Brights.

Last week the rain fell every day, resulting in no practice for the baseball men. But the beginning of the new week sees a clear sky and a dry field and the candidates are out in earnest. Ashenback, Tarboro's league man; has arrived. He will coach this year's team and not without success. The college is confident of his ability and baseball circles can look to Carolina for a winning team.

Seven of last year's team are back and there is lots of new material in the class of nineteen five. Captain Holt already has his eye on several new men. With Smathers, Graham, Willcox, Carr, Donnelly and Cocke of last year's Varsity and the new men together with the improved material from last year's scrubs, Capt. Holt is going to give us a perfect season if such be possible.

The schedule of games as published in the first issue of this paper after Christmas is an admirable one. Manager Graham has gone to much trouble and spent no little time in arranging these games and the full schedule is the result of his earnestness. This publication gives notice of two more games, one with Bingham School of Asheville and one with Oak Ridge Institute. The management also announces three games with Virginia, one at Charlottesville, one at Raleigh, and the other one here. These last three games were published in last week's issue of this paper. They are now settled dates.

One more requisite necessary—the hearty and entiring support of the student body. The writer thinks it is only necessary to mention this.

The Track Team call will be made about the middle of the month. "Gymnasium work and cross country running will continue until it is warm enough to go on the track. All candidates should report at the first call and not wait for the track work.

"Rip Van Winkle--Solon Shingle." by Henry Blount.

On Friday night, January 24th, in Gerrard Hall under the auspices of the Athletic Association, Mr. Henry Blount gave his famous lectures on Rip Van Winkle and Solon Shingle. Mr. Blount's jokes in his introduction were a little old to suit a Chapel Hill audience. In other respects his lectures were humorous and entertaining. After paying a tribute to the University and its workings and warning the students not to let slip the opportunities they now have, for "a mill cannot grind with water that has past," he began his lecture on Rip Van Winkle.

He gave a "good" description of kind-hearted old Rip, how he appeared when drunk and how after each drunk he would swear off and say, "I shall never take another

drink, so help me good gracious." He depicted well the character of Gretchen, Rip's wife. And his account of the meeting of the Van Winkle family after Rip's absence and sleep of twenty years was also pleasing. But that which solicited the most applause of the evening was his delivery of Solon Shingle, a short sketch will perhaps be interesting.

SOLON SHINGLE.

Solon Shingle was an old man seventy years old. He was poor and had to haul wood for a living. Old Solon always had a desire to own land. Fortunately one of his friends left him ten acres somewhere in Pennsylvania. This little spot was found to be rich in petroleum. Solon sold the property for eight millions of dollars and placed the money received in a bank in New York City. On one occasion he decided to go to New York and see how his money was being kept. He was too stingy to take the train so he drove to New York in an ox cart. Passing upon everything he saw as "the most wonderful thing in the world, by gravy." He stopped at the home of a newly acquired friend. He found this friend, Mr. Larrabee, in trouble; just on the brink of going into bankruptcy. Larrabee asks for a loan of fifty thousand dollars. After much hesitation and after telling Larrabee several times that his "father fit in the the Revolutionary War," Solon agreed to lend his friend one dollar and sixty cents. Finally old Solon through mistake left a note payable to Larrabee for the amount wanted. Larrabee secured the money from the bank but next day was arrested for forgery. Solon appeared as witness and after creating much mirth and disturbance in the court room swore that the note was genuine and Larrabee was acquitted.

The Yackety Yack.

Last fall the editors of the Yackety Yack offered copies of the Yackety Yack as prizes for various drawings and literary productions. The editors are anxious to get the annual into the hands of the printers; and for this reason they desire to have all the work handed in as soon as possible. This contest is open to able students of the University. Contribute something to the annual. The work can be handed to one of the following:

H. B. Short, S. S. Robbins, G. R. Giles, J. H. Winston, Hazel Holland.

Mecklenburg Association.

The students from Mecklenburg county met in the Chapel Saturday afternoon and organized the Mecklenburg Association of University of North Carolina. The following officers were elected:

R. S. Hutchison, President.
Hazel Holland, Vice-President.
T. R. Brem, Secretary.
N. A. Orr, Treasurer.

FOOT BALL ORIGIN.

The *Kansas City Independent* gives the following account of the origin of foot ball:

"Where did football originate? Some people give ancient Chester, in England, credit for bringing the great winter pastime into existence. There is a record of football playing in that city in the year of 1540, but Cestrains believe in a legend of much earlier date. In the tenth century, it is said, a Dane was captured and beheaded by the citizens. Someone began kicking the head about the streets, others followed, and it was discovered that this formed a new and fascinating sport. This was repeated whenever possible; but the enemies' heads became scarcer, and the entertainment of kicking them more difficult to procure, it was at last arranged "for the shoemaker's yearly on Shrove Tuesday to deliver to the draper, in the presence of the mayor of Chester . . . "one ball of leather, called a foot ball, of the value of three shillings and fourpence or above." There is evidently a fine precedent for those concerned in the game "losing their heads."

A Dramatic Club Organized in the University.

A Dramatic Club is among the new organizations at the University. A few weeks ago, several of the students interested in the formation of such a club met and organized by the election of officers and Executive Committee.

The purpose of the Club is to present two or three light plays during the Spring. Several years ago the Dramatic Club was among the prominent University organizations and each Spring or Christmas they would give entertainments in different towns in the State.

The intentions this year is to appear only at Chapel Hill, but it is hoped by next year, the Club will be able to again appear throughout the State. Any student is eligible for membership by payment of a small fee to the Treasurer.

Several plays have been ordered and when they are received the Club will commence work on them. The officers elected were: Pres. J. L. Morehead, Vice-Pres. Jas. A. Gwyn, Sec. and Treas. Benj. Bell Jr., Executive Committee: Pres., Vice-Pres., Sec. and Treas., F. M. Hanes and G. G. Galloway.

Y. M. C. A. Leaders.

As was stated in our last issue, during the coming three months members of the faculty will alternate with the students in leading the devotional meetings of the Y. M. C. A. A list of leaders for the next three months is as follows: Dr. Hume, Feb. 11; J. K. Ross, Feb. 18; Prof. Gore, Feb. 25; H. R. McFadyen, March 4; Prof. Williams, March 11; G. M. Garren, March 18; Mr. McKie, March 25; Mr. E. K. Graham, March 25; R. M. Harper, April 8; Dr. Baskerville, April 15; and R. W. Herring, April 25.

University Sermon by Rev. Dr. C. S. Blackwell.

On Sunday night, January 26th, in Gerrard Hall, Rev. Dr. C. S. Blackwell, pastor of the First Baptist Church in Wilmington, delivered the regular monthly sermon for the University.

Dr. Blackwell read the Beatitudes from the fifth chapter of St. Matthew and said: "Whosoever heareth these things of mine and doeth them, I will liken to a wise man, which built his house upon a rock." We are all character builders. The Lord is the Divine Architect of our being. It is well then that we know our relation to Him. He has laid down in the Beatitudes the foundation upon which we should build our characters. The corner stones of this foundation are (1) poverty of spirit, (2) mournfulness, (3) meekness and (4) hunger and thirst after righteousness.

These are the perpendicular principles reaching from man to God. The relations of man to fellow creatures are 1st mercy, 2nd purity of heart and 3rd making peace among men.

The foundations having been made we may proceed with the chambers of righteousness, 1st. Blessed are they which are persecuted for righteousness sake and 2nd 'Blessed are ye when men shall revile ye for my sake.' If you build with the proper material you will hear the Devil throwing rocks against the structure but you will not hear the rocks when thrown against the tent.

"Ye are the salt of the earth. Ye are the light of the world. Let your light shine before men. Six candles may be put in a room but unless they are lighted all will be darkness. You students may be moulded in the best mould of learning but you will not shine until touched by the Light of God. There will be times when your souls will be tried by the storm. Have your characters built upon the proper foundations, the solid rock and be prepared to meet the coming storms of life."

The damage done to the Percy field by the recent flood was so great that the spring training of Cornell's baseball and track teams will be seriously retarded. The extent of the repairs to be made in the spring has not yet been decided upon, but in view of the hope of a campus athletic field it is likely that the repairs will be of a temporary character.

Minnesota played the entire season without having to remove a man from the game on account of injuries.

Senator Depew has introduced a bill in the Senate to establish the University of the United States. It will be for post-graduate work, and will make use of the Government scientific collections, libraries and laboratories.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes her whole college will aid it along this line.

In the last issue of "College Topics," the University of Virginia weekly, we notice that the custom, so long prevalent among the Northern Universities, of presenting at a public exercise the Varsity sweaters to those who have earned the right to wear them, has been adopted at this institution. This step has been taken in the belief that all such customs tend to strengthen the college spirit.

Can not we too learn something from this example? The adoption of such a custom at this University would indeed be a progressive, and necessarily, a beneficial step. The privilege of wearing an "N.C." is something of which anyone is justly proud. It is an honor which few enjoy. Our Athletic Advisory Committee has only recently taken such steps as to render the acquisition of such an honor still more difficult and thus its value has been enhanced. The number of those gaining this honor will perhaps be even more limited in the future. Would it not be well for us to follow the lead of the other large Universities. In this way the whole student body—and faculty too—would be enabled to take a part in this award and would thus be made to feel that they themselves assist in conferring a justly earned honor upon their representative. Even if it accomplished no more such a ceremonious presentation would add dignity and importance to what has hitherto been merely a formality.

In an article under the head of Athletics in this issue, we endeavor to give our alumni especially some idea of our prospects for a winning baseball team this Spring. These it seems are good—in fact, unusually good. The majority of our old men are here and the supply of new material is indeed gratifying both in excellence and numbers. With the experienced coach we have at the head and the untiring energy of Captain Holt we should develop a team which will equal even the team of '95.

The efforts of Manager Graham have also been untiring and the entire student body feels grateful to him for the capable and efficient manner in which he has managed the work. It is especially gratifying to us to learn that the three

games with Virginia are no longer a possibility but a certainty as the dates have been definitely arranged. Only two things remain to be done and they are, (1) faithful and conscientious practice by every individual player and (2) hearty support by the students. Judging from past experience and present prospects both of these duties will be performed and in a manner, too, not unbecoming Carolinians.

The January Magazine is out but lack of space prevents a lengthy review. We can only say that it is bright and interesting from cover to cover and reflects credit upon the editors. The article entitled "Judah P. Benjamin" and "Sketches" are especially good. The editorials too are excellent.

Special Notice.

The Elisha Mitchell Scientific Society will meet Tuesday evening February 11th. Subjects discussed: The Pressure of Light—Mr. J. E. Latta.

A Nineteenth Century Geometry—Mr. Archibald Henderson.

The Absolute Properties of Molecules—Mr. J. E. Mills.

Business Notice.

To the students of the University.

Before Commons Hall was established there was not an eight-dollar boarding house in Chapel Hill and should this establishment go down, every student in the University would have to pay a higher price for board. Commons offers the very best board that can be given for eight dollars per month, since its object is not to make money, but only running expenses, and accommodate the students. This establishment is not appreciated by the students as it should be, when we consider how much it serves us each year in terms of dollars and cents, by holding the price of board within the eight and ten dollar limit. In order to be self-supporting, to give the best accommodations, and maintain its position, Commons needs our patronage; and we, as University men, owe it to ourselves and to the University, to patronize it. The more that board there the better accommodations can be given.

Yale won the Yale-Princeton debate held at Princeton Dec. 6th. The subject debated was, "Resolved That the Fifteenth Amendment to the Constitution of the United States was justified. The amendment is: The rights of the citizen of the United States to vote shall not be denied or abridged by the United States or by any state on account of race, color or previous condition of servitude." Princeton supported the affirmative, Yale the negative.

NOTE—Mr. Jno. Sims, Wartrace, Tenn., a graduate of Webb School, class of '98 was originally chosen to represent Princeton in this debate. He resigned saying that he could not consistently and conscientiously support the affirmative side of the question.

Johns Hopkins University has a department of Philippines in which men are prepared for service in the Philippine Islands.

Rev. Thos. Hume, D. D., will preach at the Methodist church next Sunday morning at 11 o'clock.

A. A. Kluttz keeps everything the students need. He will sell you anything from one cent worth of peanut candy to a elephant. Doc will treat you right.

Mr. A. M. Carr, the Chief Ball Manager, has recently closed an engagement with J. T. Pulling's First Regiment Band of Richmond to furnish the music for Commencement next June, also the dances incident thereto. This will be the band's twenty-second annual consecutive visit. How is this for a record?

Patronize the Tar Heel's advertisers.

Dr. Bruner was called away from the Hill on business last week. He returned on Monday.

Nine members of the University Law School went to Raleigh on Saturday to make application to the Supreme Court of North Carolina for license law. The Examination took place on Monday.

W. B. Sorrell has something that will interest every student in his store. He will be glad to show it to all callers.

Mr. J. R. Rountree, Business Manager of the Yackety Yack has been in Durham and Raleigh for the last few days soliciting advertisements for the publication.

The best medicines and drinks are sold by the Eubanks Drug Co.

Coach Aschenback is on the ground. He thinks the prospects are bright for getting out a first class Base Ball Team.

Mr. S. J. Everett Chairman of the Dedication Committee for the Yackety Yack announces that the 1902 number of the Annual has been dedicated to Col. Thos. S. Kenan of Raleigh. Col. Kenan is a member of the class of '58. He has been Clerk of the Supreme Court for a number of years and is President of the Alumni Association of the University.

Mr. Frank Pickard has been appointed Supt. of the Buildings and Grounds by the authorities of the University.

Messrs. R. L. Godwin '02 and Burgess Urquhart '03 returned to the University Monday.

Prof. Raper will deliver the Commencement address at Oak Ridge Institute this spring.

Professor H. H. Williams entertained our Johns Hopkins' Debaters, at his residence Saturday evening, February 1st. Those present were Messrs. D. P. Stern, R. R. Williams, W. S. Bernard, G. M. McKie, E. K. Graham and Whitehead Kluttz.

A large loving cup, which represents the voluntary subscription of over a thousand students of Columbia University was presented at the close of the football season, William R. Morley, captain of the 1901 eleven to express the University's appreciation of Morley's service to Columbia football. Morley will receive his degree in Feb., and will go immediately to his home in New Mexico. In addition to the cup small gold footballs were presented to the ten other men of the Varsity eleven.

With the Societies.

Phi Society, Debate, Resolved, That the United States should own and construct the Nicaraguan Canal. The affirmative won. Mr. Ramsey made the best speech.

Di Society; Resolved, That the Panama route is preferable to the Nicaraguan. The affirmative won. Mr. S. S. Robins made the best speech.

Owing to the number of men engaged in the preliminary contest for places on the Inter-collegiate Debates, the two Societies have decided to abolish the Annual Intersociety Debate for 1901-02.

Chemistry 1.

All who desire to take coaching for the final examination on Inorganic Chemistry, please see me before February 7th. I may be found in the Chemical Laboratory every afternoon after 2:30.

B. S. DRANE,
Licentiate in Chemistry.

My! My! would you miss that Grab Sale at W. B. Sorrells. When you can get articles worth twice the price asked! Sale begins Thursday, Feb. 6, and lasts only three days. This is the chance of a life time to get something good cheap.

The following is taken from the Georgia Red and Black in commenting upon an article found in the Mississippi Review. "It speaks well for our Law Department that Judge Lowry appointed two of our double course students to defend Will Mathis in the murder trial just finished." We note by the papers that Will Mathis has been sentenced to hang. This may also speak for the Law Department.

COMMUNICATIONS.

The Editors welcome all articles of a timely nature for publication in this column, though they do not hold themselves responsible for the sentiments expressed therein.

"S. I. A. A. Bored," writing in the Tar Heel of a week or two ago, as the burden of his complaint, says "let's go northward." This reminds me very forcibly of the baby that stretches forth his hand and cries for the moon. He does not say who is going to pay the money necessary for the northern trip he suggests. Does he think that Yale or Princeton or Harvard will pay three or four hundred dollars for what is to them a mere practice game? Can the croaker explain why it was prior to our joining the S. I. A. A. we never went north to any considerable extent? A little examination of the facts will show the writer of the article headed "northward" that the reason for our not going north for our games lies not in the fact that we are not members of the S. I. A. A. but to financial considerations which forbids our playing teams as far from us as those beyond the Potomac. It is folly to think that big northern teams will place us on their schedules when equally good practice games can be got from teams nearer home. In other words, Harvard for an instance, will not pay us the necessary guarantee of say \$300 when she can get an equally good game from Haverford and a much better game from Lafayette or West Point for a guarantee of \$75. These are the facts of the case, a cool view of them convinces the fair minded man that the cry of "northward" is a wild dream. The Princeton game of '99 was not arranged for the practice it would give Princeton but by the personal influence of our Coach at that time with the Princeton authorities.

The statement that the "association is on its last legs" is, of course unwarranted. Georgia Tech was suspended and played last season with a blank schedule. Then the Tech realized that they could do nothing and capitulated, promising in the future to play strict amateurs. Does this look like the association is decrepit.

In the South is our proper field. Virginia, Georgia, Clemson, Sewanee or Tennessee is our schedule V. P. I. can be included, as it usually is, without going north. In the South we lead in the North we follow.

The restrictions imposed upon us is not imposed on other teams exist only in a disordered or misinformed imagination. In the North all reputable teams play under the same restrictions as those imposed by the S. I. A. A. upon Southern teams. The "one year rule" is observed by decent northern colleges and in the South by all save one. Just here we find the real complaint. Virginia has not heretofore played under this rule and so this has acted to our disadvantage. But if "S. I. A. A. Bored" will thoroughly inform himself, he will learn that hereafter Virginia will play under this rule as the faculty have positively decided that this rule must be enforced. Now that Virginia has come in, every reputable college, North and South, is playing under this rule, so why should we "pull out" and be the sole black spot upon the white canopy of athletic purity?

Cornell University Medical College. New York City.

The session begins each year during the first week in October and continues eight months.

The course of instruction covers four years, but students who present credentials from accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations in those subjects which have been completed in previous years.

The essential features of the curriculum are—the daily recitations in small sections, the thorough laboratory instruction, and clinical and bedside teaching in dispensaries and hospitals by members of the faculty.

In the College building is a dispensary in which about 50,000 patients are treated yearly. The facilities offered by the many large hospitals in New York are utilized to the utmost to familiarize the student by personal observation with the diagnosis and treatment of disease. Bellevue Hospital, the largest of all the city institutions, is directly opposite the college building. The circular of 1901-02 giving all details will be mailed on application to WM. M. POLK, M.D., LL.D., Dean, CORNELL UNIVERSITY MEDICAL COLLEGE, First Avenue and 98th Street, New York, N. Y.

THE TAR HEEL.

Vol. 10.

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., February 13, 1902.

No. 17.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

ATHLETICS.

Hockey. Tennis. Facts about Baseball.

With the bright days that have recently come upon us, has also come a renewed interest in athletic pursuits. During the cold, disagreeable weather interest is to a great extent lost in athletics and athletics, in spite of the articles of S. I. A. Bored, and his correspondent, but this feeling is cast off upon the return of sunshine and warmth. This fact is well evidenced by the numbers that now crowd on the Athletic field, to take part in the healthy sports of tennis, hockey and baseball, and the manner in which the different athletes are discussed, their records, and their prospects.

Although hockey is just being introduced here, it is greatly patronized and with a certain class of boys is very popular. Of course this class has not among its members the football men, it is most too tame for them, but those fellows who are not favored with stalwart frames, like "Big" Councill, pursue the pleasures at this game with an avidity that satisfies even the enthusiastic instructor, Vonden Steinin.

Tennis is also getting its full share of patronage during this weather. Horner Winston, the organizer of last year's association, has announced that there will be another tournament this year. The Association will meet in a few days to arrange the preliminaries. The tournament will begin about the first of March. All members of the Tennis Association will be allowed to contest. The prizes for the single and double champions will be rackets. Winston predicts that the success will be even greater than that of last year. Many of the tennis courts have been improved in the last month, in preparation for the opening season.

Captain Holt was seen last night and although not very talkative as to the prospects of his team, he gave one to understand that the team turned out this year would be a winner. Most of the candidates are players of great experience, and with the work of Coach Ashenback he feels that from such material a good team will be secured. He insists that all candidates come out now every day possible, for, as he says, there is a certain amount of preliminary work that must be done at one time or another. If this preliminary work is delayed and there is a reaction in the weather, later, it would be the cause of our going on the diamond with little regular practice. "Our success over Northern colleges in early spring is due to the advanced training we have. Let us not fail to profit by this advantage." The motto of his team will be hard and regular practice. From the look in his eye while saying this it was evident that he is in

for business. The man who dallies this year will be damned. Competition will be fierce, there are many good men for the first places, and the player who secures his position and holds it will do so by superior ability. In the words of Captain Holt "no man has a cinch on his job."

For the benefit of the new men in college, a few facts are given concerning the records of the more prominent candidates.

For the position of pitcher there are four candidates as yet. Wilcox, Sweeney, Smith and N. Graham. Wilcox has had considerable experience while in college, this is the third season he has served on Varsity. Sweeney is a new man but he brings with him a great reputation as a baseball twirler. He has been playing on his home team, for some years. Smith and N. Graham played on '04 last year.

Council, Patterson and Wilcox G. are candidates for catcher. Council played on Med team of '01. Patterson has played with his home team, Chapel Hill, for some time. Wilcox G. played on his class team two years.

For the position of first base are Holt, captain, Brem and Pritchard.

Holt has held this position on Varsity for two years, and has made for himself an enviable record during that time. Brem has held the same position on the Scrubs for two years. He is a man who rises above conditions; he plays ball in spite of himself. Pritchard played on Oxford team last year.

For second base Cocke and Graves L. Cocke was second baseman last season. He is the best man for this place has who been here for years. Graves, second baseman on Scrubs '00, short stop '01, has a fine record as an all-round athlete.

For short stop are Carr W. and John Cheshire. Carr was sub-outfielder in 1900, and short stop on the Varsity in 1901. He has a remarkable record. Cheshire, captain of Horner's team '01, has had good training and will doubtless make a good player.

For third base are Smathers and Manager Graham. Smathers played on class team in '00, but in '01 by hard work he made Varsity. When he undertakes a thing he carries with him the determination to win, and has yet to meet failure in college athletics. Graham has been Scrub 3rd. baseman for two years.

Donnelly is the only candidate for left field. He played right field in '99, out in '00, and in '01 hanged to left field. He is a hard hitter and a sure outfielder.

For centre are A. Graham and Ahrens. Graham, centre in '00 and '01, has an exceptionally good record as a base runner and outfielder. Ahrens, Med. Pharmacy '01, made good record as an outfielder. He is swift on bases.

For right field, John Henderson. He has played on Scrubs two sea-

(Continued on 3d page.)

HISTORICAL SOCIETY.

Papers Read by Dr. Battle and Prof. Raper.

The Historical Society held its regular meeting in Gerrard Hall on Monday evening, Jan. 27th. The program of the evening, consisting of a paper by Dr. Battle, on "The University Land in Tennessee" and an address by Prof. Raper on "The Conflict between the Executive and the Legislature in Colonial Times" was highly entertaining as well as instructive.

Among other things Prof. Raper said:

"There is more to be learned from studying the conflicts among the different departments of government than from a study of the acts of peace and quietude. If you take any government and study the conflicts between its departments you will learn much of the spirit of its people. Many of our institutions and laws of today date further back than the time of Alfred.

"It was the conflict of the 13th. century that has given Parliament the substantial control which has lasted. There did come a kind of reaction when the Tudors came to the throne in the 16th. century but it lasted for a short time. The Stuarts tried to do something that the Tudors had done, but they failed because of the change in the people. The Magna Charta and the Bill of Rights were the results of this great conflict between Parliament and the King.

"In the Colonial days, the relation between the English government and the American colonies was that of sovereign to subjects. All the colonies except Rhode Island, Connecticut and Pennsylvania were royal provinces at one time or another. Each had a governor appointed by the King, who was therefore amenable to the King. These governors were, in most cases, Englishmen and for that reason felt bound to look after the claims of the King. The lower branch of the legislative department was elected by the colonists and was amenable to them. The Lower House was the guardian of the liberties and interests of the colonists. The conflict between these was an interesting one, and resulted in the institutions which we now have as a nation.

"Very early in the history of each colony this conflict began over the land. The governor, who was appointed by the crown, wanted to manage the land for the crown. He tried to impose higher rents. On the other hand the colonists, who were poor, wanted low quit-rents. The second bone of contention was the fees of the officers. The officers wanted high fees and the colonists did not feel able to pay them. In both of these conflicts, which lasted about forty years, the colonial legislature gained the victory.

Then the question of an agent

came up. From 1750 to 1765 each colony wanted an agent in England. Then the conflict arose as to who should manage the agent. The Legislature wanted to manage him and the Governor wanted to manage him. The result was practically the same as in the other two cases, the Crown yielded to the Colonies. Another question for controversy was the money. Money is a great question in any nation, and an index to the standing of any people. The serious conflict arose as to who should regulate the fiscal policy. The governor declared that he alone had the right to appoint the Treasurer, and the Legislature declared the same right to belong only to them. In this, neither faction would yield. The fifth and last important cause for conflict was over the Courts and Judges. This is as important as the fiscal question. It was necessary, if the crown was to carry out its policy, that it should control the judicial system. The same was true with the Legislatures of the colonies. In this, as in the case of the fiscal policy, neither party would yield, and these were two of the questions that were finally settled by the result of the Revolution.

"The Legislatures did not yield in a single one of the five points mentioned, while the crown yielded in all except two. It thus becomes evident that the Revolution really began very early in the 18th. century. We, to-day have institutions which are the result of conflicts away back in English history. The Constitution, which was drawn up for the new government, was the development of seventy-five years of history. These facts make the Revolution easily explained. It was the result of the conflicts of the eighteenth century which taught us the need of three distinct functions of government, instead of one head for all."

Dr. Battle said: "I now proceed to show what was done by the Trustees in working this mine, so full of difficulties and disappointment." The management of the lands was left to a committee of appointments. The members of this committee were Archibald D. Murphy, Thos. Ruffin, John Haywood, Henry Potter, Wm. Polk and Duncan Cameron. This committee was authorized to "adopt such a course in regard to the land claims as to them shall seem most beneficial to the University." In 1821 an agreement was made with Col. Thomas Henderson in which he was to collect all the land in Tennessee given out to old soldiers of the Revolution, but which had as yet been unclaimed. Col. Henderson proceeded to his duty with alacrity and by October handed in, to the committee representing the University, claims for 146,853 acres. For locating the lands he was allowed 16 2/3 per cent of the value of the land payable in land; for selling, collect-

Subscription Price. \$1.50 per Year.
Payable in ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

Several communications have appeared in the last few issues of the Tar Heel in regard to our remaining in the S. I. A. There seem to be many active advocates of both sides of the question and each side has been championed.

Inasmuch as there is this diversity of opinion it is extremely proper that it be fully discussed. The question is one of vital importance to our Athletic Association and hence as the official organ of this association, the Tar Heel has welcomed and will continue to do so, all articles bearing upon the subject.

Criticism has been passed upon us for publishing such communications and hence we desire to make this statement. It is a part of our duty to publish and even to encourage such discussions, especially so when they concern the life and interest of the Association which supports this paper. We feel sure that when this fact is taken into consideration our position will be understood. The TAR HEEL advocates neither side but is glad to receive and publish arguments on both.

With the Societies.

Di Society; Debate, Resolved, That the United States should retain the Philippines. The affirmative won. Mr. Barnhardt made the best speech.

Phi Society; Debate, Resolved, That the Cuban tariff duty should be reduced. The decision was given to the affirmative. Mr. E. A. Daniels made the best speech.

Mr J. F. Duncan spent Saturday and Sunday in Raleigh.

The February German, which was given last Friday night at Commons Hall was one of the most successful ever given by the German Club.

Dr. Rufus Barringer, President of the University of Virginia, will be in Chapel Hill on Feb. 14th. He will lecture in Gerrard Hall on "Some Pending Problems in Hygiene." Dr. Barringer is one of the ablest educators in the South and is an authority on all subjects connected with Hygiene.

(Continued from 1st page.)

ing and paying over, his commission was six per cent at first and afterwards ten per cent. For the purpose of securing an equitable division all the lands were grouped into two divisions, Northern and Southern, and each division into two classes; 1st class being tracts worth \$4.00 per acre and 2nd worth less than \$4.00 per acre. The land was then sold in separate divisions and after deducting the commissions for selling etc., the agent turned over to the University \$164,220. The counsel for the University in Tennessee at that time were ex-Judge James Trimble and Felix Grundy and a number of other prominent lawyers and orators.

In 1825 land amounting to 44,207 acres were sold for \$131,415.10, the price averaging a little less than \$3.00 per acre. Of this amount only \$52,436.71 was paid cash down, the balance paid in notes, of two or three year's time, with interest at 6 per cent.

The University was involved in one lawsuit over some of the land and the case was decided in favor of the plaintiff, Pinson. An appeal was taken to the Supreme Court but as the judges were divided in their opinions the Governor appointed a special court to decide the case. After many able discussions on both sides the case was again decided against the University. They finally took an appeal to the Supreme Court of the United States but for some reason the case never came up."

Dr. Battle did not finish his lecture but will do so at the next meeting of the Historical Society.

Locals.

Messrs. C. A. Bynum and R. W. Herring have been chosen respectively by the Di and Phi Societies to represent the University in the Georgia-Carolina debate. Both of the gentlemen are able debaters, and in point of scholarship they are among the most prominent men in the Junior class.

Rev. Dr. A. T. Graham, of Davidson College, N. C., delivered the University sermon for February in Gerrard Hall on last Sunday evening.

Hon. Hilary A. Herbert, of Washington, D. C., will deliver the Baccalaureate Address at the next Commencement of the University.

He was Secretary of the Navy during Cleveland's second Administration and for a number of years represented his native State, Alabama, in Congress. Ex-Secretary Herbert is one of the ablest Southern orators and ranks high among the prominent lawyers of the Capital city.

Mr. J. R. Rountree has been away from the Hill several days in the interest of the Yackety Yack.

Pres. Venable and Dr. H. V. P. Wilson will represent the University at the celebration of the twenty-fifth anniversary of the founding of Johns Hopkins University on Feb. 21st. Dr. Ira Remsen will be inaugurated as President of the Institution on the day following.

Have you seen Eubank's elegant line of box stationery?

FEBRUARY GERMAN.

First Dance of the New Year Given by the German Club.

On Friday night, the 7th, decidedly the most enjoyable german given by the club in many years was danced in Commons Hall. Everything combined to make this a successful dance and each one attending pronounced it so when leaving. The "Carolina Orchestra," of Raleigh, furnished the music, which was excellent. The german was gracefully led by Mr. Jas. B. Thorpe, '03, with Mr. A. G. Brenizer, '04, and Mr. A. W. Haywood, '03, as floor managers. Many new and beautiful figures were introduced, which called forth well-merited applause.

A list of the couples and stags participating follows:

Mr. Turner with Miss Turner, of Tarboro.

Mr. Ramsay with Miss Hawkins, of Ridgeway.

Mr. Eben Alexander with Miss Simmons, of Raleigh.

Mr. Byrnes with Miss A. Hinsdale, of Raleigh.

Mr. P. Cobb with Miss A. Hume, of Chapel Hill.

Mr. Brem with Miss Thompson, of Raleigh.

Mr. A. Henderson with Miss Rynum, of Chapel Hill.

Mr. O. S. Thompson with Miss B. Hay, of Raleigh.

Mr. W. Smith with Miss B. Busbee, of Chapel Hill.

Mr. Ehringhaus with Miss Gregory, of Oxford.

Mr. Cox with Miss M. Alexander, of Chapel Hill.

Mr. Holt with Miss F. McRae, of Chapel Hill.

Mr. Wooten with Miss Shaw, of Shawboro.

Mr. Duin with Miss Roberts, of Raleigh.

Mr. Cheshire with Miss M. Young, of Raleigh.

Mr. Whitehead with Miss Battle, of Raleigh.

Mr. B. H. Smith with Miss B. Moncure, of Raleigh.

Mr. Bass with Miss O. Moncure, of Raleigh.

Mr. Cummings with Miss Pemberton, of Fayetteville.

Mr. Makely with Miss M. Hume, of Portsmouth.

Dr. Ruffin with Miss E. Hinsdale, of Raleigh.

Mr. Harrison with Miss Darden, of Suffolk, Va.

Mr. Pritchard with Miss Darden, of Suffolk, Va.

Mr. Smathers with Miss Weller, of Weldon.

Mr. Gudger with Mrs. Horton, of Asheville.

Mr. W. F. Carr with Miss Wrenn, of Durham.

Mr. Owen with Miss Blake, of Raleigh.

Mr. Long with Miss Long, of Raleigh.

Mr. M. Carr with Miss Morson, of Raleigh.

Mr. Holland with Miss N. Hinsdale, of Raleigh.

Mr. Webb with Miss Cheshire, of Raleigh.

Stags—Messrs. E. G. Alexander, Berkeley, Bell, Bridgers, Calder, Clement, Duff, Ellington, Graham, Galloway, T. L. Gwyn, J. A. Gwyn, Haynes, Haywood, Latta, Lemley, Murphy, Staton, Stringfield, Howell, Douglas, Cocke, Galloway, Ke-

nan, R. S. Stevenson, H. W. Stevenson.

Chaperones—Dr. and Mrs. Linscott, Mr. and Mrs. Gore, Dr. and Mrs. Pratt, Mrs. Graves, Mrs. Hume, Mrs. McRae and Mrs. Daingerfield.

(Continued from 1st page.)

sons and has the reputation of being one of the finest outfielders in college.

This list does not, of course, include all the candidates for the different positions. Many have not yet made their appearance on the field, in which case, the writer knows nothing of their insention to play.

It would be well for all candidates to appear on the field in suits as soon as possible, practice games have already begun. A little start on your competitor is of great advantage.

Before the Supreme Court.

It is a great source of satisfaction to the Law School of the University to know that every one of those who had received certificates passed the Supreme Court examination. Out of her eleven applicants, six had certificates and seven were licensed. Thirty-three applied for admission to the bar and only fourteen were admitted. This speaks well for the Law School here in that as many were licensed from her eleven as from the twenty two who came from elsewhere. The University Law School is undoubtedly one of the strongest in the South, and too much cannot be said of her able professors who have worked so faithfully to make it what it is.

COMMUNICATIONS.

The Editors welcome all articles of a timely nature for publication in this column, though they do not hold themselves responsible for the sentiments expressed therein.

The idea of teams composed even in parts of men who matriculate and play for a consideration is repulsive to the true gentleman-like spirit which is supposed to preside over inter-collegiate athletics. To argue this is needless, for no one denies it. Colleges and Universities everywhere condemn professionalism by words of mouth at least, and join in raising a cry for pure athletics. Of course in this matter as in others practice does not always follow precept, but while many colleges do not follow up their professions, they still continue to make them. All confess that purity in athletics should be esteemed above success or anything else.

Now the only way to secure pure athletics and to secure equal rights to all and special privileges to none, is to form an inter-collegiate athletic association which will have authority to investigate the athletics of its members and to punish the dishonest. This is the only possible solution. So long as athletics are entirely under local supervision or no supervision at all, they will be corrupt among those colleges which are not able to produce good home-bred teams. We have faculty supervision at such universities as Virginia, Georgetown for instance, and, although these are among the larger institutions, athletics at both places and especially Georgetown are in a rotten condition. It is always easy for interested parties to make out this or that as an exceptioned case. And even if local supervision accomplishes the result that should be accomplished at one college, it cannot produce the same result at rival colleges and consequently puts the one college at a great disadvantage. The result is that the one college may say "It is useless for us to defeat ourselves by standing for pure athletics when our rivals are on the other side." The only hope for pure athletics is in an organization which puts its members on equal footing and looks after them all.

Such an organization is the S. I. A. A. and its record proves its usefulness. That it or some similar organization does not embrace the college a little to the North is to be regretted but it is only a question of time when all our colleges will be in similar associations. The movement for pure athletics began with Yale and Harvard and has been gradually gaining ground. The S. I. A. A. has been most useful in its sphere. Before its formation the corruption of Southern athletics was a by-word. Vanderbilt, Sewanee, and our own University had each its share of "rounders," and a list of these magratory professionals with those accredited to each institutions was published yearly in Harper's Weekly. But since the formation of the S. I. A. A. there has been a revolution in the South and to its formation the change is due. The professional player no longer roams the South from college to college. Some one might ask, "What about Lemayne?" The answer is plain. The faculty and students of Sewanee declare that he

was not a professional. The case is parallel to that of Koehler at our own university and as we expected to be believed in that case so we are rationally bound to believe Sewanee in the other.

But the enemies of the S. I. A. A. dodge the main issue and say that it ruins our athletics. Does it? In '97 we had the weakest team we have ever had, and in the early 90's we had several poor teams. The year before we joined the S. I. A. A., '98, we had the most successful team we have ever had. But in '99 the year after we had an equally strong team though less successful; in '00 we had one of the best teams in our history, and in '01 a good team though light. Since joining the S. I. A. A. we have never had a weak team, we have had better and stronger scrub teams than ever before and our prospect for the future is bright.

It is charged that we have poor schedules and that therefore the games lack interest. Some even charge this upon the S. I. A. A. and go so far as to say that the Association stifles college spirit in this way. But what has the S. I. A. A. to do with our schedule? Do we not, while members, seize every chance to play good teams to the north of us. Why doesn't our team make a Northern instead of a Southern trip? For two reasons. First we can't get the schedule. Games with teams like Princeton or Pennsylvania or even Annapolis are not picked up every day. In the second place we can't afford it. Every Northern trip we have ever made except that to play the University of Virginia has been made at a loss. In the Princeton and Annapolis games in '99 we lost nearly two hundred dollars. Now our athletic association is not so strong that a few little things like that would not bankrupt it.

How about the one year rule. Isn't the one year rule almost a necessary precaution against "rounders." It may work some injustice in some cases but if it has injured us in one way it has helped us in others. Even Virginia admits that this is a good rule and declares her own intention of adopting it. Of course whether we have faith in this does not matter. If the one year rule injures us it also injures our peers. Sewanee has defeated us as often as she has been defeated by us and so has Vanderbilt. Finally if the rule is bad for all why not cut it and still have the S. I. A. A. as an organization to keep an eye upon professionals?

The long and the short of the matter is that pure athletics throughout the South demand such an organization as the S. I. A. A. Our athletics are now in better condition than before joining while our schedule is the best we could get if we were outside the association. Then why turn the stream of corruption once more into the South by destroying the door which keeps it out.

Cornell University Medical College.
New York City.

The session begins each year during the first week in October and continues eight months.

The course of instruction covers four years, but students who present credentials from accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations in those subjects which have been completed in previous years.

The essential features of the curriculum are—the daily recitations in small sections, the thorough laboratory instruction, and clinical and bedside teaching in dispensaries and hospitals by members of the faculty.

In the College building is a dispensary in which about 50,000 patients are treated yearly.

The facilities offered by the many large hospitals in New York are utilized to the utmost to familiarize the student by personal observation with the diagnosis and treatment of disease. Bellevue Hospital, the largest of all the city institutions, is directly opposite the college building. The circular of 1901-02 giving all details will be mailed on application to Wm. M. POLK, M.D., LL.D., Dean, CORNELL UNIVERSITY MEDICAL COLLEGE, First Avenue and 86th Street, New York, N. Y.

PENDING PROBLEMS IN HYGIENE.

Lecture by Dr. Paul Barringer of the University of Virginia.

On last Friday evening, in the College Chapel, Dr. Paul Barringer, Chairman of the Faculty of the University of Virginia, lectured to the students on "Some Pending Problems in Hygiene." His lecture was most interesting and instructive, and it was appreciated and enjoyed by all who availed themselves of the opportunity of hearing this distinguished son of Carolina.

In speaking of the wonderful advances that have recently been made in the medical profession Dr. Barringer said that the causes of such diseases as typhoid, tuberculosis, diphtheria, etc. are now known and if we continue to have them the fault is our own. Cancer, however, still remains a terror, having increased one hundred per cent in the last fifty years. It remains to be learned whether this is caused by living organisms or whether it has a chemical origin. In veterinary medicine the first protozoa were discovered in the cattle of Texas, and upon investigation it was found that they were caused by a tick. Remove the tick and you remove the fever.

Dr. Lincoln of Washington, D. C., once said in a half joking way that the mosquito was the cause of malaria. Recent discoveries have proved the truth of this statement and it is now known that mosquitoes do carry malaria and that this is the only way in which yellow fever is carried from patient to patient. In the Cuban hospitals yellow fever patients are placed beside those suffering from other troubles—separated from them only by mosquito screens.

Not all kinds of mosquitoes carry malaria. The common culex does not. There are three species of malarial mosquito in America. They may be known by the spots on their wings. They do not breed as the ordinary mosquito but require water on the ground. How does the mosquito carry malaria? It requires about twelve days, after the mosquito has bitten the yellow fever patient, for the protoplasmic elements to develop in the mosquito and get to the salivary gland from which they are injected into the body when the mosquito bites. The time, however, required for the development of these protoplasmic elements depends upon the warmth of the climate. It requires only 10 or 12 days in summer, whereas 25 or 30 days may be required in winter. If in the summer time the mosquito bites a yellow fever patient and then sixteen days later bites an immune, that one is sure to have yellow fever. There is no other way in which yellow fever is carried from patient to patient. Dr. Ried, a classmate of Dr. Venable's at the University of Virginia, has made remarkable discoveries in yellow fever and thrown long-needed light

on this line of study. For his great work in Cuba President McKinley told him he had done more for American commerce than all the acts of Congress since the inception of this government. February last there were 98 cases of yellow fever in Cuba; this year there are none. And all that is necessary to keep off the fever is to keep off the mosquito. "Medicine is not a science. It is the sum of a half-dozen or more sciences applied to one definite end. Within the last fifty years the medical course of study has increased from three or four months to four years of hard systematic work. The medical degree now requires an A. B. and four years of medical study. A doctor should be able to investigate, understand and record any case coming under his observation." The field of medicine is a broad one and one which offers unequalled opportunities for the man of brain and energy. Rapid advances are now being made but much remains to be known. "Ye shall know the truth and the truth shall make you free."

Athletics.

The time is drawing near when track work will begin. It is hoped that there will be a large "turn-out" both of old and new men. With our old men and some dark horses among the freshmen our prospects for a strong team are good but it will mean work on the part of everyone—there can be no resting on last year's laurels or condition. March 17 is the date set for the beginning of active outdoor work, providing that the weather will permit. Every man who expects to try for a place on the team will be expected to begin preliminary work in the gymnasium before February 25. Those men who anticipate entering for runs over half a mile are requested to do their preliminary work by cross-country running varying the distance from a half to two or three miles, runs to be taken daily.

E. VON DEN STEINEN, Coach.

Meeting of the Elisha Mitchell Society.

The Elisha Mitchell Scientific Society held its monthly meeting in the chemistry lecture room Tuesday night, Feb. 11th. The following papers were read "The Pressure of Light," by Mr. Latta, "A Nineteenth Century Geometry," by Dr. Henderson and "Some of the Properties of Atoms," by Dr. Mills. This was the most interesting meeting that the Society has had in some time.

Mr. Latta said in part:

For a long time, the problem as to the nature of light and the manner of its propagation through space has been given much attention by students of physics. What is perhaps the best work that has been done in this field during the last fifty years was done by Maxwell, who a few years ago formulated what is known as Maxwell's elec-

tro-magnetic theory of light. A part of this theory is the conclusion that light exerts pressure in the direction of propagation. According to Maxwell's calculation this pressure, at the surface of the earth, amounts to 0.000000000592 grams for each square centimeter of illuminated surface. Since this pressure must vary inversely as to the square of the distance from the center of the sun, it would, at the surface of that body, amount to 0.00275 grams per square centimeter. Therefore a cubical body having a volume of one cubic centimeter and the density the same as that of water would, at the surface of the sun, be acted on by a repellent force of 0.00275 grams. Because of the gravitational attraction, it would at the same time be drawn towards the center of the sun. But gravitational attraction is proportional to the mass of the body attracted; that is, in the case of a cubical body, to the cube of an edge. The pressure of light is proportional to the area of light illuminated; that is, in the case of a cubical body, to the square of an edge. Therefore, as the cubical body at the sun is taken smaller and smaller still, the repellent on it diminishes much less rapidly than does the attraction towards the sun's center. Similar reasoning holds for spherical bodies. Hence on very small particles the repellent force would overbalance the force of attraction, and such particles would be driven off into space by the pressure of light.

Use has recently been made of the pressure of light theory in explaining why the tails of comets are always directed away from the sun. Astronomers generally hold the opinion that cometic matter consists of hydrocarbons of low specific gravity, and it is known that all observed comets have passed very near the sun. Four or five have passed within 300,000 miles of that body. Recent theory holds that, as the comet draws near the sun, small particles of cometic matter are driven backward by the pressure of light and made to form the train of matter, which this pressure keeps pointing away from the sun, and which is known as the tail of the comet.

The pressure of light theory is also an explanation of the aurora borealis. It is that negatively charged particles of matter thrown off from the sun; that those coming towards the earth are captured by the earth's line of magnetic force; and that as these charged particles move along the line of force toward the magnetic pole they encounter dense layers of the earth's atmosphere and caused to glow, thus giving the streamers of light known as the aurora.

Dr. Henderson said in part:

The idea is very prevalent that geometry is the same today that it was in Euclid's time over two thousand years ago.

Among the various new systems

of geometry constructed in the last few centuries, one in especial—the Geometry of Position—set up and constructed in the 19th Century is of peculiar interest.

The geometry of the ancients is in essence metrical; the Geometry of Position description, lacked generality, the latter is always continuous, with generalizations to infinity.

The ancients, notably Euclid, Apollonius, Pappus and Menelaus, were aware of a few of the fundamental principles of modern geometry but the construction of system, wholly independent of the method of the ancients, was the work of Carnot, Monge, Poncelet, Steiner, Von Standt and Charles.

Poncelet wrote his monumental work with its enunciation of the principle of duality while confined in a Russian prison; Von Standt, the Euclid of modern geometry, constructed a marvellous theory of geometrical imaginaries—almost incredible achievement.

The modern method of graphical statics one in great measure the outcome of the discovering of modern geometry; hundreds of mechanical and engineering problems are most conveniently and elegantly solved by modern methods. Modern Analytic Geometry is in reality the algebraic side of Modern Pure Geometry. In a word the great principles of continuity and reciprocity, together with that potent factor generalization, have given the geometry of the nineteenth century a distinction peculiarly unique, modern and essentially great.

The principles of continuity and duality were represented by figures on the blackboard.

Dr. Mills said in part:

The problem is to find the properties of particles one thousand times smaller than the smallest particle microscopically visible. Joule in 1857 gave the first approximate measure of the average molecular velocity making use of the kinetic theory of gases and the mechanical fact that the blow delivered does not depend on the number of particles but only on their mass. Maxwell made use of the Calculus of probability and the principles of the conservation of energy to deduce more accurate estimates. Thus the motions of the particles becomes known.

The free path of a molecule and the number of collisions per second are obtained by measurements of the viscosity, diffusion and conductivity of gases and these methods give substantial agreement. The size of a molecule can be best estimated from measurements made on the index of refraction and the dielectric capacity. The size in connection with the foregoing theories gives the number and knowing the number in a given space their mass and distance apart are easily obtained. The results are startling but can be regarded as fairly accurate estimates.

Subscription Price, \$1.50 per Year.
Payable IN ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

Most of the debaters who will represent us in our three contests have now been chosen and the scrub contests are almost upon us. We have excellent material—men well calculated to uphold the honor of the Societies and the University which they represent. Some there are who have before this represented us in our contests and the able manner in which they did so is still fresh in our memory. The others though yet untried in intercollegiate debates, have behind them a brilliant record of success in society and inter-society work and we know from this first what we may expect. Each is imbued with a keen sense of the responsibility which rests upon him and each has the determination to do or die. With such men entering into this work, as they do, we can expect nothing but victory for Carolina.

But there is something which we students should remember. Let us not for a moment entertain the mistaken idea that these men, since they go from the two Literary Societies, are the Society representatives alone. They represent, not one or two organizations in the University, but the entire University. These debates are not between Georgia or Vanderbilt or Johns Hopkin's and the Dialectic and Philanthropic Societies of the University of North Carolina but between these respective institutions and our own and their outcome is of vital interest to every student whether he is a society member or not. They are of just as much importance as our foot ball or base ball games with other institutions for they represent our ability in intellectual as the others do in athletic contests.

Let us not, however, forget this when the time comes, but let each student encourage and assist our representatives in every possible way and we need have no fear of the outcome.

We desire to impress upon all who are contemplating working on the Track Squad, the necessity for a prompt response to the call of the Coach and Captain. In another column of this issue appears a notice, fixing the date for the beginning of

the regular out-door work and urging all candidates to begin, as soon as possible, the preliminary work so essential to the attainment of the condition which insures success.

The inclement weather of the past week or so has seriously handicapped the work in all branches of our athletic life. This renders it all the more imperative that when work does begin again it should be harder than ever. We have excellent prospects for a winning team and besides we have a reputation to uphold. Last year's team won the S. I. A. A. championship at Tulane. The track team of '02 will duplicate the trick.

Library Reading Course Prizes.

Two prizes of the value of fifteen and ten dollars, respectively, will be awarded to the two members of the class of 1904 who do best and second best work in a general reading course known as the Library Reading Course. These prizes are offered by friends of the Library, will be awarded by a committee of three from the faculty. Full information concerning the conditions of competition can be had by referring to the bulletin of the Library, or by consulting the Librarian. The following are the general requirements of competitors:

- (1) The course is open to members of the class of 1904 who are duly registered and are pursuing regular courses of study leading to the degree of A.B., B.S., or Ph.B.
- (2) On or before March 8, 1902, all competitors must notify the committee of their intention of entering the course and must consult one member of the committee upon the work they wish to do. The notice must be submitted in writing.
- (3) On or before May 9, 1903, a list of the books read must be submitted in writing to the committee and all competitors must be examined. The examination of each competitor will be based upon his individual list and will be conducted in such a way as the committee thinks best.
- (4) Books read previous to Mar. 8, 1902, or books read after that date in connection with any course, whether counted for degree or not, must not be submitted.

Perhaps the Harvard student who won a three-dollar bet by getting on the outside of three beefsteaks, two mutton chops, two dishes of peas, two cups of coffee and two pints of water at a single sitting is working to receive the degree of D. Ph. at the next commencement season.

The two literary societies of the University of Alabama are incorporated under the laws of the state and have power to receive and hold personal and real property, to sue and be sued, plead and be pleaded, to have and use a common seal, and to pass all laws for the internal government of said society, not inconsistent with the Constitution and laws of that State, nor with the by-laws and regulations of the Trustees and Faculty of said University.

The Harvard undergraduates are trying to arrange an international debate between Yale and Harvard on one side and Cambridge and Oxford on the other.

Locals.

Mr. John K. Ross has been selected by the Y. M. C. A. as a delegate to "The International Convention of the Students Movement for Foreign Missions" to be held in Toronto, Canada. Mr. Ross is a member of the Medical class and expects to be a medical missionary.

Mr. A. W. Harrison '05, who has been sick with pneumonia for some time, died Wednesday night. Mr. E. D. Sallenger and Mr. Harrison's father accompanied his remains to Plymouth, N. C.

Messrs. G. L. Jones '03 and S. Newton '04 left last Thursday for the Charleston Exposition. They returned Wednesday and report a very enjoyable trip.

Stationary, visiting cards, etc. sold by E. D. Sallenger at S. M. Barbee's. Paper on hand: S. A. E., Sigma Nu, Phi Delta Theta and U. N. C. monogram.

Messrs. E. D. Sallenger and E. G. Moss spent Monday in Durham.

The Philanthropic and Dialectic Societies have contributed \$25.00 to the fund that is being raised to erect a monument to Sir Walter Raleigh.

Messrs. T. A. Adams and Chas. Ross have been chosen respectively by the Phi and Di Societies, to represent the University in the Vanderbilt-Carolina Debate. Mr. Adams has been both an Inter-Society and a Scrub debater. Mr. Ross although a new man has quite an enviable reputation as a speaker.

The Johns Hopkins Scrub debaters are, Mr. Gold from the Di. and Mr. Hassel from the Phi.

Dr. Battle lectured in Raleigh Tuesday evening.

Judge MacRae made a business trip to Raleigh last Saturday returning to the Hill Tuesday.

Prof. Noble has been away from the Hill for several days.

Dr. Bruner was called away from the Hill on business, Monday.

Dr. B. W. Kilgore, State Chemist, gave a very valuable lecture on "Soils" in the Chemistry Lecture Room Monday night. He also lectured before the class in Industrial Chemistry Tuesday morning.

Mr. D. P. Stern spent last Friday night in Greensboro. He returned Saturday and distributed "blessings" among his friends.

If you want anything in the drug line Eubanks keeps it.

The "Washington's Birthday" exercises, under the auspices of the Literary Societies, promise to be even more interesting than usual this year. A new feature will be introduced—music by the Mandolin and Guitar Club. This being the first public appearance of the Club since its inception last fall every one should make it a point to be present.

Washington's Birthday.

On February twenty-second, the usual Washington's Birthday exercises will be held in the Chapel. There will be orations by representatives of each Society, together with an address by Prof. Raper. Music by the Mandolin and Guitar Club. All are invited.

(Continued from 4th page.)

members to reach another class on time. It means that students will have to stop taking certain desirable(?) courses or else go on a class late, be marked absent, and just sit there for the fun of the thing, which is a very questionable way of getting amused.

Now a few other things. More than a certain number of dances cannot be held in Commons. What reason is given no one seems to know. "We've got the keys and you shan't have them" says the Faculty and hence no dancing.

A University team cannot play a certain other team, nearby, because some member or members of the Faculty thinks it would stir up a "needless" discord in the town in which the School is situated. Again a certain Lecturer here last Spring who made a decided "hit" and who was clamored for again by the students of at least one of the Literary Societies, was not put on the Lecture course this year, because some one in the Faculty thought he said things that were improper, and to my knowledge, no lecture in recent years here, has left a profounder impression than the "Harp of the Sen-es."

Now what will happen next, the Lord only knows. Lights out at ten, taps, tattoo, early morning roll call and these other things. Certainly the present tendency is not a University tendency, but more like a High School or Academy.

What I have written, long as it is, needs no apology. The students feel that the University standard is being lowered by arbitrary rulings and very righteously they protest. "I would have it a place where there is a breath of freedom in the air" is a sentiment that finds lodgment in all our hearts.

COMMUNICATIONS.

The Editors welcome all articles of a timely nature for publication in this column, though they do not hold themselves responsible for the sentiments expressed therein.

To the editor:

In behalf of the student body of this University, I want to enter a protest—a very righteous one, it seems to me—against the "preppish" laws that have been put into operation during the last few months.

A University is supposed to be composed of young men, not boys, men who are old enough and have sense enough to know how to behave themselves, in general, how to act correctly without harsh and arbitrary laws and threats.

I do not argue for the abolishment of all the regulations here. Far from it—but the regulations that existed two years ago are very sufficient. The order of behaviour and the attendance on duties was as good then as it will ever be.

But somebody—the Faculty, I suppose—were not satisfied with existing conditions. The "Grat" system was changed. Only five absences were allowed in a month's time. For awhile this change was generally discussed and more generally "cussed," but it is still in operation and "kicks" against it are no longer made.

This scribe, whatever his opinion on that matter may be, does not intend to break the peaceful acquiescence with which that is accepted, but he does want to protest against more recent rules.

First and foremost is this. Several students have been summoned before the Executive—Dean or President—and have been warned or threatened that if they missed chapel or classes more than once or twice more in a certain period, they would be sent home. Now for one, I believe that if every person so warned had "gratted" again, he would not be "shipped" The students would rise in revolt against such a thing, but nevertheless, just the fact of saying to a student here, that for one or more absences from class he would be expelled, is extremely distasteful to a University man.

Then the Faculty met again. One week before February, they decided that all Senior deficiencies must be stood off during the first week in February. They gave about five days notice of a change that was of great moment to many Seniors. Trig, Conics, Algebra, Geometry, Physics, German, English, Chemistry and Psychology in one week. No mortal man could have begun to prepare more than one or two subjects with any hopes of success. Of course the Seniors "kicked." They were recognized a very little. All the work must be stood in one week, but that week has been postponed until the last of March. And the—poor senior who fails—no further trials till May.

And then the Faculty met again. And listen, brethren of the University. How is this for "preppishness" proper? If a student enters a class late twice during one month he is "kept in"—no, I mean marked absent. A pretty pass truly—when certain of this same Faculty never dismiss a class in time for the

Samples kept at Chapel Hill the year round. Call on

DRANE and MOSS, Agents

Cornell University Medical College, New York City.

The session begins each year during the first week in October and continues eight months.

The course of instruction covers four years, but students who present credentials from accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations in those subjects which have been completed in previous years.

The essential features of the curriculum are—the daily recitations in small sections, the thorough laboratory instruction, and clinical and bedside teaching in dispensaries and hospitals by members of the faculty.

In the College building is a dispensary in which about 50,000 patients are treated yearly.

The facilities offered by the many large hospitals in New York are utilized to the utmost to familiarize the student by personal observation with the diagnosis and treatment of disease. Bellevue Hospital, the largest of all the city institutions, is directly opposite the college building. The circular of 1901-02 giving all details will be mailed on application to Wm. M. POLK, M.D., LL.D., Dean, CORNELL UNIVERSITY MEDICAL COLLEGE, First Avenue and 28th Street, New York, N. Y.

THE TAR HEEL.

Vol. 10,

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., February 27, 1902.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

DECLARATION AGAINST ILLITERACY.

Address to the People of North Carolina, by Conference of Educators, Held in the Governor's Office in Raleigh, February 13th. The Names of the Signers.

Profoundly convinced of the prophetic wisdom of the declaration of the Fathers, made at Halifax in 1776, that "Religion, morality and knowledge being necessary to good government, schools and the means of education shall forever be encouraged"; and cognizant of the full meaning of that recent constitutional enactment which debars from the privilege of suffrage, after 1908, all persons who cannot read and write; and relying on the patriotism and foresight of North Carolinians to deal with a great question that vitally concerns the material and social welfare of themselves and their posterity, we, in an educational conference assembled in the city of Raleigh, this February 13, 1902, are moved to make the following declaration of educational facts and principles:

1. Today, more fully than at any other time in our past history, do North Carolinians recognize the overshadowing necessity of universal education in the solution of those problems which a free government must solve in perpetuating its existence.

2. No free government has ever found any adequate means of universal education except in free public schools, open to all, supported by the taxes of all its citizens, where every child regardless of condition in life or circumstance of fortune, may receive that opportunity for training into social service which the constitutions of this and other great States and the age demand.

3. We realize that our State has reached the constitutional limit of the taxation for the rural schools, that she has made extra appropriations to lengthen the term of these schools to 80 days in the year. We realize, that the four month's term now provided is inadequate, for the reason that more than 20,000,000 children of school age in the United States outside of North Carolina are now provided an average of 145 days of school out of every 365; that the teachers of these children are paid an average salary of \$48 per month, while the teachers of the children of North Carolina are paid hardly \$25 per month, thus securing for all the children of our sister States more efficient training for the duties of life. And we realize that, according to the latest census report and the report of the U. S. Commissioner of Education, for every man, woman and child of its population, the country at large is spending \$2.83 for the education of its children, while North Carolina

is spending barely 67 cents; that the country at large is spending on an average of \$20.29 for every pupil enrolled in its public schools, while North Carolina is spending only \$3 or \$4, the smallest amount expended by any State in the Union. And still further do we realize that the average amount spent for the education of every child of school age in the United States is approximately \$9.50, while North Carolina is spending \$1.78.

These facts should arouse our pride and our patriotism, and lead us to inquire whether the future will not hold this generation responsible for the perpetuation of conditions that have resulted in the multiplicity of small school districts, inferior school houses, poorly paid teachers, and necessarily poor teaching; that have resulted in twenty white illiterates out of every 100 white population over ten years of age; in generally poor and poorly paid supervision of the expenditure of our meagre school funds and of the teaching done in our schools; and, finally in that educational indifference which is the chief cause of the small average daily attendance of about 50 pupils out of every 100 enrolled in our public schools.

We believe the future will hold us responsible for the perpetuation of these unfavorable conditions, and therefore, we conceive it to be the patriotic, moral and religious duty of this generation of North Carolinians to set about in earnest to find the means by which all our children shall receive that education which will give them equal opportunities with the children of other sections of our country.

4. Viewing our educational problems and conditions in the light of educational history and experience, we declare it to be our firm conviction that the next step forward for North Carolina, in education, is to provide more money for her public schools, making possible the consolidation of small school districts, the professional teacher, and skilled supervision of the expenditure of all school funds and of the teaching done in the schools.

The history of the adoption of the principle of local self help by our 35 graded school towns and cities must surely be an inspiration and an example to every village and rural community in North Carolina. Those towns and cities have adopted the only means at hand for the adequate education of their children. In adopting this principle, local taxation, they secured: first, adequate school funds; second, competent supervision; third, skilled teachers. Lacking any one of this educational trinity no community has ever yet succeeded in establishing the means of complete education for its children.

Those 35 towns and cities in our borders have followed the lead of other sections of the United States in adopting first the means of education, local taxation. The fact

that 69 per cent of the total school fund of this Union is now raised by local taxation, while North Carolina raises only 14 per cent of her funds by that means, and lags behind all her sister States in every phase of public education, has both its lesson and its warning.

5. Remembering that in the last year nearly thirty communities in North Carolina, some of them distinctly rural, have adopted the principle of local taxation for schools, we think this time very auspicious to urge a general movement of all our educational forces in that direction, and, therefore, we appeal to all patriotic North Carolinians; men and women, who love their State, and especially that part of their State which is worth more than all its timber, lands, mines, and manufacturing plants, to band themselves together under the leadership of our "Educational Governor" and the State Superintendent of Public Instruction, aided by the Southern Education Board, to carry forward the work of local taxation and better schools, to the end that every child within our borders may have the opportunity to fit himself for the duties of citizenship and social service.

And, finally, heartily believing in the Christlikeness of this work of bringing universal education to all the children of North Carolina, we confidently rely on the full co-operation of all the churches of the State, whose work is so near the hearts of all the people, and, therefore, appeal to the pulpit to inculcate the supreme duty of universal education.

Charles B. Aycock, Governor of North Carolina; T. F. Toon, Superintendent of Public Instruction; John Duckett; Charles D. McIver, President State Normal and Industrial College; F. P. Venable, President University of North Carolina; George T. Winston, President College of Agriculture and Mechanic Arts; Charles E. Taylor, President Wake Forest College; Edwin Mims, Trinity College; Henry Louis Smith, President Davidson College; Charles H. Mebane, President Catawba College; J. O. Atkinson, Elon College; T. D. Bratton, President St. Mary's College; R. T. Vann, President Baptist Female University; L. L. Hobbs, President Guilford College; O. G. Vardell, President Red Springs Seminary; J. D. Carlyle, Wake Forest College; J. L. Kesler, Baptist Female University; J. Y. Joyner, The State Normal and Industrial College; D. H. Hill, College of Agriculture and Mechanic Arts; J. W. Crawford, Jr., Rutherford College; J. I. Foust, The State Normal and Industrial College; M. C. S. Noble, University of North Carolina; Henry Jerome Stockard, Peace Institute; F. P. Hobgood, President of Oxford Seminary; Robert Bingham, Bingham School; J. A. Holt, Oak Ridge Institute; Hugh Morson, Raleigh Male Academy; D. Matt Thompson, Superintendent Statesville Public Schools; C. L. Coon, Superintendent Salisbury Public Schools; E. P. Moses, Superintendent Raleigh Public Schools; R. J. Tighe, Superintendent Asheville Public Schools; T. R. Foust, Superintendent Goldsboro Public Schools; E. P. Mangum, Superintendent Wilson Public Schools; E. C. Brooks, Superintendent Monroe Public Schools; Alexander Graham, Superintendent Charlotte Public Schools; Frank H. Curtis, Superintendent Burlington Public Schools; Harry Howell, Superintendent Washington Public Schools; W. D. Carmichael, Durham Public Schools; W. S. Long, County Superintendent of Alamance; J. A. Anthony, County Superintendent of Cleveland; J. A. Butler, County Superintendent of Iredell; E. Ray, Superintendent of the School for the Deaf, Dumb and Blind; E. McCaskey, Superintendent of the School for the Deaf, Dumb and Blind; Secretary.

Baseball at the Big Four Southern Colleges.

Our big games with Yale, Harvard and Princeton draw our attention to the probable strength of these three teams. By graduation or for other reasons, Yale has lost seven of last year's team, Harvard four and Princeton only one. From this it is evident that without considering new material, Princeton is strongest, Harvard second, and Yale third. The Princeton team is practically intact, and is said to have in Underhill and Green one of the strongest batteries that have ever been on a college team. Harvard, however, still has Kernan and Clarkson, and, with such a battery on the field, there is a strong probability of her holding her own.

A. Z. Galbraith, shortstop on the Harvard team of 1899, has been appointed head coach of the Harvard baseball team.

Ed. Ashenback, the well-known baseball player has been engaged to coach the baseball team of the University of North Carolina for the season of 1902.

The schedule of the baseball games to be played by the Princeton University team has been announced. William Clarke, catcher of the Baltimore team, has been engaged as coach. Twenty-eight games in all will be played, of which four will make up the Southern trip. The Southern schedule is as follows: March 28, Johns Hopkins at Baltimore; March 29, Georgetown; April 1, University of Virginia, at Charlottesville; April 2, University of Virginia, at Charlottesville.

Among other games to be played by the Cornell baseball team on their Southern trip, Manager J. A. Kinnoy announces the following: April 5, Clemson College, at Clemson, S. C.; April 4, Furman University, at Greenville, S. C.; April 5, University of North Carolina, at Chapel Hill; April 7, University of Virginia, at Charlottesville. As Virginia comes last on this list a comparison of scores will be interesting.

Blacksburg will make an extended Southern trip this Spring. They play V. M. I. (in Charleston, S. C.) Charleston Athletic Club, South Carolina College and Davidson within a few days prior to their game at this place.

The prospects for a good team as given out by them are fairly bright. Their pitcher of last year is now at Cornell, and the most promising twirler so far developed has left the school. The other positions on the team will be filled mainly by old men.

Lehigh University's baseball schedule for the coming season includes the following:

March 27 and 28, University of Virginia, Charlottesville; March 31 and April 1, University of North Carolina at Winston and S. N. C. F. R. D. respectively; April

SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes her whole college will aid it along this line.

During this week active outdoor work for the track team candidates will begin. In our last issue we published a statement from Mr. von den Steinen, the Coach, urging all candidates to avail themselves of the regular gymnasium exercises as a preliminary to the outdoor work. The response to this call has not been as large as expected.

The success of our track-team this year depends much upon this preliminary work. It is essential to the development of a winning team and each candidate should realize this. There are none who are in such an excellent condition that they do not need this work, so let all come out immediately.

There is another thing. The general student body does not exhibit the interest in track athletics that it should. Why this is the case we will not try to explain. Track work receives due recognition at other Universities; in fact it is ranked along with foot-ball, baseball, and crew work. Perhaps the apathy here is due to the fact that this branch of athletics is a recent innovation and hence has not, as yet, existed long enough to excite its share of interest.

In a recent issue of "College Topics," an article appeared advocating the movement, just begun, for a track team at Virginia. If this is accomplished we may, in all probability, soon have an opportunity to compete with Virginia in this line.

Vanderbilt was our most serious rival last year at the S. I. A. A. meet and their team has been strengthened this year by several new men. Sewanee men are working hard and so are those at Tulane and Texas. These will probably all compete against us this year, with perhaps one or two others.

From this it will be seen that our laurels won last year are in danger. Let us work hard and they will never be taken from us.

The Washington's Birthday exercises held in Gerrard Hall last Saturday were perhaps the most successful held in recent years.

Two orations and the address were unusually good. The first of the "Mandolin"

For 108-2280

Cess.

The "Tar Heel" wishes to extend congratulations to the Societies and to Mr. Woolen, the director of the "Mandolin and Guitar Club."

Harvard conferred its first L. L. D. degree upon George Washington. Is that Yale's justification for Booker's?

Hereafter B. A. will be the only degree conferred, in the academic department, at the University of Texas.

In the Indiana football game, the presidents of the two universities led the rooting.

A training table for the Princeton University basketball team has been started for the first time.

Washington and Lee University requires its professors and instructors to wear caps and gowns in the class room.

The Harvard basketball team has engaged a professional coach in preparation for the games with Yale and Princeton.

The Harvard baseball training quarters on the Southern trip will be at Annapolis.

The Rev. Dr. Henry Hopkins of Kansas City has been elected president of Williams College.

A three year course for the degree of A. B. has been established at Harvard.

President Roosevelt has been invited to be honorary president of the Olympic games which will be held in Chicago in 1904.

Yale student (translating Virgil): "Three times I strove to cast my arms about her neck and—that's as far as I got, professor."

Prof. "Well, Mr. Evarts, I think that was far enough."—W. M. A. Trumpeter.

With the Societies.

Phi Society: Debate, Resolved, That we should adopt the penny postage system. The affirmative won. Mr. Taylor made the best speech.

Di Society: Debate, Resolved, That the Federal Government should own and control our railways. The affirmative won. Mr. Hester made the best speech.

(Continued from 4th page)

mentally opposed to Democracy.

In the Social phase, this operates slowly but is striking a blow at the very root of democracy and forming in this country the germs of an aristocracy of the moneyed. Let us see further what will happen if this tendency goes on. Since future is best read in the light of the past let us take examples of a nation most like us in the past, Rome. Many points of similarity in trust, imperialism, and class subordination appear. The unchecked tendency with her caused the ruin of her democracy.

Thus the contest between democratic principles and the tendency to put power in the hands of a few is on. This gradual growth of opposing influence is most dangerous thing against our democracy for it has stood the shock of arms unhurt. A danger not to be met by force but intelligent understanding and determined opposition. The 19th century under guidance of our democratic principles has brought us great honor and prosperity, what the 20th shall bring is in the power of the American people to decide.

The synopsis of the addresses by Mr. Ivie and Prof. Raper will appear in next weeks of "THE TAR HEEL."

For 1914-1915 Catalogue, address The President.

Washington's Birthday.

Washington's Birthday exercise—consisting of music by the University Mandolin and Guitar Club, orations by representatives from the two societies, and an address by Prof. Raper—were held in the chapel last Saturday. The President, Mr. G. V. Roberts (Di) called the house to order and in a few remarks announced the purpose of the meeting. The Secretary, W. W. Eagles (Phi), then read the minutes of last meeting after which the following program was rendered:

Music.

Oration,

"The American Democracy"—
Mr. H. B. Short (Phi).

Music.

Oration,

"The Relation of the University Student to the State"—

Mr. A. D. Ivie (Di).

Music.

An Address by Prof. Raper.

Benediction by Dr. Hume.

Mr. Short spoke essentially as follows:

Washington was a great man, great in many respects but his chief claim to greatness lies in his having done so much to establish this American Democracy. It is well that we today examine the present condition of this Democracy. It is based on three great principles, equality, just powers coming from consent of the governed, and democratic principles originating in the people, being administered for the people, by the people. It is a rule of the many and any attempt to impair its influence must come in a tendency to put power in the hands of a few. So let us see if this tendency is making headway against our democracy today. There are three phases to our national life the economic, the political and social. Let us look at the condition of our democratic principles in each, first the economic side.

Here the tendency to power in the hands of a few shows itself in the modern trust where many interests are controlled by few men. This is against the principles of equality for the essence of industrial equality is for each citizen to control his own hand and his own brain for his own welfare. It is against the principle that governments deriving just powers from the consent of the governed since it has prevented bills from becoming laws when the people not only consented but demanded them. It is also against the 3rd principle for trusts do originate among the people nor are they administered by the people for the people's good.

The tendency to put power in the hands of a few is seen in imperialism which is due to the adding of power to the central government since the government began. This is against the first principle, equality, since Americans in the Philippines hold all the offices, while Filipinos hold practically none. It is against just powers coming from consent of the governed since these can be no consent from a people who are in arms against us. It is against the third principle since Filipino institutions originate in America and are administered by American soldiery for the benefit of American capital. This is funda-

Cornell University Medical College. New York City.

The session begins each year during the first week in October and continues eight months.

The course of instruction covers four years, but students who present credentials from accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations in those subjects which have been completed in previous years.

The essential features of the curriculum are—the daily recitations in small sections, the thorough laboratory instruction, and clinical and bedside teaching in dispensaries and hospitals by members of the faculty.

In the College building is a dispensary in which about 50,000 patients are treated yearly.

The facilities offered by the many large hospitals in New York are utilized to the utmost to familiarize the student by personal observation with the diagnosis and treatment of disease. Bellevue Hospital, the largest of all the city institutions, is directly opposite the college building. The circular of 1901-02 giving all details will be mailed on application to Wm. M. POLK, M.D., L.L.D., Dean, CORNELL UNIVERSITY MEDICAL COLLEGE, First Avenue and 28th Street, New York, N. Y.

THE TAR HEEL.

Vol. 10.

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., March 6, 1902.

No. 20.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

ATHLETICS,

Approaching Game. Coach. League Players.

In the last issue of the *Tar Heel* was an article taken from the *College Topics* on "Baseball at the Big Four Southern Colleges." The writer pointed out that Cornell, on her Southern trip, would play the "Big Four" and as Virginia came last a comparison of the scores would be interesting. The interesting point of the article to us is the fact that it calls to mind the nearness of the approaching season. Only sixteen days are to elapse before the game with the Oak Ridge Institute is to be played, only eighteen days before the games with Lafayette.

This is a short time, but if every moment possible is utilized in practice, as has been the case during the past few weeks, we will doubtless be ready for the contests. While the earth was submerged by snow the ball men did effective work in the Gymnasium, and since its disappearance, there have been some intensely interesting games on the field.

There are many points that presage a successful season for us, (1) the number of men to select from, (2) the captain and (3) the coach. During the early part of the football season last fall, we were constrained to ask the students to manifest some spirit, some interest in the football work. This has been absolutely unnecessary thus far this spring. The number of contestants for the different positions, and the keen rivalry, inevitable under such conditions, gives an interest to the students in the games, that no other conditions could afford. Every afternoon the diamond is surrounded by spectators, and well repaid are they for coming out.

The two contestants upon which all eyes are at this period centered, are Wilcox and Sweeney. These twirlers are closely matched, and the students are eagerly watching for a manifestation of superiority in one over the other. Both are calm and confident in appearance, but to the eye of the close observer, a feeling of uncertainty is seen occasionally to lurk out.

The contestants for the position of catcher are also attracting attention. This is generally considered the weakest point in the prospective make-up of our team, but the feeling doubtless comes from comparing all catchers to the incomparable catcher, Graves E.

The coach is confident that from the four candidates a good man will be secured. Council feels that, after securing his position on every other team he cannot fail in this, while Graham, Wilcox and Patterson feel equally confident of success. In the meantime the students are observing with interest

the development of the men. For third base there is some doubt and therefore interest in the contestants. Smathers is superior to his competitors in every respect except one. He can't hold a pop-fly. This deficiency will doubtless be overcome.

At every position, for that matter, there is rivalry. In next week's issue a criticism of the individual players will be given.

As for the Captain all are familiar with his history as a baseball player and his qualification for the position he now holds.

But a few words with reference to the Coach may be of interest. Ashenback was born in Cincinnati in 1872. In early boyhood he played on amateur teams in his native city, and before his eighteenth birthday

of the Va-N.C. League.

Ashenback is engaged this year to play on the Charlotte team, and as soon as the season opens, he will leave for that city.

From the above facts it is evident Ashenback is eminently qualified to coach our team to success. He has an exuberance of wit, which though often displeasing to the victims, still enlivens the game and affords a novelty to the students.

He proposes to pay explicit attention in the near future to base-running and the development of a catcher.

Another factor of importance in the development of our team and one that will increase interest for the next few weeks, will be the presence of the Philadelphia American League players. If the weath-

COACH E. M. ASHENBACK.

was engaged to play on the team of Canton, Ohio. This team was at that time a member of the Tri-State league of 1890. Associated with Ashenback on this team was Cy Young, one of the speediest twirlers that ever faced a batter.

In 1892-'93 Ashenback joined the Allentown team of Pennsylvania State league, at that time the strongest minor league in America. In 1895 he went South and joined the Rollers club. At that period the club was under the control of Ted Sullivan, and the team turned out was no other than Sullivan's famous "Texas Steers" which has gone down in baseball history as a world record breaker. Twenty-four consecutive games were credited to them before they finally lost in a sixteen-inning contest.

In 1898 Ashenback was engaged to play on the New Castle team. Here he distinguished himself, in fact winning the pennant. When the Virginia State League was formed in 1899, he became a member with control of the Hampton nine. Here he made great success and in 1901 was the chief promoter

er permits work we should derive incalculable advantage from practice with these veteran ball players. Barnhard, the famous All American, is among the number that will be down here, and many points will doubtless be gained from this great player.

A. W. Mangum, well known some years back as a Varsity baseball player, has returned to College with the intention of again playing ball. He was a few nights ago elected captain and coach of the scrubs, and with the following men who compose his team, is doing some brilliant work: Catchers, Wilcox, Council, Patterson, and W. A. Graham; pitchers, Mangum, Smith, McDonald; infield, Brem, Pritchard, Graves, Worth, Cheshire, and Graham, G.; outfielders, Hill, Fenner, and Jacocks.

The track work begins March 27th. Next week's issue will contain a list of the different candidates, but in the meantime it would be well for the management to consider the condition of the track.

Prof. Cobb's Lecture.

Sand Reefs of the North Carolina Coast.

For a number of years Professor Collier Cobb has spent portions of his vacations on the sand and coral reefs of the Atlantic coast, and on Thursday evening last he gave a most interesting lecture on the Sand Reefs of the North Carolina Coast to a crowded house in Gerard Hall. The lecture was illustrated by more than sixty stereopticon views from photographs taken by Professor Cobb in his several trips to our coast.

These reefs constitute a chain of long and narrow islands, lying off the mainland and extending for three hundred and fifty miles of our coast, a barrier between our sound and the sea. The waves, rolling in from the sea, break when they strike shallow water, and deposited on the slightly submerged continental shelf the sand which they hold in suspension. In this way these Banks, which form such a peculiar physical feature of our coast, have been formed. They vary in breadth from a few yards to five miles, and in length, two to thirty-two miles.

The views, after the maps, began with a photograph of the old Fryling-pan Shoal light-ship, anchored upon a shoal at the extreme southern point of the state some miles from land. The palm trees and other tropical plants on Smith's Island were a revelation to many of us, as were also the broad sand-waves which have been slowly and steadily marching across many of the islands since the cutting of the live oaks by ship mowers about the time of the Civil War. Many of these islands have upon them wild goats or wild sheep, and herds of small marsh ponies roam over several of them. These ponies are a hardy breed native to the island, and receive no care from the inhabitants except at the annual pony-penning. The wind-mills, the small straw-thatched huts and the bull-pens of the fishermen together with the live oaks, palms, and fan palmettos, make one think of Holland and of Africa more than our own country. The fan palm is found on Hatteras, which is the northern limit of the palmetto, though no palms of any kind are found on the islands south of Hatteras until Smith's Island is reached.

Numbers of small islands within the reefs were occupied by attractive club houses of northern hunters, but the account of Hatteras was the most important portion of the lecture. This island is more than 25 miles from the nearest point of the mainland, and 65 miles from the nearest town of any size. The tall lighthouse, the wireless telegraph station, the Weather Bureau signal station, the life saving stations, and the new light-ship on Diamond Shoal, furnished with electric apparatus which sends a perpendicular

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes her whole college will aid it along this line.

From a recent issue of the "Washington Post" we clip the following:—

Phil King the Washington boy who has had charge of the University of Wisconsin's athletics for the last four years, has been prevailed on to consider his intention of giving up that position in order to devote himself to business in this city.

King announced early last fall that this year would be his last at Wisconsin. He stated that he wished to go into business and gave as another season for leaving the statement that a new man in charge of Wisconsin's athletics might result in a much-needed impetus to the athletic spirit of the institution. Wisconsin cast her line in many directions for a successor to King, but no one could be found who measured to the standard set by the little Princeton star. As a last resort Wisconsin made a final appeal to King and the appeal was successful. King is given the rank of professor at Wisconsin and draws a salary of about \$4,000 a year.

We would take pleasure in congratulating Wisconsin upon securing the services of such an efficient coach were it not for the peculiar measures adopted by her athletic association and faculty in accomplishing this end. "Is not this going too far?"

After all the attacks by Northern and Western publications upon the "rotteness" of athletics in the Southern universities this sounds strange. We may with impunity request that they first pluck out the beam from their own eyes. Then, indeed, and not until then, will they be able to see clearly how to cast out the mote from the eyes of their sister institutions of the South.

We turn with relief to a clipping from another exchange which reads as follows:

Owing to objection by the faculty the baseball team of Columbia University will not be allowed to have the services of "Ted" Lewis a coach this season. Lewis is now instructor in elocution at the university, and it is on the ground that it would not be compatible with his position as a member of the faculty to be a professional coach that the objection is raised.

Good for the Columbia faculty!

They evidently know when the limit is reached.

We desire to apologize to the students of the University and to "College Topics" for a mistake in the printing of the last "Tar Heel." The article on "Baseball in the Big Four Southern Colleges" was a clipping from the above mentioned paper, inserted in order to give our students some idea of the opinions of our Virginia friends on the baseball outlook in the South.

Owing to a mistake by the printer no mention was made of the fact that it was taken from this paper and the article was thus, not only robbed of its significance but was apparently an appropriation of news without acknowledgement. We trust that this apology will be satisfactory to all parties.

(Continued from 4th page.)

on the shoulders of the South, which for thirty years has been demanding solution at her hands. Neverbefore were two distinct races called to walk side by side, with equal privileges in every phase of life, and bidden by all that is sacred and just to remain separate and distinct. The Negro's absolute rights should be weighed to him in the highest scale of justice. Yet in justice to ourselves, our homes, and our country, Anglo-Saxon supremacy must be maintained at all hazards.

The young women are waging a glorious fight, with a zeal that will down at the bidding of no difficulty. Shall we stand idly by and see them fight alone? Do we love our homes the sacred palaces of a free people, the heritage of immortal sires? Then, let us consecrate ourselves to the best service of our state, and falter not till her glory towers among the highest in the sister-land of states.

Prof. Raper's address was short but forceful. In speaking of the spirit of liberty, Prof. Raper said in part:

This movement which began in Va. and Mass. developed slowly, gaining strength all the while. This movement was going on while James I and Charles I were struggling with their parliaments, and was gaining strength while the English Kings were settling their disputes upon the field of battle. Again it was influenced by the Bill of Rights, the greatest document in the history of English liberty. While absorbed in her struggles the American Colonies were achieving self government and independence and forming themselves into a great movement. This movement had become a great force before the birth of Washington. It was a force which no one man created, it was one of a long long line of development. To this Washington lent his aid. Had he opposed it, he never would have achieved any place in our national congress nor would his name be commemorated as it is today.

Mr. J. K. Ross, who was sent as a delegate to the International Conference of the Y. M. C. A. at Toronto, Canada, returned Wednesday.

The following students from the University will leave Friday to attend the State Convention of the Y. M. C. A. at Charlotte: Messrs. C. A. Bynum, Z. V. Judd, A. W. Grady, A. S. Peeler, O. Ross, C. P. Russell, E. S. W. Dameron.

Mr. S. J. Everett went to Raleigh Monday.

Mr. H. M. Robins went to Durham Monday.

Five members of the Philadelphia League Team arrived here Tuesday. They will practice on our grounds for three or four weeks.

The Baseball Team is getting out a score card this season which shows the individual members of the team in their positions. Mr. Fred Hanes, the Assistant Manager, went to Winston Monday to secure advertisements

The bacclaireate sermon at the next commencement of the University will be preached by the Rev. Dr. J. M. Buckley of New York City. Dr. Buckley is editor of the New York Christian Advocate and has quite a reputation as an editor and author. He is one of the ablest preachers in the Methodist Church in America. The University is fortunate in securing his services.

Gen. W. R. Cox was on the Hill Saturday with his sons, Messrs. A. L. Cox, '04, and F. A. Cox, '05.

Dr. Linscott lectured in Charlotte Friday evening on "Roman Civilization."

Pres. Venable lectured Friday before the Warrenton High School.

Mr. A. W. Mangum, '98, has returned to the University and has been elected Captain of the Scrub Baseball Team.

Mr. and Mrs. Lawrence Mott, of New York City, are spending a few days at Mrs. Graves.

Dr. Hume lectured in Fayetteville Friday night to a crowded audience on "Shaksperian Side Lights on Old English Life." On Saturday night he lectured at St. Mary's School, Raleigh, to the students and their friends from the City on "The Preparation for Genius—or What Was Before Shakspeare," and Sunday night before the Baptists Womans College on "The Literary Study of the Bible as an Aid to devotion."

Dr. R. T. Vann of Raleigh spent Saturday and Sunday in Chapel Hill.

Mrs. P. C. Cocke of Asheville, a sister of Mr. Francis Gudger who has been sick with pneumonia for some time, arrived on the Hill Monday.

Read the article headed "Students."

Doc Kluttz is at the same old stand with good and cheap goods.

Mr. C. L. Fine representing The Hub Clothing Co., of Norfolk, Va., will be in Chapel Hill, March 10, and will also bring a line of shoes.

With the Societies.

Phi Society: Debate, Resolved, That the University should withdraw from the Southern Inter-Collegiate Athletic Association. The negative won. Mr. Harper made the best speech.

Di Society: Debate, Resolved, That the United States should adopt Reciprocity with all nations. The affirmative won. Mr. Peeler made the best speech.

(Continued from 1st page.)

pillar of light high into the sky directly over the vessel, which may be seen 40 miles away at sea, whereas the masthead lights can be seen only 13 miles away, combine to make Hatteras an exceedingly interesting spot. We were shown photographs of life-saving crews bringing in men from wrecked vessels. Fish, oysters, clams, and game are abundant, and the inhabitants have to work little, if at all. The mean annual temperature is 62°, and the annual rainfall is 66.41 inches, being heavier than anywhere else in the United States except around Puget Sound. But the heaviest rainfall is from July to October, and there are more fair days on Hatteras than at Norfolk, Wilmington or Cape Henry. The average date of the earliest killing frost is Dec. 13th, and of the latest Feb. 13th. These dates for Norfolk are Nov. 14th. and March, and for Wilmington Nov. 12th and March 15th. Hatteras has cooler summers and warmer winters than either of these places. The lecturer described the well-kept homes of the inhabitants, and their generous hospitality. We followed the drifting sands, the scaggy cedars, and the scrub oaks through several interesting points to Nag's Head and had illustrations of the great changes in the sands there in the last score of years. From Nag's Head northward we were shown considerable forests on which the sands were advancing, and our journey with the lecturer ended on the high dunes at Cape Henry, Va.

The first football game played in the United States took place in 1776 between Yale and Harvard.

Washington's Birthday.

In last week's issue appeared an address delivered by Mr. H. B. Short on Washington's Birthday. Below is given a synopsis of the addresses by Mr. Ivie and Prof. Raper.

Mr. Ivie in part said:—The purpose of our gathering today is to pay tribute of reverence and love to the memory of one whose life stands preeminent in the history of our country, the liberator of our people, the fireside hero of every American home. As the heroic deeds of that life present themselves, all that is within us bursts forth in the deepest gratitude and love for those who bequeathed to us the heritage of American Independence.

There are correlative relations existing between every state and its citizens. Protection on the part of the state and allegiance on the part of the citizens. In the word protection the state stands as a guardian over every right belonging to the citizen. In the word allegiance the citizen stands ready to protect and defend every right, and to promote every interest of the state. The nations that have recognized correlative rights and duties existing between the state and citizen have been the beacon in the world's history. Under our dual form of government, what better and higher service can he render his government as a whole, than to serve truly the best interest of his own individual state? Some one has said, "It is no higher service to the state and to humanity to keep one's bright and ready, to hold a rifle prepared for instant use, than to keep alive the fires of purity, of patriotism, of honor and integrity." The duty that calls the University student today is not the call of '61, but the call of domestic duties falls on the ears in no uncertain sounds.

There is a principle in life that emanates from the eternal throne of justice, that the greatest beneficiary is the greatest debtor. The University student is a great beneficiary. The many and high advantages which he enjoys at this institution have been placed within his reach by the state at one-third their actual cost. A beneficiary while here, he should go into life a benefactor. First of all he should go from these walls a living monument to the glory of his Maker. Go to his community and teach his less fortunate brother that faith in the Eternal God and obedience to his laws are not born of superstition. There is one problem hanging over North Carolina at present that towers above all others in significance. That is to cultivate and develop her deliquescent resource in the undeveloped minds of her boys and girls. Certainly North Carolina's greatest need is universal education. And the greatest duty resting on the University student is to enter the war-fare against ignorance and illiteracy. Within the borders of our own state there are, above the age of twenty-one years, over 200,000 men and women who can neither read nor write, nearly half of whom belong to the Anglo-Saxon race. And the last school census shows 227,000 white children not even in school.

Again, there is a problem resting

Cornell University Medical College. New York City.

The session begins each year during the first week in October and continues eight months.

The course of instruction covers four years, but students who present credentials from accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations in those subjects which have been completed in previous years.

The essential features of the curriculum are—the daily recitations in small sections, the thorough laboratory instruction, and clinical and bedside teaching in dispensaries and hospitals by members of the faculty.

In the College building is a dispensary in which about 50,000 patients are treated yearly.

The facilities offered by the many large hospitals in New York are utilized to the utmost to familiarize the student by personal observation with the diagnosis and treatment of disease. Bellevue Hospital, the largest of all the city institutions, is directly opposite the college building. The circular of 1901-02 giving all details will be mailed on application to Wm. M. POLK, M.D., LL.D., Dean, CORNELL UNIVERSITY MEDICAL COLLEGE, First Avenue and 28th Street, New York, N. Y.

THE TAR HEEL.

Vol. 10,

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., March 13, 1902.

No. 21.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

ATHLETICS.

In the next twenty days six of the University's big baseball games are to be played beginning with the Oak Ridge game on the twentieth of the present month. After this date, only two intervening days, then come the Lafayette games. Notwithstanding the nearness of the game, our ball men are in no wise uncomfortable. Everything points to our success. The weather is all the pessimists could ask, and the men train hard and regularly. The team has made great progress in the last few days. The team as a whole, up to the last issue of the "Tar Heel," were hitting poorly, considering their past record, but since that time a decided change for the better is perceptible. A two-bagger is now of usual occurrence, and this does not in the least reflect upon the pitchers. Their progress has been equal to, even greater than most of the other players, in fact the work of Sweeny on Monday was a matter of congratulation.

The pitchers, however, have not yet gained perfect control. This is noted especially in Sweeny at times. Wilcox in this respect is better. The latter twirler has made wonderful improvement over last year; so much so that the pitcher of '01 is hardly recognizable in the Wilcox of '02.

The catchers are rather slow. Council is often lifeless; does not show the spirit displayed on the gridiron and fails to use his head in baserunning. He throws well though; in the opinion of some, better even than Graves. Wilcox is catching well at present, but in throwing does not get the ball off quick enough. He as well as Council is showing improvement in hitting. It is an interesting race between these two.

On the second, Cocke is playing good game, much better than last season, but he too, is at times lifeless. Cocke is a little too confident of his position and consequently does not take proper interest in practice.

Smathers, on the third, is playing good fielding game and is hitting nicely but does not show sufficient head work at the bat and on bases, at times. He has entirely recovered from his temporary trouble with pop flies, before referred to, and is once more the Smathers we are accustomed to.

Out-fielders Donnelly and Graham both show decided improvement over last year, Graham, however, is often reckless in base running. He tries to get too far. Donnelly at present is not hitting in old style.

In right field Henderson is playing magnificent fielding game, but is very weak at bat and slow on bases. McDonald is playing nice game either as an out- or in-fielder.

Smith on scrub team is pitching good ball, if he would use his head. He should be more deliberate; at

present he is extremely wild in box.

Coach Ashenback, in the opinion of the writer, is at present hiding his light under a bushel. He may be doing great good, by his private system of coaching, but the students and the ball men are anxious to see him get out on the diamond and to publicly criticize and instruct the different players.

The track meet will this year be at Vanderbilt during the first week of May. Five or more of the big Southern colleges will participate. Manager Thorpe is striving to get all things in readiness for the coming season, while Captain Ramsey, with the assistance of Instructor von den Steinen, is at present training his men in the "Gym." Active outdoor work begins March 17th. This gives ample time for practice by the meet in May provided the time be conscientiously utilized.

The following men have entered their names as contestants for the respective positions:

One hundred yard—Irwin, Hill, Bass, Holten, Wilson, Groome, Phifer, Reid, Emerson, Miller, Howard.

Two hundred and twenty yard—Miller, Irwin, Bass, Emmerson, Rountree, Reid.

High hurdle—Hill, Jacocks, and Stephens.

Low hurdle—Knox, Winston, and Miller.

Four hundred and forty yard—Ramsey, Emerson, Fisher, and Berkeley.

Eight hundred and eighty yard—Council, Gant, and Delaney.

Mile—Bridgers, Sturdevant, Calder, Cash, Thorpe, and Roberts.

High jump—Davis, Sweeny, and Hunt.

Running broad jump—Groome, Cameron, Winston, and Delaney.

Pole vault—Council, McCubbins, Hunt, Burgess, Terrel, and Davis.

Hammer—Council, Foust, Roberts, Phipps, King, and Cooley.

Shot—Council, Foust, Phipps, Miller, King, Cooley, and Roberts.

The practice for this work begins 4.45 P. M. All candidates should secure suitable costumes and be out regularly.

With the Societies.

Di Society: Debate, Resolved; That United States Senators Should be Elected by Popular Vote. The affirmative won. Mr. Rankin made the best speech.

Phi Society: Debate, Resolved; That The United States should adopt The Ship Subsidy Bill. The affirmative won. Mr. Godwin made the best speech.

West Point has challenged Harvard to a fencing match.

There are 250 students who work their way through Michigan.

Princeton has now \$165,000 pledged for the new gymnasium.

One thousand and fifty-three degrees were conferred at Harvard last commencement.

Dr Hume's Lecture.

From Mystery Play to Shakespeare.

One of the lectures in the Faculty course for the public benefit was delivered by Dr. Thomas Hume last Thursday night on the subject "From Mystery Play to Shakespeare." It was a concise but vivid review of the influences which prepared the way for the new Romantic Drama. With an introduction on the instinctive natural foundation for the drama, the rise of the drama out of religion and the frequent collision between religion and the drama, a rapid sketch was given of the evolution of the early English sacred plays from the mediaeval church service, their growth into comprehensive cycles, at York, Chester, Coventry and other centres, their presentation by the trade-guild during the great Fairs and Festival seasons.

The Biblical narration was the common material used by all the cycles, but special plays like "The Fall of Lucifer" showed the influence of fanciful legend and "The Harrowing of Hell" uncannical looks like "The Gospel of Nicodemus" and peculiar interpretation of obscure Scripture.

Apocryphal additions to the Old and New Testaments, folk-lore and grotesque fancies, natural reflections of English countryside and home life, introduced striking tragic and comic incidents and situations which humanized and popularized these plays more and more.

Effective examples were quoted—Cain's plough boy's horse play, Noah's shrewish wife. The Feast of the Ass, an off-shoot of the Balaam pageant, the mixture of terror and absurdity in the devil's feast, the quaint features borrowed in the Nativity plays from the uninspired Gospel of the Infancy, the divergence from the Scripture story in the instances of the Pilate family and of Judas. The elements of tragedy were in the collision of good and evil and in the relation of the divine sacrifice to the redemption of the race. They builded better than they knew in the rewriting of the pomps and triumph of Resurrection and Judgment, while the rude by play and the homely touches anticipated the advent of the comedy which was hastened by the allegorical morality and its off-shoot. The interlude followed fast by the transplanting of revived ancient classical types in English conditions. Renaissance color, high national spirit, flooded and transformed all new importations. The parasite, the boastful soldier, the villain, the Ghost, the disguised woman, the court masque, the pastoral idyl, the dramatised chronicle, magic and fairy lore, made ready the materials and the moulds for Shakespeare's use. Other men labored. He entered into their labors. None the less was he the predestined individual, the original genius who poured life into these forms, who clothed the dry

bones with flesh and the drama became a living soul.

At the Yale bi-centennial there were representatives of 130 foreign institutions.

In one of Harvard's eating halls the number of men aggregates 1,175 per meal.

Every college debater at Yale in future must take the regular course in debating and be recommended by the instructor.

Columbia will probably adopt the alumni system of football coaching next year.

Yale and Harvard are considering the question of reducing the distance of the annual boat race from four to three miles.

Cornell undergraduates have petitioned the faculty to institute the honor system in examinations and have pledged themselves to maintain it.

Of the present Congress 55 Senators graduated from college and 207 Congressmen. This leaves 33 Senators who are not collegians and 149 Congressmen.

Harvard has the largest faculty of all the colleges in America. Her instructors number 337, a body nearly as large as the lower house of Congress.

Out of our twenty-six presidents only sixteen have graduated from college. John Adams, John Quincy Adams and Theodore Roosevelt graduated from Harvard-Jefferson. Monroe and Tyler graduated from William and Mary; Princeton gave us Madison; William Henry Harrison came from Hampden-Sydney; Polk came from North Carolina and Pierce from Bowdoin; Buchanan came from Dickinson and Hayes from Kenyon. Grant was the only West-Pointer who occupied the White House; Arthur had Williams as his Alma Mater, while Benjamin Harrison graduated from Miami University.

The Illinois legislature has made hazing a criminal offense and the parties engaged subject to a fine of \$500 and six month's imprisonment.

Capt. Kernan, of the Harvard football eleven, has called out candidates for the position of guards and centre on next year's team. The men will be put to work in the gymnasium.

Columbia has recently received \$100,000 for the purpose of endowing a professorship in Chinese language and literature.

It is said on trustworthy authority that Wu Ting Fang, Chinese Minister to the United States and eminent as a scholar, has been requested to fill this chair. It is said that the offer is in the expectation that Minister Wu intends to give up his diplomatic post at Washington. Wu Ting Fang has delivered lectures in all parts of the United States.

Subscription Price. \$1.50 per Year.
Payable IN ADVANCE or during first term.
SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes her whole college will aid it along this line.

It is with pleasure that we note the great improvement in our several athletic teams during the past week. Handicapped by the long spell of bad weather, they began work immediately after this passed off and by hard, consistent training have fast rounded themselves into championship form.

Our first baseball game will soon be upon us and it will be interesting to compare the score with that made last year against the same team, at, practically, the same stage of the season. In this manner we will be enabled to form a very good idea of our team's improvement over last year's form for its personnel is with three exceptions identical with that of the team of 1901. Of course there is a possibility of a change of strength in the team of an opponent but, judging from the outlook as expressed by the "Oak Leaf," Oak Ridge will send a team to represent her fully as strong, if not stronger than last year's nine.

Candidates for the track team are also giving evidence of improvement due to the training of the past week or ten days and the outlook is unusually bright.

A more lengthy review of the work of both teams appears in another column. It is our purpose here, merely, to call attention to this and to express in a more general way what has been accomplished.

The TAR HEEL acknowledges the receipt during the past two weeks, of several unsigned communications on various subjects. The editors wish to say, however, that, following a precedent long ago established, they cannot see fit to publish unsigned communications. While we welcome such articles, when signed, and are always glad to give them space and also to withhold the name of the author, if desired, we cannot publish articles anonymously sent to us. We should be glad if our contributors would take note of this.

The number of students who attend the daily practice games is indeed gratifying but it is even more gratifying to note the enthusiasm which is exhibited by them.

Such appreciation can but have a good effect upon the candidates. It is due them and they should have it.

Let us hope also that the attendance at the match games will not show a falling off in interest. It is the duty of every student who can possibly do so to attend these games and in this manner at least lend not only his vocal but also his pecuniary support to the team.

The February MAGAZINE has made its appearance. While not as full as usual it is neat and the contents unusually interesting. We regret that lack of space permits a more lengthy review.

Two more members of the Philadelphia League team arrived here Tuesday, making in all seven. They came South in order to get in some early practice.

"I fear, said the postage stamp on the student's letter to his father, "I fear I am not sticking to facts."

An Inter-collegiate Athletic Association has been formed among the principal colleges and universities of Kentucky to promote athletics. Central University, Kentucky State College, Georgetown College, and Kentucky University are members. Its rules are similar to those of the Southern Inter-collegiate Athletic Association.

Among the college men registered as law students at the University of Pennsylvania more than sixty colleges and universities are represented; and among the 380 students almost every county in Pennsylvania and twenty-two states and foreign countries are represented.

Prof. Noble left for Baltimore Tuesday to be with his wife who is, in a hospital there, dangerously ill.

The stamp collectors in the University, headed by Mr. E. R. Wainwright, report that they are doing an active business. They offer good prices for rare stamps of all kinds.

Owing to the strike situation in Norfolk, Va., The Hub Clothing Co., wish to apologize to the students of the University through their representative, Mr. S. J. Everett, for their failure to be here as advertised on March 10th. They promise without fail to be here on March 18th.

Mr. D. C. Ballard left for his home at Louisburg last Monday, where he will spend a few days.

Johns Hopkins-Carolina Debate.

Just before going to press we learn that Carolina is again victorious. Many things have happened the past few years that make us glad that we are here. But this victory is the greatest yet and one that should make every North Carolinian glad that there is such an institution as the old University. Stern and Williams are the heroes now, there were not eleven or nine, it was not brawn but brain. It took only two to do the work for Johns Hopkins, backed by training that few men get during a college career. Boy's we are proud of you and the whole University appreciates what you have done.

Students.

You hear about College spirit, you are asked and begged to go on the side line and yell yourself hoarse at all the games, but there is a proposition facing the students now, that must appeal to them; if they know the meaning of College spirit or pride in the College publications. It is needless for me to tell how hard it is to collect subscriptions for the "Tar Heel," but the fact is, and must remain, that the "Tar Heel" does not get sufficient patronage here to support it. To run the paper we solicit advertisements from the men who come here to sell the students goods, and on almost every occasion we are met by the remark that an advertisement in the College paper is no good, that men who do not advertise sell as many goods as those who do advertise. The outcome is we get no advertisement. Can we blame men for not advertising with us when it does not pay?

Yes, you talk about College spirit, yet when a man approaches three-fifths of the students here for a subscription to the College paper, which we all admit is necessary for a first class university, you hang your head and make comments upon the make-up of the paper, but somehow or other you manage to borrow one from your neighbor who takes it. Is that all? No, not by any means. We have some friends who

patronize us, men who represent the best business ability in this State or any state, men who sell goods as pretty, durable and as cheap as anyone who comes here and caters to our trade. The purpose of this article is to ask you as men and as students to patronize those who patronize us. What are you going to do about it? Here is a chance to show your College spirit and prove whether you have pluck enough to face the Four Big Northern Colleges.

BUSINESS MANAGER.

Resolutions.

Philanthropic Hall,
University of North Carolina

Whereas, Almighty God has, in his Divine power, seen fit to remove from our midst our late friend and fellow-member, A. W. Harrison, therefore be it

Resolved, first; That while bowing in humble submission to Him who hath the power to give and to take away, we, the members of the Philanthropic Society, cannot but lament our bereavement.

Second; That we offer our warmest sympathy to the family and friends of the deceased, and while we would not intrude upon the sanctity of domestic grief, we would point them to that Eternal Source from which alone the crushed heart can derive consolation.

Third; That these resolutions be placed upon the minutes of our Society; that a copy of the same be sent to his bereaved family, a copy to the ROANOKE BEACON, the TAR HEEL and the UNIVERSITY MAGAZINE, with a request to publish them.

Freshmen Awarded Medals.

The following should have appeared in last week's issue of the **TAR HEEL**, but lack of space prevented its publication at that time:

According to a time-honored custom in College, the Freshmen were awarded medals on Washington's Birthday. The medals have varied little in the recollection of many, but in the opinion of the Sophomores they are as appropriate now as when first awarded.

Below is official list of medals, with the names of the recipients:

- 1st Degree Fool, A. H. King.
- 2nd Degree Fool, "Swann" Wilson.
- 4th Degree Fool, Thos. Hill.
- Typical Freshman, Perry.
- Dirty Man No. 1, Claude King.
- Dirty Man No. 2, Ted. Brown.
- Pretty Man, Cash.
- Dog-faced Man, Leggett.
- Pug Dog Freshman, McMullan.
- Conceited Man, Wm. Hill.
- Collier's Fool, Chadwick.
- Missing Link, Speight.
- Wandering Jew, Jacobs.
- Broken-down-sport, Parsons.
- Lord High Proprietor of Campus, F. Cox.

Natural Born — — Fool, Sturdivant.

- Thug, Osborne.
- Goo Goo Man, Hart.
- Weak-minded Man, Cannon.
- Bore, Foy Roberson.
- Grandpa, "Laurie" Patton.
- Mama's Baby Boy, Dangerfield.
- Mellin's Food Baby, Taliaferro.
- Chief Bearer of the Brainless Cranium, Blackwell.
- 1st Asst. Bearer of the Brainless Cranium, J. A. Wilson.
- 1st Lieutenant to Blackwell, C. Carr.

- Cat-fish Freshman, Lewis.
- Billy Goat and Fool, Gilmer.
- Lazy Man, Cheshire.
- Worthless Man, Woodruff.
- Frog-faced Man, Shore.
- Silly Man, Miller.
- Red-headed Suorter, Murphy.
- Bloat, Burton.
- Mean Man, Gilmer.
- Goose, McCubbin.
- Innocent Lover, Exum.
- Honorable Mention, Fogle, Haywood, Emmerson, Pender, Faucette.
- Whole Class, O.

The announcement has just been made that President J. H. Gilman of Johns Hopkins University will be the head of the new Carnegie Institute, the government university for scientific research, for which Mr. Carnegie gave \$10,000,000. Dr. Gilman practically organized Johns Hopkins and has been its president up to this year.

A debate has been arranged between Wellesley and Vassar colleges to take place May 1st at Wellesley College. This is one of the first instances of competition between two large women's colleges in any branch of student activity.

Stranger: "How is this? The doors of all these handsome offices are wide open, but the occupants seem to have fled."

Native of Chicago: "That's right. They have fled. President Harper is just coming down the street, and he's got to raise \$73,000 before 6 o'clock.—Cleveland Plain-Dealer.

Cornell University Medical College. New York City.

The session begins each year during the first week in October and continues eight months.

The course of instruction covers four years, but students who present credentials from accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations in those subjects which have been completed in previous years.

The essential features of the curriculum are—the daily recitations in small sections, the thorough laboratory instruction, and clinical and bedside teaching in dispensaries and hospitals by members of the faculty.

In the College building is a dispensary in which about 50,000 patients are treated yearly.

The facilities offered by the many large hospitals in New York are utilized to the utmost to familiarize the student by personal observation with the diagnosis and treatment of disease. Bellevue Hospital, the largest of all the city institutions, is directly opposite the college building. The circular of 1901-02 giving all details will be mailed on application to Wm. M. POLK, M.D., LL.D., Dean, CORNELL UNIVERSITY MEDICAL COLLEGE, First Avenue and 28th Street, New York, N. Y.

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., March 27, 1902.

No. 22.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

CAROLINA WINS.

D. P. Stern and R. R. Williams Win the First Debate with Johns-Hopkins.

The first of the series of annual debates between representatives of the University of North Carolina and Johns Hopkins University took place in Baltimore on the evening of March 13th. The question was: "Resolved, That modern trusts threaten the future welfare of the American people." Johns Hopkins had the affirmative and was represented by Messrs. H. W. Plaggenmeyer and Harvey B. Stone. The University of North Carolina was represented by Messrs. D. P. Stern and R. R. Williams who supported the negative. Synopses of the speeches of Messrs. Stern and Williams are here given. We very much regret the fact that we are unable to give the speeches delivered by the Hopkins debaters, as we have not been able to obtain true copies of them.

Mr. Stern spoke as follows:— "Whatever the Trust is or may be it has to do with business, a legitimate phase of life, hence the only question can be is the Trust a legitimate expression of business life? This must be settled in accordance with business principles. It must be settled by business men. The business man always works to perfect his business methods that he may become supreme in his particular line of business. To accomplish this it has always been necessary for him to organize his industrial forces into an institution that would conform to the needs and conditions of the age in which he lived. Changing and progressive industrial conditions have caused the evolution of business from the individual producer to the firm and from the firm to the small corporation. And the transition from the small corporation to the large corporation or Trust is just as natural and necessary a step in the evolution of business as the transition from the individual producer to the firm. For in the last few decades business has been making great strides forward. The possibilities and extent of business have increased a hundred fold. The vast expanse of the universe has been made the market place for the remotest factory. To meet these colossal demands colossal business organizations—Trusts—are necessary. Hand in hand with this extensive development of trade has come the demand of the home consumer for better goods at lower prices. The old competitive institutions tried to meet these demands and the result was overproduction, cut-throat prices, depression, panic. The life of the business man was at stake. For self preservation a further conservation of industrial energy was necessary. In answer to

this we have the Trust, a combination into a large corporation for the purpose of establishing a permanent money-making business. It has entrenched itself in and to lay permeates our industrial system. This success of the Trust may be best explained by the fact that the Trust is an application to industry of the principle of organized combination, the principle that is one of the great civilizing forces of our life. The purpose of the Trust, the use of the principle, is to secure maximum efficiency in production and distribution, for only by efficiency can it establish a permanent money-making business. The Trust comes nearest to the realization of this because maximum production and administration of the largest mass are always cheapest. By organizing into the Trust the business man can run only the best plants and these to their full capacity, can fix the standard of quality by using and selling only the best, can afford opportunity for experimentation, can utilize every bit of waste into the manufacture of by-products, can tide over temporary reverses, can secure the advantages of comparative accounting and administration, can save large amounts in cross country freights, dispense with useless advertising and a useless selling force—in short the Trust gives the business man efficiency in production and distribution. Such an institution cannot threaten our future welfare for the interest of the business man is the interest of the people; as the one thrives so thrives the other. Indeed trust success in business is dependent upon good service to the community at low rates. The only trust that have succeeded, the ones that can succeed are the ones thus managed. Unless the Trust do sell goods at low rates the demand will be curtailed resulting in increased cost of production and lessened profit: latent capital will spring into activity and do for the community what the Trust have failed to do. If the Trusts unduly raised prices, however little, it might have a boom but it would lose a business. That the Trust managers believe that a business is better than a boom is shown by the fact that the greater part of the Trusts have lessened prices. Thus the Trust by economies inherent in its nature, can, must and does increase the purchasing power of the American republic. By so doing it benefits the laborer in his capacity as a consumer. But it goes further and increases the number of dollars at the command of the laborer for the prosperity of employer and employee

flow from the same fountain, the fountain of cheap and efficient production and distribution. The trust is the most efficient and distributor; hence the value of the laborer's services, his wages, must be greater than the old institutions. That the Trust does benefit the laborer is evident by the absence of strikes, the increase in wages, and the general attitude of laborers towards the Trust. But Trust influence does not stop here. It moves on to the raw producer in that it provides an outlet for our surplus agricultural products. Thus the growth of Trusts and the revival of the material prosperity of all classes in our industrial society have come hand in hand. Indeed the Trust has perfected our industrial life. A perfect industrial life is essential to our political, social and economic welfare, and we may well be thankful that our industrial Smiths, our Morgans and our Schwabs have with the sledge hammer of organization beaten out upon the anvil of progress an economic instrument that insures our future welfare in that it harmonizes the wealth producing forces of our country, in that it places the manufacturer, the laborer, the consumer, squarely on dollar and declares unto them "Perfect thyself."

Mr. R. R. Williams was second on the negative and spoke as follows:

My colleague has shown you that trusts can never threaten our future welfare. My object shall be to show you that they have decidedly advanced it, because, First, they have made our welfare more secure and Second, they have made it more universal.

For the one thing that has hitherto destroyed our industrial security has been our great commercial panics. These panics have been caused by the chaotic system of modern competitive production. To eliminate this evil, therefore, we must regulate our production to meet our consumption. And that is what trusts have done. For all of their factories are under one management. That management knows the consumption of society and regulates the production to meet that consumption. Hence in just so far as you adopt trusts, you give to business a stable basis.

And that is the very essence of our prosperity. For with stability guaranteed, industry has naturally undertaken more gigantic enterprises. These have created more gigantic opportunities—And these positions are necessarily open to every man in America, according to his ability. But not only have trusts opened up these greater opportunities, but they have also trained our young men to grasp those opportunities, by increasing their individual initiative. For in trusts everything is based on personal responsibility, and advancement depends upon ability. That is the system of trusts, and it is that system that has reversed society and made the poor boys of a generation ago, our present industrial leaders.

And along with this opening for business talent has come a still wider opportunity—an opening for society whereby it may find a safe

investment for its money. For trust stocks, absolutely safe as they are because of their freedom from strikes, overproduction and ruinous competition, are placed upon the open market, where any man can buy them without asking any other man's consent. And statistics show that the number of stockholders in trusts is greater than it was in the same industries before the trusts were formed.

That, then, is the policy of the trusts—the widening of the opportunities of the laborer on the one hand and of the community on the other. And it is these forces that are solving our future welfare. For it is they that are making America the industrial leader of the world. For trusts by creating greater industrial opportunities, have produced Schwabs and Hills and Morgans. And it is upon these men that our industrial leadership now depends. For the cheap labor of Europe can be offset by the more perfect organization found in trusts. And it is for this reason that since the formation of trusts, America has jumped from the fourth place in the rank of nations to the undisputed leadership. And, if we have failed to interpret the cause of this, our enemies have not. For all European writers declare that trusts have proved America's commercial salvation. And it is to this dominance that we owe our present greatness as a nation and prosperity as a people. For never has there been such an abundance of the comforts of life as among the American people of today.

It is to trusts, therefore, that we must attribute our present prosperity and with it, also necessarily our social welfare. For the abundance of the comforts of any people is a sure test of the social and intellectual development of that people. For to obtain social development man must be given the means with which to obtain it. And that means is wealth. Our true policy, then, should be to place the man above the dollar, but to place him also in reach of the dollar. For without that, he can never accomplish for himself any advancement in culture or intelligence.

And upon that rests also our political welfare. For the greatest political corruption is among the ignorant and degraded and the least among the elevated and enlightened.

We contend, therefore, that while there are in trusts incidental and temporary evils that must come as the natural accompaniment of every human development, the real, inherent and permanent forces in them are inevitably making for the advancement of mankind. For by harmonizing the boundless resources of our God-given nature and the superb organization of our intellectual men, they have given to the accumulated thoughts of ages, the long-needed momentum of properly directed wealth which has reanimated those thoughts and transformed them into a civilization so fraught with renewed opportunities and possibilities, renewed ambitions and incentives, as to make it better to be the humblest citizen of America than the despot of any other country."

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes her whole college will aid it along this line.

For several years past Carolina's colors have been carried Southward and Westward by our debaters and only twice in all these years have they been lowered in defeat. But this year we have entered new fields. For the first time in our history we have sent our representatives Northward and as a result, the White and Blue waves once more in triumph.

It is true that we have here as fine a debating system as may be found anywhere in the country—a system admired and imitated by numerous institutions, but never excelled—and to this system much of the credit for our victory is due. But too much cannot be said in praise of the individual debaters who so well acquitted themselves in Baltimore last week. Without such material the system—almost perfect though it be—could have availed nothing.

"Strangers in a strange land," they contended against the representatives of an institution endowed with all the advantages that wealth can afford,—an institution which ranks among the first in the North. But the Tar Heel spirit was strong within them and undismayed they battled and won the victory we confidently expected.

All honor to Sterne and Williams! They have not only covered themselves and their Alma Mater with glory but they have won for themselves a priceless treasure—a place in the heart of every loyal son of Carolina.

We regret that lack of space prevents our doing justice to the speeches of our opponents in the Hopkins debate. However we can not but feel that we owe our first duty to our own representatives and therefore we publish as fully as possible their speeches, giving little of the opposing argument.

Elisha Mitchell Scientific Society.

The one hundred and fortieth meeting of the Elisha Mitchell Scientific Society was held Tuesday, March 11th, 7:30 P. M. in the Chemical Lecture Room. The following papers were read: "Enzymes" by Dr. A. S. Wheeler and "Molecular Attraction" by Dr. J. E. Mills. Dr. Whitehead was to

have read a paper on "Reversible Action of Enzymes" but unfortunately he could not attend the meeting.

Dr. Wheeler said in part:

Ferments are classified as (1) ferments which are organized bodies and non-soluble; (2) enzymes, which are unorganized and soluble. The first are living matter while the second class are formless and non-living. This distinction has been seriously challenged by Buchner who has obtained a fluid by grinding and strongly pressing yeast which introduced into solution of a fermentable sugar, causes a violent fermentation. The power of this fluid is not destroyed by a one per cent sodium arsenite solution whereas the power of the yeast plant is. Hence Buchner regards the ferment as a soluble product of the living cell. Enzymes are classified according to their specific action into the amylolytic as amylopsin; proteolytic as pepsin; invertive as invertin; steatolytic; as steapsin, and coagulative as the fibrin ferment. The usual chemical reaction brought about is that of hydrolysis where water is decomposed and its elements taken up again. For example cane sugar takes up water forming glucose and levulose. A very interesting discovery of recent date is the fact that under certain condition this reaction will go backwards, the glucose and levulose forming cane sugar. This is a reversible reaction. The absorption of fat has always been a puzzle but the reversible action of enzymes furnishes an explanation. The enzyme, steapsin, converts the fat into fatty acid and glycerine. These are absorbed and then steapsin reverses its action forming fat again.

Dr. Mills said in part:

A study of the specific heat of gases shows that the total energy of a molecule is proportional to the kinetic translational energy of the molecule. The modern theory of solution shows that the translational motion of a molecule of a liquid is the same as the motion of the molecule of a gas under similar condition. Hence considering a liquid and its vapour, the molecule of each must have the same total energy.

Latent heat of vaporization according to this view is spent wholly in changing the relative distance apart of the molecule and in overcoming external pressure. Assuming that the molecular attraction varies inversely as the square of the distance apart of the molecule and that the attraction does not vary with the temperature a formula can be derived free from unknown factors and allowing experimental test to be made of the assumed law of attraction. The ten substances for which data could be obtained showed usually a good agreement with the formula.

The formula was then confined by different lines of argument and about twenty substances to be in fair agreement, except associating liquids.

Dr. A. S. Wheeler and Dr. J. E. Mills lectured before the Elisha Mitchell Scientific Society on "Enzymes," and "The Kinetic Theory of Gases," respectively, Tuesday evening, March 11th.

ially good. Suggs had great speed in his balls, and did effective work, he recieved but poor support. The battery constituted the bulk of the visitors team.

The work of the home team was very good, there were many brilliant plays intersticed however by many errors. the work of Sweeney in the box was alright and the support he recieved was all that could be asked. Holt, the captain was absent on account of sickness in this way the nine was of course handicapped.

The feeling tonight is widely different from that experienced after the visit of O.R.I. boys two years ago. On that occasion Lawson was absent and Carolna was defeated by a score of 8 to 4. But compensation always comes and Thursday was our time.

At the beginning of the game it looked as though a re-actment of the old tragedy was to take place when two men were fanned out and another thrown out but the complexion of things soon changed to a more agreeable hue.

The game was called at 1:45 in order to finish by the P.M. train. Long before this time the seats were all filled, and the trees adjacent to the athletic park were thronged with chattering students. The fence near the campus was also buried with a living mass of students, boot blacks and hack driver. so that all told there was a goodly turn out.

The game began with Carolina at the bat. Carr and Graham first up fanned out. Donnelly and Smathers make first on errors of Suggs and Wilcox gets hit, but Donnelly is thrown out at home.

Renfrow first up for O.R.I. gets to first on hit to third but is thrown out at second. Taylor out to Donnelly. Seterson base on b a l l s. Warren up but Sitterson out at second.

Smathers comes up for N.C. and is out on bunt. Council hits. Cocks gets first on error, but Council is out on second. Henderson comes up but Cocks is thrown out at second.

O.R.I. Warren gets first on error of Wilcox. Suggs gets first. Cool fanned out: Markhorn and Ogbern out on flies.

In third Sweeney, Carr, Graham score for Carolina, while O.R.I. still remains at zero.

In fourth inning Council hits 2 bagger. Cocks follows with hit and Council scores. McDonald fans out. Sweeney gets first on error of Taylor, Cocks scores. Carr hits and Sweeney scores. Donnelly makes first on error of Markhorn and Carr scores, Wilcox gets first on error of Yelverton and Donnelly scores, Smathers hits, Council hits, Wilcox scores, Cocks gets first on error and Smathers and Graham score. McDonald gets hit and Smathers and Council score. Sweeney hits and McDonald scores. Carr hits. Graham hits and Sweeney and Carr s c o r e. Donnelly out on fly. Again O.R.I. failed to score.

In fifth inning Carolina scores two runs O.R.I. 0.

In sixth neither side scores, and score stands N.C. 20: O.R.I. 0

Dr. Raper's Lecture.

One of the regular faculty lectures was delivered last Thursday evening by Prof. Raper on "The South Economically Transformed." In outline Prof. Raper said:

Transformations are going on in all civilized life. While one epoch is different from another, still there is much in common between them. The American is much like the Englishman in many respects, and the South, prior to 1860, was in most respects like the North, the difference being chiefly in economic ideas. The one was almost wholly agricultural in its life and spirit, while the other was mainly industrial and commercial.

He discussed the underlying ideas and forces of the old plantation civilization of the Southern States, showing that slavery was its cornerstone. This civilization produced many remarkable planters and leaders in politics and public life, but few great men in other fields of activity and thought. About the beginning of the Civil War the exclusively agricultural period began to close, and the Southern States have since that time been becoming more and more industrial and commercial, more and more occupying and applying the ideas of industry which have made the North more wealthy than ourselves. With this transformation from the industrial system have come the towns and cities, and these have become the centers of our life and spirit as were the plantations before 1860. Not only has our life changed in form but especially in spirit—we have become much more democratic in our society and education; much more national and worldwide in our politics, economics and pure intellect. With this change in old Southern society have come some difficult problems among which is the Negro question. The Negro during thirty-five years of freedom has made very little progress to a higher industrial career, and we cannot entertain great hopes as to his future advancement. But in spite of difficulties, the Southern States are rapidly going forward in their industrial development, and we should all work, hope and pray that they may continue to go onward in their grand course.

CAROLINA 20 O. R. I. O.

Carolina played the opening game of the season Thursday on the home diamond, with men from Oak Ridge Institute the game resulted in the magnificent score of 20 to 0 in Carolina's favor. This is a great lead off for the Varsity men. The conditions Thursday were all that could be asked. The weather was fine, the spectators numerous and enthusiastic when the occasion permitted. And the ball men entered into the spirit of the surroundings and did some creditable work.

Throughout the six-innings the game was interesting, at times it was snappy. Carolina's gains were made principally in one inning at other times both teams fought on uncertain grounds.

The battery of O. R. I. was espec-

Cornell University Medical College. New York City.

The session begins each year during the first week in October and continues eight months.

The course of instruction covers four years, but students who present credentials from accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations in those subjects which have been completed in previous years.

The essential features of the curriculum are—the daily recitations in small sections, the thorough laboratory instruction, and clinical and bedside teaching in dispensaries and hospitals by members of the faculty.

In the College building is a dispensary in which about 50,000 patients are treated yearly.

The facilities offered by the many large hospitals in New York are utilized to the utmost to familiarize the student by personal observation with the diagnosis and treatment of disease. Bellevue Hospital, the largest of all the city institutions, is directly opposite the college building. The circular of 1901-02 giving all details will be mailed on application to Wm. M. POLK, M.D., LL.D., Dean, CORNELL UNIVERSITY MEDICAL COLLEGE, First Avenue and 88th Street, New York, N. Y.

THE TAR HEEL.

Vol. 10,

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., April 10, 1902.

No. 23.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

CAROLINA IS WORSTED.

VARSITY GOES DOWN BEFORE THE ITHACANS. SCORE 8 TO 1.

For the first time the White and Blue of Carolina has been lowered by the team from Ithaca. The Cornellians have at last revenged themselves in a measure, for the defeats which the Tar Heels have given them in the last three years. Remembering well the disappointment to which they were treated, when two years ago they crossed bats for the first time with the Tar Heels and were defeated 6-0, and again last year when 11-10 told the story of their sorrows, they came this time with a determination to do or die and—they did.

Chase, their star twirler, was on the slab and his arm was largely responsible for the victory or rather the defeat. His curves and shoots proved a puzzle which our boys were unable to solve; the five hits made by the Varsity being so scattered that little damage resulted. Besides, the brilliant fielding of the team behind him cut off many which would have been hits.

On the other hand not only was the fielding of the Varsity not up to its usual standard, but also the Cornell batters were able to bunch their hits and this about tells the story of the game.

Lewis, Whinery and Chase were the particular stars among the visitors while Holt, Council and Donnelly carried off most of the honors for the home team.

First inning: Carr, first man up, fans three times. Graham goes out Costello to Tydeman. Donnelly is out Chase to Tydeman.

For Cornell Brewster is out Cornell to Holt. Chase flies out to McDonald. Lewis then comes up and hits one over Graham's head which proves to be a home run. Whinery flies out to Graham.

Score—Carolina 0, Cornell 1.

Second inning: Holt flies out to Brewster. Smathers hits over third for one base but can get no further as Council fouls out to Costello and Cocke to Lewis.

Drake is out on an attempted bunt, Wilcox to Holt. Tydeman hits a hot one between first and second and Holt makes a beauty stop but Tydeman reaches the bag before Wilcox covers it. Brown pops up an infield fly which Council gets under but drops. "Bull" quickly recovers and by a beautiful throw to second catches Tydeman; Cocke passes it on to Holt and thus the double play is completed.

Score—Carolina 0, Cornell 1.

Third inning: McDonald hits at the air three times. Wilcox goes out, Costello to Tydeman. Carr makes a pretty two-bagger, but Graham goes out, Chase to Tydeman.

Costello is out, Carr to Holt.

Bristol hits safe over the second bag. Brewster hits safe to right field but McDonald by a beautiful throw catches Bristol at third. Brewster reaches second on the play but gets no further as Chase is an easy out, Carr to Holt.

Score—Carolina 0, Cornell 1,

Fourth inning: Donnelly leads off with a single between third and short, but is out stealing second. Holt goes out, Lewis to Tydeman and Smathers, Costello to Tydeman.

Lewis is safe on Cocke's error. Whinery makes a pretty sacrifice bunt and Lewis advances a bag. Drake hits a fly over third which is too far in for Donnelly but Lewis does not advance. Tydeman hits safe to right field and Lewis scores. Brown hits in front of the plate. Wilcox gets the ball and throws toward first but ball hits Brown in back and all are safe. Drake crossing the rubber. Costello hits a fierce one and Carr makes a beauty stop but cannot throw it in time to catch either runner, so Costello makes first and Tydeman home. Bristol hits for three bases and Costello scores. Brewster, who is an easy out, ends the inning.

Score—Carolina 0, Cornell 5.

Fifth inning: Council hits safe and reaches second on Tydeman's error. Cocke sacrifices and Council takes third. McDonald hits to Lewis who throws him out at first but "Bull" scores. Wilcox is out, Lewis to Tydeman.

Chase flies out to Donnelly. Lewis reaches second on Carr's error and advances one more on Whinery's out, Wilcox to Holt. Cocke ends the inning by a pretty catch of Drake's liner.

Score—Carolina 1, Cornell 5.

Sixth inning: Carr flies out to Drake, who a moment later makes a beauty catch of Graham's long fly. Donnelly fouls out to Whinery.

Tydeman hits safe to Carr. Brown advances him a bag by a pretty sacrifice bunt. Costello flies out to Cocke. Bristol hits safe and Tydeman scores. Costello, running for Bristol, is out stealing second.

Score—Carolina 1, Cornell 6.

Seventh inning: Holt goes out, Lewis to Tydeman. Smathers hits safely but is forced at second a moment later by Council. Cocke forces Council at second and another chance is gone.

Brewster bunts safely. Chase sacrifices him along to second. Lewis hits safe over short. Whinery flies out to Carr. Drake hits for two bases and Brewster and Lewis cross the plate. Tydeman is out, Carr to Holt.

Score—Carolina 1, Cornell 8.

Eighth inning: McDonald is out, Brown to Tydeman. Wilcox fouls out to Whinery. Carr flies out to Drake.

Brown hits three times at the air. Costello is out, Cocke to Holt. Bristol fouls out to McDonald.

Score—Carolina 1, Cornell 8.

Ninth inning: Graham gets hit by ball but is out as he is standing over plate. Donnelly hits safely, takes second on a passed ball and third on Holt's out, Lewis to Tydeman. Smathers however goes out easily, Chase to Tydeman, and the game is over.

Final score—Carolina 1, Cornell 8.

EDUCATIONAL STATESMANSHIP

Dr. Chas. D. McIver's Lecture.

On last Monday evening Dr. Chas. D. McIver, President of the State Normal and Industrial College, lectured to the students of the University on Educational Statesmanship.

It is well known that Dr. McIver is one of the great leaders of the educational movement in North Carolina, and knowing, as he does, the conditions and needs of the State, he is indeed one who can speak with authority on this great subject. Dr. McIver said in part:

"There has never been a time in its history calling for bold, strong leaders that the Southern section of the United States has not produced leaders equal to the emergency. In peace and in war, in prosperity and in poverty, it has furnished to history statesmen and warriors of type of Washington, Jefferson, Calhoun, Macon, Jackson, Stevens, Davis, Lee, Stonewall Jackson, Hill, Vance and Lamar.

The next ten years will witness the development of a group of men who will go forth to fight out for our children the real battle of liberty and independence. The army will be composed of those who fight not with guns but with books, slates and pencils. The school teachers are the grand army of the republic. Their work is the highest work of all—it is to teach what Christian civilization means to mankind. The South now stands in sight of the promised land.

There is more property on the tax books of North Carolina now than there was in 1860. This is true throughout the South. In 1860 the property of the South was taxed at five and one half billion dollars; that of the North at six and a half billion dollars. In 1880, that of the South at three billion; the North twelve and a half billion. Then the South began to grow and in 1900 had just reached the point where it was in 1860. We are beginning today, with slavery gone forever, where our fathers were in 1860. Heretofore we have heard: "We are too poor to support a good system of public education." Hereafter we shall hear: "We are too poor not to support such a system."

Ideas produce wealth and education multiplies ideas. The early future will regard the public school fund as the best investment a free people can make. The day has

been when education was advocated as a necessity for the cultured and leisure class, as if it were a means of escaping labor. The new group of statesman will tell us that education is not a means of escaping labor, but a means of making labor more effective.

There are two ideas that have dominated our life—individual liberty and opposition to taxation. Only when liberty has been at stake have we voted to tax freely. We have given more for freeing Cuba than for education in North Carolina in fifteen years. Whenever the Southern people have seen a thing as a prime necessity, money has not been lacking.

We are told that if we educate a negro, we spoil a "field hand." Let's spoil them—the wealth of the world is not made by field hands. The new statesman will teach that it is better to have a field of ten acres and make ten dollars than to have field of a thousand acres and lose ten dollars.

At the fountain head of civilization are women. A child learns more before he is six years old than ever afterwards. If you want to educate the race, you must do it thro' the fountain head. The woman is the natural teacher of the race. Still there is not in all the South a liberally endowed college for women.

North Carolina is not giving her money but investing it. She does not expect a return in money but she expects something better.

The Georgia-Carolina Debate.

The sixth annual inter-collegiate between the University of Georgia and the University of North Carolina took place in Gerrard Hall Friday, April 11. The query discussed was "Resolved: That the democratic institutions in the United States of America are in danger from the growing power of centralization." North Carolina had the affirmative and was represented by Messrs. C. A. Bynum, Georgia was represented by Messrs. W. M. Hardy and J. D. McCartney who supported the negative. The exercise were presided over by Dr. Battle and the judges were Hon. H. G. Connor, L. W. Crawford D. D., and Mr. D. Matt Thompson.

This time the palm of victory goes to Georgia. This is the sixth and last of the series of debates arranged between these two universities, but another series of contest will perhaps be entered into as each of the institution have won three of the first series and each has proved itself worth of the other's steel. This was one of the most closely contested debates we have with Georgia and one in which a great deal of interest was centered. Suffice it to say that the question was thoroughly discussed in all its phases and each side was well supported and nobly upheld.

We hope to give synopses of the speeches in our next issue.

Dr. Venable

SINGLE COPIES, 5 CENTS.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

Just at this time it seems fitting that something should be said in regard to the track team. The few men that are out have been working hard and faithfully but the squad is not anything like it should be.

There is abundant material in college for a good team. Why men that are fitted to succeed in this work will constantly refuse to come out is a question which we are unable to solve. The management rightly complains of this lack of support.

Almost a month still remains in which the candidates can train for the meet at Nashville—sufficient time for getting in fairly good form. It is earnestly hoped that every one who feels so disposed will begin at once to come out regularly to the practices. You don't know what you can do until you try and all that is asked of you is that you come out and try.

The University has need of you; you may gain a trip to Nashville and the honor of representing your Alma Mater there. If such should not be your portion you will still have been greatly benefitted physically by this splendid exercise. There is nothing to lose and much that may be gained. But above all you will be helping your institution maintain her position at the head of Track Athletics in the South.

The crisis of the baseball season is almost upon us. Four games are scheduled for next week, the first two against Georgia, and the last two against Virginia. The result of these games will virtually determine the success of the season. It is therefore urged that every student, every alumnus and every friend of the University who can possibly attend these games, do so. We have a team in which we all believe but some of the games will undoubtedly be close.

In such cases rooting is an all-important factor. Hence it is that we desire here to enter a plea for good, hard, consistent and persistent rooting; not the rooting that smacks so much of "preppishness" and is vented in sallies of attempted wit at individual players, nor yet the rooting which is so loudly demonstrative when fortune smiles

upon us but so pitifully silent when our opponents are the favored ones. The first is ungentlemanly and unworthy of our ideals of hospitality; the second is valueless. What we want and what we must have is rooting of the kind that is recognized everywhere as legitimate and plenty of it.

Concert.

Next Thursday night, the University Mandolin and Glee Club will give a concert. They have been rehearsing faithfully for this concert which is the only one of the year.

The price of admission has been placed at twenty-five cents and it is earnestly hoped that every one will come out to see what the Clubs are doing for the musical side of the University life.

There are 57 student organizations in Iowa.

Riotous student demonstrations in Russia followed false report of the death of Count Tolstoi.

Since 1896 there has been 250 graduates at Harvard who have completed the course in three years.

All the classes that have ever graduated from the University of California will hold reunions in Berkeley, Cal., next commencement day.

The Greek students of Beloit College in the Sophomore Class will present the first Greek comedy ever attempted in the west, and the second in the country.

Howard is the only college which has a greater number of under-graduates than the University of California. The Sophomore class of that university are going to give a circus.

The University of Nebraska is planning to send a foot ball team East next fall to play Harvard and Princeton and possibly Yale.

CHALLENGE.

The Law Class challenge the Faculty to play a game of base ball for the benefit of the Athletic Association, game to be played at a date suitable to the Faculty team.

The ladies of the Methodist Church will serve ice cream from 7 to 11 O'clock on the evening of the 17th at the Long Building on the campus. The proceeds to go towards furnishing the parsonage.

Mr. Willis Gray and his sister Mrs. Tate have been spending a few days on the Hill with their brother, Mr. E. P. Gray '02.

Mr. J. L. Morehead, and Mr. W. F. Carr, went to Durham Tuesday to attend the marriage of his sister, Miss Lizzie Morehead.

Messrs. W. F. Smathers and Whitehead Kluttz left Tuesday for the Charleston Exposition.

Mr. W. O. Heard returned from Charlotte Tuesday.

Dr. Battle filled Dr. Mead's place at the Episcopal Church last Sunday on account of the sickness of the latter.

Dr. Thomas Hume preached in Burlington last Tuesday.

Mrs. G. A. Jones of Franklin is on the Hill, visiting her son Mr. G. L. Jones '03.

Mrs. Davis of Columbia, S. C., who has been spending some time on the Hill with her son Mr. R. O. E. Davis, returned home Monday.

A number of the second year student in Pharmacy, went to Raleigh Tuesday stand examination before the State Board.

The Y. M. C. A. has been very fortunate in securing the services of Dr. Guerrant of Kentucky, to conduct a series of meeting lasting all of the present week.

The judges of the Georgia-Carolina debate are; Hon. H. G. Connor of Wilson. Rev. Dr. L. W. Crawford of Greensboro, Prof. D. Matt Thompson of Statesville.

Mr. B. S. Drane left Wednesday for the Charleston Exposition.

Dr. Chas. D. McIver, President of the State Normal, lectured to a crowded audience in Gerrard Hall Monday evening on, "The Educational Movement in North Carolina."

The ladies of the Methodist Church will serve ice cream from 7 to 11 o'clock on the evening of the 17th at the Long Building on the campus—the proceeds to go towards furnishing the parsonage.

With the Societies.

Phi Society; Debate, Resolved, That The United States should abolish Tariff except for Revenue negative won. Mr. Giles only, the made the best speech.

Di Society; The Literary Exercise were postponed for one week.

(Continued from 4th page)

in the following proportions—4-10 for the first; 1-10 for the second; 3-10 for the third and 2-10 for the fourth. As to how the American scholarships are to be awarded has not yet been decided.

The graduate coach system now forms part of the inter-collegiate agreement between the University of California and Leland-Stanford University. The system is said to have improved the game itself, but to have embittered more than ever the intense rivalry between the two colleges.

The Message of Spring.

The sun in merry mood has kissed The valley and the dale. And promised them security From winter's stormy gale.

The valley and the dale in turn Have blushed in sweet reply And sent the gentle message on To sea and land and sky.

'Till every bird and bee and flower Has each the message caught; And they in turn have sent it on With song and sweetness fraught.

And so in spring the message The entire line along 'Till every voice in nature blends In one responsive song.

Strang Nicklin is coaching the Georgia Techs this season. "Billy" Reynolds and "Red" Ashford are performing like services for the Universities of Georgia and Miss. respectively; while Alabama has secured Stouch, of the Atlanta League team, to develop their base ball material.

To the Memory of E. J. Pemberton.

Whereas, Almighty God in His infinite wisdom and foresight has seen fit to remove from our midst our beloved companion and classmate, E. J. Pemberton; be it,

Resolved, 1. That though we bow in humble submission to the will of Him who has the power to both give and to take away, yet we cannot but deeply deplore his sudden death.

2. That we appreciate and feel grateful for the high Christian character and example he has bequeathed to us and hopefully trust that the record of his shining virtues may guide others in the paths of right and honor.

3. That in his death, the Sophomore class loses one of its most gifted members and the University one of its most promising students.

4. That a copy of these resolutions be tendered to the family of the deceased with the tenderest sympathies of each and every member of the Sophomore class, and copies be furnished the University Magazine, the TAR HEEL, the News and Observer, and the Fayetteville Observer with request to publish them.

E. S. W. Dameron,
W. Dunn, Jr.,
Albert L. Cox,
Committee.

In the will of the late Cecil Rhodes, two scholarships for each State and Territory of the United States are provided for at Oxford University, England. Each of the scholarships are worth \$1,500, a year and last for three years. Mr. Rhodes was a graduate of Oxford, and by this means he believed it would be possible to make Oxford the center of the spirit of race unity where students from every part of the English-speaking world would meet, on common ground, in the most famous of the old universities. The influx of so much American blood may have very important consequences, at which some of the old Oxonians would stand aghast.

Mr. Rhodes always opposed the modern idea of awarding an educational prize solely for literary attainments. The tendency to award a scholarship solely for success in passing literary examinations seemed to him to put a premium on book worms. Hence, he has drawn up a scheme for the election of students for his scholarships which is extremely original and very characteristic of the man. It is as follows:

In the election of a student to a scholarship regard should be had to: First, his literary scholastic attainments; second, his fondness for or success in manly, outdoor sports such as cricket, football and the like; third, his qualities of manhood such as truth, courage, devotion to duty, sympathy for and the protection of the weak, kindness, unselfishness and fellowship; fourth, his exhibition during school days of moral force of character and instincts to lead and take interest in his schoolmates, for these latter attributes will, likely, in after life, guide him to esteem the performance of public duties as his highest aim.

Marks for these four qualifications should be awarded somewhat (Continued on 2d page.)

Samples kept at Chapel Hill the year round. Call on

DRANE and MOSS, Agents

Cornell University Medical College. New York City.

The session begins each year during the first week in October and continues eight months.

The course of instruction covers four years, but students who present credentials from accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations in those subjects which have been completed in previous years.

The essential features of the curriculum are—the daily recitations in small sections, the thorough laboratory instruction, and clinical and bedside teaching in dispensaries and hospitals by members of the faculty.

In the College building is a dispensary in which about 50,000 patients are treated yearly.

The facilities offered by the many large hospitals in New York are utilized to the utmost to familiarize the student by personal observation with the diagnosis and treatment of disease. Bellevue Hospital, the largest of all the city institutions, is directly opposite the college building. The circular of 1901-02 giving all details will be mailed on application to Wm. M. POLK, M.D., LL.D., Dean, CORNELL UNIVERSITY MEDICAL COLLEGE, First Avenue and 28th Street, New York, N. Y.

THE TAR HEEL.

Vol. 10.

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., April 17, 1902.

No. 24.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

CAROLINA WINS.

Georgia goes down to the tune of 8--2.

The first game in the series with Georgia resulted in an easy victory for the Varsity. The wearers of the Red and Black were taken off their feet at the start and never recovered until Carolina had the victory well in hand.

While a trifle slow the game was nevertheless an interesting one. While the Georgians are credited with almost as many hits as the Varsity, two of these at least were mere scratches and all of them were so scattered that they mattered but little. Georgians only scores were the result of errors rather than hits.

While they were beaten almost from the start the Georgians played a steady up hill game. Their team shows a wonderful improvement over last years team and our kindly feeling besides our confidence in him prompts us to attribute much of this to the untiring energy of him whom we all know—our old friend and coach "Billy" Reynolds.

Wilcox started out to pitch for Carolina but when the game was practically won he retired in favor of McDonald.

The game in detail follows:

First Inning: Carr waits and is rewarded by a pass to first. Graham flies out to McColla. Donnelly hits hard but the ball pops high in the air and comes down in McWharter's glove. Carr reaches second on wild pitch. Holt gets in the way of a speedy one but the chances of scoring are cut off as Smathers forces Carr at third.

Jacques fans. McWharter beats a slow one out. Walker forces McWharter at second and Coile flies out to Graham

Second Inning: Council flies out to McWharter. Cocke safe on Dickerson's error. Cheshire is out. Cocke moves up a bag. McColla makes a beautiful catch of Wilcox's long fly.

Dickerson flies out to Graham. Beaver beats out a slow one. McColla forces Beaver at second and Anderson flies out to Donnelly.

Score, Carolina 0 Georgia 0
Third Inning: Carr starts the ball with a hit and takes second on McColla's error. Graham hits for two for bases and Carr scores. Donnelly hits safely and Graham moves up to third. Donnelly steals second and Holt is given a free pass to first filling the bases. Smathers waits and gets a pass also, thus Graham is forced across the plate Council hits to short who throws home but Beaver muffs Donnelly scoring. Cocke forces Holt out at the plate. With the bases still full Cheshire hits out McColla who throws Smathers out at third.

Bower stands in the box and lets three good ones pass him. Jacques

does the same. McWharter hits to Smathers who makes a beauty stop and throws him out at first.

Score, Carolina 3 Georgia 0
Fourth Inning: Wilcox flies out to Anderson. Carr hits between left and centre for three bases. Graham is out Bower to Coile and Donnelly flies out to Jacques.

Walker goes out Wilcox to Holt. Coile flies out to Graham. Dickerson hits safe but Beaver flies out to Carr.

Score, Carolina 3 Georgia 0
Fifth Inning: Holt is safe on McColla and a moment later steals second. Smathers hits nicely and Holt scores. Smathers steals second. Council waits and gets his base. Cocke sacrifices and Smathers and Council move up a bag. Cheshire raps out a long fly to McColla but Smathers scores and Council takes third. Wilcox flies out to Jacques.

McColla singles. Anderson fans and McColla steals second. Bower fans and Jacques is out Smathers to Holt.

Score, Carolina 5 Georgia 0

Sixth Inning: Carr gets a free pass. Graham bunts nicely and Carr goes to second. Donnelly flies out to McColla. Holt hits over third and goes to second. Carr is out in home on fielder's choice. Smathers hits to McColla who muffs and Graham and Holt tally. Council fouls out to Beaver.

McDonald goes in pitch and Wilcox takes Cheshire place in right field.

McWharter is safe on Carr's error and Walker gets his base on balls. Coile flies out to Donnelly. Here comes the prettiest play of the game. Dickerson hits a hot liner to "Little Mac" who passes the ball to Cocke and McWharter in out.

Score, Carolina 7 Georgia 0
Seventh Inning: Cocke flies out to McColla. McDonald fans. Wilcox hits safely between third and short but Carr flies out to Anderson.

Beaver is out Smathers to Holt. McColla and Anderson are out in succession.

Eight Inning: Graham is given a free pass to the initial. Donnelly flies out to Jacques. Graham steals second. Holt flies out to McColla. Smathers hits to Walker who throws over first and Graham scores. Council is out McWharter to Coile.

Bower beats out an easy one that Carr fumbles. Jacques hits safely over third and Bower moves up to second. McWharter forces Jacques at second and Bower takes third. McWharter then steals second and Walker hits to Carr who throws wildly to Council and both Bower and McWharter score, Walker going to second. Coile flies out to Donnelly and Dickerson ends the inning by going out McDonald to Holt.

Ninth Inning: Cocke out Bower to Coile. McDonald safe on McWharter's error. Wilcox and McDonald out on double play Walker

to McWharter to Coile.

Beaver gets his base on balls. McColla hits for two bases. Anderson fouls out to Smathers. Bower fans but Jacques gets in the way of the ball and the bases are full. McWharter ends the game by going out Cocke to Holt.

Final Score Carolina 8 Georgia 2.

Summary:—Stolen bases, Carolina (4) Georgia (3). Double plays, McDonald to Cocke; Walker to McWharter to Coile. Struck out, by Wilcox 5, McDonald 1, Bower 1. Two base hit Graham and McColla. Three base hit Carr. Base on balls, off McDonald (2) off Bower (6). Wild pitch Bower. Hit by pitched ball by Bower (1), by McDonald (1). Time 1:45. Umpire, Brem.

Georgia-Carolina Debate.

Synopsis of Speeches.

C. A. BYNUM'S SPEECH.

The debate was opened by Mr. Bynum for the affirmative. He said in substance:

The form of democracy practised among us today is that of a representative system. It is still a rule of the people and has two requisites: 1st the representatives must stand for and do the will of the people; 2nd the representatives must actually rule. The smaller the section he represents the more democratic it will be, because it comes nearer the individuals as units of government and not only learns their opinions but obeys their orders. Democracy is a rule of the people, none are ignored, the minority has its proportionate influence.

Representatives to be democratic must be equivalent to the people. First, so that the individual may feel personally responsible for the government. That no individual may be ignored. If this is to be preserved we must have many governmental divisions, where the representatives must know the will of the people and do this and no other. Now centralization means the putting of all power under one head—contraction and consolidation. Where such a power has reached its limits, there exists no governmental departments, for centralized

government cannot tolerate scattered power. First it destroys the power of the individual over the representatives. Personal responsibility is lost at sacrifice of self-reliance, this is true socially and economically. 2nd, it takes away the power of the representative to actually rule. Centralization and democracy then are inherently antagonistic. The struggle between these is alive today and the question for us to decide is whether it means danger. Danger means liability to overthrow, and may be slow change of vital principle as well as violent revolution. Democratic forms will remain long after substance is gone. Whatever the people do is not always democratic, if they unanimously make a Czar then their form of government is passed. Now, first this centralization is going on; second it is strong. First, economic combinations as the trusts and the power they wield; second, political centralization cause of civil war.

Centralization is subtle and strong. Democracy and centralization are antagonistic. Now if one gains the other must lose. Do these incidents prove that there is danger?

POINTS BY W. M. HARDY.

Mr. Bynum was followed by Mr. Hardy on the negative. Only the merest outline of his speech is indicated here. He said in effect:

The calamity howl of centralization raised by the affirmative is but a continuation of the same howl raised by the Plymouth colony when the New England confederation was formed three hundred years ago. At the Congress of Albany in 1690, a union of the colonists and the progress of America was stopped by this bugbear, centralization.

Now what are the democratic institutions and which are the democratic institutions that are in danger from centralization? First, election to representative pieces; second, voting on constitutional law, general participation of citizens in self-government; third, universal eligibility to office—these institutions you know are not in danger from centralization.

MR. HERRING'S SPEECH,

Mr. Herring followed for the affirmative: He said in part:

Mr. Herring first spoke of the tendency to centralization, in the business field the existence of democratic institutions demand the substantial equality of rights, opportunities and powers; that this desirable condition is being changed; that the money is getting together into the hands of the few we need not look far to see.

He pointed to the United States steel corporation, a concern handling more money annually than any government of the world, but the very largest. And we find in this concern not only the steel interest, but the coal interest, the oil inter-

Juniors vs. Sophomores.

The prettiest class baseball game yet seen on the new athletic field was played on last Friday afternoon. The Junior and Sophomore teams were the contestants and for nine innings they contested so strenuously—a rare happening in class baseball—that few errors and few runs resulted. Though nip and tuck throughout, the Juniors managed by a rally in the ninth to pull two runs across the plate and win by 4 to 3. The following is the line-up:

Juniors—Foust, c; Gordon (capt) p & r f; Morehead 1st b; Johnston 2nd b; Thorpe 3rd b; Berkeley s s; Collins 1 f; Wilcox c f; Stewart r f & p; Whitehead 2nd b; Jones 1st b.

Sophomores—Graham W. c; Oldham p; Peace (capt) 1st b; Erwin 2nd b; Winston 3rd b; Gregory s s; Noble A. 1 f; Graham N. c f & 2nd b; Hunt r f; Bohannon c f.

Resolutions of Respect.

Whereas, our Heavenly Father in his omniscient love has taken from us the dear presence of our friend Mr. A. W. Harrison a valuable member of this class, therefore

Resolved, first; That we bow in unquestioning submission to the Divine Will, grateful that the memory we have of him will remain with us to cheer and to bless.

Resolved, second; That we recognize the fact that we have had a rare exemplification of young manhood, integrity, honor, and benevolence.

Resolved, third; That we emulate his gentle graces of character, his broad sympathy and respect for his fellow members, and his zeal and enthusiasm in lending a helping hand to every agency for the elevation and advancement of this class.

Resolved, fourth; That our sympathy be extended to his bereaved family whom with confidence we commit for comfort to the "Man of sorrows and acquainted with grief."

Resolved, fifth; That a copy of these resolutions be sent to the bereaved family and, for publication, to THE TAR HEEL.

Mr. E. R. Wainwright went to High Point Thursday.

Billy Reynolds accompanied the Georgia team to Chapel Hill. Mr. Reynolds coached the Varsity Foot Ball Team for three years.

(Continued from 1st page.)

est, and the railroad interest, still greater combination and a further step toward complete centralization.

He spoke of the centralization of money in New York, the home of more millionaires today than all the States south of the Mason and Dixon line and West of the Mississippi river. This centralization of wealth has gone on until 1 1/2 of 1 per cent of the people of this country own more than one-half of its entire wealth, and 9 per cent of its people own 75 per cent of its property; 79 per cent of the population of this country do not own, but rent the roofs that cover their heads.

Mr. Herring then spoke of the vast power of centralized capital. In fifty years it has raised this nation of ours, bodily from poverty to wealth and placed it in the proud position of leadership of the world.

Then he asked: "Where is the equality of opportunity either economic or political when on one hand are the heads and stockholders of concerns immensely rich and powerful, and on the other the vast host of dependent wage-earners.

The breach between our social classes is broadening and deepening, and castes in all ages and countries have proved destructive to the principles of democracy. The power of wealth in politics is an established and pregnant fact. Side by side with the power of the voter stands the power of private interests, that is seeking to influence the affairs of government.

Every bill increasing the tariff of this country has been asked for and obtained by the representatives of corporate wealth. And besides this they have been able to baffle the efforts of the people for tariff reforms; or take again the Nicaragua Canal Bill. It is believed that this canal would have been built sometime since, had it not been for the influence of three or four trans-continental railway systems upon the committee room of our Legislative Department.

The insidious forces of centralization are getting in their work in our functions of government. Democracy demands a system of scattered powers, of many centers. Our forefathers recognized this and established a rigid form of government, in what they thought to be a strict constitution. This frame protected and guaranteed the rule to the people. But from Washington

was adopted. It has developed that there were latent in its powers, that go far toward destroying the very thing which it was thought to establish beyond question, and that is the sovereignty of the people. These developed powers make the Constitution an instrument by which power is drawn to the center, instead of a guarantee against it.

By the free use of injunction personal liberty and freedom of speech is threatened. Take the famous Debs case. The court issued an injunction without notice, or a bill and Marshall to Lincoln and Reconstruction power gathered swiftly to the center. The civil war struck a fatal blow at the great barrier to Federal aggression. Once sovereign states were forced back into the Union at the terms of the victor. The real center of power had shifted; the nation had dominated the States.

From Reconstruction to a war of aggression and colonization is but a step forward in the course of events and if the imperialistic policy means anything, it means that the United States has gone in for taking this step. Imperialism necessitates a strong standing army, which has always proved a menace to democracy. With its advent that sense of personal responsibility which is the very life of democratic institutions, is destroyed.

The flow of power to the General Government as the centre has been continuous, and the most potent factor in the process has been and is the Supreme Court. In its hands the Constitution of today is not what it was thought to be when it

signed by no one, which injunction threw Debs and his co-laborers into a Federal jail without a privilege of trial by judge. Where is the safe-guard of the people for such an unwarranted invasion of their rights.

Mr. Herring referred to the present committee system in our Legislative Department. In the very early days of our history there was no such thing as a standing committee. In 1901 there were fifty-nine, and their power of shaping legislation and the influence of their suggestions have grown, and grown until under the recent "Reed rules" no member, not even another member of the committee, has a right to speak on a bill after it has been reported back to the House by a committee, except with special permission from the chairman of that committee. If the bill is of such a nature that the chairman does not fear investigation and discussion on the part of the House, then he may permit it, otherwise it must pass into a law just as he has reported it. If a bill referred to a committee meets the approval of that committee, then it is all right, it is reported back to the House, otherwise it is pigeon-holed in the committee room and never again heard from.

And the power of appointing these committees lies unrestrained in the hands of the Speaker. Then as the committees shape the legislation, and as the Speaker has absolute power in appointing them, so far as legislation is concerned, the Speaker of the House today is purely an autocrat. How does this state of affairs compare with an ideal democracy?

Now, gentlemen, we have shown, theoretically and practically, first, that centralization has, in the economic phase of our life, destroyed that requisite of democracy. 2. It is elevating a class and subjecting the masses; it has brought us a caste system, an innate enemy to democracy. 3. It has elevated a political factor, which overshadows the individual; 4. It is the work of centralization that has brought the nation to dominate the once sovereign States and make of them simple administrative units; 5. Centralization is destroying individual responsibility; 6. The judiciary has swept away the rigidity of our Constitution.

Other injuries may be repaired, but when individuality is finally destroyed, all is gone.

POINTS BY MCCARTNEY.

The debate was closed by Mr. McCartney, of Georgia, for the negative. He made the point that centralization per se is good. It expresses sovereign unity well. Sovereign unity means majority and the majority can be trusted. Centralization is not parasitic, it is logical, necessary, natural.

The speaker then named the safeguards to centralization to-wit: religion, freedom of the press, education. Democracy, he contended, was the outgrowth of evolution. American minds cannot become a prey that would cause any great change in democratic institutions. We are in danger of no caste system.—Raleigh News & Observer.

Cornell University Medical College. New York City.

The session begins each year during the first week in October and continues eight months.

The course of instruction covers four years, but students who present credentials from accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations in those subjects which have been completed in previous years.

The essential features of the curriculum are—the daily recitations in small sections, the thorough laboratory instruction, and clinical and bedside teaching in dispensaries and hospitals by members of the faculty.

In the College building is a dispensary in which about 50,000 patients are treated yearly.

The facilities offered by the many large hospitals in New York are utilized to the utmost to familiarize the student by personal observation with the diagnosis and treatment of disease. Bellevue Hospital, the largest of all the city institutions, is directly opposite the college building. The circular of 1901-02 giving all details will be mailed on application to WM. M. POLK, M.D., LL.D., Dean, CORNELL UNIVERSITY MEDICAL COLLEGE, First Avenue and 28th Street, New York, N. Y.

No. 25.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

THE VIRGINIANS BAT TO VICTORY, Carolinians Again Lower The White and Blue.

Carolina met a second defeat Saturday afternoon when met by Virginia in Raleigh.

The teams from the two State Universities struggled for supremacy for two and a half hours and darkness came with the gold and navy of Virginia fluttering in triumph.

The score stood nine for Virginia and seven for Carolina, the game being called on account of approaching darkness at the end of Carolina's half, it being recognized that further play was impossible.

A great crowd witnessed the contest and it was a brilliant scene at the ball grounds. The blue and white of North Carolina predominated, though Virginia's gold and navy was in evidence. The ladies were out in large numbers, and the students from the female colleges added beauty to the scene, their many hued dresses, bright faces and waving ribbons making a picture fair to look upon. The crowd has been estimated at from fifteen hundred to two thousand, and in this were big delegations from adjoining towns, Chapel Hill alone sending about 250 people.

No game has had more handsome encouragement. The ladies, the girls, the boys, the men, the majority of them, were adorned with badges or ribbons, while banners, parasols and streamers displayed the rival colors. A number of traps and carriages were decorated in the Carolina colors.

There was one great marring feature of the game, and that was the crowd that would press over the lines, without the least regard for the ladies and the occupants of the seats. The management of this feature of the game was extremely bad, as many people had no chance to see the game, the ladies suffering especially.

As a result of this free scramble and the use of megaphones there was a sharp encounter between two belligerent visitors, and their faces were besmeared with blood. In the scramble of over two hundred people about them several blows were exchanged, the crowding on the ball ground in the seventh inning delaying the playing. It was not a pleasant sight.

The game began at twenty minutes past four instead of 3:30, as the bags for the bases had been left in the city. The game was a slow one and lacked ginger to it. Carolina led for five innings, with no specially exciting incidents, but the interest grew as Virginia advanced, overtook, fell back and finally triumphed. After the fifth inning the excitement was intense, and the

crowd pushed forward in its eagerness.

With Carr at the bat Carolina began the game and he went to first amidst cheers. Graham singled to left and both men advanced on Donnelly's sacrifice. Holt, hit by the ball, filled the bases. Smathers drove the ball to third, but Mason fumbled, and Carr scored, while Smathers reached first. With the bases still full Cheshire fanned but Cocke took his base on balls, letting Graham walk home. Wilcox fanned and retired the side.

Virginia did nothing in its half, only three men getting to the bat. Carolina, in its half, scored two runs. Wilcox fanned, and Carr did the same, but reached second, as the catcher dropped the ball and threw wild over first. Graham reached first on Connell's error, and Donnelly, on Pitcher Cracraft's tumble, reached first, while Carr scored. On a wild pitch Graham came home and Holt was presented with a walk to first and stole second. Smathers flew to short and Cheshire went out, Connell to Yarborough.

Virginia scored once in its second. Walker singled, Connell went out from Cocke to Wilcox on first, while Walker went to third, scoring as Tate Mason retired from Holt to Wilcox again covering first. Yarborough went out, pitcher to first.

In the third inning Carolina did nothing and repeated this in the fourth and fifth. In the third Virginia received a goose egg, but scored in the fourth. Walker had three strikes called on him Connell walked, Tate Mason flew to left field, Connell stole second, John Mason hit to third and Connell scored. Yarborough retired the side, from Smathers to Holt.

In the fifth Virginia took another score. Cracraft flew to centre. Pollard was hit by the ball and stole second, while Cocke flew to Carr. Nalle reached first on Smather's fumble, while Pollard scored, but Nalle was caught trying to steal second, Wilcox to Cocke.

Carolina began its sixth with Wilcox J. up. The ball beat him to first but Yarborough let it get up in the air and he was safe. Carr flew out to first and Graham did the same in right field. Donnelly singled in the left and Holt followed with a hit in the same pasture, letting in Wilcox. Smathers dropped a fly back of short but Connell did pretty work and caught it.

Then began the fireworks, for Virginia took three runs in its half. Cheshire dropped Walker's fly and the big fellow went to third. Connell never saw first and Tate Mason fanned. John Mason lifted a three-bagger over centre and Walker scored. The ball hit Yarborough and Cracraft, the pitcher, did the unexpected. He lifted the ball

(Continued on 4th page.)

VARSITY IS DOWNED BY VIRGINIA.

The Old Dominion Team captures the first two games of the series.

On Friday last the baseball teams of the Universities of North Carolina and Virginia engaged in a battle royal that lasted ten innings. The day was a beautiful one, notwithstanding the rain that had been falling all day Thursday and the promise of bad weather.

The team from U. Va. came in on the morning train. From every building in the village and every vehicle floated the colors of the respective colleges. Chapel Hill had indeed a gala appearance.

With the team came crowds of people from all over the state to witness the game. Besides, it was the date of the Easter dance and consequently many of the fair sex were present to grace the occasion.

At every corner there were knots of students and visitory discussing the prospects and frequently throughout the morning the peaceful quietude of the village was disturbed by a 'Yackety Yack' or 'Wah-hoorah.'

Early in the afternoon the grandstand and bleachers on the Athletic Park began to fill and by three o'clock a large crowd had assembled.

Yell after yell was given for Carolina by the faithful crowd of rooters and as a tribute to the visitors their own 'Wah-hoh-wah' was rendered by the Chapel Hill boys. On the grounds was a brilliant display of colors and although the Blue and White predominated there were many orange and purple ribbons in the crowd.

At 3:10 the Virginia team trotted out on the field amidst a round of applause. A moment later they went out on the diamond for their preliminary work. Carolina starts her 'warming up' just as the 3:30 bell is ringing. After fifteen minutes of this game is called amidst a bedlam of yells and applause.

First inning—Carr waits patiently and gets his base. Graham fans. Donnelly hits in front of the plate and is out, Mason, J. to Yarborough, but Carr takes second on the play. Cocke ends the inning by making a pretty catch of Holt's fly.

Pollard is out, Sweeney to Holt. Cocke after two strikes hits nicely to right. Nalle flies out to Donnelly. Carter fans three times, 'Bull' muffs the third but throws to 1st in time to put him out.

Score—0-0

Second inning—Smathers waits and gets a free pass to the initial. Council is safe and Carr, running for Smathers, takes 2nd, on Nalle's error. Wilcox fans. Cocke forces Smathers at third. On a wild pitch Council and Cocke move up a bag.

Sweeney hits safe and Council and Cocke score. Pollard throws over Mason's head and Sweeney takes 2nd. Carr goes out, Mason, T. to Yarborough.

Connell knocks grounder to Holt who runs across the bag. Yarborough fans. Mason, T. flies out to Donnelly.

Score—2-0.

Third inning—Graham is safe on Nalle's error. Donnelly hits safe and Graham gets second on fielder's choice. Holt hits to Tate Mason who touches third and throws to first in time to get Holt. Donnelly takes third on wild pitch. Smathers flies out to Cocke.

Tate Mason hits safe to centre. Cracraft makes a nice sacrifice bunt and Mason takes second. Pollard sacrifices him to third. Cocke is out, Smathers to Holt.

Score—2-0.

Council fans. Wilcox does the same and Cocke is out, Nalle to Yarborough.

Nalle hits the first one nicely for one base. Carter gets hit by pitched ball. Connell gets his base on balls. The bases are full and nobody out. Mason T. hits to Sweeney who throws Nalle out at the plate. Mason J. hits to Carr who throws to second and the inning is over.

Score—2-0.

Fifth inning—Sweeney leads off with a beauty two-bagger. Carr hits nicely over second and Sweeney takes third. Carr steals second. Graham hits to Connell who fumbles and bases are full with nobody out. Donnelly flies out to Pollard and Sweeney scores on the throw home. Holt hits to third forcing Carr. Smathers is out, Cracraft to Yarborough.

Cracraft gets his base on balls. Pollard bunts foul twice, fouls five times and then fans at one, but Cracraft steals second on the play. Cocke hits to Carr who throws to Smathers, catching Cracraft. Nalle hits safe and Pollard takes third. Nalle steals second. Moran who is now in Carter's place, hits safe and Pollard and Nalle score. Connell gets hit by pitched ball. Yarborough ends the inning by fanning.

Score—3-2.

Sixth inning—Council leads off with a two-bagger. Wilcox flies out to Cracraft and Cocke fans. Sweeney gets his base. Carr hits nicely for two bases, Council scores and Sweeney takes third. Graham with a man on second and third, fans.

Tate Mason leads with a nice single over second and takes second on passed ball. Mason J. hits to Sweeney who throws him out at first, Mason T. going to third on the play. Cracraft fans. Pollard hits safe and Mason T. scores. Cocke hits safe and Pollard takes second. Nalle hits for two bases and Pollard scores. Cocke takes third. Moran fouls out to Council.

The first two games in the series with Virginia have been played and lost. But never in the history of athletics have two harder battles been fought. The work of the team in both games was satisfactory to the students and all are proud of the showing they made.

Another thing, we cannot but compliment the students upon their loyal support of the team. The rooting at the first game was all that could be desired and notwithstanding the defeat, over two hundred students went to Raleigh to aid in the cheering at the game there. This is the kind of support that tells; let us keep it up and much good will result.

While our athletes were battling for Carolina on the baseball field, surrounded by friends to cheer them on, there were two other men, representatives of the same institution, who were fighting for the Blue and White in a distant city but it was in a different sort of contest. Our debaters, Messrs. Ross and Adams, met the representatives of Vanderbilt and defeated them in the third and last debate of the series. This victory gives the entire series to Carolina, she having won both of the previous debates.

All honor to Ross and Adams! They have not only won a great victory for themselves but they have added another to Carolina's crown and for this they will be remembered as long as we cherish our Alma Mater.

The "Bowl Fight."

The "Bowl Fight" is a peculiar contest between the member of the Sophomore and Freshman classes, which was invented by the students of the University of Pennsylvania in the early nineties to settle finally all physical disputes between the Sophomores and Freshmen. The fight has become an established feature of college life in Philadelphia, and one which is eagerly looked forward to by the three or four hundred lower classmen who take an active part in it, as also by several thousand people who annually witness this unique and original method of settling forever class prejudices. The contest consists of two twenty minute halves, with an

intermission between them of ten minutes. The officials are a referee, two umpires, and a timekeeper. The Sophomores furnish a large wooden bowl and the Freshmen select one of their number who is known as the "Bowl Man." During the first half the object of the Freshmen is to get their "Bowl Man" off the field, and for the Sophomores to touch him to the bowl. In the second half the object of the Freshmen is to break the bowl and of the Sophomores to prevent them from doing this. If the Sophomores in the first half touch the bowl to the "Bowl Man" the fight ends in their favor, but if the "Bowl Man" escapes, the first half ends in favor of the Freshmen. If neither side accomplishes its purpose the half ends in a draw. If the Freshmen break the bowl in the second half the fight ends in their favor, but if the bowl is not broken it goes to the Sophomores. Almost every Sophomore and Freshman in the University, arrayed in all sorts of old clothes, football suits, trunks, etc., takes an active part in the event. At the beginning of the contest, both classes are allowed to have a guard of nine men each to protect the "Bowl Man" and the "Bowl." The two classes stand apart at a distance of sixty yards when the signal for the fight to begin is given. No clubs, ropes, or implements of any kind are allowed. Although always rough and hotly contested, the "Bowl Fight" is a rather harmless sport, especially when compared with the fights which took place between lower classmen prior to the inauguration of this novel contest, and notwithstanding the fact that no referee has ever rendered a decision for either side, every one of the past contests having been declared a draw.

April German.

Given by the University German Club in honor of the base ball teams of The Universities of Virginia and North Carolina.

Perhaps the most enjoyable dance of the year was given by the University German Club last Friday in honor of the Virginia and the home base ball teams. The music was exceptionally good and the many beautiful ladies that attended made the occasion most enjoyable.

The German was gracefully led by Mr. Jas. A. Gwyn with Messrs. T. L. Gwyn and Fred Hanes as Floor Managers.

A list of the couples and stags follows:—

Miss Morson with Mr. Morehead.
Miss Taylor with Mr. Cheshire.
Miss L. Latta with Mr. B. Bell.
Miss Rogers with Mr. E. C. Galloway.

Miss Hibbard with Mr. Bass.
Miss Busbee with Mr. J. Henderson.

Miss Bynum with Mr. A. Henderson.

Miss Gordon with Mr. A. Haywood.

Miss Winston with Mr. Wooten.
Miss Hawkins with Mr. Ramsey.

Miss Martin with Mr. Pritchard.
Miss MacRae with Mr. Ellington.

Miss Alexander with Mr. Andrews.

Miss Bunn with Mr. Stringfield.
Miss Connor with Mr. Buff Smith.

Miss West with Mr. Harrison.
Miss Bailey with Mr. Lemly.
Miss Tuttle with Mr. Thorpe.
Miss Satir with Mr. Cox.
Miss Young with Mr. H. Clement.

Miss Roberts with Mr. Stevenson.

Miss Barbee with Mr. Heard.
Miss Hicks with Dr. Ruffin.
Mrs. Tate with Mr. E. Ray.
Miss Page with Mr. Bernard.
Miss Nash with Mr. Webb.

Stags:—Messrs. Dolibie, Cracraft, Brown and Mason of the Va. team. Council, Smathers, Cocke and Holt of N.C. team.

Makeley, Holland, Dunn, Cobb, Ehringhaus, Galloway, Gregory, Carr M., Carr W., Root, Staton, Graves, Stevenson, Andrews, Brenizer, Eben Alexander, G. Graham, Emory Alexander, Smith, Gray, Battle, Gibson, Geo. Stevens, Howell.

Chaperones, Mrs. Gore, Mrs. Royster, Mrs. Pratt, Mrs. Bailey, Dr. and Mrs. Mangum.

Richmond College 5, Varsity 4.

In a game utterly devoid of interest, Richmond College defeated Carolina last Tuesday. The Varsity played a listless game from beginning to end, both in the field and at the bat. Hence the score.

A more lengthy account of the game is impossible.

The Monticelo

EUROPEAN AMERICAN.

SYLVANUS STOKES, PROPRIETOR

NORFOLK, VA.

(Continued from 1st page.)

Score—4-4.

Seventh Inning—Donnelly after three balls, fans. Holt hits for two bases. Smathers pops up a fly to Mason T. Council fans.

Connell is out, Sweeney to Holt. Yarborough is out, Cocke to Holt. Mason T. hits safe over second. Moran fans.

Score—4-4

Eight Inning—Wilcox goes out Cracraft to Yarborough. Cocke hits safe but is out trying to steal second. Sweeney safe on Cracraft error. Carr hits to Connett and forces Sweeney out at second.

Cracraft gets his base. Pollard forces Cracraft at second. Cocke fans. Nalle pops out to Holt.

Score—4-4.

Ninth Inning—Graham out Cracraft to Yarborough. Donnelly out Yarborough to Cracraft. Holt hits safely but is out stealing second.

Marow safe on Carr's error. Connett hits to Wilcox who makes a double at first. Mason J. T. hits to Holt who runs across the bag.

Score—4-4.

Tenth Inning—Smathers gets a free pass. Council forces Smathers out at second. Wilcox flies out to Nalle. Cocke flies out to Nalle.

Mason J. goes out Cocke to Holt. Cracraft single to right but is out stealing second. Pollard is safe on Carr's error and gets to second on a passed ball. Cocke is safe on Holt's and Pollard goes out to third. Nalle wins the game by hitting nicely and Pollard crosses the plate.

Two out when the winning run was made.

over in centre and the two men on bases scored on the throw home. the pitcher stopping the ball on its way to the catcher. Pollard went to first on the pitcher's error, and Cocke went out from second to first.

In its half Carolina made a spirt and gained the lead again by scoring two runs, but Virginia turned the tables in its half by making it three, the score being nine against three in its favor.

Darkness was coming on and Carolina began the eighth, but it did no good as it was three up and three down. The agony was over as there was no chance to play the ninth.

The cheers that came were not so loud as if Carolina had won, but there were cheers for Virginia once again.

The Vanderbilt-Carolina Debate.

The annual intercollegiate debate between the University of North Carolina and Vanderbilt University took place last Friday evening at Nashville, Tenn. and resulted in another victory for Carolina. The question discussed was: "Resolved that the Federal Government should own and operate the railways in the United States." North Carolina had the negative and was represented by Messrs T. A. Adams and Charles Ross. Vanderbilt, representatives were Frank Seay and W. M. Board.

This is the last of a series of three debates arranged between these two institutions, all of which have been won by the University of North Carolina. Whether another series will be arranged we are yet unable to say. Many are in favor of discontinuing our debates with Vanderbilt and turning to Virginia instead. And indeed it is said that the Chamber of Commerce of Norfolk, Va. is going to offer a cup to be annually contested for in that by these two Universities. It is to be hoped this will be done.

Cornell University Medical College.

New York City.

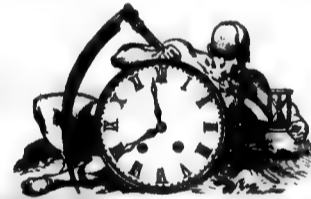

The session begins each year during the first week in October and continues eight months.

The course of instruction covers four years, but students who present credentials from accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations in those subjects which have been completed in previous years.

The essential features of the curriculum are—the daily recitations in small sections, the thorough laboratory instruction, and clinical and bedside teaching in dispensaries and hospitals by members of the faculty.

In the College building is a dispensary in which about 50,000 patients are treated yearly.

The facilities offered by the many large hospitals in New York are utilized to the utmost to familiarize the student by personal observation with the diagnosis and treatment of disease. Bellevue Hospital, the largest of all the city institutions, is directly opposite the college building. The circular of 1901-02 giving all details will be mailed on application to Wm. M. POLK, M.D., LL.D., Dean, CORNELL UNIVERSITY MEDICAL COLLEGE, First Avenue and 28th Street, New York, N. Y.

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., May 1, 1902.

No. 26.

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

Varsity Defeats Bingham. Score 18 to 0.

The Varsity closed the season on the home grounds last Wednesday by defeating the team from Bingham by the above score.

The game, although too one-sided to excite much interest, was a pretty one. Donnelly's catch of Stanley's fly in the last inning was the feature of the game.

Neither side scored in the first inning but the Varsity began to pile them up in the second.

Council leads off with a hit over first but a moment later is forced at second by Cocke. On Wilcox's hit Cocke goes to third and both men score on Sweeney's two-bagger. However the rest are easy outs.

Burnett and Moore fly out to Cocke. Stanley hits safely and Stevenson walks. On a passed ball both move up a bag but Matthews ends the inning by flying out to Cocke.

Carolina adds three more in the next. Graham fans. Donnelly walks to the initial but is out attempting to steal second. Holt puts the ball over second for a single and Smathers does the same over short. Council scores Holt on a pretty two-bagger, Smathers going to third. Cocke raps out another two-bagger, scoring Smathers and Council. Wilcox ends the inning by flying out to Moore J.

Smathers makes a pretty stop of Caldwell's grounder and throws him out at first. Nixon hits safely over short but is forced a moment later by Moore J. Carr tries to complete a double and throws over Holt's head, but Earle gets the ball and throws Moore out at second.

In the fourth a single by Graham and a double by Donnelly add one run to Carolina's score.

Bingham in her half gets two men on bases with only one out but the next two batters force men at third.

Four errors, a double and three singles net five runs for Carolina in the fifth.

Bingham goes out in one, two, three order.

In the sixth Burnett goes in the box for Bingham. Council singles. Cooke and Wilcox are easy outs but Sweeney scores Council by a pretty three-bagger. Carr ends the inning by flying out to Stanley.

Wilcox takes Sweeney's place in the box. Bingham gets two men on bases on an error and a single but cannot score.

Carolina goes out one, two, three in the seventh.

Sullivan leads for the cadets with a nice two base hit and steals third but the next three men are easy outs.

Varsity gets another in the eighth on a base on balls and two errors.

Bingham can get but three men up in its half.

In the ninth Graham leads with a single and then steals second. Donnelly flies out to Nixon. Holt singles and Graham scores Holt going to second of the throw home. Smathers singles, scoring Holt. Council hits for two bases and Smathers gets to third. Cocke hits one to Moore who throws wild to first and both Smathers and Council score, Cocke going to third. Wilcox singles and Cocke scores. McDonald and Carr both fan.

Moore, Stanley and Sullivan go out for Bingham in her last half, Donnelly making a beautiful catch of Stanley's long fly.

Geology Tramp No. 1769.

In May it is; a motley mass
Known better though as Collier's class
Assemble at the gate.

Past two, the time; the sun is hot
But here we are all on the spot
Save one co-ed—we wait.

Ah now we're off to have our fun
To hear Cobb's jokes and then his pun
And see his sunny smile.

He carries us cross brook and dale
O'er sunny hill, through shady vale
To regions rough and wild.

Behold a granite rock he spies
We gather, open wide our eyes
As Lamb we are as meek.

He stands erect, hammer in hand,
One foot on rock, other on land,
With lifted voice does speak.

"You know too well the story told
How Brur Rabbit in days of old
Beat dust from out a rock.
I wish to show you now in truth
The way 'twas done. I know forsooth
I have the strength in stook."

He rolls his sleeves looks mighty strong
(To pigmy race he does belong)
And tries the rock to break.

He feels so young, light as feather
Leaps in air, cracks heels together
And hits for goodness sake.

Hit once, hit twice, hit thrice, he fails
Then tears his hair and bites his nails
And ugly faces make.

Restless and I decide to leave
The man is daft I do believe
I flinch, I scare,—I wake.

Pax.

The University Sermon.

The University sermon for April was preached in the College Chapel last Sunday evening by Rev. S. B. Turrentine of Greensboro. This is the third time he has been asked to serve his alma Mater in the capacity of University preacher and every time he has served her ably and well. The bare outline of the sermon is as follows: In the family is the hope of Church and State. No nation can be truly great and happy that does not recognize the Bible in its schools and legislative halls. There is no friction between Church and State. Although the functions of the two are different yet they must work together. Only through the Golden Rule of God can come the Golden Age of Man.

Dr. K. P. Battle spent Thursday in Raleigh.

VANDERBILT DEBATE

SPEECH OF MR. ADAMS.

The American people are fast becoming a great industrial people. This industrial greatness demands great facilities in transportation, and the question then arises, who should give us these facilities, the government or private enterprises. This depends upon our idea of government, and its relation to individual activity. This government is essentially a political compact, to protect private rights, to maintain reputable conditions among its citizens in all pursuits, and promote the public good.

Our government being essentially a political compact, any phase of life that has by nature a political basis, and can be controlled and developed best by political forces, belongs by nature to the function of government; while any phase of life that has not any political basis, and cannot be controlled and developed best by political forces, belong by nature not to the function of government, but to the realm of industrial enterprise. Whenever the government oversteps this natural boundary, which marks out its proper function, it restricts individual activity, works a political and social evil, and disturbs those equitable conditions among its citizens, which it should maintain.

Transportation has by nature an industrial basis, and is as much a vital and organic part of our industrial life, as merchandising, manufacturing, or production. Railroads are primarily great industrial forces and the railroad problem is essentially an industrial problem, and must be settled by the industrial world, upon business principles and by political platforms.

Since transportation has by nature an industrial basis, and the railroad problem is an industrial problem, the true relation of our government to corporations engaged in transportation, is essentially the same, as the relation of the government to similar corporations engaged in any other industrial enterprise. Hence, to own and operate the coal mines, the oil mills, or the cotton factories, is as much a function of the Federal government, as to own and operate the railroads. Such a policy would mean the adoption of paternalism in its broadest form. Continental Europe proves that such a railroad policy, goes hand in hand with kingship and the paternal theory of government. A strong centralized administration, or bureaucratic system of government such as France, or Germany, may own and operate the railroads successfully. But a legislature, or a democratic system, such as our, never can. For first, we have a weak executive system, and second the political instincts and

natural inclinations of the American people, are by no means bureaucratic. Therefore, such a railway policy is not only out of harmony with our form of government, but it is hostile to the political instincts and natural inclinations of the American people. But such a policy, if adopted by a popular government like ours would not be passed upon sound economy. Political self preservation would become self interest on the part of the managers, which would demand that they call men into their employ, according to party creed and political platforms, based upon both the principles and the precedent, to the victor belong the spoils. Such a policy has within its inherent nature the evils of party fashions and political fluctuations and destroys the seed and germ of pure and permanent economy.

Beyond this such a policy could not meet the demands of the American people. Natural conditions and the growing industrial demands of the different sections of our nation, are not identical, and no one railway policy that the Federal government could devise would be suited to the demands of the different sections. In the construction and extension of railroads, sectional conflicts would arise and local industrial development would be crippled and impeded.

The industrial interest of the nation demands a system of railroads, that are vitally connected with, and dependent upon, the business and industrial interest of the people, for their own existence, so that the railroads for self interest will find it necessary to adjust themselves to the natural conditions of the different sections, and in this way, meet the demands of the people, and render to them the most efficient service. These demands are satisfied by our present railway policy. Railways are called into existence by the laws of supply and demand, and they are dependent upon the public for their own existence. Hence, the interest of the railroad and the interest of the people are identical. And this harmony of interest is further guaranteed by the fact that the railroads are subject to the state and local laws.

SPEECH OF MR. ROSS.

Practical results of the administration of our railway system may be considered under two general classes: direct and indirect results. The first of these is concerned with two problems: the one of rates; the other of service. With the answer to two questions; who can give us the lowest rates and who can give us the best service?

As to rates: the interest on the bonds necessary to purchase the railway property would be more than the present net profits from railway business. Hence, there would be a deficit to begin with. Governments by an extensive comparison in various cases, is shown to be more extravagant than private

CO-EDUCATION.

The following article, taken from the M. S. U. Independent may be of interest to our readers.

Has co-education failed and is it destined to pass away as quickly as it has sprung up? Many people are answering that question in the affirmative. It is said that the reaction against co-education has set in, which is perhaps true, and as a co-educational institution we must be more or less interested in the tendency. We do not expect to settle the question as to whether co-education is best or whether it will continue or disappear, but to consider some of the conditions now existing and the probable fate of the institution. In the eastern part of the United States co-education has never become popular. Barnard College has been so closely connected with Columbia University that that institution has been called co-educational which is, however, vigorously denied and opposed both by the men of Columbia and the women of Barnard. The University of Pennsylvania is co-educational, but the system is not popular, at least with the men of that institution. The women of the University of Pennsylvania recently edited the Varsity paper, the "Punch Bowl," and not only was the edition very sharply criticized by the daily paper of the same institution but co-education was at the same time strongly condemned. Yale and Harvard and several other eastern universities have not admitted women and perhaps will never do so. It would mean a breaking down of traditions and a great change in the life of these institutions. In the west, however, the feeling is very different. Far from opposing co-education the men in some of the western universities would very strongly oppose any move to abolish it. Recently, men at one of our western schools where nearly fifty per cent of the students are women, expressed deep sympathy for us at Missouri where only twenty per cent are women. To them it seemed that it would be very inconvenient to have so few co-eds.

This difference in feeling in east and west is due to the fact that the eastern institution grew up without

co-education, those in the west with it. We cannot say that all other institutions will abolish the system because Yale and Harvard have not adopted it and Yale and Harvard may never adopt it though it continues elsewhere. But there were of course some reasons for the beginning of co-education and it is likely that those reasons will cause its continuation. Co-education is most common in State Universities and from this we may infer the reason for its existence. There is no reason why institutions for higher learning supported by the state should not be open to the women of the state as well as to the men. The growing freedom and the increasing respect for women's intellectual powers has demanded that she be given the same advantages as are given to men for developing their abilities, and in the absence of equally good institutions for women they have been permitted to enter the State Universities with the men. Unless we believe with the Boston preacher that the college course destroys all the lovable traits of woman's character by making her too strong minded we must admit that from the women's stand-

Mr. F. F. Kerner went to Durham Saturday.

Mr. H. B. Frost, '04, left for the Charleston Exposition last Wednesday.

Judge George A. Jones of Franklin, spent Saturday on the Hill with his son, Mr. G. L. Jones '03.

Mr. J. R. Rountree '03, left last Saturday for his home in Brooklyn, N. Y., on account of continued ill health.

Messrs. A. W. Mangum '97, A. S. Root '01, and J. L. Burgess '02, have just received appointment to Geological work in the Soil Department of the U. S. Geological Survey.

Miss Hattie Everett of Palmyra, spent Monday on the Hill visiting her brothers, Messrs. S. J. and R. O. Everett.

Prof. Thomas Hume, Jr., of Horner's School came over to witness the Virginia game. He spent Sunday with his parents and returned Monday following.

Dr. Archibald Henderson, Instructor in Mathematics in the University, has recently been appointed an Instructor in Chicago University.

The Baccalaureate sermon will be preached by Dr. O. E. Brown of Nashville, Tenn. Dr. Brown is a member of the Faculty in the theological department of Vanderbilt University. He is one of the ablest of Southern Methodists and the University is fortunate in securing his services.

Prof. Noble returned from Mt. Olive Thursday, where he had been to deliver the closing address before the Graded Schools.

At the meeting of the North Carolina Physics Club held in Chapel Hill, April 18th, papers were read by Prof. Edwards of Trinity, Prof. Lake of Wake Forest, Dr. Mills of the University and others.

(Continued from 2d page.)

point admission to the Universities has been highly beneficial. But there is another consideration. Has it been beneficial from the standpoint of higher education in general? There may seem but one possible answer to such a question. It may not at first seem possible that the admission of women to the Universities could be detrimental to higher education, yet it is possible. The danger is that attending the University will become too fashionable. Without expressing an opinion we merely quote as an acknowledged fact that women sometimes follow fashion and if it were fashionable to attend the University hundreds who have neither inclination nor capacity for a liberal education would flock in simply to follow fashion. It may now be asked how that would be a calamity than for hundreds of boys to come to the University because it is fashionable. That it would be more of a calamity is absolutely certain. The young man who wastes his time comes up against a sure flunk which there is no help for, but the charming co-ed who has come to the University more for a good time and because it's fashionable than to get an edu-

cation, yet wants a passing grade for that, too, is fashionable, may use many ways unknown to men to get that pass. A tear in the eye of a pretty girl is liable to touch the heart of even a University professor. Such cases have been recorded, not by the professor, of course, but by the girl, for a joke like that is too good not to tell, and there's where the trouble begins.

For this reason we say co-education may be detrimental if it becomes too fashionable. So long as the women in the University are women who have a fixed and serious purpose, who want to measure up intellectually to the standard of men and ask nothing but the opportunity to do so, let us have co-education; but when driven by fashion the butterflies and nonentities flock in and pull down to their level the standard of higher education, let us discard co-education. If co-education brings women up to University standards let it remain, but when it brings the University down to the boarding school standard let us send the women back to boarding schools. At Missouri co-education has not lowered the standard of University work. The 'Varsity girl here is able to measure up to the University standards and until we have the evils of co-education in our midst we will not oppose the system.

Entertainment
by the
Mandolin and Glee Club.

The Mandolin and Glee Club of the University gave their first entertainment in Gerrard Hall on the night of the 24th and it has been everywhere pronounced a success. No one realized that so much had been accomplished by the Clubs and all are loud in their praise of the remarkable work Mr. Woolen has done in developing the Club.

No further comment need be made here as the press of the State has already told of the excellence of the entertainment.

The following programme was rendered:

C. T. Woolen - - - - Leader.
T. F. Rhodes - - - - Bus. Man.

Carolina—Vanderbilt Debate.
Query: Resolved: That the United States should own and operate her railway system.

Affirmative.	Negative.
Vanderbilt.	Carolina.
W. M. Board.	T. A. Adams,
Frank Seay.	Chas. Ross.

(Continued from 1st page.)

management. It is argued that the combination being effected by natural conditions, will save all that can be gained on the score of organizations. In fact that such conditions can be more economically managed than could a scheme embracing varying and widely separated sections under our system. The economy of the present system is shown by the fact that we have the lowest freight, and considering our superior service, as low passenger rates, as can be found in the world. Every year marks a further decrease.

Now as to the question of service. The idea that the government replace all cheaper trains by palace cars is shown by the former discussion to be a financial impossibility. Progressive methods and new inventions always spring from private enterprise. Government institutions are always handicapped by precedent.

Our railway service is the most complete of all our industrial life. All down the line are demanded men of the highest character.

The Shakespeare Club.

The Shakespeare Club held its regular meeting for the month of April in Gerrard Hall last Tuesday evening, and as usual it rendered a most interesting and instructive program. The following papers were presented, the first and last of which were read only in parts: "The Relation of the Ober-Ammergau Passion Play to the Mediaeval Mystery" by Miss Mary Groome.

"The Supernatural Soliciting in Macbeth" by Mr. B. F. Huske.

"The Influence of Lilly and Greene on the Romantic Comedy of Shakespeare" by Mr. Louis R. Wilson.

It would be well if more of the students could be induced to take interest in this work and to attend the meetings of the Club. The papers presented are always of a high order bearing the stamp of scholarship and of careful and scholarly investigation. Points and suggestions may be gleaned which would not be gotten perhaps by years of individual study. The next meeting, we are told, will be especially interesting, and it is hoped that more of the students will show their appreciation of this work of the club by coming to its meetings.

Capt. Chas. Price of Salisbury lectured before the University Law School, Friday, April 18th, on, "The Wilson-Stanley Bond Litigation."

Cornell University Medical College.
New York City.

The session begins each year during the first week in October and continues eight months.

The course of instruction covers four years, but students who present credentials from accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations in those subjects which have been completed in previous years.

The essential features of the curriculum are—the daily recitations in small sections, the thorough laboratory instruction, and clinical and bedside teaching in dispensaries and hospitals by members of the faculty.

In the College building is a dispensary in which about 50,000 patients are treated yearly.

The facilities offered by the many large hospitals in New York are utilized to the utmost to familiarize the student by personal observation with the diagnosis and treatment of disease. Bellevue Hospital, the largest of all the city institutions, is directly opposite the college building. The circular of 1901-02 giving all details will be mailed on application to Wm. M. POLK, M.D., L.L.D., Dean, CORNELL UNIVERSITY MEDICAL COLLEGE, First Avenue and 28th Street, New York, N. Y.

FOOTBALL

The Prospects Are
Encouraging

A STRONG TEAM

Some of Last Year's
turn—Abundant
which to Set
from Mr. Old
day's Game
cellent S

The dominant feature of the college boys for the year has been, "what sort of a line going to have." The answer to this question is genuine pleasure of the present and the future. It is safe to say that the team of this year will be superior to that of last year. Indeed the coaching and encouragement of every day that makes no hesitancy in saying that Foust and his men are the tit of the "Virginia" that is to say the "Sore backs" will be decisive. It is true that the weight will be light but the speed and swiftness, and the coaching which they have every reason to believe will win every eleven of the "Tar Heel" University will cause the Virginia to be comprehensive.

During the past year the old girdiron among whom we find: H. L. Jones, Captain, Albert "Iron Horse," Gr Louis Graves, the back. All the able men have had experience in the foot their very presence a body that so "doing" this Fall

Among the names of the men the following dates are indeed with the proper attention will develop ball men: Parker McNeill, Gibson, low, and many others mean by proper attention is this: when the rant of the game do not stand on the to your near friends much of him, do emphasize your opinion Consider this, he date and is doing standing on the side tively your work consider it, cheer ward by setting thy of emulation ge them. Bear nager Dunn his wis

THE OFFICIAL ORGAN OF THE UNIVERSITY ATHLETIC ASSOCIATION.

FOOTBALL OUTLOOK

The Prospects Are Gratifying and Encouraging.

A STRONG TEAM PREDICTED

Some of Last Year's Warriors Return—Abundant Material from which to Select—A Word from Mr. Olcott—Saturday's Game—An Excellent Schedule.

The dominant issue among the college boys for the last week has been, "what sort of a team is Carolina going to have this year?" In answer to this question we have the genuine pleasure of announcing that from present indications it would be safe to say that this year's Varsity will be stronger in every respect far superior to that of last year. Indeed the outlook is so pleasing and encouraging and growing every day that many students have no hesitancy in saying that Captain Foust and his men will give a repetition of the "Virginia act of '98"; that is to say the defeat of the "Sore backs" will be clean and decisive. It is true that the team will be light but what it lacks in weight will be offset by quickness and swiftness, and with the proper coaching which it will receive, we have every reason to believe that a winning eleven will represent the "Tar Heel" University and may well cause the Virginians to feel apprehensive.

During the past week many of the old girdiron heroes returned among whom we recall the following: H. L. Jones, Frank L. Foust, Captain, Albert Cox, Newton the "Iron Horse," Green Berkeley and Louis Graves, the Star quarter back. All the above named gentlemen have had considerable experience in the foot ball world and their very presence insures the student body that something will be "doing" this Fall. See!

Among the number of the new men the following named candidates are indeed very promising and with the proper attention and treatment will develop into good foot ball men: Parker, Allen, McCain, McNeill, Gibson, Ingle, Giles, Farlow, and many others. What we mean by proper attention and treatment is this: when a new man, ignorant of the game, makes a blunder, do not stand on the side line and to your near friend, "I dont think much of him, do you?" and then emphasize your opinion by a big laugh. Consider this, he is a willing candidate and is doing his best, you are standing on the side line doing positively your worst. Think of it, consider it, cheer the new men onward by setting up examples worthy of emulation but dont discourage them. Bear this in mind.

Manager Dunn is to be congratulated for his wise selection in Mr. Blackwell '05, a member of the

team in 1900 memorable in foot ball history for the crushing defeat it gave Harvard, to coach the Varsity this Fall. Mr. Olcott was graduated at Yale in 1901 and during his four years at this celebrated institution took an active part in athletics. He did not however make the Varsity during his first year, but by hard persistent work he was enabled to have on his breast the big Y for the three remaining years. He is a clever, genial fellow, a gentleman every inch of him, well acquainted with his work and the University gladly welcomes him into her midst.

Our game with Oak Ridge which should have been played Wednesday having been postponed, our first game this season will be with Guilford this coming Saturday. At this early date it is not known, the Coach himself not even knowing, who will compose the line up for this conflict. This information should then encourage all new men to make desperate attempts to pass all former efforts. Remember this there is no "ring" in foot ball. The team is never made until it is made. Every one has an equal chance. If there is anything in you Olcott will soon know it.

Lastly we wish to impress upon the student body the importance of rooting. It is a joke, but many games are won by good inspiring, soul stirring words in evidence. Learn the songs and yells, it will not consume much of your time, and then join a crowd and hoop 'em up for Carolina. It will do you no harm, it will certainly do the plapers some good. And after the conflict if our team is worsted, and we hope it will never be, remember this point, it is your team in defeat as well as in victory and stand by it like men.

The following schedule handed to us by Mr. Dunn is indeed an admirable one and reflects credit upon his business capacity:

- Sept. 27, University vs Guilford College at Chapel Hill.
- Oct. 4, University vs Oak Ridge at Chapel Hill.
- Oct. 11, University vs Fermen University, S. C. at Chapel Hill.
- Oct. 18, University vs Davidson College at Charlotte.
- Oct. 25, University vs V. P. I. at Roanoke, Va.
- Nov. 1, University vs V. M. I. at Lynchburg, Va.
- Nov. 3, University vs Columbian University at Washington, D. C.
- Nov. 8, University vs A. and M. at Raleigh.
- Nov. 15, University vs Clemson College at Wilmington.
- Nov. 27, University vs Virginia at Richmond, Va.

Mr. Blackwell '05 is back taking either medicine or the regular academic course.

Bill McDade and Henry Smith, Juniors, have commenced following in the footsteps of their fathers.

THE STAR COURSE.

Lectures and Entertainments for the Season.

VARIED AND INTERESTING.

The Schedule, Given in Part, Will Indicate the Many Treats in Store for All—The Musical Selection a Good One—Lectures by the Faculty Members.

The Star Course of lectures and entertainments offered by the lecture Committee, for this season, promises to be especially interesting. Those who heard Max O'Rell's "John Bull, Pat and Sandy"; DeMotte's "Harp of the Senses"; Hawks' "Sunshine and Shadow"; or Mabié's "The Making of a Great Book," have a taste of what is in store.

The musical selection has always proved a popular feature. That bull-dog rendering of the Dutchers (Tyrolean Concert Company) still lives in Thad Adams' "hoo-a-a, hoo-a-a-a." The nimble fingers and gliding bows of the Bostonia Sextette showed a troupe of experts, whose attempt was worth double the admission.

Below is given the schedule in part, now in the hands of the Literary Societies for consideration:

Hon. George Wendling, a native of Washington, and one of the most eloquent speakers of the day.

Dr. DeMotte, whom many of the students have heard, a charming conversationalist and speaker with his life in his work.

The Mozart Symphony Concert Company, the musical attraction, has enough symphony in its name to be highly suggestive of soft notes and sweet tones. It is in every way a splendid company, composed of artists.

Story readers will be delighted in George W. Cable, the author of "Creoles of the Grandissimes," "Old Creole Days" and "Strange True Stories of Louisiana."

Willoughby Reade, of Alexandria, Va., besides giving one of his evening readings will favor the Y. M. C. A. with a complimentary talk.

The noted lecturer on modern Astronomy, Prof. Garrett P. Serviss, will pull the stars from their exalted perch.

Aiton Packard, lightning fun-maker as he appears at his best, will tickle the most fastidious lady, though she be upholstered and encased in modern fashionable paraphernalia. He needs no flattering.

The Lecture Committee, the students may be assured, has used good judgement and made no little effort to secure the best. There is embodied in this unique arrangement, with the faculty members to be included, what has taken years for the speaker to make his own but is at the command of the student at

practically no compensation. Let every student, instructor and vil-lager be present for they will find themselves amused, enthused and instructed and enaptured.

Members of the faculty, at appropriate times throughout the college year, will give special lectures before the student body. The beauty of these talks lies not in free admission but in the scholarly and masterly manner in which their respective subjects are handled. Professor it is who knows the student, his appetites and instincts and who seeks to render him the greatest service. That strange personage he is, who carries the interest of the student in his heart and his welfare in his note-book.

What would break up the monotony of the long study hours, were it not for Dr. Battle with his historical repeater, horse-shoe tree and turkey hens; Dr Hume's languages; Prof. Williams, with his psycho fun and -pun; Major Cain with his cane and beaver hat; Prof. Noble with his broad smiles and brogan shoes; Prof. Toy with his conglomeration of all the foreign languages; or Prof. Cobb with his lizards that lived thousands of years before the world was created, and his longa-mammostupendiosus whose petrified remains form the Rocky Mts?

The dates and order of the lectures will be published as soon as possible. Dr. Baskerville, the Chairman of the Committee was suddenly called away and the writer was unable to see him in time for this issue.

Annual Athletic Meeting.

An enthusiastic meeting of the student body was held in the College Chapel, Thursday, Sept. 18th, for the election of officers of the Athletic Association and TAR HEEL editors. Mr. R. O. Everett acted as temporary chairman and called for nominations for President of the Association. Mr. I. F. Lewis, '02, was elected and took the Chair. The following men were elected to fill the remaining offices: Frank Smathers, Law, Vice President; G. L. Jones, '03, Secretary and Treasurer; and Jake Morehead, '03, Chief Cheering Engineer.

The TAR HEEL Board was then voted on: N. W. Walker, '03 received the highest number of votes for Editor-in-Chief and T. J. Gold, '03, Business Manager. L. L. Parker, F. S. Hassell, H. V. Stewart, R. M. Harper and N. R. Graham were selected as Associate Editors.

C. A. Shore, '01 was made post-graduate member of the Advisory Committee on Athletics and Jack Rountree, '03, undergraduate representative.

Council, one of our best football players, is at the University of Virginia this year but Foust is back again so let er go.

All communications for this paper should be in the hands of the Editor-in-Chief by Monday at noon to insure publication the same week. We shall be glad to publish pertinent discussions of college topics. The Tar Heel will welcome news items, and hopes the whole college will aid it along this line.

With this issue a new board of editors assume the duties and responsibilities incident upon its publication, and send forth the initial number of the eleventh volume of THE TAR HEEL with bright hopes and most favorable prospects. And tho' the editors take up the work with a feeling of hesitancy, yet they do it with a firm purpose to keep THE TAR HEEL in the foremost ranks of Southern collegiate journals, and to make it, fellow students, worthy of your support and representative of the varied life of our Alma Mater.

But to do this requires something more than editorial support. Your ideas, your interest and your co-operation are needed; indeed they are essential. Let us have these and in turn we promise you it shall be our aim to make THE TAR HEEL what you would have it—an influential factor in Southern college life.

Inasmuch as THE TAR HEEL is the organ of the Athletic Association it is true that athletics should command first place in its columns, yet it is confined by no means exclusively to the athletic side of our college life. It represents every phase of life and work at the University. The editors hope the students will feel no hesitation or reluctance in furnishing its columns with pertinent discussions of college topics.

To the new men at the University THE TAR HEEL wishes to give a few words of advice with reference to society work, and to urge upon them the importance of joining one of our two literary societies. First we would say to every new man, join the society of your choice at the first opportunity. Hear our reasons:

This is an age of sharp competition, political chicanery and favoritism. Therefore, it is a time when the man of action must, if he is to succeed, keep his eye upon changing conditions, watch for new developments, be able to see what are the possibilities in any situation, and seize upon the opportunity while it is yet in the embryonic state. The University training helps you to do this. But there is

another side of your training that is left to the literary societies. The man of action must be able to discuss questions clearly, forcibly and logically. The societies train you to do this. University men are men of action; therefore it is of prime importance that they avail themselves of the opportunities offered by these two old societies, which are coeval with this University and among the best in this land. Truly we can say "Come with us and we will do thee good."

In an article in this issue under the head of Foot Ball Prospects we endeavor to give our alumni and friends some idea of what they may expect from the team of 1902. The outlook is indeed gratifying. And in predicting a winning team we base our prophesy upon these facts. We have many of our old men back; we have an abundance of excellent new material from which to choose; we have in Mr. Olcott a most excellent coach; and back of all this we have a loyal enthusiastic student body. Ingraft Yale tactics upon "tar heel" grit and enthusiasm and you have a combination that is invincible—Nine nabs for the team of '02.

This week a copy of THE TAR HEEL is sent to every student in college. This is done in order to inform you that it is time you enter your name upon the regular subscription list if you have not already done so.

To the students of the University—it is a source of both pride and pleasure to know that during the summer the Library has undergone so many improvements. Among the changes may be mentioned the following—All works on the subjects of History and Education have been recatalogued according to the Dewey Decimal System. A card of instructions issued by the librarian makes it a simple matter to find any book in the library. This is a great convenience to the student, and also saves the library force a great deal of work. A diagram of the library, together with indicators on the shelves, shows in what sections of the library the different subjects are. New step-ladders are also being added.

The library force has been increased this year from two to four assistants. This is an important change. Few students, who have not assisted in the library have any conception of the amount of work connected with it. The library force in the past has been overworked and forced to leave undone much that should have been done. The addition of two new assistants lightens the work of each man and makes it possible for everything to be done as it should be.

German Club.

The German Club met in the old Mathematics room of the South building on Monday Sept. 22nd and elected the following officers for the ensuing year: President J. B. Ramsey; Vice President M. C. Stanton; Secretary G. G. Galloway; Treasurer Preston Cummings. Mr. Francis Gudger was chosen to lead the October german.

Fancy Stationery!

Be sure to see my line of Stationery before making your purchases. Specialty of fraternity goods.

H. P. STEVENS, No. 1, M. A. S. B.

Locals.

Mr. Robt. L. Payne, ex-'03, now Med. at Pennsylvania, stopped over last Friday.

Several old students were with us the first few days of the present term. Among them were J. S. Whitehead, Lawrence Jones, Marvin Carr, John Carr, Alfred Berkeley.

Messrs. J. K. Hall and Eben Alexander, Jr. left yesterday for Jefferson Medical College.

Get your hair cut at the old stand. Prof. Thos. Dunstan.

Judge G. A. Jones, of Franklin, visited his son, G. L. Jones, '03, a few days during last week.

Mr. Ernest Galloway, of Mount Airy, Phar '02, was on the Hill several days ago.

See Sorrell. Get Kodak and Camera free of charge.

Several Freshmen broke the stillness and quietness of midnight last week by assembling on the campus and singing a doleful strain to the bright moonlight in all its glory. It is not known whether some external stimulus was applied to prompt their musical nature.

The Y. M. C. A. is thinking of getting up a little book containing the name of every student in the University with his—or—her address and having it published this fall, possibly within a month. This would be one of the best things that could be done for the students but it would mean some hard work for those who are to have the book published.
